ADVENT OF THE MUGHALS

PYQ No Prelims or Mains question quoted in handout or slides · low priority

✎ *A State is an organisation, and power gathers in a strong person. Babur 26-30's guns founded the Mughal State, Akbar 56-05 built its machinery (Mansabdari, land revenue). It ran on personal loyalty, so when the King could not deliver, it began to hollow out.*

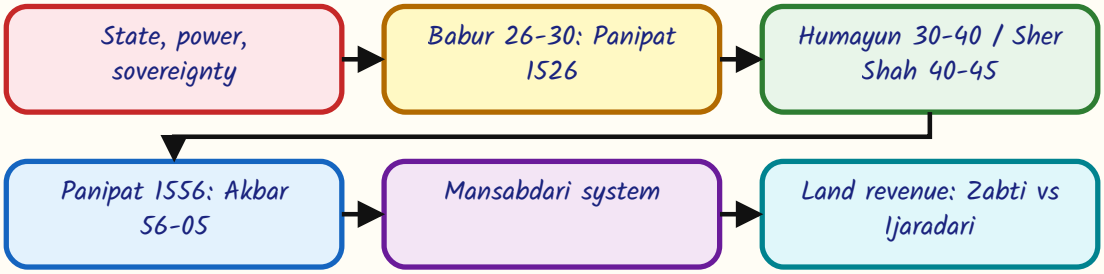

📖 THE STORY FIRST (same story as the textbook)

A State is an organisation, and power centralises in a strong personality: Babur's guns founded a Mughal State, Akbar built its machinery (Mansabdari and land revenue), and the machine ran on personal loyalty, so when the King could not deliver, it began to hollow out.

1. **A State is an organisation.** Power centres on a strong personality; when he weakens it moves down or sideways. A State is the organisation that rules land and people through L, E, J.
   → Now watch one such organisation arrive in India.
2. **The Mughal ledger.** Fifteen Mughal monarchs, Babur 26–30 to Bahadur Shah Zafar 37–57, pass the baton by reign codes. Only Humayun 30–40 has two reigns. Mughal State: 1526–1858, break 1540–55.
   → It all starts with a prince who has lost his home.
3. **A prince without a home.** Babur 26–30, born 1483 in Fergana, lost it by 1512; Kabul (1504) was poor. India was rich but weak under the Lodis, so he attacked from 1519 with Ottoman gunners.
   → So he comes down through the Khyber Pass.
4. **Panipat, 1526.** Babur 26–30 had about 12,000 men but small bronze cannons. Ibrahim Lodi was killed at Panipat 1526. The Delhi Sultanate (1206–1526) ended; a Mughal kingdom, not yet an empire, began.
   → But a kingdom is easier to win than to keep.
5. **The son loses it.** Humayun 30–40 lost to Sher Shah 40–45 Suri 40–45 at Chausa (1539) and Kanauj (1540); Suris ruled 1540–55. Sher Shah's Patta-Qabuliyat, Rupiya and Grand Trunk Road outlasted him.
   → Humayun now needs an ally.
6. **Persia's price.** Safavids helped for a price: Shia forms, Kandahar, Persian culture. Humayun 30–40 won at Sirhind (1555), then died in 1556 falling from his stairs. Bairam Khan beat Hemu for Akbar 56–05.
   → Now a boy emperor must build the machine.
7. **Akbar's machine: the Mansabdar.** Akbar 56–05 built Mansabdari: each Mansabdar held a mansab, Zat plus Sawar rank, paid in cash or Jagir. Lineage beat merit, Birbal excepted. Tankha Jagir was transferable; Watan Jagir hereditary.
   → Someone has to fill the treasury that pays them.
8. **Land revenue: who gets what.** Owner, tenant, collector and State all hold rights in land. The State assessed through Patwari, Qanungo, Amil, Amalguzar, settled by Patta and Qabuliyat, collected via Zamindar (about 10%) and Muqaddam.
   → But a machine run on personal loyalty has a flaw.
9. **The flaw.** Mansabdari was a patron-client bond: rank and Jagir for loyalty and an army. Loyalty was personal, so after 1707, if the King could not deliver, it dissolved. Army: 2 lakh paper, 1 lakh real.
   → A short-of-cash State then reaches for the auction.
10. **The auction door.** When the treasury ran short, Ijaradari auctioned collection to an Ijaradar paying in advance for 3 to 5 years. Akbar 56–05 practically abolished it; weak rulers revived it until Warren Hastings 73–85 made it the Farming System, 1772.
    → Meanwhile Akbar tried to hold his diverse realm by faith.
11. **Akbar's faith ladder.** To hold a diverse realm Akbar 56–05 moved from Ibadat Khana (1575) to Mahzar (1579) to Din-i-Ilahi (1582), all resting on Sulh-i-Kul. Jizya: first Muhammad bin Qasim, then Qutb-ud-din Aibak 06–10.

Cast: Babur 26–30 = The Gunner · Ibrahim Lodi = The Last Lodi · Humayun 30–40 = Hum-do (two reigns) · Sher Shah 40–45 Suri 40–45 = The Roadbuilder · Bairam Khan = The Guardian · Hemu = The Samrat from Rewari · Akbar 56–05 = The Machine-builder · Birbal = The Exception · Zamindar = The Collector · Ijaradar = The Bidder · Aurangzeb 58–07 = Alamgir · Warren Hastings 73–85 = The Formaliser · Muhammad bin Qasim = The First · Qutb-ud-din Aibak 06–10 = The Systematiser

At a glance: the route of the chapter

⚡ BASICS: POWER, STATE, SOVEREIGNTY

📖 Story link · beat 1: Story so far: nothing yet. First the words: power, State, sovereignty. Ask: what is a State, and who is it ruling?

Ladder: Feudal (old, regressive) to Non-modern (transition) to Modern (new, progressive). Old is not always feudal. Raja Ram Mohun Roy, Father of Modern India, wanted a return to the pure past of Vedantic traditions. Power = Economic + Political + Military + Social (awe in hearts) + Intellectual/Technological + Spiritual; one rising or falling drives the others.

Teacher stresses: power centralises in a strong personality (human or institution); when it weakens it goes vertically down (decentralisation) or horizontally to a replacement (Kodak to smartphones). Till 1707 strong Mughals; after, regional powers; Marathas by 1750s, broken at Panipat 1761; then EIC.

🗺️ Country, Nation, State

→ Country = territory (Desh)

→ State = organisation ruling a country and its people (Rajya); to rule = make, implement, settle disputes (L, E, J) over domestic affairs = governance

→ Nation = people who are one (fraternity), equal (equality), supreme (liberty): French Revolution (1789); "We the People" = Nation (Rashtra)

👥 State structure

→ Symbolic sovereign (President, Head of State) over Legislature, Executive, Judiciary, at Centre and Province

→ Executive = Council of Ministers, through military and civil servants

→ Modern: separation of power (horizontal SoP = L/E/J; vertical SoP = federalism); non-modern (Mughal): absolute, excessive centralisation; feudal: powerless king, strong lords

NCERT vs class: NCERT: Modern State = "centralised power over a defined territory"; class: separation of power. Both right. Say "Province" for federal units.

"Republic of India"

→ Name of the State ruling Territory and People since 26 January 1950; Constitution's key goal = create this State

→ MIH = history of States that ruled India: Mughal, Maratha, Awadh, Company State (EIC); INM = people's movement to end the colonial State and set up the Nation State

Type of State	Meaning
🗺️ Military State	Set up by military power (all States till 1950)
🗺️ Police State	Sustained by overuse of police
Kingdom / Empire	Head by bloodline; Empire = sum of kingdoms; dynasty = monarchy (Bourbon)
🗺️ Company State	EIC's (1765–1858)
🗺️ Nation State	Set up by the people

Motives: family welfare; company profit; NGO social; political party power over State (1886 INC rule: only political issues, so INC = party); State = territory. Common man wants security (physical, economic, socio-cultural, spiritual). Social power falls = revolt rises (1971, Indira Gandhi) (1971, Indira Gandhi).

Sovereignty

→ Symbolic sovereignty (head of State, real power 0) + L, E, J over:

- **External** → Defence, Communications, Foreign Affairs (war, diplomacy, trade)
- **Domestic** → Home, Finance, Agriculture, Industry, Health, Education, Transport

→ Sovereign functions = subjects = affairs = 7th Schedule of COI 1950

Phase of INM	Years	Tag
Moderates	1857–1905	the Pen
Extremists	1905–20	the People
Revolutionaries	1907–47	the Gun
Gandhian Era	1920–47	–
Many Voices of the Nation	–	Working class, women, Dalit

Remember battles: War = sum of battles; hold Geography, Duration (Seven Years' War), Participants, Reason (Austrian War of Succession, 1740–48). Passages: Khyber Pass = India's NW entry; natural pass or strait (Gibraltar; Dardanelles); man-made bridge, tunnel, canal (Suez, Panama; 1914 = key to rise of USA).

THE MUGHAL MONARCHS: QUICK REFERENCE

📖 Story link · beat 2: Because a State is an organisation with a head, we list its heads. Ask: where do the reign codes pass the baton?

#	Monarch (code = reign years)	Reign
1	Babur26-30	1526–1530
2	Humayun30-40	1530–1540 & 1555–1556
3	Akbar 56-05	1556–1605
4	Jahangir05-27	1605–1627
5	Shahjahan27-58	1627–1658
6	Aurangzeb58-07 (Alamgir)	1658–1707
7	Bahadur Shah07-12 (Shah Alam I)	1707–1712
8	Jahandar Shah12-13	1712–1713
9	Farukhsiyar13-19	1713–1719
10	Muhammad Shah19-48 (Rangila)	1719–1748
11	Ahmad Shah Bahadur48-54	1748–1754
12	Alamgir II54-59	1754–1759
13	Shah Alam II60-06	1760–1806
14	Akbar II 06-37	1806–1837
15	Bahadur Shah Zafar37-57	1837–1857

Teacher stresses: Humayun 30–40 = only Mughal with two reigns (beaten by Sher Shah 40–45 in 1540, back 1555, dead 1556). List ends 1857. Aurangzeb 58–07 died 1707 = last powerful emperor; successors to Bahadur Shah Zafar 37–57 (Bahadur Shah II) = Later Mughals. Mughal State = 1526–1858, intermission 1540–55. Akbar 56–05 reigned 49 years. Began with a cannon blast at Panipat, ended with cannon blasts in Delhi.

👫 BABUR 26-30 AND FIRST PANIPAT (1526)

📖 Story link · beat 3: Because the Lodis were fragile and Kabul was poor, a Fergana prince turned to India (Panipat 1526 follows, beat 4).

Who were the Mughals?

→ Babur 26-30 born 1483, son of Umar Shaikh Mirza, ruler of Fergana (Timurid Empire, in Uzbekistan, about half of Haryana)

→ "Mughal" = Persian corruption of "Mongol"; Turko-Mongol; maternal ancestor Genghis Khan (1206–27), Mongol Empire (1206–1368); paternal Timur (1370–1405), Timurid Empire (1370–1507); proud of Timur (took Delhi 1398), so called themselves Timurids

Why India?

→ Fergana lost, ambitions collapsed 1512; Kabul (captured 1504) economically poor

→ India rich, fragile under Lodi dynasty (1451–1526); Ottoman gunners; attacks from 1519

→ Board: Khyber Pass; 1526 Panipat; 1528 Agra; 1529 Gwalior and march east

👫 First Panipat 1526

→ Babur via Khyber Pass vs Ibrahim Lodi; army smaller (about 12,000) but small bronze cannons decisive: technology, not numbers

→ Lodi killed; Delhi Sultanate (1206–1526) ended; kingdom, not yet an empire (empire under Akbar 56-05; greatest under Aurangzeb 58-07)

→ Why Panipat (1526, 1556, 1761): near Khyber Pass; bottleneck between Thar (south) and Himalayan foothills (north); Yamuna east blocks flanking

Alert: Kala Amb memorial in Haryana = 1761 Third Battle, not 1526.

🌐 HUMAYUN 30-40 AND SHER SHAH 40-45

📖 Story link · beat 5: Because a kingdom is easier to win than to keep, the son lost it to Sher Shah. Then Akbar's guardian wins it back (beat 6).

Sher Shah 40-45

→ Afghan-Pathan, born Farid Khan, Bihar, c. 1486; ancestors Jagirdars in Bihar

→ Sher Khan title for killing a tiger, serving Bahar Khan Lohani (Bihar Governor under Lodis till 1526, then independent Sultan Md Lohani)

→ Beat Humayun at Chausa (1539), Kanauj (1540); Suri dynasty (1540–55); died 1545

3 R – Records (Patta, Qabuliyat) · Rupiya (silver coin) · Road (Grand Trunk Road, Peshawar to Sonargaon): Sher Shah 40-45's reforms, "The Roadbuilder"

Revenue reform: standard measurement and assessment = precursor to Akbar 56-05's Zabti. Patta = State to peasant (land, name, LR due); Qabuliyat = peasant to State (agreement). First bilateral system; ancient Patta one-sided (Tamra Patra, copper inscription). Rupiya = standard weight and purity, ancestor of rupee.

🌐 Humayun 30-40 returns

→ Safavids of Iran helped; price: adopt Shia practices, cede Kandahar, promote Persian culture (genuine conversion debated); result: Irani group of Mansabdars

→ 14,000 Iranian troops; Suris beaten at Sirhind (Punjab, 1555); died January 1556 falling from library stairs

→ Hemu (Hemchandra Vikramaditya, Rewari), Suri commander and minister, seized Delhi, declared himself Samrat

Second Panipat 1556: Bairam Khan (guardian of 13-year-old Akbar 56-05) beat Hemu; Mughal State secured for 150 years. Humayun's defeats: Chausa 1539, Kanauj 1540; Sirhind 1555 = key recovery.

AKBAR 56-05: THE MANSABDARI SYSTEM

📖 Story link · beat 7: Because the kingdom was re-won, Akbar built a machine to run it. Its fatal flaw is personal loyalty (beat 9).

Mansabdari

→ Built by Akbar 56-05 (1556–1605): military-bureaucracy; Mansab = post / rank, Mansabdar = holder; dual military + civil function

→ Rank = Zat + Sawar: Zat = personal rank; Sawar = horsemen maintained; e.g. 2,000 + 3,000 = 5,000

→ Eligibility: lineage, not merit (like pre-revolution France); exception Birbal

→ Pay: cash (Naqdi Mansabdar) or Jagir (Tankha Jagir, holder Jagirdar); Iqtadar of Sultanate ~ Jagirdar

Land categories

→ Jagir: revenue to Mansabdars

→ Khalisa: royal land, revenue to King (pays Naqdi Mansabdars, State expenses)

→ Inam: gifted land for a beneficiary

→ Mashrut Jagir: temporary top-up for a hard assignment, revoked after (base vs bonus)

→ Early 18th c.: over 8,000 Mansabdars; four-fifths of LR from Jagirs, one-fifth Khalisa (teacher: 4,000-5,000 at 17th-century peak; King richest)

Axis	Tankha Jagir	Watan Jagir
💡 Nature	Salary grant, temporary	Hereditary, permanent
On death	Confiscated (so lavish spending)	Passes to heirs
Transfer	Rotated at will; capped at fixed LR	Not rotated
Holder	Any Mansabdar	Rajput chiefs / submitted rulers
Tribute	-	10% of LR as Peshkash

Trap: Zamindar's Milkiyat is not a Watan Jagir; Inam is confiscated after death like Tankha. Jagirdar takes 100% of LR on Tankha land, 90% on Watan land. Example split: LR Rs 30 salary, Rs 70 army.

⚠ Fatal weakness

→ Patron-client bond; loyalty personal, not institutional, transactional and conditional

→ King cannot deliver desired Mansab and Jagir, loyalty dissolves; hollow armies on paper (2 lakh paper, 1 lakh real)

→ Modern State: impersonal loyalty to institution and law

Teacher stresses: institutional / systemic weakness; post-1707 Mansabdars denied Mansab and Jagir turned disloyal. Patron = senior, gives; client = junior, takes. ⭐

💰 MUGHAL LAND REVENUE (LR) SYSTEM

📖 Story link · beat 8: Because the Mansabdars had to be paid, the State needed a revenue machine. Ask: who assesses, settles, collects?

Four stakeholders: owner (King; sells, leases), ryot (occupies, fair rent), collector (paid for service), State (assess, enforce, receive). LR = financial backbone. Systems: Zabti and Ijaradari. State actors get salaries; non-State get commission or profit. 💡

Step	Level	Officer	Role
A1 Record	Village	Patwari	Ledgers (Bahi khata, Khasra); non-state; no watan right (like Kulkarni)
A2 Record	Pargana	Qanungo	State official; hereditary custodian of tax rates (vatan right); archives records
B1 Assess	Pargana	Amil	Assessed demand, audited

B2 Assess	Sarkar (district)	Amalguzar	Supervised Amil
C Settle	Ryot	Patta and Qabuliyat	Patta (title deed from govt, check on over-extraction); Qabuliyat (signed by peasant)
D Collect	Village	Muqaddam	Headman (Mukhiya)
E Oversight	Pargana / sarkar	Amil, Amalguzar	Under Zabti

📝 Four steps

→ Assessment (field survey: past production and LR, rainfall, droughts, floods, land records)

→ Settlement (Patta, Qabuliyat)

→ Collection (Zamindars; audit by Amil, Amalguzar)

→ Deposit to King (Khalisa) or Jagirdar. Ladder: Centre, Suba, Sarkar, Pargana, Village. Amlas = Zamindar's employees.

Zabti (Akbar 56–05)

→ State distrusted Zamindars: Amil under Amalguzar measured land scientifically; LR = % of gross produce (net = later British reform after agrarian ruin)

→ Mansabdari = State structure; Zamindari / Zabti = LR system: do not mix

The Zamindar

→ Non-state agent; police duties; traditional leader; commission about 10% = Nankar / Malikana; own land Milkiyat; Abwabs = customary extra levies

→ Primary: 100–300 villages; Intermediary: 1000–3000 villages, passes LR to treasury (Khalisa) or Jagirdar (Jagir)

→ Zamindar collects LR; Jagirdar consumes it. Ladder: King helicopter, Jagirdar Ferrari, Intermediary Fortuner, Primary Honda City, Khudkasht cycle, Pahikasht on foot

	Khudkasht	Pahikasht
Land	Same land yearly; customary occupancy (not ownership); Patta	Different lands (share-croppers)
Standing	Small cultivator, cannot be removed	Landless, rightless (Vagrant / Banjara)

💰 REVENUE FARMING: IJARADARI

📖 Story link · beat 10: Because a short-of-cash State reaches for the auction, Ijaradari opens the door.

Ijaradari

→ Right to collect revenues of an area auctioned to Ijaradar (urban merchant / moneylender; farms revenue, not land; profit motive)

→ Pays bid, fully or partly in advance, to Jagirdar or State; 3 to 5 year contract (teacher 3–4); failure = re-auction; no interest in welfare

→ Why: need (war, bad harvest) or greed (Jagirdar, weak State)

	Zamindar / Zabti	Ijaradar / Ijaradari
Basis	Hereditary, traditional	Auction winner
Cap	About 10%	None (promise 1 lakh, extract 3, keep 2)
Settlement	Ryot (Patta)	Ijaradar deposits to State
Peasant	Subsistence; legal right	Ruined; no protection

Teacher stresses: King / Jagirdar and Ijaradar happy; ryots (no Patta) and Zamindar (loses Watan right) unhappy. Revolt needs leader + followers. Churaman 95–21 Jat: Zamindar-led revolt (~1695), high LR, led to the Jat Kingdom (Chapter 5). ⭐

Muqatai
Delhi Sultanate: first formal farming

Akbar 56–05
practically abolished

Jahangir 05–27
marginal return

Shahjahan 27–58
ruined (banjar) lands

Aurangzeb 58–07
expanded; Deccan wars

Jahandar Shah 12–13
Punjab, Bengal

Farukhsiyar
1713–19: Khalisa, first time

1772
Warren Hastings 73–85: Farming System

Pattern: abolished when State strong, revived when weak. Successor States continue: Awadh (Sadat Khan 22–39), Hyderabad (Nizam-ul-Mulk 24–48). Hastings: Governor of Bengal 1772, Governor General 1773–75 (Regulating Act 1773; formally assumed 1774). LR share: Akbar 1/3rd; Shah Jahan (1627–58), Aurangzeb 1/3rd to 1/2; Later Mughals (1707+) 1/3rd to 2/3rd.

AKBAR 56–05'S RELIGIOUS VISION PYQ 2025

📖 Story link · beat 11: Because the Emperor ruled a diverse realm, Akbar held it together by faith.

1575
Ibadat Khana, Fatehpur Sikri

1579
Mahzar: Emperor final word on faith

1582
Din-i-Ilahi: syncretic (Islam, Hinduism, Zoroastrianism, Christianity)

Sulh-i-Kul
equal respect for all faiths

Teacher stresses: Din-i-Ilahi = religio-political experiment, not a movement. Ibadat Khana = mid-path; Mahzar = Infallibility Decree; Din-i-Ilahi and Sulh-i-Kul = social peace. Source lists a 2025 Mains row on this (truncated; verify).

JIZYA, MAPS

📖 Story link · beat 11: Because religion shaped policy, a side question on Jizya; then fix the map, since a State is territory.

Jizya (tax on non-Muslims): Muhammad bin Qasim first imposed it, Sindh, 8th century; Qutb-ud-din Aibak 06–10 and successors institutionalised it across the Sultanate from early 13th century. Maps: pre-1526 Deccan (Bijapur, Golconda), Goa, Vijayanagara 1336–1646; Babur 26–30 had no coast, Akbar 56–05 added coastal trade; Babur founder, Akbar and Aurangzeb 58–07 expanders.

1206
Sultanate

1398
Timur takes Delhi

1526
Panipat I

1539–40
Chausa, Kanauj

1555
Sirhind

1556
Panipat II

1575–82
Ibadat Khana to Din-i-Ilahi

~1695
Churaman 95–21

1707
Aurangzeb dies

1772
Farming System

1857
Zafar 37–57 deposed

Recall drill: cover and answer

Teacher's ladder of eras?	Feudal, then non-modern (transition), then modern	State vs Country vs Nation?	State = organisation (Rajya); Country = territory (Desh); Nation = people (Rashtra)
Why did Babur 26-30 win Panipat 1526?	Small bronze cannons and Ottoman gunners; about 12,000 men vs Ibrahim Lodi	Sher Shah 40-45's three reforms?	Records (Patta, Qabuliyat), Rupiya, Road (GT Road, Peshawar to Sonargaon)
Safavid price for helping Humayun 30-40?	Adopt Shia practices, cede Kandahar, promote Persian culture; 14,000 troops, Sirhind 1555	Net rank in Mansabdari?	Zat + Sawar; eligibility lineage not merit, exception Birbal
Tankha vs Watan Jagir?	Tankha: transferable, confiscated on death. Watan: hereditary, 10% Peshkash	Four steps of any LR system?	Assessment, Settlement (Patta + Qabuliyat), Collection, Deposit
Zamindar commission and name?	About 10%, Nankar / Malikana	Order of Akbar 56-05's religious steps?	Ibadat Khana 1575, Mahzar 1579, Din-i-Ilahi 1582, Sulh-i-Kul

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

NGO = Non-Governmental Organisation — Private voluntary body working for social causes

EIC = Company State

LR = MUGHAL LAND REVENUE

⚖ DECLINE OF THE MUGHAL STATE ⚖

PYQ Prelims 2003 · Mains 2017 · Mains 2014 (Panipat, see Ch 1)

✎ *Peak, then rot, then collapse. Aurangzeb 58-07 reached the peak in 1707, but his wars and religious policy drained treasury and goodwill. Weak emperors broke the Mansabdari bargain, factions rotted court and army, and Marathas and Nadir Shah exposed it.*

📖 THE STORY FIRST (same story as the textbook)

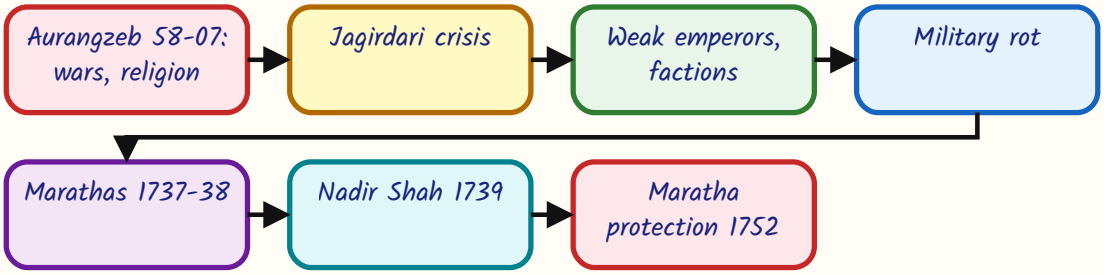

Peak, then rot, then collapse: Aurangzeb 58-07 reaches the peak in 1707 but his wars, religious policy and the Jagirdari crisis empty the treasury and the people's goodwill; weak emperors cannot keep the Mansabdari bargain, so factions and corruption rot the court and army; the Marathas and Nadir Shah then expose the rot and the emperor ends up under Maratha protection.

1. **The peak that hid the rot (1707).** In 1707 Aurangzeb 58-07 ruled the biggest Mughal State, yet economic and social power had not peaked. All five powers would weaken together. He laid the foundation of decline; weak successors added to it.
   → So what exactly did Aurangzeb do?
2. **The emperor who never stopped fighting.** Aurangzeb 58-07 (1658) wanted the Deccan: Bijapur 1686, Golconda 1687. Marathas never submitted. About 40 years of war drained treasury and Mansabdars; by 1705 Marathas were winning.
   → But war was not his only mistake: he also lost the people.
3. **The people turn away.** Aurangzeb 58-07 followed orthodox Islam: Jizya re-introduced 1679, Kashi Vishwanath demolished 1669. He executed Guru Tegh Bahadur (1675) and Sambhaji 80-89 (1689), who became martyrs and hardened Sikh and Maratha feeling.
   → Meanwhile the nobles who run his army are being squeezed too.
4. **The bargain breaks.** Mansabdari ran on personal loyalty and give-and-take. A strong emperor kept an unhappy Mansabdar quiet; a weak one could not, so nobles lobbied, backbit and plotted a takhtapalat.
   → Nobles busy in court politics are not busy with the army.
5. **A paper army.** Europeans won with file firing, grapeshot and bayonets; Haider Ali 61-82 reformed, the factional Mughals did not. Court politics, not merit, chose commanders, and Mansabdars kept fewer cavalry than their Sawar rank.
   → And the money problem explains why they cheat.

6. **Too many Mansabdars, too little land.** Mansabdars rose while land shrank, like a water crisis. After 1686–87 Khalisa grew yet Deccani nobles came in; later Mughals over-recruited. 5% of Mansabdars held 61% of Jagir revenue. Teacher: most important cause.
   → Insecure tenure turns the Jagirdars into looters.
7. **Kal ho na ho Jagir.** Jagirs were shuffled, so no Jagirdar felt safe and each extracted the maximum fast. Ijaradari spread; Zamindar revolts followed, like Churaman 95–21 Jat in 1695. Corrupt armies lost to rebels and Nadir Shah.
   → At court, the factions now fight for the throne itself.
8. **Five factions, three rounds.** Five court factions fought. Farukhsiyar 13–19 refused to be a Sayyid puppet; Sayyids and Marathas (1719) killed him and installed Muhammad Shah 19–48. Nizam-ul-Mulk 24–48 took Hyderabad, 1724.
   → The Marathas watch Delhi's weakness.
9. **The Marathas test Delhi.** From 1705 Marathas beat Mughal forces. In 1737 Peshwa Bajirao 20–40 plundered Delhi; in 1738 they beat the Nizam's army, and the Treaty of Bhopal gave Chambal–Narmada lands and Malwa.
   → Then a bigger predator arrives from Iran.
10. **Nadir Shah, the lowest point (1739).** Nadir Shah wanted plunder. Karnal routed the Mughals; Nizam bought peace for Rs 50 lakh, but snubbed Sadat Khan 22–39 goaded Nadir to Delhi. 60 days, 2 lakh dead, 100 crore looted, Peacock Throne.
    → After this blow, the emperor needs a protector.
11. **Protector and puppet (1752–54).** After Nadir Shah came Abdali's first invasion, 1748. In 1752 the emperor came under Maratha protection; in 1754 they installed Alamgir II 54–59. Many States replaced one; Marathas were No. 1.
    → Now: how will the exam ask this?
12. **How the exam asks it.** Prelims 2003: Shah Alam II 60–06 feared his Wazir Imad-ul-Mulk, not invaders. Mains 2017: find the protagonist, weight 30% Mughal decline and 70% regional powers; flip if the Mughals are the subject.

Cast: Aurangzeb 58–07 = The Overreacher · Akbar 56–05 = The Foundation · Churaman 95–21 Jat = The Rebel Zamindar · Zulfiqar Khan = The Irani Wazir · Sayyid Brothers = The Kingmakers · Farukhsiyar 13–19 = The Puppet Who Refused · Muhammad Shah 19–48 = Rangila · Nizam-ul-Mulk 24–48 = Save My Hyderabad · Balaji Vishwanath 13–20 = The Sayyids' Ally · Bajirao 20–40 = The Raider · Nadir Shah = The Nadir · Sadat Khan 22–39 = The Snubbed · Alamgir II 54–59 = The Maratha Puppet · Shah Alam II 60–06 = The Emperor in Exile

At a glance: peak, rot, collapse

FRAMEWORK: HOW TO ANALYSE THE DECLINE

📖 Story link · beat 1: Story so far: a State at its peak in 1707. Learn the five powers and two lenses first. Ask: vertical or horizontal?

MIH starts here. Mughal State at greatest extent under Aurangzeb 58–07 (1707) then collapsed: within about four decades a small area around Delhi–Agra under Maratha protection. Later Mughals: Bahadur Shah (1707–12) to Zafar (1837–57). 1707 = peak of territory, not of economic or social power. Travancore and Assam never part of the Mughal State.

TEMPS — Technological · Economic · Military · Political · Social: State power = the five, all weakened together (own mnemonic)

Tool	Meaning	Mughal example
Vertical shift = decentralisation	Emperor weakens, power moves down	After 1707 Mansabdars became real centre
Horizontal shift = replacement	One entity replaces another at same level	Sultanate by Mughals at Panipat 1526; British super-power by US-USSR at end of WW2 (1945)

⚡ What each power means

→ Political = emperor's word is rule ("vachan hi hai shasan"); proportional to territory

→ Economic = treasury / public exchequer = State's bank account

Military (4 parts)
- → Number of soldiers
- → Technology
- → No military corruption
- → Strong military leadership

→ Social = awe / love in hearts (common man wants security, not to be MP or MLA); falls = revolt rises (1971, Indira Gandhi)

→ WW examples: 1945 USSR largest army; 1945 atomic bomb (USA)

Teacher's 6 factors of decline

→ 1. Role of Aurangzeb 58–07: wars, religious policy
→ 2. Weak emperors post-1707
→ 3. Military weakened: external (Nadir Shah), internal (Marathas)
→ 4. Institutional decline: disloyal Mansabdars, military corruption
→ 5. Jagirdari crisis of 18th century
→ 6. Lack of reform (tech and organisation); all end in territorial decline

Teacher stresses: concepts first, then facts. Concepts: Factionalism (Royal vs Royal, Royal vs Noble, Noble vs Noble); Weak personality (Rangila, Muhammad Shah 19–48, 1719–48); Military weakness + shrinking territory (external: Nadir Shah 1738–40; internal: Marathas). Apply both lenses to every decline question.

AURANGZEB 58-07'S WARS

📖 Story link · beat 2: Because the peak hid weak economic and social power, the story starts with Aurangzeb's wars.

👫 Wars and cost

→ Power in 1658 after succession war (killed brother Dara Shikoh); mission: conquer all India, esp. Deccan

→ War pays only if ROI positive and peace follows; else economic disaster

→ Bijapur annexed 1686 (Adil Shahi 1489–1686); Golconda 1687 (Qutb Shahi 1518–1687); both successors of Bahmani Sultanate (1347–1527)

→ Three-way fight in Bijapur: Mughals, Bijapur, Marathas; by 1705 Marathas winning; by 1750s reversed most of his gains and some of Akbar 56–05's

→ 40 years of war: drained treasury, broke Mansabdars, later military corruption (Sawar not maintained)

War = rapid investment (men, horses, weapons, logistics); victory = slow ROI (territory, LR, ports; Hitler wanted the Urals). Gol Gumbaz = mausoleum of Muhammad Adil Shah (1627–56). Deccan triangle: Aurangzeb + Marathas + Bijapur; Vijayanagara (1336–1646) below.

Aurangzeb 58–07 (about 50 yrs)	Akbar 56–05 (about 50 yrs): foundation of rise
⚡ Orthodoxy: Jizya (1679), temples; GTB (1675), Sambhaji 80–89 (1689) executed: social power sad	Universal peace, syncretism: social power happy

Jagirdari crisis; wars about 45 years: economy sad, weak treasury inherited	Fair LR, no Ijaradari; Mansabdari machinery: economy, military happy

⚡ RELIGIOUS POLICY AND SOCIAL POWER

📖 Story link · beat 3: Because the wars cost money, the emperor also lost the people.

Jizya timeline

→ 712 Muhammad bin Qasim, Sindh: payers = Zimmis / Dhimmis (protected, free to worship, exempt from military service)
→ Institutionalised by Qutb-ud-din Aibak 06-10 (first Sultan 1206, Mamluk dynasty 1206–1290, Mamluk = military slave)
→ Babur 26-30 and Humayun 30-40 continued it
→ 1564 Akbar 56-05 abolished (Sulh-i-Kul)
→ 1679 Aurangzeb 58-07 re-introduced (additional tax on adult non-Muslim males; manner of collection hurt)
→ 1712 Zulfiqar Khan (Wazir of Jahandar Shah 12-13) abolished
→ 1717 Farukhsiyar re-imposed (handout); gone by 1719

Source conflict: handout says Farukhsiyar (1713–19) re-introduced Jizya in 1717; class slide says he continued the abolition, later re-imposed it, fades from 1719. Both agree: abolished 1712, re-imposed, gone by 1719.

Temples and martyrs

→ Kashi Vishwanath demolished 1669, Gyanvapi Mosque on site; order in Maasir-i-Alamgiri; refused repairs, cut land grants
→ Earlier razed by Aibak 06-10 (1194, then Ghori's slave-general) and Sikandar Lodi (1490); rebuilt by Ahilyabai Holkar of Indore, 1780
→ 1675 Guru Tegh Bahadur (GTB), 9th Sikh Guru; 1689 Sambhaji 80-89, elder son of Shivaji 74-80, after weeks of torture
→ Both offered convert-or-die, both refused: martyrs, hardened Sikhs and Marathas

👫 MANSABDARI TURNS AGAINST THE EMPIRE

📖 Story link · beat 4: Because treasury and people were weaker, the nobles who served the emperor came under strain.

⚠ Why the bargain failed

→ Loyalty personal to emperor, not impersonal to empire
→ Give-and-take: Mansabs and Jagirs for service and loyalty
→ Strong emperor: good = faith in future fairness, bad = fear; no action
→ Weak emperor: Mansabdar acts on disloyalty: court politics for best posts, or takhtapalat (plot to install favourite)
→ Reformers busy in factional rivalry: reforms slowed

WHY THE MILITARY WEAKENED

📖 Story link · beat 5: Because nobles were busy in court politics, the army was left unreformed.

⚠️ Three problems

- 🔧 No tech or organisational reform
  - → Europeans won with smaller numbers: file firing (rotating lines), grapeshot (many bullets per shot), bayonet on Brown Bess musket
  - → Haider Ali 61–82 (Mysore) reorganised on European model (class: French) and stayed formidable
- Weak commanders
  - → Under Later Mughals (1707–1858) court politics, not merit, decided appointments
- Military corruption
  - → Fewer cavalry than Sawar, difference pocketed; compounded by war drain and Jagirdari crisis; army corrupt, under-equipped, poorly led, technologically frozen

FACTIONALISM

📖 Story link · beat 8: Because loyalty was personal, nobles formed groups to control the emperor; the five groups, and the rounds in beat 8.

Faction	Identity	Example
Irani	Shia Persian	Zulfiqar Khan (Wazir of Jahandar Shah 12–13; ended Jizya)
Turani	Sunni Turkish-Uzbek	Nizam-ul-Mulk 24–48 (1724–48), Hyderabad Suba
Hindustani	Converted Indian Muslims	Sayyid Brothers (brought Farukhsiyar 13–19)
Hindu	Rajputs and Jats	Sawai Jai Singh 99–43
Deccani	Nobles absorbed from Bijapur (1686) and Golconda (1687)	none given

Factionalism = Royal vs Royal + Royal vs Noble + Noble vs Noble. Whoever controlled the emperor controlled Mansabs and Jagirs. No clear succession rule. Some Mansabdars carved out successor states instead of stabilising the centre. 💡

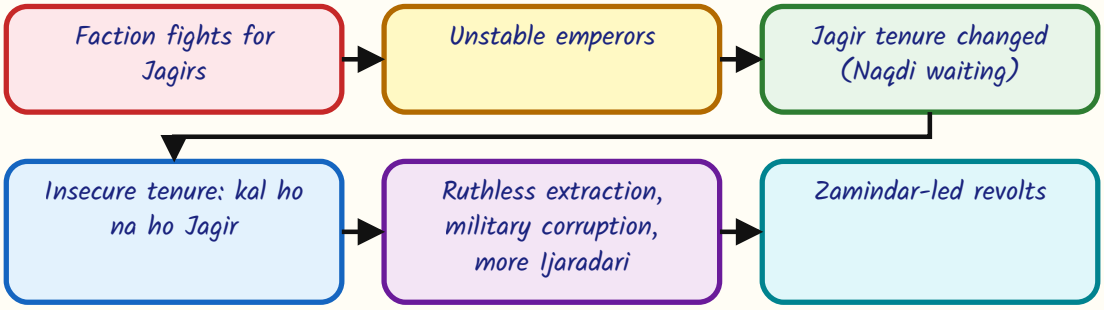

👫 JAGIRDARI CRISIS: MOST IMPORTANT CAUSE

📖 Story link · beat 6: Because there were more claimants than land, tenure became unsafe and everything below it cracked (beat 7 follows).

Jagirdari crisis

- → Mansabdars up + land down (water-crisis analogy): demand-supply mismatch
- → Origin: after Bijapur (1686) and Golconda (1687) Aurangzeb 58–07 made most lands Khalisa to fund war vs Marathas, yet Deccani Mansabdars came in
- → Over-recruitment by Later Mughals to buy loyalty (and post-1707 factionalism) while territory shrank (post-1705 Marathas)
- → Gross inequality: 5% of Mansabdars controlled 61% of Jagir revenue
- → Luxury inflation (partly EIC exports) made elite life unaffordable

The Jagirdari spiral

Teacher stresses: Ijaradari strips collection from Zamindars, the rural stabilisers; over-extraction means peasant revolts: Jat Kingdom from the 1695 revolt of Churaman 95-21 Jat, a Zamindar. Mansabdars did not maintain army as per Sawar. Chain: military corruption means victories for rebel states (Sikh, Marathas, Afghans) + external power (Nadir Shah), then loss of territory (State = organisation + territory). Jagirs shuffled to satisfy disgruntled Naqdi Mansabdars.

PROOF: FACTIONALISM IN PRACTICE

📖 Story link · beat 8: Because factionalism was a concept, now the facts: which round of the boxing match is each emperor in?

Type	Story	Lesson
Royal vs Royal	Bahadur Shah (1707–12) fought brothers. Jahandar Shah 12–13 won with Zulfiqar Khan (Irani) after executing Farukhsiyar's father; Zulfiqar became Wazir; Farukhsiyar with Sayyids executed Jahandar	Back the right claimant, extract reward
Royal vs Noble	Farukhsiyar (1713–19) rose with Sayyids (Abdullah Khan Wazir, Hussain Ali Khan Mir Bakshi), refused to be puppet; Sayyids allied with Marathas under Peshwa Balaji Vishwanath 13–20 (15,000 cavalry took over Delhi, 1719), killed him, installed Muhammad Shah 19–48 puppet	Noble support = being a puppet
Noble vs Noble	Nizam-ul-Mulk 24–48 (Turani) + Irani group beat Sayyids; Wazir 1722–24; Governor of Hyderabad Suba 1724; left Delhi for good 1740	"Delhi to gayo, at least save my Hyderabad"

Mir Bakshi = Chief Military Paymaster / Commander (defence minister + defence finance; military intelligence + war paymaster). Md Shah 19–48 "totally uninterested in ruling". Succession turmoil corrected by teacher from 1719–24 to 1707–19.

MARATHAS EXPOSE THE COLLAPSE

📖 Story link · beat 9: Because Delhi was weak inside, the Marathas could measure it from outside.

1705
Marathas begin defeating Mughals

1719
15,000 Maratha cavalry in Delhi

1737
Peshwa Bajirao 20–40 plunders Delhi, holds Md Shah briefly: military prestige down

1738
Marathas beat Mughal army under Nizam-ul-Mulk 24–48; Treaty of Bhopal

1752
Mughal under Maratha protection (fear of Abdali)

Treaty of Bhopal 1738: Marathas get legal control of all lands between the Chambal and Narmada and the Subah of Malwa. By mid-18th century Marathas held lands annexed under Akbar 56–05 including Gujarat; only Hyderabad (ex-Golconda) outside, held by Nizam as successor State.

NADIR SHAH (1738-40): THE FIVE-PILLAR BLOW

📖 Story link · beat 10: Because the Marathas had gone south, a Persian raider met Delhi alone.

Karnal to Delhi 1739

→ Persian ruler, wanted plunder (cost-benefit; plunder = less than annexation). Route: Iran, Kabul, Khyber, Peshawar, Lahore, Karnal, Panipat, Kurukshetra, Thanesar, Delhi

→ Battle of Karnal: Mughals routed; Sadat Khan 22-39 prisoner; Mir Bakshi died fighting

→ Nizam-ul-Mulk 24-48, now Mir Bakshi, bargains: Rs 50 lakh, no entry to Delhi

→ Sadat Khan, snubbed over Mir Bakshi post, goads Nadir to attack for bigger plunder

→ Delhi falls; Md Shah imprisoned; Nadir rules 60 days; Sadat Khan insulted, takes his own life

Pillar	Blow
Political	Md Shah (1719–48) publicly humiliated, did not defend dignity
Social	Massacre of roughly two lakh Delhi civilians
Military	Capital undefended; led to First Afghan Invasion 1748, Ahmed Shah Abdali
Economic	About 100 crore rupees (x250-300 today); Peacock Throne with Kohinoor; Mansabdars forced to contribute
Technological	No funds for reform; technology gap locked in

Nadir = lowest point of Mughal power (pun). Loot: gems, gold and silver, horses and elephants, artisans, Shah Jahan 27-58's Peacock Throne. Why no Marathas in 1739? They had returned south after Bhopal 1738, got maximum concessions, let the rival weaken (strategic patience), leading to the 1752 protectorate.

INDIA BY THE MID-18TH CENTURY

📖 Story link · beat 11: Because the centre collapsed, power moved to many hands. Ask: successor, rebel or already autonomous?

After the collapse

→ 1752: emperor (Ahmad Shah Bahadur 48-54) under Maratha protection against Afghan invasions; protector became protected

→ 1754: Marathas install Alamgir II 54-59 puppet

→ Mughal State ceased as functional State; rule limited to Delhi and Agra; symbolic sovereignty until 1858

→ No. 1 power = Marathas

⚡ Regional powers

→ Successor: Bengal, Awadh, Hyderabad

→ Rebel: Jats, Marathas, Rohilkhand and Farukhabad (Afghans)

→ Already autonomous: Mysore, Rajputs, Travancore

🎯 PYQ PIN: SHAH ALAM II 60-06 PYQ 2003

📖 Story link · beat 12: Now: how will the exam ask this? Same facts, read the question carefully.

Prelims 2003 Assertion-Reason: A: Shah Alam II 60-06 spent early years far from his capital. R: lurking danger of foreign invasion from the North-West frontier. Fact: he feared his own Wazir Imad-ul-Mulk, not an invader. Handout / slides: (c) A true, R false.

Source conflict: board marking points to **(b)** (both true, R not the explanation; the word "always" in R stressed); coaching keys split between (c) and (b); UPSC gave no key.
Method: mark A true/false, mark R true/false, only if both true ask whether R explains A. Options: (a) both true and R explains: wrong; (d) A false: wrong.

🎯 MAINS STRATEGY: PYQ TO FYQ PYQ 2017

📖 **Story link · beat 12:** Because the same facts serve different questions, read the protagonist. Who gets the 70%?

	Question	Protagonist	Weighting
🎯 PYQ Mains 2017	"By mid-18th century, India was a spectre of fragmented polity"	Fragmented polity	30% Mughal decline (cause), 70% rise of regional powers (evidence)
FYQ (illustrative)	"First half of 18th century, Mughal Empire reduced to a figment of imagination"	Mughal collapse	70% Mughal decline (Marathas, Nadir Shah, Karnal, Bhopal, puppet emperor), 30% regional powers

Answer frame: identify the protagonist first; same knowledge, two protagonists, two answers. Concept (five powers, factionalism, weak personality, military) then facts. ✅

1658 Aurangzeb	**1669** Kashi Vishwanath	**1675** GTB	**1679** Jizya
1686-87 Bijapur, Golconda	**1689** Sambhaji 80-89	**1695** Churaman 95-21	**1705** Marathas win
1707 Aurangzeb dies	**1712** Jizya ends	**1719** Md Shah puppet	**1722-24** Nizam Wazir, Hyderabad
1737 Delhi plundered	**1738** Bhopal	**1739** Karnal, Nadir	**1748** Abdali
1752 Maratha protection	**1754** Alamgir II 54-59	**1760** Shah Alam II 60-06	**1858** Symbolic sovereignty ends

Recall drill: cover and answer

Teacher's five-part State power?	Political, Economic, Military, Social, Technological	Vertical vs horizontal shift?	Vertical = power moves down (decentralisation); horizontal = one entity replaces another
Bijapur and Golconda annexed?	Bijapur 1686, Golconda 1687, by Aurangzeb 58-07	Jizya dates?	712 Qasim; 1206 Aibak; 1564 Akbar abolishes; 1679 Aurangzeb; 1712 Zulfiqar Khan; 1717 Farukhsiyar (handout)
Aurangzeb 58-07 executions?	Guru Tegh Bahadur 1675, Sambhaji 80-89 1689	Jagirdari crisis in numbers?	5% of Mansabdars held 61% of Jagir revenue
Five court factions?	Irani, Turani, Hindustani, Hindu, Deccani	Treaty of Bhopal 1738?	Marathas: Chambal to Narmada and Subah of Malwa
Nadir Shah 1739 figures?	Rs 50 lakh offer, 60 days, 2 lakh killed, 100 crore loot, Peacock Throne and Kohinoor	Prelims 2003 fact?	Shah Alam II 60-06 feared Wazir Imad-ul-Mulk; key (c) vs board (b)
Mains 2017 weighting?	30% Mughal decline, 70% regional powers		

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

GTB = Guru Tegh Bahadur

REGIONAL STATES: BENGAL, AWADH, HYDERABAD

PYQ Prelims 2021 (Carnatic and Hyderabad) · Mains 2017 (Fragmented polity)

✎ *The emperor's own governors took his Sword, Purse and Eyes into one hand by a five-step recipe, yet kept his name on top. Bengal, Awadh and Hyderabad became real States, on paper still Mughal. The EIC stepped into that gap.*

📖 THE STORY FIRST (same story as the textbook)

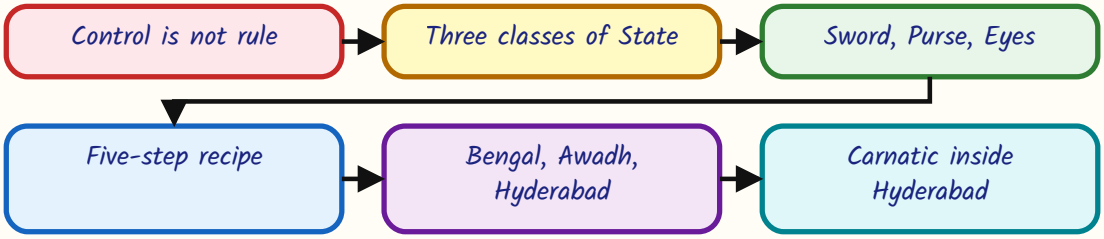

The emperor's own governors took his Sword, Purse and Eyes into one hand through a five-step recipe, yet kept his name on top, so Bengal, Awadh and Hyderabad became real States on paper still Mughal. That gap between paper and power is what the EIC stepped into.

1. **Control is not rule.** Control can exist without rule (absentee colonialism, Angola and Mozambique). Rule means L, E, J plus governance. For the EIC in Bengal, Plassey 1757 was control, Buxar 1764 was rule.
   → But what kind of India was the EIC stepping into?
2. **A patchwork.** By the mid-18th century the Mughal State no longer worked as one. From 1707 to 1800 power spread into Successor, Rebel and Already Autonomous States; Successor States arose under FS 13–19 and Md Shah 19–48.
   → Now to the first class: the governors who stabbed the emperor in the back.
3. **Three founders, three years.** Murshid Quli Khan (MQK 17–27) set up Bengal in 1717, Sadat Khan 22–39 Awadh in 1722, Nizam-ul-Mulk 24–48 Hyderabad in 1724. All ruled as sovereigns; none declared independence, for four reasons.
   → So how did a mere governor get so much power?
4. **Sword, Purse, Eyes.** Akbar 56–05 split a province in three: Subahdar the Sword, Diwan the Purse, Bakshi the Eyes. Each reported to a different Delhi officer, bypassing the Nazim: checks and balances.
   → But every founder had to break exactly this design.
5. **The recipe.** Founders broke that design: take the Subahdari, replace checks with loyalists, build revenue, co-opt men of money, turn Tankha into Vatan Jagirs. Result: a Nawab over a network, Mughal link kept as symbol.
   → Bengal shows the recipe at its clearest.
6. **Bengal: two hats and fifteen friends.** In 1717 MQK 17–27 became Nazim while already Diwan, ending Akbar 56–05's checks. By 1727 fifteen Zamindars collected 50% of LR, funded by the Jagat Seths. Alivardi Khan 40–56 toppled Sarfaraz Khan in 1740 with their backing.
   → Then an outside shock deepened the break.
7. **Bengal breaks away.** Raghuji Bhonsle raided Bengal 1745–51; the 1751 settlement gave him Chauth and Orissa. Alivardi stopped paying Delhi. Successors followed, and in 1765 the Diwani passed to the EIC.
   → Awadh followed its own road to the same place.
8. **Awadh: Sadat, Safdar, Shuja.** Sadat Khan 22–39 got Awadh in 1722, then urged Nadir Shah to Delhi in 1739 after being passed over. Safdar Jung 39–54 resigned in 1753; Shuja 54–75 lost at Buxar (1764); Awadh annexed 1856.
   → In the south, the Nizam had gone home for good.
9. **Hyderabad: the Nizam goes home.** Nizam-ul-Mulk 24–48 helped remove the Sayyids, took Hyderabad in 1724, lost to the Marathas in 1728 and 1738, then gave up on Delhi after 1739–40. Coins and Khutba kept the emperor's name.
   → And inside Hyderabad lay a smaller State of its own.
10. **The Carnatic: a tenant downstairs.** The Hyderabad Subah had a southern part, the Carnatic, with its own Nawab under the Nizam. Saadatullah Khan made the post hereditary, Dost Ali Khan was killed in 1740, Anwar-ud-din Khan became autonomous too. Prelims 2021 trap.
    → Put the three States side by side and the pattern shows.

The gap the EIC stepped into. In all three, a strong Mansabdar gathered power and none declared independence. The Carnatic was a State inside a State. The emperor became a constitutional monarch; legitimacy and real power split, opening the door to the EIC.

Cast: Akbar 56–05 = The Architect · Murshid Quli Khan (MQK 17–27) = Two Hats · Sadat Khan 22–39 = Sad at Delhi · Nizam-ul-Mulk 24–48 = The Nizam · Alivardi Khan 40–56 = The Usurper · The Jagat Seths = The Bankers · Raghuji Bhonsle = The Raider · Safdar Jung 39–54 = The Overreacher · Shuja-ud-Dawla 54–75 = The Loser · Saadatullah Khan = The Shifter · Anwar-ud-din Khan = The Nizam's Pick · Mir Jafar 57–60 = The Puppet

At a glance: the route

CONTROL VERSUS RULE

📖 Story link · beat 1: Story so far: before any State is built, hold one idea: control is not rule. Plassey is control, Buxar is rule.

Teacher stresses: Control is not rule. Control without ruling = absentee colonialism (Angola, Mozambique: raw materials extracted). Rule = L, E, J plus local governance (IAS, IPS). EIC in Bengal: Plassey 1757 = control began; Buxar 1764 = rule began. ⭐

🗺️ THREE CLASSES OF REGIONAL STATE

📖 Story link · beat 2: Because the Mughal State stopped working as one polity, power spread out into three classes.

Power decentralised 1707–1800 into the 18th-century map of regional States. 💡

Class	Examples	How they arose
💰 Successor	Bengal, Awadh, Hyderabad	Powerful Mansabdars extracted governing authority over a Subah from the emperor ("stabbed in the back" by Subadars; never declared independence)
Rebel	Marathas, Sikhs, Jats, Afghans (Farukhabad, Rohilkhand)	Openly fought the empire, took territory, built own State
Already autonomous	Rajputs, Mysore, Travancore	Never under effective Mughal control

Later emperor	Reign
Bahadur Shah	1707–12
Jahandar Shah 12–13	1712–13
Farukhsiyar	1713–19
Muhammad Shah 19–48 (Rangila)	1719–48
Ahmad Shah Bahadur	1748–54
Alamgir II 54–59	1754–59
Shah Alam II 60–06	1760–1806
Akbar II 06–37	1806–37
Bahadur Shah Zafar 37–57	1837–57

Teacher stresses: Farukhsiyar (13–19) and Md Shah 19–48 are the reigns in which successor States arose: "proof of decline of Mughal". ⭐

AUTONOMOUS BUT NEVER INDEPENDENT

📖 Story link · beat 3: Because the governors held real power, why did they not declare independence? Four reasons.

Founders (de facto sovereign)

→ Bengal: Murshid Quli Khan (MQK 17–27), 1717
→ Awadh: Sadat Khan 22–39, 1722
→ Hyderabad: Nizam-ul-Mulk 24–48, 1724
→ De facto = ground reality; de jure = on paper; all were Mansabdars (some Central ministers, some provincial)

MAST — Military help · Ambitions at Delhi · Symbolic legitimacy · Trade: four reasons they never declared independence (own mnemonic)

Reason	Detail
⚡ Symbolic legitimacy (social power)	Subahdar title commands local nobles; declare independence and opponents unite in emperor's name
Ambitions at Delhi (political)	Prized Mansabs: Wazir (PM / Imperial Diwan) and Mir Bakshi (War Paymaster). Nizam-ul-Mulk 24–48 was Wazir 1722–24 and Mir Bakshi 1739–40 while Subahdar of Hyderabad
Military assistance (military)	Provinces help each other; independent, an attack is no longer on the Mughal empire
Trade barriers (economic)	Independence could bring tariffs (think EU); domestic trade easier, lower taxes

Doubt: board's "EIC" column lists 1757, 1764, 1798 against Bengal, Awadh, Hyderabad; neither slides nor handout explain 1798 (check own notes).

PROVINCIAL OFFICES: SWORD, PURSE, EYES

📖 Story link · beat 4: Because a governor could only rule a province by taking its offices, learn the offices first: Sword, Purse, Eyes.

Office	Role	Reports to
Subahdar (Nazim / Nawab)	Nizamat: defence, peace, criminal justice (the Sword); gun power	Emperor
Diwan	Diwani: land revenue, civil justice (the Purse); CM + FM power	Imperial Diwan (Wazir), bypassing Nazim
Bakshi of Subah	Military audit and intelligence (Eyes)	Mir Bakshi at Centre, bypassing Nazim

Teacher stresses: Akbar 56–05's design = checks and balances; Diwan and Nazim co-equal; kept the empire stable for over a century. Every successor founder dismantled it. Vocabulary: Mansabdar = general term (like animal); Nazim = Subadar = Nawab of Suba = Governor; Naib = Deputy (Naib Nazim); "Nizam" = title of Nazim of Hyderabad Suba. Alert: Nawab is not always Subahdar: Alivardi Khan 40–56 was Nawab of Patna / Naib Nazim of Bihar before becoming Subahdar of all Bengal in 1740.

Bengal Subah administration

→ Territory: West Bengal, Bihar, Orissa, East Bengal; capital Murshidabad
→ Nizamat (Home Minister, law and order, war commander) = Nazim, answerable to Emperor
→ Diwani = Diwan, answerable to Emperor under Imperial Diwan (Wazir)
→ Bakshi = parallel audit and intelligence line, reports to Mir Bakshi bypassing Nazim
→ All three mutually independent; none could overrule another

Branch	Regional (Patna, Cuttack, Dacca)	Provincial (Murshidabad)	Imperial (Delhi)
Nizamat	Naib Nazim	Nazim (Subahdar)	Emperor (direct)
Diwani	Naib Diwan	Diwan	Wazir-i-Mumalik / Imperial Diwan (Diwan-i-Ala), then Emperor
Bakshi	Subordinate Bakshis (with Faujdars)	Bakshi of Bengal Subah	Mir Bakshi (Bakhshi-ul-Mumalik), then Emperor

West Bengal: Murshidabad, direct rule. **Bihar (Patna), Orissa (Cuttack), East Bengal (Dacca)**: Naib Nazim + Naib Diwan (reporting to Murshidabad), delegated rule.

⚡ **Bakshi's 4 functions**

→ **Mansabdari records**: ranks, promotions, demotions, deaths

→ **Military payroll**: entitlement, Jagir of right value, **transfer every 2–3 years** to prevent roots, war expenditure

→ **Anti-corruption**: **Dagh** (branding, imperial mark on horse flank) and **Chehra** (face, height, complexion, marks in register), by Akbar 56–05

→ **Intelligence (waqia-navis)**: daily reports to Delhi (court intrigues, prices, harvests, troops, Nazim or Diwan conduct, rebellions, foreign travellers); Mir Bakshi chief recipient

→ Why second-highest official: knew who nobles were, what paid, honest or not, doing what

💰 THE FIVE-STEP RECIPE FOR A SUCCESSOR STATE

📖 **Story link · beat 5:** Because every founder had to break that design, a five-step recipe appears.

Recipe (teacher's slide)

Result: diffused autonomous polity, Nawab on top of a network; Mughal link kept as symbol. Step 4 (handout): Tankha (temporary, transferable) to **Vatan** (hereditary): emperor's tool of shifting Jagirs traded for local loyalty. Co-opted groups (intermediary Zamindars, revenue farmers, merchants, moneylenders, bankers) promised **security of property and reasonable taxes**, and given **Mansabs**: rank and commercial wealth, once apart, now merged (Mansabdari had been lineage-based). All while accepting the Emperor's symbolic sovereignty.

Count conflict: handout heading says "four-step", text lists steps 1 to 5, diagram shows six (adds "keep Mughal symbolic link"); slide has five plus result. Learn the recipe, not the number.

BENGAL: MQK 17-27

📖 Story link · beat 6: Because the recipe worked first in Bengal, watch MQK wear two hats; then an outside shock deepens the break (beat 7).

Murshid Quli Khan (MQK 17-27)

→ Bengal Subah = Bengal, Orissa, Bihar; capital Murshidabad on the Hooghly (British later developed Calcutta)

→ Last Governor appointed as per Emperor's wish; Diwan from 1700; under Farukhsiyar (1713–19) also Deputy Governor of Bengal and Governor of Orissa

→ 1717: made Nazim while already Diwan (finance + executive in one man: ended checks); still sent tribute, but approval = paper formality

→ Revenue: intermediary Zamindars, detailed field surveys; by 1727 fifteen Zamindars collected 50% of LR

→ Coercion: resisting Mansabdars lost Bengal Tankha Jagirs, given Orissa Jagirs; resisting Zamindars lost land to collect from

Jagat Seths

→ Hereditary title, not a name: Manikchand under MQK; Mehtab Rai and Swarup Chand under Alivardi Khan 40–56

→ Dutch records: richest banking house in the world; loaned to Zamindars and merchants; Hundi services

→ Under Shuja-ud-din Md Khan (1727–39): Treasurer of Bengal and Daroga of Royal Mint

→ 1740 coup: Alivardi Khan 40–56 (Nawab of Patna) killed Nawab Sarfaraz Khan (1739–40) with Jagat Seth's backing; promised Md Shah one crore plus Sarfaraz's wealth; emperor approved

Power diffused, not centralised: Nawab + intermediary Zamindars + merchants + bankers; the 1740 coup shows emperor reduced to a transactional figure. LR chain: ryots, intermediary Zamindars, Diwan of Suba, Imperial Diwan, King or Jagirdar. 💡

Bengal's virtual break

→ Under MQK tribute still sent to Delhi

→ 1745–51 Raghuji Bhonsle of Nagpur raids; Alivardi cannot beat him

→ 1751 settlement: annual Chauth (one-fourth of revenue) of Bengal and Bihar + direct control of Orissa; revenue flows to Nagpur

→ Alivardi stops revenue to Delhi and seeking approval for appointments: virtual break, independence never declared

→ Succession after Alivardi (board): Siraj-ud-Daula 56–57, Mir Jafar 57–60, Mir Qasim 60–63, Mir Jafar restored 1763–65

AWADH: SADAT KHAN 22-39 TO 1753

📖 Story link · beat 8: Because Awadh's founders kept their eyes on Delhi, its break came through a Wazir's misstep.

Awadh

→ Sadat Ali Khan (1722–39): Subahdar 1722 as reward for suppressing revolts

→ Nephew and son-in-law Safdar Jung 39–54 as Naib Nazim; loyalist as Diwan; tribute reduced; revenue grew (assessment, trade taxes)

→ New loyal elite (Indian Muslims, Afghans, Hindus) via Mansabs and Jagirs

→ Unlike MQK kept ambitions at the centre; urged Nadir Shah to invade Delhi in 1739 because Mir Bakshi went to Chin Qulich Khan (= Nizam-ul-Mulk 24–48); ill-treated, committed suicide

→ Safdar Jung 39–54: Wazir under Ahmad Shah Bahadur (1748–54) in 1748; annexed Farukhabad; forced to resign 1753 = virtual break

→ Shuja-ud-Daula 54–75: Wazir under Shah Alam II 60–06; fought with Ahmad Shah Abdali 47–72 at Third Panipat 1761; beaten by EIC at Buxar 1764

→ Annexed by EIC 1856 from Wajid Ali Shah

Source discrepancy: slide calls Safdar Jung 39–54 nephew of Sadat Khan 22–39; handout says nephew and son-in-law. Chapter 2 handout also calls Sadat Khan "of Irani group" in the Karnal passage.

HYDERABAD: NIZAM-UL-MULK 24-48

📖 Story link · beat 9: Because the Nizam failed at the centre, he turned south.

Nizam-ul-Mulk 24–48

→ Chin Qulich Khan = Asaf Jah I (Nizam 1724–48); leader of Turani group; set up Hyderabad 1724 after beating Mubariz Khan, Nazim of Deccan; roots from Aurangzeb 58–07's Deccan wars

→ 1720: Turani and Irani groups removed Sayyid Brothers (Noble vs Noble); Md Shah still uninterested; 5% of Mansabdars held 61% of Jagir LR

→ Wazir 1722–24: tried to move Jagirs from big to small Mansabdars; refused

→ Beaten by Marathas 1728 and 1738: paid Chauth and Sardeshmukhi (10% hereditary Maratha claim)

→ Mir Bakshi 1739–40; by 1740 moved to Hyderabad for good

Nizam-ul-Mulk 24–48
1724–48

Nazir Jung
1748–50

Muzaffar Jung 50–51
1750–51, 3 months

Salabat Jung 51–62
French-dominated under Bussy

Nizam-Ali-Khan
1762–1803

Aspect	Hyderabad by 1748
Symbolic sovereignty	Emperor's name on coins and Friday Khutba, zero influence on war, peace, treaties, appointments
Tolerance	Hindu majority economically powerful; tolerance, punished opponents of any community
👫 Most aggressive	Most Tankha-to-Vatan conversion; merchants, moneylenders, Ijaradars as Mansabdars ("upstarts") on largest scale

THE CARNATIC: STATE WITHIN A STATE PYQ 2021

📖 Story link · beat 10: Because Hyderabad had a smaller State inside it, the Prelims 2021 trap lives here.

Prelims 2021 trap: Carnatic = southern part of the Hyderabad Subah, not a separate independent State. Own Nawab, but reported to the Nizam. Parallels: India and J&K (Art. 370); Assam and Meghalaya (Art. 244A); Hyderabad and Carnatic. ⭐

Vijayanagar backstory (1336–1646)

→ Strongest in South India for 300 years; Carnatic part of it
→ Nayaks (Telugu Hindu governors, Nayak = CM) ruled provinces
→ Palayams under a Poligar (Palayakkarar) with private army and fort

Long decline 1565–1698

→ A Talikota 1565: four-state alliance (Bijapur, Ahmadnagar, Golconda, Bidar) destroyed Vijayanagar; real end though empire formally to 1646
→ B Nayaks of Madurai, Tanjore, Gingee autonomous; 1646 Bijapur and Golconda divided the Carnatic
→ C Aurangzeb 58–07: Bijapur 1686, Golconda 1687; Carnatic under Mughals
→ D Shivaji 74–80 took Gingee 1677; after Sambhaji 80–89 executed (1689) Rajaram 89–00 based at Gingee; 1690 Zulfiqar Khan (Nawab of Carnatic) besieged: eight years, longest by Mughals; captured 1698 (Zulfiqar later Wazir under Jahandar Shah 12–13, 1712, executed Feb 1713)

Part	Where	Detail
Hyderabad	North of the Krishna	Ruled directly by the Nizam
Carnatic (Hyderabad-Karnatic)	Twelve districts south of the Krishna; capital Gingee (old Nayak kingdoms of Gingee, Tanjore, Madurai)	Own Nawab reporting to Nizam: state within a state

Carnatic Nawab	What happened
Saadatullah Khan (1710–32)	Last chosen by the Emperor (1710); capital Gingee to Arcot; made post hereditary without asking; childless, adopted Dost Ali (brother Ghulam Ali's son)
👬 Dost Ali Khan (1732–40)	Killed 1740 by Marathas under Raghuji Bhonsle, Chittoor district (Andhra), near Tamil Nadu border
Anwar-ud-din Khan (from 1744)	Chosen by the Nizam, ended Saadatullah's line, but also autonomous

Beyond the handout text: Anwar-ud-din killed at Battle of Ambur (1749); 2nd Carnatic War, French vs British; Md Ali 52–95 Wallajah (1752–95), British-backed, leading to dependency on the EIC (handout diagram only). 📌

SYNTHESIS: THE COMMON PATTERN

📖 Story link · beat 11: Because all three States share one pattern, the EIC faced a gap between paper and power.

	Bengal	Awadh	Hyderabad
Founder, year	MQK, 1717	Sadat Khan 22–39, 1722	Nizam-ul-Mulk 24–48 (Asaf Jah I), 1724
Founder's reign	1717–27	1722–39	1724–48
👫 Earlier post	Diwan (from 1700)	Subahdar as reward for crushing revolts	Turani leader; Wazir 1722–24
💡 Key feature	Field surveys; 15 Zamindars 50% of LR; Jagat Seths	New loyal elite; ambitions at centre	Most aggressive Tankha to Vatan; merchants as Mansabdars; Carnatic inside
Nadir Shah 1739	–	Sadat Khan urged the attack	Nizam as Mir Bakshi: Rs 50 lakh (attempt)
Virtual break	Alivardi Khan 40–56, 1751 settlement	1753, Safdar Jung 39–54 resigns	After 1740 Nizam moves to Hyderabad
EIC link	Plassey 1757; Diwani 1765	Buxar 1764; annexed 1856	French-dominated Salabat Jung 51–62

Answer frame: powerful Mansabdar extracts Subahdari, dismantles checks, builds revenue, converts Tankha to Vatan, co-opts bankers; none declared independence (Mughal umbrella served interests) yet each had own diplomacy, army, fisc. **Carnatic** = successor State inside a successor State: fragmentation horizontal and **vertical**. Emperor = **constitutional monarch with no executive power**. EIC stepped into a gap where legitimacy and real power had come apart. ✅

1717 MQK Nazim (already Diwan)

1727 MQK dies; Shuja-ud-din Md Khan (1727–39)

1739 Sarfaraz Khan (1739–40)

1740 Alivardi Khan 40–56 coup

1745 Raghuji raids (to 1751)

1751 Chauth + Orissa to Bhonsle

1756 Siraj-ud-Daula 56–57

1757 Plassey; Mir Jafar 57–60 puppet

1760 Mir Qasim 60–63

1763 Mir Jafar restored (1763–65)

1765 Diwani to EIC

Recall drill: cover and answer

Control vs rule?	Plassey 1757 = control began; Buxar 1764 = rule began	Three classes of regional State?	Successor (Bengal, Awadh, Hyderabad); Rebel (Marathas, Sikhs, Jats, Afghans); Already autonomous (Rajputs, Mysore, Travancore)
Founders and years?	MQK 17–27 (1717), Sadat Khan 22–39 (1722), Nizam-ul-Mulk 24–48 (1724)	Sword, Purse, Eyes?	Nazim (Nizamat), Diwan (Diwani), Bakshi (audit, intelligence): each reported to a different officer at Delhi
Five-step recipe?	Extract Subahdari; end checks; build revenue; co-opt men of money; Tankha to Vatan	Bengal numbers?	15 Zamindars collected 50% of LR by 1727; Jagat Seth = hereditary title
1751 Bengal settlement?	Chauth of Bengal and Bihar plus Orissa to Raghuji Bhonsle; Alivardi stops paying Delhi	Awadh virtual break?	1753 Safdar Jung 39–54 forced to resign after annexing Farukhabad
Prelims 2021: Carnatic and Hyderabad?	Carnatic = southern part of the Hyderabad Subah (12 districts south of Krishna), not independent	Dagh and Chehra?	Horse branding and soldier descriptive roll, by Akbar 56–05 under the Bakshi

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

CM = Chief Minister — Head of a State government

PM = Prime Minister — Head of the Union government

IPS = Indian Police Service — All India Service for police officers

EU = European Union — Political and economic union of European countries

THE MARATHAS

PYQ Prelims 1995, 2010 · Mains 2014, 2017 (Mains 2014 Panipat; boxed by teacher: why no all-India Maratha rule)

✎ *Shivaji 74-80 builds Svarajya by guerrilla war, navy and forts. After him a weak centre lets Sardars build Samrajya on Chauth. The Peshwa takes real power (Sangola 1750); Abdali beats the divided Marathas at Panipat 1761; the EIC fills the gap.*

📖 THE STORY FIRST (same story as the textbook)

One strong man builds Svarajya with guerrilla war, a navy and forts; after him a weak centre lets the Sardars build Samrajya and live on Chauth. The Peshwa takes the real power (Sangola 1750), factions grow, and Abdali beats a divided Maratha camp at Panipat (1761); the vacuum is filled by the EIC.

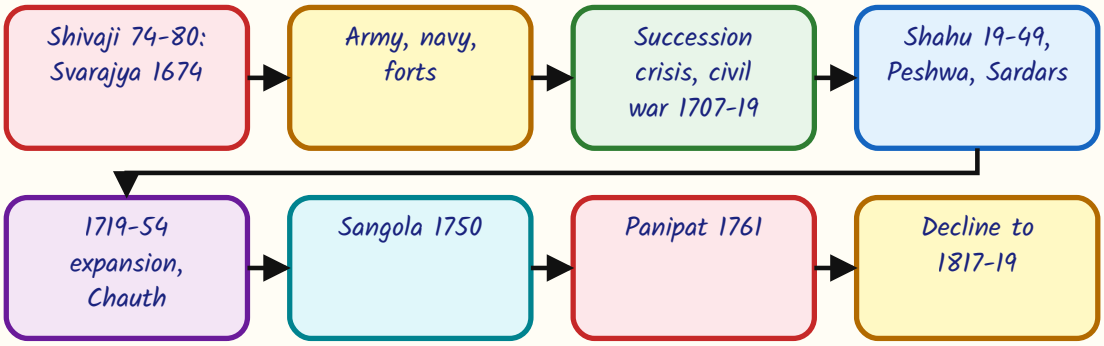

1. **A boy from the Maval.** Shivaji 74–80 Bhonsle, born 19 February 1630 to Shahji and Jijabai, takes his first fort at 16 (1646) from the forested Maval, guided by Dadaji Kondadev.
   → But a boy with a few forts must beat much bigger armies, so he needs a method.
2. **Guerrilla war and the Purandhar squeeze.** He attacks Bijapur (1657), kills Afzal Khan (1659), sacks Surat (1663). Jai Singh 99–43 besieges Purandhar in 1665, so Shivaji 74–80 gives up 23 of 35 forts.
   → Now a man who has survived the squeeze must turn a raiding band into a State.
3. **Crown, army and navy.** Crowned Chhatrapati at Raigarh in 1674, free of the Mughals after the 1666 Agra escape. 240 forts, a navy of 200 ships by 1664; officials paid cash, no Jagirs.
   → But a State also needs ministers, officers and courts.
4. **How the Chhatrapati ruled.** Eight ministers, the Ashtapradhan, headed by the Peshwa as PM, run the State. Twelve Darakhdars form the Barbhai Mandal in 1774 under Nana Fadnavis. Villages have a Patil.
   → Yet the whole machine hung on one strong man, and he died in 1680.
5. **A troubled succession.** Sambhaji 80–89 is killed in 1689, Rajaram 89–00 dies in 1700. Regent Tarabai rules till 1707, when Shahu 19–49 is released and civil war starts, lasting to 1719.
   → So the question is who wins, and which side has the better minister.
6. **Shahu wins, the Sardars rise.** Peshwa Balaji Vishwanath 13–20 wins bankers and Sardars for Shahu 19–49, who wins. Four Sardars (Gaikwad, Holkar, Scindia, Bhonsle) rise: Peshwa rules Svarajya, Sardars rule Samrajya from 1719.
   → Now the Sardars rule far from home, so how do they pay for it?
7. **Chauth and Sardeshmukhi.** Chauth is 25% of a protected state's revenue; the drain weakens it until a short war annexes it. Sardeshmukhi: extra 10%. Sardars abroad keep 66% (Mokasa), send 25% (Babti).
   → Chauth feeds the empire, and the Peshwa now bargains with the Mughal kingmakers.
8. **The bargain of 1719 and the decade of growth.** Balaji Vishwanath 13–20 allies with the Sayyid Brothers (1719) and wins Chauth rights; the Nizam stops paying in 1724. Then Delhi is plundered in 1737 by Baji Rao 20–40.
   → But as the Marathas grow, power slides from the Chhatrapati down to the Peshwa.
9. **Sangola 1750.** Three Peshwas in a row make the post hereditary. Nana Saheb (1740–61) makes Ramraja sign the Treaty of Sangola in February 1750: all real power to the Peshwa.
   → Now a house with a weaker centre meets a united enemy from the north-west.
10. **Panipat, 1761.** Raghunath Rao 73–74 expels Abdali's son Timur from Lahore in March 1758. Abdali (60,000) with allies faces Sadasiv Rao Bhau (50,000); supply cut, Bhonsle refuses, about 50,000 die.

→ Neither side rules India afterwards, so the Marathas fight on in decline.

11 **Decline, and why no all-India rule.** Weak Peshwas follow; Mahadji Scindia 68–94 retakes Delhi in 1771. The EIC takes Delhi in 1803, annexes Svarajya 1817–19. The Marathas took tribute, never ruled.

Cast: Shivaji 74–80 = Sixteen in 1646 · Afzal Khan = Tiger Claws Victim · Jai Singh 99–43 = The Encircler · Sambhaji 80–89 = The Martyr Son · Tarabai = The Regent · Shahu 19–49 = The Over-Delegator · Balaji Vishwanath 13–20 = The Dealmaker · Baji Rao 20–40 = The Raider · Nana Saheb (1740–61) = Sangola Nana · Raghunath Rao 73–74 = Lahore Raghu · Sadasiv Rao Bhau = The Commander · Ahmad Shah Abdali 47–72 = The Durrani · Nana Fadnavis = Modern Chanakya · Mahadji Scindia 68–94 = Campoo Mahadji

At a glance: the route of the chapter

WHERE THE MARATHAS FIT

📖 **Story link · beat 1:** Story so far: the Marathas head the Rebel States. The story starts with one boy and a few forts.

Regional powers = **SS** (Successor States) + **Rebel S** (Rebel States) + **AA S** (Already Autonomous States). Marathas head the Rebel States, then Sikhs, Jats, Afghans. **Mansabdari refresher:** Zat = personal seniority, Sawar = horsemen to maintain; net importance e.g. Zat 4000 + Sawar 2000 = 6000; Zat 3000 + Sawar 3000 = 6000 (Ch 1).

SHIVAJI 74–80: WHO HE WAS, WHY HE ROSE

📖 **Story link · beat 1:** Because Bijapur was oppressive and the Mughals were closing in, a boy of 16 with one fort rose; now he needs a method.

Shivaji 74–80 Bhonsle

→ Born **19 Feb 1630**; father **Shahji Bhonsle** (Jagirdar of Poona; General and Mansabdar in **Bijapur 1489–1686**, Adil Shahi), mother **Jijabai**

→ **Adil Shahi** + **Qutub Shahi (1518–1687)** replaced **Bahmani Sultanate (1347–1527)**

→ Trained by guardian **Dadaji Kondadev**; inspired by Jijabai + own ambition

→ **First fort at 16, 1646**; base **Maval** (hilly, forested, Pune district, Sahyadri); army of local warriors and peasants

Guerrilla warfare (board)

→ Hide and seek, attack and withdraw, **sabotage**; surprise, speed, geography = **shock and awe**; the only way to beat a much stronger opponent

→ Tool for positive, neutral or negative goals

🎯 Examples

→ Naxals in India
→ Spain (1808–12) vs Napoleon
→ 1857 Revolt (Kunwar Singh, Tatya Tope)
→ **Ganimi Kava** of the Marathas
→ Alluri Sitarama Raju (1922–24)

1657
Systematic attacks on Bijapur (oppressive, discriminatory); Aurangzeb 58–07 becomes emperor

1659
Ali Adil Shah II sends Afzal Khan (pretext: talks); Shivaji kills the 7-ft Afzal with Bagh Nakh + Bichhwa

1663
Beats Shaista Khan 64–88; sacks Surat

1665
Jai Singh 99–43 encircles, besieges Purandhar (40–50 km SE of Pune)

Board: triangle Aurangzeb 58–07 / Marathas / Bijapur; Marathas' goal = Swarajya; 1674 coronation; 1686 Aurangzeb annexes Bijapur. BG Tilak (1890s) used this history (a Maratha against a Mughal general) to rouse nationalism against the British. Gherao = starve the enemy; Jai Singh 99–43 = powerful Hindu Mansabdar of the Mughal State.

Source doubt (general knowledge, verify): the 1665 Mughal general is tagged Jai Singh 99–43, the same code as Sawai Jai Singh of Amber (Ch 7); and Aurangzeb's rebel son is written Prince Akbar 56–05, which is Akbar's own code, so the code is dropped here for the prince.

TREATY OF PURANDHAR 1665

📖 Story link · beat 2: Because Jai Singh 99–43 cut his supplies, Shivaji 74–80 signed Purandhar; a man who survived the squeeze must now build a State.

Term of the treaty	Detail
1	Surrendered 23 of 35 forts to the Mughals
2	Accepted Aurangzeb 58–07 as Emperor, declined a personal mansab
3	Son Sambhaji 80–89 made Mughal Mansabdar, rank 5,000
4	Agreed to support the Mughals against Bijapur

Teacher stresses: standard books say Shivaji never accepted Mughal sovereignty; correction: Purandhar 1665 = temporary tactic, a pause to save soldiers and people. Coronation = legal reversal of Purandhar: fully independent kingdom. Treaties are named after the place signed.

1666
Shivaji + Sambhaji 80–89 at Agra court: insulted, imprisoned; escape disguised as Sadhus smeared in ash to Mathura; Sambhaji left with a Brahmin family

1674
Coronation at Raigarh as Chhatrapati: independent of the Mughals; Svarajya (own rule) over Marathi-speaking region

1680
Shivaji dies naturally

1681
Aurangzeb 58–07 marches to the Deccan; his son Prince Akbar defects to Sambhaji 80–89

Teacher stresses: Jat kingdom, Svarajya and the Sikh state share one feature: people / mass participation (Jat kingdom = peasant revolts). After the escape rebellion resumes. Maratha kingdom founded in the 2nd half of the 17th century by wars against Bijapur and Aurangzeb 58–07. Handout heading puts HQ at Satara (see capital conflict below).

Vatan (board) = hereditary. A Mughal Vatan right could be: LR of a Jagir (Vatan Jagir); collecting LR for commission (Zamindar); a job such as Qanungo (land records); Khudkasht cultivation of a plot.

ARMY, JAGIRS, NAVY, FORTS

📖 Story link · beat 3: Because he could not match Mughal strength, he built a light, fast army, a coastal navy and sea-forts. Now the State needs ministers.

Army

→ 30,000 to 40,000 cavalry; captured 240 forts, many in the Konkan; mountains + forests

→ Light cavalry (horses only; food and shelter on the way, by love or force) vs Mughal heavy cavalry (elephants + horses carrying supplies, slow): speed = focus

→ Civil officials held no military roles

Saranjami system

→ Shivaji 74–80 never gave Jagirs, paid officials in cash = centralised polity (land = source of power)

→ Shahu 19–49 gave Tankha Jagirs to commanders = Saranjams, never Vatan Jagirs: loyalty not tied to hereditary land

→ Revenue assignments to Sardars, Peshwa (PM), commanders = fragmented polity

Land grant	Held by	Nature
Saranjam (Tankha Jagir)	Military commanders	Temporary, tied to service, not heritable; taken away if not in service
Vatan / Watan	Civil officials: Patils (village head), Deshmukhs (revenue collectors like Zamindars)	Hereditary right, passes in family

Navy: Father of the Modern Indian Navy

→ 20 ships 1657, 200 by 1664, peak 700

→ Not deep-ocean parity with British/Portuguese: asymmetric coastal defence: (1) protect merchant ships (2) secure Konkan from Siddis of Janjira (3) stop Europeans dominating Konkan trade

→ Coastal forts, naval bases in Arabian Sea, sea intelligence

→ 1668 allowed French factory at Rajapur; got European cannons, lead, saltpetre (potassium nitrate, gunpowder)

→ Called Father because entirely indigenous (Desi) people, engineering, strategy; recruited Kolis and Bhandaris (tides, rocks, creeks); commanders Mayanak Bhandari, Daulat Khan

→ Board: enemy's enemy = friend (British the common enemy); navy serves Merchant + Military

Vessel	Role
Ghurabs	Gunboats with heavy artillery
Galbats	Fast rowboats, light sails; tow Ghurabs in dead winds, chase fleeing ships
Shibars and Pals	Larger: transport, heavier fights

Trap: copying deep-water (blue water) European ships would have been a strategic disaster in shallow Konkan estuaries. Shipyards used teak of the Sahyadri.

⚖️ Jaladurg doctrine

→ Sea forts on rocky islands or peninsulas: shelter docked vessels; cannons keep enemy ships away

→ Examples: Sindhudurg, Vijaydurg, Suvarnadurg; patrol = Jaladurg; coast + shallows hide small boats from British ships

→ 12 UNESCO Heritage Forts (Maratha Military Landscapes)

→ EIC feared the Marathas in Gujarat (Surat feared cavalry; British navy strong at Bombay): Bombay Presidency 1687; 1668 EIC already in Bombay (group of seven islands)

→ 1736 removed Portuguese + Ethiopian Muslims from Konkan; 1739 controlled Salsette and Bassein

Board: Britain = No. 1 naval power. China in chaos, goods go via Hong Kong (British, ringed by navy); India via Bombay (British).

Admiral Kanhoji Angre (to 1729)

→ "Shivaji 74–80 of the Seas"; dominated Arabian Sea 30 years, death 1729

→ Fought British, Portuguese, Dutch, Sawants (small kingdom since 1627), Siddis / Habshis (African ancestry; Gujarat, Karnataka, Andhra, Sindh and Baluchistan parts)

→ 1714 to 1724 frequent guerrilla attacks on EIC Bombay; heavy British ships could not chase small fast boats = stalemate, he offered peace

→ British defeated Maratha Navy 1756, one year before Plassey (1757)

SUCCESSION CRISIS 1680–1707

📖 Story link · beat 5: Because everything rested on one man, his death in 1680 opened a succession crisis. Who wins, and which side has the better minister?

Chhatrapati succession

Shivaji 74–80: 1st Chhatrapati 1674–80 → *Sambhaji 80–89 (elder son): captured, tortured, killed 1689* → *Rajaram 89–00 (younger): dies of TB 1700, aged 30* → *Tarabai regent for infant Shivaji II* → *1707 Mughals release Shahu 19–49*

Chhatrapati = Emperor. Regent = rules in the name of a king who cannot rule (age, health). War = internal (civil) or external. Shahu 19–49 = elder son of Sambhaji 80–89, in Mughal imprisonment till 1707; his release triggered civil war with Tarabai till 1719.

ASHTAPRADHAN AND ADMINISTRATION

📖 Story link · beat 4: Because a Chhatrapati was not absolute, he ruled with eight ministers under the Peshwa. Yet the whole machine hung on one strong man.

Chhatrapati not absolute: ministers' council like the British Monarch + Privy Council, or Mughal Emperor + Darbar (Mansabdars: Irani, Turani, Hindu, Deccani). Separation of powers = a modern concept. Today = PM + Council of Ministers.

Post (Ashtapradhan)	Portfolio
Peshwa	Prime Minister, right hand of Chhatrapati
Amatya	Finance
Sachiv	Correspondence
Sumanta	Foreign Affairs
Senapati	Military Commander
Panditrao	Religious Affairs
Nyayadhish	Justice
Waqenavis	Intelligence

🏛️ Peshwa's own council

→ Darakhdars = senior civil servants beneath the Peshwa (like the British PM's Council)

→ 1774: twelve Darakhdars under Nana Fadnavis = Barbhai Mandal (Council of Twelve, "12 Bros")

→ Secretariat at Poona = Hazur Daftar: about 200 people, all governance and financial records

	→ Board: power drifted down (Chhatrapati weak after Shahu 19–49 to Peshwa), like British monarch to PM
Provinces and villages	→ Svarajya divided into Sarkars (provinces = Mughal district) under a Governor: office auctioned; he got a share of LR in term to recover price + profit → Check: hereditary officers had dual reporting to Governor and Peshwa; Governor's accounts tallied against the Deshmukhi's independent accounts → Village self-contained: Patil = all powers (financial, executive, judicial), revenue collection, reports directly to Peshwa; accounts by Kulkarnis → Patils and Deshmukhi hold heritable Vatan; Deshmukhs collect LR, keep 10% commission
Justice and policing	→ Final decision: Peshwa in Svarajya; the Sardar in Samrajya → Courts from village Panch up to Peshwa; Peshwa respected Panch decisions; law from Dharma Shastras → Policing as efficient as the London Police of the era; good information network → Rule of law: even the highest could be and were imprisoned
💰 Revenue sources	→ Land revenue primary: by soil quality, irrigation, crop sown; proper field surveys like MQK in Bengal (1717–27) (Ch 3) → Customs duty (international trade) and octroi (local trade) → Judicial: Nazrana (winning party), Jurmana (losing party) → Fees: permits and licences for cutting wood, manufacturing drugs, private minting → Dams and canals (transport, irrigation), low-interest loans; Deshmukhi and Patils checked from oppressing peasants

1707 RELEASE OF SHAHU 19-49: REAL PACIFISM?

📖 Story link · beat 5: Because the Mughals released Shahu 19–49, people call it a pacifist policy; the chapter calls it real-politik and divide and rule.

Teacher stresses: the "pacifist policy" label is a flawed interpretation: it was real-politik = reconciliation + opportunism + divide-and-rule, nominal pacifism with plausible deniability for Governors' hostile acts. Why release Shahu 19–49: better relations with a rival, and a Maratha civil war (1707–19) weakens the enemy from within. ⭐

⚖️ Sikh case 1707–08	→ 1707: Bahadur Shah (1707–12) gave Guru Gobind Singh 76–08 a high Mansab, promised Anandpur → Wazir Khan, Faujdar of Sirhind, had the Guru assassinated 1708 at Nanded (Maharashtra) → No action vs Wazir Khan; Anandpur never handed over → Handout note: Sirhind = a Sarkar (district) in Lahore Suba; Faujdar = military, judicial, LR functions over a district, not a Governor (as some books wrongly say); Wazir Khan had more influence than a typical Faujdar
⚖️ Maratha case	→ Release = reconciliation gesture, yet Mughals kept attacking Marathas; release triggered civil war with Tarabai → Mughals encouraged divided loyalties: Sardars and Deshmukhs switched between Shahu 19–49, Tarabai, Mughals → = shrewd diplomacy, not pacifism

TARABAI AND THE CIVIL WAR 1707-19

📖 Story link · beat 5: Because Shahu 19-49 returned, he and Tarabai fought a civil war until 1719. Who wins depends on the better minister.

After Rajaram 89-00's TB death (1700) Tarabai was regent for infant Shivaji II: held the state together seven years. 1707 release, then civil war Shahu 19-49 vs Tarabai till 1719. Board: by 1705 the Marathas had begun winning vs Mughals; credit to Tarabai (1700+). 💡

🌐 Treaty of Warna 1731

→ Family settlement: Shahu 19-49 gave Kolhapur to Sambhaji II, son of Rajaram 89-00 by 2nd wife Rajasbai (had taken control from Shivaji II around 1714)

→ Two Chhatrapati lines: Shahu's at Satara, Sambhaji II's at Kolhapur

Chhatrapati becomes ceremonial

→ After Shahu 19-49: adopted son Ramraja (Rajaram II) 1749-77; largely ceremonial like a powerless President; real power with Peshwa

→ Last Satara Chhatrapati Shahaji (1839-48): EIC annexed Satara 1848

→ Kolhapur: Princely State from 1858 till merger 1947

WHY SHAHU 19-49 WON; THE SARDARS

📖 Story link · beat 6: Because Balaji Vishwanath 13-20 won the bankers and the new Sardars, Shahu 19-49 won. Now the Sardars rule far from home.

Teacher's checklist: reasons for victory in any war = technology, leadership, tactics, geography, money, number of soldiers / army size (alliances), military infrastructure (forts). Use on any war question. ✅

Why Shahu 19-49 prevailed

→ Sixth Peshwa Balaji Vishwanath 13-20 won for him: (1) powerful Brahmin banking families (2) the new independent Maratha Sardars

→ Example: he made Admiral Kanhoji Angre switch from Tarabai to Shahu 19-49 in 1714; without his coastal-naval power victory far harder

Sardar	Capital
Gaikwad	Baroda
Holkar	Indore
Scindia (Shinde)	Gwalior
Bhonsle	Nagpur

Prelims 1995 (map detail): pair each Sardar with capital as above. The four = kingmakers of the Confederacy; post-1719 some became king-like. ⭐

Local chief = Shivalik hill chief = Misl chief = Bundela chief = Rajput chief = Maratha Sardar = Poligar: a "mini mini king" with private army and own fort (today's negative version: Bahubali; Kaleen Bhaiya of Mirzapur). Power centralises in a strong personality. Every first king began as a local chief, e.g. Ranjit Singh 01-39, chief of the Sukerchakia misl. Strong Sardars became kings: Holkar, Bhonsle, Scindia, Gaikwad. 💡

Maratha Empire c. 1750

→ Five provinces (Peshwa + four Sardars) with the Chhatrapati as head of state

→ By 1750 effectively a Confederation: weak centre, strong provinces

→ Board: Centre = Chhatrapati (powerless); Svarajya (Poona) under Peshwa; Samrajya under Scindia (Gwalior), Holkar (Indore), Gaikwad (Baroda), Bhonsle (Nagpur)

Structure	Centre / provinces	Teacher's example
Unitary	Centre ~75% or more / provinces 25% or less	China

🗺️ Federalism	About 50 / 50	USA
Confederation	Centre 25% or less / provinces 75% or more	European Union
🗺️ Quasi (semi) federalism	60 / 40	India (40 / 60 for Belgium)

SVARAJYA vs SAMRAJYA

📖 Story link · beat 6: Because the Sardars ruled outside Maharashtra, Svarajya stayed with the Peshwa and Samrajya went to the Sardars. How do they pay for it?

Axis	Svarajya	Samrajya
🗺️ Territory	Original kingdom inside Maharashtra; set up 1650s by Shivaji 74–80 vs Aurangzeb 58–07 in the Konkan	Outside Maharashtra, from 1719: Gujarat, Rajputana, Malwa, Awadh, Bihar, Bengal, Orissa (Shahu 19–49's time, vs Md Shah 19–48)
Ruled by	Chhatrapati / Peshwa, direct	Sardars in their own right, own resources: autonomous from the start but within the empire
Capital	Raigarh (1647–1689), then Jinji (1689–1698), then Satara; Peshwa at Poona	Varies by Sardar
Character	Culturally homogeneous, governed	Real administration only in Gujarat, Khandesh, Malwa; elsewhere mainly Chauth / Sardeshmukhi

Source conflict (capital): handout sec 1.4 and 'Capital = Satara by Rajaram 89–00' say Satara; sec 8.1 and boards give Raigarh, then Jinji (1689–98), then Satara (Jinji with Rajaram 89–00, Satara with Shahu 19–49). Use Raigarh, Jinji, Satara. Jinji / Ginjee (Carnatic) = fort where Marathas set capital after Sambhaji 80–89.

🎯 CHAUTH AND SARDESHMUKHI PYQ 2010

📖 Story link · beat 7: Because the Sardars ruled far from home, the empire lived on tribute. Chauth feeds the empire; now the Peshwa bargains with Delhi.

	Chauth	Sardeshmukhi
Rate	One-fourth (25%) of revenue	Extra 10% of land revenue
Where	External only: protected state pays Marathas for military protection (if paid, Marathas will not attack)	Internal and external
💡 Meaning	Tool of foreign policy and empire-building; collected until the state is annexed	Symbol of recognising the Chhatrapati's authority; Shivaji 74–80 declared himself Sardeshmukh, head of all Deshmukhs

Boxed by teacher for Prelims: Chauth (25%, external only) vs Sardeshmukhi (extra 10%, internal and external). Both existed before the Marathas; other tributes: Nazrana, Abwab, Peshkash. External steps: (1) Marathas defeat the state (2) treaty makes it pay. ⭐

Worked example, internal: Deshmukh collects Rs 100 LR, commission Rs 10, Rs 90 to state; Sardeshmukhi = 10% of the Rs 10 = Rs 1 to Chhatrapati; state gets Rs 90 + Rs 1 = Rs 91. External: after defeat the state pays Chauth + Sardeshmukhi = 25% + 10% = 35%. Why pay internally: A paying B shows B is respected; Chhatrapati = head of Deshmukhs; the Deshmukh bears the burden. 💡

Two descriptions: handout and slide table = extra 10% of land revenue; teacher's internal example = 10% of the Deshmukh's Rs 10 commission. Learn the table wording and the Rs 100 / 10 / 1 / 91 example.

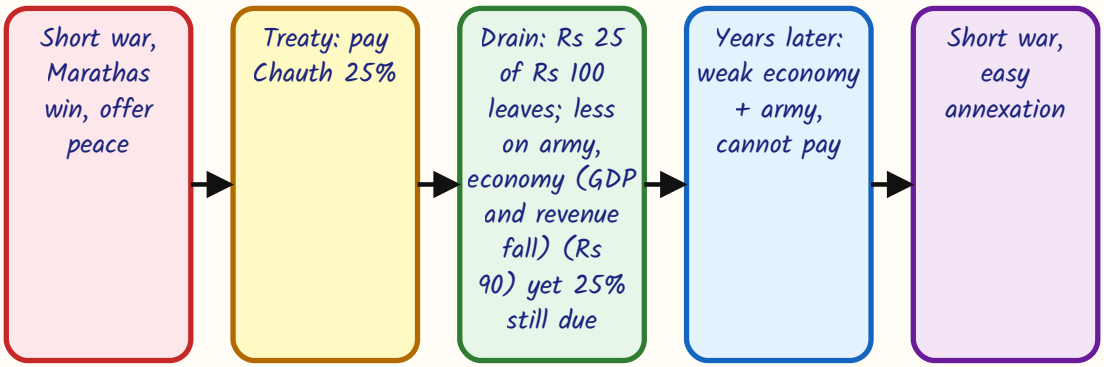

Division of Chauth	%	Purpose / beneficiary
Mokasa	66% (about 2/3)	Kept by Sardars for troops and cavalry
Babti	25% (1/4)	To Chhatrapati: personal use, royal treasury
Sahotra	6%	Pant Sachiv (head of royal secretariat, Ashtapradhan member)
Nadgavnda	3%	Chhatrapati's discretion: charity, gifts, minor officials

Chauth and Sardeshmukhi from outside reduced tax burden inside. If extracted by Chhatrapati / Peshwa, all retained by Svarajya; if by a Sardar, he keeps 2/3 and sends 1/3 to Svarajya (Chhatrapati gets 1/3).

Harshness of peace treaty (power gap rises)	Term
1	Chauth
2	Chauth + Sardeshmukhi
3	Chauth x 2 + Sardeshmukhi (1727: Gujarat made to pay 60% of revenue annually)
4	Annexation of territory

Russia–Ukraine analogy (mild to severe): 1 war reparation; 2 no import duty / preference for Russian goods; 3 non-aggression pact, Ukraine never joins NATO; 4 imposed military alliance, protectorate; 5 some territory; 6 significant territory; 7 full annexation.

Chauth as tool of empire-building

Teacher stresses: Scenario 1 straight annexation = long, costly, high loss of men. Scenario 2 = Chauth for ten years then easy total victory. Of Rs 100, Rs 75 left for army, agriculture, irrigation, technical reforms: DRAIN. Two ways to capture power: (a) replace the rival (annexation) = costly but fast; (b) capture the enemy from within = less costly but slow.

PESHWA OFFICE, SANGOLA 1750

📖 Story link · beat 9: Because power slid from the Chhatrapati down to the Peshwa, Sangola 1750 made it official. Now a weak centre meets a united enemy.

Peshwa becomes hereditary

→ Originally not hereditary; Balaji Vishwanath 13–20 (6th Peshwa) changed it in practice: son Baji Rao 20–40, then his son Balaji Bajirao 20–40 / Nana Saheb (1740–61) = three generations = hereditary in effect

→ Shahu 19–49 effective but over-delegated to the Peshwa (trust; Peshwa never backstabbed him)

→ After his death Tarabai claimed Ramraja was not her grandson (as stated at adoption); Ramraja (1749–77) weak, legitimacy fell

→ Nana Saheb backed him but made him sign Treaty of Sangola, Feb 1750: all real power to the Peshwa, Chhatrapati symbolic

Teacher stresses (Mains): whenever real power shifts down: (1) factionalism rises (Peshwa vs Sardars, Sardars vs Sardars; Bhonsle did not fight at Panipat 1761) (2) more dependence on the lower authority's personality. Family table analogy: Chhatrapati = father; Peshwa (B1), Gaikwad (B2), Scindia (B3), Bhonsle (B4), Holkar (B5) = brothers; after 1750 the eldest takes the father's seat.

#	Peshwa	What to remember
1	Balaji Vishwanath 13–20	Sixth Peshwa; backed Shahu 19–49; made post hereditary in practice
2	Baji Rao 20–40	Son of Balaji Vishwanath 13–20; plundered Delhi 1737; Treaty of Bhopal 1738
3	Balaji Bajirao 20–40 / Nana Saheb (1740–61)	Son of Baji Rao 20–40; Panipat era; Sangola 1750 with Ramraja; died within weeks of 1761 defeat
4	Madhav Rao 61–72	Younger son of Nana Saheb (elder Vishwas Rao died at Panipat); young but able, temporary revival; died naturally 1772
5	Narayan Rao 72–73	Brother of Madhav Rao 61–72; murdered 1773 by uncle Raghunath Rao 73–74
6	Raghunath Rao 73–74	Uncle, conspirator; usurped the office
7	Madhav Rao II 74–95	Infant son of murdered Narayan Rao 72–73; Nana Fadnavis regent; overbearing control drove him to suicide 1795
8	Baji Rao II 96–18	Last Peshwa, son of Raghunath Rao 73–74 (claim by bloodline); ended by Third Anglo-Maratha War 1817–19

Source inconsistency: Balaji Bajirao is tagged 20–40 in the table (same as Baji Rao 20–40) but dated 1740–61 in the text and written 40–61 in Ch 5. Anchor on 1740–61.

Family of Baji Rao 20–40 and Nana Saheb

→ Baji Rao 20–40's brother Chimaji Appa; his son Sadasiv Rao Bhau commanded the army at Panipat III, died fighting

→ Nana Saheb did not fight, died within weeks; elder son Vishwas Rao died fighting at Panipat

→ Nana Fadnavis: led the Barbhai conspiracy removing Raghunath Rao 73–74 (revenge for Narayan Rao 72–73); fought at Panipat 1761; "modern Chanakya"; first to see the EIC had territorial ambitions

→ Svarajya (minus Satara and Kolhapur, left to show respect for Chhatrapatis) annexed by EIC after the 3rd Anglo-Maratha War (1817–19)

Phase	Years	Character
1	1680–1719	Turmoil: Mughal war after Shivaji 74–80; civil war 1707–19
2	1719–1761	Growth and expansion
3	1761 onwards	Decline; temporary revival in 1770s (First Anglo-Maratha War 1775–82)

🗺️ WARS AND TERRITORIES TO 1761

📖 Story link · beat 8: Because the Sayyid deal of 1719 gave rights in six Deccan provinces, the Nizam's refusal in 1724 sparked a decade of expansion.

1719 turning point: Sayyid alliance

→ Peshwa Balaji Vishwanath 13–20 + Sayyid Brothers (kingmakers) removed Farrukhsiyar 13–19, installed Muhammad Shah 19–48 as puppet

🎯 Three gains (boxed for Prelims)

→ Mughals formally recognised Maratha autonomous status in Maharashtra

→ Chauth of Malwa and Gujarat

→ Right to Chauth + Sardeshmukhi from six Deccan provinces: Khandesh, Hyderabad, Aurangabad, Berar, Bidar, Bijapur

→ Bijapur later merged into Golconda, so some sources name Golconda as sixth; the Nizam's Hyderabad State was built from these six

→ 1720 the Nizam (1724–48), Governor of Hyderabad Suba, beat the Sayyids; Md Shah 19–48 = joint puppet of Irani + Turani factions; 1724 Nizam made Hyderabad independent successor state, refused Chauth and Sardeshmukhi

1727–28	1728	1729	1731
Gujarat: Mughals beaten, 60% of revenue as annual tribute	Hyderabad beaten; Deccan Chauth + Sardeshmukhi regained	Malwa captured, reach into Rajasthan (Mughals did not accept)	Beat joint attack by Nizam and Gujarat chiefs

1736	1737	1738	1739
Portuguese + Ethiopian Muslims beaten on Konkan coast	Baji Rao 20–40 plunders Delhi, holds Md Shah 19–48 briefly	Beat Mughal army under the Nizam: Treaty of Bhopal	Treaty of Bassein with Portuguese: Bassein (Vasai) annexed; Salsette and Bassein near Bombay (trade)

Treaty of Bhopal 1738: Marathas get Suba of Malwa (formalising de facto control since 1729) and sovereignty over all lands between the Chambal and Narmada. ⭐

1745–51	1751	1752	1752
Raghuji Bhonsle of Nagpur raids Bengal Suba; Alivardi Khan 40–56 gives up Odisha, pays Chauth of Bengal and Bihar till Plassey 1757	Nana Saheb beats Hyderabad: Salabat Jung 51–62 cedes Khandesh by Treaty of Bhalke (Hyderabad loses Arabian Sea access)	Ahmedabad taken = Gujarat annexed; Damaji Gaikwad Chief and Governor of Gujarat, HQ Baroda	Mughal Empire under Maratha protection (fear of Afghans)

1754
Alamgir II 54–59 installed as puppet

From 1751 regular raids on Rajputs (tribute, succession disputes) but Rajputana never fully conquered; Sikhs not dominated. Abdali 47–72: at least seven invasions 1748–1767; first, 1748, checked at Manupur (Mughal army fought, Sikh misls harassed supply lines). By mid-18th century the Marathas = top power; by 1752 they stood where Zulfiqar Khan, the Sayyids and the Nizam (Wazir 1722–24) once stood. 💡

🎯 THIRD BATTLE OF PANIPAT 1761 PYQ 2010

📖 Story link · beat 10: Because by 1752 the Marathas stood where the Sayyids once did, the Afghan threat had to be met. Abdali came to avenge Timur.

🏛 Background

→ Abdali 47–72 (Durrani): founded modern Afghan borders 1747 after Nadir Shah's death; earlier his commander, Governor of Afghanistan, in Nadir's 1738–40 invasion of India

→ 1756 invasion culminates in Panipat 1761; his raids from 1756

→ Abdali's son Timur Shah (aged 11) = Governor of Punjab and Kashmir; 1758 Nana Saheb sent brother Raghunath Rao 73–74, who removed Timur from Lahore

→ Marathas made Adina Beg Khan Governor of Punjab for Rs 75 lakh a year; on his death Sabaji Scindia held garrisons at Attock and Peshawar

→ Peak of Maratha power; Nana Saheb even thought of Vishwas Rao as Emperor of Hindustan

Prelims 2010: immediate reason = (a) to avenge the Marathas' expulsion of his viceroy Timur Shah from Lahore (March 1758). Wrong: (b) fast Maratha expansion = only background (c) no Mughal tribute dispute (d) no "Sultan of Punjab" refusing safe passage. ⭐

Side	Strength and members
Marathas	about 50,000
Abdali's alliance	about 60,000: Abdali; Rohillas under Najib-ud-Daula 57–70 (Rohilkhand); Bangash Pathans under Ahmad Khan (1750–82) (Farrukhabad); Awadh under Shuja-ud-Daula 54–75

Source doubt: Ahmad Khan's span appears as (1750–82) here, 50–71 in Ch 5 (and 50–82 flagged there). Anchor on his dates in Ch 5: retook Farrukhabad 1750, EIC annexed it 1802. Board Q: Awadh in the Mughal empire yet joined Abdali = factionalism (Mughal vs Mughal), weak centre, Awadh a successor state.

#	Why Abdali won	Detail
1	Alliance	Awadh felt encircled (Chauth of Bihar and Bengal since 1751 east, Delhi since 1752 west, Samrajya south); chose the Islamic alliance when Marathas sought Shuja. Rohilkhand + Farrukhabad hoped for more influence under an Afghan emperor. Sikhs, Rajputs, Jats neutral (Maratha plunder). 60,000 vs 50,000
2	Logistics	Cut supply Panipat–Delhi: famine, no food, no fodder
3	Terrain	Open plains, no hills, forests, passes for Maratha guerrilla tactics
4	Firepower	Horse-mounted swivel guns pierce armour (stability, aim: attached to the seat)
5	Leadership	Abdali + Najib-ud-Daula 57–70: coordinated command
6	Maratha factionalism	Raghuji Bhonsle of Nagpur refused to fight (opposed Nana Saheb as Peshwa); 1765 Peshwa plundered Nagpur; Bhonsle also absent from First Anglo-Maratha War 1775–82

Board: Jats offered help but alliance failed on tactics: Surajmal 56–63 wanted guerrilla war, Sadashiv Rao Bhau did not; Jats still sent supplies. Rohilkhand and Farrukhabad: ethnicity = soft power. Plunder = attack then loot = Chauth + Sardeshmukhi. Logistics and terrain both fall under TACTICS.

Impact of defeat

→ Sadasiv Rao Bhau and Vishwas Rao died fighting; Nana Saheb (guarding southern frontiers) arrived with reinforcements when lost, died within weeks; Marathas lost 50,000 (combatants + non-combatants)

→ Factionalism deepened: young but brilliant Madhav Rao 61–72, incompetent Narayan Rao 72–73, infant Madhav Rao II 74–95

→ Abdali paid heavily: losses, anti-Abdali revolt of his generals; could not consolidate in India

→ Power vacuum: Panipat did not decide who would rule India, it decided that neither Marathas nor Abdali would; the EIC filled it, beating regional states one by one

AFTER PANIPAT 1761–1819 (about 60 years)

Story link · beat 11: Because Panipat left a power vacuum, decline followed with moments of strength, until the EIC took over.

1765
Marathas beat Mysore, extract tribute

1766
Treaty of Hyderabad: Northern Sarkars to EIC for Rs 7 lakh a year + protection vs Marathas and Mysore

1771
Mahadji Scindia 68–94 retakes Delhi from Rohilla Afghans (held since 1761)

1775–82
First Anglo-Maratha War: Marathas beat EIC, the only war of the period the EIC lost

1782
Treaty of Salbai: Maratha–EIC military alliance (signed by Mahadji Scindia, near Gwalior)

1784
De Boigne raises Fauj-i-Hind (Campoo)

1795
Battle of Kharda: Maratha victory over Hyderabad; EIC neutral (Salbai ally); last Hyderabad–Maratha battle

1798
Hyderabad: first Subsidiary Alliance

1803
EIC captures Delhi in 2nd Anglo-Maratha War

1817–19
3rd Anglo-Maratha War: Svarajya annexed; last Peshwa Baji Rao II 96–18 ends

→ Initially four districts: Chicacole (Srikakulam), Rajmandri (Rajahmundry), Ellore (Eluru), MustafaNagar (Kondapalli)

Northern Sarkars (Circars)	→ MurtuzaNagar (Guntur) added later as fifth; Guntur not transferred in 1766
Campoo system	→ Mahadji Shinde (Scindia) hired French adventurer Benoit de Boigne: Fauj-i-Hind = Campoo, each Campoo with own infantry, cavalry, artillery; self-sufficient → Army turned from light-cavalry force to modern European-style infantry-cavalry-artillery (like Haider Ali 61-82's army 1761-82, French help); Holkar hired Frenchman Dudrenec → Board: "multiple regiments, each a mini army": own transport, supplies, weapons; benefits speed + political stability (fewer coups by a commander); link Risala of Haider Ali 61-82

Teacher stresses: Delhi was with the Marathas 1752-1803 (minus 1761-71, Rohillas in between). 1761-1819 = about 60 years. 1803 and 1817-19 = Maratha losses. 1765: Haider Ali 61-82 strong.

Source conflict (Salbai): handout says the alliance held until 1795 (Kharda, EIC neutral); teacher's Lecture 7 says it held until the 2nd Anglo-Maratha War (1803-05). Both in class material; teacher's version puts the breakdown at the next Anglo-Maratha war.

🎯 WHY NO ALL-INDIA MARATHA RULE (Mains, boxed)

📖 Story link · beat 11: Because the Marathas controlled but did not rule, all-India rule slipped away. They took tribute instead of ruling.

Five structural reasons

Why not all-India?	→ 1 Tribute, not annexation: stopped at Chauth + Sardeshmukhi; extracting tribute is not ruling; ruling = policies through own administration on the ground; one country, one ruler, one law, rule of law → 2 Weak centre, strong Sardars: factionalism; Sardars always autonomous; Shivaji 74-80 gave no Jagirs, Shahu 19-49 no Vatan Jagirs, so ambitious Sardars went out and built Samrajya; Chhatrapati's authority weak there → 3 Sangola 1750: power down to Peshwa, Sardars less constrained; after 1761 weak Peshwas speeded it → 4 Not centralised in Svarajya: local assemblies of Vatan holders (Deshmukhs, Patils) pressed the Peshwa ("democratic spirit" not strong centre) → 5 Samrajya: areas under a Sardar militarily but no government machinery: control yes, rule no (not 100%)

🎯 MAINS 2014: WHY SO MANY BATTLES AT PANIPAT? PYQ 2014

📖 Story link · beat 10: Because the Panipat region is the gateway to Delhi, battles repeat there; the Third Battle of 1761 is the one that broke the Marathas.

Not for the town: the region is the gateway to Delhi. Any power from Central Asia or Afghanistan came through the Khyber Pass; the staging ground runs through Panipat, Karnal, Kurukshetra, Thanesar; a Delhi ruler's sound move was to stop the enemy at these gates. Supporting factors: (1) vast open fields for set-piece battles (2) weather for long campaigns (3) many warrior communities ease recruitment (4) agricultural productivity + nearness to Delhi ease supply. ⭐

Battle	Year	What it shook
Thanesar	1014	Mahmud of Ghazni; empire from Iran to today's Pakistan by 1030
Thanesar	1191	Muhammad Ghori
👫 First Panipat	1526	Delhi Sultanate
Second Panipat	1556	Ended rule of Hemu
Karnal	1739	The Mughals
Third Panipat	1761	The Marathas

Feature	Svarajya	Samrajya	Chauth	Sardeshmukhi
Scope	Inside Maharashtra, direct	Outside Maharashtra (1719+), Sardars	External only	Internal + external
Rate	n/a	n/a	25%	Extra 10%
💡 Meaning	Homogeneous, governed	Real admin only in parts	Tool of empire-building	Symbol of recognising Chhatrapati

1674–80
Shivaji 74–80: Raigarh, Svarajya, army, navy, forts

1680–1719
Turmoil; Tarabai; Shahu 19–49 released 1707; civil war

Recall drill: cover and answer

Regional powers = ?	SS + Rebel S + AA S; Marathas head the Rebel States	Purandhar 1665 terms?	23 of 35 forts; Aurangzeb 58–07 accepted, no personal mansab; Sambhaji 80–89 mansab 5,000; support vs Bijapur
Navy numbers and vessels?	20 ships 1657, 200 by 1664, peak 700; Ghurabs, Galbats, Shibars and Pals; Jaladurg sea forts	Ashtapradhan eight?	Peshwa PM, Amatya finance, Sachiv correspondence, Sumanta foreign, Senapati military, Panditrao religion, Nyayadhish justice, Waqenavis intelligence
Sardar and capital (Prelims 1995)?	Gaikwad Baroda, Holkar Indore, Scindia Gwalior, Bhonsle Nagpur	Chauth vs Sardeshmukhi?	Chauth 25% external only; Sardeshmukhi extra 10% internal and external
Chauth split?	Mokasa 66, Babti 25, Sahotra 6, Nadgaunda 3	1719 gains and 1738 Bhopal?	Autonomy in Maharashtra, Chauth of Malwa + Gujarat, Chauth + Sardeshmukhi of six Deccan provinces; Bhopal: Malwa + Chambal–Narmada
Prelims 2010: Abdali's trigger?	Expulsion of son Timur Shah from Lahore, March 1758, by Raghunath Rao 73–74	Why Abdali won (six)?	Alliance, logistics, terrain, firepower (swivel guns), leadership, Maratha factionalism (Bhonsle)
Why no all-India rule?	Tribute not annexation, weak centre strong Sardars, Sangola 1750, Svarajya not centralised, no machinery in Samrajya		

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

PM = Prime Minister — Head of the Union government

GDP = Gross Domestic Product — Total value of goods and services produced within a country in a year

NATO = North Atlantic Treaty Organization — Western military alliance formed in 1949

JAT AND AFGHAN KINGDOMS

PYQ Prelims 2010 · Mains 2017 (fragmented polity); teacher: Mains 0, some content usable in a larger answer

Weak Delhi offers rebels a middle path, so Jats, Bangash Pathans and Rohillas turn local force into rule. Each stands on an outside prop (Abdali, Maratha backing) and falls when it goes; Abdali himself came over a family quarrel at Lahore.

THE STORY FIRST (same story as the textbook)

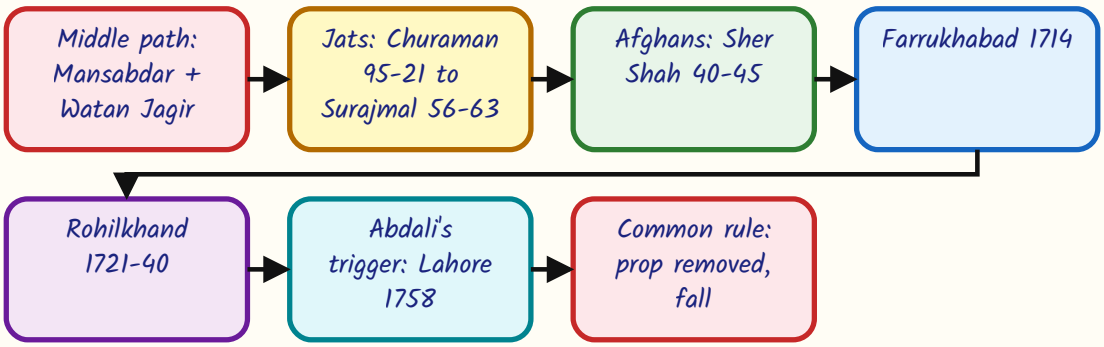

Delhi's weakness offers rebels a deal (the middle path), so Jats, Bangash Pathans and Rohillas turn local force into rule; but each stands on an outside prop (Abdali, Maratha backing) and falls when the prop is removed, and Abdali's own reason for coming was a family quarrel over Lahore.

1. **Two bad options and a middle path.** Fight on or lose the land: so the middle path. Rebel becomes Mansabdar, pays tribute, gives an army; emperor gives dynastic governorship, Watan Jagir. Sikhs stay outside.
   → So who actually took this path?
2. **Three more Rebel States.** Besides the Marathas: the Jat Kingdom of Bharatpur, Farrukhabad (1714, Bangash Pathans) and Rohilkhand (Rohillas). All turned local force into rule; none built a big empire.
   → First, the farmers who fought back.
3. **The Jats rise from the soil.** Heavy land revenue and lost autonomy under Jahangir 05–27 push Jat Zamindars into guerrilla resistance. Gokla (1669), then Churaman 95–21 founds Bharatpur in 1695; Badan Singh (1722–55) consolidates.
   → Then one ruler takes it to the peak.

4. **Surajmal's peak, and the fall.** Surajmal 56–63 builds a centralised State, Delhi to Agra, with Lohagarh. At Panipat 1761 Bhau rejects his guerrilla plan. After he dies in 1763 the State collapses.
   → But the Afghans have a story that began much earlier.
5. **The Afghan who ruled Delhi.** Afghans came as warlords for hire. Farid Khan (born about 1486) learns Mughal administration after 1526, and by 1540 as Sher Shah 40–45 beats Humayun 30–40 at Kanauj.
   → And what does he do with five years?
6. **Five years that mattered (1540–45).** In five years Sher Shah 40–45 builds Suba–Sarkar–Pargana, the Grand Trunk Road, Dak Chowki, the silver Rupiya and fair revenue with Patta and Qubuliat. After 1545 the Afghans fragment.
   → In the 18th century a new Afghan surge arrives.
7. **Farrukhabad: a warlord and a flattering name.** Md Khan Bangash backs Farrukhsiyar 13–19 with 12,000 troops and founds Farrukhabad in 1714. Son Qaim Khan falls to Safdar Jung 39–54's scheme in 1749; Awadh annexes Farrukhabad.
   → Then Ahmad Khan comes back.
8. **Ahmad Khan's see-saw.** Ahmad Khan Bangash 50–71 retakes Farrukhabad (1750), is driven out, returns by ceding half to Holkar and Scindia. Beside Abdali in 1761 he regains all; EIC annexes it 1802.
   → Rohilkhand rises another way, from the ground.
9. **Rohilkhand: hired guns become rulers.** Katehr Zamindars hire Afghan Rohillas; Ali Md Khan leads them from 1721. In 1739 Nadir Shah paralyses Delhi, so he stops taxes; in 1740 he is made Subadar.
   → Like Farrukhabad, it ends with the Abdali prop gone.
10. **The end of Rohilkhand.** Najib-ud-Dawla 57–70 backs Abdali in 1761; Delhi is under Rohilla influence till Mahadji Scindia 68–94 retakes it in 1771. In 1774 Awadh and the EIC annex most of Rohilkhand.
    → Why did Abdali come in the first place?
11. **Why Abdali came (Prelims 2010).** In March 1758 Raghunath Rao 73–74 drives Abdali's son Timur Shah out of Lahore. To avenge Timur Shah is Abdali's immediate reason for Third Panipat.
    → Now step back: one pattern fits all three.
12. **One pattern, one prop.** Each rose differently, yet each needed an outside prop: Abdali for the Afghan kingdoms, Maratha backing for Surajmal 56–63. The props went (Abdali 1761, Surajmal's death 1763) and they fell.

Cast: Churaman 95–21 Jat = The Founder · Surajmal 56–63 = The Iron Fort Builder · Sadasiv Rao Bhau = The Rejecter of the Plan · Sher Shah 40–45 = The Five-Year Reformer · Md Khan Bangash = The Maker · Qaim Khan = The Quarry · Ahmad Khan Bangash 50–71 = The Avenger · Safdar Jung 39–54 = The Predator Neighbour · Ali Md Khan = Absorb, Absent, Appointed · Najib-ud-Dawla 57–70 = The Delhi Rohilla · Ahmad Shah Abdali 47–72 = The Prop · Timur Shah = The Son · Raghunath Rao 73–74 = The Expeller · Mahadji Scindia 68–94 = The Delhi Retaker

🗺️ At a glance: three Rebel States, one pattern

Teacher's verdict: Chapter 5 = less important. Mains 0, Prelims some; in a larger Mains answer some content can be used. Lecture 7 (slides 29–49) repeats Lecture 8 (slides 1–23); figures from Lecture 8. ⭐

THE MIDDLE PATH: KING AND REBEL

📖 Story link · beat 1: Because the Mughals were too weak to crush every rebel, they offered a deal. Now: who took this path?

Middle path (board)

→ Emperor's options: (1) keep fighting, end the rebellion (2) lose the territory (T), let the rebel set up an independent kingdom

→ Rebel gives: accepts to be a Mansabdar, accepts Mughal as emperor, sends tribute to Delhi, maintains an army / helps the emperor militarily

→ Emperor gives: dynastic governorship, territory as rebel's Watan Jagir, non-interference

→ Core interests: emperor = territory shall not shrink, revenue and military come from it; rebel = king of that territory with dynastic rule

Side	Gets on the middle path
King (Mughal)	Rebel provides army; empire does not shrink
Rebel	Opportunity as Mansabdar at the centre (recall successor states); dynastic governor status; territory accepted as Watan Jagir

Teacher stresses: except the Sikhs (never accepted Mughal symbolic sovereignty, except once, 1707) the pattern appears among Jats, Marathas, Rohilkhand, Farrukhabad, Mysore, Rajputs. Board link: Article 370 status (a state within a state on special terms). ⭐

Class	Members
💰 SS Successor	Bengal, Awadh, Hyderabad
RS Rebel	Marathas, Rohilkhand, Farrukhabad; plus Sikhs
AAS Already Autonomous	Rajputs, Mysore; plus Travancore

Note: the Sikhs [RS] and Travancore [AAS] were not legally in the Mughal empire. 📌

Apart from the Marathas three more Rebel States: Jat Kingdom of Bharatpur (East Rajasthan) and two Afghan kingdoms, Farrukhabad (est. 1714) and Rohilkhand (crystallised 1737–40). All used the weakening Mughal Empire to convert local military power into territorial rule; none built a large, sustainable empire. 💡

THE JAT KINGDOM 1695–1763

📖 Story link · beat 3: Because harsh land revenue and lost autonomy angered the Zamindars, the first rebel State grew from the soil; then Surajmal takes it to the peak.

Who and why they resisted

→ Agrarian community of North India (cultivation)

→ Hostility from Jahangir 05–27: harsh land revenue + Mughal drive to subordinate local autonomy pushed the Zamindars to resist

→ Method: guerrilla warfare (fast, decentralised)

Jat leaders

1669 (slide 1669–70): Gokla, first organised revolt → Rajaram → Churaman 95–21: founds Bharatpur 1695 → Badan Singh (1722–55): consolidation → Surajmal 56–63: peak

Code dropped: source tags the Jat leader Rajaram with 89-00, the Maratha Rajaram's code; not written here (general knowledge, verify).

Teacher marked imp: Churaman 95-21 = establishment of the Jat kingdom; Surajmal 56-63 = the most powerful. Hostility = high LR + end of local autonomy. Jat Kingdom of Bharatpur: East Rajasthan, south of Delhi, bordering Mathura and Agra districts; Churaman 95-21 Jat (1695-1721) turned peasant discontent over LR into political and military power (like Marathas, Sikhs); recognised as autonomous ruler within the Mughal Empire. Lohagarh Fort = Iron Fort, never conquered.

Surajmal 56-63: peak

→ Strong centralised State; forced the emperor to recognise him as autonomous ruler within the Mughal Empire

🔧 Three reforms

→ Recruited European soldiers (like Mahadji Scindia 68-94's Campoo, Ch 4)

→ Mughal-style revenue system

→ Removed relatives from court posts to cut factionalism (contrast Mughal R vs R)

→ Extent: Delhi to Agra, Chambal to Ganga: Delhi, Haryana, UP, Rajasthan

→ 1763 death = Jat State collapses

→ Panipat 1761: offered help to Marathas; alliance failed on strategy (Surajmal 56-63 wanted guerrilla war, Sadasiv Rao Bhau refused); Jats still sent supplies; (Alamgir II 54-59 was a Maratha puppet)

Better deal for the peasant? No: "no peasant utopia" (Dreamland). Result of peasant revolts, but land revenue stayed high, power with Zamindars not ryots; replicated the same extractive structure it rose against. Keywords: LR, peasant revolt, extractive structure.

THE AFGHANS AND SHER SHAH 40-45 SURI 40-45

📖 Story link · beat 5: Because the Afghans were soldiers for hire, one of them once ruled Delhi himself. Now: what did he do with five years?

Afghans in North India

→ Migrating since the 15th century (poor economy, instability at home); in military labour markets = wandering warlords, fighters for hire

→ Suris: clan of the Pashtun tribe from Sur region, came in Lodi Sultanate (late 15th c.); Suris were Mansabdars in Delhi Sultanate (Bihar); grandfather small jagir in Sasaram (Bihar)

→ Sher Shah 40-45 Suri 40-45: born Farid Khan c. 1486, Sasaram; second-generation Indian Afghan, rose by ability

→ Served Afghan governor of Bihar, then briefly Mughals after Babur 26-30 beat the Lodis 1526: studied Mughal administration

→ Base Bihar and Bengal; 1540 beat Humayun 30-40 at Kanauj, exile in Persia, took Delhi

Handout comparison: Suri vs Bangash Pathans of Farrukhabad: same Afghan migrant background, same military-labour-market entry, very different ceiling (narrower political window). Board: Suri empire's extent similar to Babur 26-30's (1526-30) and the Delhi Sultanate (1208-1526). Afghan markers: Suris 1540-55, Farrukhabad 1714, Rohilkhand 1737-40, Abdali 1748-61.

Reform of Sher Shah 40-45	What he did	Board point
Administrative hierarchy	Centre, Province (Suba), District (Sarkar), Sub-district (Pargana)	Akbar 56-05 adopted almost wholesale
Grand Trunk Road	Upgraded the Uttarapath, Bengal to North-West Frontier	Boosts economy, trade
Dak Chowki	Reliable postal-relay system	"Like a relay race"

The Rupiya	Standardised (weight, valve) silver coin; basis of Indian currency for centuries	Trust between buyer and seller; needs a central authority
💰 Revenue	Land surveys, fair LR fixed directly with peasant, no middleman Zamindar	Patta (with ryot) + Qubuliat (with govt): "head and tail", one document in two copies

Handout: first ruler to seriously attempt administrative reform, but only five years; successors failed; after death 1545 Afghans fragmented. Suri Interregnum 1540–55 = brief Afghan interruption; ended when Humayun 30–40 retook Delhi 1555 after Sirhind; died 1556. ⭐

🆕 18TH CENTURY: NEW AFGHAN SURGE

📖 Story link · beat 7: Because the Mughal State weakened again, a second Afghan wave came: Farrukhabad and Rohilkhand.

New surge of Afghan migration as homeland instability grew; Mughal weakening = opportunity. Two kingdoms: Farrukhabad (district in UP; Bangash Pathans) and Rohilkhand (also Rampur, capital Bareilly; Rohilla Afghans). Both lie between Awadh and the Marathas. 💡

	Farrukhabad	Rohilkhand
Clan	Bangash Pathans	Rohillas
Dates (board)	1714–43, Md Khan Bangash	1721–48, Ali Md Khan; 1737–40 Marathas and Nadir Shah weaken Mughals
Status	Within Mughal Empire (Article 370-type)	Within Mughal Empire (Article 370-type)

Mughal interests: territory does not shrink; military and money. Rebels' interest: dynastic rule. Factionalism (R vs R): Jahandar Shah 12–13 came to power by killing his brother; Farrukhsiyar 13–19 killed Jahandar Shah 12–13. Both kingdoms supported Abdali at Panipat 1761; Awadh annexed both. 💡

👫 FARRUKHABAD (est. 1714)

📖 Story link · beat 7: Because court politics left vacuums, a warlord with troops could buy a title. Then Ahmad Khan comes back.

Ruler	What happened
Md Khan Bangash (1714–43)	Pathan warlord; backed Farrukhsiyar 13–19 with 12,000 troops; rank of Nawab + revenue assignments near the Ganga (Jagir; Nawab = mansabdar rank; Mughal followed the mid path); founded Farrukhabad 1714 named after the emperor; died 1743, son Qaim Khan
💡 Qaim Khan (1743–49)	1749 Safdar Jung 39–54 (Nawab of Awadh and Wazir) engineered his death in battle; Farrukhabad annexed to Awadh, plundered
Ahmad Khan Bangash 50–71	Retook it 1750; driven out 1751–52 by Marathas and Jats; fought beside Abdali at Panipat 1761 to recover it; EIC annexed 1802; joined 1857 Revolt, defeated

Md Khan's gesture: first founded Mohammadabad after himself (annoyed Farrukhsiyar 13–19); Farrukhabad (city of Farrukh) = diplomatic correction: rebel acknowledging Mughal sovereignty in name, real autonomy on the ground. Qaim Khan = textbook example of the Wazir's loyalty being to his own State; highest Mughal Mansab a tool of personal and regional ambition. Safdar Jung 39–54 (Wazir of Ahmed Shah Bahadur 48–54) misused office, accused, forced to resign = virtual break of Awadh (Ch 3). 💡

Source conflict: handout (sec 4.2) says Jahandar Shah 12–13 seized power in 1712–13 by killing Farrukhsiyar's father; board says he killed his brother. Write Mughal succession violence (R vs R). 📌

Ahmad Khan 1750 onwards

→ 1751–52: Malhar Rao Holkar and Jayappaji Rao Scindia (sent by Peshwa Balaji Baji Rao 40–61) with Jats under Surajmal 56–63 drove him out; Awadh had requested them in 1751

→ 1752 treaty: he returns, but half of Farrukhabad to Holkar and Scindia

→ 1761 fought with Abdali 47–72 at Panipat III; recovered full dominions incl. the half ceded

→ After Abdali left India 1761, weakened; 1802 EIC annexed; Ceded Provinces = territories Awadh handed over under Subsidiary Alliance 1801; Farrukhabad merged into them

Source doubt: Ahmad Khan's short form is inconsistent (heading 50–71, 1750–1802; Ch 4 line-up 50–82; slide 1750–1802). Anchors: retook Farrukhabad 1750, EIC annexed 1802.

👫 ROHILKHAND (est. 1737–40)

📖 Story link · beat 9: Because Nadir Shah paralysed Delhi in 1739, a slow ground-level builder could finally declare independence. It ends with the prop gone.

Rise

→ Region originally Katehr: western UP, around Bareilly and Moradabad

→ 17th–early 18th c.: Zamindars and governors in Katehr hired Afghan mercenaries = Rohillas (from Roh, Afghan homeland; Rohilkhand = land of Rohillas); settled in Katehr long before Abdali came

→ 1721: Daud Khan (consolidated the mercenary groups) died; adopted son Ali Md Khan (1721–48) took over: not yet a State, but control of an armed force; two decades absorbing lands of the very Zamindars his men protected, uniting Afghan groups

→ 1739 Nadir Shah's invasion paralysed Delhi: he stopped paying taxes, ruled as independent, took Bareilly and Moradabad

Compare: Md Khan Bangash did it earlier and formally via Mughal court politics; Ali Md Khan via slow ground-level consolidation then defiance in 1739. Mughal response = co-opt what you cannot defeat: 1740 Md Shah (1719–48) granted Ali Md Khan the title of Subadar (a Mansabdar); Katehr renamed Rohilkhand, autonomous under nominal Mughal sovereignty; officially Nawab of Rohilkhand 1740. Title gave legitimacy to rebel, illusion of control to Mughals: both understood the fiction.

1761
Najib-ud-Dawla 57–70 backs Abdali at Panipat III

1761–71
Delhi under Rohilla influence (emperor in Awadh)

1770
Najib dies

1771
Mahadji Scindia 68–94 retakes Delhi; Shah Alam II 60–06 returns to the Red Fort

1774
Awadh + EIC annex most of Rohilkhand (Treaty of Allahabad 1765 alliance); rest = Rampur, capital Bareilly, under Awadh

1801
Rampur under the EIC (Awadh's Subsidiary Alliance)

🎯 WHY ABDALI CAME: IMMEDIATE TRIGGER PYQ 2010

📖 Story link · beat 11: Because both Afghan kingdoms backed Abdali at Panipat, we ask why he came at all. Answer: to avenge Timur Shah.

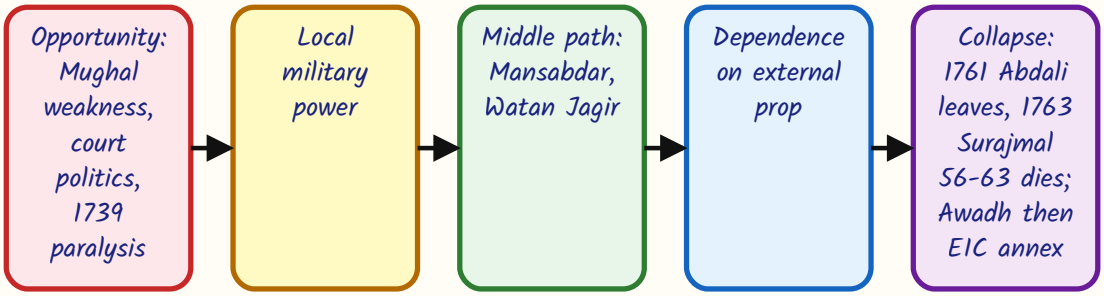

Prelims 2010: Abdali's immediate reason for Panipat 1761 = (a) avenge the Marathas' expulsion of his viceroy / son Timur Shah from Lahore. March 1758 Raghunath Rao 73–74 crossed into Punjab, drove away Timur Shah (Governor of Punjab and Kashmir). Marathas made Adina Beg Khan Governor of Punjab for Rs 75 lakh a year (auction of office); then Sabaji Scindia held garrisons at Attock and Peshawar. Phrase for Maratha reach: "Attock se Cuttack" (Orissa).

Why not the rest: (b) fast Maratha expansion = general background (c) Mughal Emperor's refusal of annual tribute: no such dispute (d) no Sultan of Punjab refusing safe passage.

SYNTHESIS: THREE REBEL STATES, ONE PATTERN

📖 Story link · beat 12: Because each story had the same shape, the teacher joins them: each needed an outside prop and fell when it was removed.

How a Rebel State was built

Feature	Jats (Bharatpur)	Farrukhabad	Rohilkhand
Founder, year	Churaman 95-21, 1695	Md Khan Bangash, 1714	Ali Md Khan, 1721 (recognised 1740)
How built	From agrarian base upward: Zamindar revolt, territory, reforming ruler (Surajmal 56-63)	From court politics downward: 12,000 troops, Nawab title, city, dynasty	From the ground up over two decades: mercenaries, consolidation, independence in 1739
Base	Zamindars, peasant discontent over LR	Pathan warlord, 12,000 troops	Afghan mercenaries hired in Katehr
Peak	Surajmal 56-63, 1756-63	Ahmad Khan with Abdali, 1761	Najib-ud-Daula 57-70, 1761-71 (Delhi influence)
Collapse	1763 Surajmal 56-63 dies	1749 Awadh; 1802 EIC	1774 Awadh + EIC; Rampur remains
Prop	Maratha tactical backing (Surajmal 56-63)	Abdali	Abdali

1486 Farid Khan born

1526 Babur 26-30 beats Lodis

1540 Kanauj

1545 Sher Shah 40-45 dies

1555 Sirhind

1605 Jahangir 05-27 begins

1669 Gokla

1695 Bharatpur

1714 Farrukhabad

1721 Ali Md Khan

1722 Badan Singh

1739 Nadir Shah

1740 Subadar title

1743 Md Khan Bangash dies

1749 Qaim Khan killed

1750 Ahmad Khan retakes

1756 Surajmal 56-63 begins

1758 Timur expelled

1763 Surajmal dies

1765 Treaty of Allahabad

1857 Bangash join Revolt

Recall drill: cover and answer

Middle path?	Rebel: Mansabdar, tribute, army. Emperor: dynastic governorship, Watan Jagir, non-interference	Three more Rebel States?	Jats of Bharatpur, Farrukhabad (1714), Rohilkhand (1737–40)
Churaman 95–21 and Surajmal 56–63?	Founder 1695; peak 1756–63, Delhi–Agra, Chambal–Ganga; no peasant utopia; collapse 1763	Sher Shah 40–45's reforms?	Suba–Sarkar–Pargana, Grand Trunk Road, Dak Chowki, Rupiya, Patta + Qubuliat; Suri Interregnum 1540–55
Md Khan Bangash?	12,000 troops for Farrukhsiyar 13–19, Nawab rank, Farrukhabad 1714; Qaim Khan killed 1749 by Safdar Jung 39–54	Farrukhabad end?	Retaken 1750; with Abdali 1761; EIC annexed 1802; Ceded Provinces
Rohilkhand steps?	Katehr; Daud Khan died 1721; Ali Md Khan; stopped taxes 1739; Subadar 1740; 1774 Awadh + EIC; Rampur	Prelims 2010?	Abdali came to avenge Timur Shah's expulsion from Lahore, March 1758
Common rule?	Each needed an external prop (Abdali; Maratha backing) and fell when it was removed

PUNJAB AND THE SIKH STATE

PYQ No Prelims mapped (1995–2025) · Mains 2014 (Panipat, supporting strand), Mains 2017 (fragmented polity: Misl example)

✎ *Territory turns a faith into a power: the Mughals kill two Gurus, so Sikhs form the Khalsa and demand a State. Banda Bahadur 08–15 builds and loses one; weak Misls keep it alive; Ranjit Singh 01–39 centralises, then signs with the EIC.*

📖 THE STORY FIRST (same story as the textbook)

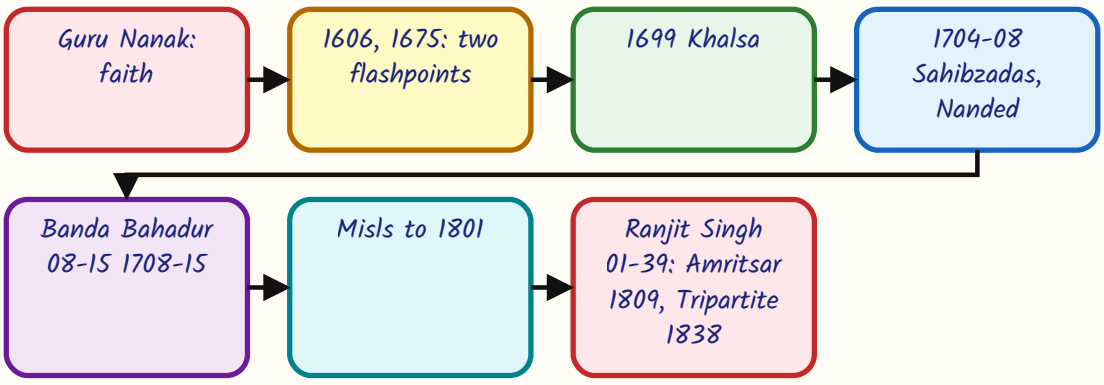

Territory turns a faith into a power: the Mughals kill two Gurus, so the Sikhs arm themselves (Khalsa) and demand a State at Anandpur. Banda Bahadur 08–15 builds one State and loses it; the Misl confederacy keeps the idea alive as a weak centre; Ranjit Singh 01–39 centralises it, then balances it, and signs treaties with the EIC.

1. **A peaceful faith.** Guru Nanak Dev (1469–1539) teaches one formless God, no rituals or priests, no caste, honest living. He settles at Kartarpur and starts the Langar, a free kitchen for equality.
   → But a faith meets a State the moment territory enters the picture.
2. **Territory, and the first blow (1606).** A State needs territory; once Sikhs demand one at Anandpur, conflict begins. In 1606 Jahangir 05–27 executes the 5th Guru, Arjan Dev, and the movement turns martial.
   → A second Guru is killed, and the answer is an army.
3. **The Khalsa (1675–1699).** In 1675 Aurangzeb 58–07 has the 9th Guru, Teg Bahadur, executed. In 1699 Gobind Singh 76–08 founds the Khalsa at Anandpur, an army like NSG or STF.
   → But Anandpur never comes, and the Guru's family pays.
4. **The Sahibzadas and a broken promise (1704–1707).** In December 1704 two elder sons die at Chamkaur; two younger are buried alive by Wazir Khan's order. Bahadur Shah 07–12 promises Anandpur in 1707, never kept.
   → And the promise is followed by a plot.

5. **Nanded and the Book (1708).** Wazir Khan's assassins strike the Guru at Nanded in 1708 and he dies. Days before, he made the Guru Granth Sahib final Guru, to stop Jat versus Khatri tension.
   → Now someone must carry the struggle and take revenge.
6. **Banda Bahadur 08–15's State.** Banda Bahadur 08–15 carries on: on 10 May 1710 he kills Wazir Khan and builds a State with coins, officials and seal. Farrukhsiyar 13–19 sends Abdus Samad Khan.
   → But a State needs its own people behind it.
7. **Why it fell (1715–1716).** Khatri traders, hurt by war, are won over by Ijaradari and Mansabs; Jat zamindars switch, as Churaman 95–21 goes over. Banda Bahadur 08–15, no Guru, is executed in 1716.
   → Yet the Sikh State does not die.
8. **The Misl confederacy.** Mughals are too weak to retake Punjab, so power spreads to Misl chiefs, kinship clans that unite against Afghans. By 1770 there are 12 major Misls: a weak centre.
   → But power tends to gather in a strong personality.
9. **Ranjit Singh 01–39 centralises.** Zaman Shah's invasions are the opportunity for Ranjit Singh 01–39: he takes Lahore from the Bhangi Misl, is crowned Maharaja in 1801, and makes other chiefs tribute-paying vassals.
   → Now he must settle accounts with the EIC across the Sutlej.
10. **Treaties and conquests (1809–1838).** Metcalfe's Treaty of Amritsar (1809) makes Ranjit Singh 01–39 sovereign with the Sutlej as border, so he expands: Multan 1818, Kashmir 1819, Peshawar 1834. Tripartite Treaty 1838 follows.
    → So what kind of State held all this together?
11. **A balanced, secular State.** Ranjit Singh 01–39 balances Misl chiefs, the Khalsa army, Khatri traders and non-Sikh nobles. Only 40% is Jagirdari; Kardars collect the rest. Azizuddin and Dina Nath are ministers.

Cast: Guru Nanak Dev = The Founder · Arjan Dev = First Flashpoint · Teg Bahadur = Second Flashpoint · Gobind Singh 76–08 = The Soldier-Guru · Wazir Khan = The Villain · Bahadur Shah 07–12 = The Promiser · Banda Bahadur 08–15 = The Avenger · Farrukhsiyar 13–19 = The Crusher · Churaman 95–21 = The Defector · Ranjit Singh 01–39 = The Maharaja · Charles Metcalfe = Met-calfe · Hari Singh Nalwa = Haria Ragle · Shah Shuja = The Puppet · Fakir Azizuddin and Dewan Dina Nath = The Secular Pair

At a glance: Nanak to Ranjit Singh

THE TEACHER'S OPENING BOARDS

📖 Story link · beat 1: Story so far: a State is a territory motive. Keep the teacher's board in mind: Sikh State, Anandpur, Misl chiefs, Khalsa like STF.

State = organisation with a territory (T) motive; until the Sikhs had a territory motive, no dispute. 1675: 9th Guru Teg Bahadur killed by Aurangzeb 58–07. 10th Guru Gobind Singh 76–08: 1699 Khalsa at Anandpur, goal a State. Misl chiefs = local chiefs = "mini mini kings" (private army, private fort) who gave armies to be led by the Guru. Khalsa = like STF / NSG commandos, chosen from existing forces. Territory: in and around Anandpur, Shivalik foothills, under Shivalik hill chiefs, Mughal allies. ⭐

Five Ks (Khalsa, 1699)	Meaning
Kesh	Hair
Kangha	Comb
Kada	(no gloss on the board)
Kirpan	Dagger
Kachera	Lower wear

👫 SIKHISM AND THE FIRST CLASH

📖 Story link · beat 1: A peaceful faith meets a State the moment territory enters. Then two Gurus die and the answer is an army.

Guru Nanak Dev (1469–1539)

→ Contemporary of Babur 26–30; Sikhism rose from 1500

💡 Four principles
- → One supreme formless God
- → Direct access, no rituals or priests
- → Rejection of caste
- → Honest living, selfless service

→ Four Udasis over 30 years, about 30,000 km: India, South Asia, Tibet, Arabia

→ Settled at Kartarpur (Pakistan): Langar = free communal kitchen for equality

Conflict with the Mughals

→ Initially none; then Sikhs demanded a State in and around Anandpur (west of Shimla, south of Chamba) under Shivalik hill chiefs, Mughal allies

→ 1606 first flashpoint: 5th Guru Arjan Dev executed by Jahangir 05–27: peaceful movement turns martial

→ 1675 second flashpoint: 9th Guru Teg Bahadur executed in Delhi by Aurangzeb 58–07

→ 1699 Khalsa at Anandpur, 10th Guru Gobind Singh 76–08: military organisation to defend the Sikh Panth and struggle for a Sikh State (handout: NSG/STF) = formal militarisation of political ambitions

1704 TO 1708: SAHIBZADAS AND THE GURU'S DEATH

📖 Story link · beat 4: Because the Khalsa threatened the Mughal order, the Guru's family paid and a promise was broken.

Dec 1704
Chamkaur: elder sons Sahibzada Ajit Singh (18) and Jujhar Singh (14) die in battle

Dec 1704
Younger sons Zorawar Singh (9) and Fateh Singh (6) buried alive in a wall on orders of Wazir Khan, Faujdar of Sirhind

1707
Bahadur Shah (1707–12), pacifist policy: high Mansab, Anandpur promised, never fulfilled

7 Oct 1708
Wazir Khan's assassins at Abchal Nagar Sahib Gurdwara, Nanded; Guru kills them, dies aged 42

Faujdar = district military commander, like a Superintendent of Police today. Since 2022, 26 December = Veer Bal Divas for the younger Sahibzadas. No action against Wazir Khan; Anandpur never given. Board: 1707 Aurangzeb 58–07 dies; pacifist policy = better relations with rivals; very high Mansab [Zat] and Anandpur: Article 370-like status (like Rohilkhand, Jats, Farrukhabad, Marathas under Shahu 19–49, Mysore, Rajputs). Same pacifist-policy argument: Ch 4 sec 5.

💰 GURU GRANTH SAHIB AS FINAL GURU

📖 Story link · beat 5: Because a living successor could inflame Jats against Khatris, the Guru chose a Book. Now someone must carry the struggle.

Why a Book

→ A few days before death at Abchal Nagar Sahib Gobind Singh 76–08 declared himself the last living Guru; all authority to Guru Granth Sahib Ji (the book he compiled)

→ Deliberate: prevent tension between the Jat community (dominated the Khalsa) and the Khatri traders (all ten Gurus were Khatris); a Book is neutral, question of dominance closed

→ Installed at Akal Takht, Golden Temple complex, Amritsar; Hukumnamas issued from there; warriors took blessings before battle

→ 19th-century Nirankaris and Namdharis believe in a living Guru: serious conflicts

→ Board: GGS = Holy Book + the Guru itself; disrespect = Beadbi; Khatris = men of money (merchants, moneylenders, ijaradars)

🗺️ BANDA BAHADUR 08–15: FIRST SIKH STATE

📖 Story link · beat 6: Because the Guru was dead, Banda took revenge and built a State. But a State needs its own people behind it.

Banda Bahadur 08–15

→ From 1708 carried on the rebellion; killed Wazir Khan at Chappar Chiri, 10 May 1710; conquest of Sirhind

→ State between Ravi and Jamuna with own coins, officials, seal = full independence

→ Farrukhsiyar 13–19 appointed Abdus Samad Khan Governor of Lahore to crush it

→ 1715 defeated; captured, executed in Delhi 1716

Territory flag: handout = between Ravi and Jamuna (answer-writing wording); board = "a small state in and around Patiala". Both in class material.

🗺️ Why his State fell (3 reasons)

→ 1 Khatri traders turned: constant war hurt trade; commercial class needs decisive victors and stability (money)

→ 2 Divide and rule: Jahandar Shah 12–13 introduced Ijaradari in Punjab (and Bengal) to co-opt Khatris; he and Farrukhsiyar 13–19 offered Mansabs to Khatris, who switched (more Mansabdars = Jagirdari Crisis, Ch 2)

→ 3 Hindu Jat zamindars switched: Churaman 95–21 Jat (1695–1721) went over after Mughals recognised his Jat Kingdom with conditional dynastic autonomy (guns / military)

Teacher stresses: Banda was not a Guru, lacked their authority. Rule (double-starred): when a personality weakens, power leaves (downward or sideways) and factionalism rises (Khatris vs Banda Bahadur 08–15).

🎯 MISL CONFEDERACY PYQ 2017

📖 Story link · beat 8: Because Banda fell but the Mughals were weak, power spread to Misl chiefs. Yet power tends to gather in a strong personality.

Misls

→ Banda's fall did not end the State; Mughals too weak; power decentralised to Misl chiefs

→ Misls = kinship-based clans: united in wars (esp. vs Afghan invasions), otherwise independent

→ Conquered land shared in proportion to military and monetary contribution; even the lowest soldier got land

→ By 1770: 12 major Misls; Dal Khalsa at the centre under a leader chosen by chiefs = weak centre, strong units

→ Compare the Maratha Confederacy under the Peshwas; decentralisation = resilience and vulnerability

Board: big circle (Punjab) with about a dozen circles (misls) inside, "roughly 40–60 misls" (handout's formal count 12 major by 1770). Dal Khalsa = assembly of misl chiefs; on Abdali's 1748 invasion it met, prepared joint defence, e.g. Manupur 1748 where Abdali was defeated (Ch 4).

PYQ (UPSC Mains 2017): "By the mid-18th century India was a spectre of fragmented polity." State PCS FYQ: "By 1715 Punjab was a spectre of fragmented polity." = weak centre, like coalition governments: factionalism, instability, shorter tenures, weak PM. "It is in the nature of power to centralise in a strong personality." Power cycles between centralised and fragmented; "today" at a trough. PSIR links: multi-polar world, balance of power, fragmented world order, confederalism.

RANJIT SINGH 01-39 UNIFIES THE MISLS

📖 Story link · beat 9: Because power gathers in a strong personality, Ranjit Singh 01-39 unifies the Misls. Next he settles accounts with the EIC.

Rise

→ Sukerchakia Misl; defeated Zaman Shah's third Afghan invasion of 1799 (slide: rose during invasions of 1796–1799); board: crisis = opportunity (Zaman Shah = Abdali's successor)

→ Coronated Maharaja of the Sikh State 1801

→ Other Misl chiefs = tribute-paying vassals, lands held as Jagirs, not Watan

1801
Lahore (handout list); slides: Lahore 1799 from the Bhangi Misl

1808
Jammu from the Dogras (handout: returned 1819, Dogras vassals; slide: jagir to Kishore Singh 1820, son Gulab Singh Raja of Jammu 1822)

1809
Handout: 'conquered whole Punjab'; slide: Treaty of Amritsar, eastern frontier secured

Source conflicts: handout Lahore 1801 vs slides 1799; Jammu 1819 returned vs slides jagir 1820 and Gulab Singh Raja 1822; handout 'third invasion of 1799' vs slide '1796–1799'.
Anchor on: coronation 1801, Amritsar 1809, Multan 1818, Kashmir 1819, Peshawar 1834, Tripartite 1838.

🌐 Treaty of Amritsar 1809

→ With the EIC through Charles Metcalfe, Resident at Delhi (Scindias removed from Delhi 1803; EIC indirect rule via Resident)

Four outcomes

→ EIC recognised Ranjit Singh 01-39 as sovereign ruler of Punjab

→ Military alliance (link: EIC's Policy of Ring Fence)

→ Sutlej fixed as border between Sikh State and Company State

→ Free to expand on his side of the Sutlej

→ Map: north of Sutlej = Ranjit Singh 01–39; south = EIC

1818
Afghans removed from Multan

1819
Kashmir conquered (Abdali took Punjab + Kashmir; Marathas retook Punjab 1758, not Kashmir; Ranjit completed it)

1834
Peshawar by Hari Singh Nalwa (Khyber Pakhtunkhwa, Durand Line): "Haria Ragle will turn up"

1838
Tripartite Treaty

Tripartite Treaty 1838: Sikh State + EIC + Shah Shuja of Afghanistan; design: British indirect rule in Afghanistan through puppet Shah Shuja; aim: buffer of Afghanistan + Punjab vs feared Russian invasion. Chain: Russia, Afghanistan, Khyber Pass, Sikh State, Company State. Board keywords: Khyber Pass, Peshawar. 💡

🗺️ WHAT KIND OF STATE?

📖 Story link · beat 11: Last scene: how did Ranjit Singh 01–39 hold it together? By balancing Misl chiefs, army, traders and non-Sikh nobles.

Feature	Ranjit Singh 01–39's State
⚡ Power	Coercion, diplomacy, balance of Misl chiefs, Khalsa army, Khatri traders, non-Sikh nobles (Dogras) (like successor States)
Character	Militarily strong, economically prosperous; fair revenue; trade flourished; law and order
Land	Only 40% under Jagirdari; rest revenue direct to King
Kardar	Chief administrative officer of a Taluqa (district): revenue collector, magistrate, police chief, customs officer
Ijaradari	Kardar often acted as Ijaradar instead of fixed salary, but ryot not oppressed by very high LR
Village autonomy	State authority stopped at the village; chiefs and clans respected (link: Mahalwari Settlement in Punjab)
📚 Secular cabinet	Fakir Azizuddin (Muslim) Foreign Minister; Dewan Dina Nath (Hindu) Finance Minister
Broad	Sahajdhari (non-Khalsa) Sikhs included; they do not keep the five Ks

Question	Banda Bahadur 08–15	Ranjit Singh 01–39
Commercial class	Khatris turned (trade hurt, co-opted by Ijaradari + Mansabs)	Khatris balanced among the State's pillars
Landed groups	Jat zamindars switched (Churaman 95–21 recognised)	Misl chiefs tribute-paying vassals; Dogras and local chiefs respected
🗺️ Centre	No Guru authority; Lahore Governor sent against him	Strong king: coronation 1801, EIC treaty 1809
Outcome	Captured 1715, executed 1716	Prosperous; Multan, Kashmir, Peshawar

Answer frame: a confederacy of Misls = weak centre; a strong personality (Ranjit Singh 01–39) centralises, and the weak centre returns when the personality weakens. Chapter feeds Mains 2014 and Mains 2017 as a supporting strand. ✅

1469 Nanak born	**1606** Arjan Dev	**1675** Teg Bahadur	**1699** Khalsa
1704 Chamkaur	**1707** Anandpur promised	**1708** Nanded; Banda Bahadur 08–15	**1710** Chappar Chiri
1715–16 Banda defeated, executed	**1748** Manupur	**1770** 12 Misls	**1799** Zaman Shah; Lahore (slides)
1801 Coronation	**1808** Jammu	**1809** Amritsar	**1818** Multan
1819 Kashmir	**1834** Peshawar	**1838** Tripartite	

Recall drill: cover and answer

Nanak's four principles?	One formless God; no rituals or priests; no caste; honest living and service; Langar at Kartarpur	Two flashpoints?	1606 Arjan Dev by Jahangir 05–27; 1675 Teg Bahadur by Aurangzeb 58–07
Khalsa 1699 and five Ks?	Anandpur, Gobind Singh 76–08, like NSG/STF; Kesh, Kangha, Kada, Kirpan, Kachera	Who killed the Sahibzadas and the Guru?	Wazir Khan, Faujdar of Sirhind; Nanded 7 Oct 1708, aged 42
Why Guru Granth Sahib as final Guru?	Avoid Jat vs Khatri rivalry; installed at Akal Takht	Why Banda Bahadur 08–15 fell?	Khatris turned, Ijaradari and Mansabs divide and rule, Jat zamindars (Churaman 95–21) switched
Misls?	Kinship clans; 12 major by 1770; Dal Khalsa weak centre; Manupur 1748	Treaty of Amritsar 1809?	Metcalfe; sovereign of Punjab; military alliance; Sutlej border; free to expand
Ranjit Singh 01–39's conquests?	Multan 1818, Kashmir 1819, Peshawar 1834 (Hari Singh Nalwa); Tripartite 1838	Ranjit Singh 01–39's State?	40% Jagirdari, Kardars, village autonomy, Azizuddin and Dina Nath

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

NSG = National Security Guard — Elite counter-terror force

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

PM = Prime Minister — Head of the Union government

⚖ ALREADY AUTONOMOUS STATES ⚖

PYQ Prelims 2001 (Tipu embassies) · Mains 2017, 2014 (tabled, none quoted); teacher: very little for Mains

✎ *Rajputs, Travancore and Mysore stood outside the Mughal middle path. Each built State capacity its own way: Rajputs by bargaining, Travancore by trade, Mysore by a war machine. Each ended under EIC pressure.*

📖 THE STORY FIRST (same story as the textbook)

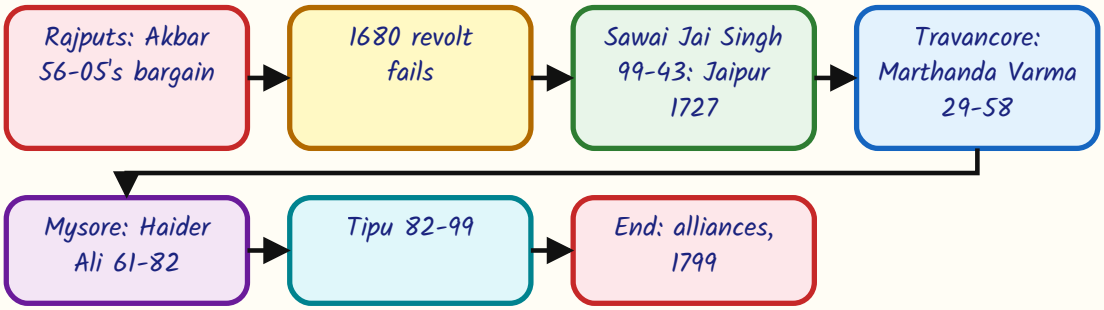

None of these three was ruled by the Mughals in the middle path, and each built State capacity in its own way: the Rajputs by bargaining, Travancore by trade, Mysore by a war machine; each ended up under EIC pressure.

1. **Outside the middle path.** Already Autonomous States: the Rajputs came into the system but kept their homes, Travancore was never Mughal, Mysore grew from Vijayanagar. None followed the Mughal middle path.
   → Start in the north, with Akbar's deal.

2. **Akbar's Rajput bargain.** Rajputana had about 20 clans and no centre; fighting them all was costly, so Akbar 56–05 made powerful chiefs Mansabdars with Vatan Jagirs, for tribute and troops.
   → That held for most of the 17th century, until Aurangzeb.
3. **1680.** Mewar under Raj Singh expands, so Aurangzeb 58–07 grows uneasy and in 1680 interferes in Marwar. Marwar and Mewar revolt, but other chiefs fear Mewar and refuse: it collapses.
   → After 1707 the Rajputs went their own way.
4. **Own terms, then new masters.** After 1707 the Rajputs act on their own terms, like Sawai Jai Singh 99–43. Marathas raid from 1751; after 1803–05 the EIC replaces them with Subordinate Alliances.
   → One Rajput of that age deserves a close look.
5. **Four hats.** Sawai Jai Singh 99–43 wears four hats: Mansabdar, state-builder, astronomer, town planner. Hurda 1734 fails and Bhopal 1738 gives Malwa to the Marathas; he founds Jaipur in 1727.
   → His other passion was the sky.
6. **Stone and sky.** Jai Singh's Jantar Mantars stand at five cities; Jaipur's is largest. Old tables had errors, so fresh observations gave the Zij-i-Muhammad Shahi (1733), dedicated to Muhammad Shah 19–48.
   → Now go south, where the Mughals never reached.
7. **Travancore builds on trade.** Marthanda Varma 29–58 builds Travancore on trade: subdues chiefs, holds the Malabar trade monopoly, funds army and irrigation. In 1741 he crushes the Dutch at Colachel.
   → But his successor chose art over arms.
8. **Malabar slips, the Company arrives.** Rama Varma 58–98 prefers art to arms; Haider Ali 61–82 annexes Malabar and Calicut in 1766. Travancore signs a Subsidiary Alliance in 1805; Velu Thampi's 1809 Kundara Proclamation fails.
   → The man who took Malabar came from Mysore.
9. **From Vijayanagar to Haider Ali.** After Talikota (1565), Mysore turns autonomous under the Wodeyars; Chikka Devaraja 72–04 Wodeyar makes it strong. By 1761 PM NanjRaj makes them figureheads; Haider Ali 61–82 overthrows him.
   → He needed an army and the money to pay it.
10. **The machine and the money.** With French help Haider Ali 61–82 builds Risalas and spends about twenty years subduing Poligars and Deshmukhs. Military Fiscalism pays for it: more Khalisa land, less Jagirdari, direct collection.
    → His son took the machine abroad.
11. **Tipu looks abroad.** Tipu 82–99 runs a state trading company and uses iron rockets. In 1785 he declares independence and sets up embassies abroad; the French alliance gives no military support.
    → Ambition then met a bill it could not pay.
12. **Why Mysore lost.** Mysore wanted all South India, but constant war drained it faster than Military Fiscalism refilled it. Four Anglo-Mysore wars ended with Tipu 82–99's death at Seringapatam in 1799.

Cast: Akbar 56–05 = The Bargainer · Raj Singh = The Mewar Expander · Aurangzeb 58–07 = The Uneasy Emperor · Sawai Jai Singh 99–43 = The Four-Hat Raja · Vidyadhar Bhattacharya = The Planner · Muhammad Shah 19–48 = The Shah of the Zij · Marthanda Varma 29–58 = The Trade-State Builder · Rama Varma 58–98 = The Scholar King · Velu Thampi Dalawa = The Last Stand · Chikka Devaraja 72–04 Wodeyar = The Strong Wodeyar · NanjRaj = The Corrupt PM · Haider Ali 61–82 = The Strongman · Tipu 82–99 = The Modernising Sultan · Napoleon = The Absent Ally

🗺️ At a glance: three Already Autonomous States

Already Autonomous State: even a powerful Mughal did not rule here. Third class of regional States (Ch 3). Rajputs: brought in by Akbar 56-05 but kept home territories. Travancore never part of the Mughal Empire. Mysore: grew from Vijayanagar (1336-1646). 💡

Teacher: block of Chapters 2 to 7 = less important; very little for Mains. Hold Jaipur, the Jantar Mantars, Tipu 82-99's embassies; Colachel 1741 is tested next door in Ch 8. ⭐

AKBAR 56-05 AND THE RAJPUTS

📖 Story link · beat 2: Because Rajputana had no single centre and fighting every clan was costly, Akbar 56-05 made a deal with the powerful chiefs.

Aspect	What happened
16th-c. Rajputana	No single power; about 20 major clans (multi-polar: many centres, none dominant); a few strong (Mewar, Marwar) swallow smaller = only partial centralisation; never one pyramid
Akbar 56-05's approach	Defeating all = costly, uncertain; co-opted the more powerful chiefs
Mansabdars	Chosen chiefs = ranked nobles, military and administrative duties
Vatan Jagirs	Home territories theirs, within Mughal framework
🤝 Obligations	Accept Mughal Emperor as sovereign, pay tribute, give troops
Hindu bloc	About 15% of all Mansabdars
In return	Akbar 56-05 helped them subdue smaller Rajput chiefs
Result	Partial consolidation

RAJPUTS vs AURANGZEB 58-07, THEN MARATHAS

📖 Story link · beat 3: Because the bargain rested on balance, Mewar's growth upset it and the 1680 revolt collapsed. After 1707 the Rajputs went their own way.

The 1680 Rajput revolt

Marwar sat astride the Delhi/Agra to Ahmedabad trade route. Arrangement held most of the 17th century. After 1707 Rajputs acted on their own terms; most prominent Sawai Jai Singh 99-43 of Amber (ruled Jaipur, powerful Mansabdar in Delhi, on own conditions). From 1751 Marathas raided Rajputana (tribute, succession), never fully conquered it. After 2nd Anglo-Maratha War (1803-05) EIC replaced the Marathas, signed Subordinate (Subsidiary) Alliances. 💡

Subordinate Alliance = World History's Protectorate: ruler keeps throne, surrenders foreign policy and defence; EIC stations troops paid by the ruler. Under suzerainty = loss of external sovereign functions + loss of symbolic sovereignty. Taken up in Ch 11. ✅

SAWAI JAI SINGH 99-43 OF AMBER (1699-1743)

📖 Story link · beat 5: Because after 1707 the Rajputs acted on their own terms, one of them is worth knowing in detail: four hats.

Aspect	Detail
Sawai	Title by Aurangzeb 58-07: 1.25 times more able than any contemporary ruler
⚡ Four roles	Mughal Mansabdar, regional state-builder, astronomer, town planner (teacher flagged for Prelims)
Subedar	Malwa 1729-37 and Agra (Governor)
Hurda conference 1734	Rajput rulers' united front vs Marathas; collapsed by internal rivalries
🌐 Treaty of Bhopal 1738	Malwa annexed by Marathas (Sawai Jai Singh 99-43 = Mughal Governor of Malwa)
Jaipur 1727	Designed by Vidyadhar Bhattacharya, Vastu Shastra, grid pattern; first planned city of modern India; painted pink 1876 by Sawai Ram Singh to welcome the Prince of Wales
🔧 Social reform	Tried to curb dowry and marriage spending; limited success
🧍‍♂️ Last Yajnas	Last Indian ruler to perform Ashvamedha and Vajapeya: Hindu Chakravartin assertion as Mughal authority collapsed

MAST — Mansabdar · State-builder · Astronomer · Town planner: Jai Singh's four roles (unordered) (own mnemonic)

Jantar Mantars and astronomy

→ Five observatories: Delhi (1724), Jaipur (1734), Ujjain, Mathura, Varanasi

→ Jaipur's largest, UNESCO World Heritage Site (2010); Samrat Yantra = world's largest sundial, local time to 2 seconds

→ Astronomical tables (where a body will be at a date and time): old Zij-i-Ulugh Begi (Islamic) and Siddhantic (Hindu) had centuries of errors; fresh data gave the Zij-i-Muhammad Shahi (1733), dedicated to Muhammad Shah 19-48

→ Sent scientific delegation to Portugal (1730); commissioned Sanskrit astronomical works; stone over brass for accuracy

Instrument	Use
Samrat Yantra	Sundial for time
Jai Prakash Yantra	Celestial mapper
Ram Yantra	Altitude meter, Sun's position

TRAVANCORE: MARTHANDA VARMA 29-58

📖 Story link · beat 7: Because the Mughals never reached the far south, a small State could build itself on trade. But his successor chose art over arms.

🗺️ Trade-State builder

→ Mughals never expanded far enough south

→ By 1740s strong centralised State: subjugated local chiefs; European-style military (modern weapons, trained soldiers)

→ State monopoly over Malabar coast trade; revenue into military, irrigation, transport = small State using trade income for State capacity

Year	Dutch decline
Since 1663	Dutch East India Co.'s Malabar HQ at Cochin, taken from the Portuguese
1741	Battle of Colachel: landmark of Kerala; Marthanda Varma 29-58 crushed the Dutch
Effect	Terminal: ended Dutch political and military ambitions in Kerala, reduced to merchants in Cochin
1759	Battle of Bedara (Chinsura): EIC beat the Dutch in Bengal
1795	Final expulsion from South Asia by the British (Ceylon / Sri Lanka)

Decline	→ Rama Varma 58–98: art and scholarship, military declined → 1766 Haider Ali 61–82 annexed Malabar and Calicut (Malabar = heart of the spice trade: pepper, cardamom, ginger; Indian Ocean commerce; Mysore and British both interested) → After 1798 steadily under British influence

Travancore's loss of independence

Handout: one of the earliest organised resistance movements by an Indian ruler against the Subsidiary Alliance system; directly tested in UPSC. Dalawa = PM and chief of armed forces; Dewan = head of all administration (revenue, civil, police, criminal justice) of a State subordinated by the British, military with the British. (Light note: Shashi Tharoor is from the Nair community.) ⭐

MYSORE: VIJAYANAGAR TO HAIDER ALI 61–82

📖 Story link · beat 9: Because Vijayanagar broke at Talikota, Mysore became autonomous, and a strongman took it over. He needed an army and the money to pay it.

Mysore's rise	→ Part of Vijayanagar (1336–1646); Talikota (Rakkasa-Tangadi) 1565: Deccan Sultanates coalition shattered it; 1565 = operational end, dynasty lingered to 1646 → Then autonomous under the Wodeyars; Chikka Devaraja 72–04 Wodeyar (1672–1704) militarily powerful, centrally governed → By 1761 Wodeyars figureheads under corrupt PM NanjRaj → Haider Ali 61–82: junior officer (Wodeyars had helped pay his family's debts); 1761 overthrew NanjRaj, kept the Wodeyar nominal → Pattern: king becomes puppet as personality weakens (recall Peshwa and Chhatrapati, Ch 4)
Haider Ali 61–82's war machine	→ French assistance: training, technology, organisation; European-model Risalas (regiments) → Risala commander appointed directly by King (personal loyalty), clear chain of command, self-sufficient (own weapons, transport, supplies); like Scindia's Campoo (Ch 4); independent action → About twenty years subjugating Poligars (local chiefs/landlords with land, temple wealth, armed men; real rulers since Vijayanagar) and Deshmukhs (revenue collectors like primary zamindars): non-State power dismantled

Military Fiscalism policy	Effect
Khalisa expanded	More revenue direct to treasury
Jagirdari minimised	Max State income, nobles weaker
Direct collection	Deshmukhs removed; officials on salaries (far less than commissions)
Detailed field surveys	LR by soil fertility, crop, irrigation, past production; no over-assessment
📚 Agriculture	Canals, cash crops, sericulture

💰 Tax base	Prosperous peasants; even enemies admitted Mysore was among the most prosperous

Military Fiscalism = systematic generation of State wealth as a foundation for military power (handout: commission agent replaced by salaried employee). Khalisa = revenue direct to treasury; Jagirdari = revenue assigned to nobles or commanders. 💡

🎯 TIPU 82-99 SULTAN (1782-99) PYQ 2001

📖 Story link · beat 11: Because his father built the machine, Tipu took it abroad and overreached: ambition then met a bill it could not pay.

Tipu 82-99's innovations

→ Government trading company modelled on the EIC: sandalwood, sulphur, rice, pepper, silk, cardamom; 30 trading centres in and out of India incl. Muscat, Oman; modern navy

→ (A "factory" = warehouse or trading depot; details Ch 8)

→ Iron-cased rocket artillery (Haider Ali 61-82 and Tipu): 100% indigenous, range 2 km; iron casings did not burst vs cardboard-cased fireworks rockets (India, China); William Congreve's rockets (early 19th c.) drew from his designs

→ 1785 declared independence from Wodeyars and Mughal Emperor; asked the Khalifa for a sanad

→ Modern embassies in France, Turkey, Egypt; new coinage; Mauludi Lunisolar Calendar

Prelims 2001: who set up embassies on modern lines? (d) Tipu 82-99 Sultan; distractors Haider Ali 61-82, Mir Qasim 60-63, Shah Alam II 60-06. Jacobin membership and Tree of Liberty made him an ideological adversary of the British. ⭐

Tipu 82-99 and Revolutionary France

→ 1790s ambassador to France: military technology, alliance vs British; French Revolution 1789; Britain-France 23-year wars 1792-1815

→ 1798 Napoleon attacked Egypt and Middle East (partly to disrupt British trade in the Arabian Sea)

→ Tipu 82-99 exchanged communications with Napoleon, planted a Tree of Liberty, joined the Jacobin Club; alliance gave no military support

→ British alarmed: reason for the Fourth Anglo-Mysore War 1799

🧑‍🤝‍🧑 Why Mysore lost

→ Ambition: dominate all South India and its trade (Vijayanagar 2.0)

→ Constant war vs Indian powers and EIC drained resources faster than Military Fiscalism refilled them; ambition real, capacity not enough

→ 1766 Malabar and Calicut annexed: First Anglo-Mysore War 1767-69 (EIC feared losing coastal trade via Malabar)

Four Anglo-Mysore Wars

→ 1767-69

→ 1780-84

→ 1790-92

→ 1799: Tipu 82-99 dies at Seringapatam, Mysore's power broken

Source conflict (Travancore): handout sec 7 says Haider Ali 61-82 in 1766 'invaded Travancore and annexed Malabar and Calicut'; sec 4 and slide say he annexed Malabar and Calicut and 'could not successfully invade Travancore'. Use the slide: Malabar and Calicut annexed, Travancore not successfully invaded. 📌

Feature	Rajputs	Travancore	Mysore
Mughal relation	Co-opted by Akbar 56-05: Mansabdars with Vatan Jagirs; Hindu bloc (15%)	Never part of Mughal Empire	Part of Vijayanagar, then autonomous under Wodeyars

Key figure	Sawai Jai Singh 99–43	Marthanda Varma 29–58	Haider Ali 61–82, Tipu 82–99
👥 Strength	Astronomy, Jaipur, politics on own terms	Trade monopoly, centralised State, Colachel 1741	Risalas, Military Fiscalism, rockets, trade company
End	Subordinate Alliances after 1803–05	Subsidiary Alliance 1805; revolt 1809	Four wars; Tipu 82–99 dies 1799

1336 Vijayanagar begins

1565 Talikota

1663 Dutch take Cochin

1672 Chikka Devaraja 72–04 Wodeyar

1809 Kundara

Recall drill: cover and answer

Akbar 56–05's Rajput bargain?	About 20 clans; chiefs as Mansabdars with Vatan Jagirs; tribute, troops; Hindu bloc about 15%	1680 revolt?	Child on Marwar throne, Aurangzeb 58–07 interfered; Marwar and Mewar rose; others refused, it failed
Sawai Jai Singh 99–43's four roles?	Mansabdar, state-builder, astronomer, town planner (MAST)	Jaipur facts?	1727, Vidyadhar Bhattacharya, grid, first planned city, pink 1876
Jantar Mantars?	Delhi 1724, Jaipur 1734, Ujjain, Mathura, Varanasi; Jaipur UNESCO 2010; Zij-i-Muhammad Shahi 1733	Colachel 1741?	Marthanda Varma 29–58 crushed the Dutch; Bedara 1759 EIC
Travancore loss?	1805 Subsidiary Alliance after Nair mutiny; 1809 Velu Thampi, Kundara Proclamation	Haider Ali 61–82's two tools?	French-assisted Risalas and Military Fiscalism; overthrew NanjRaj 1761
Tipu 82–99's innovations?	Trading company, iron rockets, 1785 independence, embassies (France, Turkey, Egypt), Mauludi calendar	Anglo–Mysore wars?	1767–69, 1780–84, 1790–92, 1799

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

PM = Prime Minister — Head of the Union government

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

THE ADVENT OF EUROPEANS

PYQ Prelims 1995, 2003, 2005, 2006, 2007 (two), 2010, 2012, 2015, 2018, 2019, 2021 (two), 2022, 2023, 2025 · Mains none mapped (Prelims chapter)

✎ *Europe wanted Asia's goods. The Ottomans shut the land road in 1453, so Portugal opened the sea road as a State. Dutch and English companies, with capital and Charters, took the sea; the 1661 Charter made the EIC a quasi-State.*

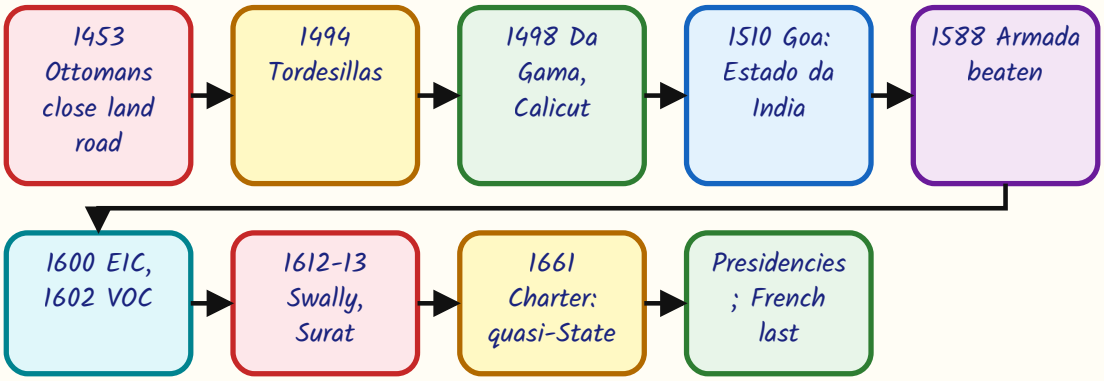

📖 THE STORY FIRST (same story as the textbook)

Europe wanted Asia's goods, the Ottomans closed the land road, and the Portuguese opened the sea road as a State enterprise. The Dutch and English companies, backed by capital and Charters, took the sea from them, and the EIC's 1661 powers started the shift from trader to ruler.

1. **Why Asia?.** Asia made what Europe wanted: spices, textiles, silk, tea. Many middlemen, huge profit; Da Gama's 1498 cargo sold at 800% profit. Then in 1453 the road was cut.
   → But in 1453 the road was cut.
2. **The road closes.** In 1453 the Ottomans captured Constantinople and blocked the land routes. Necessity drove the Age of Discovery, led by Portugal and Spain, with the compass, astrolabe and caravel.
   → Two rivals now claimed one ocean, and someone had to draw a line.
3. **The line.** Two rivals claimed one ocean, so Pope Alexander VI mediated Tordesillas 1494. East of the line went to Portugal, west to Spain; Brazil's tip fell on the Portuguese side.
   → Armed with the line, Portugal sent Da Gama round Africa.
4. **Calicut and Cochin.** Da Gama reached Calicut in 1498, with no factory. Cabral built factories in 1500 (Cochin was permanent); 1503 Albuquerque built Fort Manuel at Cochin, the first European fort.
   → Now Portugal needed a way to hold the sea.
5. **Blue water, then Goa.** Almeida 05–09 chose sea power (Blue Water Policy) and forced a Cartaz on ships. Albuquerque 09–15 took Goa in 1510; Nuno da Cunha 29–38 made Goa the HQ in 1530.
   → But a State trading empire built on force carried the seeds of its own fall.
6. **The fall of the Portuguese.** Force and the Goa Inquisition (1560–1812) bred resistance. Xavier died in 1552. Marathas, religious backlash, corruption, the English and Dutch, and overextension ended Portugal.
   → Those English and Dutch were already at the gates.
7. **The companies arrive.** After the 1588 Armada, British and Dutch ships sailed east. The VOC (1602) was the first joint-stock company; it lost at Colachel 1741 and Bedara 1759, and was dissolved in 1799.
   → The English company had its own Charter ladder to climb.
8. **A licence that became power.** The EIC began on 31 December 1600 with Elizabeth I 58–03's Charter. James I 03–25 made it perpetual (1609), Cromwell 51–60 joint-stock (1657); Charles II 60–85's 1661 Charter made it a quasi-State.
   → With those powers it needed a base on the west coast.
9. **Surat, Swally and Roe.** Hawkins failed at Jahangir 05–27's court (1608). Best won Swally 1612, then a Farman for Surat (1613). Roe (1615–19) won the Farman of 1618 for trade across the empire.
   → One more royal wedding moved the base to Bombay.
10. **Presidencies.** 1661 dowry of Catherine of Braganza gave England Bombay; the Crown passed it to the EIC in 1668. Presidencies: Surat 1618, Madras, Bombay 1687, Calcutta 1699/1700, each grew into a province.
    → Two smaller rivals were left in the field.
11. **Danes, French and the order.** Danes (1616, Tranquebar 1620) sold their posts by 1845. French company 1664, Pondicherry 1674, capital under Francois Martin 01–06. Order of arrival is a favourite Prelims test.

Cast: Vasco Da Gama = The Pathfinder · Pedro Cabral = The Factory Starter · Almeida 05–09 = The Admiral · Albuquerque 09–15 = The Annexer · Nuno da Cunha 29–38 = The Peak · St Francis Xavier = Died in China · Marthanda Varma 29–58 = The Dutch Breaker · Elizabeth I 58–03 = The Licence Giver · Cromwell 51–60 = The Reorganiser · Charles II 60–85 = The Bridegroom · Jahangir 05–27 = The Host · Thomas Roe = The Envoy · Thomas Best = The Victor of Swally · Francois Martin 01–06 = The French Founder

At a glance: the route of the chapter

Teacher: UPSC asks 3 things = where, who, roughly when, which came first. Very important Prelims chapter: learn tables T1, T2, T3, T5 as place + who + rough year + order. Founding order: Portugal 1500, EIC 1600, Dutch 1602, Danes 1616, French 1664. First-factory order: Portuguese 1498–1500, Dutch 1605, English 1611, Danish 1620, French 1664/1668. Use first-factory order unless the question says "company founded"; the French are last either way. ⭐

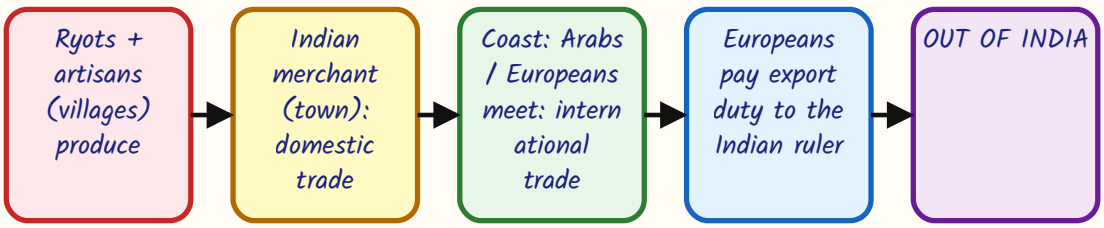

⚡ ASIA, THE ECONOMIC POWER OF THE WORLD

📖 Story link · beat 1: Because Europe wanted what only Asia made, the story starts with goods and profit, not conquest.

Aspect	Detail
3 attractions	Indonesia (Java, Sumatra) spices · India textiles (+ Malabar spices) · China silk and tea
Routes	China: land (Silk Route). India + Indonesia: land + sea via Middle East, Arabian Sea
Who controlled	Arabs (Arabian Sea leg), then Genoa and Venice across the Mediterranean; profit at each handoff. Board: two funnels (Mediterranean + Arabian Sea) meeting at a point; new route = round Cape of Good Hope (CoGH); beside Arabian Sea: "empire of Arabs and Ottoman"

Board: no political control (no colonialism or imperialism) = trade was good for India. [1757: colonialism began; Goa an exception.] Europeans came to buy Indian FINISHED GOODS; competition among Europeans and between Arabs and Europeans. Good for: exports, forex, strength of Indian kingdoms, better price, Indian merchants, Indian artisans. ⭐

Flow of goods (teacher's board)

Europe not wealthy: spices, 800%

→ Eastern goods = luxuries for the rich only; Genoa + Venice guarded the position

→ Until the 1600s European food as spiced as Indian: clove + pepper preserved winter meat (no refrigerator)

→ Da Gama's 1498 cargo = 800% profit; by 1600s 1 kg clove = 1 kg gold

→ Board: 6 months = journey EU to India; Indonesia wanted nothing from EU; buyer pays Gold/Silver = depletes forex; side note [Savings Bank A/c: 4% 6–7%]

→ Handout hook: in the 1650s children would be "spitting gold" (clove in rice) = clove = gold

Forex	Domestic currency
🌐 International market, import-export; till 1971 Gold, 1971 onwards Dollar	Within a state's borders, ideally domestic currency

EIC triangle trade (teacher)

(1) EIC buys goods (cloth) from India → (2) sells Indian goods to Indonesia → (3) Indonesian goods (spices) come back to EIC → (4) EIC sells them to rest of Europe for profit

Shift: as European incomes rose in 17th–18th C (middle class grew, out of poverty) Indian cotton textiles became the most sought-after commodity; but in the beginning spice started everything. 💡

OTTOMAN BLOCKADE 1453 AND AGE OF DISCOVERY

📖 Story link · beat 2: Because the land road closed in 1453, Europe had to find a sea road.

1453 Constantinople

→ Ottomans captured it (today's Istanbul), blockaded land routes; blockaded "effectively" = demanded a share of profits so trade unviable

→ Age of Discovery (16th C): led by Portugal and Spain into the Atlantic for a sea route

Gave

→ astrolabe (location) + magnetic compass (direction)

→ latitudes + longitudes, modern world map

→ Geography as a discipline

→ Caravel: sails at an angle against the wind

🌐 TREATY OF TORDESILLAS 1494

📖 Story link · beat 3: Because two powers claimed one ocean, a Pope drew a line.

Term	Provision
Mediator	Pope Alexander VI; Portugal vs Spain over new sea routes + lands
Line	Imaginary, Atlantic, ~1,185 miles west of Cape Verde Islands
🧍🧍 East	Portugal
🧍🧍 West	Spain
Brazil	Eastern tip on Portuguese side = only Portuguese colony in the Americas

Board: 1492 Columbus reached Central America (Spain went west). Portugal east round CoGH to the East Indies = mid-east, India, China, Indonesia, SE Asia (handout: all lands east of CoGH). Cape named Cape of Good Hope by Portugal's King John II (hope of sea route to India). 💡

THE PORTUGUESE IN INDIA

📖 Story link · beat 4: Because Tordesillas gave them the east, the Portuguese reached India first, as a State, not a company.

Da Gama at Calicut 1498

→ Armed with Tordesillas, backed by Crown; Calicut (Kozhikode, Kerala) round CoGH (southernmost Africa)

→ Permission to trade from the Zamorin (King of Calicut); heavy Arab opposition; no factory

→ Landing: Kappad Beach; board: "NOT COCHIN"; first permanent factory = Cochin 1500

Why trade, not empire?

→ Primary purpose = trade. Empire building happened in the Americas (weak states); India had strong land powers

→ Gains of empire: mining resources (gold, silver), greater trade profits, land revenue + taxes, export to home at a low price

→ South India vulnerable: no Mughal Empire yet (1526–1858); split between Vijayanagara (1336–1646) + Deccan Sultanates, no unified naval power (south weak since Talikota 1565)

→ Portuguese = part commerce, part conquest, part coercion

West coast north to south (board): Diu, Surat, Daman, Bombay, Goa, Mahe, Calicut, Cochin, Travancore (+ Broach/Bharuch). Calicut and Cochin = small kingdoms (Cochin on Travancore's northern border). Map dates: Diu 1535 P, Surat 1612 British, Daman 1558 P, Bassein 1533 P, Bombay 1638 B, Goa 1610 P, Cannanore 1501 P, Mahe 1725 French, Calicut 1498 P, Cochin 1500 P (Dutch 1669), Colombo 1505 P (Dutch 1656).

Source conflict: map says Goa 1610, Bombay 1638; text says Goa 1510, Bombay 1668 (lease). Handout: use text + Table T1 for exam dates, map only to locate places. (Also: Bassein 1534 in text vs 1533 on map; Daman 1559 in timeline vs 1558 on map.)

🗺️ Estado da India = State enterprise

→ Directly controlled by the Portuguese Crown; the government was the trader (board: like a PSU / Govt)

→ English EIC + Dutch VOC = private companies; French EIC = initially private, later taken over by the French Govt

Term	Meaning (board)
Factory	Not manufacturing: trading post = warehouses + offices + homes of employees + MAY be a fort; from factor = merchant agent; function = Office
Depot	Warehouse only (bus depot: goods waiting for the ship); no LEJ jurisdiction
Settlement	Colonial enclave: multiple factories + warehouses, small territorial colony with civil + town administration; collects and consumes LR; sovereign territorial rights L–E–J; taxes only by Ruler / Govt
Farman	Imperial decree by the Mughal Emperor
Parwana	Provincial decree by a Governor
Nishan	Princely decree by a Prince of the Royal Blood

EARLY MOVES 1498–1503

📖 Story link · beat 4: Because Da Gama left no factory, the dates 98, 00, 02, 03 matter. Now Portugal needs a way to hold the sea.

1498
Da Gama, Calicut; Zamorin permission; no factory

1500
Cabral (not Governor): first Calicut factory, destroyed by Arabs (~50 Portuguese killed); Cabral bombards Calicut, sails south; first PERMANENT factory, Cochin (Raja of Cochin protects); the first lasting European factory

1502
Da Gama's 2nd voyage: bombards Calicut, massacres innocent fishermen; avenge Cabral, subdue Zamorin, expel Arabs; disrupted Arab–Venetian domination, Portugal now an Indian Ocean player; forced Indian Ocean trade into European mercantilism

1503
Fort Manuel, Cochin (Albuquerque 09–15, then a naval commander, not yet Governor): first European fort in India; Cochin first capital till HQ to Goa 1530 (board: Cochin HQ 1505–1530)

Order along the coast: Zamorin, Calicut, Cochin, Travancore. Albuquerque 09–15 board: 1504–15. Handout carries year codes on Albuquerque 09–15 and Almeida 05–09 to tell them apart. 💡

ALMEIDA 05–09: BLUE WATER AND CARTAZ

📖 Story link · beat 5: Because India's kingdoms had armies and Portugal had ships, the Blue Water Policy followed.

Francisco de Almeida 05–09

→ 1st Governor of the Estado da India (legal title Governador, commonly Viceroy); board: CEO in India; from 1510+ Governor = CEO + CM of Goa

→ Blue Water Policy = naval supremacy over oceans/trade routes, not territorial conquest; goal = monopolistic trading regime; Goa 1510 = the exception

→ Why: better navy goal = oceanic trade; Indian armies strong; Europe's navy usually greater (exceptions Marathas, Travancore). Land-only states = territorial army; coastal states = army + navy (Portugal, Dutch, French, British, Spain)

Cartaz

→ Naval pass all non-Portuguese ships must buy to sail safely in the Indian Ocean

→ Toll booth on the sea

Battle of Diu 1509

→ A fight for domination of the Arabian Sea, not Diu as territory

→ Coalition of the old routes' stakeholders: Arabs (Egypt, Mamluks), Gujarat, Zamorin, backed by Ottoman ships and Venice; Portugal won

→ 1502 Arabs + Zamorin beaten; 1509 top player of the Arabian Sea; Venice's trade being destroyed

→ Only under Akbar 56–05 was the coastal area added to the Mughal state

ALBUQUERQUE 09-15 AND NUNO DA CUNHA 29-38

📖 Story link · beat 5: Now sea power turns into Goa (1510) and a new HQ in 1530.

👑 Albuquerque 09-15 (2nd Governor, 1509-15)

→ Arrived (back in India 1508) with King's orders; Almeida 05-09 distrusted and arrested him; after Diu 1509 new fleet confirmed orders, released, 2nd Governor (title Governador, not Viceroy)

→ Territorial transformation: annexed Goa 1510 from the Sultan of Bijapur (Babur 26-30 not in India in 1510): trade enterprise became territorial colonial State

→ Luso-Indian policy: intermarriage with Indian women (many war widows or captured, often forced) = bigger Portuguese population, stability (like Mughal more mansabdars = co-opted)

→ Co-opted local elites into administration; attempted to regulate Sati; promoted Christianity as tool of political control

Board: two ways to power: (1) fight, defeat, remove all (2) co-opt (e.g. Babur 26-30, Akbar 56-05). Religion = soft power: conversion reduces opposition, narrative of brotherhood; social power raises political power. Abolition of Sati (any reform) has two intents: (1) conversion, by weakening bond with religion / mocking rituals (2) noble: reform, women's empowerment. ⭐

👑 Nuno da Cunha 29-38 (Governor 1529-38) = peak

→ 1530 HQ shifted Cochin to Goa; dominated Indian Ocean trade ~a century

→ Bassein 1534 and Diu 1535 from Bahadur Shah of Gujarat

→ Board: 1613 EIC's Surat factory, after defeating Portuguese, ends the "nearly a century"; "+ BOMBAY (1534)", permission of the Sultan of Gujarat

🎯 INQUISITION, XAVIER, SLAVERY PYQ 2021

📖 Story link · beat 6: Because conversion was a political tool, intolerance bred a backlash, and the empire began to fall.

📚 Religious intolerance

→ Among the most aggressive powers; Jesuit activity = resistance; slave trade (incl. Hughli settlement, Bengal) + forced conversions

→ Goa Inquisition 1560-1812: church court vs heresy, enforced orthodoxy; Xavier laid the groundwork

→ St Francis Xavier: in India from 1542, died 1552; mass Catholic conversions

Prelims trap 2021: Xavier did NOT die in Goa. He died on Shangchuan Island (off China) 1552, trying to enter China. Body brought to Goa, Basilica of Bom Jesus, Old Goa. Death is not burial. (He was founding member of the Jesuit Order; Feast celebrated in Goa yearly.) 📌

Teacher add-on: about 10 to 15 million enslaved taken from W Africa to the Americas (1650-1860). Map: Brazil 5m, West Indies 4.5m, U.S. 0.5m, Lima + W South America 0.5m, Europe 0.3m, Central America 0.2m. (Breast Ripper = Inquisition torture device.) 💡

🎯 New World crops via Portuguese PYQ 2025 PYQ 2019

→ Tobacco, red chillies, papaya, pineapple, guava

→ Cocoa + rubber: New World plants but reached India only in the British period

→ Columbian Exchange: 15th-16th C contact of Old and New Worlds; plants, animals, microbes both ways

🌐 Americas to Old World

→ potatoes, maize, sweet potatoes
→ pumpkins + squash, cassava, tomatoes
→ pineapples, avocados, beans, peanuts
→ cashews, cacao, vanilla, chili peppers
→ sunflowers, tobacco, quinine, turkeys

🌐 Old World to Americas

→ pigs, horses, cattle, chickens, sheep, rats, honeybees
→ wheat, rice, barley, oats, rye, bananas, sugarcane
→ olives, citrus, coffee, peaches, pears, apples
→ carrots, grapes, lettuce, cabbage, onions, soybeans, weeds
→ **Diseases**: bubonic plague, smallpox, typhus, malaria, yellow fever, diphtheria, measles, influenza, whooping cough

Why the Portuguese declined

→ **i Political**: strong regional powers (Persia, Egypt, N India); **Marathas** (1739 beat Portuguese; Konkan)
→ **ii Religious backlash**: Jesuits + Goa Inquisition
→ **iii Economic + administrative decay**: corruption, indiscipline, employees' piracy + illicit "personal trade"
→ **iv External competition**: English + Dutch (navy, joint-stock finance, discipline)
→ **v Overextension**: focus on **Brazil** (more lucrative) + no support from Lisbon

Takeaway: Portuguese set the pattern the British adapted: colonial administration centred in Goa, armed maritime trade, religious conversion as political control. ✅

T1 year	Event / settlement	Source / note (board corrections)
1498	Da Gama, Calicut	Zamorin; **not Cochin**; no factory
1500	Calicut factory (Cabral); Cochin	Cabral not Governor; Cochin = first lasting EU factory; coast: Cochin = Malabar, Goa = Konkan
1502	Da Gama 2nd voyage	Arabian Sea usable by Portuguese
1503	Fort Manuel, Cochin	Cochin HQ 1505–1530
1505–09	Almeida 05–09; Diu 1509	Arabian Sea domination
1509–15	Albuquerque 09–15: Goa	Territorial State, not just posts
1530	HQ Goa	Nuno da Cunha 29–38
1534–35	Bassein, Diu (+ Bombay 1534)	Sultan of Gujarat
Later losses	1661 Bombay to British; **1663 Fort Manuel lost to Dutch**; 1736 Marathas beat them on Konkan; **1739 Salsette + Bassein** to Marathas; 1783 Dadra + Nagar Haveli (board: 1st A-Manar 1775–82, word unclear)	**1961** Goa, Daman, Diu annexed by India

1453 Constantinople

1494 Tordesillas

1498 Da Gama

1500 Cochin factory

1503 Fort Manuel

1505–09 Almeida 05–09

1510 Goa

1530 HQ Goa

1534–35 Bassein, Diu

1560–1812 Inquisition

1961 Goa, Daman, Diu annexed

DUTCH AND ENGLISH BREAK THE MONOPOLY

📖 Story link · beat 7: Because the Portuguese–Spanish hold had to break, the 1588 Armada defeat opened the sea to British and Dutch ships.

1588 Armada

→ Britain + Dutch Republic (Netherlands = Holland = Dutch Republic) emerged 2nd half of 16th C; wanted freedom of navigation in oceans and trade

→ 1588 British Navy beat Spanish Armada in the Atlantic; by 1580 Portugal in union with Spain, so Portuguese routes opened too; safe to Asia via CoGH

→ First priority Indonesia (spice islands); India later: islanders wanted Indian cotton, so cloth from India first = triangle: England (EIC) to India to Indonesia to England (EIC)

👫 Board: monopoly must be broken

→ End rival's monopoly (e.g. 1502 Da Gama in Malabar) leads to multi-player domain, then own monopoly (needs more resources: Diu 1509 Arabian Sea)

→ 2 challenges for British + Dutch: (1) reach India, China, Indonesia (Spain + Portugal hold routes) (2) buy goods in India (Portuguese hold coast + market). 1588 = end of monopoly over routes

Period	Dominant oceanic trade power
1500s	Portugal vs Spain
1600s	Dutch vs British
1700s–1815	British vs French: Britain top naval power
1870–1945	British + French vs Germany
1945–91	US vs USSR
2000s+	US vs China

CHARTER = founding document issued by the State (Monarchy or Parliament) granting special powers and rights to a company. State = territorial motive (defend, annex), military, may wage war, coins + currency + taxation + L–E–J powers. Company = profit motive for shareholders, requires property. 💡

THE DUTCH VOC

📖 Story link · beat 7: Because the VOC had capital and a Charter, it beat the Portuguese in the south.

VOC 1602 PYQ 2022

→ Vereenigde Oost-Indische Compagnie, Charter of the Dutch Parliament, merged six smaller companies

→ World's first multinational and first to issue publicly tradable stocks on a formal exchange = first joint-stock company (ancestor of BSE, NSE, NYSE); shareholders no say in management

→ Charter powers: war, treaties, territory, forts, own currency; board: big company = deep pockets = more buying power (merger + joint stock)

→ 1st Dutch expedition 1595 went to East Indies, not India

→ Peak 1669: richest private company: 150 merchant vessels, 40 warships, army 10,000, 50,000 employees; 5,000 voyages

→ 1799 taken over by Dutch govt = Dutch East Indies (Indonesia), colony till 1945; fell: bankrupt (English EIC competition) + defeats in French Revolutionary Wars 1792–1804 + Napoleonic War 1804–15

Prelims 2022 trap: the claim that the Dutch got land from the Gajapati dynasty (15th C Odisha, declined long before) is INCORRECT. Do not confuse later Odisha-coast rulers with the Gajapatis.

1605 Masulipatnam (Northern Sarkars): first Dutch factory in India

1610 Pulicat (Carnatic, Vijayanagara zone): Fort Geldria, first Dutch fort, main HQ 1610–90

1616 Surat (Gujarat)

1641 Bimilipatam (Golconda)

1645 Karikal

1653 Chinsura (Bengal), Fort Gustavus

1663 Cochin: captured from Portuguese, HQ of Dutch Malabar only

1690 Main HQ moves to Nagapattinam (to 1795)

Also later: Kasimbazar, Baranagore, Patna, Balasore, Nagapatnam, Agra, Cochin. Board: Masulipatnam lay in the Northern Sarkars under Golconda (Golconda 1687 annexed by Aurangzeb 58–07); N. Sarkars (5 districts, number partly legible). HQ example: Amazon India HQ Bengaluru, regional HQ Gurgaon: Pulicat then Nagapattinam = main HQ; Cochin = regional only.

Source conflicts: handout dates Fort Gustavus (Chinsura) 1655–1795, section 6 and Table T2 give the Chinsura factory 1653. Trap: Cochin was NOT the overall Dutch HQ. Board: 1605 Portuguese Cochin factory 1500 stays the first European factory.

THE ENGLISH EIC AND THE CHARTER OF 1600

📖 Story link · beat 8: Because the EIC lived on a licence, its Charter shaped its fate.

EIC 1600

→ Formed 31 Dec 1600: Royal Charter of Elizabeth I 58–03 = a licence from the Monarch; not renewed = company ceases; survival depends on goodwill of power in Britain

→ 4th joint-stock company in England; pooled money of 215 London merchants (merchant adventurers) to challenge Dutch dominance; goal = trade with the East, not empire

→ In 1600 it was England, not Britain: England + Scotland united 1707 (Great Britain); Ireland added 1801 (UK)

The Charter gave 3 things

→ Monopoly over England's trade with the East Indies for 15 years (WRONG: monopoly over trade with India)

→ Right to carry gold (forex) out of England: forex controlled by the State

→ Private management: Governor, Deputy Governor + 24 members = later Board / Court of Directors (top body, not a govt organisation)

Why VOC (1602) not EIC (1600) = first joint-stock company: in 1600 EIC ran a per-VOYAGE system (raise money from public, trade, share all profit, repeat); later it became proper, with permanent capital. A proper joint-stock company gives dividends, not all profit (profit pie = retain, re-invest, assets, dividends). ⭐

🗺️ CHARTERS TO 1793: A STATE WITHIN A STATE

📖 Story link · beat 8: Because the Charter was renewed again and again, the ladder shows its power grow; 1661 makes it a quasi-State.

1600
Elizabeth I 58-03: 15-yr monopoly (imp)

1601-03
1st voyage James Lancaster to Indonesia (not India): Java + Sumatra, first EIC factory; looted Portuguese ship Sao Tome in Strait of Malacca (textiles, spices); Dalrymple: first big profit from piracy; dividends; back 1603

1609
James I 03-25: perpetual monopoly (not imp)

1642-51
English Civil War: Charles I 25-49 taxed without Parliament; Parliamentarians (Protestant) won; Charles I 25-49 beheaded 1649

1651-60
Republic under Cromwell 51-60 (handout writes his years 51-60); died 1658, son briefly, autocratic, unpopular

1657
Cromwell 51-60 declared the old Charter invalid: permanent joint-stock, one continuous capital fund; per-voyage ended (not imp)

1660
Monarchy restored: Charles II 60-85

1661
Charles II 60-85: forts, troops, war + peace, civil + criminal jurisdiction = quasi (semi) State (imp, strongest)

1676
Right to mint (not imp)

1793
Parliament renews Charters by Acts (imp): first Charter issued by Parliament; democratisation of Britain

Priority (teacher): learn 1600, 1661, 1793 first; 1609, 1657, 1676 lower. 1661 = trading company with the legal powers of a State; board: "Charter ACT" = made by Legislature. Also 1688 Glorious Revolution, William III invited by Parliament (Fort William named after him). Why EIC could build an empire: 1661 powers; State powers = territorial + subject jurisdiction; any company follows home law + foreign law; empire = "Company State". ⭐

Why Indian merchants could not dominate the routes

→ (i) Naval power: no armed ocean-going fleets (navy = merchant + military)

→ (ii) Capital: VOC 1602 and EIC (1600, by 1657) permanent joint-stock; pool huge sums [gathering rupee from masses]

→ (iii) State backing: Mughal State after Akbar 56-05 invested in the territorial army, not a navy; board: modern capitalism absent in India (State = territorial motive)

THE DANES 1616

📖 Story link · beat 11: A small late rival, told in beat 11: because the Danes came late and weak, they stayed on the margins.

🧑‍🤝‍🧑 Danish East India Company

→ Established 1616 (envy of Dutch + English); Charter of Christian IV 88–48 of Denmark–Norway: 12-year monopoly; weak finance + military; Denmark, not Dutch/Holland

→ 1620 first factory + first fort Fort Dansborg at Tranquebar (Tharangambadi, Tamil Nadu) = HQ of Danish India 1620–1845; 1st company ended ~1650; 2nd set up 1670; sold all mainland settlements to the British EIC by 1845

→ Serampore (Frederiksnagore), Bengal, 1755 (parwana of Alivardi Khan 40–56): most commercially successful + culturally significant; William Carey + Baptist missionaries, early printing + education, not forced conversions; Serampore Mission Press 1799–1800

→ Board note under Tranquebar: [from 1717 … 17–27, Bengal = successor State] (one word unclear; code as written). T3 ticks: 1616, 1620, 1755, 1799–1800, 12-year monopoly

🎯 HAWKINS, SWALLY, SURAT PYQ 2006

📖 Story link · beat 9: Because the EIC wanted Surat, it first had to beat Portugal: Hawkins failed, Swally 1612 won.

1608
EIC wants a Surat factory (most important west-coast port, in Portuguese zone); sends Captain William Hawkins to Jahangir 05–27: Mansab 400 + Jagir, but expelled under Portuguese pressure; lesson: beat Portugal militarily first

1612
Battle of Swally (Suvali): Captain Thomas Best, small armed EIC fleet beat the Portuguese; Mughal ships were vulnerable to Portuguese piracy; local governor's temporary permission / parwana

1613
Jahangir 05–27's Royal Farman: permanent factory at Surat (legal, ratified by imperial farman)

1612 vs 1613: 1612 = battle (military victory); 1613 = legal permanent establishment. Board: Estado da India vs EIC; for trade, not the territory of Surat; Portuguese began attacking Mughal ships. Factory = warehouse + home/offices for staff. ⭐

Why EIC army stayed small until Bengal: company = profit motive (~500–800 men); an army from its own rupee goes against that; 1757 free rupee of Bengal = large army (why Plassey imp). Britain's national interest = EIC's interest: trade with East Indies = EIC trade; EIC monopoly; via EIC Britain dominates world trade. Roe = govt person working for EIC. Lesson (imp): companies as agents of the State in geopolitics (e.g. US companies implementing sanctions on Russia). 💡

ROE AND THE FARMAN OF 1618

📖 Story link · beat 9: Because one factory was not enough, England sent an ambassador: Roe won the Farman of 1618.

Thomas Roe 1615–19

→ Sent by James I 03–25 as formal ambassador (British Resident) to Jahangir 05–27; arrived Surat 1615; Jahangir refused a treaty between equals

→ Sustained diplomacy won Royal Farman 1618: factories throughout the Mughal Empire + liberal trading rights (lower customs duties, ease of business; board: lower export duties, less paperwork, more ports)

→ 1616–19 new factories: Agra, Ahmedabad, Broach (Bharuch); with Surat = Surat Presidency 1618, EIC's first Presidency, till shift to Bombay 1687

→ Memoir: The Embassy of Sir Thomas Roe to the Court of the Great Mogul (primary source)

→ 1631–32 Shahjahan 27–58 ordered Bengal governor Qasim Khan to eject Portuguese from Hugli (piracy + slave trade)

🌐 ANGLO-PORTUGUESE TREATY 1661: DOWRY

📖 Story link · beat 10: Because a royal wedding settled a debt, Bombay changed hands and the base moved to the west coast.

Term	Detail
Signed	Whitehall, London: marriage of Charles II 60–85 and Catherine of Braganza
1	Dowry 500,000 pounds cash
2	England gets Bombay and Tangier (Morocco)
3	Trade + military cooperation: England protects Portugal's remaining possessions = Goa, Daman, Diu until 1961 (India took them by force after a people's movement)
1668	Crown transferred Bombay to EIC at 10 pounds per annum

Board: two ways to deal with a rival: (1) end 100% (2) thrash, then convert into a puppet / junior friend, non-threatening (after 1661; countries not named). Who beat whom: Portuguese beaten by British and Dutch; they meet in British vs Dutch (by 1650s): major British in South Asia, Dutch in SE Asia (Indonesia); minor Dutch in South Asia, British in SE Asia (Singapore, Malaya). Rivals fought over who would buy Indian goods, not land: primary purpose of empire = trade. Restoration of Monarchy 1660.

DUTCH RISE AND FALL

📖 Story link · beat 7: Because the Dutch chased the Portuguese out, they became the richest company, then lost it.

1623
Amboyna Massacre: Dutch killed English traders; English out of Indonesia (Dutch zone Java, Sumatra)

1654–67
Anglo-Dutch wars, settled Treaty of Breda 1667: (1) British leave Indonesia (2) Dutch leave English alone in India (3) both keep minor presences in each other's domains

1658
Dutch remove Portuguese from Ceylon

1663
Cochin

1741
Colachel: Marthanda Varma 29–58 of Travancore beat the Dutch, ended political power in Kerala; Dutch kept Fort Cochin till 1795

1759
Bedara (Chinsura): British EIC beat Dutch in Bengal

Coast zones (V-shaped peninsula): west top to bottom Gujarat, Konkan, Malabar; east Bengal (top), Coromandel. Kerala order: Cochin top, Travancore along the side, Colachel bottom. T2 ticks: 1602, 1605, 1653, 1663, 1741. Dutch locations: Pulicat 1610–1690 and Nagapattinam 1690–1795 = main HQ.

KEW LETTERS 1795 AND CEYLON

📖 Story link · beat 7: Because France overthrew the Dutch government at home, the Dutch posts fell to Britain.

Kew Letters 1795 (not in syllabus: for understanding)

→ French Revolutionary Wars 1792–1804, Napoleonic 1804–15: French army invaded Netherlands, set up puppet Batavian Republic

→ Britain declared Dutch colonies enemy territory; exiled Prince William V 51–95 in London ordered governors to hand over territories to the British "for safekeeping"; Kew = place near London

→ By 1795 British occupied: Cochin, Chinsura, Pulicat, Tuticorin, and Ceylon coast (Trincomalee, Colombo)

Ceylon = Crown Colony

→ 1795–96 British took Dutch Ceylon, EIC administered via Madras Presidency

→ Treaty of Amiens 1802: Britain vs France + Batavian Republic; Dutch ceded coast permanently

→ Too important for a company: EIC removed, Crown Colony under appointed Governor, separate from EIC India

→ Board: India = Company's colony (EIC); Ceylon = Crown colony (British State rules directly). Meaning imp, story not. Rule = L-E-J on a Territory

PRESIDENCIES

📖 Story link · beat 10: Because an EIC trade base had to be run, it became a Presidency, a trade HQ that grows into a province.

Presidency

→ Regional HQ of EIC trade; status when a settlement had warehouses, offices, residences, fort; named after the major fort

→ Small coastal towns then, after annexations, provinces of British India (board: factory to settlement = town + political rule to province)

→ Governor = regional manager, then ruler / CM / Subadar / Nazim

→ Province: Bombay from Marathas; Madras from Mysore, Hyderabad, Carnatic; Calcutta from Bengal Suba

Presidency	Year / region	How
Surat	1618	Factory 1613; shifted to Bombay 1687
🧍🧍 Madras (Fort St George)	1652 (London order; implemented 1653) South	Madraspatanam village
Bombay	1687 West	Bombay with EIC since 1668 (20 yrs)
Calcutta (Fort William)	1699/1700 East	Settlement 1690

SMBC – Surat · Madras · Bombay · Calcutta: the teacher's order of the EIC's main centres (board 'S, M, B, C')

Source doubt: board 1652 (London order), 1653 (implemented); Calcutta 1699 vs 1700. Learn both years as in the handout.

Madras (from 1652/53)

→ 1st factory in India: temporary, Masulipatnam 1611 (Northern Sarkars, outside Mughal control)

→ 1639 Francis Day bought land at Madraspatanam from Hindu Nayakas (Vijayanagara governors, 1336–1646); Fort St George 1639–44 = first fort built by EIC

→ 1690 Fort Saint David, Cuddalore bought from Maratha Chhatrapati Rajaram 89–00 (he had left Svarajya after Sambhaji 80–89's death for Jinji, Carnatic); built partly by Dutch from 1608, halted by Portuguese pressure, finished by a Hindu merchant (not imp); 1677 Shivaji 74–80 took Jinji + Cuddalore region

→ Presidency of Fort St George 1652 on orders of Court of Directors; implemented 1653 (travel time). 2 forts in Madras Presidency: Madras and Cuddalore

Bombay (1687)

→ Surat = main west-coast centre 1613–1687; shift due to Maratha power in Gujarat; Bombay = 7 islands, defensible

→ Charles II 60–85 got Bombay 1661 (dowry), gave to EIC 1668 at 10 pounds p.a.; Portugal held it 1534–1661

→ Bombay Castle (Casa da Orta): Portuguese-built, EIC expanded in 18th C

Calcutta (1699/1700)

→ Hugli factory 1651 by nishan of Shah Shuja (Mughal governor of Bengal, son of Shahjahan 27–58); 1690 Sutanuti settlement (3 villages: Sutanuti, Gobindapur, Kolikata)

→ Presidency of Fort William with own Governor; Calcutta = 60% of EIC trade (bought Rs 100 of Indian goods, Rs 60 from Bengal; textiles)

→ 1800 Fort William College by Wellesley 98–05 (training EIC officers); 1870 Calcutta Port Act: Port Commissioners + Port Trust

→ Covered later: Child's War, 1690 pardon, 1691 Farman, 1717 Farman (Magna Carta of Company)

Board: 'investment' for a merchant = purchased GOODS (primary) + godowns; EIC's investment = money spent buying Indian goods. Plassey chapter later covers Child's War. 💡

T5 factory	Year	Permission / note
Masulipatnam	1611	First (temporary) English factory in India
Surat	1613	First permanent, Jahangir 05–27's farman
Agra, Ahmedabad, Broach	1616–19	Roe era
Madras	1639	Francis Day, Nayakas
Balasore + Hariharpur (Orissa)	1633	First factory in east India
Hugli	1651	First in Bengal, Shah Shuja nishan
Kasimbazar	1658	Trading hub, warehouses of many merchants
Cuddalore	1690	Fort St David
Sutanuti	1690	Calcutta
Later	1717	Magna Carta (taught later)

THE FRENCH AND PONDICHERRY

📖 **Story link · beat 11:** Because the French came last, they had Pondicherry, not a long run. Arrival order is a Prelims favourite.

French EIC 1664

→ Compagnie des Indes Orientales, founder Colbert, under Louis XIV 43–15 (great-grandfather of Louis XVI; Revolution 1789)

→ Started private, later nationalised (PSU)

→ Pondicherry = main HQ (1674); Bengal base = Chandernagore

#	Year	Settlement	Source
1	1668	Surat	First factory; farman by Aurangzeb 58–07 in 1667
2	1669	Masulipatnam	Sultan of Golconda (1518–1687)
3	1673	Chandarnagar	Shaista Khan 64–88, Mughal governor of Bengal; financial crunch, settlement only 1690–92

4	1674	Pondicherry (key row)	Sikandar Adil Shah (1672–86) of Bijapur + governor Sher Khan Lodi
5	1723	Yanam	Nizam-ul-Mulk 24–48 (Asaf Jah I)
6	1724	Mahe (Malabar)	Acquired 1721 from Nair ruler Vazhunnavar; built 1724–25 after rebellion; named after Mahe de La Bourdonnais 35–46 (fleet from Mauritius)
7	1739	Karaikal	Pratap Singh 39–63, Maratha ruler of Tanjore, reward for help in succession dispute
8	1721/1735	Mauritius	Colony 1721; control only by 1735 under La Bourdonnais 35–46 (Governor 1735–46); low priority
9	1949	Chandernagore	Referendum merged it into India; rest French till 1954

Francois Martin 01–06 (Governor-General 1701–06, earlier Governor): real founder of French power in India; centralised administration, Pondicherry capital 1701, built Fort Louis. La Bourdonnais 35–46 returned with a fleet 1746, helped Dupleix 42–54 capture Madras in the 1st Carnatic War (1746–48). Thanjavur Maratha dynasty founded 1674 by Shivaji 74–80's half-brother Venkoji (Ekoji) defeating Madurai Nayakas.

Geography board: Puducherry, Karaikal, Yanam = East coast; Mahe odd one out (West coast, Arabian Sea).

PDa-FDu-BFBF – Pondicherry's occupiers (handout mnemonic, PDa-FDu-BFBF to India): Portuguese (16th C) → Danes (1624) → French (1674) → Dutch (1693) → British 1761 → French (Treaty of Paris 1763) → British (1793) → French (1814); French till transferred to India 1954.

Company	Founded	1st factory in India	Nature	Fate
Portuguese	1500	1498–1500	State enterprise (Estado da India)	Marathas 1739; India 1961
English EIC	1600	1611 (Surat 1613)	Joint-stock; Charter	Ruled India
Dutch VOC	1602	1605	Joint-stock (first)	Bankrupt, dissolved 1799
Danes	1616	1620	Weak	Sold to British 1845
French	1664	1664/1668	Private then PSU	Pondicherry etc. 1954

🎯 CHAPTER 8 PYQs (16, Prelims)

📖 Story link · beat 11: Because this is a Prelims chapter, the 16 PYQs are the test of the whole story.

PYQ	Asked	Answer + trap
1995	Hughly piracy, Bay of Bengal	(a) Portuguese; Shah Jahan, Qasim Khan 1631–32. (b) French Chandernagore trading, (c) Danish bases lawful (board: Carnatic over Tranquebar, Bengal over Serampore), (d) British entered Hugli 1651
2003	NOT correct statement	(a): Goa taken 1510 by Albuquerque 09–15 from Bijapur, not 1499. True: Masulipatnam 1611, Balasore + Hariharpur 1633, Dupleix 42–54 took Madras 1746
2005	Modern Kochi	(b) Dutch took Cochin 1663, built forts. (a) F: British rule 1795–1947 (board '1795 x presence'); (c) order reversed; (d) F
2006	1613 EIC factory	(d) Surat. Bangalore later; Madras 1639; Masulipatnam 1611 temporary
2007	First fort built by British	(b) Fort St George (1639–44). Trap word constructed: Fort William 1696–1700; St David purchased 1690; St Angelo (Kannur) Portuguese 1505
2007	Last Europeans	(c) French: Portuguese 1498, Dutch 1605, English 1611, Danish 1620, French 1664/68
2010	Pondicherry: 1 Portuguese first, 2 French second, 3 English never	(a) Only 1 (Portuguese, Danes 1624, French 1674, Dutch 1693, English 1761/1793/1814, India 1954). 'Occupied' counts even very temporary occupation
2012	Introduced by English first time	(d) None: revenue assessment = Sher Shah 40–45, Todar Mal; mobile cannons = Babur 26–30 Panipat 1526; tobacco + red chillies = Portuguese
2015, 2021	EIC factories 1st quarter 17th C: Broach, Chicacole, Trichinopoly	(a) Only 1 (Broach). UPSC repeated it. Surat 1613, Masulipatnam 1611, Madras 1639 (after 1625)
2023	Who surrendered Diu	(c) Bahadur Shah (Nuno da Cunha 29–38; Bassein 1534, Diu 1535). Not Ahmad Shah (1411–42 as printed), Mahmud Begarha, Muhammad Shah 19–48
NEW 2025	Papaya, pineapple, guava	(c) All three (Portuguese)
2018	Bengal exports mid-18th C	(d) cotton, silk, saltpetre, opium: 'raw' wrong (finished goods; textiles before IR 1750–1850); saltpetre = gunpowder
2019	New World plants	(a) tobacco, cocoa, rubber; cotton = Old World (Bengal). Do not mix with Portuguese list
2021	St Francis Xavier	(c) 1 and 3; statement 2 (died in Goa) False: Shangchuan 1552
2022	Gajapati / Albuquerque 09–15 / Madras	(b) 2 and 3 only: Goa 1510; Madraspatanam 1639 from Nayakas; statement 1 (Gajapati land) trap

Source conflicts (PYQs): PYQ 2010 board ticks (d) with statement 3 true, answer slide gives (a) Only 1 and handout sequence makes 2 and 3 false: use (a), check class recording. PYQ 2022 says Madras 'leased' from Vijayanagara; handout says purchased (handout wins; statement 3 still correct).

1453 Constantinople	**1494** Tordesillas	**1498** Calicut	**1500** Cochin
1503 Fort Manuel	**1509** Diu	**1510** Goa	**1530** HQ Goa
1534 Bassein	**1535** Diu	**1552** Xavier dies	**1559** Daman
1560 Inquisition	**1580** Port.–Spain union	**1588** Armada	**1595** Dutch 1st voyage

1600 EIC	**1601** Lancaster (back 1603)	**1602** VOC	**1605** Dutch Masulipatnam
1608 Hawkins	**1609** Perpetual	**1610** Pulicat	**1611** EIC Masulipatnam
1612 Swally	**1613** Surat farman	**1615** Roe	**1616** Danes
1618 Farman, Surat Presidency	**1620** Tranquebar	**1623** Amboyna	**1639** Fort St George
1651 Hugli	**1652** Madras Presidency (1653)	**1657** Cromwell Charter	**1658** Ceylon from Port.
1661 Charter + Treaty	**1663** Dutch Cochin	**1664** French EIC	**1667** Breda
1668 Bombay leased; French Surat	**1674** Pondicherry	**1687** Bombay Presidency	**1690** Sutanuti; Fort St David
1699 Calcutta Presidency (1699/1700)			
1741 Colachel	**1755** Serampore	**1759** Bedara	**1761** Pondicherry (English); 1763 returned
1795 Kew Letters	**1799** VOC dissolved	**1802** Amiens	**1845** Danes sell
1954 French India transferred		**1961** Goa, Daman, Diu	

Recall drill: cover and answer

Three Prelims asks (teacher)?	Where, who, roughly when, which came first	Tordesillas 1494?	Pope Alexander VI; line ~1,185 miles west of Cape Verde; east Portugal, west Spain; Brazil the only Portuguese colony in Americas
Portuguese milestones?	Calicut 1498, Cochin factory 1500, Fort Manuel 1503, Almeida 05–09 Diu 1509, Albuquerque 09–15 Goa 1510, HQ Goa 1530, Bassein 1534, Diu 1535	Xavier trap (Prelims 2021)?	Died Shangchuan Island 1552, not Goa; body in Basilica of Bom Jesus
EIC Charter ladder?	1600 15 yrs; 1609 perpetual; 1657 permanent joint-stock; 1661 forts, troops, war and peace, jurisdiction; 1676 mint; 1793 Parliament Acts	1612 vs 1613?	Swally battle (Best) vs Jahangir 05–27's Farman for permanent Surat factory; Roe's Farman 1618
Presidencies in order?	Surat 1618, Madras 1652/53, Bombay 1687, Calcutta 1699/1700	1661 treaty?	Charles II 60–85 + Catherine of Braganza; 500,000 pounds; Bombay + Tangier; Bombay to EIC 1668 at 10 pounds
Dutch HQ trap?	Pulicat 1610–90 then Nagapattinam 1690–1795; Cochin only Malabar regional HQ	Founding vs first-factory order?	Founding: Portugal 1500, EIC 1600, VOC 1602, Danes 1616, French 1664. Factory: Port 1498–1500, Dutch 1605, English 1611, Danes 1620, French 1664/68

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

EU = European Union — Political and economic union of European countries

PSU = Public Sector Undertaking — Company owned mainly by the government

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

CM = Chief Minister — Head of a State government

EIC = to India to Indonesia to England

CARNATIC WARS

PYQ Prelims 1995, 1996 · Mains: teacher board question (FYQ-M, year not written) on the model of empire building founded by the French and implemented by the British

✎ *A trading company learns Indian quarrels can buy land. Dupleix 42–54 shows how (Adyar 1746, 2nd war); the EIC answers at Arcot, wins the 3rd war with royal armies and a navy, and Paris 1763 leaves it the trade.*

📖 THE STORY FIRST (same story as the textbook)

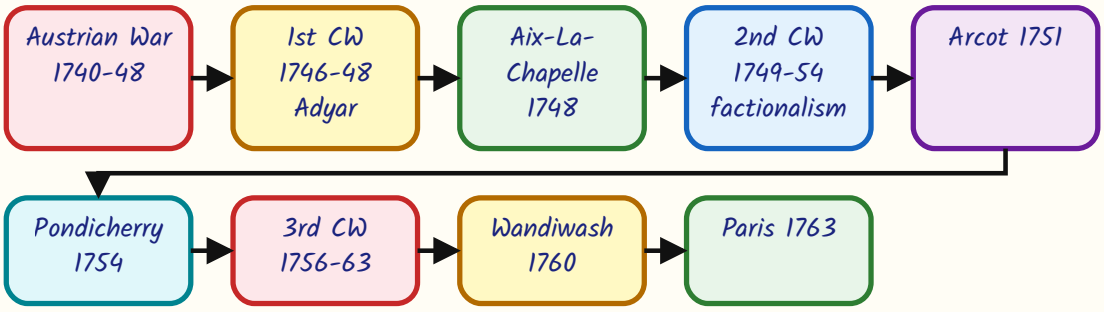

A profit-making company discovers that Indian quarrels can buy territory: Dupleix 42–54 proves it at Adyar 1746 and in the 2nd Carnatic War (back a claimant, station an army, take land, sit in court). The EIC reacts at Arcot, wins the 3rd war with royal armies, a navy and deeper pockets, and the Treaty of Paris 1763 leaves it the trade and the road to Plassey.

1. **A shop that became a State.** A profit company, the EIC, ruled 63% of India's land by 1857. The 1661 Charter gave forts, troops, courts; wars were for trade or for territory.
   → But first the Company met an Indian power, and lost.
2. **Child's War (1686–90).** Aurangzeb 58–07 crushed the EIC in Child's War (1686–90) and pardoned it for Rs 1.5 lakh. The 1691 Farman gave duty-free trade in Bengal for Rs 3,000 a year.
   → So the Company learns patience, and a rival arrives from France.

3. **Enter Dupleix.** Dupleix 42–54 led the French EIC from 1742, dreaming of empire. Three Carnatic Wars: 1746–48, 1749–54, 1756–63. The 1st and 3rd are global spillovers, the 2nd is factionalism.
   → The first war begins in Europe, but Dupleix fights it in India.
4. **Adyar, 1746.** Dupleix 42–54 took Madras; at Adyar 1746 about 1,000 French-trained troops beat Anwaruddin 44–49's 10,000 cavalry. Indian kings now wanted European help to modernise armies.
   → But Madras is traded away in Europe, and Dupleix 42–54 'aches'.
5. **Aix-La-Chapelle, 1748.** Aix-La-Chapelle 1748 ended the war and returned Madras to the EIC. Nothing changed in territory; Dupleix 42–54 was left empty-handed, so he looked for new quarrels.
   → But India offers new quarrels at once.
6. **Two quarrels, four claimants.** Two quarrels, four claimants: Md Ali 52–95 against Chanda Sahib 49–52 in Carnatic; Nasir Jung 48–50 against Muzaffar Jung 50–51 in Hyderabad. French back Chanda and Muzaffar; the EIC backs the others.
   → The French strike first, and win.
7. **Phase 1: the French kingmaker.** The French won first: Chanda Sahib 49–52 became Nawab and Muzaffar Jung 50–51 Nizam. Dupleix 42–54's model: succession dispute, army at State cost, land as payment, a Resident.
   → But a model that works once can be matched by a rival.
8. **Phase 2: Arcot, 1751.** Dupleix 42–54 left Arcot unguarded; Clive 57–67 took it in 1751 and held it 53 days. Paris refused help; Treaty of Pondicherry 1754 recalled Dupleix 42–54.
   → Now Europe's wars bring royal armies to India.
9. **The 3rd war and Wandiwash.** The Seven Years' War (1756–63) brought royal armies. Clive 57–67 took the Northern Sarkars in 1759; Eyre Coote won Wandiwash on 22 January 1760; Pondicherry fell 1761.
   → The treaty table closes the book.
10. **Paris, 1763.** Paris 1763: France lost its gains since 1749, kept five posts and could not fortify. The EIC won all three wars on money, leadership and navy, and held the trade monopoly.
    → But the real result is bigger than trade.
11. **From Carnatic to Plassey.** Royal armies plus Clive 57–67's diplomacy made Plassey 1757 possible. Later SAs followed: Hyderabad 1798, Mysore 1799, Travancore 1805. The French founded the model; the British used it.

Cast: Josiah Child and John Child = Two Childs, two places · Dupleix 42–54 = The Inventor · Anwaruddin 44–49 = The Nawab Who Needed the Fort · Chanda Sahib 49–52 = Moon and Paris · Muzaffar Jung 50–51 = MuzaFFrance · Md Ali 52–95 = Jinnah, pro-British · Nasir Jung 48–50 = England captain, cricket · Salabat Jung 51–62 = Bussy's Puppet · Bussy = Boochi · Robert Clive 57–67 = The Arcot Hero · Godehev = The Replacement · Count de Lally = Lally the Rude · Eyre Coote = Coote of Wandiwash · Pratap Singh 39–63 = The Beheader

At a glance: the Carnatic Wars

Teacher warns: not many Prelims questions from EIC-vs-Indian-kingdom wars; do not mug up battle trivia, read for the concept. Board codes: CW = Carnatic War; (T) = territory; AWoS = Austrian War of Succession; Fr eic / Eng eic = French / English East India Companies; MJ = Muzaffar Jung 50–51; Hyd = Hyderabad. ⭐

Board order of conquest

→ Carnatic Wars 1746–63 first; then Bengal by Plassey 1757, Awadh by Buxar 1764, Mysore by 4 Anglo-Mysore wars [1766–69, 80–84, 90–92, 99], Marathas by 3 wars [1775–82, 1803–05, 1817–19], Sikhs by 2 wars [1844, 1849]. SS (Successor States): Bengal, Awadh, Hyderabad

→ Rebel States: Marathas, Jats, Sikhs, Farukhabad, Rohilkhand

→ AAs (Already Autonomous): Rajputs, Travancore, Mysore. Legend: Diplomacy then Domination (Hyderabad, Jats, Farukhabad, Rohilkhand, Rajputs, Travancore via diplomacy; the rest via war).

Source conflicts: board writes Anglo-Mysore wars [1766–69 ...], Ch 7 gives the first as 1767–69. Anglo-Sikh [1844, 1849] as on board; details later. Handout heading prints 'Carnatic Wars (17456–48...)': typo for 1746–48. 📌

🗺️ HOW A TRADING COMPANY BECAME A STATE

📖 Story link · beat 1: Because the 1661 Charter gave forts, troops and courts, a profit firm could wage war and end up a State.

By 1857 EIC RULED (not merely controlled) 63% of territory, 78% of population. 💡 India = British India (63% / 78%) + 565 Princely States (37% / 22%). Company State = a profit-making company that came to rule territory.

1661 Charter (Charles II 60–85)	Right
1	Build forts
2	Command troops
3	Make war and peace
4	Civil + criminal jurisdiction over settlements
1676	Mint its own money

Two kinds of wars

→ EIC not formed for territory (T); goal = trade with the East Indies

For trade

→ Defensive: protect present trade (Carnatic Wars)

→ Offensive: expand trade (Suvali 1612, Ch 8)

🗺️ For territory only in 2 conditions

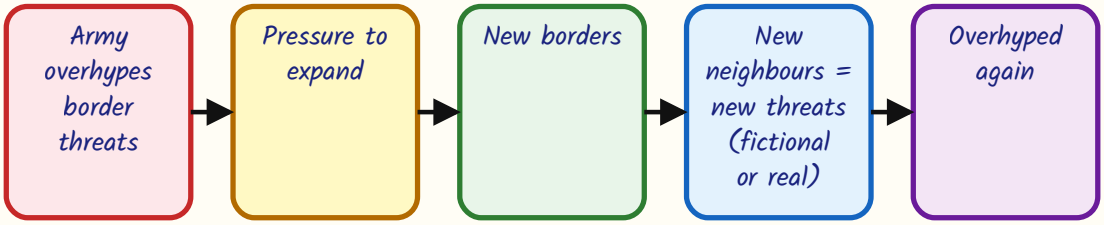

→ 1 Ambitious Governor / Governor-General: empire builder by temperament; Britain far, slow communication, freedom London may not have approved

→ 2 EIC Army pressure: bigger defence budget, prestige, promotions, political relevance

→ Carnatic Wars = wars for trade that laid the base for territory

Empire builder	Years
Robert Clive 57–67	Governor of Bengal Presidency, 2 stints 1757–60 and 1765–67
Richard Wellesley 98–05	1798–1805
Francis Hastings 13–23	1813–23
Dalhousie 48–56	1848–56

Army's self-reinforcing war cycle

Board: army's vested interest = economic power (bigger defence budget), political power (larger army), social power. Handout parallel: Pakistan Army ate Pakistan from within; Indian Army did the opposite. ⭐

👫 ANGLO-MUGHAL WAR 1686-90 (CHILD'S WAR)

📖 **Story link · beat 2:** Because Aurangzeb 58-07's wars and Bengal customs hurt trade, the Company picked a fight and lost. Now it learns patience.

👫 Child's War

→ Bengal + Arabian Sea; **first significant clash EIC vs an Indian power**; **Josiah Child** = Chairman, Court of Directors, London; **John Child** = Governor of Bombay + 'General' of all EIC forces

→ Causes: Aurangzeb 58-07's constant warfare disrupting sourcing; disputes with Nawab of Bengal over bribes + heavy customs

→ EIC seized **Hugli** (1651 first Bengal factory), attacked Mughal ships in Arabian Sea; Aurangzeb 58-07 crushed it in Bombay + Bengal; **1690 surrender**

→ **Feb 1690** pardon for **Rs 1.5 lakh**; **1691 Farman**: old privileges + **duty-free trade in Bengal for Rs 3,000 a year**

Why Aurangzeb 58-07 did not expel the EIC

→ **Economically useful**: brought forex/gold he needed for war; his own wars hurt domestic trade so exports mattered more

→ Indian bankers earned interest lending to the Company; merchants, artisans, ryots benefited

→ **1691 Farman = technically a Parwana** (Subahdar of Bengal), under Aurangzeb 58-07's approval; chain: ryots to merchant to EIC; duty saved buys more goods; today we don't tax exports

🎯 THREE CARNATIC WARS: THE FRAME PYQ 1995

📖 **Story link · beat 3:** Because the rival in India was now France, three wars followed: two global spillovers and one of factionalism.

Dupleix 42-54

→ **Joseph Francois Dupleix**, Governor-General of French EIC 1742-54; ambitious, wanted to dominate South India's international trade; **template for all that followed**

→ By **1740** French EIC trade about **half** of British EIC trade

→ Reason for all three wars: **who will dominate purchase of Indian goods**

War	Years	Cause	Decisive	Treaty	Won (board)
👫 1st	1746-48	War of Austrian Succession 1740-48	Adyar/St Thome 1746	Aix-La-Chapelle 1748	French
2nd	1749-54	Succession disputes, Carnatic + Hyderabad (factionalism, R vs R)	Ambur 1749; Clive 57-67's Arcot 1751	Pondicherry 1754	Phase 1 French, Phase 2 British
3rd	1756-63	Seven Years' Global War 1756-63	Wandiwash 1760	Paris 1763	British

Board: wars 1 and 3 = international relations (Britain vs France); war 2 = factionalism. Royal armies took part in the 3rd war ONLY. Score 3/2: French won 1st + 1st phase of 2nd; British 2nd phase + 3rd. Dupleix 42–54 recalled 1754, not in 3rd war. Prelims 1995 hook: Wandiwash 1760 = French vs EIC; Buxar 1764 = EIC vs Mir Qasim 60–63 (with Awadh, Shah Alam II 60–06) not Mir Jafar 57–60; Chilianwala 1849 = Dalhousie 48–56 vs Sikhs; Kharda 1795 = Nizam vs Marathas.

1ST CARNATIC WAR: ADYAR 1746

📖 Story link · beat 4: Because the Austrian war reached India, Dupleix 42–54 took Madras and met the Nawab's cavalry.

From Madras to Adyar

Dupleix 42–54 captures EIC's Fort St George, Madras → Nawab Anwaruddin 44–49 expected the fort → Dupleix 42–54 refuses → Anwaruddin sends 10,000 cavalry → Adyar/St Thome 1746: ~700 French-trained sepoys + 300 French soldiers destroy them

Source conflict: slide wording ('Dupleix 42–54 refused and sent 10,000 cavalry') misleads; handout: Anwaruddin 44–49 sent them. Handout Diagram 1 credits Madras to La Bourdonnais 35–46; text and slide credit Dupleix 42–54.

3 advantages of European warfare	Why
1 Superior artillery	Light mobile cannon, repositioned fast (like Babur 26–30's small bronze cannons; handout spells Babar 26–30)
2 Tactical discipline	Coordinated formations, infantry squares (face outward, cavalry from any side meets muskets)
💰 3 Regular cash salaries	Professional force, no desertion; Indian armies often unpaid

Takeaway: proved a small disciplined European-trained infantry + modern artillery can crush a far larger traditional army; Europeans gained confidence to interfere; Indian elites wanted European military service ("turning point"). Wagner Group analogy: a company that sells military service for money; French EIC = Wagner of India.

🌐 Treaty of Aix-La-Chapelle 1748

→ Ended Austrian War: both return possessions in America + India; Madras back to EIC

→ Britain won in North America (France's key interest; Britain's = India); Dupleix 42–54 'KAT gaya'

→ Results: no territorial change; infantry lesson stays; next chance = two succession disputes

2ND CARNATIC WAR 1749-54: THE BLUEPRINT

📖 Story link · beat 6: Because Aix-La-Chapelle returned Madras, Dupleix 42-54 found new quarrels: four claimants, a model, then Arcot.

Place	French EIC candidate (moved first)	English EIC candidate (reacted)
Carnatic	Chanda Sahib 49-52, son-in-law of Dost Ali Khan 32-40 (1732-40)	Md Ali 52-95 Wallajah, son of Anwaruddin 44-49 (appointed Nawab by Nizam of Hyderabad 1744, then autonomous)
Hyderabad	Muzaffar Jung 50-51, grandson (from a daughter) of Nizam-ul-Mulk 24-48 (d. 1748)	Nasir Jung 48-50, son of Nizam-ul-Mulk 24-48

MuzaFFrance — Muzaffar Jung 50-51 = French side; Chanda Sahib 49-52: Paris and the moon (Chanda) = romance. British side: Nasir Hussain = England captain, cricket = Nasir Jung 48-50; Jinnah, pro-British = Md Ali 52-95

Why the EIC reacted: fear of loss of trade if French put their favourite in power. Dupleix 42-54 wanted empire + monopoly of South India's trade; Anwaruddin wanted Md Ali. Map code MWP (north to south on coast): Madras (EIC HQ), Wandiwash, Pondicherry (French HQ); Arcot inland = Carnatic capital; Hyderabad north of Krishna; Northern Sarkars up the coast. Hyderabad family = Asaf Jahi dynasty by Nizam-ul-Mulk 24-48 (Asaf Jah I).

1749

Ambur (190 km west of Chennai, towards Bengaluru): Anwaruddin 44-49 killed; Chanda Sahib 49-52 Nawab at Arcot

Dec 1750

Nasir Jung 48-50 killed; Muzaffar Jung 50-51 Nizam; marches to Hyderabad with Bussy's army (Dupleix 42-54's junior)

Feb 1751

Lakkireddipalli Pass: MJ killed by Afghan Nawab of Kurnool (felt cheated of promised land), who is also killed; Bussy installs Salabat Jung 51-62 (son of Nizam-ul-Mulk 24-48, uncle of MJ)

Wagner idea: MJ + Chanda Sahib 49-52 hired the French EIC to become rulers; MJ's death = blot on a firm that sells protection, so Bussy created terror to Hyderabad ('don't mess with the French EIC').

Phase 1 gains	Detail
Hyderabad: resident	Bussy French resident + agent at Nizam's court
Army	French army stationed, Hyderabad pays
💰 Payment	Northern Sarkars (present Andhra): Bussy administered, kept revenues; terror and massacres gave Andhra word 'boochi' (ghost) from Bussy
Cash	2,00,000 pounds from Nizam
Personal	Bussy: jagirs in Masulipatnam + Yanam
Carnatic title	Dupleix 42-54 declared himself Nawab of lands between Krishna and Cape Comorin, Chanda Sahib 49-52 Deputy Nawab of Arcot
Carnatic personal	Jagir Rs 1 lakh p.a. at Villianallur near Pondicherry (80 villages; notebook: today ~3 crore p.a.)

Source conflicts: notebook page dates the war '1750-54'; handout and slides give 1749-54 (use this). Page writes 'x 300%': Rs 1 lakh to Rs 3 crore is 300 times; take the point (huge income), not arithmetic.

Board: Hyderabad under French military domination; French sell a military service (Hyderabad pays); Salabat Jung 51-62 = puppet; resident lets French counter any anti-French decision. Why Company men build empires: an employee gets only a salary; empire brings personal jagirs + cash: true of French EIC, English EIC, Estado da India, Dutch VOC (= condition 1).

Dupleix 42-54's model (copied by the EIC)

1 Succession dispute = opportunity: back your claimant → 2 Station your army; State pays for it (free-of-cost domination) → 3 Territory as payment → 4 Puppet State: Resident at court, indirect rule

Mains (board): 'Model of empire building by trading companies was founded by the French and implemented by the British. Analyse.' Founded = 2nd CW four steps; implemented = Plassey, Buxar (Ch 10), Subsidiary Alliance (Ch 11). Prelims 1996 (b) Dupleix 42-54 first European in princes' quarrels for territory; Clive 57-67 and Warren Hastings 73-85 refined; Albuquerque 09-15 = earlier direct conquest (Goa 1510). ✅

Phase 2: EIC bounces back

→ EIC backs Md Ali 52-95 holding out at Trichinopoly
→ Dupleix 42-54's critical mistake: left capital Arcot unguarded
→ Clive 57-67 from Madras, ~200 Europeans + 300 sepoys, took Arcot (1751), defended 53 days; celebrated in Britain
→ Paris refused help: honour 1748 treaty, keep lucrative America (France chose America over India again); 1754 French lost

🌐 Treaty of Pondicherry 1754

→ Dupleix 42-54 recalled, replaced by Godeheu (war expenditure; company = profit motive); died in poverty in France 1763

⏳ Terms

→ 1 Hyderabad: Bussy agent, French army, Northern Sarkars with French (French smile)
→ 2 French factories in Pondicherry + Carnatic retained
→ 3 Md Ali 52-95 Nawab of Carnatic = EIC influence (British smile)

→ Chanda Sahib 49-52 fled to Tanjore, beheaded by Pratap Singh 39-63, Maratha Raja (Maratha rule in Tanjore from 1674, Venkoji (Ekoji), half-brother of Shivaji 74-80)

Theory of treaties: war is costly for both; victor stops when war aims achieved (EIC: safe trade); power differential and economic + military ability decide terms. Apply to 1748, 1754, 1763. 💡

3RD CARNATIC WAR 1756-63

📖 Story link · beat 9: Because royal armies now joined the Companies, the contest turned decisive: Wandiwash 1760, Paris 1763.

Royal armies join

→ Seven Years' Global War 1756-63 (Europe, Americas, Africa, India)
→ French: Count de Lally (French State, not EIC) with Royal military, alongside Bussy of French EIC
→ British: Eyre Coote (British State) with Royal military, alongside Clive 57-67 of the EIC: [EIC + Britain] vs [French EIC + France]

Wandiwash: decisive, 22 January 1760 (handout: 'where the French were washed away'); lies between Madras and Pondicherry. French then lost everywhere incl. Pondicherry (HQ officially since 1701, Fort Louis); Siege of Pondicherry 1761. ⭐

Why France lost (4)	Detail
1 Tactical mistake	Bussy abandoned Northern Sarkars to help Lally; Clive 57-67 from Bengal took them 1759

2 Poor leadership	Lally rude, despised; 'Dupleix 42–54 not here'
⚠️ 3 Financial weakness	Soldiers unpaid for months; heavy spending in 1740–48 war + first two CWs; Britain profiting since 1600, mature capitalism; French feudalism ended only after Revolution 1789; Industrial Revolution in Britain 1750–1850
4 British navy	Dominated Coromandel coast

Board: capitalism = at 4 am people already at work, belief in getting rich by hard work (Bombay never sleeps); French merchants existed before 1789 but capitalism came after. 💡

Why EIC won all 3 (5 factors)	Detail
1 France starved Dupleix 42–54	Preserving 1748 gains
2 Leadership	Recall of Dupleix 42–54; Lally poor; Clive 57–67 + Eyre Coote good
3 Navy	British dominance of coast
💰 4 Finances	EIC private joint-stock, deep capital, gains after Plassey 1757; French EIC = State PSU, weak; Britain top economy; Lally unpaid
5 Tactical mistakes	Arcot unguarded (2nd); Northern Sarkars unguarded (3rd)

Source note: handout numbers the factors 1, 2, 2, 3, 4; renumbered 1 to 5. Use this table for the whole contest, previous for Wandiwash.

🌐 Treaty of Paris 1763

→ France lost all gains since 1749, back to pre-1749; barred from strong army or fortifying bases

→ Five posts: Pondicherry, Mahe, Karaikal, Yanam, Chandernagore

→ 1769 French EIC abolished (French State gave up dominating India's trade; other French traders still free)

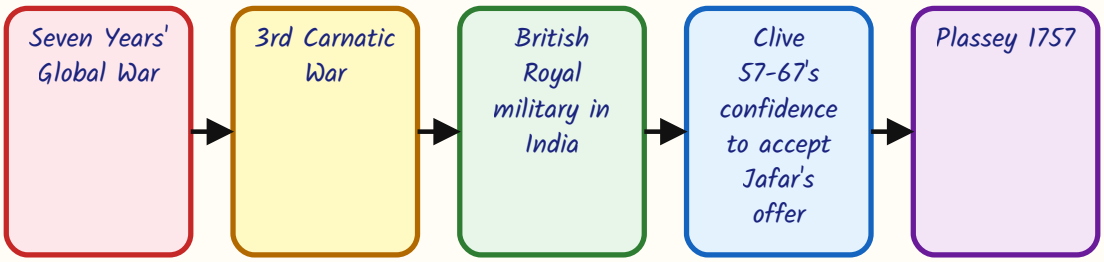

→ After Portuguese (1612), Dutch (1650s), French (1763): EIC monopoly over India's international trade, NOT territory (T)

PM KYC — Pondicherry (east) · Mahe (west, Malabar) · Karaikal (east) · Yanam (east) · Chandernagore (Bengal): teacher's 'PM KYC (Yojana)'; 'trading centres'. Three treaties in order: 1748 Aix-La-Chapelle, 1754 Pondicherry, 1763 Paris

LINK WITH PLASSEY, AND LATER

📖 Story link · beat 11: Because the 3rd war brought royal forces, Plassey 1757 became possible. The French founded the model, the British used it.

Teacher's flow

1766	1798	1799	1801
Treaty of Hyderabad: Northern Sarkars ceded to EIC for Rs 7 lakh a year + protection vs Marathas + Mysore	Hyderabad: first Subsidiary Alliance (about 3.5 decades after 1763)	Mysore	Carnatic annexed

1805
Travancore

Takeaway: without Carnatic there may not have been a Plassey; Carnatic Wars, fought for trade, laid the foundation of British domination of South India. 'Jafar's offer' = Mir Jafar 57–60's deal with Clive 57–67 (Ch 10). ✅

1600	1612	1651	1661
EIC profiting	Suvali	Hugli	Charter

1676	1686	1690	1691
Mint	Child's War	Pardon	Farman

1701	1740	1742	1744
Pondicherry HQ	Austrian War; trade half	Dupleix 42–54	Anwaruddin 44–49

1746	1748	1749	1750
Adyar	Aix; Nizam dies	Ambur	Dec: Nasir killed

1751	1754	1756	1757
Lakkireddipalli; Arcot	Pondicherry	3rd CW	Plassey

1759	1760	1761	1763
N. Sarkars to Clive	Wandiwash	Pondicherry siege	Paris

1766	1769	1857
Hyderabad	French EIC abolished	63% / 78%

Recall drill: cover and answer

Two conditions for wars for territory?	Ambitious Governor; EIC Army pressure	1661 Charter rights?	Forts, troops, war and peace, civil + criminal jurisdiction; mint 1676
Child's War?	1686–90; Josiah + John Child; pardon Feb 1690 Rs 1.5 lakh; 1691 Farman Rs 3,000 duty-free Bengal (technically Parwana)	Why Europeans won at Adyar?	Artillery, discipline (infantry square), regular cash pay; ~1,000 beat 10,000
Four claimants of 2nd CW?	French: Chanda Sahib 49–52, Muzaffar Jung 50–51; EIC: Md Ali 52–95, Nasir Jung 48–50	Dupleix 42–54's model?	Claimant, army at his cost, territory as payment, Resident (Prelims 1996)
Why France lost 3rd war?	Tactical mistake, poor leadership, finances, British navy	Five French posts?	PM KYC: Pondicherry, Mahe, Karaikal, Yanam, Chandernagore
Three treaties?	Aix-La-Chapelle 1748, Pondicherry 1754, Paris 1763	First Subsidiary Alliance?	Hyderabad 1798; Mysore 1799, Carnatic annexed 1801, Travancore 1805

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

PM = Prime Minister — Head of the Union government

KYC = Know Your Customer — Identity checks by banks to prevent fraud and money laundering

ST = Scheduled Tribes — Tribal groups listed under Art 342

PSU = Public Sector Undertaking — Company owned mainly by the government

PLASSEY AND BUXAR

PYQ Prelims 2004, 2005 · Mains: recurrent famines in British-ruled India (year not on slide)

✎ *Abuse, conquest, plunder, legalise. Dastak abuse of Farman rights, Plassey wins Bengal by conspiracy, the treasury is looted, and Buxar with the Treaty of Allahabad 1765 makes the loot legal.*

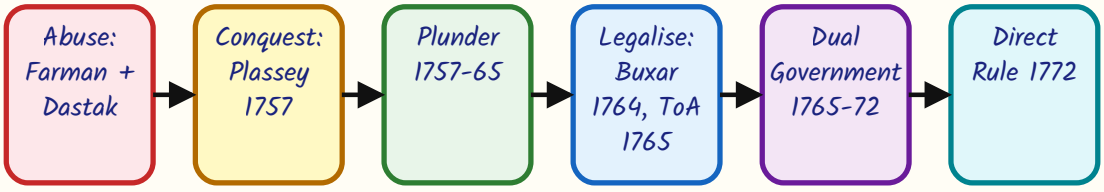

📖 THE STORY FIRST (same story as the textbook)

Abuse, then conquest, then plunder, then legalise: each step makes the last step's abuse legal. Farman rights are abused through Dastaks (abuse); Plassey wins Bengal by conspiracy (conquest); the Bengal treasury is looted (plunder); Buxar and the Treaty of Allahabad 1765 make the loot a legal right (legalise).

1. **The Doctor's gift (1717).** The EIC was a trader with Farmans. Dr Hamilton cured Farrukhsiyar 13–19, so the 1717 Farman gave duty-free trade, the Royal Mint and 38 villages. The Nawab had to honour it.
   → But the Nawab of Bengal has to honour it.
2. **The Nawab says yes, but.** MQK 17–27 allowed duty-free trade but no Dastak misuse, refused the Royal Mint, and allowed renting villages, not buying. So EIC officers looked for other ways to profit.
   → So the EIC's officers look for other ways to profit.
3. **The cheating begins.** Officers misused the Dastak, the duty-free pass, for private trade: 1,00,000 pounds a year by 1750, about 50 times their salaries. Bengal lost revenue.
   → Bengal's rulers must decide how long to tolerate this.
4. **A young Nawab says enough (1756–57).** Alivardi Khan 40–56 tolerated it. Siraj 56–57 stopped the Dastak misuse, seized Kasimbazar and Calcutta (renamed Alinagar). The Black Hole story was born.
   → The EIC calls Robert Clive back.
5. **Clive returns.** Clive 57–67 came from Madras with the Royal military, retook Calcutta, signed the Treaty of Alinagar, beat the French at Chandarnagar. Now he needed a way to beat Siraj by a deal.
   → Now he needs a way to beat Siraj without a real fight.
6. **Plassey, 23 June 1757: the conspiracy.** Mir Jafar 57–60, Siraj's Bakshi, made a deal with Clive 57–67. At Plassey, 23 June 1757, most of the army did not fight; Siraj fled and was beheaded by Miran.
   → Now comes the reward.
7. **The loot.** The reward: cash to the Royal military, to Clive 57–67 and to the EIC, plus untaxed Gomasta trade. Gold went to Britain (the Drain). Mir Qasim 60–63 replaced Mir Jafar 57–60.
   → But Mir Qasim does not want to stay a puppet.
8. **The puppet rebels.** Mir Qasim 60–63 moved to Bihar, punished underreporting zamindars and abolished internal duties. Beaten in 1763, he fled to Awadh and joined Shuja 54–75 and Shah Alam II 60–06.
   → Three armies now face the EIC.
9. **Buxar, 1764: the real battle.** At Buxar 1764, Hector Munroe won against Shuja 54–75, Shah Alam II 60–06 and Mir Qasim 60–63. Clive 57–67 was in London. It was the EIC's first real military victory.
   → Now the EIC dictates terms: the Treaty of Allahabad.
10. **Allahabad, 1765: Paper, Power, Pay.** Allahabad 1765: Paper, the Emperor gets Allahabad and Kora. Power, the EIC gets the Diwani and Dual Government. Pay, Awadh pays Rs 50 lakh and becomes a buffer.
    → Power without responsibility cannot last.
11. **The bill comes due (1770–73).** The Great Bengal Famine 1770 killed about one-third of the people and nobody took charge. The EIC went bankrupt in 1772; W. Hastings 73–85 brought Direct Rule.

Cast: Dr William Hamilton = The Doctor · MQK 17-27 = The Gatekeeper · Alivardi Khan 40-56 = The Pragmatist · Siraj 56-57 = The Young Nawab · Robert Clive 57-67 = The Strategist · Mir Jafar 57-60 = Bag + Binoculars · Mir Qasim 60-63 = The Rebel · Shuja 54-75 and Shah Alam II 60-06 = The Allies · Hector Munroe = The Winner · Md Reza Khan = The Go-between · W. Hastings 73-85 = The Administrator

👫 At a glance: abuse, conquest, plunder, legalise

Paper-Power-Pay — ToA 1765 has three counterparties: Paper = the Emperor · Power = Bengal · Pay = Awadh. Spine: abuse → conquest → plunder → legalise (each step makes the last step's abuse legal).

Board: Plassey 1757 = conquest, not rule (rule = L, E, J on T). Plassey gave: (1) conquest, trader to State-like behaviour (2) DRAIN of wealth (3) change in trade structure. Buxar 1764 leads to ToA 1765: rule in Bengal (EIC = FM of Bengal) + military domination of Awadh.

Company State = EIC's empire = British India = 'ruled' India; by 1857 63% territory, 78% population. Two phases: Company State 1765–1858 (from ToA 1765) and Crown Colony 1858 to 26 Jan 1950 or 15 Aug 1947. Company = money motive; State = territory motive. Took territory from the 3 kinds of regional States (Ch 3) by diplomacy and war. Course chain: Decline of Mughal State, Rise of Regional States, Advent of Europeans, Establishment of Company State.

👫 PLASSEY: BEGINNING OF CONQUEST

📖 Story link · beat 1: Story so far: the EIC is a trader. Plassey is where it first acts like a conqueror.

Conquest = military domination + political supremacy; began in Bengal. EIC did not legally take sovereign functions after 1757: military control + wealth extraction. Plunder = ATTACK + LOOT; Plassey Plunder [1757–65] = illegal; 1765 EIC became FM (Diwan) of Bengal = loot legalised. Rule did not begin 1757; conquest and the Drain did.

THE FOUR FARMANS AND 1717

📖 Story link · beat 1: A doctor's cure buys the trader a golden ticket, the 1717 Farman. Now the Nawab must honour it, with conditions.

Farman	Issued by	What it gave
1613	Jahangir 05–27	Factory at Surat after Suvali 1612
1618	Jahangir 05–27	Factories in whole Mughal empire + liberal trading rights (Roe, British Resident 1615–19): lower export duties, less paperwork, more ports
1691	Subahdar of Bengal, Aurangzeb 58–07's approval	Duty-Free Trade (DFT) in Bengal for Rs 3,000 p.a. (provincial Parwana)
1717 Imperial	Farrukhsiyar 13–19	'Magna Carta of the Company': medical diplomacy, Dr William Hamilton, EIC surgeon, cured Farrukhsiyar 13–19

🛡️ 1717 Farman: 3 rights

→ DFT in Deccan, Gujarat, Bengal (for Bengal reiterates the 1691 privilege)

→ Royal Mint: mint Indian coins, saving cost of converting gold into sikkas (Royal Mint earned commission)

→ Rent 38 villages around Calcutta to expand settlement (board years [1690], [Presidency 1699])

Right	What MQK 17–27 did	Why
DFT	Allowed, but refused Dastak misuse for officials' private trade	Privilege for Company goods only
Royal Mint	Refused	Hurt sovereignty + revenue (commission on gold to sikkas)
38 villages	Rent allowed, NOT purchase	Board stress

Bengal by 1717 = successor State (uttaradhikari, from within the Mughal political family): MQK 17–27, Sadat Khan 22–39, Nizam 24–48 in Bengal, Awadh, Hyderabad (Ch 3). The Farman became a source of conflict with the Nawab.

Source note: slide says MQK 17–27 'won the 1717 Farman'; handout: he accepted it in part, resisted Dastak abuse. Farman was issued to the EIC by Farrukhsiyar 13–19.

⚠ THE DASTAK PROBLEM

📖 Story link · beat 3: Because the Nawab set conditions, officers found loopholes: the Dastak, private trade, cheating.

Dastak + private trade

→ Dastak = EIC permit certifying goods as EIC's, exempt from export duty (sample: 'certified these 100 goods are EIC's, allow DFT exit')

→ Private trade = officials buying in personal capacity; misuse = misdeclaring own goods as EIC's, selling Dastaks to other exporters; violates Charter (employee competes with company), duty evasion, loss to Bengal Suba

→ By 1750 private trade 1,00,000 pounds p.a. = ~50 times salaries, so motive = private trade, not salary

→ Cornwallis 86–93 curbed it (honest Governor General; increased salary)

Category	Who	Whose law broken
Interlopers	Non-EIC British merchants trading with India (teacher: Britishers, traders or companies)	Royal Charter (British law); court cases in Britain
Free merchants	Non-EIC British merchants in India selling to EIC in India, not exporting (an 'ex-interloper')	None: legal in British eyes
Dastak misuse	EIC officials passing private goods as Company's	Indian law: customs duty evasion (Bengal framework)

Board: interloper buys from Indian merchants, exports himself: profit Rs 100 = loss of Rs 100 to EIC; EIC cannot stop it (Charter broken, court cases). Free merchant sells to EIC inside India: Rs 100 shared, no Charter broken, no court case.

SIRAJ 56–57 AND THE ROAD TO PLASSEY

📖 Story link · beat 4: Because the cheating hurt Bengal's revenue, a young Nawab finally tries to stop it.

Why Alivardi Khan 40–56 tolerated

→ EIC fortified Fort William from 1755 without permission (fear of French; 1756 Seven Years' War; Bengal = 60% of EIC trade; 'ATMANIRBHAR' after Adyar 1746); fort = military structure, building one on another's land challenges sovereignty

→ He was pragmatic: diplomacy, EIC trade beneficial; noticed Adyar 1746; warned Siraj on deathbed

→ Fortification = fill gaps, raise height, thicken walls

Why Siraj 56–57 did not

→ Precious grandson (through daughter) of Alivardi Khan 40–56, only grandson; disliked at court: disrespected senior Mansabdars, imprisoned Jagat Seth (banker) for extortion; young, impulsive

→ Stopped all Dastak misuse, hurting officials' fortunes

→ British sheltered Krishna Ballabh (fugitive, fraud) for money + added fortifications

→ Seized Kasimbazar factory, captured Calcutta, renamed it Alinagar

Black Hole Tragedy 1756

→ British prisoners locked overnight in airless guardroom, Fort William; J.Z. Holwell (survivor, briefly Governor): 146 locked, 123 died; modern historians: ~30 to 40

→ Propaganda to justify EIC action + demonise Indian rulers

→

1760	1821	1901	1940
Holwell monument	ruined, demolished	Curzon 99–05 (1899–1905) marble replica	Netaji Bose agitation (Hindu–Muslim unity): shifted to St. John's Church graveyard, not demolished

Source note: slide puts 1940 sharper ('forced the British to shift it'); handout: shifted, not demolished. Both agree.

🎯 CLIVE 57–67, CONSPIRACY, PLASSEY PYQ 2004

📖 Story link · beat 5: Because Siraj dared to act, the EIC sends Clive, who wins by a deal, not by force.

Clive 57–67 neutralises French

→ From Madras with Royal military recaptured Calcutta; Treaty of Alinagar restored EIC privileges

→ Destroyed Hugli port (French use), defeated French at Chandarnagar (French since 1690)

→ Clive 57–67 = Governor of Bengal Presidency 1757–60, 1765–67; EIC army and Royal (King's) military are different forces

Plassey, 23 June 1757: conspiracy

→ Mir Jafar 57–60 = Bakshi (war paymaster + military intelligence); technically Subahdar commands army, but Siraj young so Jafar real commander

→ Deal with Clive 57–67: bulk of army did not fight; Siraj fled, captured, beheaded on orders of Miran, Jafar's son

→ Jafar became Subahdar (again 1763–65), but EIC's puppet; political supremacy began; first real EIC victory = Buxar 1764

Prelims 2004 (b) Only 3. Stmt 1 F: Third Panipat 1761 Abdali beat the Marathas (Ibrahim Lodi lost First Panipat 1526 to Babur 26–30). Stmt 2 F: Tipu 82–99 died in the 4th Anglo-Mysore War (1798–99, Srirangapatna), not 3rd (1789–92). Stmt 3 T. Board: [1st BoP 1526] F; [4th 1799] F.

THE PLASSEY PLUNDER 1757–65

📖 Story link · beat 7: Because the victory was a bought one, the EIC collects the payment: follow the money.

To whom	Amount	When
Royal British military	2,75,000 pounds (not EIC army)	Immediately after 1757
Clive 57–67 personally	2,34,000 pounds + personal jagir 35,000 pounds p.a.	Immediately after 1757
The EIC	Rs 2.25 crore	Immediately after 1757
EIC, 'political gifts'	2.5 million pounds	1757–65

Scale (handout): 2.5 million pounds x 250 (inflation/RPI); Britain's GDP 1760 = 70 million pounds, so 3.5% of GDP; 3.5% of 2026 UK GDP (2.27 trillion pounds) = 80 billion pounds or 108.5 billion USD, multiplier ~x32,000.

Four effects

→ **1 Private trade, now domestic too**: Dastak misuse rampant; via Gomastas (Indian agents) buying direct from peasants/artisans, cutting out Indian merchants, paid no domestic tax

→ **2 Trade structure: Drain begins**: before 1757 gold shipped from Britain (inflow); after, Bengal revenues buy Indian goods + Chinese goods (tea, silk, porcelain) for Europe, gold shipped to Britain = outflow = Drain

→ **3 Large standing army** funded by plunder not profits (Clive 57–67 laid military foundation)

→ **4 Change of puppet**: Jafar could not meet demands, replaced by son-in-law Mir Qasim 60–63 (efficient administrator)

Wording trap: handout/slide say 'Bengal's Diwani revenues' funded purchases after 1757, but Diwani came legally in 1765. In answers write **'Bengal treasury/revenues' for 1757–65** and 'Diwani revenues' from 1765.

Nawab of Bengal	Remember
MQK 17–27	1717 Farman: accepted in part, resisted Dastak abuse + Mint
Shuja-ud-din 27–39	Continuity, low drama
Sarfaraz Khan (1739–40)	Added on board (gap)
Alivardi Khan 40–56	Pragmatic, tolerated EIC
Siraj-ud-Daula 56–57	Stopped Dastak abuse; Black Hole; Plassey 23 June 1757; beheaded
Mir Jafar 57–60	Puppet; 1757–60, then 1763–65
Mir Qasim 60–63	Son-in-law; capital to Patna (Bihar); militarised; ended Dastak abuse; rebelled
Najm-ud-Daula (1765)	Nizamat puppet; Dual Government begins

Reign code: handout text 'Mir Jafar 57–60 (again 1763–65)'; slide table + flow chart write 57–65; board 'Jafar 57–60, 63–65'. All mean two terms with Mir Qasim 60–63 between; notebook keeps 57–60.

BUXAR 1764: THE RIGHT TO RULE PYQ 2005

📖 Story link · beat 9: Because the new puppet refuses to obey, a real war follows.

Why Mir Qasim 60–63 rebelled

→ No wish to remain a puppet; shifted base from Murshidabad to Bihar (Patna) away from EIC's eyes

→ **Punished zamindars** who underreported LR; **abolished all internal duties** on domestic trade (like 0 GST): level field vs EIC officials' untaxed Gomasta trade

→ Defeated in Bihar 1763; EIC brought back Mir Jafar 57–60 (1763–65); Qasim fled west to Awadh (with money), allied with **Shuja-ud-Daula 54–75** and **Shah Alam II 60–06**; Shuja promised **3 crore rupees + Bihar and its treasury**

Why Shah Alam II 60–06 in Awadh	Detail
Danger at Delhi	Left, fearing Wazir Imad-ul-Mulk (Gaddar-ul-Mulk)
Two emperors destroyed	Imad-ul-Mulk **blinded Ahmad Shah Bahadur 48–54 in 1754**, **murdered Alamgir II 54–59 in 1759**
Own kingdom	Bengal had stopped tribute since 1751; attacked it **1761**, defeated; EIC still respected him
Awadh	Chose Shuja 54–75 as Wazir

The battle

→ Fought in Bihar; plan = defensive siege of EIC fort; **Shuja lost patience**, against Qasim's advice attacked directly; closely fought, Indians nearly winning; **Hector Munroe's final charge** turned it; Clive 57–67 in London

→ After: Mir Qasim escaped, died later; Shuja surprised not beheaded; Shah Alam II 60–06 treated with respect (symbolic Mughal sovereignty strengthens EIC's legal right)

→ Board: only Awadh was a State; Emperor + Qasim 'as individuals'; other side EIC + Bengal (puppet Jafar). In 1764 at best EIC = one of the Indian kingdoms

Teacher imp: why could the EIC build an empire? Many States, not one; each had territory motive and wanted empire (rivalry natural); resources economic + military not united; so a power 'at best one of the kingdoms' beat or allied with them one by one. Say 'Indian KINGS not united', not 'Indians'. Compare China: weak but ONE State (Manchu till 1911). ✅

🌐 TREATY OF ALLAHABAD 1765 (ToA)

📖 Story link · beat 10: Because the EIC has now won both ways, it writes the peace: Paper, Power, Pay.

ToA 1765

→ Clive 57–67 (sent back to India after Buxar; second term) signed for EIC; Shah Alam II 60–06 + Shuja-ud-Daula 54–75 for Indian side

→ Laid the legal + structural foundation of the Company State

→ Clive 57–67 insider trading: asked London broker to buy EIC shares before terms public; one of Europe's richest

→ Three components: @ Emperor, @ Bengal, @ Awadh

@ Emperor	Terms	In practice
Tribute	EIC pays 26 lakh rupees p.a.	Not paid
Recapture Delhi	Help vs Rohilla Afghans (held since 1761)	No army supplied
Allahabad + Kora	Given to him from Awadh	His seat

EIC absorbing itself into Mughal structure as a Mansabdar: mansab = finance ministership (Diwani) of Bengal; maintains army for king = promise to help recapture Delhi; Vatan Jagir holder pays tribute = Rs 26 lakh. Bengal = like a Vatan Jagir of the EIC (legal dress). Recall: how Rebel States were absorbed (Ch 3). Handout: 'Watan Jagir'; country 'technically Mughal till 1858'. 💡

@ Bengal: Dual Government 1765–72

Mughal Suba (Akbar 56–05)

→ Nazim/Subadar: military + law and order

→ Diwan: 'CM + FM', civil admin + finance

→ Bakshi: military intelligence + war paymaster

→ Deputies Naib Nazims, Naib Diwans, Naib Bakshis; each reported to the centre = checks and balances

→ By 1717 diluted: all report to Subadar, 'like a king'; 1765: two heads again under Delhi: Subadar (Nizamat minus military) + Diwan = EIC

Function	With	Covered
Diwani	EIC (Bengal, Bihar, Orissa)	Revenue admin, treasury, civil admin + civil justice
Nizamat	Nawab	Law and order, police, criminal justice (military in practice with EIC since 1757)

First time EIC received a sovereign function (power to tax). Before Buxar only trade income (since 31 Dec 1600); from 1765 two incomes: trade + tax of richest province. Plunder 1757–65 now LEGAL. EIC appointed Md Reza Khan, Deputy Nawab (Naib Nazim), as Diwan; Indian officials ran admin. Board: 2 top authorities, one administration (Y shape). Exam: Diwani = revenue + civil justice; Nizamat = law and order (police) + criminal justice (handout: 'NOT health/education'). ⭐

Why not annex Bengal? Company = profit, not ruling; annexation brings costs + responsibility; military domination already; took money (Diwani), left headache (Nizamat) to Nawab; ruling = tension / responsibility; no experience of ruling. ✅

Indirect Rule (PoIR) 1765

→ 3 steps: (a) Nawab = puppet (b) British Resident at court (c) Resident controls him

→ EIC gained legal right to appoint Deputy Nawab (removable if disobedient); a process 'takes years': installed 1765, complete by 1772

🎯 Great Bengal Famine 1770 (GBF) PYQ Mains

→ 1 crore dead = one-third of Bengal; high LR demand + harsh collection continued; hoarding unchecked; EIC said relief = Nawab's domain, Nawab lacked resources

→ LR (Diwani side) and law and order (Nizamat side) collapsed

→ EIC went bankrupt 1772 (teacher): 2 incomes (trade + LR); since 1757 bought goods with Bengal LR; famine hit both = income shock

→ 1772: Nizamat taken, Indian administrators replaced by EIC officers = Direct Rule (W. Hastings 73–85); Company State properly established; Nawab as powerless as the Maratha Chhatrapati after Sangola 1750

Famine = NATURE factor AND HUMAN factor (Mains paragraph). Drought/floods raise food price (not yet famine); prosperous people buy, welfare State keeps buffer + imports food. Bengal 1770: human side failed. Bankruptcy = unable to meet liabilities; leverage e.g. 1 crore firm takes 0.4 crore loan; income shock means no EMI. 💡

@ Awadh

→ Shuja pays 50 lakh compensation

→ Benaras separated (EIC annexed 1775)

→ Kora + Allahabad to Emperor

→ EIC duty-free trade in Awadh; Dastak misuse began there

→ Ring Fence + mini Subsidiary Alliance

🎯 Policy of Ring Fence (PoRF) PYQ match

→ Military buffer of allied States around the core via military alliances; Awadh bound to help if EIC attacked in Bengal

→ Warren Hastings 73–85 associated; Clive 57–67 planted the seed (do NOT pick Clive in match-the-following)

→ Analogy: NATO buffer vs USSR; broken glass / barbed wire on a wall; thorny hedge round a field = build a buffer around the core. Bengal = core, Awadh = buffer (enemy from west passes Awadh)

Mini Subsidiary Alliance

→ Awadh's army reduced; EIC army permanently stationed, paid by Awadh via annual subsidy (handout joke: 'thank you Dupleix 42–54 for the 1751 idea at Hyderabad')

→ Formal SA with Awadh 1801 (army disbanded, foreign policy taken); prelude to Wellesley 98–05's SA (Ch 11)

Feature	Awadh 1765 (mini)	Awadh 1801 (formal)
British Resident	Yes	Yes
Military alliance	Yes	Yes
EIC army stationed	Yes	Yes
Subsidy paid	Yes	Yes
Awadh's own army	Reduced, not disbanded	Disbanded
⚡ External sovereign functions (D, L, FA)	Not taken	Taken

Trap: 'Awadh first to sign a Subsidiary Alliance' is FALSE: first = Hyderabad 1798. 📌

🌐 Clive 57–67's toolkit (one treaty)

→ Indirect Rule (Bengal Nizamat)

→ Ring Fence (Awadh)

→ mini Subsidiary Alliance (Awadh). Learn as a set with their places; Wellesley 98–05 built on them.

🎯 18TH-CENTURY BATTLES PYQ 2005

📖 Story link · beat 11: Last scene: line up the 18th-century battles. Two French battles frame two English ones.

No.	Year	Battle	Outcome
0 (board)	1746	Adyar	1st CW: French vs Carnatic
1	1749	Ambur	Dupleix 42–54 beats Anwaruddin; opens 2nd CW
2	1757	Plassey	Clive 57–67 + Jafar's conspiracy beat Siraj 56–57
3	1760	Wandiwash	Eyre Coote crushes Lally; ends 3rd CW
4	1764	Buxar	Munroe beats Qasim + Shuja 54–75 + Shah Alam II 60–06

Prelims 2005 (b) Ambur, Plassey, Wandiwash, Buxar. Method: write the year over each battle in option (a): 1760, 1764, 1749, 1757, then pick (b). Two French battles frame two English: French high at Ambur, out at Wandiwash; EIC political breakthrough Plassey, sovereign breakthrough Buxar. Handout slip 'Siraj56–5756–57' = Siraj 56–57. ⭐

Feature	Plassey (23 June 1757)	Buxar (1764)
💡 Nature	No real battle: conspiracy	First real EIC military victory; closely fought
Commander	Clive 57–67	Hector Munroe
Indian side	Siraj 56–57; army did not fight	Qasim + Shuja 54–75 + Shah Alam II 60–06
EIC got	Domination, puppet, plunder	Diwani of Bengal, Bihar, Orissa (legal)
Wealth	Illegal plunder	Drain a legal right

1600 31 Dec: trade income begins (only income till 1765)

1612 Suvali

1613 Surat Farman

1615–19 Roe

1618 Farman

1691 Duty-free Rs 3,000

1717 Royal Farman; MQK 17–27

1727 Shuja-ud-din 27–39

1739 Sarfaraz

1740 Alivardi 40–56

1746 Adyar

1749 Ambur

1750 Private trade 1,00,000 pounds

1751 Bengal stops tribute

1754 Imad-ul-Mulk blinds Ahmad Shah Bahadur 48–54

1755 Fort William fortified

1756 Seven Years' War; Siraj takes Calcutta; Black Hole

1757 Alinagar; Plassey

1759 Alamgir II 54–59 murdered

1760 Qasim replaces Jafar; Wandiwash

1761 Shah Alam II attacks Bengal; Rohillas hold Delhi

1763 Qasim defeated; Jafar back

1764 Buxar

1765 ToA

1770 Famine

1772 Direct Rule

1775 Benaras

1798 Hyderabad SA

1801 Awadh SA

Recall drill: cover and answer

Four Farmans?	1613 Surat (Jahangir 05–27); 1618 whole empire (Roe); 1691 DFT Rs 3,000 (Subahdar); 1717 Magna Carta (Farrukhsiyar 13–19, Hamilton)	1717 Farman rights and MQK 17–27's response?	DFT allowed (no Dastak misuse); Mint refused; 38 villages rent not purchase
Interloper vs free merchant vs Dastak?	Interloper breaks Charter; free merchant legal; Dastak misuse breaks Indian customs law	Black Hole numbers?	Holwell 146 / 123; modern 30–40; monument shifted to St John's 1940
Plassey in one line?	23 June 1757: Mir Jafar 57–60 (Bakshi) kept army out; conquest without rule	Plunder amounts?	2,75,000 pounds Royal army; Clive 2,34,000 + jagir 35,000; EIC Rs 2.25 crore; 2.5 million pounds gifts 1757–65
Buxar sides and ToA?	Qasim + Shuja 54–75 + Shah Alam II 60–06 lost to Munroe; ToA 1765: Diwani, Rs 26 lakh, Allahabad + Kora, Awadh 50 lakh	Dual Government?	1765–72: Diwani EIC, Nizamat Nawab, Md Reza Khan; ended after 1770 famine (1 crore dead)
Clive 57–67's toolkit?	Indirect Rule, Ring Fence, mini Subsidiary Alliance	Order of battles (Prelims 2005)?	Ambur 1749, Plassey 1757, Wandiwash 1760, Buxar 1764

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

GDP = Gross Domestic Product — Total value of goods and services produced within a country in a year

GST = Goods and Services Tax — Common indirect tax on goods and services; policy by the GST Council (Art 279A)

CM = Chief Minister — Head of a State government

NATO = North Atlantic Treaty Organization — Western military alliance formed in 1949

DFT = Duty-Free Trade

SUBSIDIARY ALLIANCE

PYQ Prelims 1999, 2018 (two), 2020, 2021 (two) · Mains none on slides (hooks only)

Money rules the story. High war cost led to the 1784 ban on conquest; Wellesley 98-05 got round it with the Napoleon threat and the Subsidiary Alliance (control without annexation); high war cost then got him recalled.

THE STORY FIRST (same story as the textbook)

Money rules the chapter: high war expenditure produced the ban on conquest (1784), Wellesley 98–05 got round the ban with the Napoleon threat and the Subsidiary Alliance (control without annexation), and high war expenditure again got him recalled.

1. **Three brothers, one mission.** Richard Wellesley 98–05 became Governor General in 1798, an empire builder. Brother Arthur commanded the 33rd Foot (Royal, not EIC); Henry did administration and diplomacy. He founded Fort William College in 1800.
   → But Richard has a legal problem: conquest is banned.
2. **The money rule.** GBF 1770 led to bankruptcy in 1772 and the Regulating Act 1773. Wars (1775–82, 1780–84) cost money, so Pitt's India Act 1784 banned conquest. Richard needed a big threat.
   → So Richard needs a threat big enough to justify fighting.
3. **Napoleon knocks at Egypt.** Napoleon attacked Egypt in 1798 and was in contact with Tipu 82–99. Wellesley 98–05 overhyped the threat; Britain's navy was superior. The British State agreed anyway, wanting a cheaper path.
   → But the British State agrees anyway, and wants a cheaper path.
4. **The middle path.** Britain wanted no risks. Wellesley 98–05 offered the Subsidiary Alliance: control without annexation. The idea was older: Dupleix 42–54 at Hyderabad in 1751 and Clive 57–67 at Awadh in 1765.
   → Now Wellesley 98–05 turns the idea into a policy, written down.

5. **The model treaty.** Wellesley 98–05 wrote it as a model treaty. The EIC gets five things: Resident, military alliance, State army disbanded, subsidy, Foreign Policy. The ruler gets two: protection, non-interference.
→ So why would any ruler sign?

6. **Why rulers walked in.** Rulers signed for protection against revolts and neighbours, a subsidy cheaper than annexation, royal dignity and help in succession disputes. The teacher tags the fifth as FACTIONALISM.
→ But once signed, the chain starts to bite.

7. **The vicious chain.** The chain: the State army is disbanded, the EIC army grows, the subsidy rises, taxes rise, peasants revolt, land is taken for cash, and no alliances remain. Control without annexation bites.
→ Let us see who signed, and why.

8. **The signing spree, 1798–1805.** Hyderabad signed first in 1798, Mysore 1799, Awadh 1801, Gaikwad and Peshwa Bajirao II 96–18 in 1802, Scindia 1803, Jats, Rajputs and Bundelas 1803–05, Travancore 1805.
→ But some land was not left to alliances at all.

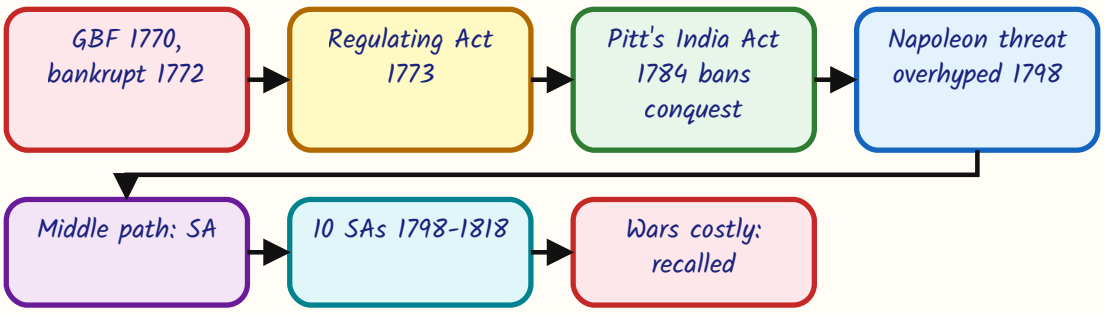

9. **Land taken outright.** Wellesley 98–05 also annexed: Mysore land 1799, half of Awadh 1801, the Carnatic 1801. In the 2nd Anglo-Maratha War (1803–05) Bhonsle lost Orissa and Scindia lost Delhi.
→ But every war costs money.

10. **The bill, and the recall.** Wars cost money again: 4th Anglo-Mysore War 1799 and 2nd Anglo-Maratha War 1803–05. Wellesley 98–05 was recalled to London. Travancore 1805 was his last SA.
→ The last two signatories come under his successor.

11. **The last two of ten.** Under Francis Hastings 13–23 came the last two: Bhonsle 1816 and Holkar 1818. Ten SAs in 20 years: eight under Wellesley 98–05, two under Francis Hastings 13–23.

Cast: Richard Wellesley 98–05 = The Empire Builder · Arthur Wellesley = The Royal Soldier · Henry Wellesley = The Diplomat · Napoleon = The Overhyped Threat · Tipu 82–99 = The Suspected Ally · Dupleix 42–54 = The French Pioneer · Clive 57–67 = The British Pioneer · John Shore 93–98 = The Obliging Governor · Sadat Ali Khan II = The Defaulter · Bajirao II 96–18 = The Fugitive Peshwa · Appa Sahib = The Regency Claimant · Wajid Ali Shah = The Starkest Example · Md Ali 52–95 = The Loyal Ally

At a glance: money rules the chapter

WHAT THE NAME MEANS

📖 **Story link · beat 1:** Story so far: the whole chapter is one unequal treaty, control without annexation. Ask who is on top.

Word (teacher's order)	Meaning	Picture	Example
1 Alliance	Between equals	Level line	Treaty of Amritsar 1809: Sikh and EIC on same level
2 Subordinate	One party's rights less respected	Line sloping down EIC to Indian State	1798: EIC above, Hyderabad below

Board title additions: 'Richard' above the surname (Governor General = Richard Wellesley 98–05); 'Subordinate' under Subsidiary: read as Subordinate Alliance; [BRO: ARTHUR (Br Royal Military), HENRY (eic)]. Chapter = an unequal alliance + three brothers. ⭐

🎯 WHO WERE THE WELLESLEYS? PYQ 2018 PYQ 2020

📖 Story link · beat 1: Because the chapter is a family story, meet the three brothers first. Now Richard has a legal problem: conquest is banned.

Brother	Role
Richard Wellesley 98–05	Governor General of Bengal 1798–1805; empire builder (raised profile with nationalistic British public for political ambition); joined by both brothers
Henry Wellesley	EIC administration + diplomacy; imposed full SA on Awadh 1801
Arthur Wellesley	Military commander, NOT an EIC officer: commissioned in the British Royal Army, 33rd Regiment of Foot (infantry); 4th Anglo-Mysore War (1798–99) incl. Seringapatam 1799; 2nd Anglo-Maratha War (1803–05) incl. Assaye 1803; fought Napoleon 1808–1815

Fort William College, Calcutta, 1800, founded by Richard Wellesley 98–05 (not Arthur) to train British civil servants in Indian languages, laws and customs before district postings. Teacher keywords: empire builder, Calcutta 1800, train British civil servants, Indian languages, laws. Tested Prelims 2018 (founder pair), 2020, 2021 (purpose). ⭐

Two European armies (3rd CW 1756–63 till 1858)

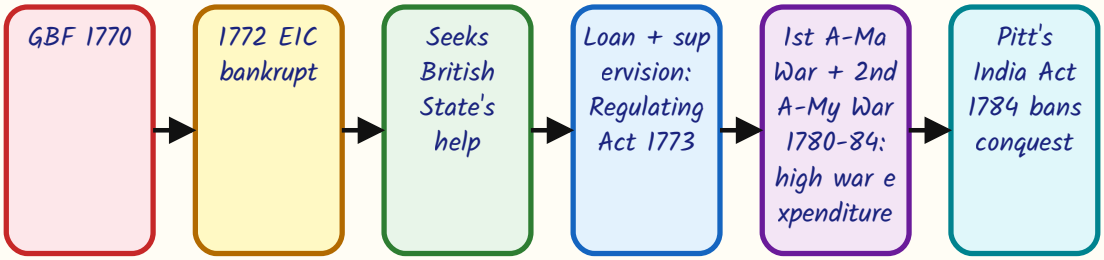

- **Company's Army** → EIC's own private military, majorly Indian sepoys + some European; senior officers always British
  → Paid by EIC
- **King's Army (Royal Military)** → British State's regiments sent to support EIC
  → EIC reimbursed the British State
- → Distinct legally, fought together: British State cannot escape responsibility for empire building (Royal help since 3rd CW)

Arthur's verdict: Marathas = the most formidable enemy he faced; Assaye 1803 = toughest fight of his career. Mains line: had India not been a fragmented polity (one State over all India) it would not have been colonised. ✅

📜 PITT'S INDIA ACT 1784 AND THE NAPOLEON THREAT

📖 Story link · beat 2: Because conquest cost money, Parliament banned it in 1784. Wellesley 98–05 still goes to war with an overhyped threat and a middle path.

📜 Why Pitt's India Act was passed (board)

Aspect	Detail
Ban	Pitt's India Act 1784 (British Parliament, PM William Pitt): GG cannot START an offensive war without express command of the Court of Directors or the Board of Control (later chapter)
Exception	War in defence
Reason	High war expenditure; core goal of 1773: no waste of British taxpayers' money

Wars that drained	Three Carnatic Wars 1746–63, Buxar 1764, two Anglo-Mysore wars (1767–69, 1780–84), 1st Anglo-Maratha War 1775–82
⚡ Mandated instead	Diplomacy: Policy of Indirect Rule + balance of power among Indian States

Handout recall: the Mughals' pacifist policy after 1707 was also for the cost of war. 💡

⚠️ Napoleon threat: there, but not real PYQ 2018 PYQ 2021

→ Napoleon attacked Egypt 1798 (control Middle East, hurt British trade), in contact with Tipu 82–99

→ Wellesley 98–05 overhyped it to re-initiate conquest; real = high chance, unreal = low chance; British navy superior, French fleet through Arabian Sea would be destroyed (British already burnt French ships in the Mediterranean, army stranded)

→ British State agreed anyway: protecting India from European rivals = primary foreign-policy goal, no risks

→ Middle path = SA = control w/o annexation: without cost, without administrative burden, without symbolism of annexation

Prelims 2018/2021 option (b) 'Napoleonic danger' is TRUE (danger was there, not real). Do not mark it false.

Prelims 1999 (c) Wellesley 98–05. Trap: two Hastings: Warren Hastings 73–85 (GG 1773–85, pre-Napoleon) and Francis Hastings 13–23 (Lord Hastings, post-Napoleon, after 1815). Cornwallis 86–93 quiet phase. Wellesley's 1798–1805 overlaps Napoleon's offensive phase (1796–1812, handout); board gives 1799–1815. Board: codes by century 1700s / 1800s, 'high', 'SA' over My + Ma. Bank key says (a): a key error; use (c). Code beside (d) '13–93' is a slip: use 13–23.

TWO ROOTS OF THE SA

📖 Story link · beat 4: Because the Subsidiary Alliance was not invented in 1798, ask who used the template first: Dupleix 42–54 or Clive 57–67.

Feature	French root: Dupleix 42–54, Hyderabad 1751	British root: Clive 57–67, ToA 1765 Awadh
Occasion	Salabat Jung 51–62 Nizam with French backing	Treaty of Allahabad (1765)
Army	French force under Bussy stationed	EIC army in Awadh
Paid by	Northern Sarkars revenues	Subsidy from Awadh
Ruler's army	Not stated	Reduced, not disbanded
⚖️ Man at court	Foreign adviser who establishes indirect rule	British Resident

Invention vs policy: SA was NOT Wellesley 98–05's invention, but he initiated the Policy of Subsidiary Alliance: policy = premeditated, formalised plan; he made a written treaty, took Foreign Policy explicitly, disbanded the State's army, applied State by State. 'Wellesley invented the SA' = wrong; 'initiated the Policy' = right. ⭐

🎯 THE MODEL TREATY AND ITS LEGAL LOGIC PYQ 2018 PYQ 2021

📖 Story link · beat 5: Because the idea became a policy, the treaty was written down: five for the EIC, two for the ruler.

Part of sovereignty	Contains	Holder under SA
Symbolic Sovereignty	Throne + title	Indian king
⚡ External Sovereign Functions: D, C, FA	Defence, Communications, Foreign Affairs	Taken by EIC
⚡ Domestic Sovereign Functions	Home, Finance, Transport, Agri, Health etc (L15 board: Fin, Home, Admin, Health etc, infra)	Indian king

Same split in Mughal words: Diwani = civil admin + finance; Nizamat (minus Military) = criminal jurisdiction. Summary: MILITARY and Foreign Policy with EIC; rest of Nizamat, Diwani, Symbolic Sovereignty with the king. Under Def: EIC maintains army but takes money = SUBSIDY = Def BD (decided by EIC). 'Power to' circled L, E, J not expanded on board; learn the idea, not the domestic list.

#	What the EIC got (5)	Fine print
1	British Resident permanently at court, ruler = puppet	Elements 1 + 2 of PoIR, not yet 3: promise of non-interference seldom kept; treaty breached often
2	Formal military alliance	Military maintained for the State can be used for British India too
3	State's own army disbanded, EIC-maintained army permanently stationed	
4	Annual subsidy funds this army	Technically State-owned army, EIC maintains; ownership lost via term 5
5	Foreign Policy taken	War and peace, diplomacy, defence budget, foreign trade; GG's consent for any European at court; consult GG before negotiating with any Indian State or foreign power; subsidy decided by EIC

FARMS — Foreign policy · Army replaced · Resident · Military alliance · Subsidy: the five EIC terms (the EIC farms the State) (own mnemonic)

What the ruler got (2)	Term
1	EIC protection against neighbours + domestic threats
2	Promise of non-interference in internal affairs: succession, Diwani, Nizamat (minus military)

Imbalance: ruler gets 2 promises, EIC takes 5 levers; promise broken via the Resident: 'creeping PoIR through the back door'. Compare Dual Government 1765–72: Bengal split ended 1772 (Nawabs symbolically continued into 19th C); SA repeats the split State after State.

Why EIC took Foreign Policy: legal logic

→ EIC maintains army with the State's own subsidy: loophole = ownership + right to deploy still with ruler

→ Foreign Policy = decision of war and peace: loophole closed, right to deploy now with EIC

→ Subsidy = Def BD earmarked for army, NOT surplus income (handout) though EIC commanded it

Formula: PoSA = PoIR (informally) + PoRF + EIC military replacing the State's military + annual subsidy + loss of Foreign Policy. Mini SA ToA 1765 (Awadh) was only 'mini': army not disbanded, Foreign Policy not taken; proper SA with Awadh 1801.

Option (Prelims 2018/2021)	Mark	Tag
(a) Maintain large standing army (at others' expense)	T	BALI, FREE of ARMY
(b) Keep India safe from Napoleonic danger	T	THREAT: REAL or UNREAL
(c) Secure fixed income for Company	F	subsidy not income
(d) Establish British paramountcy	T	LOSS of D, C, FA; SUPREMACY

Answer (c) in both 2018 and 2021 (T-T-F-T drill). Subsidy earmarked for army, not surplus income. 'Bali of Ramayana' analogy = SA led to military power shift (story told orally; check class notebook).

THE VICIOUS CHAIN: 7 LINKS

📖 Story link · beat 7: Because the EIC held the army and Foreign Policy, the chain of harm followed.

#	Link	How
1	Disbanded armies = mass unemployment	Mansabdars lost their military role (teacher corrects 'positions'), sepoys lost livelihood; EIC recruited sepoys from outside the State (Divide and Rule: less keep Bengal sepoys in Bengal Army)
2	EIC's free army	EIC commands, can deploy elsewhere (Foreign Policy); EIC armies = State army maintained by subsidy + EIC's own army; every SA = free-of-cost increase
3	High, rising subsidy	Drain of Wealth; money could have funded the State's development
4	Tax hikes	Rulers unpopular, peasant resentment, peasant revolts
5	Maladministration charge	Ruler no power but all responsibility; Resident often breached non-interference; Wajid Ali Shah, Awadh annexed 1856
6	Territory in lieu of cash	1801 half of Awadh; 1853 Berar from Hyderabad; 'Thanks, Dupleix 42–54' (Northern Sarkars 1751); subsidy = tool of empire building
7	No alliances possible	SA = Divide and Rule at subcontinent level; every signatory annexed or permanently dependent

Takeaway: EIC got all military + diplomatic power with no responsibility of ruling and no financial burden. ✅

WHO SIGNED AND WHY

📖 Story link · beat 8: Because the harm was slow, many rulers signed willingly or after a war.

#	Why rulers walked in willingly (5)	Meaning
1	Protection vs internal revolts	EIC army inside palace = insurance vs rivals / mutinous nobles
2	Protection vs external threats	Feared Maratha Chauth, Mysore, Rohilla more than distant British
3	Better than annexation	Subsidy cheaper than annexation / losing war
4	Royal dignity preserved	Title, court, ceremony; flag flew
5	Winning succession disputes	Board: FACTIONALISM; EIC made military help conditional on signing

#	Year	State (treaty)	Circumstances	GG
1	1798	Hyderabad (first)	Nizam signed for protection vs Marathas + Mysore	Wellesley 98–05
2	1799	Mysore (Wodeyars)	After 4th Anglo-Mysore War (1798–99); Tipu 82–99 killed at Seringapatam; Wodeyars restored on subsidiary throne	Wellesley 98–05
3	1801	Awadh	Sadat Ali Khan II defaulted; Henry Wellesley imposed full SA; half annexed	Wellesley 98–05
4	June 1802	Gaikwad of Baroda (Treaty of Cambay)	EIC help in Gaikwad succession dispute	Wellesley 98–05
5	Dec 1802	Peshwa Bajirao II 96–18 (Treaty of Bassein / Vasai)	Beaten by Yashwantrao Holkar, fled, signed to regain Peshwaship	Wellesley 98–05
6	1803 (or 1804, board)	Scindia of Gwalior	Forced, 2nd Anglo-Maratha War (1803–05)	Wellesley 98–05
7	1803–05	Jats, Rajputs, Bundelas (group entry)	Forced in 2nd A-Ma War; earlier paid Chauth + Sardeshmukhi to Marathas, now subsidy to EIC	Wellesley 98–05
8	1805	Travancore	EIC help crushing Nair troops' mutiny (unpaid salary); last under Wellesley 98–05 before recall	Wellesley 98–05
9	1816	Bhonsle of Nagpur (Treaty of Nagpur)	Appa Sahib signed using EIC backing in regency faction fight (resisted over a decade after 2nd A-Ma War)	Francis Hastings 13–23
10	1818	Holkar of Indore (Treaty of Mandsaur)	Forced after defeat in 3rd Anglo-Maratha War (1817–19)	Francis Hastings 13–23

Count conflict: typed slides/handout say Nine (first seven under Wellesley 98–05); board corrects to TEN and 8. Use 10 SAs in 20 years (1798–1818); 8 under Wellesley 98–05, 2 under Francis Hastings 13–23. Only if a question counts just named States is it nine. Dates: Scindia 1803 or 1804 (inside 2nd A–Ma War); 4th A–My War '1798–99' in Sec 1 and 6, '1799' in Sec 7 and Ch 7; Seringapatam 'Siege' vs 'Battle' = same event. Handout heading typo 'Nine'.

Board lessons: Hyderabad/Mysore: had India had one common centre (one State over all T) this would not have happened; (IR) enemy/rival should not be ONE (reading: Indian States many, EIC one; check notebook); Mysore: 'Don't lose WARS'. First: Hyderabad 1798; last under Wellesley 98–05: Travancore 1805; last of all: Holkar 1818. Empire builders in time order: Clive 57–67, Wellesley 98–05 (18th c); F. Hastings 13–23, Dalhousie 48–56 (19th c; Dalhousie = Ch 14).

Maratha power post 1761	Tag	Proof
Peshwa (Bajirao II 96–18)	Factionalism	Beaten by Yashwantrao Holkar (avenging his brother), signed Bassein Dec 1802
Scindia (Gwalior)	War	2nd A–Ma War
Holkar (Indore)	War	3rd A–Ma War, Mandsaur 1818
Bhonsle (Nagpur)	Factionalism	Appa Sahib, regency (N vs N), 1816
Gaikwad (Baroda)	Factionalism	Cambay June 1802

Factionalism = rival groups fighting over who rules (here regent of Nagpur). Scindia and Bhonsle read Bassein as a Peshwa selling the Confederacy to the British: 2nd A–Ma War followed (Ch 13). Two Treaties of Bassein: 1739 (Marathas + Portuguese; Bassein + Salsette) and 1802 (Peshwa + EIC): know both names Bassein/Vasai.

Awadh 1798–1801

→ 1798 Sadat Ali Khan II (uncle) offered Rs 76 lakh annual subsidy if John Shore 93–98 removed nephew Wazir Ali (1797–98); Shore obliged

→ 1801 defaulted; Henry Wellesley imposed full SA; half annexed as permanent subsidy: Doab, Gorakhpur, Rohilkhand; revenue = twice the Rs 76 lakh (unfair, handout)

→ Ceded Districts; 1836 NWP full province; 1856 rest annexed (Wajid Ali Shah, maladministration); 1877 both merged

→ Rohilkhand: most annexed by Awadh with EIC help 1774 (ToA 1765 alliance); small part = Rampur (under Awadh, from 1801 EIC legally)

→ Nawab list: Sadat 22–39, Safdar Jung 39–53, Shuja 54–75, Asaf-ud-Dowla 75–97, Wazir Ali 1797–98, uncle Sadat II Ali Khan 1798+

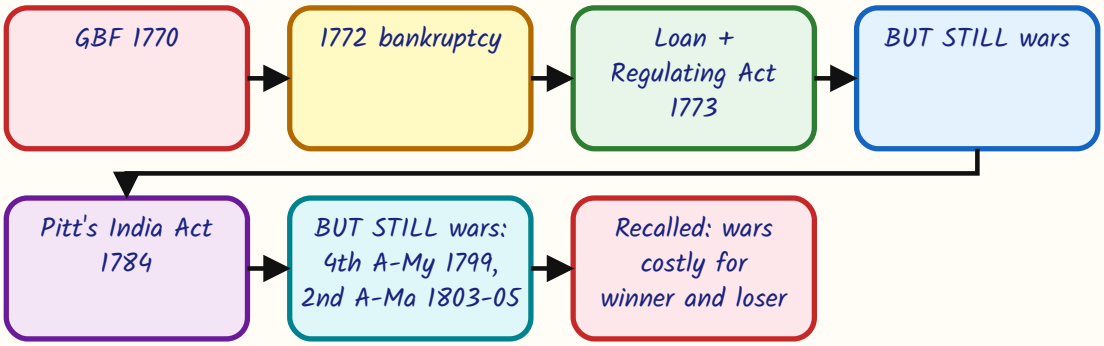

Not a conflict: 'whole' vs 'half' Awadh: 1801 = half (Ceded Districts), 1856 = remainder. Never write 'Awadh annexed 1801' for the whole State.

DIRECT ANNEXATIONS AND RECALL

📖 Story link · beat 9: Because alliances were not enough, land was also taken, and wars again cost money: recall.

When	Territory	Reason / teacher's context
1799	Mysore territory	4th A-My War; to Madras Presidency
Early 1801	Half of Awadh (Ceded Districts)	Permanent subsidy payment; subsidy as tool of empire building
1801	Carnatic	Maladministration, 6 years after Md Ali 52–95 (1752–1795; loyal ally since 2nd CW) died; context (not on record reason): Nawab had taken many loans from EIC and officers = financial maladministration. Mains: ground maladministration, background heavy debts
1803–05	2nd A-Ma War: Bhonsle	Lost significant territory incl. Orissa (taken from Bengal 1751)
1803–05	2nd A-Ma War: Scindia	Lost Gujarat territory + all north of Yamuna incl. Delhi ('Now PoIR in Delhi', '[1771–1803]' unclear)

Why Wellesley 98-05 was recalled

Empire building paid only if wars were short and cheap; his were neither. Wars hurt the economy of both sides (IR note). ✅

Recall drill: cover and answer

Meaning of Subsidiary Alliance?	Subordinate Alliance: EIC on top; Amritsar 1809 = alliance of equals	Wellesley brothers?	Richard GG 98–05; Arthur Royal Army 33rd Foot (Seringapatam, Assaye); Henry administration + diplomacy
Fort William College?	Calcutta 1800, Richard Wellesley 98–05, train British civil servants in Indian languages, laws, customs	Pitt's India Act 1784?	No offensive war without Court of Directors / Board of Control; defence only; because of war expenditure
Five EIC terms (FARMS)?	Foreign policy, Army replaced, Resident, Military alliance, Subsidy	Two ruler terms?	Protection; non-interference in succession, Diwani, Nizamat (minus military)
Which option is false (2018/2021)?	(c) secure fixed income; subsidy is for the army	Seven-link chain?	Unemployment, free army, drain, tax hikes, maladministration, territory for cash, no alliances
How many SAs and under whom?	10 in 1798–1818: 8 Wellesley 98–05, 2 Francis Hastings 13–23	Awadh dates?	1801 half (Doab, Gorakhpur, Rohilkhand; NWP 1836), 1856 rest, 1877 merged; Berar 1853

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)
BRO = Border Roads Organisation — Builds roads and bridges in border areas
PM = Prime Minister — Head of the Union government

ANGLO-MYSORE WARS

PYQ Prelims 2001, 2004 (partial), Pollilur (year not named) · Mains: "Why Indian States lost?" (150 or 250 words, teacher focus, no year)

✎ *Mysore built a war machine and a trading State that scared every neighbour, so the EIC kept building coalitions. Four wars took Mysore from winning to losing; then the Carnatic was annexed, Travancore tied by an SA, and the south was the EIC's by 1809.*

📖 THE STORY FIRST (same story as the textbook)

Mysore built a war machine and a trading State that frightened every neighbour, so the EIC kept building coalitions against it; across four wars Mysore went from winning to losing, and with its fall the Carnatic was annexed and Travancore was pulled into a Subsidiary Alliance, completing the south by 1809.

1. **A State that frightened everyone.** Hyder Ali 61–82 and Tipu 82–99 used Military Fiscalism: maximise revenue for a stronger army. France gave arms for trade; Tipu ran a State trading company. Four neighbours feared Mysore.
   → So in 1766 the EIC and its friends moved.
2. **1766: the first alliance.** Hyder Ali 61–82 annexed Malabar and Calicut in 1766. The EIC and Hyderabad signed the Treaty of Hyderabad, the EIC getting the Northern Sarkars; the Marathas joined, a triple alliance.
   → But Hyder knew how to buy a coalition apart.
3. **The bribe and the gates of Madras.** Hyder paid the Marathas Rs 35 lakh and the Nizam Rs 20 lakh to break the alliance. In 1769 he reached Madras's gates. Treaty of Madras: territories returned. Mysore won.
   → But a defensive alliance is only as good as who attacked whom.
4. **A promise broken.** In 1771 the Marathas attacked Mysore and the EIC refused help, so the 1769 alliance was empty. In 1779 the EIC seized Mahe, Hyder's French arms route.
   → Hyder struck back in 1780.
5. **Pollilur and the Confederacy.** Hyder invaded the Carnatic. At Pollilur 1780 his rockets destroyed Baillie's force. Nana Fadnis built a Triple Confederacy of Marathas, Mysore and Hyderabad (1780–82).
   → Warren Hastings answered with diplomacy.
6. **Hastings splits the coalition.** Warren Hastings 73–85 returned Guntur to Hyderabad and signed Salbai 1782 with the Marathas. Mysore was alone. Hyder died; Tipu 82–99 ended it at Mangalore 1784, a stalemate.
   → Tipu kept growing, and the EIC found a pretext.
7. **The Travancore trigger, 1790–92.** Tipu 82–99 attacked Travancore, an EIC ally; Cornwallis 86–93 declared war with the Marathas and Hyderabad. Seringapatam 1792: Tipu lost half his Kingdom, paid 3 crore, gave two sons.
   → Seven years later came the last war.
8. **Napoleon and the fall, 1799.** Tipu 82–99's talks with Napoleon gave Wellesley 98–05 his pretext. Hyderabad fought under its SA of 1798. Tipu died at Seringapatam; the Wodeyars returned under an SA.
   → So why did Mysore lose?
9. **Four reasons and one answer.** Mysore lost for four reasons: no stable alliance, a French naval gap, Military Fiscalism over-extension, and a Seringapatam three armies could surround. It fought well but largely alone.
   → After the fall came the clean-up.
10. **Clean-up in the south.** Dhondia Wagh, with soldiers disbanded under the SA, raided until Arthur Wellesley killed him in 1800. In 1801 Wellesley 98–05 annexed the Carnatic for debts and secret contact with Tipu 82–99.

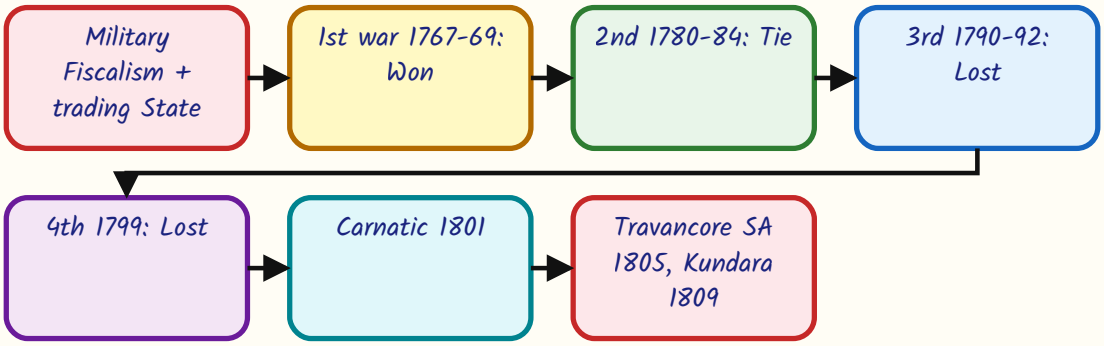

→ One southern State was still outside: Travancore.

11 **Travancore pays for help.** Marthanda Varma 29–58 beat the Dutch at Colachel 1741. Rama Varma 58–98's EIC alliance hedged against Mysore; the 1805 SA with Wellesley 98–05 was the price of crushing a Nair revolt.
→ The price proved unbearable.

12 **Kundara, 1809.** Velu Thampi Dalawa rose against the subsidy and interference with the Kundara Proclamation (January 1809). It was crushed. With Cochin's SA, the EIC was paramount from the Krishna to Kanyakumari.

Cast: Hyder Ali 61–82 = The Diplomat-General · Tipu 82–99 = The Modernising Sultan · Nana Fadnis = The First to See · Warren Hastings 73–85 = The Splitter · Cornwallis 86–93 = The Pretext-User · Wellesley 98–05 = The Empire-Builder · Arthur Wellesley = The Man at the Siege · Colonel Baillie = The Burned Colonel · Md Ali 52–95 = The Debtor Nawab · Dhondia Wagh = King of Two Worlds · Marthanda Varma 29–58 = The Colachel Victor · Rama Varma 58–98 = The Hedger · Velu Thampi Dalawa = The Proclaimer · Krishnaraja III = The Boy King

At a glance: the route

🗺 WHY INDIAN STATES LOST (MAINS, TEACHER FOCUS)

📖 Story link · beat 1: Story so far: the title board gives the one Mains answer and the skeleton the wars will fill in.

🗺 'Why Indian States lost?' (150 / 250 words)

→ (1) Why multiple States? each had motive T (territory), so rivalry; rivals do not form a stable alliance of Indians

🗺 (2) Why lose territory + sign SA? 3 branches

→ Factionalism (Indians split)
→ War defeats + fear of neighbours (Hyderabad joined EIC for protection, Ch 11)
→ Internal revolts (Travancore)

→ (3) EIC's opportunity: Better leadership + Better army (last line '(4)#' unreadable)

Answer frame: Intro ~25 words: States many, each pursued territory, rivals, no stable alliance; EIC better leadership + army, used diplomacy and war. Body: (1) Factionalism: Mysore's expansion made Marathas, Hyderabad, Travancore, Carnatic anxious, so triple alliances 1766–67 and 1790; Hastings 73–85 broke Triple Confederacy by settling each partner (Guntur to Hyderabad, Salbai with Marathas). (2) War defeats + fear: Malabar, Dindigul, Baramahal 1792; Kanara, Coimbatore 1799; Hyderabad first SA 1798, no choice but to fight Mysore. (3) Internal revolts: Travancore SA 1805 to crush Nair mutiny, Kundara 1809; demobilised Mysore soldiers fed Dhondia Wagh 1799–1800. 250 words: add Carnatic (Debts, annexation 1801) + Military Fiscalism 'BUT' point; 150: intro + 3 branches in 1–2 sentences. Close: Mysore fought well, but largely alone; by 1809 EIC paramount Krishna to Kanyakumari. ✅

EIC wars in course order (board): Plassey 1757, Buxar 1764 (Ch 10); 1st Anglo-Mysore 1767 to 4th 1799 (this chapter); 1st Anglo-Maratha 1775 to 3rd 1817–19 (Ch 13); 1st Anglo-Sikh 1844–45 to 2nd 1849. 💡

War	Years	Result (teacher)	Treaty	Territory
1st	1767–69	Won by Mysore	Madras 1769	No Mysore loss
2nd	1780–84	Tie (handout: stalemate); Fr FACTOR	Mangalore 1784	No Mysore loss
3rd	1790–92	Lost	Seringapatam 1792	Huge loss: gains to Madras Presidency, Marathas, Hyderabad
4th	1799	Lost; Fr FACTOR	Mysore reorganised under SA 1799	Huge loss

WTLL — Won · Tie · Lost · Lost: the four Anglo-Mysore wars (board: 'Won, Tie, Lost, Lost')

Board: first two wars cost no territory; last two huge territory. 2nd began when EIC seized French port Mahe (1779); 4th when Tipu 82–99's talks with Napoleon gave Wellesley 98–05 his pretext = 'Fr FACTOR'.

⚠️ WHY MYSORE WAS A THREAT

📖 Story link · beat 1: Because Mysore built a war machine and a trading State, it frightened the EIC and every neighbour.

💰 Military Fiscalism

→ Military = GOAL, Fiscalism = TOOL: maximise State revenue to fund an ever-stronger military (EIC had followed the same model since 1765)

→ Hyder Ali 61–82 + Tipu 82–99: centralised State, modern military + navy with French help (arms + technical support for trade concessions)

→ Anxiety / RIVALRY at Ma, Hyd, Tr, Ca = Marathas, Hyderabad, Travancore, Carnatic

🗺️ Mercantilist trading State PYQ 2001

→ Tipu 82–99's State-owned trading company entered international trade; rival mercantilist like EIC

→ Late 1780s embargo on pepper, cardamom, sandalwood from Mysore ports; barred merchants from British traders; Malabar (pepper) under Mysore since 1766

→ Mawludi calendar: lunisolar, Prophet's birth era, replacing Islamic Hijri

→ Delegations to France, Turkey (Ottoman), Egypt for anti-British alliances (slide: sought sanad from the Khalifa recognising him independent)

Prelims 2001 (d) Tipu 82–99 Sultan (embassies on modern lines). Not Haider Ali 61–82 (French-model army, no embassies), Mir Qasim 60–63, Shah Alam II 60–06. Takeaway: EIC and Mysore = two entities, same model, same geography; Mysore threatened every neighbour so coalitions were easy.

1ST WAR 1767-69 (MYSORE WON)

📖 Story link · beat 2: Because the threat was real, the EIC and Hyderabad moved in 1766, and Hyder broke the coalition.

Reason

→ Hyder 61-82 modernised army with French help (Mahe); 1755 arsenal at Dindigul Fort

→ 1766 annexed Malabar (+ Calicut), not part of Travancore (Ch 7), spice trade

→ 1766 EIC promised to help Hyderabad invade Mysore for Northern Sarkars (links Bengal + Madras); Treaty of Hyderabad 1766: Sarkars (4 of 5 districts, Guntur kept) for protection + 7 lakh Rs p.a.; Marathas joined: triple alliance EIC + Hyderabad + Marathas (formed twice, 2nd in 1790)

1767
Hyder paid Marathas Rs 35 lakh to exit; allied Hyderabad: Rs 20 lakh, promise Nizam's son Nawab of Carnatic (Md Ali 52-95, EIC ally), joint attack on Carnatic

1768
Hyderabad feared EIC counter-invasion, made peace with EIC

1769
Hyder at gates of Madras; EIC navy from Bombay took coast incl. Mangalore

1769
Treaty of Madras: territories returned; defensive alliance (PoRF only on paper, fake in practice)

Board IR: no permanent friends or enemies. Offensive alliance valid even if a member is aggressor (Pact of Steel 1939, Germany + Italy). Defensive valid only if a member is victim (NATO 1949, SEATO 1954, Baghdad Pact 1955, later CENTO 1958); Pakistan was aggressor in 1965 and 1971, so pacts did not bind. Rule: who attacked whom. 💡

2ND WAR 1780-84 (TIE)

📖 Story link · beat 4: Because the 1769 alliance was empty and Mahe was seized, Hyder struck again and a Confederacy formed.

Reason

→ 1771 Marathas attacked Mysore; EIC refused its 1769 duty

→ 1778 France entered American War of Independence (1776-83; American Revolution 1765-83); 1779 EIC seized French Mahe, Mysore-protected, Hyder's arms route (France to Mahe to Mysore)

Pollilur, September 1780 (tested in Prelims): Hyder took Arcot; iron-cased rockets annihilated Colonel Baillie's infantry: one of the worst European defeats in India. Four tags: Sep 1780, Baillie, iron-cased rockets, Hyder Ali 61-82. ⭐

🎯 Triple Confederacy 1780-82 PYQ Prelims

→ Marathas + Mysore + Hyderabad vs EIC by Nana Fadnis (de-facto ruler, most important minister in Peshwa's council): first Indian statesman to see EIC's empire ambitions ('1st Indian' = Prelims line)

→ Hyderabad joined: EIC illegally held Guntur and stopped the 7 lakh p.a.

→ Reverse of the triple alliances 1766 and 1790

Warren Hastings 73-85 broke it

→ Returned Guntur to Hyderabad

→ Treaty of Salbai (May 1782) with Marathas: ended 1st Anglo-Maratha War (1775-82)

→ Nana ensured Marathas sent no army for the British (handout: Chanakya Neeti, let both rivals destroy each other); Mysore isolated

→ Dec 1782 Hyder died of cancer; Tipu 82-99 continued; Treaty of Mangalore 1784: stalemate, territories returned, status quo

🎯 3RD WAR 1790–92 (LOST) PYQ 2004

📖 Story link · beat 7: Because the 2nd war ended in a tie, the EIC waited for a pretext and rebuilt its alliance.

Reason + events

→ Tipu 82–99 attacked Travancore (EIC formal ally; handout: 1789); Cornwallis 86–93 had the pretext

→ Triple Alliance 1790 EIC + Marathas + Hyderabad (Marathas did not fight in 1782–84); three-front campaign; King of Coorg allied with EIC 1790, guided Cornwallis's army through mountains

Treaty of Seringapatam / Srirangapatnam 1792	Detail
🗺️ Territory	Half the Kingdom: Malabar, Dindigul, Baramahal (EIC land W, SE, far S = encirclement; shares to Peshwa + Nizam)
War fine	3 crore rupees
📝 Hostages	Two of Tipu 82–99's sons

Source conflicts (dates): title and board 3rd war = 1790–92; handout text and flow chart '1789–92' (1789 = Travancore attack). Flow chart also: Marathas paid '30 lakh' (text and slide 35), fine '3.3 crore' (board 3 crore), Malabar among 1799 gains (lost 1792). Chart-only details: Sir Eyre Coote at Porto Novo 1781, 'Congreve rockets and French Risalas' at Pollilur (use iron-cased rockets), Treaty of Bidanur, General Meadows, siege date 4 May 1799, zones to Hyderabad, 'honour-share to Marathas' (text: Peshwa offered land on condition of SA, refused). Use text, slides, board.

4TH WAR 1799: MYSORE FALLS

📖 Story link · beat 8: Because Tipu looked to Napoleon, Wellesley 98–05 found his excuse.

Reason + events

→ Tipu 82–99's talks with Napoleon; Wellesley 98–05 used his secret letters as proof, got British approval (recall PIA 1784; threat there, not real)

→ EIC + Hyderabad fought (Hyderabad no choice: SA of 1798, D, C, FA with EIC); Peshwa Baji Rao II 96–18 sent no army on Nana Fadnis's advice

→ Arthur Wellesley (Royal regiment, no reign code) key commander at the Siege of Srirangapatnam; Tipu died defending his capital

Result 1799

→ Kanara + Coimbatore etc divided between EIC and Hyderabad (1792 gains were Malabar, Dindigul, Baramahal: do not mix)

→ Core to Wodeyars: 5-year-old Krishnaraja III under SA (1799)

→ Some territory offered to Peshwa on condition of SA: Marathas refused (Nana Fadnis)

→ Last major military threat to EIC in the south over

Prelims 2004 (b) Only 3: Tipu died in the 4th war (1799) at Seringapatam, not the 3rd. Board: F on 1, '4th' and F on 2, T on 3. Board side list Abdali, Farukhabad (sic), Rohilkhand, Awadh vs Ma = Third Panipat sides. Slide and handout agree.

🤼 WHY MYSORE LOST

📖 Story link · beat 9: Because the fourth war ended Mysore, ask why: four reasons and one wider answer.

#	Reason	Explanation	Teacher's ink
1	No stable alliance	Expansion + EIC diplomacy	External ally (France) weak; domestic neighbours rivals
2	French naval gap	Dependence on French arms; France busy with American War 1776–83, then Revolutionary Wars 1792–1804; navy no match; no fleet resupplied Mysore	Underlined
3	Military Fiscalism over-extension	War fines (3 crore after 3rd war) drained treasury; EIC relatively rich	Circled 'BUT': strength became weakness
4	Seringapatam open to siege	Three-way coalition surrounded it (1789–92, 1799)	–

Verdict: Cornwallis 86–93 and Wellesley 98–05 judged Mysore too strong and ambitious for Indirect Rule: defeat then subordinate. It fought well and modernised but **largely alone**. ✅

📚 DHONDIA WAGH, TIPU'S RELIGIOUS POLICY

📖 Story link · beat 10: Because the SA disbanded Mysore's army, the jobless soldiers found a leader.

Dhondia Wagh

→ Ex-prisoner of Tipu 82–99 escaped after 1799; mounted force of **demobilised Mysore soldiers** (SA disbanded army); raided Mysore–Maratha borderlands **1799–1800**

→ **'King of Two Worlds'**; threatened EIC supply lines; **Colonel Arthur Wellesley** sent; **killed 1800**; EIC formally supreme in south by **1801**

📚 Tipu 82–99's religious policy (syncretic yet contradictory)

8.1 Patronage, Mysore heartland

→ Sringeri Sharada Math, letters to its Shankaracharya for blessings

→ Yajnas before wars; grants to Hindu temples

8.2 Coercion, Malabar + Coorg

→ Forced conversions of Nairs + Christians in Malabar; destroyed churches + temples

→ **1785 Coorg** brutalities vs **Kodavas** (mountain warriors, no licence needed for certain arms; earlier under Hindu Nayakas)

→ Geography N to S: Mysore, Coorg (Western Ghats), Malabar; Coorg linked Seringapatam to coastal ports

→ **Conclusion:** secularism a **tactic** for domestic stability, not a value (values hardest to change, Psychology)

THE CARNATIC ANNEXED 1801

📖 Story link · beat 10: Because the Carnatic was a debtor to EIC officials, annexation ended a long squeeze.

Carnatic 1801

→ EIC influence since **2nd CW 1749–54** (kept **Md Ali 52–95 Wallajah**); tighter after 3rd CW 1756–63; **annexed 1801**, six years after his death in 1795 (Md Ali 52–95, 1752–1795; Ch 9)

→ **Carnatic Debts:** Nawabs borrowed from private EIC officials at high interest, **Jagirs as collateral**; officials collected LR directly as interest

→ **Two justifications (Wellesley 98–05):** (1) maladministration (board: **'Financial'**) (2) secret communication with **Tipu 82–99** (stressed)

→ A Nawab so compromised not worth preserving even as puppet; annexed outright = direct EIC territory, not SA State

TRAVANCORE AND KUNDARA 1809

📖 Story link · beat 11: Because Travancore hedged with the EIC against Mysore, it paid later, and then rose in 1809.

Travancore before the SA

→ Built by Marthanda Varma 29–58: beat Dutch at Colachel 1741, centralised revenue State

→ Rama Varma 58–98 kept EIC alliance as hedge vs Mysore (Tipu's embargo on pepper) = trigger for 1789 attack = Cornwallis's pretext; died 1798, strain

1795
Treaty of Perpetual Friendship: pay for British force vs Tipu

1800
British Resident at court (imprint of ToA 1765)

1802
Velu Thampi Dalawa PM (to 1809)

1805
SA with Wellesley 98–05, price of crushing revolt by Nair troops (unpaid salary); sovereignty lost on standard template

Jan 1809
Kundara Proclamation: Velu Thampi Dalawa, PM 1802–09, soldiers + peasants vs subsidy + interference (breach of non-interference); crushed within months, he died same year; Travancore subservient SA State

Takeaway: Travancore = worked example of how an SA is extracted (not at sword-point but for internal-security help the Resident may have destabilised). Every Ch 11 consequence (lost military jobs, high taxes, PoIR creeping in) played out in 4 years. Ch 7 has Marthanda Varma's monopoly + Colachel and Malabar 1766; Ch 11 lists Travancore as 8th signatory. ✅

Wording: Kundara = 'one of the most significant early revolts' (text, slide: safer); handout flow chart says 'first organised revolt in south India'.

LEGACY: SOUTH CONSOLIDATED

📖 Story link · beat 12: Last scene: the south is closed, from the Krishna to Kanyakumari.

1799
Mysore falls; Wodeyars under SA

1801
Carnatic annexed outright (EIC formally supreme)

1805
Travancore SA

1809
Kundara crushed; Cochin SA; EIC paramount Krishna to Kanyakumari; stage set for 2nd + 3rd Anglo-Maratha Wars 1803–05, 1817–19 (Ch 13)

Chart-only (not in text): ceded zones Bellary, Cuddapah, Anantapur (to Nizam). Map use: same map shown twice (before 3rd war, after 4th): Mahe + Calicut (French + Malabar spice coast), Pondicherry + Karikal (east), Guntur (N. Sarkars), three dominions dividing Mysore. Seringapatam = capital, Mangalore = port, Coorg between. 💡

1741 Colachel

1755 Dindigul arsenal

1766 Malabar annexed; Treaty of Hyderabad

1767 1st war; Rs 35 lakh

1768 Hyderabad peace

1769 Madras

1771 Marathas attack; EIC refuses

1776 American War

1778 France enters

1779 Mahe seized

1780 2nd war; Pollilur

1780–82 Triple Confederacy

1782 Salbai; Hyder dies

1784 Mangalore

1785 Coorg

1789 Travancore attacked

1790 Triple Alliance; 3rd war; Coorg ally

1792 Seringapatam

1795 Md Ali 52–95 dies; Perpetual Friendship

1798 Rama Varma 58–98 dies; Hyderabad SA

1799 4th war; Tipu dies

1799–1800 Dhondia raids

1800 Dhondia killed; Resident

1801 Carnatic

1802 Velu Thampi PM

1805 Travancore SA

1809 Kundara; Cochin SA

Recall drill: cover and answer

Four wars: result and treaty?	1767–69 Won (Madras 1769); 1780–84 Tie (Mangalore 1784); 1790–92 Lost (Seringapatam 1792); 1799 Lost (SA, Wodeyars)	Military Fiscalism?	Goal military, tool revenue maximisation
Tipu's modern moves (Prelims 2001)?	State trading company, embargo, Mavludi calendar, delegations to France, Turkey, Egypt	Pollilur 1780?	Hyder's iron-cased rockets destroyed Colonel Baillie
Triple Confederacy vs Triple Alliance?	Confederacy 1780–82 (Marathas, Mysore, Hyderabad vs EIC, Nana Fadnis); Alliance 1766–67 and 1790 (EIC, Hyderabad, Marathas vs Mysore)	How Hastings 73–85 broke it?	Guntur back to Hyderabad; Salbai May 1782
1792 terms?	Half kingdom (Malabar, Dindigul, Baramahal), 3 crore, two sons	Why Mysore lost?	No stable alliance, French naval gap, Military Fiscalism over-extension, Seringapatam open to siege
Carnatic 1801?	Debts to EIC officials; maladministration (financial) + secret contact with Tipu 82–99	Travancore sequence?	1795 Perpetual Friendship, 1800 Resident, 1805 SA (Nair mutiny), Jan 1809 Kundara (Velu Thampi Dalawa)

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

PM = Prime Minister — Head of the Union government

ST = Scheduled Tribes — Tribal groups listed under Art 342

NATO = North Atlantic Treaty Organization — Western military alliance formed in 1949

ANGLO-MARATHA WARS 1775–1819

PYQ Prelims 1999, 2004, 2010 · Sitabuldi tested in Prelims (year not given) · Mains: none quoted (two book practice questions: why Marathas lost; SA vs Paramountcy)

✎ *A divided Maratha house kept inviting the EIC in (Surat 1775, Bassein 1802). The Subsidiary Alliance took the Peshwa's army. Paramountcy and the 1816 loophole led to the war that ended the Peshwaship in 1818.*

📖 THE STORY FIRST (same story as the textbook)

A divided Maratha house kept inviting the EIC in (Surat 1775, Bassein 1802), the Subsidiary Alliance then took away the Peshwa's own army, and the EIC's Paramountcy turned the loophole of 1816 into the war that ended the Peshwaship in 1818.

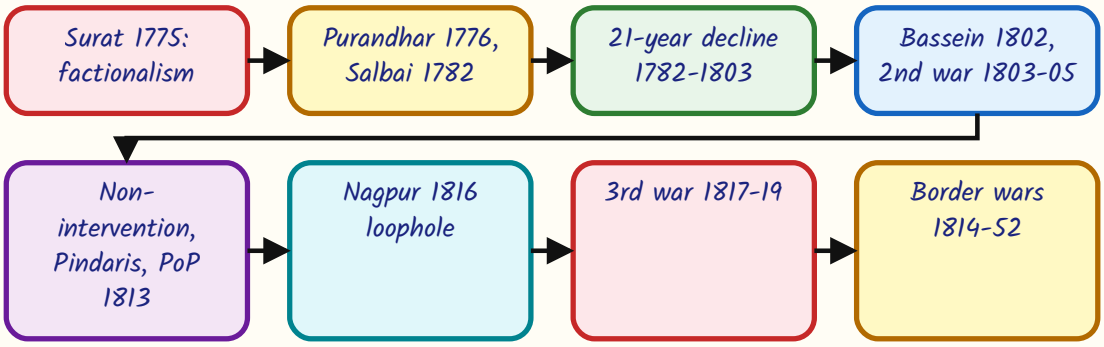

1. **The whole story on one board.** 1st 1775–82: factionalism, Surat 1775 to Salbai 1782. 2nd 1803–05: factionalism, Bassein 1802, Marathas lost. 3rd 1817–19: EIC breached the SA, Marathas lost, Swarajya annexed.
   → So why did the EIC care so much about the Deccan?
2. **Why the Deccan mattered.** The EIC needed the Deccan: long coastline, Gujarat–China cotton trade, Maratha hold on parts of the Malabar coast. The Marathas and Mysore were the last powers able to check it.
   → The first of the three wars began inside the Maratha house itself.
3. **A claimant and a treaty at Surat.** Raghunath Rao 73–74 was removed in 1774 by Nana Fadnis (Baarbhai). He turned to Bombay's Hornby and signed Surat 1775: EIC help for Salsette, Bassein and revenue.
   → But Calcutta did not like the bill.
4. **Warren Hastings cancels, then Purandhar collapses.** Warren Hastings 73–85 cancelled Surat to save cost; Purandhar 1776 with Nana Fadnis recognised Madhav Rao II 74–95. Bombay kept sheltering Raghunath, Nana offered the French a port, war resumed.
   → Now the Marathas gave the EIC a bloody nose.
5. **Wadgaon and the peace of Salbai.** Wadgaon 1779: Nana Fadnis, Mahadji Scindhia and Tukoji Rao Holkar beat the EIC. Both tired, so Mahadji signed Salbai 1782 at Gwalior: territory returned, no French, Madhav Rao II 74–95 recognised.
   → Peace came, but the glue holding the Marathas together began to dissolve.
6. **Twenty-one years of decline.** Salbai 1782 to Bassein 1802 was decline: Mahadji died 1794, Madhav Rao II 74–95 suicide 1795, Bajirao II 96–18 Peshwa 1796, Nana Fadnis died 1800. Wellesley 98–05 was waiting.
   → Then a Holkar execution lit the fuse.
7. **Bassein: the Peshwa signs an SA.** Bajirao II 96–18 had Vithoji Rao Holkar executed in 1801. To avenge him, Yashwantrao Holkar beat the Peshwa and Scindhia. Bajirao fled and signed Bassein (Dec 1802), an SA ending the Svarajya army.
   → Ironically, the SA united the old rivals.
8. **Assaye and a lost war.** The SA united old rivals: Scindhia, Holkar, Bhonsle fought. Arthur Wellesley at Assaye 1803: toughest fight. Marathas lost; Scindhia lost Delhi, Agra, Gujarat. Wellesley 98–05 recalled for the cost.
   → After Wellesley the EIC pulled back, and trouble gathered at its edges.
9. **Pindaris, Paramountcy and a loophole.** The EIC paused after Wellesley 98–05, and Pindaris raided. Francis Hastings 13–23 crushed them and began Paramountcy 1813–58. Appa Sahib signed an SA in 1816 but used its loophole to hire mercenaries.
   → The loophole turned into a battlefield.
10. **The third war: Sitabuldi, Mahidpur, Koregaon.** Bajirao II 96–18, Appa Sahib and Yashwantrao Holkar rose in 1817. Appa lost at Sitabuldi, Holkar at Mahidpur; Koregaon 1 January 1818 held. About 1.2 lakh EIC troops; Bajirao surrendered June 1818.
    → Now came the settlement.

11 **The settlement of 1818.** Peshwaship abolished; Bajirao II 96–18 pensioned to Bithur, where his son Nana Sahib later led Kanpur 1857. Svarajya joined Bombay Presidency. Appa Sahib deposed. Satara and Kolhapur spared; Satara annexed 1848.
→ Why did such a great power fall, and where did the EIC look next?

12 **Why they lost, and the next wars.** Four reasons: factionalism, no unified command, EIC finances, EIC naval and logistics edge. The EIC army then overhyped border threats: Nepal 1814–16, Burma 1824–26, Afghanistan 1838–42, Sindh 1843, Sikh wars.

Cast: Raghunath Rao 73–74 = The Claimant · Nana Fadnis = The Glue · Warren Hastings 73–85 = The Thrifty Cancel · Mahadji Scindhia = The Signer at Gwalior · Bajirao II 96–18 = The Puppet Peshwa · Yashwantrao Holkar = The Avenger · Wellesley 98–05 = The Empire-Builder · Arthur Wellesley = Toughest Fight · Francis Hastings 13–23 = The Paramount GG · Appa Sahib = The Loophole Regent · Nana Sahib = The Pension's Son · Dalhousie 48–56 = The Lapse Man · Auckland 36–42 = The Forward Man · Charles Napier = Peccavi

At a glance: the route of the chapter

THE THREE WARS ON ONE BOARD

📖 Story link · beat 1: Story so far: the EIC now faces the Marathas. Learn the three wars as one board first: reason, result, treaty.

	1st war 1775–82	2nd war 1803–05	3rd war 1817–19
Reason (teacher)	Factionalism	Factionalism	Breach of SA by the EIC (PoIR as part of PoP)
🌐 Trigger treaty	Surat 1775 (Raghunath Rao 73–74)	Bassein Dec 1802 (Bajirao II 96–18)	Nagpur 1816 (Appa Sahib)
EIC head	Warren Hastings 73–85	Wellesley 98–05	Francis Hastings 13–23
Key battle	Wadgaon 1779 (EIC lost)	Assaye 1803	Sitabuldi, Mahidpur, Koregaon
Result	Salbai 1782: military alliance, Marathas get territory back	Marathas lost; SA for Scindhia; Bhonsle mini alliance	Marathas lost; Peshwaship abolished; Svarajya annexed
Marathas on field	Nana Fadnis, Mahadji Scindhia, Tukoji Rao Holkar	Scindhia + Holkar + Bhonsle united	Bajirao II 96–18, Appa Sahib, Holkar

Teacher's board: 2nd war: Gaikwad and Peshwa had already signed SA in 1802 and did not fight, so fighters = Bhonsle + Scindhia + Holkar. Between 2nd and 3rd: 1816 SA Bhonsle (Treaty of Nagpur). 3rd war: Holkar signed SA, Swarajya annexed; Bhonsle and Peshwa had no proper army (SA disbanded it), Holkar had one. Factionalism = reason in 2 wars of 3; a disbanded army = weak point in the 3rd. ⭐

Subsidiary Alliance order	Year
🌐 Gaikwad (Treaty of Cambay)	June 1802
Peshwa (Bassein)	Dec 1802
Scindhia	1803/04
Bhonsle (Nagpur)	1816
Holkar (Mandsaur)	1818

Source conflicts on the board: (1) year after Salbai looks like 1789 on the slide; handout and text say 1782. (2) 3rd-war reason: board = EIC breached SA (Residents made Indirect Rule puppetry); a handout bracket calls 1817 'a violation of SA treaties' (rulers' revolt). Use the teacher's line. (3) Handout map's small years (1802 Peshwa, 1804 Sindhia, 1805 Gaikwar, 1803 near Agra and Surat) are unexplained; Gaikwar 1805 clashes with text (June 1802, Cambay): map for where, text for years.

WHY THE DECCAN MATTERED

📖 Story link · beat 2: Because the EIC needed coast, cotton and the Malabar side, the Marathas and Mysore stood in its way.

Three reasons (teacher)

→ Large coastline
→ Cotton trade Gujarat–China
→ Maratha control of parts of the Malabar coast
→ Marathas + Mysore = last major powers to check the EIC: 3 Anglo-Maratha + 4 Anglo-Mysore Wars (Ch 12)

🎯 1ST ANGLO-MARATHA WAR 1775–82 PYQ 1999

📖 Story link · beat 3: Because a Peshwa was thrown out by his own ministers, he sold land to the EIC for help.

1773	1774	1775	1776
Narayan Rao 72–73 murdered; Raghunath Rao 73–74 Peshwa	Baarbhai Conspiracy: Nana Fadnis + 11 ministers remove him	He goes to Bombay Governor William Hornby: Treaty of Surat	Treaty of Purandhar

🌐 Treaty of Surat 1775

→ EIC helps him regain Peshwaship
→ In return: Salsette + Bassein (Vasai, near Mumbai) + some revenue of Bharuch and Surat
→ = help for land and money

Teacher: factionalism = root cause; learn Peshwas' names and years. Pattern = Carnatic and Hyderabad (Ch 9): succession dispute, losing claimant, Europeans give military help for territory. Factionalism was the Europeans' most reliable ally. ⭐

📖 Story link · beat 4: Now Warren Hastings 73–85 in Calcutta cancels Surat, but Purandhar collapses.

Purandhar 1776 (Warren Hastings 73–85 with Nana Fadnis)

→ Hastings overturned Surat to avoid war expenditure

Clauses

→ 1: EIC recognises Madhav Rao II 74–95 as Peshwa; Raghunath Rao 73–74 pensioned off
→ 2: EIC gets Salsette and Bharuch
→ 3: Marathas allow no French presence

→ Bombay EIC kept sheltering Raghunath Rao 73–74; Nana Fadnis offered a port to the French; talks collapsed, war resumed
→ Money trouble: GBF 1770 → bankruptcy 1772 (Ch 10); handout: fits Policy of Relative Isolation

Do not confuse: Purandhar 1665 (Shivaji, Ch 4) vs Purandhar 1776. Teacher's factionalism within the EIC: Bombay EIC vs Calcutta EIC (Warren Hastings 73–85) pulled in two directions.

📖 Story link · beat 5: Now the Marathas give the EIC a bloody nose, then peace at Salbai.

Wadgaon 1779 (near Pune)

→ Nana Fadnis, Mahadji Scindhia, Tukoji Rao Holkar beat the EIC and Raghunath Rao 73–74
→ War inconclusive; by 1782 EIC in difficulty, Marathas too (busy in 2nd Anglo-Mysore War 1780–84)

→ Triple Confederacy 1780–82 = Marathas (Ma) + Mysore (My) + Hyderabad (HYD)

Treaty of Salbai 1782 (signed at Gwalior by Mahadji Scindhia)	Term
1	Military alliance EIC + Marathas: Marathas break the Triple Confederacy and fight with EIC if Hyder Ali 61–82 does not return territory taken from the British and the Nawab of Arcot
2	EIC gets Salsette and Bharuch
3	No French settlements in Maratha domain
4	EIC returns all captured Maratha territory, recognises Madhav Rao II 74–95, pensions off Raghunath Rao 73–74

Teacher: 'alliance WITH neighbours' = Policy of Ring Fence (PoRF), buffer of allies around the EIC (Ch 10); handout: PoRF set up with the Marathas. Why pension a rival? deliberate EIC practice: the person can be used in later succession disputes; same device returns 1818 with Bajirao II 96–18 at Bithur.

Source conflict: handout flow chart dates the Peshwa's pension 1819; text dates Bajirao II 96–18's surrender June 1818. Both belong to the same settlement (3rd war 1817–19). Ch 14 also writes 'pensioned off 1819'.

THE INTER-WAR PERIOD 1782–1803: 21 YEARS OF DECLINE

📖 Story link · beat 6: Because Salbai bought peace, the Marathas had 21 years to repair themselves. Instead they declined.

Year	Event
1794	Mahadji Scindhia dies (had dominated Maratha politics)
1795	Madhav Rao II 74–95 commits suicide
1796	Bajirao II 96–18 becomes Peshwa (handout: formally tenured 1796–1818)
1800	Nana Fadnis dies: held the Confederacy together for two decades; factionalism accelerates

Shaniwar Wada (Pune) and the whole Confederacy engulfed in factionalism; Wellesley 98–05, the empire-builder, was waiting for this.

2ND ANGLO-MARATHA WAR 1803–05: WELLESLEY 98–05'S WAR

📖 Story link · beat 7: Because a Holkar was executed, a Peshwa fled to the EIC and signed away his army. Now the SA united the old rivals.

Trigger: Bassein Dec 1802

→ 1801: Vithoji Rao Holkar plundered Peshwa's land; captured and executed on orders of Bajirao II 96–18

→ Oct 1802: stepbrother Yashwantrao Holkar defeated the Peshwa and Daulat Rao Scindhia

→ Bajirao II 96–18 fled, signed Treaty of Bassein (Dec 1802) = SA for EIC help to regain throne

→ Great army of Svarajya to be disbanded once puppet Bajirao II 96–18 restored

→ Ironically united rivals Scindhia, Holkar, Bhonsle against the EIC

→ Gaikwad had signed SA June 1802 (Treaty of Cambay) for EIC help in a succession dispute

📖 Story link · beat 8: Now the SA unites the old rivals, and Assaye is the toughest fight.

Assaye 1803

→ Arthur Wellesley with his Royal regiment alongside the EIC army

→ His toughest fight, harder than anything vs Napoleon

→ Two forces as at Plassey (Ch 10); Arthur is not the GG (GG = Wellesley 98–05, Ch 11)

→ Handout figure extras: Deogaon, Surji-Arjangaon 1803 (Scindhia, Bhonsle subdued); map crosses Assaye, Argaon, Gawilgarh. Learn Assaye first

Consequences (5)

→ 1 Bajirao II 96–18 Peshwa again but EIC puppet

2 Scindhia

→ Lost all north of Yamuna incl. Delhi, Agra and all Gujarat

→ Forced SA; Resident at Delhi = Indirect Rule; Shah Alam II 60–06 under EIC control

3 Bhonsle

→ Lost Orissa; refused SA

→ Mini alliance (like Allahabad 1765, Awadh): ceded territory + EIC army he pays for

→ 4 Jats, Rajputs, Bundelas (earlier paid Chauth + Sardeshmukhi to Marathas) forced into SA: EIC replaces Marathas as dominant power of north and central India

→ 5 Wellesley 98–05 recalled for high war expenditure; Cornwallis 86–93 sent for non-interference (arrived July, died Oct 1805)

Handout recall: Bhonsle raided Bengal 1745–51, took Chauth of Bengal and Bihar and Orissa from Alivardi Khan 40–56; Orissa now passes to the EIC (Ch 10). **Emperor's masters in order:** Zulfikar Khan, Sayyid Brothers, Irani + Turani group, Safdar Jung 39–54, Marathas, now the EIC (Ch 2). Teacher: **non-intervention** was to stop war spending but gave Bhonsle and Holkar time to rebuild.

Note: Cornwallis 86–93's code belongs to the man, not the 1805 episode (short visit); kept as written. Handout printed Allahabad treaty year as '17765': it is 1765.

Vellore Mutiny 1806 (Acting GG George Barlow 1805–07)	Handles
Cause	New dress codes: no religious marks (tilaks, turbans); leather cockades (ribbon like a Christian cross, cow or pig skin)
Place	Vellore Fort, north Tamil Nadu
Tag	Prelude to 1857

PINDARIS, FRANCIS HASTINGS 13–23, PARAMOUNTCY 1813–58

📖 **Story link · beat 9:** Because Wellesley 98–05 spent too much, the EIC paused, and the pause let Pindaris and loopholes grow.

Non-intervention to Paramountcy

→ After Wellesley 98–05: Non-Intervention (cut war spending)

→ Pindaris = disbanded soldiers of Scindhia + Holkar, raided Northern Sarkars and Madras Presidency

→ Beaten by Francis Hastings 13–23: Policy of Paramountcy (PoP 1813–58): EIC supreme, will do anything incl. annexation to protect interests

Hastings trap: 'Hastings' alone is ambiguous. Warren Hastings 73–85 = 1st war (Surat, Purandhar, Salbai). Francis Hastings 13–23 = 3rd war (Pindaris, Paramountcy). The codes are the quickest tell.

⚠ Nagpur 1816 loophole

→ Resident treated Bajirao II 96–18 as a puppet

→ Appa Sahib signed SA (Treaty of Nagpur 1816) for EIC help in a regent dispute: Maharaja Parsoji Bhonsle paralysed

→ Treaty: disband state army, but retainers and police for internal security allowed

→ Appa Sahib secretly recruited Arab and Rohilla mercenaries, had Parsoji secretly murdered, wanted to rule independently, not as Resident's puppet

Teacher stresses: 3rd-war reason on the board = PoIR as part of PoP; 'signed SA', regent dispute, Arab and Rohilla mercenaries, Resident, 'as a puppet' (Appa Sahib and Bajirao II 96-18). Same pattern as Surat 1775 and Bassein 1802: dispute, ruler asks EIC, EIC takes control. The loophole = the SA template's weak point.

🎯 3RD ANGLO-MARATHA WAR AND PINDARI WAR 1817-19 PYQ 2010

📖 Story link · beat 10: Because the rulers rebelled against being puppets, the largest EIC force ever marched. The SA caused the war.

🎯 Sitabuldi, Nov 1817 (tested in Prelims)

→ Late 1817: Bajirao II 96-18, Appa Sahib, Yashwantrao Holkar revolt to end EIC domination (handout: a violation of SA treaties)

→ Bajirao II 96-18 had no state army (EIC army replaced it): fought with men he recruited himself

→ Appa Sahib as Senapati: Arab mercenaries, surprise close attack on the Residency and Sitabuldi hills; outnumbered the garrison yet lost

Prelims handout: (i) Appa Sahib signed SA in 1816 and fought in 1817: the SA did not prevent the war, its terms caused it. (ii) 'Disbanded army' clause bypassed via Arab and Rohilla mercenaries as internal-security retainers.

Event	Detail
Force	EIC's largest ever in India: about 1.2 lakh troops
Sitabuldi Nov 1817	Appa Sahib (Bhonsle) defeated
Mahidpur Dec 1817	Holkar decisively defeated
Koregaon 1 Jan 1818	Small EIC force of Mahar soldiers held off a much larger Peshwa army; Bhima-Koregaon Victory Pillar
Surrender June 1818	Peshwa Bajirao II 96-18 surrendered

Source doubts: 1.2 lakh = 1,20,000 (handout); question bank writes '1.2 lakh (110,000)': use about 1.2 lakh. Handout and slide name Yashwantrao Holkar among 1817 rebels, board writes only 'Holkar': learn 'Holkar of Indore' for the 3rd war, Yashwantrao for 1802; if a question gives a first name for 1817, follow the handout.

CONSEQUENCES OF THE 3RD WAR (5)

📖 Story link · beat 11: Because the war was lost, the Peshwaship ended and the last throne was spared only for a while.

Five results

→ 1 Peshwaship abolished; Bajirao II 96-18 pensioned to Bithur, near Kanpur; adopted son Nana Sahib leads Kanpur revolt 1857

→ 2 Svarajya annexed into Bombay Presidency: homeland became a province of British India

→ 3 Appa Sahib deposed, puppet put in; Bhonsle lost huge territory

→ 4 Holkar SA by Treaty of Mandsaur (1818) after Mahidpur

→ 5 Satara and Kolhapur not annexed: Chhatrapati's line kept as a symbolic gesture

Why keep the Chhatrapati? powerless figurehead since 1750s: costs nothing, avoids optics of destroying a revered institution. Satara later annexed 1848 by Dalhousie 48-56's Doctrine of Lapse (Ch 14).

Family tree behind the two thrones (board)

→ Shivaji 74-80 had two sons: Sambhaji 80-89 and Rajaram 89-00

→ Sambhaji 80-89's line: Shahu 19-49 (Satara), then Ram Raja (1749-77) ('To SANGOLA')

→ Rajaram 89–00's line: Tarabai [and Shivaji II]; second wife Rajasbai's son Sambhaji II (1714) got Kolhapur by Treaty of Warna 1731

→ Satara and Kolhapur = two branches of one family (Ch 4)

Source conflicts: (1) board date beside Sangola reads like 1758; Ch 4 gives 1750: learn Sangola 1750. Last digit of 'Shahu 19–49' unclear on board: use 19–49. (2) **Bhonsle's treaty status, three readings:** text = after 2nd war mini alliance (territory ceded, EIC army he paid for); board '1816 SA Bhonsle' = full SA (Nagpur); handout figure = Scindhia and Bhonsle 'reduced to SA rulers' after 3rd war. They fit: **mini alliance 1803–05, full SA 1816, complete reduction by 1818**. (3) Handout figure adds Holkar's rise after 1800.

👫 WHY THE MARATHAS LOST (4 reasons)

📖 Story link · beat 12: Because the pattern repeated in three wars, the teacher distilled four reasons for the defeat.

	Reason	Detail
1	Factionalism	internal; first and repeating cause
2	No unified command	internal; Scindhia, Holkar, Bhonsle, Gaikwad of Baroda never coordinated
3	EIC's superior finances	external
4	Naval and logistics advantage	external; EIC ships could blockade the Konkan, move troops faster by sea and better roads

Takeaway: Confederacy fell less from EIC military superiority than from its own structure; a divided Maratha house was the EIC's most reliable ally. Teacher's war checklist (Ch 4): technology, leadership, tactics, geography, money, army size, military infrastructure. ✅

⚠️ BORDER WARS: ARMY OVER-HYPES THE THREAT

📖 Story link · beat 12: Because the EIC had won in the Deccan, its army looked to the borders.

Teacher's board: EIC wars are of two kinds, for trade and for territory (T). Territory drivers: (1) empire-builder GGs, (2) vested interest of the EIC army, which gains from a big threat and overhypes border threats. This section = the 2nd kind ('misc': a list to memorise). ⭐

Protectorate: symbolic sovereignty not taken; of the two kinds of sovereign function, external goes to Britain, domestic not taken. Like an SA: State loses external functions, keeps symbolic sovereignty and domestic functions. 💡

War	Years	GG	Treaty or result
Anglo-Nepal	1814–16	Francis Hastings 13–23	Treaty of Sugauli 1816: Nepal a British Protectorate; lost Kumaon, Garhwal, Terai
👫 1st Anglo-Burmese	1824–26	Amherst 23–28	Burma expanding gave EIC the chance to overhype; Treaty of Yandabo 1826: Assam, Nagaland, Arakan, Tenasserim annexed; Cachar 1830; Ahom kingdom of Assam had backed the EIC, annexed too ('= threat to Assam')
Coorg	1834	William Bentinck 28–35	Maladministration by Vira Raja; massive coffee plantations after annexation
👫 1st Anglo-Afghan	1838–42	Auckland 36–42	see tree below
Sindh	1843	Ellenborough 42–44	see tree below
👫 1st + 2nd Anglo-Sikh	1845–46, 1848–49	Hardinge 44–48, Dalhousie 48–56	Punjab annexed 1849 (Ch 14)
2nd Anglo-Burmese	1852–53	Dalhousie 48–56	Pegu (lower Burma) annexed

1st Anglo-Afghan War 1838–42

→ Part of the Great Game Britain vs Russia ('over Central Asia')
→ Auckland 36–42's Forward Policy ('aggressive foreign policy'): install Shah Shuja in Kabul against ruler Dost Mohammed
→ Disaster: 20,000 dead, Rs 1.5 crore, famous retreat from Kabul (one European survivor)
→ Auckland 36–42 recalled; Ellenborough 42–44 ended the war
→ Dost Mohammed regained power, kept good relations with the stronger British

Sindh 1843 (Ellenborough 42–44)

→ Taken from the 'Char Yaar' (four Baloch chiefs of the Talpur dynasty) without justification
→ Commander Sir Charles Napier
→ 'Peccavi' = 'I have sinned', pun on 'I have Sindh': Latin one-word dispatch

🎯 PRELIMS PYQs ON THE SLIDES (chronology traps)

📖 Story link · beat 12: Last scene: the exam loves chronology, so use the story order to match each war.

PYQ	Answer and trap
1999 match A 1775, B 1780, C 1824, D 1838	(c) A-3 B-4 C-1 D-2: 1775 = 1st Anglo-Maratha, 1780 = 2nd Anglo-Mysore, 1824 = 1st Anglo-Burmese, 1838 = 1st Anglo-Afghan. Use the year the war broke out, not end year (1782, 1784, 1826, 1842); write full range beside each war
2004 pairs	(d) 2 and 3: B 1790–92 Third Mysore War and C 1824–26 1st Anglo-Burmese right. A wrong: 1767–69 = 1st Anglo-Mysore. D wrong: 1845–46 = 1st Anglo-Sikh (2nd = 1848–49)
2010 Abdali (Ahmad Shah Abdali 47–72)	(a) to avenge the Marathas' expulsion of his viceroy Timur Shah from Lahore (3rd Panipat 1761); (b) wrong, Adina Beg Khan invited Marathas; (c) tribute not the trigger; (d) annexing Punjab = general ambition. Ch 4

Method: write the full range beside each war and match the first number. ⭐

1773 Raghunath Rao 73–74	**1774** Baarbhai	**1775** Surat	**1776** Purandhar
1779 Wadgaon	**1782** Salbai	**1794** Mahadji dies	**1795** Madhav Rao II 74–95
1796 Bajirao II 96–18	**1800** Nana Fadnis dies	**1801** Vithoji executed	**1802** Cambay, Bassein
1803 Assaye	**1805** Wellesley 98–05 recalled	**1806** Vellore	**1813** PoP to 1858
1816 Nagpur, Sugauli	**1817** Sitabuldi, Mahidpur	**1818** Koregaon, Mandsaur	**1824** Burma I
1834 Coorg	**1838** Afghan I	**1843** Sindh	**1848** Satara
1852 Burma II, Pegu		**1857** Nana Sahib	

Recall drill: cover and answer

Three wars: reason and treaty?	1st: factionalism, Surat 1775 to Salbai 1782. 2nd: factionalism, Bassein 1802. 3rd: breach of SA (PoIR in PoP), Nagpur 1816	Treaty of Surat 1775 terms?	EIC helps Raghunath Rao 73–74; EIC gets Salsette, Bassein + revenue of Bharuch and Surat; Hornby, Bombay
Purandhar 1776 vs Salbai 1782?	Purandhar: Warren Hastings 73–85 + Nana Fadnis, Madhav Rao II 74–95 recognised, Salsette and Bharuch, no French. Salbai: Mahadji at Gwalior, military alliance vs Hyder Ali 61–82, same plus territory returned	Order of SAs?	Gaikwad June 1802, Peshwa Dec 1802, Scindhia 1803/04, Bhonsle 1816, Holkar 1818
Consequences of 2nd war?	Puppet Peshwa; Scindhia loses north of Yamuna (Delhi, Agra, Gujarat); Bhonsle loses Orissa, mini alliance; Jats, Rajputs, Bundelas to SA; Wellesley 98–05 recalled	Nagpur 1816 loophole?	SA disbands army but retainers allowed; Appa Sahib hired Arab and Rohilla mercenaries
Three battles, three opponents?	Sitabuldi Nov 1817 Appa Sahib; Mahidpur Dec 1817 Holkar; Koregaon 1 Jan 1818 Peshwa (Mahar soldiers)	Four reasons Marathas lost?	Factionalism, no unified command (internal); EIC finances, naval and logistics (external)
Afghan I and Sindh?	Auckland 36–42 Forward Policy, Shah Shuja vs Dost Mohammed, 20,000 dead, Rs 1.5 crore; Sindh 1843 Ellenborough 42–44, Char Yaar, Napier, Peccavi	Prelims 1999 match?	A-3 B-4 C-1 D-2: use outbreak year 1775, 1780, 1824, 1838

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)
ST = Scheduled Tribes — Tribal groups listed under Art 342

DALHOUSIE: PEAK OF EXPANSION

PYQ Prelims 1995, 1996, 2002, 2004 (two), 2008 · Mains 2013 (10 marks, 200 words: Dalhousie 48–56 founder of modern India)

Paramountcy put British interests first, so Dalhousie 48–56 took land by Lapse, war and unpaid subsidy until the Company State held 63%. Those annexations, Jhansi to Awadh, cost its legitimacy, and 1857 tested that.

THE STORY FIRST (same story as the textbook)

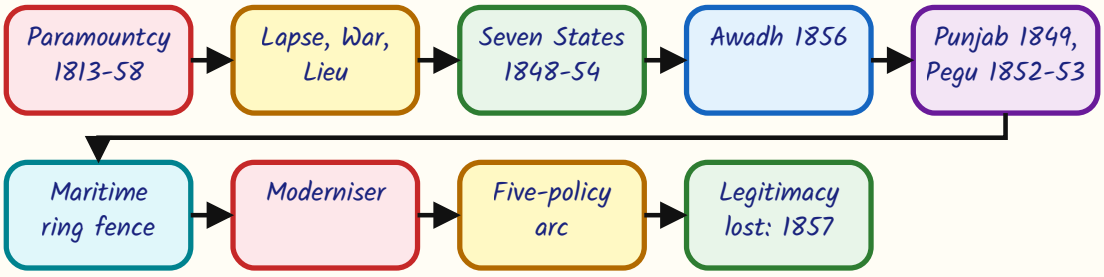

Paramountcy made British interests supreme, so Dalhousie 48–56 used Lapse, war and unpaid subsidy to take the Company State to 63% of the land; the same annexations, from Jhansi to Awadh, cost it the legitimacy that 1857 then tested.

1. **A trading company that wanted to be left alone.** In 1600 the EIC came to trade, not rule, and its army was small. It interfered only when it gained, as after Buxar 1764. After 1757 its interference kept rising.
   → So by 1813 interference became a declared policy.
2. **Paramountcy: British interests first.** Francis Hastings 13–23 began Paramountcy in 1813: the Company State is supreme, British interests first, annex if needed. It was the Subsidiary Alliance minus the rights of the Indian State.
   → Into this policy walks Dalhousie 48–56.
3. **Three roads to expansion.** Dalhousie 48–56 used Paramountcy three ways: Lapse, wars (Punjab 1849, Pegu 1852–53), annexation in lieu of subsidy (Berar 1853). By 1856 the Company State held 63% of land and 78% of people.
   → The first road was a rule about heirs.

4. **The Doctrine of Lapse.** Court of Directors formulated Lapse in 1847; Dalhousie 48–56 applied it: no biological heir, rights lapse. Seven States fell 1848–54; Inam Commission 1852 seized estates; Nana Sahib's pension was refused.
   → The second road was unpaid subsidy.
5. **Berar and Awadh: subsidy turns into land.** Hyderabad could not pay its subsidy, so Dalhousie 48–56 annexed Berar in 1853. Awadh followed a chain from 1765; the rest was taken in 1856 for maladministration, not Lapse.
   → The third road was war, and its first target was the Sikh State.
6. **The Sikh State: from buffer to target.** Ranjit Singh 01–39 kept the Sikh State a strong friendly buffer; after 1839 four factions tore it apart. Lahore 1846 cut the army, Amritsar 1846 sold Kashmir to Gulab Singh.
   → But a Resident and a reduced army were not the end.
7. **Punjab annexed, the Koh-i-Noor taken.** Mulraj and Chattar Singh revolted in 1848, giving Dalhousie 48–56 his chance. Punjab was annexed in 1849 from child Duleep Singh 43–49; the Koh-i-Noor went to the Crown.
   → War also reached the eastern shore.
8. **Pegu and the sea ring.** The 2nd Anglo-Burmese War 1852–53 annexed Pegu; with Arakan and Tenasserim the Bay of Bengal became a British lake. The Arabian Sea coast fell from Bombay 1668 to Sindh 1843.
   → But Dalhousie 48–56 did not only annex.
9. **The moderniser.** Dalhousie 48–56 also built modern India: railways from 1853, telegraph, Post Office Act 1854, PWD, GT Road, Wood's Despatch 1854. Motives: troops, cheaper rule, raw materials, markets.
   → Yet each annexation was adding to a hidden bill.
10. **The five policies and the hidden bill.** Each policy built on the last, so 1857 came when it did. Dalhousie 48–56 won land but lost legitimacy: Rani Lakshmibai, Nana Sahib, Bahadur Shah Zafar 37–57, Awadh court, Sikh soldiers aggrieved.
    → And then the Crown had to clean up.
11. **1858: the reversal.** Canning 56–62 inherited the revolt. Government of India Act 1858 ended the Company State; Queen Victoria's Proclamation 1858 ended Lapse and respected rulers' rights. No more annexations.

Cast: Dalhousie 48–56 = The Annexer-Builder · Francis Hastings 13–23 = The Paramount Founder · Court of Directors = The Law-Writer · Nana Sahib = The Refused Heir · Rani Lakshmibai = The Dispossessed Queen · Wajid Ali Shah = The Blamed Nawab · Ranjit Singh 01–39 = The Buffer Maker · Gulab Singh = The Buyer of Kashmir · Duleep Singh 43–49 = The Child King · Mulraj and Chattar Singh = The Two Rebels · Henry Lawrence = The Resident Regent · J.E. Drinkwater Bethune = The Girls' School Founder · Canning 56–62 = The Inheritor · Queen Victoria = The Reverser

At a glance: the route of the chapter

PEAK OF EXPANSION: HOW FAR, BY WHAT MEANS

📖 Story link · beat 3: Because Paramountcy made British interests supreme, expansion had a policy: three roads (Lapse, War, Lieu).

🗺️ Company State by 1856

→ 63% of the land, 78% of the people; no annexation after Dalhousie 48–56

→ India = Company State + 565 Indian States

3 instruments of Dalhousie 48–56 (via PoP 1813–58)

→ 1 Doctrine of Lapse: refuse adopted heirs

→ 2 Wars: 2nd Anglo-Sikh 1848–49 (Punjab), 2nd Anglo-Burmese 1852–53 (Pegu)

→ 3 Annexation in Lieu of Subsidy: Berar 1853 from Hyderabad

→ Besides: Maritime Ring Fence, modernisation, five-policy framework

Remember: Dalhousie 48–56 = Lapse, War, Lieu. Teacher: 'annexation of the Indian mainland' = into British India. Logic of Lapse: succession disputes (R v R) → instability → hurts British business → British interests paramount. His other face (future syllabus, Ch 19): Wood's Despatch 1854, Hindu Widow Remarriage Act 1856 (passed under Canning 56–62; Dalhousie only supported), Railways, Post and Telegraph, Canals. ⭐

	Paramountcy of the EIC	Paramountcy of the Crown
Years	1813–58, by Francis Hastings 13–23	1858 to 15 Aug 1947
💡 Meaning	Company State supreme among all States; British interests first, even annexation; contributed to 3rd Anglo-Maratha War (Ch 13)	Legal relationship between Crown and Indian Prince, 'not British India' (British India = part ruled by the British)

Note: do not mix the two Paramountcies. Board 'Notes of Foundation' with 'MMP': most of the chapter is Foundation, a small part is in the teacher's MMP; the handout gives nothing more.

⚖️ DOCTRINE OF LAPSE PYQ 2002 PYQ 2004

📖 Story link · beat 4: Because succession disputes hurt trade, a rule about heirs became a tool of expansion.

⚖️ Doctrine of Lapse

→ Formulated by Court of Directors, 1847; implemented systematically by Dalhousie 48–56

→ No biological heir: rights lapse (= R2: right to rule + right to pension), State annexed into British India

→ Hindu law allowed adoption; DoL overrides Hindu law

→ Court of Directors = top decision-making body of the EIC, not a Government body

Prelims (teacher): Formulated = Court of Directors; Implemented = Dalhousie 48–56. 'Author' is only loose speech: choose by the verb. Prelims 2002: Dalhousie 48–56 = Doctrine of Lapse. ⭐

🗺️ SEVEN STATES IN SEVEN YEARS 1848-54 PYQ 2004

📖 Story link · beat 4: Because the rule was applied State by State, seven fell in seven years.

#	Year	State	Present region
1	1848	Satara (first Lapse State)	Maharashtra
2	1849	Sambalpur	Odisha
3	1849	Jaitpur	UP, Bundelkhand
4	1850	Baghat	Himachal Pradesh, small hill State near Solan
5	1852	Udaipur	Chhattisgarh (then Central Provinces)
6	1853-54	Jhansi	Uttar Pradesh
7	1854	Nagpur	Maharashtra

BHAGAT SAMBHAL, JA JHAdio mein, UDta SA NAG – Bhagat = Baghat, Sambhal = Sambalpur, Ja = Jaitpur, Jha = Jhansi, Ud = Udaipur, Sa = Satara, Nag = Nagpur. Not date order: use the table for dates.

Traps: Udaipur 1852 is the small Chhattisgarh State, NOT Mewar (Rajasthan). Awadh 1856 is NOT Lapse (sits apart at the end of the chain). Prelims 2004 order: Satara 1848, Sambalpur 1849, Jhansi 1854 = 3, 2, 1. Jhansi: table says 1853-54, flowchart and PYQ say 1854: use 1854 for sequences. Flowchart lists Jaitpur before Sambalpur (both 1849): learn table order. Nagpur teacher note: its 1816 alliance (Ch 13).

👑 INAM COMMISSION 1852, NANA SAHIB, BERAR 1853

📖 Story link · beat 4: Because the same logic was turned on land and pensions, estates were seized and Nana Sahib refused. Next road: unpaid subsidy.

👑 Inam Commission 1852

→ Bombay Presidency; investigated inams (tax-free grants to Brahmins, temples, others)

→ Demanded proof of title; insufficient proof = confiscated; about 20,000 estates

→ Logic = Lapse applied to land titles (teacher: 'ignore', handout aid; repeated in legitimacy section)

Lapse on pensions: Nana Sahib

→ Bajirao II 96-18 died 1851 (pensioned at Bithur 1819 after 3rd Maratha War)

→ Dalhousie 48-56 refused the Rs 8 lakh per annum pension to adopted son Nana Sahib

→ Argument: adopted sons inherit private wealth, not political titles or State pensions

→ Made him a key 1857 leader from Bithur

📖 Story link · beat 5: Because Hyderabad could not pay its subsidy, land became payment.

Berar 1853 (2nd instrument)

→ Hyderabad signed the first SA in 1798, paid ever-rising subsidy

→ 1853 could not pay: Berar annexed as permanent payment

→ Same pattern as half of Awadh in 1801: unpaid subsidy becomes territory

📝 ANNEXATION OF AWADH 1856 (six steps) PYQ 2008

📖 Story link · beat 5: Because Awadh fell over six steps from 1765 and its Nawab had heirs, it was not Lapse; the pretext was maladministration.

1765
Treaty of Allahabad (Clive 57–67): PoIR + PoRF + mini SA

1798
John Shore 93–98 replaces Wazir Ali 97–98 with uncle Sadat Ali Khan II: Rs 76 lakh a year + Allahabad fort

1801
Sadat Ali defaults; Wellesley 98–05 (via Henry Wellesley) imposes full SA; half of Awadh (Gorakhpur, Rohilkhand, Doab) annexed = Ceded Districts

1855–56
Resident = Indirect Rule; Nawab Wajid Ali Shah powerless; 1856 rest annexed for maladministration

📝 Steps 2 to 5 and teacher's board

→ Step 2: EIC gradually raised subsidy demands

→ 1801 seizure was unjust: revenue twice the subsidy

→ Step 5: EIC kept demanding more even after the permanent payment: Nawab raised taxes, peasant revolt threat by 1855; teacher: 'Be-SHaram' (shameless)

→ Indirect Rule 90 years in Awadh (1765–1855) vs about 7 in Bengal (1765–72)

→ 1765 = mini / quasi SA: 'X DCFA, X Awadh army = 0, rest yes' (subsidy, EIC army, military alliance = PoRF, Resident)

→ Doab = land between two rivers, fertile, high land revenue; Gorakhpur and Rohilkhand with Awadh since 1775

→ Wajid Ali Shah: no power but all responsibility

Prelims 2008: ruler removed on pretext of misgovernance = Awadh (a). Wajid Ali Shah had heirs, so Lapse could not apply; Jhansi and Nagpur went by Lapse; Satara first, 1848. ⭐

Year	Awadh / UP: administrative status
1801	Ceded Districts formed from annexed half
1836	NWP full province (teacher: capital Agra)
1856	Rest of Awadh annexed (teacher: capital Lucknow)
1877	'North-Western Provinces and Oudh'
1902	'United Provinces of Agra and Oudh'
1937	'United Provinces'
1950	Uttar Pradesh
2000	Uttarakhand carved out ('UK + UP')

Source note: handout names the Nawab placed in 1798 as Sadat Ali Khan II; Ch 10 gives the formal alliance with Awadh as 1801. The 1765 'PoIR + PoRF + mini SA' is Clive 57–67's chain (Ch 10, 11).

🗺️ SIKH STATE: IDEAL BUFFER TO TARGET PYQ 1995

📖 Story link · beat 6: Because Ranjit Singh 01–39 held the buffer together and factions tore it apart after 1839, treaty became annexation.

Buffer to target

→ PoRF: stable, strong, friendly border States (teacher's 3 qualities of a buffer). If not achievable: Indirect Rule (Nepal 1814–16, Afghanistan 1839, Punjab 1845) or annexation (Assam + lower Burma 1824–26, Punjab 1849, Burma 1852–53)

→ Ranjit Singh 01–39 = ideal buffer; 1809 Treaty of Amritsar (Sutlej boundary; fear of Russia: Russia → Afghanistan → Punjab → British India)

After 1839 factionalism tore it apart

→ Royal family succession fights

→ Sindhanwaliyas (Jat clan or misl)

→ Dogra Rajputs as Wazirs (also rulers of Jammu)

→ Khalsa Army (handout: wanted governance by Panchayats, harder to manage than a feudal-loyal army)

→ 1838 Tripartite Treaty: EIC aimed PoIR in Afghanistan, puppet Shah Shuja vs Dost Md

→ Law of power: power centralises in a strong personality; if he weakens it leaks downward (R v N, R v R, N v N) or goes sideways to a replacer (British, 1849)

Treaty of Lahore, 9 March 1846 (after 1st Anglo-Sikh War)	Term
1 Military	Khalsa Army reduced, EIC army stationed; not fully disbanded out of respect for Sikh sentiment (Khalsa founded 1699 by Guru Gobind Singh 76–08)
🗺️ 2 Territory	Jalandhar Doab (between Beas and Sutlej) annexed
3 Kashmir mechanism	Darbar could not pay indemnity Rs 1.5 crore: ceded hills between Beas and Indus (Kashmir, Hazara); EIC sold to Gulab Singh for 75 lakh Nanakshahee rupees; he became Maharaja of J&K under the British; formalised by Treaty of Amritsar, 16 March 1846
4 Oversight	PoIR in Punjab: Resident Henry Lawrence as effective Regent

Like Awadh 1765: both 'quasi / mini SA': ruler stays, army cut, EIC army, Resident. Kashmir mechanism: 'took from Punjab, sold to Dogras'. Strategic note: Kashmir sold to reward Gulab Singh's neutrality; legal origin of the Kashmir Question, a Hindu monarchy over a Muslim-majority population.

Three documents: Amritsar 1809 (Ranjit Singh 01–39 + EIC, Sutlej boundary, PoRF) vs Lahore 9 Mar 1846 vs Amritsar 16 Mar 1846 (Kashmir sale; legal foundation of J&K). Lahore is signed 7 days before Amritsar 1846.

📖 Story link · beat 7: Now the revolt of 1848 gives Dalhousie 48–56 his chance: Punjab annexed 1849.

2nd Anglo-Sikh War 1848–49

→ Reason: governors of Multan (Mulraj) and Haripur (Chattar Singh) revolted: opportunity for Dalhousie 48–56 (real reason: British interest paramount)

→ Punjab annexed from Duleep Singh 43–49 (child of 5 at accession)

→ Koh-i-Noor surrendered to the British Crown

→ Board of Administration: Lawrence Brothers + Charles Mansel

→ Last major independent State outside Company State gone; frontier at Afghan foothills (teacher: Khyber Pass entry point)

Prelims 1995 trap: Chilianwala 1849 = 2nd Anglo-Sikh War battle, not 'Dalhousie 48–56 vs Marathas'.

BURMA, BAY OF BENGAL AND THE MARITIME RING FENCE

📖 **Story link · beat 8:** Because the Ring Fence also faced east, Pegu was taken in 1852–53 and the sea was controlled.

Part of Burma	War	Dates	Ruler
Arakan, Tenasserim	1st Anglo-Burmese (Treaty of Yandabo 1826)	1824–26	not named
Pegu	2nd Anglo-Burmese (PoRF logic: secure east vs expansionist Burma)	1852–53	Dalhousie 48–56
Upper Burma	3rd Anglo-Burmese	board gives no years; handout index: Upper Burma 1886 (Ch 15)	Dufferin 84–88

With Arakan and Tenasserim, Pegu made the Bay of Bengal effectively a British lake. Burma annexed into British India, separated 1937 (GOI Act 1935). Sindh 1843 was NOT Dalhousie 48–56's: Napier under Ellenborough 42–44. His annexations: Lower Burma 1852–53, Berar 1853, Punjab 1849 + seven Lapse States.

1757 Bengal

1766 Northern Sarkars

1798 SA Hyderabad

1801 Carnatic

1803 Orissa

1826 Arakan, Tenasserim

1853 Pegu: whole Bay coast in about 100 years

Source note: the board's Bay of Bengal sweep follows the curve of the coast, not strictly date order. Handout map shows only a small dot at Cachar and one unlabelled line to Assam.

Maritime sweep	Steps in order
Bay of Bengal (clockwise)	1757 Bengal, 1766 Northern Sarkars, 1801 Carnatic, 1803–05 Orissa, 1824–26 and 1852–53 Burma
Arabian Sea (anticlockwise)	1668 Bombay, 1789–99 Mysore / Malabar, 1802 Gaikwad-Baroda + Peshwa SA, 1805 Travancore, 1818 Svarajya annexed, 1843 Sindh
Beyond India	1854 Treaty of Kalat, 1876 Jacobabad, 1856–57 Anglo-Persian War, 1907 Anglo-Russian Convention, 1909 Anglo-Persian Oil Co.

Ring Fence beyond the coast: every sea approach controlled by the cheapest instrument, not always annexation. **Self read, not MIH syllabus (teacher):** Balochistan, Kalat, Jacobabad, Gwadar, Persian Gulf.

Treaty	Who	Terms
Kalat 1854	EIC under Dalhousie 48–56; negotiated by Major John Jacob	Khan of Kalat gave up foreign policy, EIC military outposts in Kalat; EIC pays Khan Rs 50,000 a year: reverse-SA (imperial power pays local ruler)
Jacobabad 1876	British State (Crown); Robert Sandeman; Viceroy Lytton 76–80	Under Subordinate Union (EIC abolished 1858): permanent troops, railways and telegraphs, supreme arbitrator between Khan and Sardars; the Resident 'was now the court'

Makran coast = State of Makran, vassal of Khan of Kalat. Kalat 1854 to 1876 mirrors all 565 princely States in 1858: from subordinates of a company to subjects of the Crown (Ch 17, 21). **Gwadar:** Khan of Kalat gifted it to a prince of Oman 1783; Omani enclave 170+ years; Pakistan bought it 1958; now CPEC.

Persia (never annexed)

→ 1856–57 Anglo-Persian War: Bushehr and Kharg Island; Treaty of Paris 1857: British withdraw, Iran gives up claims to Herat

→ 1907 Anglo-Russian Convention: Iran divided into spheres; south Gulf coast = British

→ 1909 Anglo-Persian Oil Company (later Anglo-Iranian, today's BP): economic control of the coast

→ Handout: economic imperialism at its most efficient: control resource, control coast, no colony cost

🎯 DALHOUSIE 48-56 AS MODERNISER PYQ 2013

📖 Story link · beat 9: Because the empire needed troops and trade routes, Dalhousie 48-56 also built.

Followed Utilitarianism (James Mill): reform through laws by a strong State. Built the skeleton of modern India's communication and administrative framework for troops, cheaper administration, raw materials, markets. Board: this is where 'future syllabus' items land. 💡

#	Item	Remember
1	Railways 1853	Army first; first line Bombay–Thane 1853 (21 miles); by 1856 Calcutta–Raniganj (coal) and Madras–Arakkonam; board: West 1853, East and South by 1856
2	Telegraph 1853	Department set up; about 4,000 miles
3	Post Office Act 1854	Uniform half-anna (2 paise) rate, Peshawar to Calcutta
4	PWD	Made civilian (from military); GT Road restored; canals, bridges
5	Wood's Despatch 1854	'Magna Carta of Indian Education': vernacular elementary schools, universities, education administration
6	Vernacular push	Utilitarian: Bengal and Bihar; technical education; efficient labour, consumers, cheaper administration
7	Female education	J.E. Drinkwater Bethune (Law Member) opened Bethune School, Calcutta, 1849: first successful secular girls' school (Phules' Pune school, 1 Jan 1848, is the first overall)
8	Widow remarriage	Supported Vidyasagar (Principal Sanskrit College 1851, Inspector of Schools 1856) and the Hindu Widow Remarriage Act 1856
9	Universities	Groundwork only: Bombay, Madras, Calcutta est. 1857 under Canning 56–62; also Roorkee Engineering College; Director of Education (province), Inspector (district)

📌 Source notes: Telegraph 1853 (board stress) vs flowchart 1854: use 1853. Widow Remarriage Act passed after Dalhousie 48–56 left (Canning 56–62). Flowchart extras: Ganges Canal, port reform for steamships. Universities and Wood's Despatch detail = Ch 19. Infrastructure outlasted its purpose: India built a nation on it.

✅ Mains 2013 frame: intro ~25 words (infrastructure built for colonial ends outlasted them) → body 4–5: railways 1853, telegraph 1853 (4,000 miles), Post Office Act 1854, PWD/GT Road/canals, Wood's Despatch 1854, universities 1857 (groundwork his) → add colonial purpose → close ~25 words. Strongest anchor: Wood's Despatch.

THE FIVE-POLICY ARC 1600–1858

📖 Story link · beat 10: Because each policy built on the last, the arc explains the timing of 1857.

⭐ MMP: '1 Q' expected from this part. Teacher: aggression rises box by box; army grew from Plassey plunder, subsidy (SA) and revenue of annexed land. PoIR: puppet Nawab + British Resident + Resident controls puppet.

Five policies (handout dates)

Relative Isolation

→ Trade first; army small (proof: Child's War 1686–90); 'relative' = not absolute (not 100%)

→ Interfered temporarily when an opportunity came: Surat 1775, Salbai 1782 alliance, Allahabad 1765 after Buxar (Shuja 54–75, Shah Alam II 60–06, Qasim 60–63)

→ Purandhar 1776: Hastings 73–85 wanted to settle commercially

→ Power rose after 1757 so interference rose: 'no interference' → Paramountcy by 1813

Geopolitics rule (handout): States behave in line with their power; weak invoke ethics, strong choose national interest first. India: yesterday NAM, today partly NAM, tomorrow 'we should interfere'. 💡

Policy	Definition	Examples
PoIR	Resident in court controls administration without annexation	Bengal by 1772, Delhi 1803, Travancore by 1809, Satara by 1818, Punjab 1846, Awadh by 1855
PoRF	Military alliance with frontier State as buffer	Awadh (ToA 1765), Hyderabad (1766), Mysore (Madras 1769), Marathas (Salbai 1782), Sikhs (Amritsar 1809)

PoSA 1798–1858

→ Rulers junior partners: EIC takes foreign policy + military, funded by subsidy; promises non-interference inside

→ Promise broken by illegal PoIR: Bassein 1802, Resident Mountstuart Elphinstone bypassed the Peshwa: 'creeping PoIR'

→ 1817 war was a ruler shaking off promised non-interference: no powers, all the blame (as Awadh 1856)

Paramountcy 1813–58

→ Francis Hastings 13–23: EIC formally paramount; interfere and annex if needed; States have no rights if British interests demand

→ Diplomatic isolation: no talks or alliance with any State without the EIC as gatekeeper (sealed bubble)

→ PoP = PoSA minus the rights of the Indian State

🗺️ Subordinate Union 1858–1947

→ EIC abolished; Crown direct; rulers legally part of the Empire; Prince, not King (son of the King = British monarch)

→ External functions (Defence, Communications, Foreign Affairs) with Crown; domestic with Prince

→ = Paramountcy + sovereignty formally with the Crown; India = British India + 565 princely States

→ Under SA same split but ruler kept symbolic sovereignty

1600 trading company, left alone

1765 alliance partner (PoIR, PoRF)

1798 controls neighbours' armies (PoSA)

1813 declares all others subservient (PoP)

1858 Crown absorbs 565 princes (Subordinate Union)

Source conflict (phase dates): flowchart: Relative Isolation pre-1757, PoIR + PoRF 1757–1813, PoSA 1798–1818, Paramountcy 1813–57, Subordinate Union post-1857. Handout: Isolation till 1813, PoSA 1798–1858, Paramountcy 1813–58, Subordinate Union 1858–1947. Use the handout; know the flowchart exists. Board puts ToA 1765 inside isolation. 'Prince' after 1858, 'King' before. 📌

Why 1857 came when it did: each stage built legally and institutionally on the last. ✅

👫 CRITIQUE: CONSOLIDATION AT THE COST OF LEGITIMACY

📖 Story link · beat 10: Because annexation made enemies, legitimacy was lost.

1857 leader	Grievance
Rani Lakshmibai of Jhansi	Lapse 1854
Nana Sahib	Bajirao II 96–18's pension refused 1851
Bahadur Shah Zafar 37–57	last Mughal, titular dignity Dalhousie 48–56 sought to end

📖 Story link · beat 11: Then the Crown cleans up: the Proclamation of 1858 ends Lapse.

Also joined: Awadh court, disbanded Sikh soldiery, dispossessed talukdars, inam-holders of the Inam Commission 1852 (Ch 21). Canning 56–62 inherited the empire and the revolt. GOI Act 1858 abolished the Company State; Queen Victoria's Proclamation 1858 ended Lapse, pledged respect for rulers' treaties and rights. Paramountcy became Subordinate Union; no further annexations (even Lytton 76–80, despite Jacobabad 1876). Empire complete: it only needed managing.

Cross-listed in the bank under this chapter (belong to Ch 19 and others): Prelims 1998 pre-1857 chronology (Indigo, Santhal, Deccan, Sepoy), 1996 education sequences, 1998 Primary Education Bill 1911, 2002 and 2018 Wood's Despatch 1854, 2020 Industrial Revolution (handicrafts ruined).

🎯 PRELIMS PYQs WORKED ON THE SLIDES

📖 Story link · beat 11: Last scene: use the story to answer the six PYQs.

PYQ	Answer and trap
1996 GG match: A Regulating Act 1773, B Charter Act 1833, C 1858 Act, D GOI Act 1935	(a) A-3 B-2 C-4 D-1 = Cornwallis 86–93, Dalhousie 48–56, Minto 05–10, Wavell 43–47. Teacher corrected 'Indian Councils Act' in C to GoI Act 1858. Wrong options pair B with Wavell, A with Dalhousie, or A with Wavell
2002 match	(a) A-2 B-3 C-1 D-4: Macdonald = Communal Award 1932; Linlithgow 36–43 = August Offer 1940; Dalhousie 48–56 = Doctrine of Lapse; Chelmsford 16–21 = Dyarchy 1919. Trap: swapping Dalhousie with Chelmsford (option (d) repeats (b) in print)
2004 NOT matched	(c) Vernacular Press Act: Curzon 99–05 wrong: VPA 1878 is Lytton 76–80. Right: Pitt's India Act 1784 : Warren Hastings 73–85; Lapse : Dalhousie 48–56; Ilbert Bill : Ripon 80–84
2004 Lapse order	(c) 3, 2, 1: Satara 1848 → Sambalpur 1849 → Jhansi 1854; Jhansi before Satara impossible
2008	(a) Awadh 1856, misgovernance; Jhansi, Nagpur by Lapse (1854); Satara first 1848
1995 battle pairs	(b) Wandiwash 1760 French vs EIC. Buxar 1764 was Mir Qasim 60–63, Shuja 54–75, Shah Alam II 60–06 vs EIC, not 'Mir Jafar 57–60 vs Clive 57–67'. Chilianwala 1849 = 2nd Anglo-Sikh War. Kharda 1795 pairing wrong (handout and slide); the Marathas-vs-Nizam fact is the usual textbook fact (Ch 13), this chapter's source gives no combatants

Method (teacher): most do not test Lapse directly; they test placing Dalhousie 48–56 among other GGs and events. Write the years beside each name and eliminate. ⭐

1809 Amritsar	**1813** PoP	**1839** Ranjit Singh 01-39 dies	**1846** Lahore 9 Mar, Amritsar 16 Mar
1847 Court of Directors: Lapse	**1848** Satara	**1849** Punjab, Koh-i-Noor, Bethune School	**1851** Bajirao II 96-18 dies
1852 Inam Commission, Burma II	**1853** Berar, rail, telegraph, Pegu	**1854** Post Office Act, Wood, Nagpur, Jhansi, Kalat	**1856** Awadh; Canning 56-62
1857 Revolt; Paris; universities	**1858** GOI Act, Proclamation	**1876** Jacobabad	**1947** Subordinate Union ends

Recall drill: cover and answer

Dalhousie 48-56's three instruments?	Doctrine of Lapse; Wars (Punjab 1849, Pegu 1852-53); Annexation in lieu of subsidy (Berar 1853). Result 63% land, 78% people	Lapse: who formulated, who implemented?	Court of Directors 1847 formulated; Dalhousie 48-56 implemented; rights lapsed = rule + pension; overrides Hindu adoption
Seven Lapse States?	Satara 1848, Sambalpur 1849, Jaitpur 1849, Baghat 1850, Udaipur (Chhattisgarh) 1852, Jhansi 1854, Nagpur 1854	Why not Lapse in Awadh?	Wajid Ali Shah had heirs; annexed 1856 for maladministration after six steps from Allahabad 1765; half taken 1801 (Ceded Districts)
Treaty of Lahore 9 Mar 1846?	Khalsa cut, Jalandhar Doab, Rs 1.5 crore indemnity so Kashmir sold to Gulab Singh for 75 lakh (Amritsar 16 Mar), Resident Henry Lawrence	2nd Anglo-Sikh War?	Mulraj (Multan), Chattar Singh (Haripur) revolt; Punjab annexed from Duleep Singh 43-49; Koh-i-Noor; Board of Administration
Inam Commission and Nana Sahib?	1852 Bombay, proof of title, about 20,000 estates; pension Rs 8 lakh refused after Bajirao II 96-18 died 1851	Dalhousie 48-56 moderniser?	Railways 1853 Bombay-Thane, Telegraph 1853, Post Office Act 1854 half-anna, PWD, Wood 1854, Bethune School 1849; universities 1857 under Canning 56-62
Five policies and dates?	Relative Isolation to 1813; PoIR + PoRF from 1765; PoSA 1798-1858; Paramountcy 1813-58; Subordinate Union 1858-1947	Prelims 2004 order and 2008?	Satara 1848, Sambalpur 1849, Jhansi 1854 = 3,2,1; misgovernance = Awadh

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

NAM = Non-Aligned Movement — Bloc of states that stayed out of Cold War alliances

CPEC = China-Pakistan Economic Corridor — China's BRI corridor through Pakistan-occupied Kashmir to Gwadar

ARC = Administrative Reforms Commission — Commission recommending reforms in public administration (1st in 1966, 2nd in 2005)

BRITISH IMPERIAL IDEOLOGY

PYQ Prelims 1997, 1999 (two), 2000, 2003 (Charter Act 1833), 2020, 2023 · Mains 2014 (10 marks, 150 words: world developments motivating the anti-colonial struggle)

✎ *The British said ruling India was a moral duty (White Man's Burden). Each ideology rose or fell with EIC confidence: Orientalism when scared, Authoritarianism under Cornwallis 86-93, three reform ideas after 1813, Racism after 1857.*

📖 THE STORY FIRST (same story as the textbook)

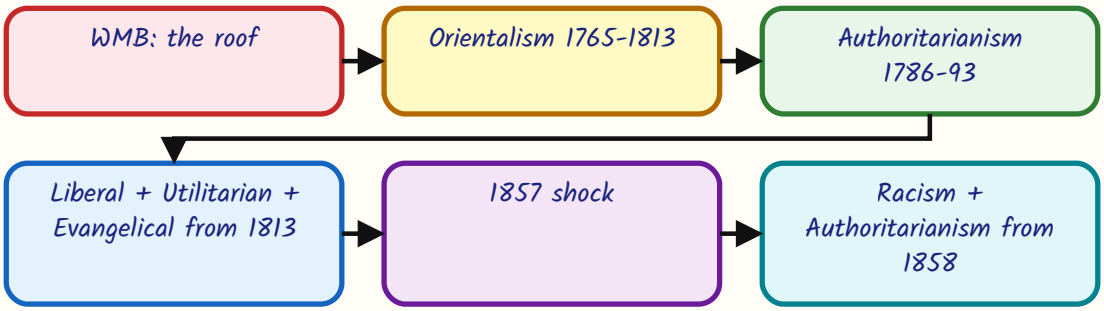

The British told themselves that ruling India was moral (the White Man's Burden), and each ideology under that roof rose or fell with the EIC's confidence: Orientalism while it was unsure, Authoritarianism under Cornwallis 86–93, the three reform ideologies after 1813, and Racism once 1857 had shocked them.

1. **A nation sure of itself.** Britain was proud: first modern democracy, Industrial Revolution, Seven Years' Global War victory, Napoleon beaten, science and capitalism. It felt destined to lead and civilise: the White Man's Burden.
   → So what should the British do in India?
2. **Scared, so Orientalist.** Before 1813 the EIC was scared, and William Jones found Sanskrit older than Greek and Latin. So Orientalism: rule India the India way, with its laws and languages. Warren Hastings 73–85 led.
   → Institutions followed the idea.
3. **Four Orientalist institutions.** Four institutions: Calcutta Madrasa 1781 (Warren Hastings 73–85), Asiatic Society 1784 (Sir William Jones), Sanskrit College Banaras 1791 (Jonathan Duncan), Fort William College 1800 (Wellesley 98–05).
   → But Orientalism had critics from the start.
4. **My way or highway.** Critics said India's past was glorious but its present degenerate. So Cornwallis 86–93 ruled the English way: British senior posts, Collector not Judge, Permanent Settlement 1793, an Aloof Elite.
   → Between the two, a hybrid appeared.
5. **Indian coat, British hand.** Thomas Munro, Madras 1820–27, used Indian forms but kept all power with the EIC: Orientalist in form, Authoritarian in substance. His Ryotwari had EIC officials collect everything.
   → Then, by 1813, the EIC stopped being cautious.
6. **1813: confidence, then three ideas.** By 1813 the army was huge, Napoleon beaten, a market waiting. Three ideas filled the space: Liberalism (Macaulay), Utilitarianism (Bentham, James Mill), Evangelicalism (Charles Grant, Charter Act 1813).
   → Bentinck 28–35's years were the high-water mark.
7. **The Liberal window, 1828–35.** Bentinck 28–35 to Macaulay's Minute 1835 was Liberal confidence at its peak: Sati Abolition Act 1829, Thuggee suppression under Captain Sleeman, English replacing Persian, uniform criminal procedure.
   → Then 1857 broke the story.
8. **The shock of 1857.** The Revolt of 1857 shook the British and broke the paternalistic story. Reform retreated, race hardened, Authoritarianism rose. Lytton 76–80 and Curzon 99–05 were its architects.
   → The same hard mood showed on the frontiers.
9. **The Forward Policy and the Great Game.** Fearing Russia, the British pushed into Afghanistan: Auckland 36–42's war 1839–42, Lytton 76–80's war 1878–80 and Gandamak 1879, then Ripon 80–84's reversal. The 1907 Convention ended the Persian flank.
   → And the land-grab ended in Burma.
10. **Upper Burma and Imperial Preference.** Dufferin 84–88 annexed Upper Burma in January 1886, deposing King Thibaw, the last major extension. Imperial Preference, formalised at Ottawa 1932, gave British goods lower tariffs.
    → But the empire's own claims came back to haunt it.

11 **The ideas come home.** The burden produced its opposite: American and French Revolutions, 1830 and 1848, the Irish struggle. Ideas travelled through Gandhi from South Africa and Nehru from Cambridge.

Cast: Warren Hastings 73–85 = The Lighter-Chains Governor · Sir William Jones = The Sanskrit Scholar · Wellesley 98–05 = The College Founder · Cornwallis 86–93 = The My-Way Governor · Thomas Munro = The Indian Coat · Bentinck 28–35 = The Liberal Governor · Macaulay = The Brown Sahib Maker · James Mill = The Schoolmaster · Charles Grant = The Gate Opener · Captain Sleeman = The Thug Hunter · Auckland 36–42 = The Disastrous Starter · Lytton 76–80 = The Forward Viceroy · Ripon 80–84 = The Retreat Viceroy · Dufferin 84–88 = The Last Annexer

At a glance: four phases under one roof

WHY IDEOLOGY COMES BEFORE POLICY

📖 Story link · beat 1: Story so far: one roof, four columns. Because every ideology was belief and cover story, policy followed ideas.

Imperial ideologies = ideas that shaped colonial policy; not one fixed set, they changed and competed. One function: show that rule was not just profitable but morally right. Each was both a genuine belief and a convenient narrative. 💡

Mains: always show both layers; many Englishmen were sincere (see common ground), yet the ideas served British power. ✅

FOUNDATION: WHITE MAN'S BURDEN (WMB)

📖 Story link · beat 1: Because the British were sure of themselves, they felt a duty to civilise.

WMB = 'We are superior' + 'Civilize the rest of the world'. Roof over all ideologies; they differ on how exactly to civilise India. Every major imperial power had its own version. ⭐

Five roots of confidence

→ 1 First modern democracy: English Civil War + Glorious Revolution (17th c.)
→ 2 Birthplace of the Industrial Revolution (c. 1750–1850)
→ 3 Won the Seven Years' Global War (1756–63)
→ 4 Financed the coalition that beat Napoleon at Leipzig (1813); led allies with Prussia to Waterloo (1815)
→ 5 Capitalism and science transforming society; all within 150 years

🎯 WMB's opposite: 4 counter-ideologies (Mains 2014)

→ American Revolution: movement from 1765, War of Independence 1776–83
→ French Revolution 1789: liberty, equality, fraternity
→ European revolutions of 1830 and 1848
→ Irish Home Rule (1870–1914) + Irish armed struggle (1916–21)
→ Inspired colonised peoples incl. Indian nationalists

Source note: typed slide shows only two counter-ideologies (American, Irish): use the handout's four.

Ideology	One-liner (teacher)
Orientalism 1765	Rule India the India Way: Hindu law, Islamic law, Indian languages, Indian syllabus
Authoritarianism 1786–93	My way or highway: Indians removed from all senior positions
Liberalism	Give India the best ideas of our time, but best = west
Utilitarianism	Civil servant mind: effectiveness, max results, practical; good laws + strong State
Evangelicalism	Christianize India to modernize India
After 1857	Indians beyond reform; 'Dogs and Indians not allowed'; more Authoritarianism + more Racism

Source conflict (dates): board: Authoritarianism 1786–93, boundaries 1813 and 1858 (Queen Victoria's Proclamation). Handout summary table: 1786–1805 (Cornwallis 86–93 + Wellesley 98–05) plus Conservatism 1801–27, which the board omits. Board for sequence, table for champions.

🎯 ORIENTALISM 1765–1813: RULE INDIA THE INDIA WAY PYQ 2020

📖 Story link · beat 2: Because the EIC was scared and some wanted to spare India, it chose to rule the India way.

What and why

→ 18th c.: language and literature = measure of civilisation; William Jones found Sanskrit older and grammatically richer than Greek and Latin

→ Conclusion: ancient India great (past glorious, present degenerate); European and Indian languages one family = Indo-European (genuine scholarship)

→ Why EIC adopted it (2): (1) militarily not confident before 1813; a cultural insult could trigger mass resistance (2) some believed India not ready for British modernity

→ Warren Hastings 73–85 = main champion: the more Britain understood Indian traditions, the lighter the chains

📖 Story link · beat 3: Now institutions follow the idea: four Orientalist bodies.

#	Year	Institution	Founder and capacity
1	1781	Calcutta Madrasa	Warren Hastings 73–85, GG of Bengal; Islamic law and customs
2	1784	Asiatic Society of Bengal	Sir William Jones, Puisne Judge, Supreme Court Calcutta; Asian history, antiquities, culture
3	1791	Sanskrit College, Banaras	Jonathan Duncan, Resident at Benares; Hindu law and philosophy
4	1800	Fort William College, Calcutta	Wellesley 98–05, GG of Bengal; train new EIC civil servants in Indian languages and administration

Prelims 2020: Fort William College = (d) train British civilians. (a) Board of Directors asked: wrong, Wellesley 98–05's own initiative; (b) revive oriental learning: that was Asiatic Society 1784 + Sanskrit College 1791; (c) William Carey's job: he only worked there. Second motive (Wellesley 98–05): keep French republican ideas (1789; monarchy overthrown 1792) away from his officers. ⭐

Political angle: British backed the Aryan Invasion Theory (India's greatness brought by migrant Europeans); kinship argument: 'we are not foreigners, we are cousins come home' = rhetoric of love hiding exploitation. Handout figure names: Colebrooke, Wilson, Prinsep (Brahmi), ASI 1861 by Alexander Cunningham; learn lightly. 💡

Source note: typed slide dates William Jones '(late 19th c)'; handout places him in the 18th c. (Asiatic Society 1784): use the handout.

AUTHORITARIANISM: CORNWALLIS 86-93 AND CONSERVATISM

📖 Story link · beat 4: Because critics said the past was dead, Cornwallis 86-93 imposed the English way.

🧑‍🤝‍🧑 Cornwallis 86-93: India, the English Way (first systematic GG)

→ Critics: study showed past glorious, present degenerate, so restoring the past is pointless; impose the British system

🔧 Four measures

→ 1 All-British senior administration: Indians replaced; 'corrupt native needs honest foreigner' story used till 1947

→ 2 Rule of Law: Charter Act 1793: civil law, individual rights, private property; Collector no longer also Judge (separation of powers at district)

→ 3 Permanent Settlement 1793 (Bengal): zamindars as English-style landlords (Ch 16)

→ 4 Aloof Elite: no mixing, Indian wives discouraged, Eurasians barred from EIC service, officials with Indian wives barred from buying land

Teacher: 'My way or highway'; PS 1793 = outlier to Orientalism (English agriculture model), so it sits with Authoritarianism. Aloof Elite roots: Cornwallis 86-93 commanded the British defeat in the American War 1776-83, saw settlers in the 13 colonies take root and fight for it; rule: never let India become home. Wellesley 98-05 shared the instinct: control-oriented, centralised, mistrustful of Indians.

📖 Story link · beat 5: Between the two, a hybrid appears: Indian coat, British hand.

📚 Conservatism (Munro school)

→ Thomas Munro, Governor of Madras 1820-27: govern through Indian traditions, but British govern, no leadership for Indians

→ Ryotwari (1801-07, 1820+) in Madras: State collects from peasant directly (ancient model), but all by EIC officials

→ Orientalist in form, Authoritarian in substance

→ Same school: Elphinstone, Malcolm, Metcalfe; Elphinstone (Munro's disciple) brought Ryotwari to Bombay

1813 TURN: LIBERALISM, UTILITARIANISM, EVANGELICALISM

📖 Story link · beat 6: Because the EIC was confident by 1813, three reform ideas took over.

Why the turn in 1813

→ 1 EIC beat all major powers (only Holkar, Bhonsle, Sikh State left) 2 huge army 3 Napoleon beaten 4 Industrial Revolution in full swing

→ Confident to rule 'the British way: openly, aggressively, without apology'

→ New economic motive: western tastes and education = a market for British goods

Liberalism

→ Orientalism governed badly: Great Bengal Famine 1770, one crore died while the EIC doubled land revenue

→ Modernise with the best ideas (best = west); free India from feudal polity, economy (agrarian, closed, unequal), society (birth discrimination, no women's rights)

→ Law Commission 1834: western-style laws codified by 1837

👥 Thomas Macaulay (Law Member, Charter Act 1833)

→ Minute on Education 1835: English-medium western education, Brown Sahibs (brown outside, British inside) = cultural intermediaries

→ Charter Act 1813 (Liberal-influenced): ended EIC trade monopoly, non-EIC British business enters = economic liberalism for British, not Indian, business

→ Bentinck 28-35: Sati Abolition Act 1829 (Ch 19)

Date wrinkle: slide and handout list Charter Act 1813 among Macaulay's 'interventions', but his council seat came with the Charter Act 1833. Read 1813 as a Liberal-era measure, not his act. His own: Law Commission 1834, Minute 1835.

Utilitarianism

→ Jeremy Bentham, James Mill (list also JS Mill): not culture change but good policy and strong rule of law; laws for the greatest number

→ James Mill's History of British India (1818): India's great past a myth; needs an effective schoolmaster imposing governance from above

→ Mill joined the Court of Directors, pushed the Law Commission 1834 under Macaulay

→ Inherent authoritarian streak

Evangelicalism

→ India's problem = religion (superstition, ignorance, idolatry, priestly tyranny, blocks science): religion shapes values, values shape society; change religion, change everything

→ Model: Protestant Christianity (Protestant ethics supported capitalism)

→ Charles Grant (Director, later MP) shaped Charter Act 1813: missionaries legalised

→ Lex Loci Act / Removal of Religious-Caste Disabilities Act 1850: convert keeps inheritance rights (Ch 19)

Charter Act 1813 under two ideologies: Liberal side = ended EIC trade monopoly; Evangelical side = allowed missionaries. Keep the two effects apart.

Common ground: all three pushed colonial-State reform and built the narrative of Benevolent Colonialism ('we are here to help you'); many were sincere; together they fed the 1857 resistance (cultural, economic, political).

🎯 LIBERALISM SHIFT 1828-35 PYQ 2003

📖 Story link · beat 7: Because Liberal confidence peaked in 1828-35, four interventions followed.

Bentinck 28-35 to Charter Act 1833 to Macaulay's Minute 1835 = high-water mark of Liberal confidence. Four interventions: 1 Sati Abolition Act 1829 2 Thuggee suppression (1830s-40s, Sleeman; Prelims 1997) 3 Macaulay's Minute 1835: English replaces Persian as higher medium 4 Cornwallis 86-93 Code revised into a uniform criminal procedure, base for the 1834 Law Commission.

Charter Act 1833 trap (Prelims 2003, answer (d)): it did NOT provide for an Indian law member in the GG's council; Macaulay, the law member, was a Briton.

RACISM + AUTHORITARIANISM AFTER 1857

📖 Story link · beat 8: Because 1857 shocked the British, reform retreated and race hardened.

Teacher's board: 1857 = SHOCK; 'Indians are beyond reform'; 'Dogs and Indians not allowed'; up-up Authoritarianism + up-up Racism. Violence against British rule (soldiers, civilians, women, children) broke the trustee-and-reformer narrative.

Six-front shift

→ 1 Reform retreated: Liberalism, Utilitarianism, Evangelicalism collapsed
→ 2 Racial science moved from language to physical features: Indians a lower race, not kin
→ 3 Aryan Invasion Theory twisted: Europeans founded Vedic civilisation but intermarried and degraded; greatness used as proof of inferiority
→ 4 'Dogs and Indians not allowed' signs at clubs and parks
→ 5 More Authoritarianism: no real power-sharing
→ 6 Social reform slowed: Queen Victoria's Proclamation 1858 promised religious tolerance and non-interference; later reform came mainly from Indian pressure

Aspect	Orientalism (before 1857)	After 1857
Race criterion	Language	Physical features
Indians seen as	Separated kin, cousins	Inferior, different race, lower order
Aryan Invasion Theory	Europeans brought greatness: 'cousins come home'	Founded Vedic civilisation, intermarried, degraded
Policy mood	Rule India the India Way	Reform retreated; more Authoritarianism

Architects: Lytton 76-80 (Vernacular Press Act 1878 + Arms Act 1878, racial privilege; Ch 19) and Curzon 99-05 (Partition of Bengal 1905, same mindset administratively; Ch 29): empire as prestige, paramountcy, racial hierarchy.

🎯 SLEEMAN AND THE THUGS PYQ 1997

📖 Story link · beat 7: Back in the Liberal years: because the roads were unsafe, law-and-order paternalism ran alongside.

📜 Law-and-order paternalism

→ Parallel track between Orientalism and Liberalism; flagship Thuggee and Dacoity Suppression 1830s-40s under Captain (later Major-General Sir) William Sleeman, Bentinck 28-35
→ Thuggee and Dacoity Department 1835; three tools: informant networks, approver testimony (lighter sentences), swift judicial commissions
→ Over 3,000 Thugs convicted 1831-41; Grand Trunk Road made safe

Prelims 1997: (b) Captain Sleeman. Distractors: Prendergast = Upper Burma 1885-86; Burnes = Afghan frontier, killed in 1st Afghan War 1841; Pemberton = Assam/Burma frontier officer.

🎯 FORWARD POLICY: AUCKLAND 36-42 TO LYTTON 76-80 PYQ 1999

📖 Story link · beat 9: Because Russia was feared, the frontier was pushed into Afghanistan.

Forward Policy: push the effective frontier into Afghanistan to pre-empt Tsarist Russia, rather than hold a fixed Indus line; classic PYQ trap.

1839-42
Auckland 36-42: 1st Anglo-Afghan War, Shah Shuja vs Dost Mohammad; retreat from Kabul Jan 1842

1842
Ellenborough 42-44: punitive return to Kabul, frontier-outward doctrine (handout)

1878-80
Lytton 76-80: 2nd Anglo-Afghan War; Treaty of Gandamak 1879; 2nd phase after massacre of Resident Louis Cavagnari at Kabul

1880-84
Ripon 80-84 reversed it, withdrew from Afghanistan (Liberals in London)

Gandamak 1879 (handout: mini SA)	Term
Resident	British Resident at the Amir's court
Army	British forces stationed

🌐 Foreign policy	Taken by the British
🗺️ Territory	Khyber Pass and some lands to the British
In return	British pay 6 lakh a year to the Amir

Source conflict (Ellenborough 42–44): handout and flow chart = he initiated the Forward Policy; slide says he 'Ended Forward Policy (*Correct this in notes)', flagged for correction by its own author; slide also spells 'Aukland'. Follow the handout; Prelims answer slide says Lytton 76–80 carried forward the policy 'initiated by Ellenborough 42–44'. Safe core: Auckland 36–42 = 1st war; Lytton 76–80 = 2nd war; Ripon 80–84 reversed.

Prelims 1999: (d) Lytton 76–80. Minto (II 1905–10) is after Curzon 99–05; Dufferin 84–88 = Upper Burma 1886; Elgin (I 1862–63 or II 1894–99) another era. Hook: Lytton 76–80 = Forward, Ripon 80–84 = Retreat. ⭐

Russophobia and Great Game (revision)

→ Russophobia: fear Czarist Russia via Central Asia would reach the NW land approach

→ Great Game = Anglo-Russian rivalry; shaped frontier policy more than trade

→ Offence: Forward Policy (two Afghan wars 1839–42, 1878–80). Defence: Ring Fence (Afghanistan + Punjab as buffer)

→ 1838 Tripartite Treaty (Sikh State, EIC, Shah Shuja) (Ch 6, 14)

→ Persian flank: Anglo-Persian War 1856–57; Anglo-Russian Convention 1907 split Iran in three: Russian north, neutral buffer middle, British south (Ch 14)

Handout: Ring Fence began with Clive 57–67 in 1765 (Ch 10); Five-Policy Arc in Ch 14. 💡

🎯 DUFFERIN 84–88 AND UPPER BURMA 1886 PYQ 2000

📖 Story link · beat 10: Because the land-grab ended in Burma, one year matters: 1886.

🧑‍🤝‍🧑 Last major extension of British India

→ Upper Burma annexed Jan 1886 after the 3rd Anglo-Burmese War 1885–86; Viceroy Dufferin 84–88

→ King Thibaw deposed, exiled to Ratnagiri

→ Field commander General Henry Prendergast (the Prelims 1997 distractor)

→ Merged with Lower Burma (British from 1852, Dalhousie 48–56, Ch 14); province of British India till 1937

Prelims 2000 (a) Dufferin 84–88, with nuance. Dalhousie 48–56 (Punjab 1849, Awadh 1856, Lapse) was the big annexation GG but his last major extension was Awadh 1856; Lytton 76–80 made no territorial extension (tightened Paramountcy-era tools like Jacobabad 1876); Curzon 99–05's Partition of Bengal 1905 was administrative. Burma was not traditionally part of India, so the 'famous' answer and possibly the official key is Dalhousie 48–56; but the question says 'British Indian territory', so (a) is legally correct: use (a), keep Dalhousie in mind.

🎯 IMPERIAL PREFERENCE PYQ 1999

📖 Story link · beat 10: Because trade was bent to the empire, tariffs favoured Britain.

Imperial Preference

→ Empire units (Britain, Dominions, India) give each other lower tariffs than non-Empire competitors

→ Formalised at Ottawa Conference 1932: India's trade locked into Empire-first structure (Ch 27)

→ British goods entered Indian ports cheaper than German, Japanese, American ones

Prelims 1999: (a) special privileges on British imports in India. (b) racial discrimination = post-1857 racism; (c) too vague; (d) Political Department protocol. Key word: tariff. ⭐

Five antiquarians PYQ 2023	Notable work
Alexander Rea	Excavated Amaravati, Bhattiprolu
🧑‍🤝‍🧑 A.H. Longhurst	Excavated Nagarjunakonda, Hampi
Robert Sewell	'A Forgotten Empire' (Vijayanagara)
James Burgess	First Director, Archaeological Survey of Western and Southern India
Walter Elliot	Madras Civil Service; catalogued Andhra Buddhist sites and coins

Stray table (no heading in the handout). Answers Prelims 2023: all five = (a) archaeological excavations; ties to Orientalist scholarship via ASI 1861 (Cunningham). Handout figure (timeline of ideologies 1757 to 1947 over the WMB bar) also names Wilkins (Orientalism) and Trevelyan (Liberal era): names only.

🎯 FOREIGN IDEOLOGIES MOTIVATING INDIA'S STRUGGLE PYQ 2014

📖 Story link · beat 11: Because the burden produced its opposite, world events fed Indian nationalism.

🎯 Mains 2014: three buckets + carriers

Pre-1900 political

→ American Revolution 1765-83
→ French Revolution 1789
→ European revolutions 1830, 1848
→ Irish Home Rule 1870-1914, armed struggle 1916-21

Three 20th-c. shocks

→ Deindustrialisation (handloom) fed Drain Theory of Dadabhai Naoroji and R.C. Dutt
→ Russian Revolution 1917: peasant-worker mobilisation model, anti-imperial vocabulary
→ Post-WWI self-determination, Wilson's Fourteen Points 1918 + rising anti-racism

💡 Carriers (people, not ideas alone)

→ Gandhi from South Africa (diaspora struggles 1893-1915)
→ Nehru from Cambridge (Western liberal-democratic theory)

Answer frame: intro (ideas challenged rule as much as arms; WMB produced its opposite, travelling in via newspapers, returning students, exiles) → 4 bodies: political-ideological, economic, social-ideological, carriers → close: the empire's own moral claim became its weak point. The MMP deck (Fable_MMP_Ch_15) holds the answer map; the Appendix FYQ_Mains is not in this notebook. Handout numbering glitch: points numbered 13.1 to 13.3. ✅

Cross-listed PYQs (mainly other chapters): Prelims 1996 education chronology, 1998 Press Regulation Act 1799 (Wellesley 98-05), 2003 Charter Act 1833, 2007 Clive and first Factory Act, 2015 economic critics, 2018 English education, 2020 handicrafts ruined. Bank: 14 Prelims + 1 Mains PYQ.

SUMMARY: THE EIGHT IMPERIAL IDEOLOGIES

📖 Story link · beat 11: Last scene: the eight ideologies with champions and measures, all under the White Man's Burden roof.

#	Ideology	Period	Champions	Flagship measures
1	White Man's Burden	Foundation	All Englishmen	Civilising-mission rhetoric
2	Orientalism	1765–1813	Warren Hastings 73–85, Jones, Colebrooke, Wilson	Madrasa 1781, Asiatic Society 1784, Sanskrit College 1791, Fort William 1800
3	Authoritarianism	1786–1805	Cornwallis 86–93, Wellesley 98–05	Code 1793, Permanent Settlement 1793, Aloof Elite
4	Conservatism	1801–27	Munro, Malcolm, Elphinstone, Metcalfe	Ryotwari; political agencies
5	Liberalism	1813–57	T.B. Macaulay, Bentinck 28–35	Sati 1829, Minute 1835, Law Commission 1834
6	Utilitarianism	1813–57	Bentham, James Mill, JS Mill	Law Commission 1834, codification, IPC 1860
7	Evangelicalism	1813–57	Charles Grant, Wilberforce, Zachary Macaulay	Charter Act 1813 (missionaries), Lex Loci Act 1850
8	Racism / Crown Paramountcy	post-1857	Lytton 76–80, Curzon 99–05, Dufferin 84–88	Proclamation 1858, VPA 1878, Upper Burma 1886, Imperial Preference (Ottawa 1932)

Names only in the summary table: Colebrooke, Wilson, Wilberforce, Zachary Macaulay, JS Mill, IPC 1860: learn as names to match. Handout's own table printed badly; rebuilt from typed slides.

Recall drill: cover and answer

WMB and its five roots?	West superior, duty to civilise: first democracy, Industrial Revolution 1750–1850, Seven Years' War 1756–63, Leipzig 1813/ Waterloo 1815, capitalism and science	Four Orientalist institutions?	Calcutta Madrasa 1781 (Hastings 73–85), Asiatic Society 1784 (Jones), Sanskrit College 1791 (Duncan), Fort William 1800 (Wellesley 98–05)
Prelims 2020 Fort William?	To train British civilians; not Board request, not oriental revival, not Carey	Cornwallis 86–93's four measures?	All-British senior posts; Charter Act 1793 rule of law (Collector not Judge); Permanent Settlement 1793; Aloof Elite
Munro's formula?	Orientalist in form, Authoritarian in substance; Ryotwari Madras (Elphinstone to Bombay)	Liberal, Utilitarian, Evangelical: one line each?	Best ideas = west (Macaulay); good laws + strong State (Mill); Christianize to modernize (Grant)
Post-1857 six fronts?	Reform retreats; race by physical features; AIT twisted; Dogs and Indians; more Authoritarianism; social reform slows (Proclamation 1858)	Forward Policy chain?	Auckland 36–42 (1839–42), Ellenborough 42–44 (punitive Kabul), Lytton 76–80 (Gandamak 1879), Ripon 80–84 reversed
Prelims 1997, 2000, 1999?	Sleeman = Thugs; Dufferin 84–88 = Upper Burma Jan 1886; Imperial Preference = tariffs, Ottawa 1932; Forward Policy = Lytton 76–80	Mains 2014 in one line?	American, French, 1830/1848, Irish; deindustrialisation + Drain; Russia 1917 + Wilson 1918 + anti-racism; carriers Gandhi, Nehru

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

IPC = Indian Penal Code, 1860 — Old criminal code, replaced by the BNS

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

WMB = WHITE MAN'S BURDEN

LAND REVENUE SYSTEMS (1765–1885)

PYQ Prelims 2000, 2001, 2011 (litigation), 2012, 2017, 2021, 2024 · class-slide revision 1995, 2011 (Kheda) · Mains: "Why so many famines in British India?" (teacher starred), "empire built and sustained by DnR" (class FYQ)

✎ *Every system answers five questions: owner, assessment, settlement, collection, tenants. Each British answer left the ryot worse off than the Mughal patta: auction, fixed-forever Zamindar, over-assessed ryot, unsurveyed Mahal, then cash revenue, cash crops and famine. Each failure forced the next experiment.*

📖 THE STORY FIRST (same story as the textbook)

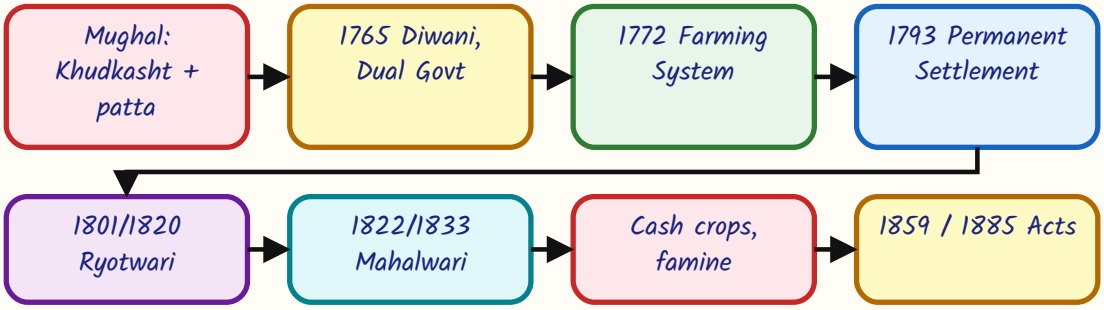

Every system answers five questions (landowner, assessment, settlement, collection, tenants' rights), and every British answer left the ryot worse off than the Mughal patta: auction, then a fixed-forever Zamindar, then an over-assessed ryot, then an unsurveyed Mahal, with cash revenue pushing him to cash crops and famine. Each failure forced the next experiment.

1. **The Mughal patta.** Khudkasht holds customary rights and pays by patta. Zamindar is a 10% commission collector (Vatan right), not owner; only the King owns. Hurry for money means auction (Ijaradari).
   → But in 1765 the EIC takes over the collecting.
2. **Diwani, but the old chain (1765–70).** EIC gets the Diwani, keeps the Mughal chain under Muhammad Reza Khan. Patta ignored, rents soar, drought: Great Bengal Famine 1770 kills 50 lakh to 1 crore. Reza Khan jailed 1772–74 as scapegoat.
   → By 1772 the EIC is in trouble itself.

3. **Bankrupt (1772).** EIC bought goods with India's land revenue, so famine hit its income. Near bankrupt, it takes 1.4 million pounds at 4% from Parliament, which brings the Regulating Act 1773.
   → Meanwhile Warren Hastings 73–85 tries to squeeze more.
4. **The auction year (1772).** Warren Hastings 73–85 auctions each district to a Revenue Farmer under a European District Collector. Farmers squeeze ryots to recover bids; demand too high, peasants pay nothing, revenue does not improve.
   → Now the EIC wants certainty and a loyal landlord class.
5. **Cornwallis 86–93, the Believer (1793).** Cornwallis 86–93 trusts English landlordism. Permanent Settlement 1793: Zamindar owner, LR fixed forever at 10/11 of 1789–90 (Rs 66 to Rs 60), Sunset Clause auctions defaulters.
   → But the results diverge from the intentions.
6. **What the Permanent Settlement did.** Early auctions, then loyal Zamindars and certain revenue. But no investment, absentee owners, ryot a tenant at will with patta ignored. Wellesley 98–05 restores coercion (Regulation VII of 1799); courts clog.
   → Ryots revolt and the British have to act.
7. **Patching the ryot's rights (1859 and 1885).** Rent Act 1859: occupancy after 12 years, patta revived, no imprisonment; Zamindars evict at year 11. Indigo Revolt, Pabna follow. Ripon 80–84's commission leads to Bengal Tenancy Act 1885 under Dufferin 84–88.
   → Meanwhile, in the south, Munro rejects the Bengal model.
8. **Munro's Ryotwari (1792–1820).** Big Zamindars through Poligars fail in Madras. Read begins Ryotwari in Baramahal 1792; Thomas Munro convinces the Directors 1801, rules Madras 1820–27. Yeoman ideology: ryot owns, settled directly after field survey.
   → But the survey is the hard part.
9. **Over-assessment and the Deccan riots.** Gross-produce demand of 33% to 50% ruins ryots. Net produce: Pringle 1830 reaches 55%, Wingate Settlement 1835 fixes 30 years. Cotton boom of 1861–65 collapses; debts cause Bombay Deccan Riots 1875.
   → In the north, a third answer is built for Awadh.
10. **Mahalwari (1822–1856).** Talukdars crushed 1801–22. Holt Mackenzie's Regulation VII of 1822 settles with the Mahal; R.M. Bird 1833 assesses 66% for 30 years; Dalhousie 48–56 extends it. Awadh summary settlement 1856 feeds 1857.
   → One more pressure squeezed all three systems: cash.
11. **Cash instead of grain.** British demand cash, not grain. Moneylenders and traders push ryots from food crops to indigo, cotton, opium, jute, sugarcane for British factories. Less grain stored feeds late 19th century famines.
   → So whichever system, the ryot lost.
12. **Why three systems, and why the ryot lost.** Cornwallis 86–93 made PS, Munro made Ryotwari, Mahalwari was a compromise. In all three, high demand, bad surveys and moneylenders left the ryot worse off than the Mughal patta.

Cast: Khudkasht = The Patta Holder · Zamindar (Mughal) = The Collector · Muhammad Reza Khan = The Scapegoat · Warren Hastings 73–85 = The Auctioneer · Cornwallis 86–93 = The Believer · Wellesley 98–05 = The Re-armer · Thomas Munro = The Yeoman's Friend · Alexander Read = The Pioneer · Elphinstone = The Importer · R.K. Pringle = The Overcharger · Wingate (and Goldsmid) = The Fixer · Holt Mackenzie = The Hybrid Builder · R.M. Bird = The Mahal Man · Dalhousie 48–56 = The Extender

At a glance: the route

Teacher's FIVE-QUESTION FRAME (learn every system as a row): 1 Landowner? 2 Assessment? 3 Settlement with? 4 Collection by? 5 Tenants' rights? Why it matters: State's duty = economic security; in a pre-industrial country that = agrarian economy (agriculture big share of GDP, ryots big share of work profile). ⭐

MUGHAL BLUEPRINT (the yardstick)

📖 Story link · beat 1: Because the British inherited the Mughal chain, learn it first: the patta and the Zamindar as collector are the yardstick.

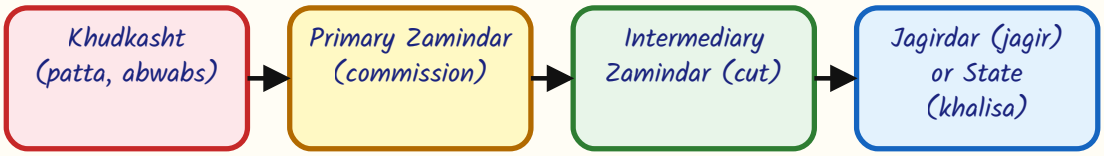

🛡️ Multiple right holders

→ State (King): right to receive, decide, revise LR; khalisa LR goes straight up; from jagirs to Jagirdars (right to receive LR, by State grant)

→ Zamindar: Vatan right to collect LR + keep 10% commission; also police duties; NOT owner

→ Khudkasht (actual cultivator): customary occupancy right (cannot be thrown off) + right to fair LR via Patta system; also pays abwabs (informal tribute) to Primary Zamindar

💰 Mughal revenue chain

Patta = document of what the ryot owes (who cultivates, plot, crop, LR demand) = legal safeguard vs over-extraction (a rent agreement). Amils and Amalguzars (govt officers) supervised so Zamindars did not under-report. Legal private ownership = British idea (English law). Land not a commodity (only conquest or gift): no sale, lease, mortgage, no land market; land market begins 1793. Pre-British, 'rent' and 'revenue' used interchangeably. 💡

Handout figure slip: bottom box says 'Amlas'; text names State supervisors as Amils and Amalguzars. Amlas = private employees of Zamindars, not State officers. Use Amils and Amalguzars. 📌

Ijaradari = State in a hurry for money auctioned the right to collect LR to the highest bidder (British replicate it 1772). 💡

Five questions	Mughal	Ijaradari (fallback)
Landowner	Khudkasht (practically his milkiyat; legally only the King)	Ryot or Khudkasht (practical)
Assessment	Detailed survey; % of gross produce (e.g. one-third); revisable	Summary, by auction; an amount
Settlement with	Ryot (gives Qubuliyat to State; State gives patta)	The Ijaradar, via auction

Collection by	Non-State actor: Zamindar	The Ijaradar
Tenants	Rightless, landless Pahikashts	(not written)

RIGHTS, ASSESSMENT, SETTLEMENT (primer)

📖 Story link · beat 1: Because every system is judged on the same five questions (owner, assessment, settlement, collection, tenants), keep them ready.

Layer of rights in land	Right
a	Ryot: cultivate and occupy plot
b	Fair rent (tenant) or fair LR (owner)
c	Owner: sell, lease, rent, mortgage, receive proceeds
d	Collect taxes (State or Vatan holders e.g. Zamindars)
e	Receive proceeds and revise rates (State; Jagirdars by State grant)

Two kinds of rights: given by law (State rules) and customary (society's conventions, e.g. Vatan rights of Zamindars). Assessment = how much tax: by detailed field survey (soil quality, irrigation, crop type, plot size, rainfall; board adds drought/flood frequency, past LR trends) or summary (rough); a fixed absolute amount or % of produce; permanent or revisable. Settlement = with whom the State negotiates and who deposits LR: with cultivator (Ryotwari-style) or intermediary (Zamindari, Mahalwari).

Rent = always paid by a tenant to an owner; taxes = always borne by the owner; lease = long-term rent; salary = employees only. State is ultimate recipient, may collect via officers or non-State intermediaries. GST analogy: shopkeeper deposits tax the buyer bears. In land systems owner always bears tax; settlement may or may not be with the owner: PS 1793 landowner (Zamindar); Ryotwari 1801, 1820 landowner (ryot); Mahalwari 1822 not the landowner (the Mahal via Lambardar).

Zamindar changes meaning: before 1793 = LR collector, not owner; from 1793 = legal landowner ('conditional ownership': Sunset Clause can take land); after 1947 'Zamindari abolition' = abolishing big landownership.

EXPERIMENT 1: DUAL GOVERNMENT 1765–72

📖 Story link · beat 2: Because the EIC held the Diwani from 1765, it had to collect revenue; the old chain stayed, then famine 1770 and bankruptcy came.

1765 Diwani

→ Treaty of Allahabad (ToA 1765): Diwani of Bengal, Orissa, Bihar

→ EIC appointed Deputy Subadar Muhammad Reza Khan as its Diwan; Mughal collection continued = Orientalism (Indian traditions best run on their own terms)

→ Greed anyway: frantic squeezing, Patta ignored, rents far beyond pattas, then back-to-back droughts

→ Great Bengal Famine 1770: 50 lakh to 1 crore dead; EIC doubled demand in 1770, used brutality; first British whistleblowers wrote to London papers

→ Reza Khan scapegoat: jailed without trial 1772–74

Famine toll: this handout 50 lakh to 1 crore; Ch 10 handout about 1 crore, one-third of Bengal. Quote the range; 'about one crore' = upper end.

Teacher's stressed phrases: Deputy Subadar, Orientalism, Patta ignored, back-to-back droughts, doubled in 1770, brutality, imprisoned without trial, 1772–74. Famine = nature factor (droughts) + human factor (doubled demand, ignored pattas, brutality) (Ch 10).

1772 bankruptcy

→ Since 1757 EIC bought Indian goods with India's own LR (not English gold): famine hit income directly (Drain logic, Ch 10); LR collapsed

→ Causes: officials' corruption (Nabobs), 1770 famine, heavy army + Dual System costs

→ Bailout from Parliament: 1.4 million pounds at 4%, strict condition of oversight = Regulating Act 1773 (Ch 17)

EXPERIMENT 2: FARMING SYSTEM 1772

📖 Story link · beat 4: Now the bankrupt EIC wants more: Hastings 73–85 auctions each district, farmers squeeze the ryots, revenue does not improve.

🧑‍🤝‍🧑 Warren Hastings 73–85 (Orientalist)

→ Revived Mughal Ijaradari = Farming System; Revenue Farmer = Ijaradar (like a farmer extracting profit by contract, not a tiller)

→ District right to collect LR auctioned to highest bidder; worked under a European DC (English, Scottish or Irish, not English alone)

→ Farmers squeezed max to recover bids + profit; demand so high that peasants paid nothing: self-defeating; revenue did not improve, rural population ruined

→ Assessment = auction; settlement = Revenue Farmer

Ryot's three blows in a row: 1757+ high LR, 1770 Great Bengal Famine, 1772 Ijaradari. ⭐ Till 1813 ideology = Orientalism ('Rule India the India way'): Mughal collection kept after 1765, Ijaradari revived 1772; turn away after Charter Act 1813 (Ch 17). Hastings 73–85 years as the board lists: 'To Purandhar 1776 @ Ma', 'To Salbai 1782', 'HA 61–82: military alliance 1769', '2nd A-My 1780–84' (To = Treaty, Ma = Marathas, HA = Haidar Ali 61–82; Ch 12, 13).

📜 EXPERIMENT 3: PERMANENT SETTLEMENT ACT 1793

📖 Story link · beat 5: Now the EIC wants certainty and a loyal landlord class, so Cornwallis 86–93 fixes the revenue forever.

📌 **BOB** — Bengal · Orissa · Bihar (+ Benaras + North Madras) = where PS 1793 applied (teacher's 'BOB + Benaras + N. Madras')

Cornwallis 86–93 (GG of Bengal 1786–93; 1786–1793)

→ Sent with one assignment: fix the LR problem; passed PS through GG(Bengal)'s Council, extended to Madras on his instructions

→ AUTHORITARIAN ('my way or highway'); from a landlord family, inspired by English agrarian capitalism; = Believer in English landlordism

→ By 1801 Thomas Munro convinced Court of Directors to replace it with Ryotwari in Madras; PS survived in North Madras

Five questions	PS 1793
Landowner	The Zamindar
Assessment	No field survey; summary; absolute amount (not %); not revisable
Settlement with	The Zamindar
Collection by	District Collector (DC)
Tenants	No rights: Zamindar may charge any rent and remove them

Pillar 1: land to Zamindar

→ Full proprietary rights first time = legal owners; land a commodity (sold, bought, leased, rented, mortgaged); hereditary

→ Why: (a) ideology: English landlordism, make Zamindars agrarian capitalists; security of property induces investment (b) agrarian capitalism = food security, agri trade, more EIC LR (c) loyalty of traditional rural leaders = political stability

→ Revenue Farmers not made owners: outsiders to the agrarian economy, no expertise

→ Board: a big landowner invests (irrigation, machines as in Industrial Revolution 1750–1850, hired labour); candidates = rich Zamindar (by 1727, 15 Intermediary Zamindars collected 50% of Bengal Suba's LR,

group of Murshid Quli Khan (MQK 17–27)), moneylender, urban merchant; Zamindar thinks of agriculture 24x7 (commission), Ijaradars think margin and interest

'PS 1793 = DnR' (Divide and Rule): leaders and followers; DnR can pit leader vs leader, follower vs follower, or favour one tier (L happy F sad, or L sad F happy; e.g. 'Bangladesh, Nepal'). Board does not state which pattern for PS. Read from Impact: leaders (Zamindars) rewarded, masses (ryots) stripped of rights (a reading, not a board statement). ⭐

Pillar 2: settlement with Zamindar

→ Fewer, bigger counterparties ('LR payers'): simpler collection
→ Zamindar responsible for depositing LR

Pillar 3: permanent assessment

→ 10/11 of the Zamindar's pre-existing revenue (collected from ryots before deducting his commission), base year 1789–90
→ Fixed forever, absolute annual amount, not % ('FIG not %')
→ Why permanent + absolute: (a) incentivise Zamindar: no rise however profit grew (b) certainty even in drought (c) less administration, no repeat surveys, less corruption (d) trade-off: State gave up future increases so set initial demand very high (inflation would shrink it to 'practically nothing in 100 years')
→ Estimates: some say double the 1765 level; others 20% above 1757 levels

Board arithmetic	Rs
Ryot's produce	100
Before 1793: LR = two-thirds = 66%, collected by Zamindar	66; ryot keeps 34
Zamindar keeps 10% of 66	6.6; State gets 59.4
After 1793: 10/11 x 66	60 fixed forever
Above 60 is Zamindar's	e.g. Zamindar takes 13, ryot keeps 40 – 13 = 27
Produce 120 in 1794	State still 60; Zamindar keeps gain, invests
Produce 0 in 1795	State still 60; Zamindar carries risk

Pillar 4: SUNSET CLAUSE

→ No LR by evening of pre-set deadline = land auctioned to anyone who agrees to pay the LR (buyer only has to agree, not pay in full)
→ Buyer bids for the LR, not land value: e.g. agrees to pay Rs 60 a year ('who can pay the value of 300 villages? No one': why workable)
→ Collection by State officers: District Collector

Prelims 2024 (b) 2 only PYQ 2024: (1) F: Ryotwari is not Cornwallis 86–93's, and bad harvest earns remission (reduction), not exemption (zero). (2) T: defaulting Zamindar loses land = Sunset Clause. ⭐

📜 IMPACT OF PS 1793 (7 points)

📖 Story link · beat 6: But results differ from intentions: loyal Zamindars and certain revenue, yet the ryot is a tenant at will, so Acts patch his rights.

📜 Impact

→ 1 Short term: frequent land auctions (demand too high, defaults); buyers Jotedars (rich farmers, less wealthy than Zamindars) + Zamindar's own family; later stabilised, Zamindars loyal (1857 Bengal's Zamindars mostly stayed British)

→ 2 Long term: British got certainty and regularity of LR (achieved)

→ 3 Vision failed: Zamindars did not invest (little surplus, would not risk old wealth)

→ 4 Absentee landlordism: leased lands to intermediaries for a lease amount, moved to cities

→ 5 Ryot catastrophic: PS gave rights to Zamindars, not ryot's customary rights: tenant at will, evicted without protection; patta ignored, high rents, abwabs now illegal yet still collected

6 Regulation VII of 1799

→ Cornwallis 86–93 had removed Zamindars' police powers (a businessman, not law enforcement)

→ Wellesley 98–05 reversed: Zamindar could (a) seize tenant property (crops, cattle) without court order on default (b) imprison tenants (c) increase rents at will

→ Class slide: wave of peasant revolts after 1793

🎯 7 Litigation rose: Cornwallis 86–93 Code of 1793 PYQ 2011

→ (a) DC stripped of all judicial and magisterial powers: revenue disputes once settled swiftly on the spot now formally filed in Diwani Adalats

→ (b) court fees abolished ('accessible' justice): flood of genuine + frivolous suits; reimposed 1795

→ (c) Vakils (lawyers) formally recognised + rigid hierarchy of appeals: cases deliberately prolonged

→ Judicial reforms belong to Ch 18; here because of Prelims 2011

Prelims 2011: (d) None of these: (a) strong Zamindars did not mean more suits: ryots had no means to sue; (b) EIC already overlord of the region since 1765 (Diwani); (c) courts became less efficient. Key phrase 'Cornwallis 86–93 Code of 1793'. ⭐

Prelims 2001 (b) no official check upon the Zamindar PYQ 2001: slide: Bengal Regulation VIII of 1793 required Zamindars to issue pattas (rent + tenancy terms); ryot could demand one. Gap = enforcement: govt cared about punctual payment. (a) trust, (c) pattas = Zamindar's duty, (d) protected cultivators: not the reason. ⭐

Mains FYQ 'empire BUILT and SUSTAINED by DnR': Built = created division (Triple Alliance, Treaty of Amritsar 1809, Subsidiary Alliance taking external affairs) + used division (factionalism, e.g. Treaty of Bassein 1802, SA with Peshwa Baji Rao II 96–18). Sustained = PS 1793 (loyal Zamindars). Ch 11, 13, 6. ✅

📜 Rent Act 1859 (Bengal)

→ After decades of peasant revolts. (a) tenant on same plot over 12 years: occupancy rights, no eviction without court order, no rent rise without just cause (b) under 12 years: rents not raised frequently (c) Patta system revived: rents at recorded rates (d) Zamindars lose power to imprison

→ Board: 'No more tenant at will'. Poor implementation: evict just before 12 years; Zamindars kept lathiyals (club-men, bribery); officials blind

→ Failure drove Indigo Revolt (1859–63) and Pabna Agrarian Leagues (1873): ryots fought for occupancy rights (Ch 20, 22)

→ Followed Ripon 80–84's Rent Commission 1880; passed under Dufferin 84–88; enacted by Bengal Legislative Council

📜 Bengal Tenancy Act 1885 (Act III of 1885)

→ Rights of Zamindars and ryots clearly defined; Zamindar powers reduced

→ Occupancy strengthened: tenants on different plots in same village totalling 12+ years get occupancy over the last plot = loophole closed

→ Implemented sincerely this time

RYOTWARI SETTLEMENT

📖 Story link · beat 8: Because Madras lacked big Zamindars, Munro builds another model around the ryot; the survey is the hard part, over-assessment follows.

SCAM-B — Sind · Coorg · Assam · Madras · Bombay = Ryotwari areas (teacher's 'SCAM-B')

Ryotwari followed annexations

→ Sind 1843 (Charles Napier)

→ Coorg 1834 (coffee plantations)

→ Assam 1824–26 (First Anglo-Burmese War; Yandabo 1826)

→ Bombay 1817–19 (Third Anglo-Maratha War)

→ Madras in pieces: 1766 Northern Sarkars; 3rd + 4th Anglo-Mysore Wars (Malabar + Baramahal from 3rd, Kanara from 4th, Dindigul too); 1801 the Carnatic (Ch 12)

Berar: class map lists Berar under Ryotwari; handout list does not. Both agree on the five places above.

Madras: from PS to Munro

→ First attempt = same as Bengal: extend PS; Cornwallis 86–93 and Wellesley 98–05 tried to create big Zamindars by recognising Poligars (landed magnates with private armies, autonomous since Vijayanagar 1336–1646): failed

→ 1792 experiment under Alexander Read in Baramahal (annexed in Third Anglo-Mysore War 1790–92); 1801 Munro convinced Court of Directors; 1801–07 applied in Madras

→ Diluted after Munro left for Britain 1807; re-established firmly as Governor of Madras 1820–27; he died in India

Prelims 2017 (c) 2 and 3 only PYQ 2017: Cornwallis 86–93 = PS 1793 architect (even tried PS in Madras via Poligars). Read 1792, Munro 1801–07 and 1820 = Ryotwari pair. Hook: Read + Munro = Ryotwari (Scottish, yeoman); Cornwallis 86–93 = Permanent (English landlordism). ⭐

Why Munro chose Ryotwari (5)	Reason
a Scottish ideology (stressed)	Scotland's hero = Yeoman farmer (landowner who cultivates, a richer Khudkasht); as Orientalist argued ancient India had no intermediaries between State and cultivator
b No big Zamindars	MQK 17–27 made super-rich Intermediary Zamindars (15 collect 50% by 1727) so PS viable in Bengal; Madras had none
💰 c State finances	Madras stressed by low productivity + wars: three Carnatic Wars (1746–63), four Anglo-Mysore Wars (1767–99); PS fixes LR forever, no room to grow income
⏳ d Eliminate intermediaries	Poligars' profits at State's expense (slide adds Deshmukhs): share to State + lighter ryot burden
e Political stability	Remove Poligars as powerful non-State actors; masses' loyalty by giving land (board: 'To bar POLITICAL AUTHORITY': private armies + autonomy)

Five questions	Ryotwari
Landowner	The ryot, with legal title
Settlement	Directly with ryot, individually

Assessment	Detailed field surveys (soil productivity, irrigation, acreage, crops, past trends), in %, revisable, remission in bad harvest
Collection	State officers: DC and his juniors (Indians)
Tenants	(not stated on slides)

Field survey = crux of Ryotwari (very tough). Improper survey = unjust LR = landlessness. Three roads to land loss: abandon land; default then govt auction; moneylender interest, default, lose mortgaged land. Board: learn surveyors' names; 'Bombay: Wingate Settlement = Ryotwari'.

	Phase 1: gross produce	Phase 2: rental value / net produce
Where, when	Madras: Read + Munro 1792–1820	Bombay (Pringle 1830, Wingate 1835), Madras (1855, 1864)
Demand	33% to 50% of estimated gross produce	Net produce (gross value minus seeds, manure, bullocks, labour, implements): Ricardian Economic Rent
Flaw / fix	Improper surveys; arbitrary; ignored cost of cultivation	Reformed after ruin of agrarian economy
Result	Severe over-assessment, abandonment ('Kheti hi chhod diye'); failure, borrow at high interest, default, lose land	Bombay: Wingate fixes; Madras: capped at 50%

Phase 2 Bombay

→ Elphinstone brought Ryotwari (slide: 1819); no fresh survey, used existing Maratha records

→ R.K. Pringle (1830): first applied Economic Rent; faulty calculation = excessive 55%

→ Wingate Settlement 1835 (Bombay Survey System, Wingate + Goldsmid; across Bombay Deccan by 1847): fair LR, reasonable annual amount for 30 years

Pringle's date: handout 1830; comparison slide 'PRINGLE 1830'; milestone slide 1824–1828 (survey years; 1824–28). Use 1830 for Economic Rent. Wingate: teacher notes 'check it was %' (handout says annual amount). Deccan splits into Bombay Deccan (Wingate) and Hyderabad Deccan.

Phase 2 Madras

→ Madras Torture Commission Report 1855: severe oppression in collection

→ Madras Rules (1855/1864): LR capped at 50% of net produce / rental value for 30 years (slide: Court of Directors ordered 30-year settlements with lower LR 1855; 1864 SoS Charles Wood ordered half-of-net cap)

→ Handout: this kept Madras quiet in 1857

→ Corruption: lower bureaucracy relied on Mirasidars (rich landowner-cultivators as village revenue officers); DC + officers held concentrated judicial, police, revenue powers: Mirasidars oppressed ryots, forced defaults, bought best lands in auctions; goal of removing big intermediaries failed

Prelims 2012 (c) 1, 2, 3 PYQ 2012 (handout and class agree): (1) rent paid directly by peasants to govt = settlement with ryot (2) pattas given = patta system preserved (3) surveyed and assessed before taxed = detailed field surveys.

Impact in Bombay

→ After 3rd Anglo-Maratha War 1817–19 EIC first used Patils + Deshmukhs (nod to Orientalism), later officers

→ Patils lost status: earlier executive, judicial, revenue, police powers + commission; now ordinary salaried officer

→ Massive debt to Marwari and Gujarati moneylenders, central Deccan, 1850s

→ Not solely Ryotwari: crop failures + cotton price collapse after US Civil War (1861–65): boom 1861–65 (Union naval blockade cut Confederate cotton), then US cotton flooded back, premium vanished

→ = Bombay Deccan Peasant Riots 1875

MAHALWARI SETTLEMENT

📖 Story link · beat 10: Because neither clean model fits Awadh and the north-west, a compromise grows from the Talukdars' fall; it feeds 1857.

CUP — Central Provinces · United Provinces · Punjab = Mahalwari areas (teacher's 'CUP')

UP = Awadh

→ , undivided, taken in two parts: 1801 ceded districts (Mahalwari 1822; organised as North-Western Provinces (NWP) 1836) and Awadh annexed 1856; Punjab 1849. Name in four steps: 1877 'NWP and Oudh'

→ 1902 'UP of Agra and Oudh'

→ 1937 'UP'

→ 1950 'Uttar Pradesh' (handout's '1937 = created 1902' untangled: 1902 named so, 1937 short form).

🏛️ Origin in Awadh

→ Before British: Talukdars (Intermediary Zamindars, traditional rural leaders, holders of milkiyat = personal lands) + Primary Zamindars dominated

→ Half of Awadh under British 1801 (nucleus of NWP); 1801–22 severe over-extraction: resisting Talukdars lost milkiyats = a class of magnates crushed

→ Mughal-era officers (Amils, Amalguzars district; Tehsildars sub-district) grew powerful, bought best lands in auctions (Amlas = different, private); moneylenders, bankers, merchants also acquired milkiyat lands

→ Holt Mackenzie's recommendations = Regulation VII of 1822 = Mahalwari; Mahal = community at village, estate or district level

Two Regulation VIIs: 1799 (Zamindar powers) vs 1822 (Mahalwari); board: '7th Law of 1799', '7th Law of 1822'.

Five questions	Mahalwari (a hybrid)
Landowner	Most areas: ryot. Some: Talukdar
Settlement	Most: with the Mahal via Lambardar (representative; interface State–community; Mahal decides internally how to spread total demand). Some: with Talukdar
Assessment	Mahal-level after 1833 (before: per field/ryot); 66% of rental value for 30 years, revisable
Collection	State officers (DC)
Tenants	Where Talukdar owner: law recognised ryots' occupancy, rents recorded: Patta had legal backing

Mahalwari = HYBRID of Ryotwari and Zamindari (on landownership). Rule of thumb: Type A = Ryotwari minus settlement with ryot (it is with Mahal); Type B = PS 1793 minus permanent assessment. ⭐

Revised Mahalwari (R.M. Bird, 1833, NWP)

→ Earlier field/ryot-level assessment: improper surveys, excess demand

→ (a) assessment at Mahal level (b) individual shares decided by community (c) if Mahal's LR falls short, State may auction individual ryots' lands (d) LR 66% of Rental Value (Net Assets; teacher: net produce) for 30 years, State may revise

→ Dalhousie 48–56 extended Mahalwari to Punjab and Central India

⚠️ Why Mahalwari failed	→ Improper surveys, unjust LR, ryots lose land in auctions or lose mortgaged land to debt → Awadh annexed 1856: summary settlement (no field survey, takes time): unjust demands, landlessness → Talukdars crushed 1801–22 + unjust demands + summary settlement 1856 + landlessness = fed the 1857 revolt in NWP and Awadh (Ch 21) → Board: two sad groups both heading to 1857 REVOLT: Talukdars crushed; ryot maybe gained short term, landless long term

🎯 COMMERCIALISATION OF AGRICULTURE PYQ 2021

📖 Story link · beat 11: Because all three systems demand cash, the ryot turns to cash crops and the moneylender, and famine follows.

💰 The cash-revenue chain

The chain	→ Mughals: much demand met in kind; British demanded cash → Ryots compelled (or induced by moneylenders and traders) from food crops (low market price) to cash crops: indigo, cotton, opium, jute, sugarcane; higher demand = greater pressure: structural transformation → Rice, wheat, millets land now served British factories or global markets; food security fell: less grain in reserve in drought/flood = fed famines of late 19th century → Board: 'More role of Rs Lenders' as cash demand rises

Two Indias (board): before Industrial Revolution (1750–1850) India = source of finished goods (finished cotton); after = export market for British machine-made goods + source of raw materials (raw cotton): Britain wanted more cash crops (B), fewer food crops (A) = commercialisation = higher famine chance. Starred Mains: 'Why so many famines in British India?' ⭐

Cash-crop lists: handout figure adds tea, coffee (plantation), oilseeds, debt trap, ends with revolts (1857, Pabna, Deccan 1875). Text list (indigo, cotton, opium, jute, sugarcane) for Prelims; figure extras only as Mains colour.

Prelims 2021 (c) commercialisation of Indian agriculture: (a) F: before IR India exported finished goods; in 19th century (mature IR) a raw-material source and export market, so handicraft exports fell = deindustrialisation (b) F no conclusive evidence of growing Indian-owned factories (c) T ('RM': raw materials need cash crops) (d) F no conclusive evidence of rapid urbanisation. ⭐

THE THREE SYSTEMS TOGETHER

📖 Story link · beat 12: So whichever system, the ryot lost: line up what Cornwallis 86–93, Munro, and Mackenzie with Bird each believed.

Why three systems? Ideology, geography, fiscal pressure. Cornwallis 86–93 (Englishman, landlordism) = PS; Munro (Scotsman, yeoman) = Ryotwari; Mahalwari = practical compromise where neither clean model fit. 💡

Dimension	PS 1793	Ryotwari (1801, 1820+)	Mahalwari (1822, rev. 1833)
Landowner	Zamindar	Ryot	Mostly ryot; sometimes Talugdar
Settlement with	Zamindar	Ryot directly	Mahal (Lambardar) or Talugdar
Assessment	Fixed forever (10/11 of pre-existing)	Field surveys; 50% of net rental value (Madras Rules 1855/1864), 30 years	Mahal-level; 66% of Rental Value (Net Assets), 30 years
Collection	District Collector	State officers (and DC)	State officers (and DC)
Where	Bengal, Orissa, Bihar, Benaras, North Madras	Sind, Coorg, Assam, Madras, Bombay	Central Provinces, United Provinces, Punjab
Architect	Cornwallis 86-93 (English landlordism)	Read + Munro (Scottish yeoman); slide adds Elphinstone (Bombay)	Holt Mackenzie + R.M. Bird (hybrid, practical)
⚠ Key failure	Absentee landlordism; tenant at will; patta collapses	Over-assessment; Mirasidar abuse; Deccan Riots 1875	Improper surveys; summary settlement 1856; 1857 NWP + Awadh

Class map note (land revenue systems under the British, 1793–1858): shades by today's state, dominant system only; princely states (grey) had own arrangements; north coastal Andhra + Benaras pockets = PS (handout's North Madras, Benaras).

HELP — Why the ryot suffered in all three: High demand · Erroneous (faulty) surveys · Legal vulnerability · Predatory moneylending = the ryot needed HELP; worse off than the imperfect Mughal patta (own mnemonic)

Common outcome: whoever the landowner (Zamindar, ryot, Talugdar) the cultivating class ended worse off than under customary Mughal protections; only Rent Act 1859 and Bengal Tenancy Act 1885 partly repaired PS.

Prelims 2000 (b) A-4 B-1 C-2 D-3 PYQ 2000 CONFLICT: handout A = Zamindari, B = Jagirdari, code A-4 B-1 C-2 D-3; class slide + teacher's circles A = Jagirdari, B = Zamindari, code A-1 B-4 C-2 D-3. Letter (b) common; C = Ryotwari, D = Mahalwari common. Remember: peasant with right to sell = Ryotwari; village level = Mahalwari.

🎯 REVISION PYQs ON CLASS SLIDES (not in handout)

📖 Story link · beat 12: Extra drills the teacher parked here; use them once the story is clear: Wandiwash 1760 versus Buxar 1764, and Kheda.

Prelims 1995 (b) PYQ 1995: Wandiwash 1760 = French vs EIC (3rd Carnatic War 1756-63, ended French ambitions). (a) Buxar 1764 = Mir Qasim 60-63, Shuja 54-75, Shah Alam II 60-06 vs EIC, not Mir Jafar 57-60 (Plassey man). (c) Chilianwala 1849 = vs Sikhs, not Marathas. (d) Kharda 1795 = Marathas vs Nizam, not EIC. (Ch 9, 10, 13, 14)

Prelims 2011 Kheda (a) Only 1 PYQ 2011 CONFLICT: question slide marks F after both and (d) with chain 'Kheda in Gujarat, in Bombay, Ryotwari; bad harvest means Remit (reduces LR)'; typed answer slide and bank say (a) Only 1: govt gave no remission that Ryotwari rules entitled Kheda ryots to (yield below one-quarter of normal) in 1918 (failed harvest + plague). Use (a); check your notebook. Statement 2 false either way (Kheda was Ryotwari, no PS). Ch 37.

TIMELINE (in order)

📖 Story link · beat 12: The whole story in date order, from the Diwani of 1765 to the Acts of 1859 and 1885.

1765 ToA: Diwani; Dual Govt to 1772; Reza Khan Diwan

1770 Famine 50 lakh–1 crore; demand doubled

1772 Farming System; bankrupt; Reza Khan jailed to 1774

1773 Regulating Act (1.4 million pounds at 4%)

1792 Read + Munro, Baramahal

1793 Permanent Settlement; Cornwallis 86–93 Code

1795 Court fees reimposed

1799 Regulation VII: Zamindar force (Wellesley 98–05)

1801 Munro: Ryotwari Madras (1801–07); half of Awadh British

1807 Munro to Britain; diluted

1817–19 3rd Anglo-Maratha War; Bombay annexed

1819 Elphinstone Bombay

1820 Munro Governor Madras to 1827

1822 Regulation VII: Mahalwari (Holt Mackenzie)

1830 Pringle: 55%

1833 Bird Revised Mahalwari: Mahal, 66%, 30 yrs

1834 Coorg annexed

1835 Wingate Settlement, Bombay (Deccan by 1847)

1836 NWP

1843 Sind annexed

1849 Punjab annexed

1855 Madras Torture Commission; 30-year settlements

1856 Awadh annexed; summary settlement

1857 Revolt (NWP, Awadh); Bengal Zamindars loyal; Madras quiet

1859 Rent Act; Indigo Revolt 1859–63

1861 US Civil War to 1865: cotton boom, bust

1864 Charles Wood: Madras max half of net

1873 Pabna Leagues

1875 Bombay Deccan Riots

1880 Ripon 80–84 Rent Commission

1885 Bengal Tenancy Act (Dufferin 84–88)

Recall drill: cover and answer

Mughal chain and who owned the land?	Khudkasht (patta, abwabs) > Primary Zamindar > Intermediary Zamindar > Jagirdar/State; Zamindar = 10% commission collector; only the King legally owned	The five-question frame?	Landowner, assessment, settlement, collection, tenants
1765–1772 sequence?	1765 Diwani + Reza Khan; 1770 famine (50 lakh–1 crore), demand doubled; 1772 bankrupt, Farming System, 1.4 million pounds at 4% = Regulating Act 1773	PS 1793 four pillars?	Zamindar owner; settlement with Zamindar; 10/11 of 1789–90 revenue fixed forever (66 to 60); Sunset Clause
PS impact points?	Auctions, certainty for State, no investment, absentee landlords, tenant at will, Regulation VII 1799, litigation (Code of 1793)	Rent Act 1859 vs Tenancy Act 1885?	12-year occupancy, patta revived, no imprisonment; 1885 after Ripon 80–84's 1880 Rent Commission closes loophole (different plots 12+ years)
Ryotwari people and dates?	Read 1792 Baramahal; Munro 1801–07, 1820–27; Elphinstone 1819; Pringle 1830 (55%); Wingate 1835 (30 yrs); Madras Rules 1855/1864 (50% of net)	Mahalwari facts?	Regulation VII 1822 (Holt Mackenzie); Bird 1833: Mahal level, 66% of rental value, 30 years; Dalhousie 48–56 to Punjab, Central India; Awadh summary settlement 1856
Areas of each system?	BOB + Benaras + N. Madras; SCAM-B; CUP	Why the cash demand led to famine?	Cash revenue, cash crops, less food reserve, moneylenders; Prelims 2021 answer commercialisation of agriculture

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

GDP = Gross Domestic Product — Total value of goods and services produced within a country in a year

GST = Goods and Services Tax — Common indirect tax on goods and services; policy by the GST Council (Art 279A)

NWP = North-Western Provinces

⚖ CONSTITUTIONAL HISTORY OF EIC (1773–1858) ⚖

PYQ Prelims 1996, 2002, 2003, 2004, 2005, 2006 (two), 2007, 2014, 2019, 2023 · Mains FYQ (class slide): "1857 Revolt was only a final nail in the coffin of EIC's empire"

✎ *London let the Company rule, then took its powers one by one: regulate 1773, control 1784, head 1793, trade 1813 and 1833, jobs and Budget 1853, body 1858. 1857 was the final nail, not the first wound.*

📖 THE STORY FIRST (same story as the textbook)

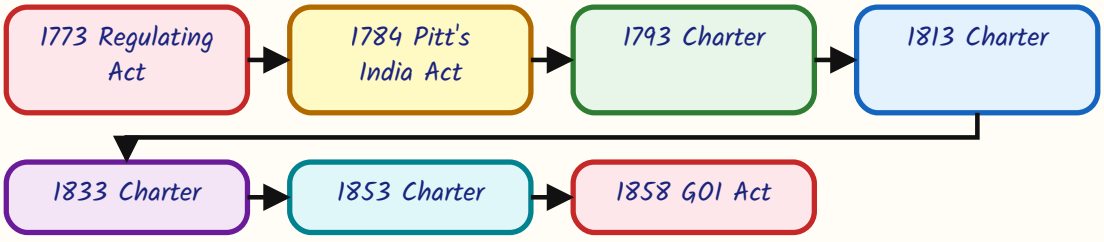

London first let the Company rule, then took its powers one by one: it regulated the political (CMR) side in 1773, controlled it in 1784, took the head in 1793, the trade in 1813 and 1833, the jobs and the Budget in 1853, and the body in 1858. Each Act moved power from the EIC to the Br State, so 1857 was the final nail, not the first wound.

1. **A trader turned ruler (1765).** Since 1765 EIC runs Civil, Military, Revenue (CMR): a Company State. Br State is anxious, yet needs its two incomes and imperial power. So from 1773 it regulates CMR.
   → But why was London so nervous?
2. **Five worries.** Five worries: money (400,000 pounds a year, 1767), America lost 1783, bankruptcy and 1.4 million pounds 1772, Famine 1770 and Nabobs, Clive 57–67 and Hastings 73–85 wanting a Crown link.
   → So Parliament passes the Regulating Act of 1773.

3. **The Regulating Act 1773 in India.** Governor of Bengal becomes GG(Bengal), senior to Bombay and Madras. Supreme Council of GG + 4 decides by majority; GG has only a casting vote, a check on empire-builders.
   → And in London the State gets its own hooks.
4. **The Regulating Act 1773 in London.** Parliament's right to regulate EIC politics is recognised. GG reports to Directors, Directors to the State. Supreme Court at Calcutta (Elijah Impey first, 1774); no gifts for officials.
   → But the Act leaks.
5. **The leaks of 1773.** Court clashes with council; Bombay's Treaty of Surat 1775 starts the 1st Anglo-Maratha War. GG has no veto: Philip Francis blocks Hastings 73–85, Burke's impeachment ends in acquittal. Amending Act 1781.
   → Having lost America, London moves from supervision to control.
6. **Pitt's India Act 1784.** 13 colonies lost 1783, so London controls. Board of Control takes politics, Directors keep commerce: Double Government 1784–1833, Dual Control 1784–1858. Veto in 1786; Cornwallis 86–93 holds both posts.
   → Still, the Company appoints its own top men.
7. **1793: the Crown takes the head.** EIC is the Crown's agent: top men appointed by EIC only with Crown approval; Parliament renews the Charter. Head belongs to the State, body to EIC. Cornwallis 86–93's Code makes law written.
   → Next, free-trade ideas knock on the door.
8. **1813: the monopoly breaks.** Adam Smith (1776), reformers and manufacturers attack the monopoly. India trade monopoly ends (Tea, Opium, China stay); Crown sovereignty stated; missionaries enter; Rs 1 lakh a year for education.
   → The rest of the trade follows in 1833.
9. **1833: one India, one law.** St Helena Act: EIC stops business, stays political agent. GG(India)-in-Council (Bentinck 28–35 first); Governors lose law-making; Macaulay Law Member, Law Commission 1834; UCS opens to Indians.
   → 1853 takes the jobs and the purse.
10. **1853: no term, no jobs, no Budget.** Charter lasts only till Parliament decides. Civil Services exam (London, 1855) ends EIC patronage; Budget goes to Parliament; legislative council of twelve; Dalhousie 48–56 appoints Halliday first LG of Bengal 1854.
    → Then 1857 arrives.
11. **1858: the Crown takes the body.** EIC blamed for 1857. GOI Act 1858: Secretary of State with 15-member India Council replaces BoC; Canning 56–62 first Viceroy; Zafar 37–57 ends; Proclamation promises; Royal Titles Act 1876.
    → But who was responsible for the conquest itself?
12. **Whose conquest?.** Britain claimed no policy of conquest; EIC officials' Sub-Imperialism drove it, banned by 1784. Yet the State gave the Charter, sent troops, followed the money and used EIC as foreign-policy tool.

Cast: William Pitt = The Controller · Warren Hastings 73–85 = The First General · Elijah Impey = The Crown's Judge · Philip Francis = The Opponent · Edmund Burke = The Prosecutor · Robert Clive 57–67 = The Acquitted · Cornwallis 86–93 = The Two-Hat Man · William Bentinck 28–35 = The First of India · Thomas Macaulay = The Codifier · Dalhousie 48–56 = The Appointer · Frederick James Halliday = The Lieutenant · Charles Canning 56–62 = The Vice-Captain · Queen Victoria = The Empress · Lytton 76–80 = The Host

⚡ At a glance: each Act moves power from EIC to Br State

🗺️ BR STATE vs COMPANY STATE; THE TWO LENSES

📖 Story link · beat 1: Because only a State may hold power over territory, London faced a Company State it could neither ignore nor end, so it regulates CMR.

Why regulate, not end

→ Br State has no problem with EIC as trader, but 'problem and anxiety' with the Company State (1765–1858): only a State may hold power over territory; 'Br State wants monopoly in State matters'

→ Positives of keeping it: (1) two incomes, trade (EIC) + land revenue (Company State): Britain richer, tax collection up (2) burden of ruling far India borne by EIC (3) Company State of EIC of Britain = British empire and geopolitical power rise indirectly

→ So from 1773 the Br State regulated EIC's political matters

Two affairs of the EIC

→ Commercial (private trade) since 31 December 1600

→ Political / public since 1765 (ToA): CMR = Civil, Military, Revenue = State matters

→ Capitalism: State does not interfere in business, so regulation = CMR only; 'affairs' = function = work

Lens	Covers	Sits in
@GG	Structure + functions of Company State in India: GG, Governors, councils, law-making	India [Br India]
🗺️ @Br State	Relationship EIC (CoD) and Br State / Crown: how much control London has	Britain [CoD of EIC + Br State]

Key takeaway (Mains FYQ): 1857 is often seen as why EIC rule ended, but laws from 1773 show EIC autonomy declining nearly a century earlier; each Act stripped EIC powers to the Br State. 1857 = final nail, not first wound. Sovereignty moved to Crown by 1793; Company's body left until 1858. ⭐

🗺️ WHY THE BR STATE WANTED TO REGULATE (5 drivers)

📖 Story link · beat 2: Because the EIC grew rich and powerful after 1765, London grew anxious: five worries about money, America, taxpayer, conscience, careers.

Driver	Detail
1 Money	After Plassey (1757) + ToA 1765 EIC got plunder + Bengal LR. 1767: State demanded 400,000 pounds a year (State helped conquest)
2 Fear of another America	American Revolution began 1765 (Stamp Act crisis); armed War of Independence 1775; USA created 1783. Board: 'EIC shall never do AR65–83 in India' (13 colonies broke just as ToA 1765 raised Bengal income)
💰 3 Protect the taxpayer	1772 EIC bankrupt, bailed out 1.4 million pound loan ('too big to fail'); wanted oversight of reckless war spending
4 White Man's Burden betrayed	Great Bengal Famine 1770 + Nabobs (corrupt officers back in Britain, rich) embarrassed State, vs civilising mission
5 Career ambitions of EIC men	Clive 57–67, Hastings 73–85 wanted formal State link: Crown = legitimacy, career advancement

🗳️ Select Committee of Parliament 1772

→ Studied EIC affairs and State–EIC relation re territorial possessions; only political functions examined

→ Result: EIC kept trade monopoly; CoD made accountable for political functions in India

→ Led directly to Regulating Act 1773

📜 REGULATING ACT 1773

📖 Story link · beat 3: Because the worries peaked in 1772, Parliament regulates in 1773: checks in India, hooks in London, but the Act leaks.

Prelims 2007 (b) Only 2 PYQ 2007: Hastings 73–85 = first GG of Bengal (RA 1773: 'G to GG'), NOT Clive 57–67; Bentinck 28–35 = first GG of India (Charter 1833). ⭐
Prelims 2023 (d) Charter Act 1833 made GG of India PYQ 2023.

🗺️ @GG: Company State in India

→ 1 Governor of Bengal Presidency elevated to GG (Bengal): still Governor of Bengal, now General over Bombay + Madras in specific matters; 'Governor' = ruler of Bengal Presidency (laws, implementation); 'General' = senior to G(Bo), G(Ma)

→ 2 Bombay + Madras Governors subordinate in war and peace except emergency; suspended if disobey (war spend caused 1772 bankruptcy, so GG accountable: 'accountability without power is meaningless')

→ 3 Commerce untouched: Governors independent regional managers ('GG is not boss in commerce')

→ 4 Supreme Council of Bengal = GG + 4 councillors; decisions by majority of the four; GG only casting vote (check on empire-building GG)

→ 5 Legislative function to GG's Council: laws for Bengal + war and peace ('Treaty = Law')

Decision making (board): GG proposes; only C1–C4 vote; tie = GG's casting vote. So GG needs support of at least 2 councillors (2 for, 2 against = tie he breaks). Reporting chain: GG(Be) orders on war and peace to G(Bo), G(Ma), who send all information back; GG(Be) sends all info (6 months) on commerce + CMR to CoD, which passes CMR info to Br State. 💡

🗺️ @Br State: EIC–State relation

→ 1 Parliament's right to regulate EIC political affairs legally recognised first time; commerce outside (commercial since 1600, political since 1765)

→ 2 GG sends commercial + political info to CoD; CoD submits political info to Br State

→ 3 Supreme Court Calcutta: 1 Chief Justice + 3 puisne judges ('puny', junior), all chosen by Crown (not EIC); first CJ Sir Elijah Impey (1774); cases of British-born subjects + their Indian servants in Bengal Presidency, British law; similar courts Madras 1800, Bombay 1823 (earlier Mayor's Courts) = 3 Supreme Courts; not today's SC

→ 4 Officials barred from accepting gifts from Indians (curb corruption)

→ 5 Tenures in table below; first appointees named in the Act

Post	Term	Remark
Directors of EIC	4 years	Not immediately re-eligible
GG (Bengal)	5 years	Re-appointable (Hastings 73–85 first)
🏛️ Councillors	4 years	First ones named in Act; later by CoD

Details: slide strikes 'Sir' before Elijah Impey, handout writes 'Sir Elijah Impey' (either fine). Code: slide, handout and PYQ board write Warren Hastings 73–85 (last digit can look like 86). Use 73–85. 📌

📜 Impact of 1773 Act

→ 1 Supreme Court set up 1774 (Act 1773; Hastings 73–85 took office as first GG of Bengal 1774); conflict with GG's Council over acts of EIC officials in official capacity

→ 2 Poor supervision: distance, no modern communication

→ 3 Centralisation in GG began: start of central executive + central legislature (three equal Governors become one GG over two)

→ 4 Bombay + Madras still independent: vague 'emergency circumstances'; Treaty of Surat 1775 signed by Governor of Bombay without GG approval = 1st Anglo-Maratha War 1775–82

→ 5 No GG veto over council: factions, paralysis (indecision problem); Philip Francis (councillor wanting Hastings's job) opposed, wrote complaints to London; Edmund Burke led impeachment of Hastings 73–85 in Parliament (corruption), he spent life savings, acquitted; Clive 57–67 tried in Parliament 1773, acquitted

📜 Amending Act 1781 (Bengal Judicature / Declaratory Act)

→ Resolved jurisdiction conflict. Supreme Court covers: all cases within Calcutta; British subjects in Bengal Presidency (not official acts of EIC officials: these go to GG's Council); EIC property in Fort William

Prelims 2005 (b) 2 and 3 PYQ 2005: (1) F: British-pattern regular police = Cornwallis 86–93's (Code 1793, Ch 18), not Hastings 73–85's (2) T: Supreme Court at Calcutta by RA 1773 (3) T: IPC 1860 (Macaulay's draft, Law Commission 1834). Board: 'Till 1813 orientalism. Rule India, the India way.' ⭐

📜 PITT'S INDIA ACT 1784 (East India Company Act)

📖 Story link · beat 6: Because the Act leaked and America was lost, London moves from supervision to control: the Board of Control above the Company.

Context: shift from supervision to CONTROL

→ Named after PM William Pitt; 13 colonies lost 1783 (American War of Independence 1776–83, USA created)

→ Road 1: American Revolution 1765–83 = USA 1783, anxiety EIC may declare independence

→ Road 2: GBF 1770, 1772 bankruptcy + loan, RA 1773, then wars: 1st Anglo-Maratha War 1775–82 (teacher's result note 'Ma') and 2nd Anglo-Mysore War 1780–84 (note 'Tie')

→ Who chose the Directors of CoD? Shareholders: CoD = EIC's own body; BoC = State's body

📌 'Ma' (smiley) and 'Tie' are the teacher's own result notes on the two wars; handout does not give them (Ch 13, 12). Check your notebook.

	Double Government of EIC affairs	Dual Control over GG
Years	1784–1833	1784–1858
What is split	EIC's work: commerce (CoD) + CMR (BoC)	GG's bosses: CoD + BoC in CMR matters
⚡ Top authority	Commerce: CoD; CMR: BoC	CMR: both, each can give direct orders
Ended	1833 (commercial function ended: one work, one top authority = BoC)	1858 (India Council + SoS replace BoC and CoD; GG reports only to SoS)

🗺️ @Br State (6)

→ 1 'British territorial possessions in India' (first use) but ambiguous whether EIC's or Br State's

→ 2 Double Government: political affairs under Board of Control (BoC) in London = ministry for Indian affairs; commerce top authority stays CoD

→ 3 BoC = 6 members: 1 Secretary of State (Cabinet minister) as President, Chancellor of the Exchequer, 4 Privy Council members (Privy Council = Crown's advisory body, like Mughal Darbar / Chhatrapati's Ashtapradhan). Role: superintend, direct, control all CMR acts of British territorial possessions in the East Indies (deliberate: lands outside India e.g. later Burma too)

→ 4 Secret Committee of 3 directors in CoD: BoC sends confidential orders directly to India bypassing full CoD (sensitive military, diplomatic)

→ 5 CoD must send all incoming and outgoing letters (1773 = information; now original letters)

→ 6 EIC kept commerce + patronage: CoD nominates Principal Servants (GG, Governors, C-in-C, Councillors); Crown only recall or remove power (approval doubt settled by Amending Act 1786)

→ 7 Dual Control (1784–1858): BoC passes binding orders to CoD and directly to GG bypassing CoD: GG has two bosses in CMR, one boss (CoD) in commerce

Source conflict (Principal Servants): handout 3.1 #6: CoD appointed them without Crown approval in 1784; handout 3.3 #6 + slide: only after Crown approval. Board resolves with 'Done in [1793]': approval comes with Charter Act 1793; in 1784 Crown only gets recall/remove.

Look-alike	Who holds what	Years
Double Government of EIC affairs	Commerce: CoD. CMR: BoC	1784–1833
Dual Government in Bengal	Diwani: EIC. Nizamat: Nawab	1765–72 (Ch 10)
Subsidiary Alliance	External: EIC. Domestic: Indian king	from 1798 (Ch 11)
📜 UT with Legislature (board)	Public order, police, land: Union (via LG); rest: CM + Assembly	today

🗺️ @GG: Company State (6)

→ Aim: end 1773 indecision. 1 Council cut 4 to 3: one seat mandated for Commander-in-Chief (CIC) as ordinary, ex-officio member; council = GG + 2 councillors + CIC (ordinary = mandated by Act; ex-officio = by office; extra-ordinary = CoD chooses)

→ 2 GG gets regular + casting vote: needs just one councillor (before: two); 2–2 tie then casting = 3–2; effectively C4's vote given to GG

→ 3 Bombay + Madras Governors subordinate in war, peace and revenue (earlier war and peace): lets PS 1793 reach parts of Madras (Northern Sarkars, Ch 16)

→ 4 GG + Governors' responsibilities clearer: removes 'except in emergency circumstances'

→ 5 Council of 3 under each of Bombay and Madras Governors (start of State assemblies and Councils of Ministers, no separation of powers)

→ 6 'Conquest in India is repugnant to the wish, policy and honour of this nation': banned expansion (after 1st Anglo-Maratha 1775–82 + 2nd Anglo-Mysore 1780–84 costs); handout aside: only fiscal decline was repugnant, not empire-building

📜 Impact of 1784 + Amending Act 1786

→ 1 Dual control = no effective control: GG plays CoD vs BoC (distance)

→ 2 Still no veto: if all three councillors oppose, indecision continues (but needs only one councillor now)

→ 3 GG vs CIC conflict: war and peace with GG, use of army with CIC

→ 4 Amending Act 1786: (i) GG veto over council in extraordinary circumstances (ii) EIC may appoint same person GG and CIC (not merged, not compulsory) at Cornwallis 86–93's insistence (GG 1786–93): first to hold both

Key idea: 'GG = PM of Br India' before 1858; (powerless) GG after 1947 = President of India. System of 1773–86 continued to 1858 with little change: binding BoC orders to CoD and GG; Principal Servants after Crown approval (1793); original letters to BoC; GG main authority in India.

First	Holder	When
🧑‍🤝‍🧑 1st GG (Bengal)	Warren Hastings 73–85	1773 (RA); took office 1774

👫 1st GG (India)	William Bentinck 28–35	1833 (Charter Act)
👫 1st 'Viceroy and GG'	Charles Canning 56–62	1858 (GOI Act)
👫 1st GG of partitioned India	Louis Mountbatten	from 15 Aug 1947 (symbolic head)
👫 1st Indian GG	C. Rajagopalachari	June 1948 to 26 Jan 1950
👑 1st President	Rajendra Prasad	after 26 Jan 1950

Prelims 2002 (a) A–2 B–4 C–3 D–1 PYQ 2002: A Charter Act 1813 = trade monopoly ended; B Regulating Act 1773 = Directors report to State; C Act of 1858 = power to Crown; D Pitt's India Act = BoC 1784. Prelims 2004 (c) PYQ 2004: Vernacular Press Act = Lytton 76–80 (1878), not Curzon 99–05 (flagrant error); pair (a) Pitt's India Act : Hastings 73–85 is loose (Hastings was GG under RA 1773) but UPSC key is (c); (d) Ilbert Bill : Ripon 80–84 true. ⭐

📜 CHARTER ACT 1793

📖 Story link · beat 7: Because Pitt's Act left the Company choosing its own top men, the Crown claims the head; the EIC is only an agent.

🗺️ @Br State (6)

→ 1 'Subjects of the Crown cannot acquire sovereign powers over territory on their own but only on behalf of the Crown': EIC = manager / agent; sovereignty over Br India with Br State (Mughal sovereignty over all India accepted till 1858)

→ 2 BoC shrunk: President + 2 junior members (need not be Privy Councillors): authority in President, less factionalism

→ 3 BoC salaries paid by EIC (later Home Charges, Drain, Ch 27)

→ 4 Charter renewed 20 years, first time by Parliament, not Monarch

→ 5 Principal Servants appointed by EIC only after Crown approval: State took the head, body stays EIC = declaration of independence impossible; more loyal to Br State (letter + salary EIC's)

→ 6 EIC kept commerce + patronage of officials other than Principal Servants

Three-step chain of sovereignty (board): 1784 'Br (T) possessions' (T = territorial) > 1793 'sovereign powers only on behalf of Crown' > 1813 'undoubted sovereignty of Crown'. After 1793 Br India belongs to the Crown, not EIC; Mughal claim over all India stands to 1858. 💡

@GG (3)

→ 1 GG's power over his council + over Bombay + Madras Governors up: can supersede Governors when present; issue directives without consulting council even absent (teacher: 'Not imp')

→ 2 CIC seat to a civilian: CIC extra-ordinary member (CoD may appoint; was): council = GG + CIC + 3 ordinary councillors

→ 3 Hallmark: code of all Bengal regulations on rights of persons + property; courts bound; laws printed in vernacular ('written law, written judgement'; = Cornwallis 86–93 Code, Ch 18)

Year	Act	Council	CIC's seat
1773	Regulating Act	GG + 4 councillors (all civilians)	None
1784	Pitt's India Act	GG + 2 councillors + CIC (GG: regular + casting vote)	Ordinary, ex-officio (mandated)
1793	Charter Act	GG + CIC + 3 councillors (civilians)	Extra-ordinary (CoD may appoint; he was)

CIC conflict: handout figure calls the 1793 CIC 'ex-officio'; text and teacher say extra-ordinary. Use text + teacher. Code: civil personal law = community custom (State can reform: Sati Abolition Act 1829, Removal of Religious Disabilities Act 1850, Hindu Widow Remarriage Act 1856, Hindu Succession Act, Triple Talaq, UCC, abolition of untouchability COI 1950); civil non-personal (property, contracts) = State law; criminal always non-personal (State vs accused).

📜 CHARTER ACT 1813: WESTERNISATION BEGINS

📖 Story link · beat 8: Now free-trade ideas and the Industrial Revolution make the trade monopoly a burden, so it breaks.

Context

→ Narrative: Adam Smith's Wealth of Nations (1776) free market (laissez faire): monopoly under attack since 1776; Liberals, Utilitarians, Evangelists: British manufacturers would industrialise India (technology, FDI) = White Man's Burden (WMB); heavy lobbying by manufacturers + non-EIC traders ('Recall: interlopers', Ch 10)

→ National interest: Industrial Revolution 1750–1850: till IR Britain wanted finished goods (FG) from India, so big MNC EIC + monopoly; once IR matured wanted raw material (RM) + India as export market for machine-made FG: trader monopoly no longer in interest

→ Westernisation push: 'Great Ancient India = myth'; three arms: polity and administration, economy (machines, factories), society (education, customs, religion, reforms)

Economic nationalism (teaching aside): weak economy turns protectionist (e.g. MAGA), strong one globalist (e.g. USA 1945–2020): why strong Britain wanted free trade in 1813. Nothing in handout matches it. 💡

🗺️ @Br State (5)

→ 1 'Undoubted sovereignty of the Crown' over Indian territorial possessions (Mughal sovereignty over all India not yet challenged)

→ 2 EIC's monopoly over (Br) trade with India ended; kept Tea, Opium, China trade (board inserts 'Br')

→ 3 Cultural Colonialism: missionaries may enter for conversion with licence from CoD or BoC; Rs 1 lakh a year on education; western vs Indian education debate till 1835 (settled for English)

→ 4 Contributed to 1857 by cultural colonialism + undermining Indian institutions

→ 5 Charter renewed 20 years

Prelims 2019 (a) 1 and 2 PYQ 2019: (1) T trade monopoly ended except tea + China (2) T Crown sovereignty (board '1784, 1793, 1813') (3) F revenues controlled by Parliament. ⭐

Source conflict (Prelims 2019 stmt 3): BoC supervised revenue from 1784; Budget under Parliament 1853; board says 1858. Not 1813 either way.

Prelims 2006 (b) Only 2 PYQ 2006: (1) F: India trade monopoly ended 1813; 1833 ended only Tea, Opium, China (2) T: GOI Act 1858 abolished EIC, took over rule. ⭐

📜 CHARTER ACT 1833 (St. Helena Act)

📖 Story link · beat 9: Because the monopoly is gone, the Company is left a political agent; one GG, one law, one legislature emerge.

🗺️ @Br State (3)

→ 1 EIC lost Tea, Opium, China monopoly: commercial function fully ended, only political, as agent of Br State; Double Government ended (slide: books use the phrase till 1858)

→ 2 BoC supervision extended to all administrative affairs: policy, laws, implementation, officers, transfers, postings (handout links to 2023 Supreme Court case, Centre vs Delhi's elected executive)

→ 3 President of BoC renamed Minister for Indian Affairs (1833); St Helena taken over

@GG (8)

→ 1 Landmark: GG(Bengal)-in-Council became GG(India)-in-Council: 'Governor' now rules all Br India (Bengal, Bombay, Madras) = true PM of Br India; need of uniform law (one country, one law, one executive; GST, Napoleonic Code 1804); board 'implementation of law'

→ 2 GG(India) executive + legislative head: laws for all Br India, equal for Indians + Britishers

→ 3 Legislative powers of Bombay + Madras Governors taken away (restored by Indian Councils Act 1861, Ch 25)

→ 4 Centralisation peaks 1833; decentralisation begins 1861, peaks 1935

→ 5 One Law Member (Thomas Macaulay) added to draft uniform laws: grain of separation of executive and legislative at council level (GG still heads both); start of separate legislature

→ 6 Law Commission 1834 under Macaulay: codification; done 1837; full implementation post-1857: CPC 1859, IPC 1860, CrPC 1861 (board also lists Indian Evidence Act); 2024 replaced by BNS, BNSS, Bharatiya Sakshya Adhiniyam

→ 7 Racial equality: 'No person to be deprived of chance to enter EIC service on grounds of religion, race, birth or colour'; Uncovenanted Civil Services (UCS, ~Group B) + subordinate judicial posts below district judge (e.g. Munsifs) opened to Indians to cut cost (teacher: 'not imp')

→ 8 Charter renewed 20 years

Services triangle: Br at top, Indians at base.
UCS opened to Indians 1833; CCS (Group A) opened 1853. 💡

Prelims 2003 (d) PYQ 2003 (NOT in 1833): an Indian as law member (first Law Member Macaulay, an Englishman). In 1833: trading abolished, GG of India in Council, all law-making to GG in Council. RA 1773 only created GG/Bengal; PIA 1784 created BoC + Double Government; Charter 1793 raised GG's power, did not rename him. ⭐

Margin '8 ✓': unreadable in handout (perhaps the 8 numbered points of the Act). 📌

📜 CHARTER ACT 1853

📖 Story link · beat 10: Because the Company is now only an agent, its last powers go: its term, its jobs and the Budget.

🗺️ @Br State (4)

→ 1 Charter valid 'till Parliament specifies otherwise': no fixed period (sword over EIC's neck)

→ 2 EIC lost patronage: Civil Services Examination introduced, first held 1855 in London; EIC hardly controlled policies after ('[* UPSC exam]')

→ 3 CCS opened to Indians (UCS in 1833)

→ 4 Budget of Br India under British Parliament

@GG (3)

→ 1 6 more Legal Members: deeper executive–legislative separation

→ 2 Provincial law-making: since 1833 only GG's council made laws, so 4 provincial representatives (Bengal, Bombay, Madras, North-Western Provinces; 'NWP 1836') draft province laws (e.g. Rent Act 1859 by Bengal member); examples of province-level: PS 1793, Ryotwari 1801–07 + 1820 ('SCAM-B')

→ 3 Lieutenant-Governor (LG) of Bengal (GG since 1833 = PM of Br India + CM of Bengal, impossible dual burden): 1854 Dalhousie 48–56 appointed Frederick James Halliday first LG of Bengal

Added seat in 1853	No.	Role
Provincial representatives (Bengal, Bombay, Madras, NWP)	4	Draft province laws
⚖️ Chief Justice, Calcutta Supreme Court	1	Legal weight
⚖️ A regular judge, Calcutta Supreme Court	1	Legal weight
Total added	6	Legislative meeting = [GG + CIC + 4] + 6 = 12

Council	1833	1853
GG's title	GG(India)-in-Council	Same
📜 Law-making	Only GG's council for all Br India; Bombay + Madras lose it	Same, but 4 provincial members can draft province laws
Added	1 Law Member (Macaulay), legislative sittings only	Law Member promoted to 4th ordinary member; 6 Legal Members added
👑 Executive meeting	GG + CIC + 3 ordinary	GG + CIC + 4 ordinary
📜 Legislative meeting	Executive + Law Member	[GG + CIC + 4] + 6 = 12

'One council, two avatars': same council as Executive ('Cabinet meeting': administration, taxes, war) and as Legislative with extra members. Prelims note: 'members' = councillors only (do not count GG) unless question says total strength. 💡

Post-1858 (not imp)	Governor	Lieutenant-Governor
⚡ Jurisdiction	Presidencies (Bengal, Bombay, Madras)	Provinces (e.g. Punjab, UP, Bihar)
🗳️ Appointed by	British Crown directly	GG of India (with Crown approval)
🏛️ Background	British aristocrats, peers, politicians	Veteran ICS officers
Autonomy	High: may write directly to SoS	Low: via GG only
🏛️ Executive council	Yes: Governor-in-Council	No: sole executive

📜 GOVERNMENT OF INDIA ACT 1858

📖 Story link · beat 11: Because the revolt gave the occasion and the Acts had done the work, the Crown takes the body: 1857 is the final nail.

Background driver	Detail
1 EIC blamed	Mismanagement + 1857 (many British killed, EIC's monopoly on violence broken)
2 Public demand	End of Absentee Sovereignty (sovereignty with State since 1793 but ruling through agent EIC) for direct rule
3 Free traders	Non-EIC merchants wanted direct rule
4 WEMC	Western-Educated Middle Class wanted accountability + modernisation (IR + democracy came under State rule in Britain)
5 Stronger control	Britain wanted tighter control after 1857

🗺️ @Br State (9)

→ 1 EIC replaced by direct Br State rule in Br India (irony: 1856 EIC annexed Awadh for maladministration, now removed on same grounds); EIC formally dissolved 1874

→ 2 Policy of Subordinate Union towards Indian rulers

→ Mughal sovereignty legally ended (Mughal State 1526–40 + 1556–1858; not over all India: Travancore never part, Sikh State legally independent); Crown sovereign over all India: (i) Br India (~63% territory, 78% population) ruled directly by GG (ii) Princely States under Paramountcy: Sovereignty, Defence, Communications, Foreign Affairs (Sov, D, C, FA) with Crown, domestic with Prince (handout: 'Article 370 without democracy'); board: 565 Princely States

→ 3 Zafar 37–57 (Bahadur Shah Zafar 37–57, last Mughal Emperor) pensioned to Rangoon, Burma

→ 4 Secretary of State for India (SoS) replaces BoC President / Minister for Indian Affairs as main policy authority

→ 5 Council of India (India Council) replaces BoC (1784): SoS + 15 members (7 members of CoD absorbed)

→ 6 Dual Control ended: as 'Viceroy and GG' reports only to SoS (GG = ruler of Br India; Viceroy = Crown's representative, 'Vice-Captain')

→ 7 No change in GG(India)'s powers

→ 8 1858 Charles Canning 56–62 first Viceroy

→ 9 Civil Services exam continues, still only in London

Feature	Before 1858	After 1858
Body in London	BoC (1784) + CoD	Council of India (15) under SoS
Policy head	President BoC / Minister Indian Affairs (1833)	SoS for India
Bosses of GG	Two: CoD + BoC	One: SoS
GG's title	GG(India)	Viceroy and GG (Canning 56–62 first)
🎯 Civil Services exam	London	Still only London

🎯 Queen Victoria's Proclamation 1858

PYQ 2014

→ Transfer of governance from EIC to Crown. (a) disclaimed annexation of Indian States (walk-back from Dalhousie 48–56's Doctrine of Lapse + Awadh 1856): teacher 'Rule of Indian Princes in 565 PS'

→ (b) Indian administration (Br India) under Crown: 'Rule of Br State in Br India'

→ (c) religious non-interference, fair treatment, public service without discrimination of race or creed (re-affirms Charter 1833)

→ (d) amnesty to 1857 rebels (limited exceptions)

Prelims 2014 (a) 1 and 2: (1) T (2) T (3) regulate EIC trade F ('ended 1813'; commercial function over by 1833, Company being dissolved). Slide title strikes 'Queen'; handout and PYQ say Queen Victoria's Proclamation. ⭐

📜 Royal Titles Act 1876

→ Parliament empowered Victoria to take title Kaesar-i-Hind (Empress of India)

→ 1877 Imperial (Delhi) Darbar organised by Lytton 76–80: Victoria coronated (unofficially used the title since 1858)

EVOLUTION AT A GLANCE

📖 Story link · beat 11: All the steps in one line: each Act moved power from the EIC to the Br State until 1858.

Act	@Br State	@GG	Council	EIC kept / lost
RA 1773	Parliament's right recognised; CoD reports; SC Calcutta 1774; no gifts	GG(Bengal) over Bo + Ma in war + peace; Bengal laws	GG + 4 (casting vote only)	Kept trade, patronage; political now accountable
PIA 1784	BoC (6) + Double Govt 1784–1833; Secret Committee; Dual Control 1784–1858; original letters; conquest banned	Governors under GG in war, peace, revenue; Councils of 3	GG + 2 + CIC (ordinary); regular + casting vote; 1786 veto	Kept commerce, patronage; Crown may recall / remove
CA 1793	Crown sovereignty; EIC agent; BoC = President + 2; EIC pays BoC; first Parliament renewal; Principal Servants after approval	GG supersedes Governors; Code (written law)	GG + CIC (extra-ord.) + 3	Kept commerce + lesser patronage; lost head
CA 1813	Undoubted Crown sovereignty; India trade ended (Tea, Opium, China kept); missionaries; Rs 1 lakh; 20 yrs	Westernisation begins	No change	Lost India trade monopoly
CA 1833	Commerce ended; BoC all administration; Minister Indian Affairs; St Helena; 20 yrs	GG(India); Bo + Ma lose laws; UCS, judicial posts opened	Exec GG + CIC + 3; legis + Law Member	Lost all trade; political agent
CA 1853	No fixed term; exam 1855 London; Budget to Parliament; CCS opened	6 Legal Members; LG Bengal (Halliday 1854)	Exec GG + CIC + 4; legis 12	Lost patronage + policy control
GOI 1858	Crown rule; SoS + 15-member India Council; Dual Control ended; Paramountcy; Mughal sovereignty ended	Viceroy and GG (Canning 56–62)	GG's council continues	EIC abolished (dissolved 1874)

🤝 CONQUEST: POLICY vs DRIFT (Mains: Br State responsibility)

📖 Story link · beat 12: But who was responsible for the conquest itself? Sub-Imperialism drove it, yet the State gave the tools.

No official policy; Sub-Imperialism

→ Expansion driven by Sub-Imperialism: policies, actions, personal ambitions of senior EIC officials in India (many built careers at home)

→ PIA 1784 explicitly banned conquest (heavy cost of 1st Anglo-Maratha War 1775–82, 2nd Anglo-Mysore War 1780–84)

🤝 But the Br State was responsible

→ a Tools: Charter (issued by Crown, later Parliament) gave right to wage war, acquire + administer territory

→ b Military aid: Plassey 1757 won with Royal British Military (Ch 10); 1857: Royal Military arrived October 1857 turned the tide

→ c Financed the Company: monopoly on East Indies trade (1600–1813); Charles II 60–85 rented Bombay (dowry from Portuguese 1661) to EIC for 10 pounds a year in 1668; Thomas Roe sent as State representative to Jahangir 05–27's court; 1772 1.4 million pound bailout

→ d Money trail: over 1,50,000 pounds to Monarch in 17th century for Charter renewals; 1698 Parliament gave monopoly to 'New Company' (2 million pound loan vs EIC's 7,00,000); 1767: 4,00,000 pounds a year; many Parliamentarians + Queen Elizabeth I 58-03 were shareholders

→ e Controlled empire-builders: after 1784 Principal Servants (sub-imperialists) by Crown approval, binding orders direct to GG (favourites of the State)

→ f Foreign-policy tool: Britain dominated world trade via EIC, as MNCs today serve a State (handout: Google, private banks for Russia sanctions, Airtel in Africa); 1st Afghan War 1838-42 = Great Game Britain vs Russia

🎯 GG ACROSS THE ACTS (Prelims 1996) + SEPOY MUTINY

📖 Story link · beat 12: The GG's title changed with each Act, so the teacher drills it by matches; 1857 falls near the end of the story.

Office (Act)	Match	Who (era)
A GG of Fort William in Bengal (RA 1773)	3 = Cornwallis 86-93	era's holder (first: Warren Hastings 73-85)
B GG of India (Charter 1833)	2 = Dalhousie 48-56	first Bentinck 28-35
C GG and Viceroy (GOI 1858)	4 = Minto 05-10 (1905-10)	first Canning 56-62
D GG and Crown Representative (GOI 1935)	1 = Wavell 43-47 (1943-47)	holder in 1940s

Prelims 1996 (a) A-3 B-2 C-4 D-1 PYQ 1996: key uses era's famous holders, not first holders. Handout writes 'Indian Councils Act 1858' in List I; slide + Act = GOI Act 1858. Prelims 2006 Sepoy Mutiny (a) Canning 56-62 PYQ 2006: decide by dates: 1857 vs Bentinck 28-35 (earlier), Hardinge 10-16 (1900s), Lytton 76-80 (later). ⭐

1600 31 Dec: EIC commercial affairs begin	**1661** Charles II 60–85 gets Bombay (dowry)	**1668** rents Bombay to EIC, 10 pounds a year	**1698** New Company (2 million vs 7,00,000)
1765 ToA: CMR begins; American Revolution to 1783	**1767** State demands 400,000 pounds a year	**1770** GBF; Nabobs	**1772** EIC bankrupt, 1.4 million loan; Select Committee

Recall drill: cover and answer

Two affairs and two lenses?	Commercial (1600) and political CMR (1765); @GG = Company State in India, @Br State = EIC–Crown relation	Five drivers of regulation?	Money (1767: 400,000 pounds a year), fear of another America (1765–83), taxpayer (1772 loan 1.4 million), White Man's Burden betrayed (1770, Nabobs), career ambitions
Regulating Act 1773 headlines?	GG(Bengal) Hastings 73–85; Supreme Council GG + 4, casting vote; Supreme Court Calcutta 1774 (Impey); no gifts; Directors 4 yrs, GG 5 yrs	Pitt's India Act 1784?	BoC of 6; Double Government 1784–1833; Dual Control 1784–1858; Secret Committee; council GG + 2 + CIC; regular + casting vote; conquest banned
Charter 1793?	Sovereignty only on behalf of Crown; BoC = President + 2; Principal Servants after Crown approval; first Parliament renewal; CIC extra-ordinary; code	1813 vs 1833 (Prelims 2006)?	1813 ended India trade (Tea, Opium, China kept); 1833 ended all trade, GG of India, Macaulay, Law Commission 1834, UCS opened
1853 Act?	No fixed term; exam 1855 London; Budget to Parliament; CCS opened; 6 Legal Members; LG Bengal (Halliday 1854); legislative council 12	1858 Act?	Crown rule; SoS + 15-member India Council; Dual Control ended; Viceroy Canning 56–62; Paramountcy (Sov, D, C, FA); EIC dissolved 1874
Proclamation 1858 four points?	No annexation; Crown administration; religious non-interference + equal service; amnesty	Famous holder matches (Prelims 1996)?	A Cornwallis 86–93, B Dalhousie 48–56, C Minto 05–10, D Wavell 43–47

🔤 Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

LG = Lieutenant Governor — Administrator of certain Union Territories

SC = Supreme Court (or Scheduled Castes, by context) — India's apex court under Art 124; the second meaning is the Art 341 list

PM = Prime Minister — Head of the Union government

IPC = Indian Penal Code, 1860 — Old criminal code, replaced by the BNS

CM = Chief Minister — Head of a State government

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

CPC = Code of Civil Procedure, 1908 — Law on civil court procedure

UT = Union Territory — Area administered directly by the Union government

UCC = Uniform Civil Code — Proposed common personal laws for all citizens (Art 44)

FDI = Foreign Direct Investment — Investment by a foreign entity with ownership or control in an Indian business

GST = Goods and Services Tax — Common indirect tax on goods and services; policy by the GST Council (Art 279A)

BNS = Bharatiya Nyaya Sanhita, 2023 — New criminal code that replaced the Indian Penal Code

BNSS = Bharatiya Nagarik Suraksha Sanhita, 2023 — New procedure code that replaced the Code of Criminal Procedure

WMB = White Man's Burden

EIC ADMINISTRATION: JUDICIARY, CIVIL SERVICES, POLICE

PYQ Prelims 2010 (two), 1999, 2017 · Mains: none direct (teacher: "No Qs in MAINS"); cross-chapter Mains 2024, 2022 (two), 2017, 2014 answered in Ch 10, 15, 16, 21, 27

✎ *The EIC kept the Mughal frame for courts, services and police until the 1770 famine forced control. Cornwallis 86-93 built the structure; Indians were let in only as cost or Indian movement pressure forced. India inherited codified law, civil service, police.*

📖 THE STORY FIRST (same story as the textbook)

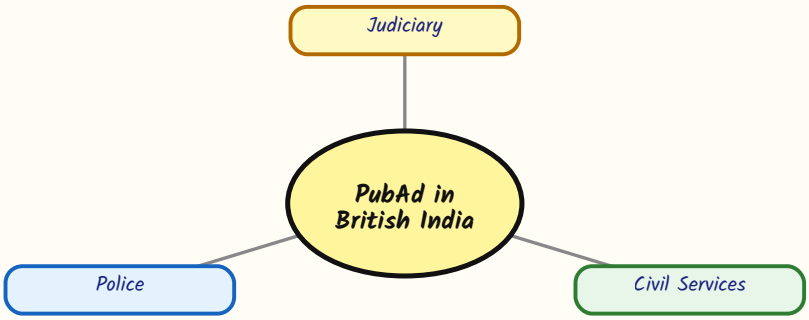

The EIC kept the Mughal frame for courts, services and police until a crisis (the 1770 famine) forced it to take control; Cornwallis 86–93 then built the structure, and Indians

were let in only as far as cost or pressure from the Indian movement forced, leaving independent India with codified law, an organised civil service and a hierarchical police.

1. **A trading company must run a state.** EIC turns from trader to Company State (1765–1858) and must decide how much Indian machinery to keep. Three pillars: judiciary, civil services, police. Teacher: Public Administration in British India.
   → First, what court system did the EIC inherit?
2. **The Mughal ladders of Bengal.** Before 1772 two ladders in Bengal. Civil (Diwani): courts up to Sadar Diwani Adalat, Pandits and Maulvis. Criminal (Nizamat): Islamic law; Kazi judges, Mufti interprets, Faujdar arrests.
   → Then the EIC took over the revenue, but not the rest.
3. **One man, two hats.** After Allahabad 1765 EIC holds Diwani, Nawab keeps Nizamat: Dual Government. Muhammad Reza Khan heads both; EIC cares only for revenue. Law and order breaks; Famine 1770 kills one-third of Bengal.
   → So the EIC decided to rule directly.
4. **Hastings 73–85 steps in.** Hastings 73–85 ends Dual Government in 1772. DC judges civil cases; Kazi and Mufti stay in criminal courts under the DC. Supreme Court Calcutta 1774; Gentoo Code 1776, Hedaya 1791, Code of 1781.
   → But the DC was still both collector and judge.
5. **Cornwallis 86–93's Code of 1793.** PS 1793 makes Zamindars owners needing trusted courts; DC auctioning and judging is a conflict. Cornwallis 86–93 strips the DC of judicial power, creates four divisions, Anglo-Muhammadan law, Indians out of senior posts.
   → Yet the new system clogged, and the model did not fit everywhere.
6. **Ryotwari, Bentinck 28–35 and the codes.** Courts clog and lawyers prolong cases. Ryotwari Madras (1814, Munro) and Bombay (1819, Elphinstone) merge DC roles again. Bentinck 28–35 ends divisional courts; Macaulay's Law Commission leads to CPC 1859, IPC 1860, CrPC 1861.
   → Now the people who staffed the courts.
7. **From patronage to a service.** Early officials came by patronage. Cornwallis 86–93 builds Covenanted (Europeans, senior) and Uncovenanted (junior, locals) services with better pay and seniority; entry stays by nomination until Charter Act 1853.
   → Then came the exam, with three locks on the door.
8. **The exam and its three locks.** Charter Act 1853 brings an exam, first in London 1855. Three locks: low age limit, English Literature syllabus (Brown Sahibs), London venue. Satyendranath Tagore first Indian through 1864; four more 1867.
   → The western-educated Indians began to push back.
9. **The long fight for Indianisation.** WEMC demands exam in India; British give Lytton 76–80's lateral entry, ICS 1892 (Lansdowne 88–94), exam in India 1922, PSC 1926 (Ross Barker), Federal PSC 1937, UPSC 1950.
   → The third pillar, the police, followed its own path.
10. **From Faujdar to Daroga.** Mughal chain: Naib Nazim, Faujdar, Kotwal, Zamindar. Hastings 73–85 replaces Faujdars 1781. Cornwallis 86–93 ends zamindar police 1793: Indian Daroga, thanas of 30 square miles. Daroga–Zamindar nexus oppresses; Wellesley 98–05 restores zamindars 1799.
    → The British then went looking for a proven model.
11. **The Police Act 1861.** Irish Constabulary model, tested in Sindh (Charles Napier 1843), is chosen. Court's 1860 commission under Canning 56–62; Police Act March 1861 creates IG, SP, SI posts. Fraser 1902–03: Imperial Police; IPS 1948.
    → What did all three pillars leave behind?
12. **Crisis or pressure.** Each reform followed a crisis (1770 famine, 1857) or Indian movement pressure, only as far as cost or politics demanded. Legacy: codified law, organised civil service, hierarchical police.

Cast: Muhammad Reza Khan = One Man, Two Hats · Hastings 73–85 = The Direct Ruler · Cornwallis 86–93 = The Father of Three · Wellesley 98–05 = The College Founder · Munro = The Ryotwari Adviser · Bentinck 28–35 = The Bin Man · Macaulay = The Codifier · Satyendranath Tagore = The First Through · Lytton 76–80 = The Loyalists' Door · Lansdowne 88–94 = The Renamer · Charles Napier = The Blueprint Giver · Canning 56–62 = The Commission Setter · M.H. Court = Court of Sindh · Surendranath Banerji = Sacked, Not Surrendered · Ross Barker = The First Chairman · Fraser = The Cadre Builder

🗺️ Three pillars of the Company State machinery

Teacher's four verdicts: no Qs in Mains, few rare Qs in Prelims, troubles aspirants in every book, best version in this handout. Subject = history of Public Administration (PubAd) in British India. ORG (the State) = its three machines. 'WORK = RULE' over T (territory) and Ppl (people): Company State took the territory; this chapter = how it handled the people (L, E, J shorthand Ch 8, 10). Administration = how the State implements policies, laws, schemes on the ground; Company State 1765–1858 (Charter 1833 ended commerce); EIC had to decide how much Indian machinery to keep or replace. ⭐

Mains warning (handout): Mains PYQs mapped here are economic (Drain, de-industrialisation, Sepoy Army): Drain in Ch 27, de-industrialisation in Ch 15 + 16, Sepoy Army in Ch 21. This chapter = the administrative skeleton. 📌

Closing idea / pattern: structural improvement followed political convenience, not principle; each reform triggered by crisis (1770 famine, 1857) or a concession wrested by the Indian movement; never Indianised beyond what was economically necessary (cost) or politically unavoidable; legacy = codified law, organised civil service, hierarchical police. ✅

🔧 JUDICIARY: SIX QUESTIONS EVERY REFORM ANSWERED

📖 Story link · beat 2: Because law was sensitive, the EIC starts with the Mughal ladders and changes them step by step: Dual Government, Hastings 73–85, then Cornwallis 86–93.

No.	Question	Answer in chapter
1	Which law: Hindu, Islamic or British?	Personal laws kept; Anglo-Muhammadan law; Supreme Court on British law
2	Written or judges' discretion?	Codification: Gentoo Code, Hedaya, Code of 1781, Cornwallis 86–93 Code
3	Hierarchy of courts?	1772, 1773, 1793, Bentinck 28–35
4	Lawyers allowed?	Yes, from 1793
5	Judges Indian or British?	All senior posts European under Cornwallis 86–93; lower opened from 1833
6	Language?	Persian replaced 1835

⚖️ Mughal courts in Bengal (before 1772)

→ Two ladders: civil and criminal

→ Civil (Diwani = finance, LR, civil justice): local up to Sadar Diwani Adalat (SDA) at suba; personal laws of Hindus + Muslims for marriage, inheritance; Pandits judged Hindu cases, Maulvis Muslim; Diwan = Chief Justice of SDA; LR + non-personal disputes: original jurisdiction Zamindar in his Kachari; appeals Zamindar > Amil (district revenue officer) > SDA at Murshidabad (Diwan / Naib Diwan)

→ Criminal: Nizamat (Faujdari) Adalats at district, Sadar Nizamat Adalat (SNA) on top headed by Naib Nazim; Islamic state: Islamic law for all; village Zamindar = petty crimes + police duty; major crimes straight to district court

→ Division of labour: Kazi = judge ('2 People Bench' Kazi with Mufti), Mufti = expert on Islamic law, Faujdar (executive police chief, like today's SP) secures accused + executes sentence, does not judge

→ Muhammad Reza Khan (Naib Nazim) held CJ of both SDA and SNA

Level	Civil (Diwani)	Criminal (Nizamat)
Suba	SDA, CJ Diwan (Reza Khan held both)	SNA, headed by Naib Nazim
District	Diwani Adalat: Pandits (Hindu), Maulvis (Muslim); revenue: Amil (Amalguzar)	Nizamat/Faujdari Adalat: Kazi judges, Mufti interprets, Faujdar executes
Local	Zamindar's Kachari: LR + non-personal	Zamindar: petty only
📜 Law	Personal law (Hindu law, Muslim law)	Islamic law for all

Teacher: civil courts religion-specific (judge by faith); criminal courts State-uniform (ruling State's law for all). Remember the pair: standard books stop at personal law (civil) and criminal law (criminal): Civil = Hindu law for Hindus, Muslim law for Muslims; Criminal = Islamic law for everyone. ⭐

CJ of SNA: general Mughal board SNA CJ = Nazim/Subadar; 18th-century Bengal boards + handout = Naib Nazim (Subadar distant; Reza Khan ran courts, EIC's Diwan since 1765). Use Naib Nazim for SNA, Diwan for SDA. Amil vs Amalguzar: handout uses Amil for 18th-century Bengal; canonical Mughal term Amalguzar (district revenue officer): same post.

Dual Government 1765–72

→ After ToA 1765 EIC got Diwani: revenue administration, Treasury, property / civil courts (not health, education: private or religious patronage)

→ Nawab kept Nizamat (law and order) = Dual Government; Orientalism: no rush to impose own system

→ Reza Khan headed both Diwani (for EIC) and Nizamat (for Nawab); Indian officials effective decision-makers; EIC wanted LR

→ Outcome: poor revenue; law and order fell; GBF 1770 killed about one-third of Bengal ('Poverty leads to Crimes')

1772 Direct Government (Hastings 73–85)

→ Hastings 73–85 (Governor from 1772, GG of Bengal 1773–1785) ended Dual Government: direct Diwani + Nizamat; rule of law, equality before law; Orientalism shifts to hybrid

→ Reza Khan imprisoned without trial 1772–74 (corruption, poor law and order); released 1774, reinstated head of SNA

Court (1772)	Judge	Detail
Diwani (civil), district	British DC, assisted by Pandits + Maulvis	Personal laws in marriage, inheritance
Nizamat (criminal), district	Kazis + Muftis continue, supervised by European DC	Law and order too sensitive to replace (board: 'L and O = sensitive, therefore continue with K and M as J')
SDA + SNA	Governor (from 1773 GG of Bengal) + Council members	Top of both ladders passes to Company

1773 changes

→ 1 Attempt at separation of revenue and judicial powers (DC not also judge): overlap remained, principle set

→ 2 District Diwani Adalats replaced by 18 Mofussil courts, each a European judge (Mofussil = rural districts below HQ), assisted by Pandits + Maulvis

→ 1774 Supreme Court Calcutta (RA 1773): British subjects, British law, separate track, outside Indian ladder; Madras 1800, Bombay 1823

1773 vs 1793: 1773 (Hastings 73–85) separation attempted, overlap remained, 18 Mofussil courts. 1793 (Cornwallis 86–93): DC stripped of all judicial powers, 18 Mofussil courts abolished, district Diwani Adalats back. Board 'PROPER SoP @ DC by CW 86–93': Prelims 2010 links DC's loss of judicial power to 1793.

📬 Codification ('WRITTEN LAW')

→ 1775: 11 Pandits compiled Hindu law; English translation = Gentoo Code (1776) ('Gentoo' from Portuguese 'Gentios', derogatory for Hindus: many Gods)

→ 1778: Islamic law: translated Al-Hidayah (Arabic manual) to Persian by Indian scholars, then English = The Hedaya (1791)

→ Code of 1781 (Hastings 73–85, Bengal only, issued by GG so later GG could change): written orders compulsory + rules for court functioning

Hastings digits: board writes 'HASTINGS 78–85' (last digits look like 78); typed slides + handout write Hastings 73–85. Keep 73–85.

CORNWALLIS 86-93 CODE OF 1793 (judiciary)

📖 Story link · beat 5: Because the Permanent Settlement made Zamindars owners, they need trusted courts, so Cornwallis 86–93 strips the DC of judicial power.

🔧 Why he reformed

→ Cornwallis 86–93 (GG 1786–1793): most systematic early judicial reform; just did PS 1793: new big Zamindars as private owners needed secure property rights: trusted courts, revenue officials who cannot harass; tax collector must not judge the appeal against himself

→ Separation of Powers at DC level: DC stripped of all judicial powers, only revenue + administration

→ Board 'Imagine': DC applies Sunset Clause, Zamindar files case; if judge = same DC, conflict of interest; Cornwallis 86–93 = AUTHORITARIAN, hence removed Indians from all senior positions (other side of same reform)

Prelims 2010 (c) PYQ 2010: DC deprived of judicial powers because absolute power in one person was undesirable (separation of powers; post-PS Zamindar class needed independent courts). (a) revenue efficiency = partial truth (b) 'judicial = European only, revenue can be Indian' wrong: he removed Indians from all senior posts incl. revenue (d) 'judicial work needed deep India knowledge' = partial truth. Trigger = conflict of interest after PS 1793.

Civil side

→ 18 Mofussil courts replaced by district Diwani Adalats + City Courts (urban)

→ Bengal in 4 divisions: Patna, Murshidabad, Calcutta, Dacca, each with a Provincial Court of Appeal

→ Appeals: district / City > Provincial Court of Appeal > SDA shifted Murshidabad to Calcutta

→ Personal laws continued; PS 1793 governed LR disputes; per Charter Act 1793 regulations codified, written orders compulsory, laws printed in vernaculars

Code 1781 vs Code 1793 = issuing authority: 1781 by GG (Bengal) can be changed by a later GG; 1793 via Charter Act 1793, 'By Br (P)' (British Parliament) = more weight.

Criminal side

→ Faujdari / Nizamat Adalats at district abolished; 4 Provincial Courts of Circuit in the four divisions (Court of Circuit = travelling bench, rotating districts: week 1 district 1... so no district needs own criminal court)

→ Appeals to SNA

→ Islamic law continued with British modifications = Anglo-Muhammadan law, applied about 70 years until IPC 1860

Anglo-Muhammadan example (handout only)	Islamic law (strict Hanafi)	Cornwallis 86-93 change
A weapon rule to intent rule	Capital murder depended on weapon (sharp iron = murder; strangling, drowning, heavy stone often lesser)	Intent decides, not instrument (mens rea)
B end of blood money (Diyat)	Murder largely private: heirs could pardon for compensation	Relatives cannot pardon: major crime = offence against State
C abolition of mutilation	Serious theft / dacoity = amputation of hand or foot	Outlawed; hard labour, rigorous imprisonment 7 to 14 years

📜 Personnel + lawyers

→ Authoritarian: Indians removed from all senior posts; all courts headed by Europeans; Kazis + Muftis only assistants; Naib Nazim office abolished (board '[NA ABOLISHED]')

→ Progressive: lawyers permitted = new class of Indian lawyers; with PS (land a tradeable commodity) also property dealers; board: Cornwallis 86-93, father of: CS (civil services), property dealers, lawyer

Why litigation rose (class slide)	What happened
⚡ 1 Separation of Powers (key)	DC lost judicial + magisterial powers: disputes once swift and on the spot now formally filed in Diwani Adalats
⚖️ 2 Court fees abolished	'Accessible' justice flooded courts with genuine + frivolous suits; reimposed 1795 (2 years later)
3 Legal profession	Vakils recognised + rigid appeals: cases deliberately prolonged

Handout vs slide: handout gives three reasons for litigation rise (not this table). Same three points appear in Ch 16 (Prelims 2011, answer (d)). 💡

JUDICIAL SYSTEM IN RYOTWARI AREAS

📖 Story link · beat 6: But the new system clogs and does not fit everywhere: Ryotwari areas merge the DC's roles again.

Madras 1814, Bombay 1819

→ Bengal model (separated functions) suits zamindari (few big landowners, few disputes, distant court workable); Ryotwari = very many small landowners, many disputes, district courts physically distant (board 'WHR number of landowners is LESS')

→ Madras 1814: Bengal system replaced on Munro's advice; separation ended; European DC + subordinates given judicial powers for ground-level justice (less paperwork, faster); greater Indianisation of lower judiciary (juniors include Indians; board scale 300, 200, 100)

→ Downside: concentration of power: DC collected taxes, kept order, judged disputes even from his own tax decisions

→ Bombay 1819: same system by Elphinstone (follower of Munro's philosophy)

→ Result: Madras Torture Commission Report 1855, oppression by Mirasidars revealed

Madras Torture Commission 1855, two homes: handout puts it in police (4.3.2: atrocities of revenue officials after Daroga failed in Madras); class puts it in Ryotwari judiciary (DC with all powers + juniors, Mirasidars). Learn once: 1855, oppression exposed; use in either answer. **Munro 1814 vs 1820:** 1814 = judicial model replaced in Madras; 1820 = formal Ryotwari revenue rollout (Ch 16). Do not swap.

📜 CHARTER ACT 1833 (judicial) AND AFTER

📖 **Story link · beat 6:** Then Bentinck 28–35 and the 1833 Law Commission clear the clog and write the codes; now to the people who staff the courts.

📜 1833 impact

→ GG of India = **single central legislative authority**; laws equal for Indians + Britishers (one law for all)

→ **Macaulay** Law Member; **Law Commission 1834**; codification substantially complete **1837**, full implementation after 1857: **CPC 1859, IPC 1860, CrPC 1861**

→ **Subordinate judicial posts below District Judge opened to Indians** (follows Madras 1814)

→ **Impact on common Indian:** justice **psychologically distant** (western, complex), **physically distant** (rural), **financially distant** (fees); served the educated + propertied; personal laws continued in marriage + inheritance; 'Western Edu 1835' (Ch 19): English-educated could use new courts

Bentinck 28–35 (GG 1828–33; GG of India 1833–35)

→ **Abolished divisional courts:** Cornwallis 86–93's **Provincial Courts of Appeal** (civil) + **Courts of Circuit** (criminal): **parking grounds for inefficient officers** (punishment postings), high pendency, **high State expenditure** = fiscal prudence; powers + pending cases to **District Judges**

→ Concept: polity = L, E, J equal; reality: E top prestige, J dumping ground

→ After him: civil = District Diwani Adalat + City Courts straight to SDA; criminal = Nizamat Adalat straight to SNA

→ **1835 Persian replaced:** vernaculars in lower courts, **English in higher** (**Act XXIX of 1837**); anxiety among **Muslim elites** (Persian = path to careers)

→ **NWP courts:** own **SDA + SNA** in Northwest Provinces (Awadh portion annexed **1801**, full province status **1836**) so no travel to Bengal ('Distance')

Persian context (handout): introduced under Delhi Sultanate in 13th century; boosted when **Humayun 30–40** accepted promoting Persian to win Safavid military support vs Suri Dynasty (1540–55); **Akbar 56–05** with finance minister Todar Mal made Persian compulsory for administrative records.

⚖️ High Courts + Federal Court

→ **Indian High Courts Act 1861:** High Courts at **Madras, Bombay, Calcutta in 1862**; Calcutta HC = **merger of SDA + SNA + Supreme Court Calcutta:** ended dual track (Indians vs British)

→ **GOI Act 1935** (from **1937**): **Federal Court:** Centre vs Province, Province vs Province disputes + appeals from HCs = ancestor of **Supreme Court of India (Constitution 1950)**

Pre-1772	1765–72	1772	1773–74
two ladders; personal law civil, Islamic criminal	Dual Govt; Reza Khan; famine 1770	DC civil judge; Kazi + Mufti under DC; Governor + Council head Sadar Adalats	18 Mofussil courts; SC Calcutta 1774; Gentoo 1776; Hedaya 1791; Code 1781

1793	1814/1819	1833–37	1859–62
Cornwallis 86–93: DC loses judicial power; 4 divisions; Anglo-Muhammadan; lawyers in	Madras / Bombay merge DC roles	Bentinck 28–35 + Macaulay: divisional courts out; Persian 1835; NWP Adalats; Law Commission 1834	CPC, IPC, CrPC; HCs 1862

1937
Federal Court; SC India 1950

CIVIL SERVICES

📖 Story link · beat 7: Because courts and revenue need officers, the question becomes who gets hired and how: patronage, a service, then the exam and Indianisation.

Service = pre-defined career path, fixed rules for pay, promotion, removal, clear seniority + accountability (member of a cadre, not a mere employee); 'No career ladder' = 'Total discretion'. History = chaotic patronage to structured merit cadre, with tension: how many Indians?

Seven design questions (teacher)	Issue
1	Nomination or examination?
2	If exam, specialised body like UPSC?
3	Syllabus: Indian or Western?
4	Venue: London, or India and London?
5	Age limit: low or high?
6	Organisation (IAS, IPS, IFS, IRS): common exam or separate?
7	Training: on job or institute?

Recruitment + training

→ Initially nomination, posts purchased or by patronage; Directors lobbied British Parliamentarians with jobs for their sons: corruption, incompetence

→ Training: to 1800 on the job; 1800–1806 Fort William College, Calcutta (Wellesley 98–05; Indian laws, customs, languages); 1806–1858 Haileybury College, London (East India College); 1858 on British universities

Cornwallis 86–93: founder of civil services

→ ORGanised employees into two tiers; converted corrupt patronage employees into structured service

→ CCS (Covenanted) ~ Group A: senior officers signing a covenant with CoD in London before sailing; high pay, clear career; Europeans only under him ('Authoritarian'). Hook: 'Cornwallis = Covenant: sign contract in London, sail to India, draw senior pay.'

→ UCS (Uncovenanted) ~ Group B: junior officers hired locally by GG or provincial governors; lower pay; where Indians + British served: first very low clerks, then Deputy Collectors + Deputy Magistrates by 1830s–40s

	What	Detail
DID	Two tiers	CCS + UCS: first proper structure
DID	Strict seniority for promotion	London bosses could not push relatives ('Merit @ Promotions')
DID	Massively higher salaries	Cut incentive to be corrupt

DID	Curbed private trade by officials	(Dastak, Ch 10)
DID	Separation of Powers	DC lost judicial powers 1793
DID NOT	Merit-based entry	Entry stayed nomination by CoD until Charter Act 1853

Prelims 2010 (c) Cornwallis 86–93 created CCS PYQ 2010: (a) Hastings 73–85: judicial plan, not CCS (b) Wellesley 98–05: Fort William College 1800 (training), cadre structure pre-dated him by 7 years (1793 to 1800) (d) Bentinck 28–35: opened UCS to Indians 1833 (40 years later), encouraged some senior Indians. CCS renamed ICS in 1892 by executive order under Lansdowne 88–94 (Aitchison 1887), NOT by Indian Councils Act 1892. Keep 1793 and 1892 apart.

1833 and 1853

→ Charter Act 1833: UCS opened to Indians to reduce cost (cheaper junior labour); Bentinck 28–35 slightly further: encouraged Indians in some senior posts

→ Charter Act 1853 = landmark: Civil Service Examination mandated, Indians eligible; 1854 Select Committee of Parliament under Macaulay recommended exam-based permanent service; Civil Services Commission (1854), London; first exam 1855

ALL — Three locks on Indians in the 1855 exam: Age (low) · Literature (English) · London (venue) = ALL three kept Indians out (teacher: 'To prevent entry of Indians into CS') (own mnemonic)

Barrier (eligibility on paper, not access)	Detail
⏳ Age limit	Max 18 to 23, deliberately low. 1859 Crown cut max age to 23; 22 in 1860; 21 in 1866; 19 in 1876 (implemented 1878, not to hit those preparing). Board: 'not imp' (do not memorise every step)
Syllabus	English Literature = source of values, to make what Macaulay called 'Brown Sahibs' (Indians English in culture + values, loyal to Britain)
Venue	Only London
Indian candidate	Travel cost; inferior preparation; syllabus rewarded English culture knowledge
🧑‍🤝‍🧑 First Indians	1864 Satyendranath Tagore (brother of Rabindranath) first Indian to clear CCS exam; 1867 four more

Fight for Indianisation (1860 on)

→ WEMC (Western Educated Middle Class, 1835+, product of British education policy) demanded: (1) simultaneous exam in India (2) higher max age

→ British hostile: post-1857 insecurity, keep Indians out of senior posts; board reply '1st exam in India = 1922' (via GOI Act 1919)

📜 Statutory Civil Services Act (Lytton 76–80) ('[unimportant ACT]')

→ Parliament gave Indianisation directions 1870; instead of exam in India or higher age, Lytton 76–80 (Viceroy 1876–1880) brought lateral entry by nomination: loyal elite Indians nominated to CCS posts, only vetted loyalists

→ Statutory authority over rules, syllabus, age limits vested in SoS for India after GOI Act 1858

→ Handout aside: books blame Lytton 76–80 for cutting age limit and credit Ripon 80–84 for raising it (SoS was greatly influenced by GG's input) but not the legal truth

→ One line: nomination of loyal elite Indians instead of an exam in India

Statutory CS date: handout 'Act 1878 (Lytton 76–80)'; slide 'Statutory CS 1879', 'rules framed 1879 under GOI Act 1870'. Read together: Act 1878, rules 1879. Board: unimportant act. Slide: 'ICS' struck for 'CCS' in SoS row: logical (service in 1858 still CCS; ICS only from 1892).

👑 Aitchison Commission 1887 (Lecture 21)

→ Appointed 1886 by Dufferin 84–88; report 1887: drop 'Covenanted/Uncovenanted'; three tiers: Imperial Civil Service (ICS), Provincial Civil Service (PCS), Subordinate Civil Service

→ Implemented 1892 by executive order under Lansdowne 88–94 (NOT Indian Councils Act 1892, Ch 28 Lord Cross Act, exam trap): CCS became ICS, UCS became PCS, Statutory CS (1878) abolished (partly by Moderate pressure)

→ PCS = UCS senior posts + Statutory CS, recruited by exams + selection in India; Subordinate = UCS junior posts (clerks)

→ Context: Moderate phase 1885–1905 'Pressure on Britain'; provincial service gets own commission only GOI 1935

👑 Islington Commission (1912)

→ Context: Swadeshi 1905–11, Delhi Conspiracy Case 1912, Ghadar 1913–15, Home Rule Leagues 1916–18, WW I 1914–19

→ Set up 1912, report 1917: 25% Indians in senior posts via exam (DR) + promotion from PCS (promotees); rejected simultaneous exam in India (uneven standards)

→ Teacher: 'CONTRADICTION': 25% promised yet refused the reform that would win it; real reason (handout): slow down Indianisation, fear more Indian candidates; star note: first time reservation recommended (1919 first implemented)

📜 GOI Act 1919 (Montagu–Chelmsford)

→ Context: Rowlatt Satyagraha 1919; WW I; Chelmsford 16–21 (Viceroy); board 'NARRATIVE = DEMOCRACY'

→ Simultaneous exam in India (first 1922); Public Service Commission for India (1926); gradual rise to 33% Indians in senior posts (Islington 1917: 25% recommended, 33% implemented 1919)

→ Dyarchy: ICS split into All India Services (AIS) + Central Civil Services (today's structure essentially this)

WW I context: handout puts wartime claims of fighting for democracy under Islington (3.8); slide puts WW I (1914–19) + Rowlatt under 1919 Act with 'Narrative = Democracy'. Use the slide: WW I belongs to 1919 context.

👑 Lee Commission 1923 (Royal Commission on Superior Civil Services)

→ Context: Khilafat 1920–24, Non-Cooperation 1920–22; equal British + Indian members; report 1924

→ 20% Indians by promotion from PCS; 40% Indians by exam; 40% Europeans by exam (total 100); 50:50 Indians:Europeans within 15 years (exactly 50:50, not more); PSC (promised 1919) to be set up

→ Structure: AIS (ICS, IPS, Indian Forest Service...), Central Services (Foreign Affairs, Customs, Railways...), Provincial Services (Health, Education...)

→ Slide only: PSC set up October 1926, Ross Barker first Chairman (promised 1919, repeated 1923–24, set up 1926)

📜 GOI Act 1935 ('Last COI by Bn (P)')

→ Context: Hindustan Republican Army (1924), CPI (1925), HSRA (1928), Anti-Simon 1928, Lahore Conspiracy Case 1928, Civil Disobedience 1930–34, Chittagong Armoury Raid 1930–33, martyrdoms of Bhagat Singh, Sukhdev, Rajguru, Bhagwati Charan Vohra, Chandrashekhar Azad (1931)

→ Formal federal distribution of subjects Centre–Provinces (= today's 7th Schedule)

→ Federal Public Service Commission (1937, replaced 1926 PSC, ancestor of UPSC) + Provincial PSCs

→ By 1947 over 50% of civil service posts Indianised

→ 26 January 1950: UPSC under Article 378 (transition provision: continuity of British-era UPSC + State PSC members); Articles 315, 316 govern UPSC + State PSCs; Article 312 All India Services

Early EIC nomination, purchase, patronage	**1793** Cornwallis 86-93: CCS + UCS; entry still nomination	**to 1800** on the job	**1800-06** Fort William College
1806-58 Haileybury	**1833** UCS opened; Bentinck 28-35	**1853-55** exam, London only; first 1855	**1864** S. Tagore
1867 four more	**1860 on** demand simultaneous exam + higher age	**1878-79** Lytton 76-80 Statutory CS	**1887-92** Aitchison; Lansdowne 88-94 order
1912-17 Islington 25%	**1919-26** 1922 exam in India; PSC 1926; 33%	**1923-24** Lee 20-40-40	**1935-37** Federal PSC 1937
1947 50%+ Indianised		**1950** UPSC, Art 378	

Prelims 1999 (b) Surendranath Banerji PYQ 1999 (class slide only): among four who cleared in 1867; dismissed 1874 on a technical, age-related ground (politically motivated; made him an early militant Moderate). Tagore (1864, first Indian) had a full ICS career; R.C. Dutt (cleared 1869) retired honourably as Divisional Commissioner; S.C. Bose cleared 1920, resigned 1921 (resignation is not dismissal). Handout says only '1867: four more Indians cleared it'. ⭐

Prelims 2017 (c) 2 and 3 only PYQ 2017: Cornwallis 86-93 = PS 1793 in Bengal (zamindari, opposite system); Alexander Read 1792 Baramahal = early experiment; Munro G(Ma) 1820-27 = mature Ryotwari. Hook: Read drafted, Munro delivered: Madras 1820; Cornwallis stayed in Bengal with Zamindars. ⭐

Board note (civil services snake): '73-85' over Hastings era (ad hoc patronage); '86-93 based promotions (= MERIT)': promotion by seniority is the merit he brought, entry stays patronage till 1853. Board agrees with handout and Lecture 20 on all dates except Statutory CS (1879 slide, 1878 handout); shows 1892 order inside the 1887 Aitchison box. ✅

POLICE

📖 Story link · beat 10: Because the third pillar was the most sensitive, the Mughal chain was kept longest: Faujdar, Daroga, then the Irish model.

Inherited system (pre-1781)

→ Mughal policing left untouched longest (sensitive)

→ Naib Nazim (Deputy Subadar; Md Reza Khan) @ suba = overall head; Faujdars @ district / rural Sarkars ('Sarkar' here = sub-divisional unit); Kotwals @ towns; Zamindars in villages, paid Village Watchmen (Chowkidars) one per village from own resources

🔧 Hastings 73-85's 1781 reforms

→ GBF 1770 raised crime; Faujdars replaced by English Magistrates (DC/DM) in rural districts; Zamindars kept police duty under DM

→ Problem: very few DMs, poor supervision, Zamindars oppress freely. Chain: GG(Be) > DC/DM > Zamindars > Village Watchmen

→ Ended Zamindars' police powers (agrarian capitalists, not police)

→ District divided into thanas of 30 sq miles (1 mile = 1.6 km: about 77 sq km); each under new Daroga (Indian) appointed + supervised by DM

Daroga system of Cornwallis 86–93 (1793) ('PS 1793 + Code 1793 = one package')

→ English DM = absolute supreme head of law and order in district; ultimate oversight in GG + Council (no IG or Naib Nazim between). Chain: Darogas > DM > central govt

Hat	Role	Mughal ancestor
💰 DC (revenue)	Collects LR, manages govt land, land records, various taxes	Diwani / Amalguzar function
📜 DM (law and order)	Heads district criminal administration; coordinates with SP; peace, riots, executive orders e.g. Section 144 CrPC	Nizamat / Faujdari function

DC and DM = usually one person (as today). Cornwallis 86–93 separated the judicial function (DC/DM no longer judge); revenue + law and order stayed combined.

Faujdar = SP, or DM = heir of Faujdari? Lecture 20: 'Faujdar = like SP at district'; Lecture 21: DM descends from Nizamat / Faujdari function. Answer: the DM inherits the Faujdari function; the Faujdar was like today's SP. Do not say the DM is the Faujdar.

⚠ Daroga–Zamindar nexus (failure)

→ Zamindars bribed Darogas, kept lathiyals: main oppression of rural poor early 1800s; British blamed 'Indian corruption' not structure

→ 1799 Wellesley 98–05 restored police powers to Zamindars (admitted failure)

→ 1802 Daroga system extended to Madras, later abolished; police powers to DC's juniors (revenue officials)

→ Atrocities exposed by Madras Torture Commission 1855 (see conflict above)

📜 Police Act 1861 and the Irish Constabulary model

→ After failure, Irish Constabulary model: centralised, hierarchical, quasi-military, effective in Ireland since 1787, for suppressing agitation as much as crime = political control mechanism

→ Road-test: Sindh 1843 (Charles Napier, Sindh Police right after conquest), Punjab 1849, Bombay 1853, Madras 1859

→ 1st Police Commission 1860 set by Canning 56–62 under M.H. Court: formalised what worked, borrowed the Sindh model

Trap: Charles Napier did NOT head the 1860 commission (many guidebooks wrongly say so). Napier = blueprint (Sindh); M.H. Court's commission drew the national map.

📜 Police Act 1861

→ Passed March 1861 by the GG's Council (as restructured by Charter 1853), not the British Parliament; Indian Councils Act 1861 came August 1861 (created Imperial Legislative Council, ILC): do not mix

→ Provincial police structure: each province own police (own resources + HR; specialist ladder, not Zamindar or DC)

→ Operational chain: SI > SP > IG; political accountability to civilian authority: SP to DC/DM, IG to Governor / LG

→ Only an organisation chart: posts without a service: military officers or nominated Europeans, no cadre, no exam, no unified service (IPS not created yet)

→ From 1857 a 'Police Raj': Indians excluded from senior posts; intelligence, political surveillance, 'ensure no repeat of 1857'

Post	In charge of	Reports to
Inspector General (IG)	Provincial police	Governor / LG
Superintendent of Police (SP)	District police	DC / DM
Sub-Inspector (SI)	Thana	SP (not DC as earlier)

Year	Formalisation into a cadre
1893	First open competitive exam for senior police posts, London; top candidates = probationary Assistant SPs under SoS
1902–03	Curzon 99–05 set 2nd Police Commission under Sir Andrew Fraser (report 1903): one unified all-India cadre, Imperial Police (IP) (informally Indian Police); from about 1905
Fraser's package	Provincial Police Service (PPS) with new rank DySP for Indians, always junior to British IP; CID in every province + Department of Criminal Intelligence (1903) = forerunner of IB; IP itself closed to Indians: Fraser did NOT recommend Indians (preserving racial superiority at top)
1920	Direct entry to IP opened to Indians (simultaneous exams England + India from 1921) after GOI Act 1919
By 1931	Only 20% of SPs Indian
From 1939	More Indians posted as SP: British candidates recruited for WW II / WWII (1939–45)
1948	IP replaced by Indian Police Service (IPS) by Home Ministry resolution; statutory backing All India Services Act 1951

1861 built the structure, 1902–03 built the service, 1948–51 built the IPS. Today's IPS = AIS under Article 312; State police under State governments inherit 1861 framework. Police exam in India began 1921; ICS exam in India 1922 (board '* ICS exam in India: 1922').

1765 Dual Govt; Reza Khan both	**1770** GBF; crime up	**1772** Hastings 73–85 direct rule; Reza Khan jailed to 1774	**1773** 18 Mofussil courts; RA
1774 SC Calcutta; Reza Khan reinstated	**1775** 11 Pandits	**1776** Gentoo Code	**1778** Al-Hidayah effort
1781 Code of 1781; English Magistrates	**1787** Irish Constabulary effective	**1791** Hedaya	**1793** Cornwallis 86–93 Code; Daroga; CCS + UCS
1795 fees back	**1799** Wellesley 98–05: police to Zamindars	**1800** Fort William; SC Madras	**1802** Daroga to Madras
1806 Haileybury	**1814** Madras separation ended	**1819** Bombay	**1823** SC Bombay
1833 Charter; Macaulay	**1834** Law Commission	**1835** Persian replaced	**1836** NWP province
1843 Sindh police	**1849** Punjab police	**1853** Charter; Bombay police	**1854** Macaulay Select Committee; Commission
1855 First exam; Madras Torture Commission	**1859** CPC; age 23; Madras police	**1860** IPC; age 22; 1st Police Commission	**1861** CrPC; Police Act; High Courts Act
1862 High Courts	**1864** S. Tagore	**1867** four more	**1874** Banerji dismissed
1876 age 19 (1878)	**1878** Statutory CS Act	**1887** Aitchison	**1892** CCS to ICS
1893 first police exam	**1902** 2nd Police Commission	**1903** DCI	**1912** Islington (report 1917)
1920 IP open to Indians	**1922** exam in India	**1923** Lee (report 1924)	**1926** PSC
1931 20% SPs Indian	**1937** Federal Court + FPSC	**1939** more Indian SPs	**1947** 50%+ Indianised
1948 IPS	**1950** SC India; UPSC Art 378	**1951** AIS Act	

THREE-PILLAR LEGACY (matrix)

📖 Story link · beat 12: Because each pillar moved only when pushed, one pattern ends the story: crisis or pressure, and three legacies.

Pillar	Inherited (Mughal)	Foundational reform	Mid-19th century	Modern legacy
Judiciary	Diwani Adalats (civil; Pandits, Maulvis) + Nizamat Adalats (criminal; Kazis, Muftis, Faujdars)	Hastings 73–85's 1772 plan; SC Calcutta 1774; Cornwallis 86–93 Code 1793 + Anglo-Muhammadan law	Charter 1833 (Macaulay, Law Commission 1834) to CPC 1859, IPC 1860, CrPC 1861; High Courts Act 1861 (HCs 1862)	GOI 1935: Federal Court 1937, SC India 1950; CPC, IPC, CrPC replaced 2024 by BNS, BNSS, BSA
Civil services	Mansabdari nobility under Mughal patronage	Cornwallis 86–93 (1793): CCS + UCS; higher pay; seniority	Charter 1853: exam, Indians eligible (London only); ICS by executive order 1892 (Lansdowne 88–94, per Aitchison 1887, NOT ICA 1892)	Lee 1923 to PSC 1926; GOI 1935 Federal PSC 1937 then UPSC 1950 (Art 378); AIS Art 312
Police	Naib Nazim to Faujdars (rural) + Kotwals (towns) + Zamindars (villages)	Hastings 73–85's 1781; Cornwallis 86–93's Daroga 1793 (failed: Daroga–Zamindar nexus)	Irish Constabulary road-test (Sindh 1843, Punjab 1849, Bombay 1853, Madras 1859); 1st Commission 1860 (M.H. Court) to Police Act 1861	2nd Commission 1902–03 (Fraser) to IP; 1948 Home Ministry resolution to IPS; AIS Act 1951 + Art 312

Matrix note: handout's summary table is scrambled in the PDF; rebuilt from readable pieces. The judiciary 'modern legacy' cell is cut off after 'BS' in handout; class matrix prints BNS / BNSS / BSA, so BSA used. 2024 replacement appears only in this table and the class matrix.

GG AND VICEROY BOARD (source of reign-year codes)

📖 Story link · beat 12: The reign-year codes used across the story come from this board.

Left column	Right column
W. HASTINGS 73–85	MINTO 05–10
CORNWALLIS 86–93	HARDINGE 10–16
SHORE 94–98	CHELMSFORD 16–21
WELLESLEY 98–05	READING 21–26
CORNWALLIS 86–93 (months)	IRWIN 26–31
F. HASTINGS 13–23	WELLINGDON 31–36
BENTINCK 28–35	LINLITHGOW 36–43
DALHOUSIE 48–56	WAVELL 43–47
📬 CANNING 56–62 (MAYO 69–72 written to its left)	MTB 1947–48
DUFFERIN 84–88	
LANSDOWNE 88–94	
CURZON 99–05	

Two Hastings, one code each: W. HASTINGS 73–85 (Warren, this chapter) and F. HASTINGS 13–23 (Francis): never put 73–85 on the other. Board oddities: Cornwallis 86–93 appears twice (second with '(months)', after Wellesley 98–05); MAYO 69–72 joined to Canning's row by a line though after Canning 56–62; right column spells WELLINGDON (31–36), abbreviates Mountbatten MTB 1947–48. Lytton 76–80 and Ripon 80–84 are not on the board.

PYQ map (Mains, cross-chapter): Mains 2024 (15 marks) IR and decline of handicrafts: 💡 Ch 15, 16; Mains 2022 (10) spurt in famines since mid-18th century: Dual Govt 1765–72, poor revenue, law and order fell, GBF 1770 (about one-third of Bengal) (Ch 10, 27); Mains 2022 (10) why EIC armies (Indian soldiers) won: Ch 21; Mains 2017 (15) artisanal decline crippled rural economy: Ch 15, 16; Mains 2014 (10) British economic policies: Ch 27, 16.

Recall drill: cover and answer

Mughal courts: who judged, who executed?	Civil: Pandits / Maulvis, Diwan CJ of SDA; criminal: Kazi judges, Mufti interprets, Faujdar executes; Naib Nazim heads SNA	1772 vs 1773 vs 1774?	1772 DC civil judge, Governor + Council head Sadar Adalats; 1773 18 Mofussil courts; 1774 Supreme Court Calcutta (British subjects)
Codes?	Gentoo 1776 (11 Pandits 1775), Hedaya 1791 (Al-Hidayah), Code of 1781, Cornwallis 86-93 Code 1793	Cornwallis 86-93 Code (judiciary)?	DC loses judicial power; 4 divisions (Patna, Murshidabad, Calcutta, Dacca); Courts of Appeal + Circuit; Anglo-Muhammadan law; lawyers; Indians out of senior posts

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

DM = District Magistrate (or Disaster Management, by context) — Head of district administration; in GS3, the DM Act, 2005 sets up disaster bodies

PSC = Public Service Commission — Constitutional recruitment body (UPSC for the Union, SPSC for States)

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

IPS = Indian Police Service — All India Service for police officers

IPC = Indian Penal Code, 1860 — Old criminal code, replaced by the BNS

SC = Supreme Court (or Scheduled Castes, by context) — India's apex court under Art 124; the second meaning is the Art 341 list

CPC = Code of Civil Procedure, 1908 — Law on civil court procedure

AIS = All India Services — IAS, IPS and Indian Forest Service, created under Art 312 and shared by Union and States

LG = Lieutenant Governor — Administrator of certain Union Territories

BNS = Bharatiya Nyaya Sanhita, 2023 — New criminal code that replaced the Indian Penal Code

BNSS = Bharatiya Nagarik Suraksha Sanhita, 2023 — New procedure code that replaced the Code of Criminal Procedure

HC = High Court — State-level constitutional court (Art 214)

IB = Intelligence Bureau — India's domestic intelligence agency

SDA = Sadar Diwani Adalat

SNA = Sadar Nizamat Adalat

ICS = Imperial Civil Service

SOCIAL REFORMS, EDUCATION REFORMS AND PRINT CULTURE

PYQ Prelims 1998 (six), 1998, 2001, 2002, 2005 (two), 2007, 2008, 2009, 2012 (two), 2016 (two), 2018 (four), 2020, 2021 (three), 2025 · Mains 2025 Phule (15 marks, 250 words), 2021 Young Bengal + Brahmo Samaj (10, 150 words), 2019 Renaissance + national identity (10, 150 words), 2017 women's question (15, 250 words)

✎ *Reason met a religious society. Reformers joined reason to scripture (Roy, Vidyasagar) and won laws, but not the masses, as reform was elite, top-down and slow. The British school and press then made the educated 8% turn reason on British rule.*

📖 THE STORY FIRST (same story as the textbook)

Reason met a religious society: reformers who joined reason to scripture (Roy, Vidyasagar) won laws but not the masses, because reform was elite, top-down and gradual. The colonial school and press that carried the Doctrine of Reason made the educated 8% who finally turned it on British rule itself.

1. **Europe's rebirth, Bengal's mirror.** Europe's 14th-century Renaissance used reason for human welfare. Bengal looked alike: priests, no modern schooling, birth privilege, poverty. So reformers took the best of scripture and used reason on the rest.
   → But why did reform begin in the 19th century, and in Bengal?
2. **The Raj opens the door.** After 1813 Liberals, Utilitarians and Evangelists backed Western education and reform. Evangelist conversion scared Indians into reforming from within. Education (1835) gave the Doctrine of Reason. Bengal led because the Governor General sat there.
   → Now, who would use that reason, and how?
3. **Logic alone, or logic plus scripture?.** Religion ruled social life, so reform had to reinterpret religion. Derozio's Young Bengal used only logic and failed with the masses. Reformers used logic found inside scripture instead.
   → One man did this best: Roy.
4. **Roy, the bridge.** Roy, Father of Modern India, found monotheism in the Upanishads and used reason against Karma and Incarnation. He worked with Bentinck 28–35, Macaulay and David Hare. He wanted a free Press and Trial by jury.
   → His first great test was Sati.
5. **Sati: the first law.** Bentinck 28–35 demanded scriptural proof. In 1828 the Brahmo Samaj beat Radhakanta Deb in debate, and in 1829 Regulation XVII made Sati culpable homicide. Deb's Privy Council appeal failed in 1830.
   → Roy now had a law, and needed a body to carry the work on.
6. **The Brahmo Samaj splits.** Brahmo Samaj (1828) stayed upper-caste and urban. After Roy died in 1833, Debendranath Tagore held it together. Keshab Chandra Sen wanted a mass movement, so 1866 split it; the 1878 marriage of his minor daughter split it again.
   → Meanwhile Maharashtra took up the work, from the elite and from below.
7. **Maharashtra and the voice from below.** Paramhansa Mandali (1849) failed like Young Bengal. The Prarthana Samaj (1867) was Brahmoism for Maharashtra. Ranade built the Poona Sarvajanik Sabha. Phule spoke for the oppressed: girls' school 1848, Satyashodhak Samaj (1873).
   → But the hardest customs lay inside the home.
8. **The home front: marriage, age, infants.** Child marriage had religious sanction, so the IPC 1860 set only age 10. After Phulmoni's death, Lansdowne 88–94 raised it to 12 in 1891. The Female Infanticide Act 1870 could not reach dowry or neglect of girls.
   → Vidyasagar took on the widow.
9. **Vidyasagar's war on widowhood.** Vidyasagar opened 25 girls' schools in 1857–58, and the Widow Remarriage Act came on 26 July 1856. But widows lost property and orthodox Hindus won the debate. Early reform was elite, top-down, gradual and silent on caste.
   → So a second wave tried the masses, and the faiths answered each in their own way.

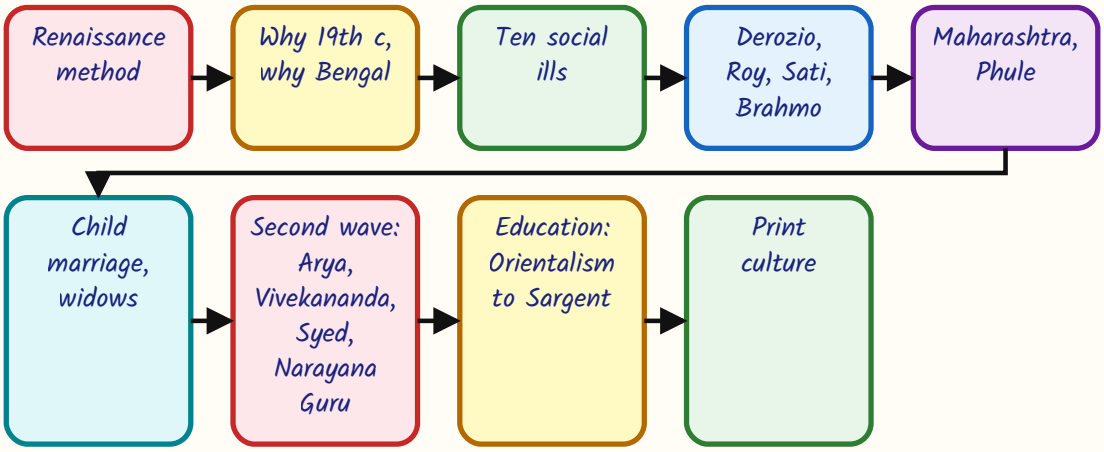

10 **Pride, revival and other answers.** Dayanand's Arya Samaj (1875) held the Vedas infallible. Vivekananda accepted idols and won the masses. Revivalism turned aggressive too. Sir Syed built Aligarh (1875); Narayana Guru consecrated an Ezhava's Shiva (1888).
→ All of this stood on a schoolroom built by British policy.

11 **Schools: from Orientalism to Sargent.** Orientalists (Warren Hastings 73–85, Jones, Wellesley 98–05) lost to Macaulay's Minute of 1835: English, Western syllabus, Brown Sahibs. Wood's Despatch 1854 built the ladder, yet by 1921 only about 8% were Western educated.
→ Those few read, and wrote, in the press.

12 **The press and the educated eight per cent.** The press began in 1780 with Hicky's Bengal Gazette; Warren Hastings 73–85 shut it in 1782. Repression and concession alternated. The educated few used the press, and Brown Sahibs became leaders of the national movement.

Cast: Derozio = The Questioner · Raja Ram Mohan Roy = The Bridge (the teacher's 'Steve Jobs') · Bentinck 28–35 = The Man Who Asked for Proof · Radhakanta Deb = The Orthodox Voice · Debendranath Tagore = Tim Cook · Keshab Chandra Sen = The Radical · M.G. Ranade = The Organiser · Jyotirao Phule = The Voice from Below · Ishwar Chandra Vidyasagar = Ocean of Knowledge · Swami Dayanand Saraswati = Back to the Vedas · Swami Vivekananda = Jiva is Shiva · Macaulay = The Brown Sahib Maker · Sir Syed Ahmed Khan = Modern but Faithful · Narayana Guru = An Ezhava's Shiva

At a glance: the route of the chapter

Teacher's board: seven questions. (1) Was there a Renaissance? (2) Why Bengal? (3) Why the 19th century? (4) Social issues? (5) Methods: Press, People's movement, Laws (for laws, reformers "went to the British"). (6) Famous reformers. (7) Success or failure, and why?

🎯 THE RENAISSANCE FRAMING PYQ 2019

📖 Story link · beat 1: Because Europe's rebirth by reason changed society, Bengal reformers borrowed the same method.

Renaissance

→ Western Europe 14th c intellectual rebirth: recovery of ancient learning, driven by reason, aimed at human welfare

Bengal looked similar

→ Same problems: oppressive priestly establishment, no modern education, birth-based privilege, deep poverty

→ Same response: reached back into ancient scriptures to restore what was great, used reason to remove what was not

Chain of consequences

→ Europe: Reformation (religion), end of Feudalism (society), Capitalism (economy), Enlightenment (polity), Scientific + Industrial Revolutions

→ Bengal: fed a modern WEMC (Western Educated Middle Class); its leaders led the Indian National Movement

Teacher's board: Renaissance = re-birth of society

→ Mother of Capitalism, Enlightenment, Humanities. Before: Dark Ages, education = theology, Church taught "we are born to suffer", wealth concentrated, no democracy

→ Then Venice and Genoa earned cash from trade, port towns grew, cash became power (against land); theme = Happiness of the Human

Changes by field

→ Art: portrait painting

→ Economy: capitalism (security of property, equality of opportunity, right to be rich)

→ Society: inter-personal relations, rights and duties in marriage, hence social reforms

→ Polity: fundamental rights, democracy, Enlightenment 17th–18th c

→ Technology: medicine, machines, Industrial Revolution 1750–1850, voyages of discovery 16th c

→ Psychology / philosophy

→ Method of R = reason

👫 Renaissance method, "like a UPSC aspirant"

Step 1: go back to golden past (Greek, Roman scriptures) → *Copy-paste it to today: it will not work* → *Step 2: reason, logic, rationality (DoL/R/R)*

Link: Constitution 1950, Scientific Temperament = Fundamental Duty. Doctrine of Reason = no practice, however old or sacred-seeming, is beyond rational scrutiny. 💡

🔧 Why socio-religious reform, not simply social reform

→ In India religion determined social practice, not merely coexisted

→ Sati, child marriage, caste hierarchy, widow remarriage, polygamy all justified by selective readings of texts; cannot touch the practice without confronting the religious sanction

→ Socio-religious reformers = Logic AND Religion; pure social reformers = only Logic. Masses deeply religious: a religion-rooted practice changes only by reforming / re-interpreting the religion

→ Derozians = social, not socio-religious: only logic, hence failure

⚠️ THE SOCIAL ISSUES

📖 Story link · beat 1: Because reformers had a method, they listed the evils to tackle; many were once fine, only distorted.

Ills identified (handout nine)

→ Education (lack)
→ Idolatry
→ Priestcraft
→ Child marriage
→ Widow remarriage
→ Female infanticide
→ Polygamy
→ Polytheism
→ Casteism

Source mismatch: handout lists nine; the board draws ten, adding child sacrifice (Sagar Island 1803). Learn ten.

Not every item is evil in itself

→ Idol worship helps a worshipper concentrate spiritual energy
→ Not all priests negative: Ramakrishna Paramhansa was a temple priest
→ Polytheism inherently pluralistic, so secular
→ Ills arise when: no genuine spirituality, social power misused, society fragmented. Problem = distortion, never the practice itself

WHY THE 19TH CENTURY, WHY BENGAL

📖 Story link · beat 2: Because the evils were old, something new started reform: British rule and Western education opened the door.

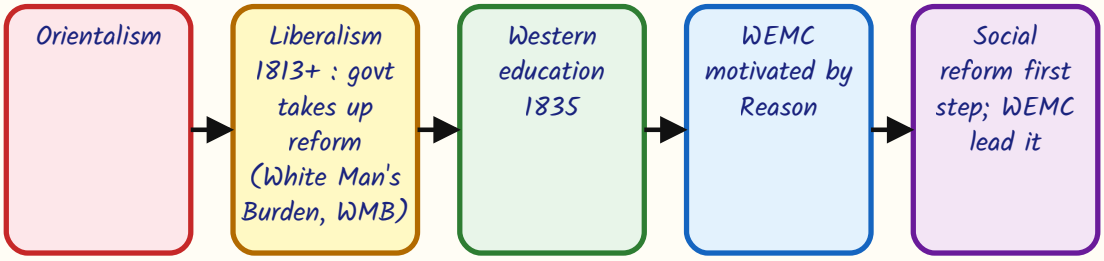

⚡ Role of the British

→ After 1813 moved from Orientalism (respect and study of Indian culture) to Liberals + Utilitarians + Evangelists backing Western education and social reform
→ Evangelists promoted conversion: fear for religion, pressure to reform from within
→ Teacher: government has L and E (legislative, executive) power, finance, military (MR): if it wants, reform becomes possible
→ 1813: British criticism of Indian civilisation (Ch 15) answered by cultural nationalism; 1857 ideology = "Dogs and Indians not allowed"

Cultural nationalism

→ British argued ancient India's greatness was a myth; reformers: "we will prove you wrong by cleaning up what has gone wrong and recovering what was great"
→ Mild before 1857, far stronger after
→ Colonialism has three faces: political, economic, cultural; each calls up a nationalism
→ Ctrl+F method: (1) identify the logical ideal practice (2) open scriptures, Ctrl+F "LOGIC", get "50 results" (3) take those results to the people. Roy on Sati: choose logic, then Ctrl+F logic in scripture

👫 Teacher's logic chain (UPSC syllabus minus anything which glorifies India)

Why Bengal: political headquarters (Governor General sat here), so Western education progressed most here. Growth of presidency cities: see Education section. 💡

Period	Leaders	The British
Pre-1857	Western-educated upper-caste men; gradualists; press tool; no mass movement; top-down; neglected sensitive issues (women, caste) at first; wanted L and E help	Willing: fitted the White Man's Burden (civilised Englishman's duty to uplift the backward)
👫 Post-1857	More culturally nationalistic, some without Western education (Dayanand, Vivekananda, focused on masses)	Far less interested; overtly racist ("very up racism and authoritarianism"); Revolt bred contempt

👫 Why British interest fell after 1857

→ EIC business function ended 1833, only the State's territory (T) motive left

→ Social reform = secondary motive; primary = empire + Drain (political + economic colonialism), not sacrificed

→ Revolt came from fear for religion and customs, so secondary motive dropped; ideology: "Indians are beyond reform"

🔧 CLASSIFYING THE REFORMERS

📖 Story link · beat 2: Because the State held power, early reformers asked its help; the teacher sorts them by method, belief and goal.

📚 Three axes (+ social vs socio-religious)

By method

→ No mass movement: Ram Mohan Roy (complex Sanskritised Bangla prose)

→ Mass movements: Keshab Chandra Sen (1860s), Dayanand Saraswati (1870s), Vivekananda (1880s)

→ Pure rationality: Derozio + Young Bengal (failed: target people religious)

→ Rationality + scripture (more successful): Roy, Vidyasagar, Dayanand, Vivekananda

By beliefs

→ Reason final authority (reason beats scripture): pre-1857, Roy and contemporaries; milder cultural nationalism

→ Vedas infallible: Dayanand, Ramakrishna, Vivekananda; post-1857; stronger cultural nationalism; recover pure Vedic teaching

By goals

→ Gradual: Roy, Debendranath Tagore, Brahmo Samaj, Prarthana Samaj; avoid caste + marriage for fear of alienating masses

→ Radical, immediate: Derozio's Young Bengal, Keshab, Dayanand, Vivekananda, Vidyasagar; take even sensitive issues

Mass-movement builders use press AND go to people (change hearts, values): usually radical. Press-only elite = "armchair intellectuals", usually gradualist. Separate axis: who wants British help (L and E).

Gradualists: "holey-holey" (slow), not full time, easy first, tough later, "society not ready". Radicals: mission mode, full-time possible, all together, tough first. Teacher: "Upanishads = main" (Ramakrishna); "Rig = main Veda"; Dayanand: Vedas pass the test of reason.

Overlaps are normal (handout): Roy = no-mass-movement + rationality-plus-scripture + reason-as-authority + gradualist. Keshab = radical mass-movement builder. Vidyasagar = radical + rationality-plus-scripture, not a mass-movement builder. Build the table yourself (teacher: "10 basic Qs on XYZ").

CHILD SACRIFICE AT SAGAR ISLAND 1803

📖 Story link · beat 2: Because the State held executive power, it could ban one cruel practice early.

1803 Wellesley 98–05 banned child sacrifice at Sagar Island (Sagar Dwip, Ganga meets Bay of Bengal, Hindu pilgrimage site), Bengal: early executive act against a social practice. Census term: before 1911 mixed parentage = Eurasian, a European living in India = Anglo-Indian; from 1911 mixed parentage = Anglo-Indian, Europeans = "Europeans in India". Derozio was Eurasian.

DEROZIO AND YOUNG BENGAL (late 1820s to 1831) PYQ 2021

📖 Story link · beat 3: Because logic alone was the first experiment, Young Bengal tried it and failed with a religious people.

Henry Vivian Derozio

→ Eurasian teacher, Hindu College, Calcutta; died suddenly December 1831 (linked to David Hare)

→ Followers then called Derozians / Ultra-Reformers / the radicals; "Young Bengal" came later (echo of Mazzini's Young Italy)

→ Method: question everything: challenge orthodoxy with reason, Western sciences, sometimes atheism

→ Teacher formula: only logic + negating religion + radical reform = "viral" and "infamous"

1838: Society for Acquisition of General Knowledge

→ Tarachand Chakravarty (President), Ramgopal Ghosh (Vice President); forum on Western sciences + social reform

⚠ Why they failed

→ Total faith in Western rationality + disregard for religion = gap with a religious people

→ Ate beef, drank wine: "great controversy but poor mass politics"

→ No mass movement, no engagement with religious feeling

Political demands (shared with Roy), ahead of time

→ Separation of Powers

→ Freedom of the Press

→ Indianisation of the Civil Services

→ Trial by Jury

Where the demands come from (modern polity)

→ Services: Uncovenanted Civil Services open to Indians 1833; Covenanted 1853

⚡ Separation of powers: which level

→ Cornwallis 86–93 separated J (judicial) and E (executive) at District Collector level

→ Charter 1833: 1 legal member added to GG's council = "a grain of SoP"

→ Charter 1853: 6 more = introduction of SoP (legislative separated from executive work)

→ At GG level: no separation, boss of both L and E (Ch 17, 18)

🎯 RAJA RAM MOHAN ROY PYQ 2025

📖 Story link · beat 4: Because Young Bengal failed, Roy joined reason to scripture and worked with the State.

Roy: Father of Modern India

→ First to see social reform cannot be separated from religious reform; first real synthesis of Indian tradition + Western modernity. Board: "[From Indian Society] [Initiator]"

→ Scholar of Vedas, Sanskrit, Persian literature, Christian scripture; challenged British claim of Christian superiority by engaging Christianity seriously

→ Universalism: all religions lead to the same God; Vedas supreme for Hindus but no conversion, Hinduism not the only road; cultural synthesis (Rabindranath Tagore later same)

→ Calcutta Unitarian Committee 1821 (with William Adam, Dwarkanath Tagore)

→ Teacher: West + Vedantic traditions: counters Evangelists, proof of cultural nationalism, peaceful coexistence of Hinduism and Christianity

Universalism = monotheism applied BETWEEN religions (all Gods are God). 💡
Monotheism WITHIN Hinduism = one God, all Gods one: the Upanishads. Roy used both.
RRR picture: scientist in Western dress, no religious symbol, still prays to his God before leaving home = modern outside, Vedantic inside.

Roy's beliefs

→ Main concern polytheism; Upanishads show true Hinduism is monotheistic; translated Upanishads into Bengali; Brahmoism defined by monotheism (board: within Hinduism, not a new religion; evils list [= GG & BUT optional = polytheism])

→ Condemned: idolatry, priestcraft, child marriage, widows' condition, infanticide, casteism, polygamy

⚖️ Doctrine of Reason against three ideas

→ Other-worldliness (heaven and hell as real places)

→ Doctrine of Karma (present state fixed by past life)

→ Doctrine of Incarnation (gods taking human birth)

→ Sati = murder as per every Shastra: scriptural argument because only that moves British and orthodox

→ Method in a line: (1) choose logic, (2) Ctrl+F logic in scripture

📚 Roy on education

→ Rationality supreme, Vedas not infallible (unlike Dayanand, Vivekananda); public money on Western education + sciences, not Indian classical learning ("wants the West like the Industrial Revolution for GDP growth")

→ 1824 Sanskrit College, Calcutta: actively opposed

→ 1813 Charter: Rs 1 lakh on education. His advocacy influenced Macaulay's Minute 1835 (Roy died 1833) → English Education Act 1835

	Benaras Sanskrit College	Sanskrit College, Calcutta
Year	1791	1824

🏛️ Set up by	Jonathan Duncan, under Cornwallis 86–93	Under Amherst 23–28, on advice of Orientalist faction of General Committee of Public Instruction
💡 Purpose	Train Pandits to administer Hindu law (administrative need)	Better understanding of Hindu laws
Later	Not abolished by English Education Act 1835	Roy opposed; Vidyasagar Principal 1851, opened to non-Brahmins, added Western sciences

🗺️ Roy's method: use the State

→ Strategically used British legislative + executive power; worked with Bentinck 28–35, Thomas Macaulay, philanthropist David Hare

→ Behind legislation for education and the Sati Abolition Act 1829

→ Administrative demands (same as Young Bengal = WEMC consensus): Separation of Powers, Freedom of Press, Indianisation of Civil Services, Trial by Jury

🎯 SATI PYQ 2025

📖 Story link · beat 5: Because Roy had a method, Sati became its great test, and the law succeeded.

Sati: widow self-immolates on husband's pyre

→ Earliest firm epigraphic evidence: Eran Pillar Inscription, Bhanugupta, 510 CE, Eran, Sagar district, Madhya Pradesh: wife of chieftain Goparaja after his death in battle

→ Vedic times: no Sati; Rig Veda passage: wife goes to pyre, called back by family; post-Vedic Smritis supported it as voluntary spiritual act (oneness of souls)

→ Teacher: gradually split into Murder (relatives pressing for property, 1800s) and Suicide (self-respect)

Why it persisted in the 19th c

→ Spiritual rationale collapsed; driven by social pressure, greed, patriarchy

→ Relatives did not want to share property with a childless widow; widow seen as economic + social burden

→ Removed risk to caste purity / family honour from widow's future conduct; society glorified it as spiritual salvation

→ Became coerced suicide or murder

Scale

→ Never pan-India: mainly Bengal upper castes; historically Vijayanagara (1336–1646) and Rajputana (related Jauhar = mass self-immolation by women to avoid capture; different origin, warrior-clan honour)

→ Alarm of the 19th c: lower castes in Bengal began Sati as part of Sanskritisation (lower caste copies upper caste behaviour; tool of upward mobility)

1813
Missionaries oppose Sati, achieve nothing

1828
Scriptural debate (teacher's date): Brahmo Samaj vs Radhakanta Deb (orthodox leader, also education reformer); Roy wins. Bentinck 28–35 pre-condition: prove from scriptures Sati is not sanctioned

1829
Bengal Sati Regulation (Regulation XVII), 17th law of the year: Sati = culpable homicide

1830
Radhakanta Deb founds Dharma Sabha, petitions Privy Council, London: rejected

Handout: the Dharma Sabha appeal = early use of the metropolitan legal system as a battleground for Indian policy; same route in the 20th c constitutional debates. 💡

Teacher stresses: enabling vs disabling law. A law succeeds where there is a physical act + physical evidence (burning widow can be seen and proved). Enabling law (permits, e.g. Hindu Widow Remarriage Act 1856): authority = the people, law partial. Disabling law (criminalises, e.g. Sati 1829): authority = administration, bigger L and E role. Hence Sati ended, widow remarriage stalled.

BRAHMO SAMAJ 1828 PYQ 2012 PYQ 2016

📖 Story link · beat 6: Because Roy needed a body to carry on, the Brahmo Samaj was born; Tagore held it, Keshab split it.

Brahmo Samaj (Roy, 1828)

→ Against idolatry, priestcraft, polytheism, Sati; at first no focus on women beyond Sati, or caste (too sensitive; strong stand risks members)

→ Karma / transmigration: no definite stand, unlike Roy personally (rejection would close the Hindu middle-class door; board: silence from fear of fewer members)

→ Became monotheistic religious movement of upper-caste, Western-educated Bengalis; no masses

→ After Roy's death 1833: Debendranath Tagore (1817–1905) (father of Rabindranath) gave it organisation; Tagore line: Dwarkanath, Debendranath, Rabindranath

→ 1860 Bijoy Krishna Goswami tried to reconcile with Vaishnavism

Teacher: Roy = "Steve Jobs", idea man (RRR); Debendranath = "Tim Cook", organisation man (DBT). "Low-hanging fruits": easy reforms first, tough later. Karma = Re-Birth.

Issue	Keshab Chandra Sen (radical)	Debendranath Tagore (gradualist)
👫 Women	Women's rights, female education, widow remarriage, against child marriage	Too sensitive to push publicly
Caste	Attacked upper-caste character, backed inter-caste marriage, challenged caste at root	Avoided it entirely
Mass outreach	Beyond Calcutta elite, beyond Bengal; missionary activity to make Brahmoism an alternative to Hinduism ("Let's start a new religion")	Fear of alienating Hindus; no break from Hinduism

1866
Rupture: Keshab = Brahmo Samaj of India (distinct from Hinduism; board: for religion-related reforms); Debendranath = Adi Brahmo Samaj (Adi = original; Roy's vision gradualist; stay within Hinduism)

1868
Tabernacle of New Dispensation: foundation stone 24 January

1870
Indian Reform Association, 29 October, Keshab President (women's education, temperance, social reform)

1872
Brahmo Marriages Act: drafted under Mayo 69–72 (assassinated Feb 1872); inter-caste + widow marriage valid only if couple first leave Hinduism

1878
Keshab married off his minor daughter: following fractured, Sadharan Brahmo Samaj

PYQ 2016 trap: Calcutta Unitarian Committee 1821 = Roy (Roy, Dwarkanath Tagore, William Adam). Keshab = Tabernacle of New Dispensation (Nababidhan: syncretic, truths of all religions; goal Brahmoism better than others) + Indian Reform Association. PYQ 2012: Brahmo Samaj opposed idolatry + priestly class; did not teach Vedic infallibility (Debendranath treated Upanishads as infallible, published parts as "Brahmo Dharma").

→ Ideological + organisational differences (gradualism vs radicalism; inside vs outside Hinduism)

⚠️ Why the Brahmo Samaj failed (teacher: factionalism)

→ Multiple splits divided energy, membership, credibility
→ Upper-caste, urban, no mass reach

Akshay Kumar Dutt (1820–1866 handout; slide title 1820–1886)

→ Brahmo Samajist; medical opinion against child marriage (science, not scripture: pure social reformer like Derozians)
→ Advocated courtship before marriage, equality + partnership in marriage, right to divorce by law and custom

Date conflict: handout 1820–1866 vs slide 1820–1886; rarely tested, check your notebook.

MAHARASHTRA

📖 Story link · beat 7: Now Maharashtra took up the work: the Prarthana Samaj copied the Brahmo Samaj.

Paramhansa Mandali 1849

→ First organised attempt; Young Bengal's path (reason, reject religious authority); failed for the same reason
→ Teacher: English Education Act 1835 applied all-India because Charter Act 1833 made the GG of Bengal the GG of India (Ch 17)

Prarthana Samaj 1867

→ Founded by Atmaram Pandurang with active help of Keshab Chandra Sen; Brahmoism transplanted to Maharashtra
→ Members: Western-educated Marathi Brahmins, Gujarati merchants, Parsis
→ Chief: M.G. Ranade, assisted by R.G. Bhandarkar, K.T. Telang
→ Goals (teacher: "like KCS"): women, caste, anti-idolatry, monotheism, anti-priest. Methods ("like DBT"): gradual, no break from Hinduism → gradual irrelevance
→ Arya Samaj 1875 drew away those who found it too slow
→ Branches: Gujarat, Karachi (Sindh), Madras; only 72 members
→ Telugu areas, Madras: Kandukuri Veeresalingam Pantulu society for widow remarriage (a matchmaking body using press: registers of widows and grooms); Madras reform slow: uneven Western education, deep casteism

🎯 M.G. Ranade (1842–1901)
PYQ 1996 PYQ 2012

→ Elphinstone College, Bombay; judge Bombay High Court (Indian High Courts Act 1861); Bombay Legislative Council
→ Edited Indu Prakash (Anglo-Marathi weekly) with Bhandarkar
→ Father of Indian Economics: Essays on Indian Economics (1898); critic of British policy (Drain Theory); colonial State should promote industrialisation + welfare; Companion of the Order of the Indian Empire (fiscal stability committee)
→ Rise of Maratha Power; female education, widow remarriage, against child marriage; co-founded Maharashtra Girls Education Society with Bhandarkar

Organisations Ranade built

Poona Sarvajanik Sabha 1870

→ Earliest regional political body: rights of peasants, Bombay Presidency; precursor of INC; first regional political party of WEMC Indians (teacher)
→ Members: Tilak, Gopal Hari Deshmukh (prominent: P.M. Mehta, G.K. Gokhale)

Indian National Social Conference 1887

→ First session alongside INC Madras session 1887; no scriptural debates, Doctrine of Logic; all-India org for social reforms, religion not discussed

PYQ 1996 / 2012: passage on social + religious reform, "relied on legislation", Conference alongside Congress = Ranade (not Malabari, not Vidyasagar). Conference formed because Congress platform was for political topics only; all-India, not "Bengal groups". Slide key credits Ranade assisted by R. Raghunath Rao; handout names Ranade alone: both agree on Ranade and 1887.

Gopal Hari Deshmukh, "Lokhitavadi" (1823–1892)

→ Pen name = one who speaks for people's welfare; most radical in Maharashtra: social reform first, above religion

→ If scripture conflicts with reform, change the religion: religion made by man

→ Roy used scripture for reform; Dayanand held Vedas infallible; Lokhitavadi: human welfare beats religious authority ("Logic+", logic over scripture, like RRR)

🎯 JYOTIRAO PHULE (1827–1890) PYQ 1996 PYQ 2016 PYQ 2025

📖 Story link · beat 7: Because most reformers spoke about the oppressed, Phule spoke for them and organised them.

Most reformers spoke about the oppressed; Phule spoke for them and organised them: 💡 first major reformer to address caste, gender, class, economic exploitation at once. Parallel: Shudras / Ati-Shudras and African American slaves both born into bondage, oppressor hid behind tradition and divine sanction.

Area	What Phule did
📚 Education	1848 India's first girls' school, Pune, wife Savitribai Phule first female teacher (stones, dung thrown at her). Memorandum to Hunter Commission 1882: universal practical primary education, State funded + run, aimed at lower castes + girls, trained non-Brahmin teachers, mother tongue, nominal fees / scholarships, tighter inspection
👫 Women	Widow remarriage; against child marriage; 1863 infanticide prevention centre (anonymous deliveries for pregnant widows, shelter for sexual assault survivors, orphanage)
🛡️ Dalit rights	1873 Gulamgiri (Slavery), Marathi: Shudras + Ati-Shudras = African American slaves, blames priestly class, dedicated to American abolitionists. 1873 Satyashodhak Samaj (Truth-Seekers' Society) vs orthodoxy and caste; Din Bandhu newspaper 1877
Peasants	Cultivator's Whipcord 1881: religion + bureaucracy + moneylenders, high LR, ritual expenses grind Shudra cultivators; festivals as instruments of extraction; self-reliance, land reforms, military labour for rural development; night schools
Workers	Night schools; co-founded Bombay Millhands Association 1890 with Narayan Lokhande (main founder): early effort for industrial workers, not a formal trade union (no fees, rules, funds)

PYQ 1996, 2016: Satya Shodhak Samaj = Jyotirao Phule, Pune, 1873, anti-caste movement in Maharashtra (status of Shudra + untouchables; no priest needed to reach God). Not Tilak (1996); not tribals in Bihar, temple entry in Gujarat, Punjab peasants (2016).

🎯 CHILD MARRIAGE PYQ 2020

📖 Story link · beat 8: Because religion itself backed child marriage, it was harder than Sati; ages 10, then 12, changed little.

Why so hard to uproot

→ Explicit religious backing: Garbhadhan ceremony = marriage before puberty, consummation at puberty; scripture itself sanctioned it, not a distortion

→ Orthodox opposition stronger, more principled than on Sati ("harder than Sati, therefore religious sanction")

📜 Legislative ladder

→ IPC 1860 under Canning 56–62 (Vidyasagar's efforts): minimum age of consummation 10 (Section 375, statutory rape): modest; Akshay Kumar Dutt added medical dimension

→ Teacher: age 10 = "not a reform but a law to prevent violation of customary Hindu law" (Garbhadhan at puberty); did not raise marriage age

→ Laws: Civil + Criminal; Civil: Personal (inheritance: by default personal law operates) + Non-personal. Three at the border: Sati 1829, IPC 1860 [age 10], Age of Consent 1891 [12]

⚖️ Rakhmabai case (1884–1888)

→ Married as infant, lived apart; at 22 husband (Dadaji Bhikaji) sued for restitution of conjugal rights; she argued marriage invalid

→ Rakhmabai Defence Committee led by Malabari (his 1884 note on child marriage + enforced widowhood caused a storm); orthodox Hindus backed husband

→ She lost (post-1857 orthodox opinion strong); then Queen Victoria overruled and dissolved the marriage

→ Later qualified in medicine in England 1894; among earliest female doctors with Anandibai Joshi, Kadambini Ganguly

PYQ 2020: Rakhmabai Case 1884 = (a) Age of Consent debate and (b) Restitution of Conjugal Rights; not women's right to education. Answer (b) 2 and 3.

📜 Age of Consent Act 1891

→ 1890 death of 11-year-old Phulmoni (abuse by husband); Lansdowne 88–94 introduced Bill: age of consummation 12; passed March 1891, Act X of 1891

Debate

→ Tilak: British no right to interfere in custom + religion; reform from social movement, not colonial legislation

→ R.G. Bhandarkar (Deccan College, Prarthana Samaj): research shows Dharmashastras permit marriage after puberty ("Logic + Religion")

→ Result: failed on ground; 1900s census data (every ten years from 1881) showed child marriage continued across all castes

→ Teacher: British "not interested in initiating reform, may act if pressure" (did minimum, age 12). Failure rule: no mass movement, so most reforms failed; UCC: reform not demanded from within fails

📜 FEMALE INFANTICIDE AND LEX LOCI ACT 1850

📖 Story link · beat 8: Because law could stop killing but not hunger or dowry, infanticide split into two problems.

Female infanticide

→ North + west India, largely unabated; causes structural: landowning high-caste men practised hypogamy (handout) / hypergamy (board) = marrying lower-caste women, often several, so daughters' grooms very hard to find; high dowry

→ Female Infanticide Act 1870, Mayo 69–72: law could not reach root

→ Census: high girl-child mortality = not direct infanticide but nutritional neglect; cannot be legislated

→ Teacher: cause = dowry + polygamy (UC husband, LC wife). Two problems: infanticide (infant girls killed): more L and E; girl mortality 1–5 yrs (malnutrition): more society, "you cannot station a Havaldar in every home". Rule: until society changes, reform will not succeed

Spelling: handout "hypogamy", board "hypergamy" (higher-caste men marrying lower-caste women): learn the meaning.

🚪 Lex Loci Act 1850 (= Caste Disabilities Removal Act 1850; handout timeline also lists a Religious Disabilities Act 1850)

→ Protected property + inheritance rights of converts: before it, convert forfeited ancestral property; Act overrode; State stands for individual choice

Two readings

→ "Legal foundation of religious freedom in colonial India" (contested): orthodox Hindus + WEMC saw State tilt to conversion

→ Missionaries: long-overdue protection of converts from predatory disinheritance

→ Board links: 1857 Revolt, evangelicalism, fear of religion; orthodox Hindus and WEMC "opposed" it

🎯 ISHWAR CHANDRA VIDYASAGAR (1820–1891) PYQ 2005 PYQ 2021

📖 Story link · beat 9: Because the home was the hardest ground, Vidyasagar fought on every front there.

Vidyasagar

→ Born Ishwar Chandra Bandyopadhyay, 26 September 1820; passed Hindu Law Committee exam; title Vidyasagar (ocean of knowledge) 1839; prize money for school + rare Sanskrit texts

→ Reason and rationalism supreme; "I have no time to think about God"; rejected other-worldliness; approach = Utilitarianism

→ Tagore: Father of Modern Bengali (Bangla) Prose

→ Champion of women's issues: education, widow remarriage, child marriage, infanticide

📚 The educator

→ Sanskrit College, Calcutta: Additional Secretary then Principal (1851, Dalhousie 48–56); threatened resignation unless lower castes admitted; added Western sciences, maths, English literature; wanted education in the vernacular

→ Inspector of Schools, Bengal (1856, Dalhousie 48–56): 20 Model Schools, ended physical punishment (Inspector = district; Director of Education = province, like SP and DGP)

→ Nov 1857 to May 1858 (mid-Revolt): 25 girls' schools, 1,300 girls at a time; books + transport free

→ Female education = "only true route to uplifting society"

Widow remarriage and polygamy

→ 1855 book on miseries of widowhood + petition with 1,000 signatures → Hindu Widow Remarriage Act, 26 July 1856; first remarriage under it 7 December 1856; he married his own son to a widow

→ 1855 petition to Lieutenant Governor of Bengal with 25,000 signatures against polygamy; two books against polygamy 1871, 1873

Conflict (Act 1856): handout + typed slide: "under Dalhousie 48–56"; board: "passed during Canning 56–62" and "post in 1854 @ Charter 1853, by Dalhousie 48–56". Reading: groundwork Dalhousie 48–56, passed in Canning 56–62's year. For a code match follow the handout (Dalhousie 48–56); Canning 56–62 safe only if the question says "passed".

Bethune School (PYQ 2005, 2021): set up 1849 by J.E. Drinkwater Bethune (Law Member of Dalhousie's Council, President of Council of Education) under grants-in-aid; Vidyasagar = Secretary (appointed Dec 1850). PYQ 2005 statement "Vidyasagar founded" is false on strict facts (board: F, "DRINKWATER") yet UPSC key (b) counts it true; PYQ 2021 asks Secretary = Vidyasagar. Bankim = first Calcutta University graduate: separate fact often paired.

⚠️ WIDOW REMARRIAGE: WHY IT FAILED

📖 Story link · beat 9: Because an enabling law leaves the choice to society, the 1856 Act stalled.

📜 After the 1856 Act

→ The catch: widow lost right to deceased husband's property: law largely ineffective

→ Maharashtra: Vishnu Shastri Pandit society 1866 → orthodox rivals at once set up a counter-organisation; Phule worked among lower castes but failed. Madras: Veeresalingam Pantulu society

Pandita Ramabai (rare exception)

→ Brahmin woman, stayed unmarried long, married a lower-caste man; after his death studied medicine in England, converted to Christianity (criticised even by reformers), raised money in USA for a widow home in Bombay

→ Opposed the new role model of the "educated but obedient wife"

→ Failure: post-1857 orthodox won the scripture debate; even lower castes stopped widow remarriage ("Sanskritisation working in reverse", adopting upper-caste restrictions)

→ By 1900 only 38 widow remarriages in Maharashtra; worked only in Haryana (already accepted)

→ Teacher: pre-1857 reformers never went to masses, so orthodox took leadership: the vacuum second-wave reformers found

Year	Law	Who and what
1829	Sati abolition (Regulation XVII)	Bentinck 28–35, via Roy; culpable homicide
1850	Lex Loci Act (+ Religious Disabilities Act 1850)	Converts keep ancestral property
1856	Hindu Widow Remarriage Act (26 July)	Dalhousie 48–56 (handout) / Canning 56–62's year (teacher); via Vidyasagar; widow lost husband's property
1860	IPC: age of consent 10 (figure: "Age of Consent Act 1860")	Canning 56–62; via Vidyasagar
1870	Female Infanticide Act	Mayo 69–72
1872	Native (Brahmo) Marriages Act	Mayo 69–72; inter-caste + widow marriage if couple leaves Hinduism
1891	Age of Consent Act (Act X)	Lansdowne 88–94; age 12

1929	Sharda Act (Child Marriage Restraint)	Age 14 girls, 18 boys; Harbilas Sarda (handout figure only)

Order trap: handout one-liner runs "Age of Consent 1860, Female Infanticide 1870, Native Marriages 1872, Age of Consent 1891, Sharda 1929" but its flow-chart arrows run 1872 before 1870. Use dates: **1870, then 1872**.

⚠️ CHARACTER AND FAILURES OF EARLY REFORM PYQ 2017

📖 **Story link · beat 9:** Because the same pattern repeated, early reform was elite, top-down, gradual and silent on caste.

🔧 What defined early reform

→ Led by **Western-educated upper castes**: anti-priest in orientation, upper-caste in composition

→ **Primary focus women** (conviction + British used **status of women as benchmark of civilisation**; before 1800s criterion = language and literature; hence women's issues and mostly male reformers)

→ **Scriptures central** (reformers, orthodox, even British: Bentinck 28-35's pre-condition)

→ **Cultural nationalism:** modernity within Indian traditions

Why they failed	Detail
No mass movement	Roy's complex Sanskritised Bengali prose; Prarthana Samaj only 72 members; small bodies, elite language
Top-down	British L + E authority, no demand from below; teacher's triangle: reform UC and LC follow
👫 British involvement bred distrust	Fear religion under threat, pushed people to orthodox leaders
Gradualism	Slowed everything, orthodox consolidated
👫 No women in leadership	No major reform body led by a woman; "agent of change should be from the group you want to change"
Upper-caste leadership only	Lower castes did not join movements led by beneficiaries of caste
Silence on caste	Central structural issue avoided
👫 Post-1857 shift	Second wave found masses already captured by orthodox
Rival orthodox bodies	Dharma Sabha vs Brahmo Samaj (Sati); counter-society vs Vishnu Shastri Pandit (widow remarriage)
Orthodox won scripture debate	On widow remarriage; even lower castes followed
👫 Post-1875 Hindu Revivalism	Positive face + negative face (communal tension, Hindu supremacy)

Hindu revivalism had two faces (teacher): +ve: social reforms, cultural nationalism, no communalism: **SDS and SV** (Swami Dayanand Saraswati, Swami Vivekananda). **-ve:** "only the Hindu God is the true God", aggressive reconversion (**Shuddhi**), aggressive **cow protection** → communal tensions. 💡

Handout grid of reform organisations (Section 19): Brahmo Samaj 1828, Young Bengal, Paramhansa Mandali 1849, Prarthana Samaj 1867, **Deoband 1867**, Satya Shodhak Samaj 1873, Arya Samaj 1875, **Theosophical Society 1875**, Aligarh 1875, **Ahmadiya 1889**, Ramakrishna Mission 1897, SNDP 1903, later **Self-Respect Movement 1925**. Deoband, Theosophical, Ahmadiya, Self-Respect appear only in the grid, not in class slides. **Adyar (Madras) = Theosophical Society HQ from 1882.** 💡

🎯 THE ARYA SAMAJ 1875 PYQ 2001

📖 Story link · beat 10: Because early reformers missed the masses, a second wave came after 1857, starting with Dayanand.

Swami Dayanand Saraswati

→ Original name Mool Shankar, Gujarat; never married; 20 years travelling; ended in Mathura: Swami Virajananda sent him to learn directly from the Vedas, gave him the task to spread Vedic knowledge and the name Rishi Dayanand (later Maharishi)

→ Vedas = ultimate infallible source; rituals, idol worship, caste hierarchy, priestly domination = corruption: Back to the Vedas, not Western modernity

💡 Satyarth Prakash (1875) (The Light of Meaning of Truth)

→ Written deliberately in Hindi to reach masses; foundational text

→ Attacks idol worship, polytheism, animal sacrifice, untouchability, child marriage, birth-based caste

→ Critically examines Christianity, Islam, Jainism, Buddhism: Vedic Hinduism superior to all (board: but on ground, no communalism)

→ Doctrine of Reason; claims Vedas alone contain scientific truths: Hinduism ahead, not backward

Arya Samaj ("Society of the Nobles")

→ Founded 10 April 1875, Bombay; motto "Krinvanto Vishvam Aryam" (Make this world noble); ten tenets (not imp): God, Vedas, dharma, truth, righteous conduct, physical + social good, love + justice, knowledge over ignorance, collective welfare, individual freedom within social rules

What it did

→ Attacked idolatry, polytheism, priestcraft, rituals, birth-based caste, child marriage from within the Vedic framework

→ Supported widow remarriage, inter-caste marriage, female education ("an educated man needs an educated wife"; widow-remarriage programmes 1880s)

→ Caste: discarded birth-based caste, denounced untouchability, upheld Varnashram by profession, not birth (Brahmans scholars, Kshatriyas protectors, Vaishyas traders, Shudras service; changeable, not hereditary, not hierarchical): meritocratic alternative

→ Shuddhi: bring back those converted to Islam or Christianity; under Dayanand for those who came forward, not forced

→ Gurukuls for Vedic knowledge + training spreaders

→ Hinduism as a "religion of the book": Vedas = Shruti (heard), Apaurusheya (not of human origin)

→ Swarajya = freedom from foreign influence, cultural ("CULTURE"), not yet political

💰 Successes and failures

→ Failed in east and west (competition: Brahmo Samaj of India 1866 in Bengal, Prarthana Samaj 1867 in Maharashtra); succeeded most in Punjab + North-West Provinces, esp. after Dayanand's death 1883

(more popular, more aggressive). Why Punjab: intense religious competition (Hinduism, Sikhism, Islam, missionaries); assertive, organised, scriptural approach

→ DAV College Trust and Management Society: first DAV High School, Lahore, 1 June 1886, headmaster Lala Hans Raj (Bhagat Singh studied there); teacher: Western education + Vedas

→ Influenced (handout): Lala Lajpat Rai, V.D. Savarkar, Madam Cama, Ram Prasad Bismil, M.G. Ranade, Madan Lal Dhingra, Subhas Chandra Bose

PYQ 2001: Arya Samaj founded 1875, not 1835; Lala Lajpat Rai followed it; under K. Hedgewar RSS (1925) partly inspired by Arya Samaj's organisational model; Keshab's Brahmo Samaj for women's education and Vinoba's Sarvodaya Samaj for refugees true: answer (d). Teacher: contrast "vs SDS" with Vivekananda.

REVIVALISM: POSITIVE AND NEGATIVE

📖 Story link · beat 10: Because pride can turn aggressive, revivalism had a positive face and a negative one.

Post-1857: two streams

→ Positive: confident assertion of Indian traditions, attack ills from within: Dayanand, Ramakrishna, Vivekananda

→ Negative (after Dayanand's death 1883): Pandit Lekh Ram, Pandit Guru Dutt, militant Arya Samaj, missionary-zeal Vedas, aggressive Shuddhi to reconvert from Islam, Sikhism, Christianity

Provoked

→ Singh Sabha movement among Sikhs (board: 1873)

→ Muslims: Tanzim and Tabligh

→ Cow Protection Movement → Cow Killing Riots 1893

RAMAKRISHNA AND VIVEKANANDA

📖 Story link · beat 10: Because the educated found their jobs hollow, Ramakrishna offered pure tradition; Vivekananda won the masses.

Ramakrishna Paramhansa

→ Temple priest, not a Western-educated reformer; meditation, renunciation, monotheism; Western ideas left him untouched; no criticism of rule but implicit rejection of Western values

→ Appeal to educated Bengalis: clerical jobs under British = Chakri (grinding routine), spiritually hollow; reformism by 1870s felt like admitting Indians uncivilised

→ Offered not reform but spiritual richness of own tradition, undiluted; Chakri left no time for spiritualism = source of dissatisfaction

→ Teacher: 1833 UCS open to Indians produced the clerks

Swami Vivekananda

→ Ramakrishna's disciple: intellectual, activist, global; genuine universalism: a Christian becomes a better Christian by studying Vedanta; spread values, not label

→ Vs SDS (Dayanand: Hinduism superior): Vivekananda believed in superiority of Hindu philosophy, not a negative revivalist; Upanishads: "Spirit = curiosity = Q and A" = Doctrine of Reason; admitted recent degeneration without blaming a religion

→ "Service of Jiva is worship of Shiva": social service is spiritual; Daridra Narayan (God in the poor); existing reform too elitist, go to masses through service

Ramakrishna Mission 1897

→ Aims: spread Vedanta + social service

→ Army of followers carrying Vedanta, Upanishads, Buddha, Jesus

→ Akhadas + gymnasiums: Indian masculinity = physical strength + mental spirituality; Indians not "feminine", differently strong

→ Accepted idols + rituals as aids to religious feeling (vs SDS): far greater mass acceptance

→ 1893: Western materialism + Indian spiritualism must come together; internationally famous

Mains 2019 close: Netaji called Vivekananda the spiritual father of the movement in Bengal (answer skeleton). ⭐

🎯 BANKIM CHANDRA CHATTERJEE (1838–1894) PYQ 1996 PYQ 2018 PYQ 2021

📖 Story link · beat 10: Because culture needed symbols, Bankim gave India Bharat Mata and Bande Mataram.

Bankim

→ Without religious revival no revival of India; Hindu secular outlook (religion as cultural + nationalist force, not communal); Krishna as modern politician; rational Hinduism (board: "Do Logic"; "values")

→ Anandamath (1882): gave Bharat Mata + Bande Mataram, anthem of National Movement

→ First graduate of Calcutta University (founded 1857; Joddu Nath Bose other of first two, 1858)

→ Jana Gana Mana: Rabindranath Tagore, Bengali; he translated it into English at Madanapalle (Andhra Pradesh) 1919, set to music there; distinct origin from Bande Mataram

PYQ 2021: Madanapalle = Tagore translated Jana Gana Mana (1919); not Theosophical Society HQ (Adyar, Madras, from 1882); slide key: Margaret Cousins composed the tune; answer (c). Novels (PYQ 1996, 2018): Neel Darpan 1860 (Dinabandhu Mitra, indigo planters' tyranny) < Durgesh Nandini 1865 (Bankim, first Bengali novel; 1996 answer (b)) < Arya Samaj 1875 < Anandmath 1882; Satyendranath Tagore's ICS entry 1864 (ink) / 1863 (key) conflict. Rast Goftar, Maharatta, Nibandhamala = periodicals.

SIR SYED AHMED KHAN (1817–1898)

📖 Story link · beat 10: Because Muslims had their own questions, Sir Syed chose modern education without surrender of faith.

🔧 Sir Syed: most significant Muslim social reformer

→ Social: supported widow remarriage; opposed triple talaq, polygamy, purdah, child marriage; wanted Western + female education; modernisation without surrender of faith ("like RRR")

→ Political: India = summation of Quams; Hindu Quam and Muslim Quam separate; unity between Quams but separateness; Muslim Quam (former rulers) deserved special status, Western education essential. Teacher: "Father of the 2-nation theory" (handout: planted 1870s–80s → Muslim League 1906 → Partition 1947)

Institutions

→ 1875 Muhammadan Anglo-Oriental College, Aligarh (later AMU): Aligarh Movement

→ 1886 Mohammadan Educational Congress: rival to INC (seen as Hindu)

→ Jamia Millia Islamia 1920: breakaway faction at AMU, Aligarh; when Gandhi called students out of British-supported institutions in NCM 1920–22, AMU stayed pro-British; Jamia = anti-colonial, pro-independence

→ Jamia founders: Abdul Majid Khwaja, Maulana Mehmud Hasan, Maulana Md Ali, Hakim Ajmal Khan, Dr Mukhtar Ahmed Ansari (later headed All-Party Conference → Nehru Report August 1928)

NARAYANA GURU (1856–1928)

📖 Story link · beat 10: Because Kerala's caste was most severe, a lower-caste ascetic built parallel institutions.

Narayana Guru

→ Born 1856, Travancore, Ezhava (lower caste; denied temple entry, public roads near upper-caste homes, education, jobs); wandering ascetic; Sanskrit, Tamil, Malayalam, Advaita Vedanta → caste philosophically incoherent

→ Slogan: "One Religion, One Caste, One God for Mankind"

→ Institutional method (like Phule): temples open to all castes; first Aruvippuram 1888, Shiva idol: "This is not a Brahmin's Shiva. This is an Ezhava's Shiva." (no conversion, no legislation); temples, schools, ashrams; SNDP 1903 (Shri Narayana Dharma Paripalana Yogam)

→ Gandhi visited Sivagiri 1925: both opposed untouchability (Gandhi inside Congress, Guru from within community)

💡 Significance

→ Reform reaching south India, led by a lower-caste ascetic

→ New method: parallel institutions, "creating facts on the ground"

→ Held orthodoxy to its own highest standard

Handout: three responses to caste failure: Gandhi's assimilationist approach, Narayana Guru's reformist-institutionalist work in Advaita Vedanta, Ambedkar's exit through conversion to Buddhism. 💡

Mains frames: women's question 2017 (British yardstick of civilisation; Sati, child marriage, widows, infanticide, female education; scripture vs logic, Tilak vs Bhandarkar; laws top-down, most failed at scale). Phule 2025 (bottom-up on education, women, Dalits, peasants, workers). Young Bengal + Brahmo 2021 (reason alone failed, reason plus scripture worked; both elite, urban). ✅

🔧 EDUCATION REFORMS: ORIENTALISM TO 1835

📖 Story link · beat 11: Now all this stood on a schoolroom built by British policy: Orientalists first, then Macaulay.

📚 Why Western education came late

→ Orientalism (late 18th–early 19th c): govern Indians the Indian way, within Indian literature, languages, laws; "reform could wait"

→ Edmund Burke (1729–1797): critique of EIC led to Pitt's India Act 1784; Indians not ready for Western reforms

→ Leading Indian Orientalists: William Jones, Warren Hastings 73–85; board: 1835 = date Western education became policy

🎯 Key Orientalists PYQ 2018 PYQ 2021

William Jones (not imp)

→ Judge, Calcutta Supreme Court 1783–94; mesmerised by Sanskrit, ranked Sanskrit epics above Greek, Roman, English

→ With Hastings began codification of Hindu + Islamic laws into English (handout: 1775 Hindu, 1778 Islamic)

→ Founded Asiatic Society of Bengal 1784 (Dwarkanath Tagore a member)

Warren Hastings 73–85

→ Calcutta Madrasa 1781: Arabic, Persian, Islamic law; train Indians to help rule "the Indian way"

→ Sanskrit College, Calcutta 1824 followed for Hindu law

Wellesley 98–05

→ Fort William College, Calcutta 1800: train newly arrived British civil servants in Indian languages, laws, customs; William Carey taught Bengali + Sanskrit

→ Benaras Sanskrit College 1791: Jonathan Duncan, not William Jones

Conflicts: (1) Jones codification: handout 1775 + 1778; slide: Jones proposed to Cornwallis 86–93 in 1788 (remove reliance on Pandits + Maulvis), Halhed's Gentoo Laws (1776, via Persian) replaced by Manusmriti (1794, Sanskrit), Al-Sirajiyyah (1792) supplementing The Hedaya (1791); teacher marked not imp: learn institutions. (2) Board "1800–06" beside Fort William unexplained; handout gives 1800. PYQ 2018, 2021: Wellesley 98–05 = the Governor General Richard Wellesley, not Arthur Wellesley; slide: William Carey a teacher, not the reason.

🎯 Who pushed for Western education (not imp heading) PYQ 2009

David Hare (Calcutta watchmaker)

→ English education with Roy + Radhakanta Deb; Calcutta School Book Society 1817 (with Deb)

→ Hindu College, Calcutta 1817 with Sir Edward Hyde East (Chief Justice) and Roy → later Presidency College (Derozio taught)

→ Hare School 1818; died of cholera 1842; missionaries refused burial as "non-believer"; thousands joined funeral

Liberal administrators

→ John Malcolm (Governor of Bombay 1827–30): radical reform, Doctrine of Reason + Humanism

→ Thomas Munro (Governor of Madras 1820–27)

→ Elphinstone (Governor of Bombay 1819–27; twice refused GG post to finish his book)

→ Charles Metcalfe (GG 1835–36): liberated press, clashed with Court of Directors, resigned 1838 (slide: these four = conservatives / paternalists; radicals = James Mill, Bentinck 28–35)

💰 Charles Grant (evangelist, MP + EIC director; not imp)

→ Presided Charter Act 1813: legalised missionary entry, Rs 1 lakh a year on education (slide: surplus revenues, literature, learned Indians, scientific knowledge; medium open; campaigned with William Wilberforce)

→ Wanted English-medium Western education (know laws against EIC corruption); Christianity = political stability by common religion

Hindu College conflict (PYQ 2009): handout: Roy co-founded; Hare buried within Presidency College grounds. Slide: Roy backed but withdrew before opening; Hare buried at College Square near Hare School; higher section became Presidency College 1855, school section Hindu School. Board: "David Hare (1830s)" clashes with 1817. Answer (d): Edward Hyde East, David Hare, Raja Ram Mohan Roy. Distractors: Derozio taught (not founder); Vidyasagar Principal of Sanskrit College; Keshab no role; Alexander Duff came 1830, General Assembly's Institution (later Scottish Church College).

🎯 MACAULAY'S MINUTE 1835 (imp) PYQ 1996

📖 Story link · beat 11: Because Macaulay settled the debate in 1835, English and Western learning made Brown Sahibs.

Decision

→ Anglicist–Orientalist debate (1813–35) settled by Macaulay's Minute on Indian Education 1835 → English Education Act 1835; main framework until Wood 1854

→ Product of Roy's advocacy (died 1833), Bentinck 28–35's support, Macaulay's drafting

→ Two questions: Syllabus (Western) and Medium (English). Western syllabus → Western values → glorify British → Brown Sahibs → political stability

→ Line: "a single shelf of a good European library was worth the whole native literature of India and Arabia"

	Reasons
Official	Fulfil White Man's Burden (Western sciences, humanities); empower Indians against EIC officials' corruption
Real	Cut cost of administration (Law Commission 1834 framing Western-style laws, needed Western-educated Indians in lower bureaucracy); create Brown Sahibs: "Indian in blood and colour, but English in taste, in opinions, in morals and intellect"; market for British goods

Macaulay's six reasons (teacher)

→ 1 Political stability: costly, so only rich (city-living upper-caste landed class, traditional mass leaders who moved to cities after Permanent Settlement 1793); become pro-British leaders of the poor

→ 2 Administration: Charter Act 1833 brought Western-like laws (Law Commission 1834) + Uncovenanted Civil Services open: Indians in lower posts lower expenditure

→ 3 Ideological: Liberals: give the best, the West, for WMB

→ 4 Personalities: Roy + Bentinck 28-35 + Macaulay

→ 5 Administration: reduce corruption via understanding of rights in Western-like laws

→ 6 Economy: market for British exports via Brown Sahibs' taste

Why elite supported + Downward Filtration

→ Access to government jobs, legal + medical practice, teaching, journalism; genuine belief Western sciences would modernise and industrialise ("cute Brown Sahib believes in WMB")

→ Downward Filtration: no mass infrastructure; educate urban elite who pass it down at no extra State cost; high fees blocked urban poor, rural areas got nothing (urban-rural divide); mass education suffered

📜 ADAM'S REPORTS AND THE ACT 1835

📖 Story link · beat 11: Because the 1835 choice was made, Adam's reports and the Act show the vernacular path set aside.

William Adam's three reports (1835-38)

→ Scottish missionary (co-founded Calcutta Unitarian Committee with Roy 1821), appointed by Bentinck 28-35 to survey indigenous education in Bengal and Bihar

→ Over 1,00,000 pathshalas, almost every village: contradicts "India illiterate before the British"

→ Caste inclusive: all castes (except lowest / untouchables) sat together. Trap: "Adam concluded system rigid, excluded lower castes" = false

🧑‍🤝‍🧑 Extreme flexibility (most tested)

→ No fixed fee (kind or cash)

→ No printed books or fixed syllabus

→ No separate buildings (banyan trees, temples, mosques, teacher's home)

→ No annual exams or timetables

→ Suspended during harvest

→ Curriculum: basic literacy, arithmetic, accounts: functional, what Macaulay dismissed as "useless"

→ No education vacuum: system starved of funds, destroyed by English-medium shift (Wood's "vernacular primary schools" hollow; real innovation = grants-in-aid + inspectorate)

📜 English Education Act 1835

→ Goal: European literature + science (slide: among urban elite); all funds for English education alone

→ No more money for printing Oriental works; no new stipends for Oriental institutions; Calcutta Madrasa 1781, Benaras Sanskrit College 1791 not abolished

Year	Milestone 1844-1856
1844	English compulsory for government jobs: blow to vernaculars (board: private sector absent, government job = major attraction)
1847	Roorkee Engineering College (university 1949; IIT Roorkee 2001; later Thomason College)
1849	Bethune School for Women (grants-in-aid); Vidyasagar Secretary
1851	Vidyasagar Principal, Sanskrit College (Dalhousie 48-56): non-Brahmins, maths, English literature

1856	Vidyasagar Inspector of Schools, Bengal (Dalhousie 48–56); Hindu Widow Remarriage Act

Legal Members: 1833–53: 1; 1853–56: 6 (board digits after "6 Legal" unclear: check notebook).

🎯 WOOD'S DESPATCH 1854 PYQ 2002 PYQ 2018

📖 Story link · beat 11: Because filtration never reached the masses, Wood's Despatch 1854 built a full ladder of schools.

📚 Wood's Despatch 1854: "Magna Carta of English Education in India"

→ Directions from Charles Wood, President of the Board of Control (1784), to Dalhousie 48–56; most comprehensive policy; shift from Downward Filtration

→ Why (board): British India large (Punjab annexed 1849), administration pyramid needs army of clerks; mass basic education needed

Language ladder (WESTERN syllabus throughout); today: elementary 1–8, secondary 9–10, senior secondary 11–12

Elementary: vernaculars → *High school (classes 9–10): vernaculars + English* → *College: English*

What it directed

→ Education Departments in provinces

→ Teacher Training

→ Continued female education

→ Universities at Madras, Bombay, Calcutta (departments of law, engineering, Sanskrit, Persian, Arabic)

→ Grants-in-aid

→ Director of Education per province + Inspector of Schools at district level (survived into independent India)

Front	Real goal
Admin	Cheap supply of clerks
📚 Culture	Western culture among masses + "moral development and intellectual growth" (stated aim, Prelims 2002; board: Western values > Indian values)
Economy	Bigger market for British goods
Polity	Glorify British rule among masses for stability

PACE — Wood's real goals (unordered): Polity · Admin · Culture · Economy (own mnemonic)

PYQ 2002: aim as stated = (b) spread of Western culture (employment the "real reason"); (c) false (ladder starts in vernaculars); (d) "scientific research in traditional education" false (board: ended 1835). PYQ 2018: grants-in-aid T, universities T, English at all levels F: answer (a) 1 and 2.

📜 Impact

→ Dalhousie 48–56 supported, groundwork; Madras, Bombay, Calcutta universities 1857 under Canning 56–62 (Dalhousie left 1856); then Panjab University, Lahore 1882 and Allahabad 1887 = five by 1900

→ Bankim + Joddu Nath Bose: first two Calcutta graduates 1858

→ Dalhousie 48–56: more elementary schools in Bengal + Bihar, technical education

→ Result: failure (female education neglected, high fees, no mass infrastructure); 1870: Education transferred to Provinces

📚 Education growth profile (board)

→ Presidency cities by growth: (1) Calcutta, (2) Bombay, (3) Madras; years 1699, 1687, 1639 (last possibly 1632: check notebook)

PYQ 1996 order: Hindu College 1817 → Adam's reports 1835–38 → Wood's Despatch 1854 → University of Calcutta 1857: (a) 1, 3, 4, 2 (board: "David Hare (1830s)" clashes with 1817; handout + key put it first). Macaulay 1835 → Wood 1854 → Hunter 1882 → Sargent 1944: (a) 2 1 4 3; handout full order: Macaulay → Wood → Hunter → Sargent.

👑 1870 PULL-BACK AND HUNTER COMMISSION 1882-83

📖 Story link · beat 11: Because money and zeal ran short, the State pulled back, and Hunter 1882 reviewed the damage.

Pull-back after 1870

→ 1870: State cut higher education funding in Bengal, officially for mass vernacular education; real: WEMC wrote nationalist press articles, Anglo-Indian press called graduates seditious

→ Brown Sahibness waned within 35 years (board: peak 1835–70): Reason turned on British rule; 1904 Curzon 99–05: universities "factories of sedition"

→ 1882 Ripon 80–84: education a free enterprise (private schools + colleges with State aid, less control); grew fast, only richer benefited

📚 Three results of Western education (board)

→ Polity: desire for democracy + participation
→ Economy: desire for Industrial Revolution
→ Society: social reforms
→ Short term: Brown Sahibness, British stability. Long term: stronger INM; method 1857–1905 = Pen / Press; "sedition" before 1947 = nationalism

→ WEMC = three branches: Youth, Capitalists (merchants, manufacturers), Professionals (government jobs, lawyers, doctors, engineers, press)

👑 Hunter (Indian Education) Commission 1882–83

→ Set up by Ripon 80–84 to assess progress since Wood; primary + secondary in trouble, worsened by 1870 transfer to cash-strapped Provinces

→ Transfer education to Municipalities (urban) + District Boards (rural) (Ripon 80–84's Local Self Government Resolution 1882)

→ Mass education in vernaculars (primary)

→ Strengthen female education beyond the three presidency cities

→ Split secondary (9–10) into literary + vocational streams (later IIT, ITI)

→ Special fund for mass education of Backward communities: rejected

→ Control: Provinces 1870, Local Bodies 1882, Provinces 1919. Phule's memorandum 1882 (see Phule)

CURZON, SADLER, GOKHALE, HARTOG

📖 Story link · beat 11: Because control mattered more, Curzon tightened it; Sadler, Gokhale and Hartog pushed back.

📜 Indian Universities Act 1904 (Curzon 99–05; Raleigh Commission Report 1902)

→ Control: universities under government (veto or amend Senate regulations)
→ Fewer fellows, shorter tenures, mostly government nominees
→ Stricter affiliation (attack on nationalist and Swadeshi institutions)
→ Rs 5 lakh a year for education
→ Also Indian Agricultural Research Institute, Pusa, Bihar, 1905 (funded by Henry Phipps)

CAFE – Curzon's 1904 Act (unordered): Control of universities · Affiliation stricter · Fewer fellows · Expenditure Rs 5 lakh a year (own mnemonic)

👑 Sadler Commission 1917–19 (Dr Michael Sadler; not imp)

→ College entry after class 12 (not 10); strengthen secondary 9–10
→ Universities residential, autonomous, unitary (concept of modern campus system)
→ Under Chelmsford 16–21: seven new universities, incl. Osmania (Hyderabad)
→ Government of India Act 1919 gave education to Provinces (Imperial Legislative Council existed 1861–1919)

Gokhale's Bill (PYQ 1998): Compulsory Primary Education Bill introduced in Imperial Legislative Council 16 March 1911, rejected March 1912. A ("rejected in 1911") false (teacher struck 1911, wrote 1912); R true (fear education raises political consciousness; slide: reason political, cost secondary). Answer (d). Question bank's key (a) conflicts; no official UPSC key; handout, slide, teacher all give (d).

🗳️ Hartog Committee 1929 (not imp)

→ Rapid growth cost quality
→ At end of class 8 choose vocational vs academic; only deserving go to class 9
→ Strengthen primary (classes 1–8)

WARDHA 1937 AND SARGENT 1944

📖 Story link · beat 11: Because few had learned, Wardha 1937 and the unfunded Sargent Plan 1944 aimed wider.

📚 Wardha Scheme of National Education 1937 (imp)

→ INC governments in provinces 1937 (GoI Act 1935; education provincial subject); Gandhian; developed by Zakir Hussain Committee
→ Learning by doing: activity-based, field work, school–community contact (motivates the poor; empathy among WEMC youth)
→ English only after class 8
→ Handicraft skilling in curriculum
→ Free + compulsory, vernaculars, 7 years, ages 7–14
→ Q: "What was the view of INC/MG on education?"

Age conflict: handout "until 7 years of age" is a slip; slide + board: 7 years (ages 7–14). Macaulay vs Wardha (handout): 1835 English, elite, top-down, Brown Sahibs for colonial stability; 1937 vernacular, activity-based, community-rooted, citizens for self-governance.

Sargent Plan 1944 (not imp)

→ Report of Central Advisory Board of Education on Post-War Educational Development in India; last British despatch; unimplemented; John Sargent (GoI Educational Advisor)
→ Goal: England's standard; 40-year plan for 100% literacy

👥 Structure

→ Pre-primary 3–6

→ Basic elementary, universal + free 6–14 (junior basic 6–11, senior basic 11–14; Wardha-inspired)

→ High school 11–17, selected students, academic + technical-vocational

→ University degree 3 years

→ Adult illiteracy liquidated in 20 years; provision for differently-abled; teacher training, physical education, compulsory medical inspection

→ Criticism: leaders rejected the 40-year timeline (basic literacy only by 1984); no funds

📜 OVERALL IMPACT AND ASI

📖 Story link · beat 11: So by 1921 only about 8% were Western educated and 92% were illiterate.

📜 Impact of Western education

→ By 1921: 92% illiterate; only 2% of women literate (board: 8% WEMC, 92% not Western-educated)

⚠️ Failures

→ No mass infrastructure

→ Costly

→ Vernacular suffered after English compulsory for jobs (1844)

→ Upper-caste + British officials nexus vs backward communities

→ Female education neglected outside presidency towns

Unintended consequences

→ Doctrine of Reason → critical self-assessment → social reform movements

→ Public debate through press = civil society

→ Passion for Western sciences

→ WEMC turned liberty, rights, representation, nationalism against British rule

→ Disparity board: costly education + societal issues → disparity by caste (LC poor), gender, class, region (presidency towns vs rest), religion; INM until 1920 dominated by upper-caste Hindu, male, rich (last label unclear)

🎯 Archaeological Survey of India (not imp)

PYQ 2023

→ Alexander Cunningham founded ASI 1861 (Archaeological Surveyor); permanent department / reorganised 1871 (first Director-General)

→ Documents, excavates, preserves pre-Islamic + Indo-Islamic heritage; Madras Presidency, Deccan, South India antiquarians: Alexander Rea, A.H. Longhurst, Robert Sewell, James Burgess, Walter Elliot

Prelims 2023 trap (source states it; year not in the chapter's PYQ list): these five names = archaeological excavations, not English press, churches in princely States or railways.

PRINT CULTURE

📖 Story link · beat 12: Because the educated few needed a voice, the press carried reform and then nationalism.

1556
Printing press to Goa: Portuguese, Joao de Bustamante, religious texts

1780
Bengal Gazette (English), Calcutta, James Augustus Hicky: India's first newspaper; shut 1782 by Warren Hastings 73–85 for criticising British

1784
Calcutta Gazette, Francis Gladwin: semi-official, EIC patronage

1789
Bombay Herald, William Ashburner (renamed Bombay Gazette 1791)

1790
Bombay Courier, Luke Ashburner (later merged with The Times of India)

1799
Censorship Press Act, Wellesley 98–05 (wartime pre-censorship)

1799 Act (handout, tagged Prelims 1998 Assertion–Reason): A true; R false: wartime censorship against French sympathisers' print, not reaction to Renaissance or nationalism (not yet political). Teacher's "Rote Learning" cue: newspaper-to-founder matching.

Year	Early vernacular press 1800–1857
1821	Sambad Kaumudi (Bengali), Roy: social reform
1822	Mirat-ul-Akhbar (Persian), Roy: liberal ideas
1823	Licensing Regulations, Acting GG John Adam: licences needed; closed Roy's Mirat-ul-Akhbar
1826	Udant Martand: first Hindi newspaper (weekly), Pandit Jugal Kishore Shukla
1835	Metcalfe Act (Press Liberation Act): licensing revoked; Metcalfe (GG 1835–36) = "Liberator of the Indian Press" (forced to resign by Court of Directors)
1854	Samachar Sudha Varshan: first Hindi daily, Shyam Sundar Sen
1857	Revolt: British blamed vernacular press; stricter rules

Spelling: handout John Adams, slide John Adam (Acting GG 1823); no reign code given.

🎯 1878: pivotal year
PYQ 2005 · PYQ 2007

→ Vernacular Press Act (Gagging Act) 1878, Lytton 76–80: only regional-language papers (e.g. Som Prakash, Dacca Prakash, Samachar); repealed 1882 by Ripon 80–84

→ The Hindu (English), Madras, 1878: G. Subramania Iyer, M. Veeraraghavachariar; weekly, daily from 1889

→ Amrita Bazar Patrika (1868, Sisir Kumar Ghosh): Bengali → English overnight in 1878 to escape the Act

→ Som Prakash: founder Vidyasagar (PYQ 2007; not Dayananda, Roy, Surendranath Banerjee). VPA repeal: Ripon 80–84 (PYQ 2005); distractors Dufferin 84–88, Curzon 99–05, Hardinge 10–16 (all later)

Year	Paper	Language	Founder / editor
1861–62	Indian Mirror	English	Manomohan Ghosh; money from Debendranath Tagore; Keshab Chandra Sen active
1862	Bengalee	English	Girish Chandra Ghosh; Surendranath Banerjee bought it 1879
1868	Amrita Bazar Patrika	Bengali (English 1878)	Sisir Kumar Ghosh
1881	Kesari / Mahratta	Marathi / English	Bal Gangadhar Tilak
1882	Swadesamitran	Tamil	G. Subramania Iyer
1887 / 1888	Sudharak	Marathi (+ English)	Agarkar (founder), Gokhale (English section)

Press-table conflicts: (1) Sudharak: handout 1887, edited by Gokhale; slide 1888, founded by Agarkar, Gokhale English section; use Agarkar + Gokhale, avoid year in option. (2) Som Prakash: handout mid-1860s, slide 1858; founder certain: Vidyasagar. (3) Handout closing timeline also lists Voice of India 1883, Hindustan 1885, The Advocate 1888, Hindustan Times 1924, Hindustan Dainik 1936; board stresses only Hindustan Times 1924.

Year	Press Act	Governor General
1908	Newspaper (Incitement of Offences) Act: seize presses inciting violence	Minto 05–10 (Swadeshi 1905–11)
1910	Indian Press Act: security deposits, fines, confiscation; repealed 1921 (Tej Bahadur Sapru Committee)	Minto 05–10
1931	Indian Press (Emergency Powers) Act: suppressed Civil Disobedience (1930–34) coverage; INC banned	Irwin 26–31 (handout) / Willingdon 31–36 (slide)
1932	Foreign Relations Act: no criticism of foreign governments allied with Britain	
1942	Wartime censorship: slide Rule 41, Defence of India Rules (Defence of India Act 1939); handout "Press Regulating Act"	

1931 conflict: Gandhi–Irwin Pact March 1931, Willingdon took over April 1931: both defensible, unlikely tested. For 1942 use slide wording (Rule 41).

🎯 Cinema and the print arc PYQ 1996 PYQ 2008 PYQ 2018

→ 7 July 1896: The Times of India carried Lumiere Brothers' advertisement for first screening, Watson's Hotel, Bombay; 1913 Raja Harishchandra, Dadasaheb Phalke, first feature film

Print-to-cinema arc (handout)

→ Neel Darpan 1860 → Durgesh Nandini 1865 (Bankim) → Anandamath 1882 → Gitanjali 1913 → Godan 1936

→ Cinema 1896 → Phalke 1913

→ Al-Hilal (1912): Urdu journal of Maulana Abul Kalam Azad (not Comrade by Muhammad Ali Jauhar; not The Indian Sociologist by Shyamji Krishna Varma; not Zamindar by Zafar Ali Khan)

Lumiere date: handout + slide 7 July 1896 (PYQ 1996 option (d) 1896); external sources say 7 August 1896: use 1896 and Bombay, not the month.

Official	Press action
Wellesley 98–05	Censorship Press Act 1799
John Adam (Acting)	Licensing Regulations 1823
Metcalfe (GG 1835–36)	Metcalfe Act 1835, "Liberator"
Lytton 76–80	Vernacular Press Act 1878
Ripon 80–84	Repeal 1882
Minto 05–10	Newspaper Act 1908; Indian Press Act 1910
Irwin 26–31 (or Willingdon 31–36)	Emergency Powers Act 1931

Mains frame, press (15 marks): adversarial from Hicky 1780 → cycle of repression and concession (1799, 1823, 1835, 1878, 1882, 1908–10, 1931, 1942) → vernacular papers carried reform + nationalism → WEMC pen and press (1857–1905); sedition before 1947 = nationalism; cinema + novel widen the public sphere. ✅

KEY DATES OF THE CHAPTER

📖 Story link · beat 12: So the whole film runs from reason to the national movement; know these dates in order.

1813 Charter Act: Rs 1 lakh, missionaries

1817 Hindu College

1828 Brahmo Samaj

1829 Sati Regulation

1835 Macaulay, Eng Education Act, Metcalfe Act

1854 Wood's Despatch

1856 Widow Remarriage Act

1857 Three universities

1878 VPA; The Hindu

1882 VPA repealed; Hunter

1904 Universities Act (Raleigh 1902), Curzon 99–05

Recall drill: cover and answer

Renaissance method (teacher)?	Learn from golden past (copy-paste fails), then reason: DoL/R/R; socio-religious = Logic AND Religion	Sati: evidence, law, debate?	Eran Pillar, Bhanugupta 510 CE; Regulation XVII 1829, culpable homicide; Roy vs Radhakanta Deb 1828; Dharma Sabha 1830, Privy Council rejected

🔤 Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

IPC = Indian Penal Code, 1860 — Old criminal code, replaced by the BNS

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

AMU = Aligarh Muslim University — Central university at the centre of the minority-status debate (Art 30)

DBT = Direct Benefit Transfer — Subsidies and benefits paid straight to bank accounts

SAGAR = Security and Growth for All in the Region — India's Indian Ocean vision of 2015

GDP = Gross Domestic Product — Total value of goods and services produced within a country in a year

UCC = Uniform Civil Code — Proposed common personal laws for all citizens (Art 44)

IT = Information Technology — Computing and digital technology (for example, the IT Act, 2000)

NCM = National Commission for Minorities — Statutory body under the NCM Act, 1992

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

PRE-1857 PEASANT AND TRIBAL REVOLTS AND POST-1857 TRIBAL UPRISINGS

PYQ Prelims 1998, 2006, 2018, 2020 · Mains: "1857 Revolt was the culmination of small and big rebellions in the first 100 years of British rule" (teacher's board; year not written)

✎ *Peasants and tribals lost their security (land revenue, forests, religion), so they rose first, led by elites, peasants, sects or chiefs. The revolts were local and uncoordinated, yet political: the pre-history of modern nationalism.*

📖 THE STORY FIRST (same story as the textbook)

Peasants and tribals lose their security (land revenue, forests, religion), so they rise first, led by elites, peasants, sects or chiefs. The revolts are local, uncoordinated and not democratic, yet political and public, so they are the pre-history of modern nationalism and the culmination of a hundred years before 1857.

1. **The bottom of the order moves first.** The WEMC trusted British rule and chose reform. Peasants and tribals, at the bottom of the colonial order, answered with defiance and often violence. The common man wants security.
   → But what exactly did the peasant lose?
2. **The peasant's squeeze.** The Farming System 1772 auctioned revenue; PS1793 made the zamindar owner with high rents and no occupancy right. Ryotwari and Mahalwari led from auction to moneylender to landlessness.
   → And in Bengal and Bihar a planter adds a second trap.
3. **The indigo trap.** The planter's loan and cheap indigo buy-back left the ryot unable to pay rent and loan, so he grew indigo again. Bengal Ryoti brought the Indigo Revolt 1859; Bihar Tinkathia, Champaran 1917.
   → Then fear for faith adds fuel.
4. **Religion adds fuel.** Temple and mosque lands were taxed, and Sati 1829, Lex Loci 1850 and Widow Remarriage 1856 felt like interference. With no parties or newspapers, a sect already had a leader, a philosophy and unity.
   → Meanwhile the tribals, in their forests, lose even more.
5. **The tribal's world turned upside down.** Tribals lived by cultivation, hunting and gathering under their own chief. British land revenue came in by four routes, with cash demands and a ban on Jhum and hunting, to make settled peasants.
   → Then the law takes the forest itself.
6. **The forest is fenced (1878).** Under Lytton 76–80 the Forests Act 1878 made Reserved, Protected and Village forests, mainly for railway timber. Customary rights became privileges and tribals became trespassers. The Abkari liquor monopoly added more burden.
   → Now the elites, too, have lost something.
7. **The elites rise: civil uprisings.** Raja Chait Singh lost his estates (1778–81). Wazir Ali 97–98, the Poligars, the Bundelas and Velu Thampi (1809) lost status, land or autonomy. The Paikas (1817) drew multi-class support.
   → Peasants, meanwhile, begin to lead themselves.
8. **Peasants lead: Rangpur and Mysore.** In 1783 Rangpur peasants, hurt by the Farming System and famine, looted the grain stores of Debi Singh and Gobinda Singh and ran their own government. Mysore peasants (1830–31) rose against high LR.
   → Elsewhere the leader comes from religion.
9. **Religion leads.** Dasnami Sanyasis and Madari Fakirs inspire Anandamath. Karim and Tipu Shah lead the Pagal Panthis. Titu Mir builds a bamboo fort, the Faraizi say land belongs to God, and Moplahs lose rights to Janmies.
   → In the hills and forests, the tribals rise in a chain.
10. **The tribals rise, ending in the Hool.** Pahariya, Bhil, Ramosi, Khasi, Kol and Kandh risings came from loss of land, forest or religion. The Santhals (1855–56) rose against British, zamindars and moneylenders; about 50,000 were killed, then a land-transfer bar followed.

→ Two more risings come after 1857.

11 **After 1857: Birsa and Rampa.** Birsa Munda's Ulugulan (1899–1900) began on Christmas 1899, believing British bullets turn to water. Rampa merged into the NCM in 1920. Alluri Sitarama Raju restarted the Fituri and was executed in 1924.

→ So what do all these revolts add up to?

12 **The verdict.** The revolts were local, uncoordinated and had no democratic goal, so not modern nationalism. Yet they had ideology, programme and symbolism. So: the pre-history of modern nationalism, a hundred years before 1857.

Cast: Raja Chait Singh = The Raja · Debi Singh and Gobinda Singh = The Villains · Wazir Ali 97–98 = The Deposed Nawab · Bakshi Jagabandhu = The Commander · Dewan Velu Thampi = The Dewan · Titu Mir = Bamboo Fort · Dudu Mian = The Sloganeer · Karim Shah and Tipu Shah = K then T · Sido and Kanhu Murmu = The Brothers · Chakra Bisoi = Kandh Chief · U Tirot Sing = Khasi Leader · Lytton 76–80 = The Forester · Birsa Munda = Bullets to Water · Alluri Sitarama Raju = Fituri Martyr

At a glance: the route of the chapter

Teacher's board: chapter = Less Imp overall but some PYQs in both papers; four Prelims PYQs map, so know the PYQ-linked revolts cold. Mains frame: for every revolt ask three similarity questions: GRievances, methods, LEADERSHIP ("small and big rebellions in the first 100 years of British rule"). Closing idea: not 100% modern, but anti-colonial.

Priority note: source meta says High priority; teacher's board says Less Imp overall. Four Prelims PYQs: treat as High for PYQ-linked revolts.

SETTING THE STAGE

📖 Story link · beat 1: Because the WEMC chose reform, the bottom of the order spoke first, in defiance.

Why peasants and tribals spoke first

→ WEMC answered British rule with socio-religious reform: believed in British benevolence, expected modernisation, benefited from new jobs (Western = Medicine, Law, Admin)

→ Peasants + tribals at the very bottom: defiance, often violence, not petitions

→ INM leaders called pre-1857 revolts the "pre-history of modern nationalism" (= unwritten history): the first draft, not failures; 1857 = culmination of a hundred years of rebellions

→ Old job-holders (Mansabdars, Faujdars, Amalguzars, Amils, Pundits, Maulvis, Kazis, Muftis) lost posts while Western-educated gained: old elite's own grievance

→ Verdict: "NOT 100% MODERN BUT anti-colonial"

Definitions (board)

→ Peasant: cultivator farming for food security, poor = ryot; farming for profit, rich = farmer; word rests on occupation

→ Tribal: lives away from mainstream (hills, forests, deserts, islands). Traditional autonomy: political (tribal chief), economic (forest resources), socio-cultural (own way of life); Indian kings did not apply plains LR systems there, the British did

🛡️ The security logic (one board)

→ Common man wants security: economic, physical, socio-cultural

→ Peasant revolt = LR (land revenue)

→ Tribal revolt = LR + loss of forest resources + LR extended to forests

→ Socio-cultural threat = fear of religion (missionaries, reform laws)

Map index: 22 revolts	Colour / kind	Revolts and dates
1–6	Blue: civil (elite-led)	Chait Singh (Benaras) 1778–81; Bishnupur + Birbhum 1789; Poligar 1799–1805; Bundela chiefs 1803–05; Velu Thampi (Travancore) 1809; Paika (Khurda) 1817
7–8	Green: peasant-led	Rangpur 1783; Mysore 1830–31
9–13	Purple: religion-led	Sanyasi-Fakir 1760–1850s; Pagal Panthi 1823–33; Titu Mir 1831; Faraizi 1830s; Moplah 1840, 70s
14–20	Red: tribal, pre-1857	Pahariya 1778; Bhil 1818–31; Ramosi 1822; Kol 1831–32; Kandh 1837–56; Khasi Hills 1829–33; Santhal Hool 1855–56
21–22	Red triangles: post-1857 tribal	Munda Ulgulan 1899–1900; Rampa (Andhra) 1879/1922

DRIVERS OF THE PEASANT REVOLT

📖 Story link · beat 2: Because the peasant's security was land revenue, every British system squeezed him; the planter added indigo.

System and period	How it squeezed the ryot
Farming System 1772 (Bengal)	LR collection auctioned to highest bidder, revenue farmer (ijaradar); extracted maximum rent, backed by British officials (collection under District Collector); no protection
Permanent Settlement 1793 (PS1793)	Zamindar made permanent owner: high rents, illegal extra cesses abwabs, eviction at will; no occupancy rights; British law on zamindar's side (all legal rights vested in him)
📜 Rent Act 1859	Ryot cultivating same plot over twelve years earns occupancy right; but ineffective in Bengal (loophole), exploitation continued
Ryotwari + Mahalwari areas	Oppression direct from British government: high LR; if unpaid, land auctioned → moneylender → high interest → debt → land lost; cultivator becomes labourer

Read any Bengal revolt by period (board)

→ Before 1772: high LR

→ 1772–1793: higher LR + revenue farmer (FS1772); government pro-revenue-farmer: "legal right to collect LR"

→ 1793–1859: higher rents + abwabs + no occupancy rights; zamindar + government; PS1793 gave all rights to zamindar, none to tenants

→ 1859–85: same, because of loophole in Rent Act 1859

→ Post-1801 ("SCAM-B"): higher LR + higher-interest loans: government [LR] + moneylender [loan] + landlessness. Mahalwari "C, U, P": zamindari-like (A) + ryotwari-like (B) issues

Unreadable shorthand: "SCAM-B" and "C, U, P" = region initials the slide does not spell out; handout says only "Ryotwari and Mahalwari areas". Z = zamindar, RF = revenue farmer. Cornwallis 86–93 tried different LR systems before PS1793, hence FS1772 = precursor ("WHY 1786?" unanswered on slide). Full story Ch 16.

📜 Contract farming: indigo

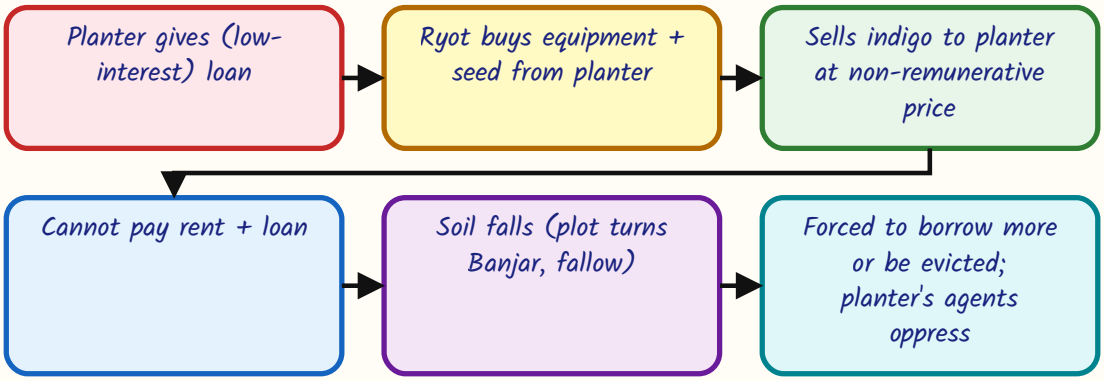

→ European planters forced ryots to grow indigo on a portion of land; Bengal until 1860, Bihar until 1918 (handout)

→ Ryot took loan from planter at outset, sold indigo back far below market price, perpetually in debt; indigo exhausted soil; if he refused: planter's Indian agents, local British officials, courts; no escape (handout: like modern bonded labour)

Two systems (board)

→ Bengal = Ryoti system: indigo on one quadrant (a quarter) → Indigo Revolt 1859 (Ch 22)
→ Bihar = Tinkathia system: indigo on 3/20th of plot → Champaran Satyagraha 1917 (Ch 37)

Indigo debt trap by design (board)

Ordinary system: State gets LR from zamindar, who takes rent from ryot. Indigo model: zamindar still pays State, but planter leases the land (lease amount to zamindar) and collects rent from ryots (middle landlord); plus a planter–ryot contract: ryot faces both rent and contract.

Date conflict (indigo, Bengal): handout until 1860; board "Till 1863, then 1863–1918"; Prelims 1998 answer slide 1859–63. Use 1863 for end of Bengal phase (1860 a note); for Prelims hold 1859 (Indigo Revolt). Low-interest loan on the board only; handout stresses below-market price + debt.

⚡ Religion: dual role (grievance + organiser)

📬 Grievance (four points)

→ Taxation on lands of temples + mosques; ended revenue-free / rent-free tenures of religious bodies
→ 1813 Charter (Section 3): Christian missionaries allowed to convert
→ Social reform laws seen as interference: Sati Abolition Act 1829, Lex Loci Act 1850 (inheritance after conversion), Hindu Widow Remarriages Act 1856

Organiser

→ Pre-1857: no parties, mass-reach newspapers, formal organisations (handout: INC, BJP, RSS do today's work: leadership, coordination, unity)
→ A sect already had leader, philosophy, community, habit of collective action; leader from religious class defines Goal, Plan, Programme, Voice / slogans; religion filled the organisational vacuum

🧑‍🤝‍🧑 DRIVERS OF THE TRIBAL REVOLT

📖 Story link · beat 5: Because the tribal lived by forest and chief, British reach into the forest hurt him doubly; the Act of 1878 took the forest.

🧑‍🤝‍🧑 Tribal experience

→ Forests + hills; shaped by **tribal autonomy** (own **customary law** in civil + criminal matters; chief held L, E, J = political autonomy) and **forest relationship** (home, livelihood, identity): **British destroyed both**

→ Livelihood = three lives: **cultivation, hunting, gathering** forest produce (barter with plains). Major forest produce = timber; minor = bamboo, tendu patta, sal, honey etc.

→ Some books call a tribal revolt a peasant revolt (many cultivated): keep apart by leader + grievance (**forest + autonomy**)

📜 Four routes of LR into forests (aim: extract LR)

→ 1. **Plains zamindars** made legal owners of tribal land

→ 2. Tribal lands **farmed out to revenue farmers**

→ 3. Tribal chief recognised as **zamindar** with same exploitative powers

→ 4. Tribal ryots made **individual owners**, breaking collective ownership

→ **High LR + cash payment** (not produce) → **moneylenders** → debt → land loss (subsistence farmer must sell first: price swings, middlemen)

→ Board: ryotwari idea (cultivator owner), zamindari idea (big person owner), contract of LR (auction)

Board dates: **1853+ Railways** through forests. **1813 Charter** ended EIC monopoly over business with India + legalised missionaries; Industrial Revolution (1750–1850, England) mature, so pressure to open India. **Layers of outsiders:** laws (Forests Act 1878, ban on hunting + Jhum, toddy tax under Abkari), missionaries, state laws + officials, British business (mining, rail-road, timber, ships, forced labour), merchants, zamindars + lenders, revenue farmers; ownership changes (ryot owner, chief owner, zamindar owner).

Ban on Jhum and hunting

→ **Jhum / Podu** (Andhra word) = shifting, slash-and-burn cultivation; banned: British wanted **settled peasants paying LR regularly** (no fixed field to tax)

→ Hill tribals' way of life criminalised; **Chenchus of Hyderabad** pushed to edge of extinction

📜 Indian Forests Act 1878 (Lytton 76–80)

→ All forests into **three categories**; called "scientific forestry", in practice **legal dispossession**

→ **Why:** 1870s **railway boom** needed durable timber (**teak, sal, deodar**); each mile of track roughly **2,000 wooden sleepers**; state wanted absolute control

→ **Legal masterstroke:** forests were common property resources; Act made customary rights **privileges** at the colonial state's mercy (can be taxed, restricted, revoked): millions became **trespassers on ancestral land**

→ Railway + road land acquisition and commercial timber displaced tribals; unpaid labour on the projects that dispossessed them

Category	Rule	Effect on tribals (teacher)
Reserved	**Everything prohibited unless permitted**; most commercial; all traditional rights extinguished (no grazing, firewood, Jhum); timber extraction by government + contractors	"Tribals not allowed": loss of home (land)
🛡️ Protected	**Everything permitted unless prohibited**; state could declare tree species state property, close sections; transitional, many upgraded to Reserved	"Tribals can't sell forest produce": loss of forest rights + resources
Village	Assigned to village communities; very few; strict rules on cattle, wood, species; access revocable; never truly local	"Open to all in practice" (teacher's gloss)

Village Forests conflict: handout = very few, heavily controlled (access revocable); teacher = "open to all in practice". Reconcile: assigned on paper but not truly local vs usable in practice. For Prelims remember order + rule of each category.

Today (board): Forest Rights Act 2006 gives forest land + resource rights to STs and traditional forest dwellers in 5th Scheduled areas (Central + East India); 6th Schedule = autonomy in North East; MFP = Minor Forest Produce (non-timber). Handout: FRA 2006 begins correcting what the 1878 Act did.

Abkari system (Excise Administration)

→ Before: brewing from palm sap (toddy) or mahua a customary right, tied to rituals, festivals, nutrition

→ State claimed monopoly over manufacture + sale of liquor and drugs; auctioned tapping + sale rights to highest bidders; contractors raised prices; unlicensed brewing criminalised: tribals buy back own drinks

→ Excise = second only to land revenue in provincial income

→ Fed the INM's temperance strand: Gandhi's liquor-shop picketing in NCM and CDM

→ After 1813 Christian missionaries added a religious grievance

TWO KINDS OF UPRISINGS

📖 Story link · beat 7: Because grievances differed by class, revolts differ by who led them: elite or peasant.

⏳ Terms (board)

→ Uprising, rebellion, revolt, Ulugulan (Munda), Hool (Santhal) = a rising

→ Mutiny = followers revolt against their leader (Sepoy Mutiny, employees' mutiny)

→ Revolution = huge change in short time (French Revolution 1789 and another board entry "ARGS-83"; Industrial Revolution 100 years = big result over long base); Revolt = attempt at revolution, usually violent, not always (Indigo Revolt 1859)

→ INM was gradual: 1857–1947 = 90 years; goals more radical (Purna Swaraj), method pen → protests → guns

Kind	Led by	Note
4.1 Civil uprisings	Elite (Raja, zamindar, mansabdar); peasants join, but cause = dispossessed elite's	1857 = biggest example ("common ppl led by TRADITIONAL elites")
4.2 Peasant revolts	Peasants themselves	"Peasant Revolts" = umbrella term for the chapter

CIVIL UPRISINGS (ELITE-LED)

📖 Story link · beat 7: Because the elite lost status, land or autonomy, they rose first and peasants joined.

No.	Revolt	Story
5.1	1778–81 Raja Chait Singh, Benaras	Benaras annexed by EIC via Treaty of Faizabad 1775; big zamindar, Raja, loyal people, own military + fort; estates seized for non-payment of LR; revolted (PS1793 later brought Benaras into Bengal-BOB-North Madras-Benaras settlement)
5.2	1789 Bishnupur and Birbhum, Bengal	Zamindars + ryots oppressed by LR (precursors of PS); minor but frequent distractors (PYQ 2006 wrong option)
5.3	1799 Nawab Wazir Ali 97–98	Deposed Nawab of Awadh (ruled 1797–98); revolted with peasant support (high LR). Slide: deposed by John Shore 93–98 for promise of Rs 76 lakh annual subsidy by uncle Sadat Ali Khan II (ToA 1765)
5.4	1799–1805 Poligar Revolts	Poligars = traditionally autonomous local chiefs, South India (private army, forts); Rule of Law + equality before law hurt elevated status (same grievance as talugdars 1857); Ryotwari took lands; high LR brought peasants; crushed
5.5	1803–05 Bundela chiefs (post-2nd Anglo-Maratha War)	Subsidiary Alliance imposed British Resident; Resident interference; revolted with peasants
5.6	1809 Dewan Velu Thampi, Travancore	After Subsidiary Alliance 1805, Resident interfered; Dewan revolted with Nair troops + peasants; crushed

Wazir Ali: handout only "revolted with peasant support"; slide adds Rs 76 lakh, Shore 93–98, Sadat Ali Khan II, dates 97–98: additions, not contradictions. Exam fact: 1799, deposed Nawab of Awadh, peasant support.

Teacher stresses: civil uprisings = loss of the elite's privilege; peasants join because LR also hurts them.

Paika Rebellion 1817 (Khurda, Odisha)

→ Paikas = traditional landed militia, warrior class ("like Rajputs", hereditary soldiers on rent-free land); leaders: feudal aristocrats, chiefly Bakshi Jagabandhu (commander of the Raja of Khurda) + marginalised zamindars; goal: restore hereditary privileges, authority, rent-free estates

→ Multi-class: peasants, salt makers, tribal Kondhs of Ghumusar

EIC provocations (after conquering Odisha 1803)

→ Stripped Paikas of rent-free tenures (jagirs)

→ Extortionate short-term settlements: revenue strictly in silver (Sicca), not cowrie shells

→ Banned local sea-salt production: monopoly, prices soared

→ Dethroned the Raja of Khurda

→ Course: destroyed police stations, courts, salt monopoly offices; briefly captured Puri; proclaimed Raja of Khurda sovereign

→ Martial law, core crushed by 1818; Jagabandhu guerrilla war, surrendered 1825 on negotiated terms

→ Candidate for India's true "First War of Independence" (scale + multi-class); keywords: marginalised zamindars, salt makers, banned sea-salt, dethroned Raja

PEASANT REVOLTS LED BY PEASANTS

📖 Story link · beat 8: Because peasants led themselves, their targets were exact: revenue farmer, grain, prison, court.

1783 Rangpur Rebellion, North Bengal (textbook peasant-led)

→ Grievance: Farming System 1772 revenue farmers Debi Singh and Gobinda Singh, British officials colluded; on top of Great Bengal Famine 1770 (broke peasantry's economic spine)

→ Action: looted their grain stores, attacked prisons (freed ryots), attacked courts: not blind violence; ran own government with self-imposed taxes

→ Crushed by EIC

Mysore 1830–31

→ Wodeyars restored 1799 after Fourth Anglo-Mysore War; Subsidiary Alliance 1799 = heavy annual subsidy, so high LR

→ Peasants revolted against both Wodeyar administration and British agents; EIC crushed it (obligation under SA 1799 to protect the ruler)

📚 RELIGION-LED REVOLTS

📖 Story link · beat 9: Because religion supplies leader and unity, an economic grievance became a faith movement.

🎯 Sanyasi and Fakir Rebellion 1760–1850s

PYQ 2006

→ North Bengal + Bihar; nearly a century; peak about 1800, about 50,000 members (curve: starts 1760, rises through 1772 + 1793, peak 1793/1800 right after PS1793, falls by 1850s)

→ Two faiths cooperated: Dasnami Sanyasis (Hindu: peasants, small traders) + Madari Fakirs (Muslim: peasants who held revenue-/rent-free tenures now ended); common religious ground + identical economic grievances

📬 Grievances

→ High land revenue

→ High rents after PS1793

→ EIC monopoly over domestic trade in Bengal

→ Board: Gomastas after 1757: ryot + artisan once sold to domestic traders; now routed via Gomastas (Indian agents) to EIC officers: domestic trader lost trade (Ch 10). Echo: Mir Qasim 60–63 tried to end internal duties before Buxar 1764

→ Finally crushed. Anandamath (1882) by Bankim Chandra Chattopadhyay inspired by it; Vande Mataram = INM anthem (Prelims 2006)

👫 Pagal Panthi 1823–33, East Bengal

→ Leaders Karim Shah, then Tipu Shah; against zamindars: high rents, illegal abwabs, no occupancy rights

→ Tipu Shah promised lower rents once zamindars + British defeated: political programme via religious leadership (religion provided the leader); crushed

Titu Mir, 24 Parganas, 1831

→ Wahabi sect, taught Shah Waliullah of Delhi's reformist philosophy; poor peasant followers with distinct identity (unique beard + dress)

→ Grievance: tax on beards by zamindar; oppression by indigo planters, zamindars, British officials (board: zamindar who leased to planter or not: either way squeezed)

→ Own government + self-imposed taxes; bamboo fort at Narkelberia; crushed by EIC army

Faraizi Movement (1830s, revived 1870s), Bengal

→ Leaders (father-son line): Haji Shariatullah (1830s), Dudu Mian (mid-century), Naya Mian (1870s)

→ Quran only true source of Islamic law; purge un-Islamic practice; grievance: indigo planters, zamindars, officials

→ Slogan (Dudu Mian): "land belongs to God, therefore any rent or tax on land is ungodly": fighting a sin mobilises better than fighting economic injustice (slogan = the movement's voice)

→ Parallel state: own government, courts, taxes; crushed

→ W.W. Hunter, The Indian Musalmans: British neglect of Muslims fed Faraizi; British should favour Muslims for political stability (discontented community dangerous): long-term effect on British Hindu-Muslim policy

Unreadable: board "DnR" is not explained (maybe Dudu and Naya, but R matches no name). Leaders: Haji Shariatullah, Dudu Mian, Naya Mian.

Moplah / Mappila, Malabar (1840, 1870s, 1921)

→ Moplahs = Muslim ryots; Janmies = Brahmin princely landlords; supervisors collected LR: earnings shared, each with customary right

→ Malabar annexed after Third Anglo-Mysore War (1789–92); British LR recognised only Janmies as owners: Moplahs lost customary rights, became exploited tenants (cover: Lord Parshuram gifted all land to Janmies)

→ Violent, communal in colour (oppressor and oppressed of different religions); returns in 1921 in NCM (Ch 38); crushed by EIC army

→ Trap: Mappila 1921 = wrong option in PYQ 2020 Ulgulan question

Placement: handout's Prelims 2006 alert sits under the Moplah row, but the question is Anandamath = Sanyasi (slide order puts the PYQ after Moplah).

👫 TRIBAL UPRISINGS, PRE-1857

📖 Story link · beat 10: Because forest and autonomy were taken, tribals rose in a chain, ending in the Santhal Hool.

Pahariya, Bhil, Ramosi

→ Pahariya 1778, Rajmahal Hills: earliest tribal resistance; hunter-gatherers + shifting cultivators vs EIC revenue + administration; military force + containment (pushed further into hills)

→ Bhil 1818–31, Khandesh + Rajputana hills: after Third Anglo-Maratha War 1818 annexation; new LR demands, plains moneylenders, curtailed forest rights; suppressed, raised Bhil Corps (local force) as pacification

→ Ramosi 1822, Western Ghats near Pune: watchmen + guards under Maratha state, lost customary jobs + status; local, violent, put down

→ Remember: Pahariya = containment; Bhil = recruit (Bhil Corps); Ramosi = job lost with Maratha state

Uprising	What happened
Kol 1831–32, Chhota Nagpur + Singhbhum	Autonomy destroyed; Raja of Chhotanagpur farmed lands to merchants + moneylenders (Suds); Kols hit the Suds' property, not lives; crushed by army
Kandh 1837–56, Odisha (Ghumsar / Kalahandi)	Leader Chakra Bisoi; British banned human sacrifice (Meriah): humanitarian to British, attack on religion + autonomy to Kandhs; prolonged, crushed
Khasi 1829–33	Leader U Tirot Sing; Brahmaputra Valley–Sylhet Road brought outsiders (businesses, agents, officials): land loss, disrupted life; crushed (Sylhet now in Bangladesh)

🎯 Santhal Hool 1855–56 PYQ 1998 PYQ 2018

→ Homeland Damini-i-koh ("skirts of the hills", Rajmahal Hills, Jharkhand); British opened it to settlement: non-Santhal zamindars + moneylenders = Dikus (outsiders); railway + road building devoured land (Land Loss: acquisition)

→ Leaders: brothers Sido Murmu and Kanhu Murmu

Action

→ 1855 formal prior warning: public declaration, political action

→ Bows and arrows vs the "unholy trinity": British, zamindars, moneylenders; win back fatherland from Dikus

→ British authority in region collapsed

→ Retaliation: organised force, burned villages, about 50,000 Santhals killed

→ Result: crushed ferociously, but Santhal Parganas created with protections for culture + identity and restrictions on transfer of Santhal land to non-tribals: early protective land law (Prelims 2018)

→ Cross-reference: Bankim's Bharat Mata (Anandmath 1882) = same idea of fatherland to reclaim; Santhals said it in own idiom three decades earlier

PYQ 1998: Santhal (1855) → Mutiny (1857) → Indigo (1859) → Deccan Riot (1875) = (d) 2, 4, 1, 3. Traps: Mutiny first; Indigo and Deccan reversed. PYQ 2018: (c) both: Santhal Parganas created + land transfer to non-Santhals illegal.

Handout figures (check notebook): spells leaders "Sidhu and Kanho" (also PYQ answer slide); text + teacher: Sido and Kanhu Murmu. Figure says Santhal Parganas carved from "Bhagalpur, Bihar to Orissa" (figure-only). Tribal arc figure lists "Chhotanagpur Tenancy Act 1908, Beth Begari banned" as Birsa outcome (not in text or slides), Kol as 1831 (text 1831–32), Khasi after Kandh (class chain: Khasi 1829–33 before Kol). Use dates, not box order.

CHARACTER OF PRE-1857 REVOLTS

📖 Story link · beat 12: Because the revolts were many and scattered, the question is what they add up to: pre-history of nationalism.

Were they modern nationalism? No

→ Modern nationalism = idea of Nation (French Revolution 1789): Fraternity (united), Equality (before law), Liberty / Sovereignty (national interest supreme, not king, caste, class)

Modern politics needs (board A–E, G)

→ A ideology, B goals
→ C plan (long-term), D programme (short-term)
→ E organisation + strong united leadership
→ G money
→ Voice to carry it: fasts, yatras, symbols, flags, slogans, poems, songs, plays, films, graffiti, memes, press, social media, radio, TV

Where revolts fell short

→ 1. Not all-India
→ 2. No coordination
→ 3. Only local leaders (not India first, region second)
→ 4. Lacked proper planning
→ 5. Goal not democracy

Board: consequences of nation idea: polity (democracy, republic, fundamental rights, DPSPs), economy (capitalism: equality of opportunity, right to property, LPG; socialism: land reforms, welfare state), society (feminism as 50% of the nation is female, anti-casteism, no discrimination on religion or language). No letter F on the board; "mmp" = modern nation, modern politics. Teacher: Hitler a "pseudo-nationalist", not a nationalist (denies equality).

🏛️ Why then "pre-history of modern nationalism"? Unmistakably political

→ Ideology: restore the moral order British rule disturbed (immoral rule → oppression → denial of economic, cultural, political rights): different language, same moral architecture
→ Organisation: religion gave unity, leadership, collective action; own governments, courts, taxes (parallel state)
→ Programme: meetings held, plans made

Political awareness

→ Rangpur: grain stores, prison, courts
→ Kols: property, not lives
→ Santhals: "We have always hunted game in these forests. Now we hunt our oppressors."

Political symbolism

→ Public marches + meetings (not secret)
→ Santhal warning 1855
→ Birsa's uprising timed for Christmas 1899
→ Santhal idea of the fatherland

Key takeaway: crimes are committed secretly; politics is done in public. These revolts were public: hence INM leaders called them pre-history of modern nationalism (teacher: not 100% modern but anti-colonial). ⭐

👫 POST-1857 TRIBAL UPRISINGS

📖 Story link · beat 11: Because old grievances lived on after 1857, Birsa and Rampa followed; the verdict (beat 12) comes next.

🎯 Munda Ulugulan 1899–1900, Chhota Nagpur PYQ 2020

→ Leader Birsa Munda; grievances: loss of lands to outsiders, oppression by British officials, missionary activities
→ Religion: believed Birsa had supernatural healing powers and British bullets would turn to water (religion gave courage where reason might say surrender)
→ Symbolism: launched on Christmas 1899: rising against British on the most sacred day of the religion missionaries used to erode Munda identity; crushed
→ Ulgulan = Great Tumult = Birsa Munda's revolt 1899–1900 (Prelims 2020; traps: 1857, Mappila 1921, Indigo 1859–60); Ulugulan = Munda word, Hool = Santhal word; "POST 1857" = last revolt of the chapter

Rampa Rebellion / Fituri, Andhra

📬 Six grievances (Rampa Hills)

→ 1. Commercial exploitation of forests
→ 2. Land acquisition for roads
→ 3. Loss of lands to moneylenders + merchants
→ 4. Ban on Podu cultivation
→ 5. Restriction on forest resources
→ 6. Toddy tax (Abkari)

→ Leadership: Muttadars (local estate holders, roughly poligars / talugdars): elite leaders + popular participation (tribal revolt blending civil-uprising pattern)
→ First phase: started 1870s (map 1879), crushed by 1880

Second phase (Gandhian overlap)

→ 1920: merged into Non-Cooperation Movement; civil disobedience = violation of forest laws, Andhra, under Alluri Sitarama Raju
→ After NCM withdrawal 1922: Raju concluded only force can free India; re-initiated the Fituri (violent rebellion); captured and executed 1924

→ Intersection: tribal economic revolt (1870s) → Gandhi's mass movement (1920) → opposite lesson after withdrawal; Raju = revolutionary martyr of Andhra

Mains close (1857 as culmination): use the three heads on each revolt: grievances (LR, forests, religion), methods (local, violent, parallel states, religion-organised), leadership (elites, peasants, sects, chiefs). Not 100% modern, but political, public, anti-colonial. ⭐

TIMELINE OF THE CHAPTER

📖 Story link · beat 12: So the hundred years read as one chain; know the dates in order.

1760 Sanyasi + Fakir Rebellion begins (peak ~1800, 50,000)	**1770** Great Bengal Famine	**1772** Farming System, Bengal	**1775** Treaty of Faizabad annexes Benaras
1778 Pahariya Revolt; Chait Singh (to 1781)	**1783** Rangpur Rebellion	**1789** Bishnupur + Birbhum	**1793** Permanent Settlement
1799 Wazir Ali 97–98; Poligar (to 1805); Wodeyars restored, SA 1799	**1803** EIC conquers Odisha; Bundela revolts (to 1805)	**1809** Dewan Veluthampi	**1813** Charter Act: monopoly ended, missionaries
1817 Paika Rebellion (core crushed 1818; Jagabandhu surrenders 1825)	**1818** Bhil Revolts (to 1831)	**1822** Ramosi Uprising	**1823** Pagal Panthi (to 1833)
1829 Khasi (to 1833); Sati Abolition Act	**1830** Mysore peasant revolt (to 1831); Faraizi begins	**1831** Titu Mir; Kol (to 1832)	**1837** Kandh under Chakra Bisoi (to 1856)
1840 Moplah revolts begin	**1850** Lex Loci Act	**1855** Santhal Hool (to 1856)	**1856** Hindu Widow Remarriages Act
1857 Revolt of 1857; Mutiny of the Sepoys	**1859** Indigo Revolt; Rent Act 1859	**1870s** Rampa begins (crushed 1880); Faraizi revived (Naya Mian)	**1875** Deccan Riot

Recall drill: cover and answer

Prelims 1998 order?	Santhal 1855, Mutiny 1857, Indigo 1859, Deccan Riot 1875 = (d) 2, 4, 1, 3	Four kinds of revolt and one example each?	Civil (Chait Singh), peasant-led (Rangpur 1783), religion-led (Sanyasi-Fakir), tribal (Santhal)
How LR systems squeezed the ryot?	FS1772 revenue farmer; PS1793 zamindar, abwabs, no occupancy; Rent Act 1859 loophole (12 years); ryotwari/mahalwari auction + moneylender	Indigo: Ryoti vs Tinkathia?	Bengal quarter of plot, Revolt 1859; Bihar 3/20th, Champaran 1917
Forests Act 1878 categories?	Reserved (all prohibited unless permitted), Protected (all permitted unless prohibited), Village (few, revocable); Lytton 76–80	Santhal Hool facts?	Sido + Kanhu Murmu; 1855 warning; Dikus; unholy trinity; ~50,000 killed; Santhal Parganas + land-transfer ban
Paika Rebellion 1817?	Bakshi Jagabandhu; Khurda; sea-salt ban, silver revenue, dethroned Raja; briefly took Puri; surrender 1825	Why pre-history of modern nationalism?	Political and public: ideology (moral order), organisation (religion, parallel states), programme, awareness, symbolism; not modern (local, uncoordinated, not democratic)
Birsa's Ulugulan?	1899–1900 Christmas; bullets turn to water; land loss, missionaries (Prelims 2020)	Rampa / Fituri timeline?	1870s start, crushed 1880; 1920 merged into NCM; 1922 Fituri; Raju executed 1924

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

NCM = National Commission for Minorities — Statutory body under the NCM Act, 1992

FRA = Forest Rights Act, 2006 — Recognises forest rights of Scheduled Tribes and other traditional forest dwellers

ELITE-LED = CIVIL UPRISINGS

THE REVOLT OF 1857

PYQ Prelims 1998, 2000, 2005 (two), 2006 (two) · Mains (year not on slides): 1857 as culmination of recurrent rebellions; 1857 as a watershed in British policy

✎ *Pressed on every side, the sepoys and ruined villages rose together. They lost for lack of money, command and unity. The Crown rebuilt army, police and services to stop a repeat, and shut out the WEMC, who then began nationalism.*

📖 THE STORY FIRST (same story as the textbook)

Pressed on every side (pay, caste, Awadh, land, religion), the Bengal Army and the dispossessed villages rose together; they lost for lack of money, command and unity; and the Crown that replaced the Company rebuilt the army, police and services to prevent a repeat, shutting the very door that created modern nationalism.

1. **A village in uniform.** Bengal Army: biggest, upper-caste sepoys from Awadh and Bihar, Indians far outnumber British. Sepoy is a peasant in uniform: low pay, called Suar, stuck at Subedar, 60 to 70 rupees.
   → But the British were about to press on every sore at once.
2. **1856: four blows.** 1856: pay cut, no allowance for far service (money and caste loss). Awadh annexed. Widows' Remarriage Act. Canning 56–62: Mughals only 'Princes'.
   → All that was missing was a spark.
3. **The fat on the cartridge.** New Enfield cartridge greased with cow and pig fat, bitten before loading. Bone dust rumours, missionaries since 1813. Sepoys fear attack on faith. Cartridge was only the trigger.
   → And the first sepoy fired.
4. **Barrackpur to Delhi.** 29 March 1857: Mangal Pandey, 34th BNI, fires; hanged 8 April. 10 May Meerut, 11 May Delhi: Bahadur Shah Zafar 37–57 proclaimed Emperor; held till 20 September. British monopoly of violence broken.

→ Now the villages were waiting.

5. **The village joins.** Lapse and annexation ruined rulers; Mahalwari ruined talukdars; revenue and moneylenders ruined peasants; British goods ruined artisans. All feared for religion: 1813, Sati 1829, Lex Loci 1850, Widows 1856.
→ Each region found its leader in the dispossessed.

6. **Lamps in eight hands.** Nana Sahib Kanpur, Hazrat Mahal Lucknow, Lakshmi Bai Jhansi, Kunwar Singh Jagdishpur, Zafar Delhi, Tantia Tope guerrilla. Lakshmi Bai dies June 1858; Tope hanged April 1859; Zafar dies 1862.
→ Yet eight lamps are not one flame.

7. **Why the flame went out.** Rebels: no money, weapons or central command. All sepoys went to Delhi, so Delhi's fall was the revolt's fall. No telegraph; Bombay and Madras quiet; Punjabis and Gurkhas helped British.
→ Whatever it was, what do we call it?

8. **Mutiny, war or more?.** Colonial view: sepoy mutiny. Savarkar (1909) and Marx: war of independence. Mainstream: more than a mutiny, but no modern nationalism. Against: Scam B areas, no manifesto. For: common enemy, Hindu–Muslim unity.
→ Whatever the name, Britain could not go back to the Company.

9. **The Crown takes over.** GOI Act 1858 ends EIC: Queen Victoria sovereign, Secretary of State. 1 November 1858 Proclamation: tolerance, no more annexations, British India 63%. Indians seen as inferior; harsher rule.
→ And the state itself was rebuilt: police, services, army.

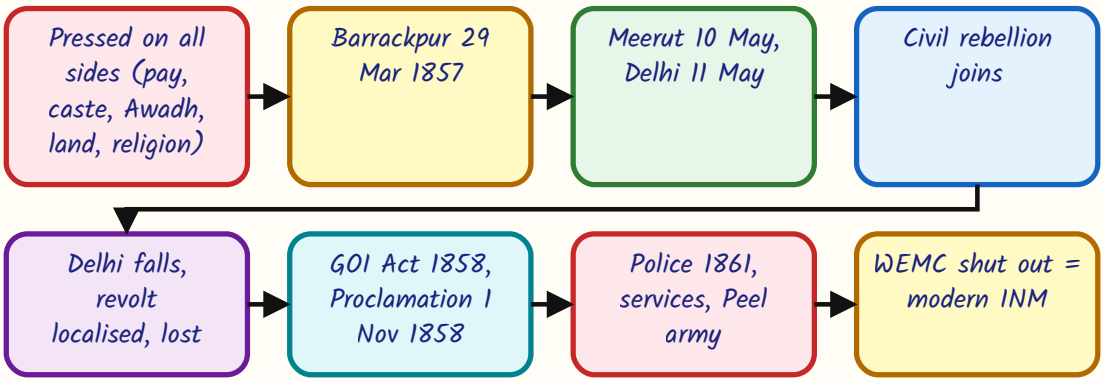

10. **A Police Raj and a shut door.** Canning 56–62: Police Commission 1860, Police Act March 1861, Indians kept out of key posts. Exam in London, age 19 to 23; Lytton 76–80's Statutory Civil Service takes chosen elites.
→ But the deepest reform was the army.

11. **The coup-proof army.** Peel Commission (July 1858, report March 1859), European Forces (India) Act 1860. Ratios 1:2 Bengal, 1:3 Madras and Bombay; no Indian artillery. Mixed regiments, martial races, kept in barracks.
→ Yet the shut door had made a new class.

12. **The door that made its own key.** WEMC, taught British liberalism, wanted a share and was locked out. That anger seeded the modern nationalist INM; by 1929 Purna Swaraj. 1857 was the hinge.

Cast: Mangal Pandey = The First Shot · Bahadur Shah Zafar 37–57 = The Last Mughal · Nana Sahib = The Denied Heir · Begum Hazrat Mahal = The Lucknow Begum · Rani Lakshmi Bai = The Fighting Queen · Kunwar Singh = The Bihar Zamindar · Tantia Tope = The Guerrilla · Man Singh = The Betrayer · Canning 56–62 = The Governor-General · Lytton 76–80 = The Co-opter · Jonathan Peel = The Army Reformer · The WEMC = The Shut-out Class

At a glance: the route of the chapter

DEFINITION: TWO STREAMS

📖 Story link · beat 1: Because the revolt had two streams, the story has two: the barracks of the Bengal Army, and the villages.

Stream	Who	Fact to hold
Sepoy Mutiny	Sepoys of the Bengal Army	Largest of 3 armies (Bengal, Bombay, Madras smaller)
Civil Rebellion	Dispossessed elites, talukdars, peasants	All believed religion was under threat, even non-participants
Formula	1857 = Sepoy Mutiny + Civil Rebellion	Teacher ticks this; common people led by traditional elites (ex-rajas, Mansabdars, talukdars); Imp for Pre + Mains

Why Bengal Army, not Bombay/ Madras?

→ Largest army
→ Ratio of British to Indians lowest there
→ Mostly upper caste = caste unity + common grievances with home villages
→ Even non-participants felt religion under threat

Source conflict: question bank says Bengal Army had the highest ratio of British to Indians; handout and teacher say lowest. Teacher and handout win.

THE OPENING SHOTS

📖 Story link · beat 4: Because grievances had piled up, one shot was enough: Barrackpur, Meerut, Delhi. Now the villages were waiting.

29 Mar 1857
Mangal Pandey, 34th Bengal Native Infantry (BNI), Barrackpur near Calcutta, fires at European officers; fellows refuse to arrest him

8 Apr
Pandey hanged

22 Apr
Jemadar Ishwari Prasad (refused to restrain Pandey) hanged; 34th BNI disbanded

10 May
Sepoys mutiny at Meerut

11 May
March to Delhi; proclaim Bahadur Shah Zafar 37–57 (last Mughal) Emperor of Hindustan

End May
Spreads over NWP and Awadh; civil population joins

20 Sep 1857
Delhi recaptured (handout figure); British rule collapsed over large swathe of north + central India until spring 1858

Key takeaway: first time in a century the British monopoly over organised violence was broken; violence on both sides enormous. ⭐

WHY THE SEPOYS MUTINIED

📖 Story link · beat 2: Because the sepoy is a peasant in uniform, every wound (pay, caste, Awadh, land) is his own; the cartridge only triggers.

Sepoy = peasant IN uniform (teacher: the sepoy removed the uniform to be a peasant again). Peasant family's first livelihood = farming; step 2 = EIC sepoy. In an agrarian economy the masses are peasants.

📬 3.1 Service grievances

→ Racism: far less pay than Europeans, smaller pensions, slurs ("Suar" = pigs)
→ Top Indian rank Subedar: only Rs 60–70 a month
→ Economic: salaries cut to offset war spending; 1856 allowance for serving outside home region abolished
→ Allowance = economic blow + religious insult (far service, crossing water = loss of caste)

→ Handout figure only: General Service Enlistment Act 1856 = foreign-service rule behind the caste fear

🎯 3.2 Socio-religious chain (whole chain examinable)

→ Early: recruited upper castes, respected caste customs = Orientalism (rule India the Indian way)

→ Expansion, army more heterogeneous, caste customs inconvenient; British want uniform army culture, loyalty to employer

Four pressures

→ i caste privileges reduced (food, religious symbols, right to refuse polluting regions)

→ ii forced service in Burma, Sindh, Afghanistan = loss of caste; refusers dismissed/punished

→ iii missionaries in cantonments since Charter Act 1813 = conversion fear

→ iv rumours: cow + pig bone dust in flour; Enfield cartridges (replaced Brown Bess musket) greased with cow + pig fat, bitten before loading

→ Fear: British engineering loss of Hindu + Muslim identity (figure: rifle label Enfield P-53)

3.3 Political: Awadh

→ Largest single source of Bengal Army recruits; nearly every family had a member in it (plus some Bihar upper castes: Brahmins, Bhumihars)

→ Annexation 1856 = personal betrayal; ground = maladministration

→ Teacher's rule "Bor DnR": do not keep sepoys from a State in that State's army

Awadh taken in two bites

→ 1801: Doab, Gorakhpur, Rohilkhand (Subsidiary Alliance) = Ceded Districts; Mahalwari 1822

→ 1856: the rest; Summary Settlement (no detailed field survey)

Names

→ Ceded Districts = NWP 1836

→ 1877 NWP and Oudh

→ 1902 UP of Agra and Oudh

→ 1937 United Provinces

3.4 Agrarian

→ i Summary settlements: LR without field surveys, unreasonable

→ ii Lands auctioned by government or lost to moneylenders

→ iii New British courts backed moneylenders

→ iv His family's wounds

Trigger vs cause: greased cartridge = only the TRIGGER; MULTIPLE reasons. Revolt began in Bengal Army because upper-caste identity was best preserved there and British:Indian ratio lowest; Bombay + Madras armies heterogeneous = less caste unity. ⭐

Trap: Awadh was annexed on maladministration (1856), NOT Doctrine of Lapse (Jhansi was Lapse). Question bank wording ("under Doctrine of Lapse") is wrong; teacher and handout win.

WHY THE CIVIL POPULATION REBELLED

📖 Story link · beat 5: Because the same policies ruined elites, talvqdars and peasants, each region found its leader among the dispossessed.

Civil rebellion (N + Central India)

LEADERS = ex-rajas + Mansabdars

→ Lost status by annexation + Doctrine of Lapse: political, economic (no jagirs, no Khalisa land), social (rule of law, equality before law)

→ Whole dependent court aristocracy fell too; had motive + private resources

Zamindars (Talvqdars)

→ Economic: Mahalwari (lost milkiyat = ownership; rights to actual cultivators)

→ Social: equality before law

→ Political/military: private forts + armies disbanded

→ Lost economically, militarily, socially: joined the peasants

FOLLOWERS = peasants + artisans

→ Peasants: higher LR, debt, loss of land, occupancy rights gone, British courts sided with moneylender = villain of 1857 with the British beside him; anger at both

→ Artisans: Industrial Revolution (1750–1850) Britain; economy exposed via Charter Act 1813; British goods cheaper in rupees (MRP), later better = destruction of Indian industry

Leader	Centre	Hold
Nana Sahib	Kanpur	Adopted son of Baji Rao II 96–18, denied pension (Baji Rao II 96–18 sent to Bithur (Kanpur) with pension after 3rd Anglo-Maratha War 1817–19); Tantia Tope his deputy; escaped to Nepal (slide)
Begum Hazrat Mahal	Lucknow	Wife of deposed Nawab Wajid Ali Shah (maladministration)
Khan Bahadur Khan Rohilla	Bareilly	Rohilkhand annexed with half of Awadh (1801)
Rani Lakshmi Bai	Jhansi	Doctrine of Lapse (teacher writes 1854); died in battle at Gwalior 17–18 June 1858
Maulvi Ahmadullah Shah	Faizabad	Fiery religious leader, Hindu + Muslim support; formidable in Awadh
Kunwar Singh	Jagdishpur, Bihar PYQ 2005	Zamindar ruined by sunset clause of PS 1793 (forfeiture on non-payment by fixed deadline); brother Amar Singh; guerrilla warfare; died of wounds Apr 1858 (slide)
Bahadur Shah Zafar 37–57	Delhi	Canning 56–62 announced 1856 Mughals only "Princes", vacate Red Fort; captured, tried, exiled to Rangoon, died 1862
🎯 Tantia Tope PYQ 2006	Central India	Nana Sahib's ablest commander, greatest guerrilla; refused to surrender after Kanpur + Jhansi; betrayed by friend Man Singh, hanged April 1859

Handout flowchart extras (figure only): Azimullah Khan (Nana Sahib + Tantia Tope, Kanpur), Bakht Khan (Delhi), Birjis Qadr (with Hazrat Mahal, Lucknow); dates 20 Sep 1857 Delhi recaptured, April 1858 Jhansi falls. Cause flowchart adds Charter Act 1853 exam bar, Mughal "Princes" demotion. Teacher's exam words: Amar Singh, guerrilla, Doctrine of Lapse, Central India, "betrayed by friend". Main zone NWP + Awadh; Kota = exception in loyal Rajputana.

→ i missionaries since 1813, at times under police protection

→ Sati Abolition Act 1829

📚 4.4 Religion: fear shared by all (fear not invented)

🔧 ii reforms raised anxiety

→ Hindu Widows' Remarriage Act 1856

→ Removal of Caste and Religious Disabilities Act 1850 = Lex Loci Act ("law of the place"): converts keep inheritance = incentive to convert

→ iii tax on revenue-free lands of mosques, temples, sects

→ iv Pundits and Maulvis gave voice

→ Goal: restore what was lost (disrupted right political, economic, social, religious order)

Teacher's 3 lines: conversions threaten the "order" = way of life; commodification of land = landlessness (absent pre-British); Lapse + annexation = loss of elite status. ⭐

WHY THE BRITISH WON

📖 Story link · beat 7: Because rebels had no money, no command and all went to Delhi, the flame went out.

War-victory formula (teacher): 1st Panipat 1526 = technology; 3rd Panipat 1761 = alliance, numbers, unity; 3rd Carnatic War 1756–63 = military + rupees; Marathas by 1770s = tactics + geography + leadership. 1857: railways + telegraph vs primitive weapons. Factors: tech, unity, military + money, tactics + geography + leadership. ✅

#	Handout's eight reasons	Theme
5.1	No financial resources	Money
5.2	Peasants lacked modern weapons + training	Tech/army
5.3	British: superior leadership, centralised bureaucracy, professional army, telegraph network	Leadership/ org
5.4	No central command, regional leaders uncoordinated	Org
5.5	Tactical error: all went to Delhi; Delhi fell = symbolic heart fell (defeat of Delhi = defeat of sepoy mutiny = defeat of 1857)	Tactics
5.6	Fragmented + localised; beaten one at a time; no telegraph control, help did not come	Unity
5.7	Whole army did not revolt: Bombay + Madras quiet; Punjabi + Gurkha helped British (about half mutinied)	Unity
5.8	Civil rebellion confined to N + central India	Unity

Who stayed out (board): those who kept milkiyat; kings not annexed; WEMC (new jobs); Bombay + Madras armies; Punjab (canals of 1850s); Bengal (zamindars); Madras; Bombay (Ryotwari + cotton cash crop; Bombay Survey System, Wingate settlement). On Swadharma we won (Nov 1858 Proclamation); on Swaraj we lost. ⭐

WAR OF INDEPENDENCE: THE DEBATE

📖 Story link · beat 8: Because the revolt was so large, historians argue its name; whatever it was called, Britain could not go back to the Company.

View	Position
Colonial	Primarily sepoy mutiny; civil rebellion = lawless elements
V.D. Savarkar (1909 book, The Indian War of Independence) + Karl Marx	Fought for Swadharma + Swaraj; Marx: nationalist revolt (slide: anti-colonial revolt)
🎯 Mainstream	Far more than a mutiny, but modern nationalism absent; not a war of independence in the modern sense

Modern nationalism needs: nation = sum of equal people with common identity; power with the people (democracy/republic, not monarchy); Liberty, Equality, Fraternity. 1857 falls short. Teacher's line: Colonial end to 100% Nationalist end; "our position" slightly nearer nationalist. Random link: Hind Swaraj 1909, same year as Savarkar. 💡

Source conflict: Marx = "nationalist revolt" (handout, question bank) vs "anti-colonial revolt" (slide). Both = sided with rebels; use handout wording. 📌

👫 AGAINST (6.2)

i Whole India did not take part

a Ryotwari areas: Sindh, Coorg, Assam, Madras, Bombay → ryots became landowners

→ b Punjab: middle-class peasants gained from canals

→ c Bengal: zamindars gained from PS 1793

ii Beneficiaries stayed out

→ WEMC (Western Educated Middle Class): modernisation, jobs, status PYQ 1998

→ Princes not annexed, e.g. Rajput Kings PYQ 2005

Exception Kota (Rajputana)

→ Led by Lala Jaidayal + Mehrab Khan

→ Rebels took the city, held own King hostage in palace 6 months

→ Killed Political Agent Major Charles Burton

→ Reconquered only 1858

→ iii Talukdars who kept land stayed out

→ iv Whole army did not revolt

→ v Spontaneous: no plan, manifesto, coordination (organisation = Fraternity)

→ vi Goal = restore old order (monarchs, feudal lords), not republic

SCAM B – Sindh · Coorg · Assam · Madras · Bombay = Ryotwari areas that stayed out (teacher's)

Prelims 1998 (WEMC): opposed ideologically yes, militarily no = not neutral, only militarily neutral; (a) opposed is right. Prelims 2005 Chittor: loyal Rajput princes = NOT affected; Jhansi, Jagdishpur, Lucknow major theatres; Kota is the exception, do not confuse with Chittor.

FOR: much more than a mutiny (6.3)

→ i Common enemy: annexations, high LR, land loss, moneylenders + EIC officials, destruction of industry

→ ii Sepoys' declarations: high LR, higher Chowkidari tax, unemployed artisans + learned men, toll taxes on roads, falling status of ruling class = speaking for all Indians

→ iii Hindu-Muslim unity; Aitchison PYQ 2000: "could not play off the Mohammedans against the Hindus"; hence divide and rule after 1857

→ iv Wanted British out of all Hindustan (= fraternity, embryonic national consciousness)

→ v Regional leaders did communicate

→ vi Not 17th-century centralised Mughal rule but 18th-century decentralised set-up: power in provinces, weak symbolic emperor (early federalism)

→ vii Elites pushed into leadership: Zafar 37-57, Nana Sahib, Rani of Jhansi

→ viii Peasants + artisans fought on after talukdars surrendered

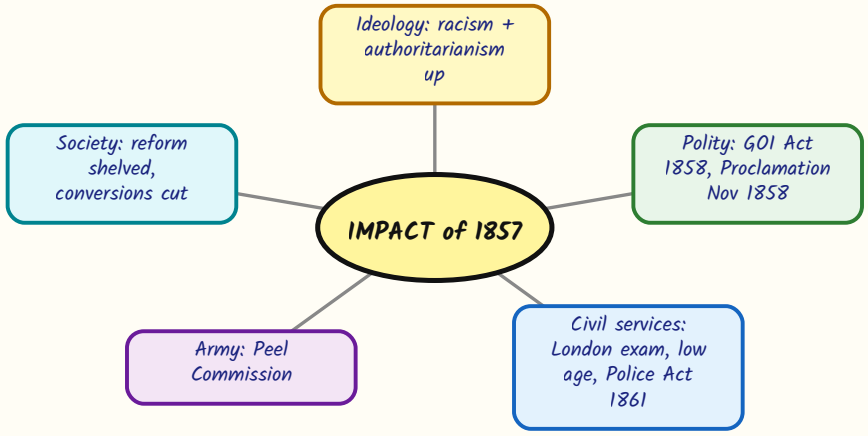

→ ix Sepoy took off uniform: initiative returned to common people

Prelims 2000: (a) 1857 right; (b) NA; (c) Khilafat + NCM = true but mismatch with Aitchison (unity ~60 yrs later); (d) 1942 false (about 90 yrs later). Options were Revolt of 1857, Champaran 1917, Khilafat and NCM 1919–22, August Movement 1942 (QIM 1942–45). Random link: Aitchison Report split services into AIS, PCS, SUB CS.

🎯 WHY 1857 IS A WATERSHED PYQ Mains

📖 Story link · beat 9: Because the Company failed, the Crown took over and rebuilt the state: police, services, then the army.

🎯 Teacher's five-branch board (Mains)

7.1 Political: end of EIC

→ EIC blamed in Britain; end of absentee sovereignty (real sovereign absent, ruled via agent EIC)

📜 GOI Act 1858 (Act for Better Government of India)

→ Queen Victoria sovereign: direct Crown rule, paramountcy over princes

→ Secretary of State for India (full Cabinet member) replaced President of Board of Control

→ Kaiser-i-Hind, Empress of India: Royal Titles Act 1876, proclaimed Delhi Durbar 1877 (Victoria used it informally since 1858)

1 Nov 1858 Proclamation

→ Religious tolerance, rule by India's traditions + customs

→ Socio-religious reform + promotion of Christianity shelved

→ "No more annexations"; Mughal empire ended legally; British India = 63% of territory (as Ch 10)

→ Swadharma victory = "we won"

Prelims 2006 (Governor-General in Mutiny): Canning 56–62; Bentinck 28–35 two decades earlier; Lytton 76–80 two decades later; Hardinge 10–16 (teacher's code). Canning first Viceroy 1858 (same man, two titles). Method: reign-years beside options.

Source doubt: the exam-lens alert on the Hardinge 10–16 code is cited in the chapter but not present. Keep the teacher's four codes as written.

7.2 Ideological

→ Indians seen as racially inferior, incapable, beyond reform; more autocratic; no senior role in bureaucracy, police, army

→ Backfired: WEMC (British education, liberalism) shut out = seed of modern nationalism-based INM (2nd half 19th century)

→ British locked the door and created the class that broke it; a class that stood with them in 1857 turned nationalist

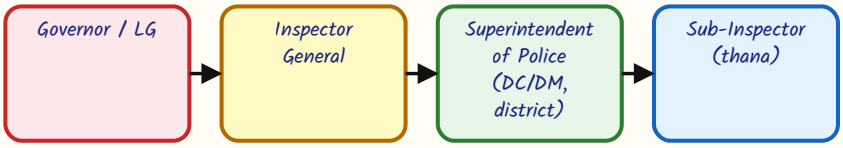

7.3 Policing ("Police Raj"; Indians excluded from important posts)

→ 1st Police Commission 1860: Canning 56–62, M.H. Court

→ Police Act, March 1861: proper provincial structure, chain of command for first time

→

Chain of command

7.4 Civil services

→ i Exam from Charter Act 1853 (first held 1855), now not simultaneous in India (London)

→ ii Max age 19–23: Indians too old before ready

→ iii Statutory Civil Service: Act 1870, implemented 1878 by Lytton 76–80; nominated loyal hand-picked elites to CCS posts = co-option, not inclusion

→ Teacher's board: UCS 1833 (sad face), CCS 1853 (smiley)

Source conflict (Statutory Civil Service): handout 1870 (Act), implemented 1878 by Lytton 76–80; slide: rules of 1879 under GOI Act 1870. Handout wins; note 1879 if asked. Handout flowchart ties age cap to Lytton 76–80, text + slide tie it to post-1857 policy; treat Lytton 76–80 as Statutory Civil Service man.

Handout aftermath flowchart (figure): Indian Councils Act 1861 beside Police Act 1861 (Ch 25); Princely States preserved, no more Lapse; ends with divide and rule intensified, communal policies, economic exploitation deepens.

👑 THE ARMY: PEEL COMMISSION

📖 **Story link · beat 11:** Because the revolt was at its core a military mutiny, the last and deepest reform was a coup-proof army.

Background (board): (1) three regional armies Bombay, Madras, Bengal = no unity; (2) no caste-based unity in the new army; (3) no very low British:Indian ratio; (4) reward the loyal: Punjab, princes, zamindars. Goal: "coup-proof" army; 1857 at core a military mutiny.

👑 Peel Commission

→ Royal Commission on Reorganisation of the Indian Army: appointed July 1858, report March 1859

→ Head Major-General Jonathan Peel, also Secretary of State for War (1858–59); younger brother of Sir Robert Peel (PM who created modern London police)

→ Implemented by legislation + executive military orders

#	Recommendation	Detail
8.1	European Forces (India) Act 1860	Abolished EIC's separate European army, merged into Crown Army; brief "White Mutiny" (no bounty)
8.2	Fixed ratios (War Office directives)	Bengal Army 1:2; Madras + Bombay 1:3 (British:Indian)
8.3	Artillery monopoly	Indians barred from artillery and heavy weapons
8.4	Divide and rule regiments	Mix of castes, religions, ethnicities; inter-regional contact discouraged
8.5	Martial races	Jats, Rajputs, Sikhs, Gurkhas: loyal, brave, but not leaders; loyal regions favoured
8.6	Namak ka haq	Loyalty to the salt + community honour

8.7	Large permanent standing army	Counter future revolts
8.8	Minimum/no Indians in senior posts	
8.9	Financial control under civilian authority	"Checks and balance"
8.10	Army deployed vs INM + peasant revolts	Sepoys kept in barracks, little political exposure

Teacher's answer words: Royal Commission, Jonathan Peel, prevent repeat of 1857, Act 1860 (year stressed), ratios 1:2 and 1:3, artillery barred, deliberate caste mix. **The hinge:** Company State to Crown Rule; Indians excluded from senior services; racism + authoritarianism pushed the WEMC to begin modern INM, demanding rights + constitutional regime; by 1929 = Purna Swaraj.

1750–1850
Industrial Revolution, Britain

1801
Half of Awadh ceded

1813
Charter Act: missionaries

1817–19
3rd Anglo-Maratha War

In the news · September 2026 (verify dates) Personalities in news: anniversaries, September 2026.

Recall drill: cover and answer

Formula of 1857?	Sepoy Mutiny + Civil Rebellion; peasant in uniform	Dates of the opening shots?	29 Mar Barrackpur, 8 Apr Pandey hanged, 22 Apr Ishwari Prasad + 34th BNI disbanded, 10 May Meerut, 11 May Delhi, 20 Sep Delhi retaken
Awadh annexation: ground and year?	1856, maladministration (NOT Lapse); 1801 half ceded; Bor DnR	Kunwar Singh / Tantia Tope?	Jagdishpur, Bihar (PS 1793 sunset clause); Tope betrayed by Man Singh, hanged Apr 1859
Why the British won?	No money, no command, Delhi mistake, localised, half army loyal (Punjabi, Gurkha), no weapons, no telegraph	Why Chittor and Kota?	Chittor loyal, not affected; Kota (Jaidayal, Mehrab Khan) rose, Burton killed, retaken 1858
GOI Act 1858 and Proclamation?	Crown rule, Secretary of State, 1 Nov 1858 tolerance + no annexations	Police chain 1861?	Governor/LG, IG, SP (DC/DM), Sub-Inspector; Commission 1860 Canning 56–62, M.H. Court
Peel Commission facts?	Jul 1858 appointed, Mar 1859 report, Jonathan Peel; Act 1860; 1:2 Bengal, 1:3 Madras + Bombay; artillery barred; martial races	Statutory Civil Service?	Act 1870, 1878 Lytton 76–80, nomination of loyalists; exam age 19–23, London

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

NCM = National Commission for Minorities — Statutory body under the NCM Act, 1992

LG = Lieutenant Governor — Administrator of certain Union Territories

DM = District Magistrate (or Disaster Management, by context) — Head of district administration; in GS3, the DM Act, 2005 sets up disaster bodies

AIS = All India Services — IAS, IPS and Indian Forest Service, created under Art 312 and shared by Union and States

PM = Prime Minister — Head of the Union government

BNI = Bengal Native Infantry

PEASANT REVOLTS AFTER 1857

PYQ Prelims 2020 · No Mains PYQ on slides (practice: rehearsal view, WEMC role)

After 1857 peasants used the master's law and the educated gave them a voice. Each revolt (Indigo, Pabna, Deccan, Punjab) ended in legal relief and left organisation behind: the rehearsal for the national movement.

THE STORY FIRST (same story as the textbook)

The peasant now used the master's law and the educated gave him a voice, so each revolt (Indigo, Pabna, Deccan, Punjab) ended in a legal relief and left behind organisation and voice: the rehearsal, and the soil, for the national movement.

1. **1857 changes the way of resisting.** After 1857 peasants went to court and organised, using colonial law against colonial rule. The WEMC spoke for the ryot in press, courts, associations. Courts, press, peaceful protest come first.
   → So the first great test came in Bengal, over a blue dye.
2. **1788: a trap that looked like a contract.** 1788: EIC loans to ten European planters. Nij cost too much, so Ryoti: lease from zamindars, contract ryots to grow indigo on 25% of land, with loans and seed drills.
   → But the contract turned into a noose.
3. **The squeeze.** Indigo ruined soil, price not paying, ryot borrowed to repay loans. Stock Exchange crisis cut prices; a sympathetic Lieutenant Governor told Collectors to side with ryots.
   → So the ryots finally had room to act.
4. **The ryots go to court.** Ryots refused loans and indigo, boycotted planters' agents, withheld rent when sued. On eviction they organised and went to court under the Rent Act of 1859: Non-Cooperation before Gandhi.
   → Then the educated took up their pens.

5. **The educated join.** DeenBandhu Mitra's Neel Darpan (1860): Datta translated, James Long published; Long fined Rs 1,000 (Kaliprasanna Sinha paid), jailed a month. Hindu Patriot, Somprakash and BrIA (1851) backed ryots.
→ Now the system had to give way, but not all at once.

6. **Indigo ends slowly.** Indigo Commission (1860): honour old contracts, refuse new. By 1863 Tinkathia in Bihar (3/20th). BASF synthetic indigo 1897 (Prelims 2020) killed it; Champaran (1917), Act 1918 ended Tinkathia.
→ Meanwhile in Bengal another villain appeared: not a European, but an Indian zamindar.

7. **Pabna, 1873: a league and a split.** Zamindars broke Rent Act 1859 rights: illegal rents, Abwabs. Ryots formed Agrarian Leagues (Ishan Chandra Roy); WEMC split. Ripon 80–84's Rent Commission (1880), Tenancy Act 1885: rights after 12 years.
→ Now across to the Deccan, where the villain was the moneylender.

8. **The Deccan's bond trap.** No-tax 1873–74. Limitation Law 1859 allowed 3 years' interest, so moneylenders made fresh bonds. Poona Sarvajanik Sabha (1870): 17,000 signatures. 1875: ryots burned bonds, not lives. Relief Act 1879.
→ Then to Punjab, where religion and canals shaped the revolt.

9. **Punjab: a sect and a canal bill.** Namdhari (Kuka) sect, Baba Ram Singh, exiled to Burma 1872 (not imp). 1907 canal colony bill: Lahore Indian Association, Arya Samaj, Singh Sabha; British withdrew it, fearing the Punjab-recruited Army.
→ Put the pieces together and a pattern shows.

10. **The rehearsal.** Peasants organised, used colonial law, found WEMC voice. Not yet the national movement but its soil: non-cooperation, no-tax, boycott, legal challenge, all rehearsed before Champaran (1917).

Cast: DeenBandhu Mitra = The Playwright · Michael Madhusudhan Datta = The Translator · James Long = The Publisher · Kaliprasanna Sinha = The Fine-Payer · Ishan Chandra Roy = The Replicator · Surendra Nath Bannerjea (SNB) = The Ryots' Editor · Ripon 80–84 = The Commissioner · Ranade = The Sabha's Man · Baba Ram Singh = The Kuka Chief · Mahatma Gandhi = The Closer · European planters = The Planters

At a glance: the four theatres

FRAME AND WHAT CHANGED AFTER 1857

📖 Story link · beat 1: Because 1857 failed as a war, resistance changed tools: law and organisation, with the WEMC lending a voice.

Teacher's frame: revolts of the plains / mainstream society (vs tribal, Ch 20); new actor WEMC carries Western polity: FRs, NTWR (No Taxation Without Representation), Democracy. English roots: 1688 King cannot rule without consent (Parliament); Charles I taxed without consent, Civil War 1642–51, beheaded. "Peasants = masses; nation = sum of people." (board ink partly illegible)

🆕 Two new features

📜 1 Awareness of British laws + institutions
→ Filed court cases, organised; used colonial legal system against itself
→ Teacher: think State structure (law-making, executing, judging organs, Ch 8)

2 WEMC took up peasant causes
→ English-educated lawyers, writers, journalists, reformers: in English newspapers, courts, public associations
→ Peasant no longer alone

"Recall Modern Politics" (starred): pre-1857 revolts had no clear ideology, plan, organisation, united strength or voice of the people; no ORG name pre-1857. Post-1857 named bodies: Pabna Agrarian Leagues, Poona Sarvajanik Sabha, Lahore Indian Association.

Modern method = a ladder (teacher): (1) exhaust non-violent (NV) methods: courts, press, peaceful protest; (2) violent protests; (3) revolutionary methods (Bhagat Singh = modern nationalist). 1857 rebels wanted monarchy = feudal, not modern nationalists. Modern is not non-violent: the order and goal (rights, representation, democracy, nation of all) matter.

INDIGO REVOLT 1859-63 PYQ 2020

Story link · beat 2: Because the new tools needed a first test, Bengal's indigo ryots go first: contract, trap, squeeze, court, voice, end.

Origin

→ 1788: EIC gave loans to ten European planters (not local zamindars) = preferential treatment; teacher dates under Cornwallis 86-93 ("CW 86-93")

→ After PS 1793 zamindars large landowners, land a commodity: planter could lease from zamindar

	Nij	Ryoti (Bengal)
Who farms	Planter himself	Tenant ryots under contract
Land	Bought directly	Leased from zamindars
Point	Costly, complicated (tracts, labour, bullocks, ploughs); hence shift	Money chain: ryot pays rent to planter, planter lease to zamindar (Z), Z pays LR to State

Ryoti: three conditions (a trap)

→ (i) Indigo on at least 25% of occupied land (one quarter)

→ (ii) Planter gives low-interest loans + sells seeds + seed drills

→ (iii) Planter buys the crop

Grievances

→ Indigo destroyed soil fertility (food crops fall)

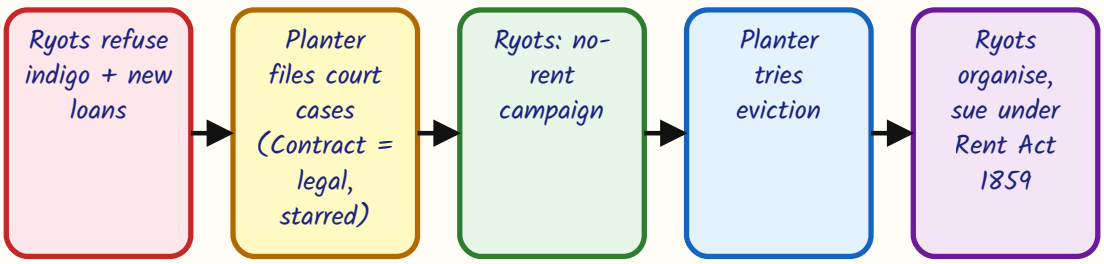

→ Price not remunerative; perpetual debt (new loan to repay old); planter could evict (de-facto zamindar); tied "by force of finance"

Two triggers

→ International: global indigo prices fell (Stock Exchange financial crisis, British slowdown, demand dropped); planters offered even less

→ Administrative: sympathetic Lieutenant Governor of Bengal told Collectors to side with ryots (forced cultivation against free-market spirit); post created 1854 via Charter Act 1853

What the ryots did (teacher's sequence)

Handout's four actions: (i) refused loans + indigo; (ii) social boycott of planters' Indian agents (Non-Cooperation before Gandhi); (iii) no-rent when planters went to court; (iv) court for occupancy rights under Rent Act 1859 (ryot a tenant after PS 1793). Both sides used law; ryots won only when organised + armed with a tenant-protecting law.

⚡ Role of WEMC (spirit of Fraternity)

→ 1860 Neel Darpan (Blue Mirror) by DeenBandhu Mitra
→ Michael Madhusudhan Datta translated into English; missionary James Long published it
→ Planters sued Long for libel (maan-haani): convicted, fine Rs 1,000 (paid by Kaliprasanna Sinha), 1 month prison
→ Hindu Patriot (English) + Somprakash (Bengali) editorials for ryots
→ British Indian Association (1851), educated zamindars, supported (resented European planters)
→ Teacher: "E to Voice"; name hints newspaper language

Result

→ Indigo Commission 1860: honour existing contracts, free to refuse future ones
→ 1863 shifted Bengal to Bihar = Tinkathia: forced indigo on 3/20th of occupied land (25% = 5/20, so smaller share; handout calls it essentially Ryoti)
→ 1897 BASF (Germany) synthetic indigo: cheaper, consistent, demand collapsed = death blow PYQ 2020
→ WWI 1914-19: German dye unavailable, short revival for natural indigo (teacher); BASF 1897 remains long-term cause
→ 1917 Champaran Satyagraha (Mahatma Gandhi), Champaran Agrarian Act 1918 ended Tinkathia

Prelims 2020 trap: (b) unprofitability from new inventions is right. (a) peasant resistance ended forced cultivation in Bengal but did not cause the 20th-century decline; (c) leaders = Champaran 1917-18, after decline began; (d) Indigo Commission 1860 only settled contracts.

PABNA AGRARIAN LEAGUES 1873 (BENGAL)

📖 Story link · beat 7: Because the Rent Act 1859 gave rights that zamindars then broke, a new villain appears: not a European, an Indian zamindar.

Pabna

→ Rent Act 1859 gave occupancy rights (no arbitrary eviction); zamindars violated them
→ Illegal rent rises; illegal cesses = Abwabs; evictions before 12 years to block the right
→ Enemy = Indian zamindar (indigo: European planter)
→ Agrarian Leagues: formal collective structure, pooled money for court cases; Ishan Chandra Roy replicated in neighbouring districts (teacher: League = an ORG, e.g. LoN 1920)

WEMC split	Papers
For zamindars	Hindu Patriot (English), Amrita Bazar Patrika (Bengali + English)
For ryots	Bengalee (English) edited by Surendra Nath Bannerjea (SNB); Anglo-Indian press (an Indian landlord under attack, not a peasant defying a European)

Why WEMC split (teacher): follow the money. 1835 Western education costly, only rich (zamindar) parents could afford it: zamindar to son to WEMC. Selfish interest >> larger interest. Hindu Patriot changed sides (indigo for ryots; Pabna for zamindars). Amrita Bazar Patrika 1878 turned English (Ch 19).

Anglo-Indian vs Eurasian: before 1911 Census Anglo-Indian = European living in India, Eurasian = mixed descent; 1911 flipped it. In Pabna, Anglo-Indian press = European-run press.

📜 Result: Bengal Tenancy Act 1885

→ Ripon 80-84 set up Rent Commission 1880 (handout writes Ripon (1880-84), no code)

→ Occupancy rights to ryots who cultivated plots in the same village continuously for more than 12 years

→ Properly implemented: genuine relief

MAHARASHTRA

📖 Story link · beat 8: Now across to the Deccan, where land revenue and debt make the villain the moneylender, and the ryots burn bonds.

1861-65
US Civil War: US cotton supply fell, price + demand for Indian cotton rose, ryot happy; after war reversed (teacher, not in handout)

1870
Poona Sarvajanik Sabha

1873-74
No-tax campaign vs LR hike (revision after 30 years, Ryotwari Bombay)

1875
Bombay Deccan Riots

1879
Deccan Agriculturists Relief Act

1896-97
2nd no-tax campaign: no remission despite crop failure (in Ryotwari bad harvest = lower LR)

Deccan Riots 1875

→ Grievances: high LR (Ryotwari), moneylenders, land loss

→ Limitation Law 1859 (Bombay): interest only 3 years; moneylenders made ryot sign fresh bond, accumulated interest added to principal (Rs 100 + 3 yrs interest = new principal) = debt never paid down

Poona Sarvajanik Sabha (1870)

→ Associated with Ranade (M.G.); 17,000 signatures on powers-of-attorney

→ Govt declared land confiscation = last resort for LR arrears

→ Teacher: 1st Regional Pol Party of WEMC; regional, for all people (Sarvajanik)

→ Retaliation: moneylenders refused loans, ryots could not pay LR

→ Ryots burned debt bonds (proof of loan), not lives

→ Result: Deccan Agriculturists Relief Act 1879: protection vs land loss, regulated interest

PUNJAB

📖 Story link · beat 9: Because Punjab sent soldiers to the Army, even a canal bill carries 1857's shadow; the British quietly withdrew.

Kuka Revolt 1871-72
(teacher: not imp)

→ Leader Baba Ram Singh, Namdhari sect: reformist Sikh, purify Sikhism

→ Living Guru + Guru Granth Sahib; strict equality for women; no rituals, only mantra chanting = "Kuka" (reciter); anti-priestly; pro-cow protection

→ Began as violence vs cow slaughterers + priests, then vs British

→ Baba Ram Singh exiled to Burma 1872

Canal Colony agitation 1907

→ West Punjab semi-desert, canals 1885-1940 for LR income; lands to farmers from other parts at nil/nominal cost (cultivate, pay water rates + LR); some as reward for service, large plots sold to investors

→ 1907 bill: control inheritance of land; raise water rates + fines

Three bodies mobilised

→ Lahore Indian Association (1877) = regional pol party of WEMC

→ Arya Samaj (1875)

→ Singh Sabha (1873) (both = role of religion)

→ No-tax campaign, later riots; British: repression, then quiet withdrawal of bill

→ Why: post-1857 army heavily recruited from Punjab, esp. Sikhs; disaffection could spread = "Fear of 1857 Repeat"

Source conflict: Lahore Indian Association 1877 (handout, typed slide) vs 1878 (teacher's board).

	Bengal	Punjab
System	PS 1793: zamindars large owners, land a commodity	Mahalwari: most owners = ryots, not super rich
Zamindar	Big landlord (leases to planters, rents from ryots)	Landowner = ryot (Zamin = land, Dar = holder; post-1947 land redistribution, so landowner = not rich)
Revolt	Indigo, Pabna: vs planter or zamindar	Canal Colony 1907: vs government rules

🎯 THE THREAD AND MAINS FRAMES

📖 **Story link · beat 10:** Because every region ticked the same boxes, the pattern is clear: organisation, colonial law, WEMC voice. A rehearsal.

Chapter thread: peasants organised, used colonial legal system, WEMC lent voice. Not yet INM but its soil; the revolts = rehearsal. ⭐

INM method	Where peasants used it first
Non-cooperation	Indigo: refused loans + cultivation; boycott of agents (before Gandhi)
💰 No-tax (no-rent)	Indigo no-rent; Maharashtra 1873-74, 1896-97; Punjab 1907
Boycott	Indigo social boycott of agents
⚠️ Legal challenge	Rent Act 1859 in court (Indigo); Pabna leagues' funds; 17,000 powers-of-attorney

Q1 Rehearsal (15 marks, 250 words): Intro: resistance changed, law + organisation + WEMC; soil not yet INM. Body: non-cooperation, no-tax, boycott, legal challenge, relief laws (Commission 1860, Deccan Act 1879, Tenancy Act 1885). Close: INM scaled them (Champaran 1917, Non-Cooperation 1920); add method ladder + regional bodies. ✅

Q2 WEMC role and limits (15 marks): Intro: Fraternity at work, voice. Body: Indigo (Neel Darpan, Long, Hindu Patriot, Somprakash, BrIA 1851); Pabna split (zamindars' sons, selfish interest); Deccan (Ranade, 17,000 signatures). Close: voice + organisation but class interests limited it; later needed a mass base. ✅

1642–51 English Civil War	**1688** Consent principle	**1788** Indigo loans (CW 86–93)	**1793** Permanent Settlement
1851 British Indian Association	**1853** Charter Act	**1854** Lt Governor, Bengal	**1859** Rent Act; Limitation Law; Indigo 1859–63
1860 Neel Darpan; Indigo Commission	**1861–65** US Civil War cotton	**1863** Indigo to Bihar	**1870** Poona Sarvajanik Sabha
1871–72 Kuka Revolt	**1873** Pabna; Singh Sabha	**1873–74** Maharashtra no-tax	**1875** Deccan Riots; Arya Samaj
1877 Lahore Indian Association	**1879** Deccan Relief Act	**1880** Ripon 80–84 Rent Commission	**1885** Tenancy Act; canal colonies begin
1896–97 Maharashtra no-tax	**1897** BASF	**1907** Canal Colony bill	**1911** Census flips Anglo-Indian
1914–19 WWI indigo revival	**1917** Champaran	**1918** Champaran Agrarian Act	**1920** Non-Cooperation

Recall drill: cover and answer

Two new features after 1857?	Awareness of British law (courts, organisation) + WEMC took up peasant causes	Ryoti three conditions?	25% land under indigo; low-interest loans + seeds + seed drills; planter buys crop
Indigo 1788 and Nij vs Ryoti?	Loans to ten European planters; Nij = planter farms; Ryoti = leased from zamindars, contracts with ryots	Indigo Commission 1860 and result?	Honour existing contracts, free to refuse future; Tinkathia 3/20th in Bihar
Why did indigo decline? (Prelims 2020)	BASF synthetic indigo 1897, not peasant resistance	Who backed whom in Pabna?	Zamindars: Hindu Patriot, Amrita Bazar Patrika; ryots: Bengalee (SNB), Anglo-Indian press
Bengal Tenancy Act 1885?	Ripon 80–84 Rent Commission 1880; occupancy right after more than 12 years	Deccan Riots chain?	Limitation Law 1859 fresh bonds, Sabha 17,000 signatures, bonds burned 1875, Relief Act 1879
Kuka Revolt?	Namdhari, Baba Ram Singh, exiled to Burma 1872	Why was the 1907 bill withdrawn?	Fear of 1857 repeat: army recruited from Punjab and Sikhs

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)
SNB = Surendra Nath Bannerjea

PRE-INC ORGANISATIONS 1857–85

PYQ Prelims 1996, 1999, 2002, 2003, 2007, 2013, 2017 · Mains: one PYQ for 1857–85 (likely factors behind rise of the INM)

✎ *Landlords petitioned for themselves and got nothing. The Raj's own education, press and rails built the WEMC, and its racism angered them. They organised for everyone from 1870; five roots met in the INC of 1885.*

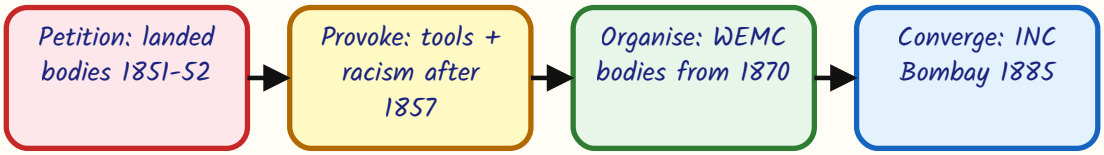

📖 THE STORY FIRST (same story as the textbook)

Petition, then provoke, then organise, then converge: the landed class petitioned for itself and got nothing; the Raj's own tools (education, press, rails) built the WEMC and its racism provoked it; the WEMC organised for everyone from 1870; and five roots converged in the INC of 1885.

1. **The landlords petition (1851–52).** First voice: educated landed class. BrIA 1851 (Radhakanta Deb), Bombay Association and Madras Native Association 1852: three petitions on Charter Act 1853. Never against rule: exploitation 'un-British'.
   → But nothing is granted.
2. **Nothing is granted.** Nothing granted. Landlords had too much to lose: Permanent Settlement 1793, police protection. Teacher: Of, By, For the landed class, not the people.
   → So a different class will have to carry the movement.
3. **The Raj builds a class (after 1857).** After 1857 Western education makes the WEMC, meant as loyal Brown Sahibs. No power-sharing, so admiration turns to demand for rights. Uneven (1921 literacy 8%): starts in Calcutta, Bombay, Madras.
   → Now this class needs tools.
4. **The tools: press, rails, wires.** By 1875 over 400 newspapers, 1.5 lakh readers make regional leaders national. Railways and telegraph from the 1850s let leaders meet. Empire's infrastructure becomes anti-colonial.
   → But the Raj keeps handing out reasons for anger.
5. **The villain does its work.** 1850 Black Acts suspended after 'white rebellion'. Lex Loci Act 1850 over Indian opposition. Income Tax (1860, 1868) in famines: 'No Taxation Without Representation'. 1870 education budget cut.
   → And then Lytton arrives.
6. **Lytton antagonises everyone (76–80).** Lytton 76–80: ICS age 19 (1876), Delhi Durbar (1877) in famine, Vernacular Press Act and Arms Act (1878), Statutory Civil Service, Second Afghan War (1878–80).
   → Then a liberal Viceroy is sent.
7. **Ripon, the liberal contrast (80–84).** Gladstone's Liberals win 1880, send Ripon 80–84: Tenancy Act 1885, Factories Act 1881, VPA repealed, Arms Act amended, ICS age 21, Local Self-Government 1882. Simultaneous exam fails.
   → How far will Europeans let reform go?
8. **The Ilbert Bill (1883–84).** Law Member C.P. Ilbert: Indian district judges may try Britons. Europeans protest; bill withdrawn, mixed jury. WEMC's last doubt gone: Britain will not treat Indians as equals.
   → The WEMC decides to organise on its own.
9. **The WEMC organises (1870 onwards).** Poona Sarvajanik Sabha (1870, Ranade), Commons petition 1875. Surendranath Banerjee founds Indian Association (1876); Lahore 1877; Madras Mahajan Sabha 1884. Of and by WEMC, for all the people.
   → And they do real work.
10. **More than talking shops.** New bodies lead peasants (Indigo 1859–63, Deccan 1875, Canal Colony 1907), run famine relief, protest Plantation Labour Act 1859, demand Council seats. After Councils Act 1892 they use the Councils.
    → Now the roots meet.
11. **Five roots, one Congress (1885).** Western education, free press, racial provocation, WEMC associations, railways and telegraphs meet in the Indian National Congress, Bombay 1885: first all-India party.

Cast: Radhakanta Deb = The First President · Dwarkanath Tagore = The Earlier Landlord · Gazulu Lakshminarasu Chetty = The Native · Lytton 76–80 = The Antagoniser · Ripon 80–84 = The Liberal · Gladstone = The Sender · C.P. Ilbert = The Law Member · Dadabhai Naoroji = The Reviver · M.G. Ranade = The Pune Founder · Surendranath Banerjee (SNB) = The Dismissed Founder · Sardar Dyal Singh Majithia = The Lahore Founder · Veeraraghavacharlu, Subramania Iyer, Anandacharlu = The Madras Trio

At a glance: petition, provoke, organise, converge

WHO SPOKE FIRST

📖 Story link · beat 1: Because the INC came late, the story opens before it: the first voice was the educated landed class, not the middle class.

INC decoded (teacher): I = Indian, N = Nation, C = ORG; a political party = ORG whose motive is power over the State. INC = first all-India political party 1885. Before it: regional political bodies Bombay 1870, Calcutta 1876, Punjab 1877, Madras 1884. Colonial State motive = loot, dominate; Nation State = welfare.

Of, By, For: landed bodies were OF, BY and FOR the landed class (sad); WEMC bodies post-1870 OF and BY the WEMC, FOR all the people (landed + WEMC + peasants + workers = masses): modern nation concept.

Group (radicalness)	Change	Method / avoids
Conservatives = landed class	Minimum	Press, petitions, prayers; no street protest, no masses (teacher links social reformers RRR, ICV, DBT, MG Ranade)
Moderates = WEMC	Bigger, gradual	3P = Press, Petitions, Prayers; also FIR, court cases, elections
Annie Besant, Madan Mohan Malviya	Gradual	3P; go to the people, press told in layman's language; no street protest
MG	Larger	Non-violent, extra-constitutional: press + street protest; NO FIR, court cases, elections
Extremists	Faster	Violent protest if peaceful fails; press, 3P, elections, FIR, courts; nothing ruled out
Revolutionaries	Immediate, fundamental	Press + guns; no constitutional limits

3P — Press · Petitions · Prayers = the Moderates' method (teacher)

1921 Census: 8% segment of Indian population = WEMC, the educated sliver that led the movement (handout: 8% overall literacy). INM in mature form led by WEMC; first organised voice = educated landed class.

🎯 THE FIRST ASSOCIATIONS 1851-52 PYQ 2017

📖 Story link · beat 1: Because the landed class had voice and money, three bodies formed in 1851-52 and petitioned together on the Charter Act 1853.

📚 Landed, educated, conservative

British Indian Association (BrIA) 1851, Calcutta

→ Radhakanta Deb first president; Debendranath Tagore secretary, Hindu Patriot (Harish Ch. Mukherjee) its voice (handout figure)

→ First all-Indian (no Briton) vs Dwarkanath Tagore's Landholders' Society 1838 (many non-official Anglo-Indians); board: Dharma Sabha 1830

→ Bombay Association 1852 (Dadabhai Naoroji in it)

→ Madras Native Association 1852 (Gazulu Lakshminarasu Chetty; first political body in Madras; closed 1862)

→ Trigger: Parliament deliberating Charter Act 1853

Teacher imp: 1st all-Indian ORG (Indians only) = BrIA 1851 vs 1st all India ORG (whole territory) = INC 1885. BrIA = only Bengal. Before 1911 Anglo-Indian = European settled in India. ⭐

Prelims 2017 trap: pairs 1 (Deb, BrIA) and 3 (SNB, Indian Association 1876) correct; (b) 1 and 3 only. Pair 2 wrong: Madras Mahajana Sabha 1884 founded by Veeraraghavachariar, Subramania Iyer, Anandacharlu, NOT Chetty (Madras Native Association 1852).

THEIR DEMANDS

📖 Story link · beat 2: Because they were landlords, they asked politely and for themselves. Nothing was granted, so a different class must carry the movement.

📬 Three separate petitions (no joint one: three regional lobbies)

→ Common grievances: high taxes, expensive + incompetent administration, neglect of education + public works

→ Elite interests: against salt + opium monopolies

→ Opposed "un-British" rule, not British rule: exploitation a departure from just British rule = Brown Sahib thinking

→ Nothing granted: PS 1793 + other LR systems created the landed class; British police protected them

Teacher's pointers: factionalism/no unity; costly administration (civil servants' salaries); 1835 policy only elite = education neglect; infra you see when you step out of home; elite interest = selfish; "You are British, WHY are you not behaving like British." 💡

🎯 INM AFTER 1857: PRODUCT OF COLONIAL POLICY PYQ Mains

📖 Story link · beat 3: Because the landlords failed, the movement needed a new class and tools; the Raj itself supplied both.

"INM was a product of colonial policies": GOOD = press, railways, post + telegraph, Western education = tools (modern polity ideas, vocabulary, methods, voice, communication leader-to-leader, leader-to-people, people-to-people). BAD = authoritarian + racist policies = villain: anger, energy. "Stronger the villain, stronger the hero." ⭐

A class exists when (AND): (1) numbers rise (2) consciousness of common problems + solutions (3) organised (small hierarchy). 💡

📚 FACTOR 1: WESTERN EDUCATION

📖 Story link · beat 3: Because the Raj taught the educated, it made its own critics. Uneven education means an uneven start: Calcutta, Bombay, Madras.

📚 Western education

→ Higher education after 1857 (3 universities 1857: Madras, Bombay, Calcutta) made a political WEMC; college = first exposure to politics

→ Meant as loyal Brown Sahibs; no real power sharing: admiration to criticism to demand for rights (post-1857 racism)

Uneven spread, uneven INM

→ Downward Filtration Theory 1835: only Presidency Town elites

→ Census 1921: 8% literacy, 2% female despite Wood's Dispatch 1854 + Hunter Commission 1882–83 (starred pair)

→ Early leaders (till 1920): rich upper-caste Hindus of M, B, C; Bangla, Marathi, Tamil speakers

→ Calcutta city highest, then Bombay, Madras, rest of British India lowest

→ Muslims under-represented: preserve Persian literary culture + conservative Ulama

Why Persian = Muslim identity

→ Mughal court language; teacher: Delhi Sultanate (1206–1526) promoted it

→ Humayun 30–40 took help of Shia Safavids vs Suri Dynasty (1540–55)

→ Nawabs of Awadh Shia (Sadat Khan 22–39, Ch 3)

→ Golconda + Bijapur Shia until Aurangzeb 58–07 annexed them 1686 and 1687

FACTORS 2 + 3: PRESS, RAILWAYS, TELEGRAPH

📖 Story link · beat 4: Now the new class needs tools: the press gives voice, railways and telegraph let leaders meet.

Press

→ By 1875: 400+ newspapers, readership 1.5 lakh+ (English + vernacular)

→ Primary WEMC tool: inter-regional awareness; regional leader writing on all-India issues (budget, civil services, famine) becomes national (census 1901: 30 cr)

🗳️ Railways + electric telegraph (1850s)

→ Leaders of Bombay, Bengal, Madras, Punjab meet, correspond, coordinate

→ Teacher: all-India leadership, people-to-people contact

→ Empire's infrastructure became anti-colonial infrastructure

FACTOR 4: RACISM + AUTHORITARIANISM

📖 Story link · beat 5: Because the Raj kept insulting the educated, the villain did its work and anger grew.

"Western education the slow fire; British racism the accelerant": biggest single contributor. All acts below are post-1857 (rising racism). ⭐

📜 1850 Black Acts (Bethune's Bills)

→ Before: European accused in mofussil tried only by Supreme Court in Presidency Town, bypassing Company courts (Sadr Amins, Munsifs); witnesses had to travel

→ Acts brought Europeans under district courts with Indian judges; European press "white rebellion"; suspended

→ Acts on Charter Act 1833 racial-equality promise; reappears as Ilbert Bill 1883

→ Lower judiciary opened to Indians 1833; hurts Brown Sahib mentality, White Man's Burden; Br overrode WEMC petitions = authoritarian; hurts WMB (White Man's Burden) narrative

Other provocations

→ 1850 Lex Loci Act (Removal of Religious/Caste Disabilities): inheritance to converts; passed despite opposition

💰 **Income Tax**

→ 1860 introduced, withdrawn under press pressure, 1868 re-introduced amid famines

→ WEMC slogan "No Taxation Without Representation" (press, 1860s–70s)

→ Great Madras Famine 1876–78: two drought years, about 1 crore died; shows govt priorities

→ 1870 cut Bengal higher-education spending (after Anglo-Indian press called WEMC "seditious"); military spending + high taxes continued

→ Cultural nationalism hardened: Lal-Bal-Pal (Lajpat Rai, Tilak, Bipin Chandra Pal), Aurobindo; recall Arya Samaj 1875, Vivekananda, Bankim Chandra (Ch 19)

LAL-BAL-PAL — Lala Lajpat Rai · Bal Gangadhar Tilak · Pal Bipin Chandra (extremist leaders; Aurobindo with them)

THE LYTTON YEARS (LYTTON 76–80)

📖 Story link · beat 6: Because Lytton 76–80 antagonised every section in four years, the educated turned bitter.

Lytton 76–80 antagonised practically every section of educated opinion in four years. ⭐ Chapter follows handout numbering; slide order differs.

Year	Measure	Detail
1876	ICS age cut 21 to 19	Exam only in London; India centre demand rejected. ICS exam from Charter Act 1853, first 1855; simultaneous exam in India only GOI Act 1919, first India-based exam 1922
1877	Delhi Durbar	Lavish, during Great Madras Famine; Queen Victoria Kaisar-i-Hind; WEMC press scathing; 3-year press campaign 1877–80 for Indianisation of services (failed, neglected)
1878	Statutory Civil Services Act	New category by nomination (slide: CCS = Covenanted Civil Service abbreviation); only loyalists ("lateral entry"); 1% WEMC opposed
1878	Vernacular Press Act (Gagging Act)	Security bond, forfeited if "objectionable"; financial surgical strike; Gladstone (then MP) criticised; Amrita Bazar Patrika turned English overnight
1878	Arms Act	Indians need licence; Europeans + Eurasians (= Anglo-Indians) exempt; B.C. Pal press campaigns
1878–80	Second Afghan War	Costly, fear of Russia, treasury stretched by famine; shaped modern Afghan borders; 1st Afghan War 1838–42 same reason, disaster; teacher: unnecessary

Source conflicts: Statutory Civil Service 1878 (handout, question bank) vs 1879 (slide, "rules under GOI Act 1870"); remember 1878–79 + nomination. Delhi Durbar title written Kaisar-i-Hind here, Kaiser-i-Hind in Ch 21 (Royal Titles Act 1876). Handout chart adds: Factory Act cap 9 hours for under-12s, "White Mutiny" for the European agitation.

🎯 RIPON 80-84: THE INTERLUDE PYQ 2007

📖 Story link · beat 7: Because Gladstone's Liberals won in 1880, a liberal Viceroy followed Lytton: Ripon 80-84.

Gladstone's Liberals won 1880; sent reformist Ripon 80-84 (Liberal PM Gladstone, 4-time PM). Faced opposition from European civil servants in India (racist, authoritarian). 💡

Year	Measure	Detail
1880	Rent Commission	Led to Bengal Tenancy Act 1885 (pressure of Pabna 1873, amends Rent Act 1859)
1881	Factories Act	Child labour banned under 7; hours capped under 12 (slide: 9 hours); 4 monthly holidays; Moderates opposed (hurts Indian capitalists vs cheap British goods; raises costs)
1882	VPA repealed	
1882	Arms Act amended	Everyone incl. Europeans needs licence; amended not repealed (teacher: "working for LLO")
1882	ICS age back to 21	Pushed simultaneous exam in India; Europeans opposed, failed
1882	Local Self-Government	See below

Prelims 2007: first Factory Act (women + children) = Ripon 80-84 (write 1881 over question; Lytton 76-80 ended 1880; Bentinck 28-35, Canning 56-62 earlier). ⭐

Teacher on IR: Britain 1750-1850, France 1870+, Germany 1870+ (British FDI), Japan 1868+, USA 1865+. For WEMC, India does IR only when Indian capitalists are strong, then pro-worker laws. Double hurt: govt not pro-Indian capitalist + raising costs (British firms can bear it). 💡

Local Self-Government 1882 (Ripon 80-84 = Father of LSG)

→ Goal: train Indians in self-government; key word SELF

→ Rural: elected District Boards; electors = land-revenue payers (owners) + rent payers (tenants)

→ Urban: municipalities, at least two-thirds elected, non-official chair

→ Charge: health, education, sanitation, roads, communications; autonomy in daily work; govt keeps power to inspect + dissolve

→ Hunter Education Commission 1882-83: education to local bodies, mass vernacular + female education; poor implementation

→ Today: Part IX (Panchayati Raj) + Part IX-A (Municipalities), 73rd + 74th Amendments 1992: 1882 seedling, 1992 tree

📜 THE ILBERT BILL 1883-84 PYQ 2003 PYQ 2013

📖 Story link · beat 8: Because Europeans would not accept Indian judges over Britons, the bill was watered down and the WEMC decided to organise alone.

📜 Ilbert Bill (most radicalising episode)

→ Law Member C.P. Ilbert: Indian district judges to try Britons in mofussil

→ Europeans organised, lobbied: withdrawn + amended; final = mixed jury in any case involving a Briton

→ WEMC: British will not treat Indians as equals; massive press campaigns; max use of press by WEMC before 1885: here

→ Teacher side note: Indian High Courts Act 1861, HCs in 1862 (M, B, C)

Traps: Prelims 2003 (a) bring Indians + Europeans on par in criminal jurisdiction; (b) VPA 1878, (c) ICS-in-India demand (rejected), (d) Arms Act 1878. Prelims 2013 (c) removal of disqualification of Indian magistrates trying Europeans; (a) arms; (b) newspapers; (d) cotton duty irrelevant; board: WWI 1914–19.

🎯 WEMC-LED ASSOCIATIONS POST-1870 PYQ 2002 PYQ 1999 PYQ 1996

📖 Story link · beat 9: Because the landlords had failed and the WEMC was angry, a new kind of body appeared from 1870.

Region	Body and founder	Hold
Bombay	Bombay Association 1852 revived 1876 (Naoroji, Naoroji Ferdunji back from London); Poona Sarvajanik Sabha 1870 by M.G. Ranade	Telang (K.T.), Mehta (P.M.), later Gokhale, Tilak; all sections of society; 1875 petition to House of Commons for direct Indian representation (Indians voting in British elections) PYQ 2002
Bengal	Indian Association 1876, Surendranath Banerjee (SNB): "representing the people"	SNB passed ICS but lost it (age/calendar dispute); entered 1869, dismissed 1874 (slide); first National Conference 1883 Calcutta = 1st attempt by SNB at all-India ORG PYQ 1996
Punjab	Lahore Indian Association 1877, Sardar Dyal Singh Majithia (when SNB toured)	Lajpat Rai, Ajit Singh leaders, not founders
Madras	Madras Mahajan Sabha 1884 after lull since 1862	M. Veeraraghavacharlar, G. Subramania Iyer (also founded The Hindu), P. Anandacharlu

Source conflict (SNB): handout 13.2 + slide: passed ICS but not selected (age dispute); Prelims 1999 slide: dismissed. For exam use dismissed (b). In Mains: age + calendar dispute cost him the service, injustice became political fuel.

Prelims 1999 board (exits): Satyendranath Tagore = 1864, first; Banerji = (age) dismissed; R.C. Dutt = retired (Drain Theory); S.C. Bose = resigned (AIR 4, 1st attempt, 6 months prep; slide 1921). Prelims 1996: 1883 National Conference Calcutta (A-4), 1906 Muslim League Dacca (B-3), 1927 All India States People's Conference (C-2), Aug 1932 Communal Award (D-1); answer (c).

Handout chart extras: Bengal British India Society 1843; East India Association 1866 (London, Naoroji); Bombay Presidency Association 1885 (Pherozeshah Mehta, K.T. Telang, Badruddin Tyabji); Ananda Mohan Bose with SNB; Indian Association originally Bharat Sabha. By 1870 organised INM under WEMC began; 1870s–90s coexistence, WEMC bodies replaced landed ones.

🆕 WHAT THE NEW BODIES DID

📖 Story link · beat 10: Because these bodies were organised, they acted beyond talk; the five roots now meet in the INC of 1885.

⚡ Four roles

→ 14.1 Peasants: Indigo 1859–63, Deccan Riots 1875, Canal Colony 1907

→ 14.2 Famine relief: Poona Sarvajanik Sabha in 1870s famines; arbitration courts (cheap dispute resolution); 17,000 signs on power of attorney

→ 14.3 Labour: protested Plantation Labour and Inland Emigration Act 1859 (planters could arrest workers who breached contract = serfdom)

14.4 Political demands

→ Representation in Legislative Councils (Indian Councils Act 1861)

→ Separation of powers

→ Reduction in Home Charges

→ Extend PS 1793 to other areas (selfish: landowners gained; Cornwallis 86–93, capitalism)

→ Later: Councils as platforms after Indian Councils Act 1892

Roots of the INC 1885 (five): Western education, free press, racial provocation, organised WEMC associations, railways + telegraphs converge into the INC at Bombay 1885. ✅

1833 Charter Act: racial equality promise	**1835** Downward Filtration	**1838** Landholders' Society	**1850** Black Acts; Lex Loci
1851 BrIA	**1852** Bombay Assn; Madras Native Assn	**1853** Charter Act; ICS exam	**1854** Wood's Dispatch
1855 First ICS exam	**1857** 3 universities	**1859** Plantation Labour Act; Indigo	**1860** Income Tax
1861 Councils Act; HC Act	**1862** Madras Native Assn closed; HCs	**1868** Income Tax again; NTWR	**1870** Poona Sabha; Bengal cuts
1873 Pabna	**1875** Commons petition; Deccan; 400+ papers	**1876** ICS age; Indian Assn; Famine 1876–78	**1877** Durbar; Lahore; press campaign
1878 VPA; Arms Act; Afghan War; Stat. CS	**1880** Ripon 80–84; Rent Commission	**1881** Factories Act	**1882** LSG; VPA repealed; Hunter
1883 Ilbert Bill; Conference	**1884** Madras Mahajan Sabha; mixed jury	**1885** INC; Tenancy Act	**1907** Canal Colony
1919 GOI Act: simultaneous exam	**1921** Census	**1922** First India exam	**1992** 73rd and 74th

Recall drill: cover and answer

First all-Indian vs all India ORG?	BrIA 1851 (Calcutta, Radhakanta Deb, no Briton) vs INC 1885	Three 1851–52 bodies and trigger?	BrIA Calcutta, Bombay Association, Madras Native Association (Chetty); Charter Act 1853
Why 'un-British'?	Exploitation departs from just British rule; Brown Sahib thinking; no demand met	Factors behind INM?	Tools: education, press, rail + telegraph; villain: racism; stronger the villain, stronger the hero
Lytton 76–80's six measures?	1876 ICS age 19, 1877 Durbar, 1878 Stat. CS, VPA, Arms Act, 1878–80 Afghan War	Ripon 80–84's measures?	1880 Rent Commission, 1881 Factories Act, 1882 VPA repealed, Arms Act amended, ICS age 21, LSG
Ilbert Bill 1883–84?	Indian judges try Britons; withdrawn, mixed jury; Prelims 2003, 2013	Four WEMC bodies?	Poona Sarvajanik Sabha 1870 (Ranade), Indian Association 1876 (SNB), Lahore 1877 (Majithia), Madras Mahajan Sabha 1884 (three founders)
1875 petition to Commons and Prelims 1999?	Poona Sarvajanik Sabha; SNB dismissed from ICS	Education stats?	Downward Filtration 1835, Wood 1854, Hunter 1882–83, Census 1921 8% and 2% female

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

FIR = First Information Report — Police record of a cognizable offence that starts an investigation

PM = Prime Minister — Head of the Union government

DBT = Direct Benefit Transfer — Subsidies and benefits paid straight to bank accounts

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

FDI = Foreign Direct Investment — Investment by a foreign entity with ownership or control in an Indian business

HC = High Court — State-level constitutional court (Art 214)

SNB = Surendranath Banerjee

INC 1885 & ENGLISH REFORMERS

PYQ Prelims 1998 (two), 2000, 2004, 2008, 2011, 2015 · Mains: none (teacher writes Mains - No Q)

✎ *Years of regional campaigns and all-India attempts came first. Hume, a Liberal retired civil servant, brought Bombay, Calcutta and Madras together and gave cover. The 'Safety Valve' is a friend's legend; 'Lightning Conductor' is the sound view.*

📖 THE STORY FIRST (same story as the textbook)

Decades of regional campaigns and attempts at all-India bodies prepared the ground; Hume, a Liberal retired civil servant, bridged Bombay, Calcutta and Madras and gave the INC protective cover, so the British 'Safety Valve' story is a friend's legend while the 'Lightning Conductor' reading is the sound one.

1. **Small bodies, big complaints.** Regional bodies protested Lex Loci Act 1850, Income Tax 1868, for Indianisation (1877), against Afghan War and Vernacular Press Act (1878), for Ilbert Bill (1883–84). None met.
   → So the next logical step was a body that spoke for all of India.
2. **The first attempts.** British India Association 1851 tried a joint petition. Native Press Association 1877, Banerjea President. Indian Association (1876) launched Conference 1883; Theosophical convention 1884; National Fund 1885.
   → But the regional bodies competed for leadership, and someone had to bring them to one table.
3. **The retired civil servant.** A.O. Hume, Liberal retired civil servant: Mayo 69–72 (1871), dismissed over Lytton 76–80's Afghan War spending, backed Ripon 80–84. Wanted INC as 'His Majesty's Opposition'.
   → And so in December 1885 the delegates met.
4. **Bombay, December 1885.** INC founded Bombay, December 1885, W.C. Bonnerjee 1st President. 1st all India ORG but not all Indian: founder a Briton. Hume General Secretary, never President.
   → The sessions then moved city to city, and the Presidents became the exam's favourite list.
5. **Presidents and Firsts.** Naoroji 1886, Tyabji 1887 (1st Muslim), Yule 1888 (1st non-Indian), Wedderburn 1889 and 1910, Webb 1894, Besant 1917 (1st woman), Das 1922 (prison), Naidu 1925. Tyabji died August 1906.
   → But why did this British friend help at all? One story says the British planned it.
6. **The Safety Valve story.** Wedderburn's 1913 biography: Hume got seven volumes of secret reports in 1878, met Dufferin 84–88, and they founded INC as safety valve. Teacher: pressure cooker, INC the whistle.
   → But the story does not survive a check.
7. **Why the story fails.** Seven volumes never found; only source a friend's book four decades later. Dufferin 84–88 called Moderates 'Babus', feared Irish Home Rule League. Teacher: never in exam.
   → So what was Hume really good for?
8. **The bridge and the umbrella.** Wedderburn wrote to make friend Hume a patriot. Hume's real use: mediator for Bombay, Calcutta, Madras and protective cover (Gokhale 1913). Indians used Hume as lightning conductor.
   → Hume had friends, and the handout names them.
9. **The English friends.** Wedderburn: 2nd non-Indian President, Indian Parliamentary Committee 1893 with W.S. Caine. Jardine: Judge, MP 1906–1918. Yule: 1st non-Indian, 400 tigers. Webb: Irish MP, Madras 1894.
   → One last check of how the exam turned the pieces into questions.

10 **What UPSC asked.** Curzon 99–05 'peaceful demise' (1998); Tyabji trap; 2000 Naidu, Das, Hume, Webb; 2004, 2008 first session; 2011 Wedderburn and Caine; 2015 firsts. Mains – No Q, PRELIMS ticked.

Cast: A.O. Hume = The Bridge and Umbrella · W.C. Bonnerjee = B and B · Dadabhai Naoroji = The Grand Inviter · Badruddin Tyabji = The INC's Man · William Wedderburn = The Biographer · W.S. Caine = Caine to Commons · John Jardine = The Judge · George Yule = The Merchant · Alfred Webb = The Irish Friend · Dufferin 84–88 = The Doubter · Curzon 99–05 = The Curser · Surendranath Banerjea = The Regional Voice · Gokhale = The Conductor · Annie Besant and Sarojini Naidu = Besant before Naidu

At a glance: who really founded the INC

FOUNDING FACTS AND THE FOUNDER

📖 Story link · beat 4: Because the INC was founded in Bombay in December 1885, the question is: who really founded it, and who were its Presidents?

Aspect	Detail
Founded	Bombay, December 1885 (handout figure: Gokuldas Tejpal Sanskrit College, 28 Dec 1885, 72 delegates)
👑 1st President	Womesh Chandra Bonnerjee (W.C. Bonnerjee), Bengali lawyer
A.O. Hume	Allan Octavian Hume, retired British civil servant (ex-ICS, Scottish ornithologist); toured India early 1880s, persuaded leaders of Bombay, Madras, Calcutta to meet; Founder + General Secretary (till 1892)

Teacher's board: INC = 1st all India ORG but not all Indian (Founder = A.O. Hume). Rule: President not from the session's region: Bonnerjee (Bengali) at Bombay; Yule 1888 (Agency House in Calcutta) at Allahabad. Hume = LIBERAL (representative governance), Retd ICS, belief in White Man's Burden; wanted a strong opposition so Government of India is accountable + responsive. Earlier bodies were only attempts at an all-India ORG. ⭐

Handout figure: INC's four objectives: close ties among workers; dissolve race, creed, province barriers; record conclusions; a programme for next year. 💡

👑 PRESIDENTS AND FIRSTS PYQ 1998 PYQ 2000 PYQ 2015

📖 Story link · beat 5: Now the sessions moved city to city, and the Presidents became the exam's favourite list.

Figure	Distinction	Session
A.O. Hume	Founder + General Secretary: NEVER President	none
W.C. Bonnerjee 1885	1st President	Bombay 1885
Dadabhai Naoroji 1886	2nd session	Calcutta 1886
Badruddin Tyabji 1887	1st Muslim President	Madras 1887
George Yule 1888	1st non-Indian President	Allahabad 1888
William Wedderburn 1889	2nd non-Indian (1889 and 1910)	
Alfred Webb 1894	3rd non-Indian	Madras 1894
Annie Besant 1917	1st woman	Calcutta 1917
C.R. Das 1922	Presided from prison	Gaya 1922
Sarojini Naidu 1925	2nd woman (1st Indian woman)	Kanpur 1925

WEMC (Western Educated Middle Class) formed the early INC. Teacher's exam-marked firsts: Bonnerjee, Naoroji 1886, Tyabji, Yule, Besant, Naidu. Wedderburn = Retd ICS, Hume's follower. Prelims 2000: (b) 2 and 4 (Das from prison Gaya 1922; Webb 1894; St 1 false: Besant first; St 3 false: Hume never President, first Britisher = Yule 1888). Prelims 2015: (b) Only 2 (Besant first, Naidu second; Tyabji Madras 1887). ⭐

First and second sessions (Prelims 2004, 2008): first session Bombay (not Calcutta), 2nd Calcutta 1886 under Naoroji; INC and Muslim League both at Lucknow 1916 = Lucknow Pact; answer (c) 2 and 3. Prelims 2008: (b) Bombay; Calcutta classic trap. ✅

Curzon's remark (Prelims 1998): "Congress is tottering to its fall... assist it to a peaceful demise" = Curzon 99–05 (Viceroy 1899–1905), (b). Dufferin 84–88 = founding era; Lytton 76–80 left 1880, five years before INC. ⭐

Prelims 1998 pairs: (d) 1, 2 and 3. 1 Theodore Beck = MAO College Aligarh (1st Principal; + Sir S.A. Khan, British funded AMU); 2 Ilbert Bill 1883–84 = Ripon 80–84; 3 Pherozeshah Mehta = INC founder-member; 4 wrong: Tyabji = INC (1st Muslim President Madras 1887), died Aug 1906, League Dec 1906 Dacca. ⭐

SAFETY VALVE THEORY: THE DEBATE

📖 Story link · beat 6: Because Hume was British, one story says the British planned it: the Safety Valve. It does not survive a check.

What it says

→ Hume founded INC as a deliberate British strategy: educated elite vent grievances, prevent a violent mass uprising

→ Origin: Wedderburn's 1913 biography of Hume; 1878 Hume found 7 volumes of secret reports by religious gurus (lower-class conspiracy); met Dufferin 84–88 (Viceroy 1884–88); also backed by R.P. Dutt

→ Teacher: whistle, lid, cooker (Indians = steam, burner = British oppression, INC = whistle); exam verdict: never in exam, always on YouTube

Date puzzle (source): handout puts the volumes in 1878 and the Dufferin meeting after, though Dufferin 84–88 became Viceroy only 1884; the PYQ answer places the meeting in 1885. Use: reports 1878, Dufferin 84–88 term 1884–88, INC Dec 1885. 📌

📜 Why it is wrong: three flaws

→ (i) Archive: 7 volumes never found; only source Wedderburn, close friend, nearly four decades later

→ (ii) Babus: Dufferin 84–88 hated the Moderates: "microscopic minority of Babus working for self-interest"

→ (iii) Home Rule: quietly asked Governor of Bombay to be alert; feared an Irish Home Rule League (Charles Parnell, 1870s–80s; Irish self-governance in Empire): a warning, not a compliment

→ Whole theory = single unverifiable source

WOULD THE INC HAVE FORMED WITHOUT HUME?

📖 Story link · beat 1: Because the safety valve fails, the real history is the earlier effort: regional campaigns, then all-India attempts, with Hume the bridge.

Yes (the more important point): activity rose steadily before 1885; regional associations' demands unmet; logical next step = all-India organisation. ⭐

Pre-1885 campaign	Detail
📜 Lex Loci Act	Protests against 1850 Act
💰 Income Tax 1868	Nationwide protests
Civil Services 1877–80	Campaign (1877) for Indianisation
Afghan War + VPA 1878	Campaigns vs Afghan War (1878–80) and VPA

📜 Ilbert Bill 1883–84	Active support
Volunteer Corps	Demand to join Europeans-only units
Appeal to British voters 1885	Vote for pro-Indian candidates; led by Dadabhai Naoroji; Hume also published a direct appeal

Indian Association 1876

→ Surendranath Banerjea, editor of Bengalee (NPA = Native Press Association President 1877); permanent body = regional political party (Bengal)

→ Launched Indian National Conference 1883 (periodic, delegates from across British India) = attempt at all-India ORG

→ Conference met 1883 and 1885, merged into INC 1886; Indian Association continued as regional body

All-India effort	Year and what it did
British India Association	1851: tried to open branches in Bombay + Madras for joint London petition (Charter renewal 1853)
Native Press Association	1877: journalists at Imperial Darbar, all-India; SNB President, annual meetings; not a political party (teacher)
National Conference	1883, Indian Association, Calcutta; another set for 1885; near-identical tracks to INC so 1886 merger natural
Theosophical Society	1884: delegates gathered at annual convention, Madras
💰 National Fund	1885: for political campaigns in India + London (appeal to British voters)
⚖️ Verdict	Machinery already being built; 1885 = natural culmination, not British invention

Why Wedderburn wrote it: close friend; wanted to portray Hume as a patriot who sacrificed career to save the Empire from its folly: a story for a friend's legacy, not history. 💡

	Safety Valve (British view)	Lightning Conductor (Indian use)
Who uses whom	British use the INC	Indians use Hume
💡 Purpose	Vent grievances, prevent revolt	Channel organisation past British reflex to shut it down
Source	Wedderburn 1913 (R.P. Dutt agreed)	Gokhale 1913: British would never allow all-India body under an Indian leader
⚖️ Verdict	Wrong: unverifiable, a friend's story	Better reading

Hume's real use: mediator among competing Bombay, Calcutta, Madras + protective cover for the INC's early years. Hume's wish: "His Majesty's Opposition", a legitimate channel of dissent. ✅

KEY ENGLISH FIGURES

📖 Story link · beat 9: Because Hume was not alone, the handout names his English friends and what each is asked for.

A.O. Hume (Liberal, Retd ICS)

→ 1871 Secretary, Dept of Revenue, Agriculture and Commerce under Mayo 69–72: farm yields

→ Opposed Lytton 76–80's Afghan War spending (1878–80), dismissed

→ Supported Ripon 80–84's Local Self-Government Resolution 1882

→ 1885 appeal to British voters; General Secretary, not President, most active organiser

William Wedderburn

→ Retd civil servant, ex-Secretary to Bombay Government; co-founder 1885; 2nd non-Indian President 1889 + 1910

→ Backed Ripon 80–84's reforms; Cooperative Banks for cheap farm loans; denied Bombay High Court judgeship (High Courts: Indian High Courts Act 1861, functioning 1862)

→ MP; worked with Gokhale in 1890s; with W.S. Caine set up Indian Parliamentary Committee 1893 PYQ 2011

Prelims 2011 (a): agitate for Indian political reforms in the House of Commons; pressure group of sympathetic British MPs. Not (b) judiciary entry, (c) independence in 1893, (d) Indians into Parliament. Keywords: Wedderburn, WS Caine, 1893, House of Commons. ⭐

John Jardine

→ Co-founder 1885; Liberal lawyer
→ Chief Secretary of Bombay; Judge, Bombay High Court
→ MP 1906–1918

George Yule

→ 1st non-Indian President, Allahabad 1888; merchant
→ Founder of Agency House Andrew Yule and Company, Calcutta
→ President, Indian Chamber of Commerce; killed 400 tigers

Agency House	Detail
What	British trading + financial firm: cross of private bank, investment firm, business management company
Did	Raised capital, credit, financed trade; agents running tea plantations, jute mills, coal mines, shipping
Today's words	NBFC + private equity + holding company
Managing agency system	One firm managing many businesses for fee or profit share; dominant in colonial economy
🎯 Examples	Andrew Yule and Company, Jardine Henderson, Bird and Company
End	Abolished 1970: concentrated economic power, vehicle of drain + monopoly

Alfred Webb

→ Irish politician, MP 1890s; 3rd non-Indian President, Madras 1894
→ Invited by Naoroji (close friend)
→ Anti-racism (supported Britain's first anti-racist journal), opposed opium trade into China
→ Irish background (still fighting for Home Rule) shaped sympathy

Person	Role	Remember
Hume	Founder, Gen Secretary	Liberal, retd civil servant; Mayo 69–72 (1871); dismissed over Lytton 76–80's war spending; backed Ripon 80–84; never President
Wedderburn	Co-founder, biographer	2nd non-Indian President (1889, 1910); Cooperative Banks; Indian Parliamentary Committee 1893
Jardine	Co-founder	Chief Secretary Bombay, HC Judge; MP 1906–18
Yule	Merchant President	1st non-Indian (Allahabad 1888); Agency House; 400 tigers
Webb	Irish friend	3rd non-Indian (Madras 1894); invited by Naoroji

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

HC = High Court — State-level constitutional court (Art 214)

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

AMU = Aligarh Muslim University — Central university at the centre of the minority-status debate (Art 30)

INDIAN COUNCILS ACT 1861

PYQ Prelims 2002 (Portfolio System: ICA 1861; not GOI 1858, ICA 1892, ICA 1909) · No Mains PYQ (teacher mains hooks only)

✎ *After 1857 the Top Boss sat in London: a despotism controlled from home. So in 1861 the British made councils look consultative: one council wore two hats, a nominated rigged ring was added, a little law-making went back to provinces, and the Viceroy kept every key.*

📖 THE STORY FIRST (same story as the textbook)

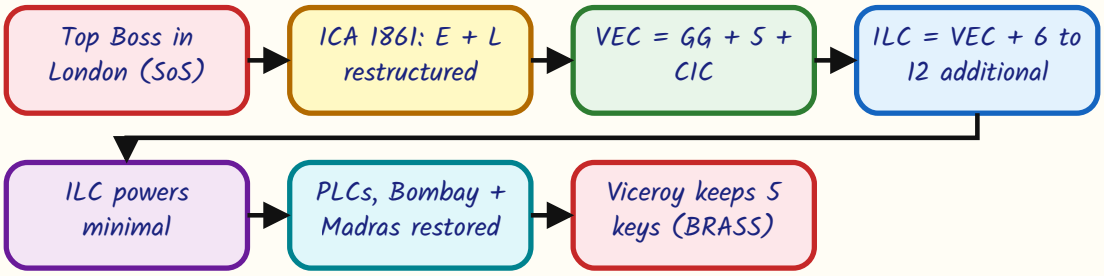

The British restructured the State in 1861 to look consultative while staying a despotism controlled from home: one council wore two hats, a nominated and rigged legislative ring was added, some provincial law-making was handed back, and the Viceroy kept every real power.

1. **The despot at home.** After 1857 and the Crown takeover of 1858, the Secretary of State in London is the Top Boss. Charles Wood: 'despotism controlled from home', until 1947. Not a democracy.
   → So how was the machinery rebuilt in 1861?
2. **Two laws, one year.** In 1861 the State is rebuilt: ICA 1861 restructures Legislature and Executive, the Indian High Courts Act 1861 the Judiciary. The Governor-General's Council splits into VEC (executive) and ILC (law-making).
   → But these are not really two bodies.
3. **One room, two hats.** The VEC adds 6 to 12 additional members for law-making and the room becomes the ILC. Every VEC member sits in the ILC, so officials stay in majority. Provinces copy this.
   → Who sat in the executive room?
4. **The cabinet takes shape.** Canning56-62 starts the Portfolio System in 1859; ICA 1861 makes it law. Finance member James Wilson after the 1857 debt, so VEC = GG + 5 + C-I-C. Public Works 1874.
   → Now, the legislative ring.
5. **A grain of representation.** The Viceroy nominates 6 to 12 additional members, half non-officials. For the first time non-officers make law: three Indians in 1862, rewarding 1857 loyalists. Only 45 Indians until 1892.
   → But the arithmetic is rigged.
6. **Seven beats six.** The VEC alone is 7 (GG + 5 + C-I-C), more than the most non-officials possible (6). With 6 additional members: 10 officials against 3 non-officials. 'Official' means pro-British bureaucrat.
   → So what could the ILC actually do?
7. **A legislature at the bottom of the ladder.** The ILC has almost no powers: no questions, no resolutions, no budget vote, bills only with the Viceroy's approval. He holds an absolute veto and a 6-month ordinance.
   → And the provinces?
8. **The first small step back.** The Charter Act 1833 took Bombay and Madras law-making to the Centre. ICA 1861 gives it back and plans PLCs (Bengal 1862, NWP 1886, Punjab 1897). Centre's share: 100% to 90%.
   → Yet the Viceroy keeps the keys.
9. **BRASS: the Viceroy keeps the keys.** BRASS: the Viceroy keeps five keys: sanctioning nominations, framing rules, approving bills, one budget, creating provinces. They end only in 1892, 1919, 1935. One hand gives, the other takes.
   → So where does the story go next?
10. **The long road to democracy.** Centralisation began 1773, peaked 1833; decentralisation began 1861; Provincial Autonomy 1935. Elections come step by step: 1909, then 1919. ICA 1861 fails the teacher's test of responsible government.

Cast: Charles Wood = The Despot at Home · Secretary of State for India = The Top Boss · Canning56-62 = The Cabinet Maker · James Wilson = The Tax Man · Commander-in-Chief (C-I-C) = The Battlefield Chief · Viceroy / Governor-General = The Top Brass · Raja of Banaras = First Nominee · Maharaja of Patiala =

Second Nominee · Dinkar Rao of Gwalior = Third Nominee · British Indian Association (BrIA, 1851) = The Loyalist Club

At a glance: the route of ICA 1861

CORE PHILOSOPHY: DESPOTISM CONTROLLED FROM HOME

📖 Story link · beat 1: Now the Top Boss: because the SoS sits in London, the Government of India is a despotism controlled from home.

Charles Wood (SoS for India)

→ "Despotism controlled from home": despotism = dictatorship; Home = Britain
→ Dictator = SoS in London; operating principle right until 1947
→ Top Boss chain: PM of Britain, then SoS for India, then Viceroy and GG
→ GOI Act 1858 made SoS the Top Boss (President of the Board of Control 1784, then SoS); real legal decision on EIC rule = SoS, not GG
→ Board L = Br: the legislature is British; conclusion: no intent of sharing power with Indians

Teacher stresses: Is ICA 1861 a democracy? No. It is the working Constitution of British India (CoBrI), running from Regulating Act 1773 to GOI Act 1935, ICA 1861 its centrepiece; a Constitution creates the State structure and defines functionaries' duties. It "may not be an ideal Constitution" (Moderates wanted an ideal CoI, Ch 26). British India = 63% territory, 78% population. ⭐

Arm	Law (both 1861)	Letter
📜 Legislature + Executive	ICA 1861	L and E
Judiciary	Indian High Courts Act 1861	J

📜 LEGISLATURE AND EXECUTIVE: ONE COUNCIL, TWO HATS

📖 Story link · beat 3: Because the British wanted law-making without sharing power, the executive wore a second hat: VEC became ILC.

Four bodies (layman view)

→ 2.1 Day-to-day executive work = VEC; 2.2 making laws = ILC (= VEC + additional members)

🗺️ Centre

→ VEC (day-to-day executive) = E = Cabinet; members = today's ministers
→ ILC (law-making) = VEC + additional members (VEC opens its doors, they join)

Provinces

→ PLCs (Provincial Legislative Councils)
→ GECs (Governor's Executive Councils)

→ Both under the Viceroy/GG; not two separate bodies: every VEC member is automatically in the ILC

Official = bureaucrat [PRO Br]: a council with an official majority can never go against the Raj. Pre-1858 additional members = legal members of 1833 and 1853. 💡

Act	Model of the outer ring
ICA 1861	VEC + ILC = VEC + additional members; official majority ensured
ICA 1909 (Morley-Minto)	Outer ring grows, marginal new powers for non-officials
📜 GOI Act 1919 (Montagu-Chelmsford)	VEC-ILC model abolished; bicameral: Council of State (CoS) + Central Legislative Assembly (CLA), distinct from VEC

🎯 VEC: EVOLUTION AND PORTFOLIO SYSTEM PYQ 2002

📖 Story link · beat 4: Because an executive needs working departments, the Portfolio System became law and the council grew. Now, the legislative ring.

Year	Council (E = executive meeting, L = legislative)
1773	GG + 4C; centralisation begins
1784	GG + C1 + C2 + C-I-C
1793	GG + (C1 + C2 + C3) + C-I-C; C-I-C extraordinary, appointed by Court of Directors (CoD)
1813	No change
1833	3.1 E: GG + 3 + C-I-C; 3.2 L = E + 1 legal member ("grain of SoP", SoP = Separation of Powers)
1853	3.3 E: GG + 3 + C-I-C + Law Member elevated (= GG + 4C + C-I-C); 3.4 L = E + 6 legal members; SoP introduced (E split from L)
1858	No change; GG's Council = Viceroy's Council

Handout and board count the same council differently, but agree: handout 1853 GG + 3 + C-I-C + 1 Legal Member elevated = board GG + [4C] + C-I-C; handout 1833 GG + 3 + CIC = board GG + (C1 + C2 + C3) + C-I-C. Use either.

Portfolio System = Ministry System

→ Departments (ministries) to individual VEC members; decisions final, subject to Viceroy's veto; cabinet-style administration at the centre

→ Introduced by Canning56-62 in 1859; legal recognition by ICA 1861

→ Eg "SVP was minister of States Dept" in 1947

Prelims 2002 trap: introduced 1859 (in-house), recognised 1861 (law). Not 1858 (Crown takeover), not ICA 1892 or 1909 (legislative ring). ⭐

👥 5th Ordinary Member = Finance (1861)

→ Result of 1857 revolt debt; practice began 1859 with James Wilson (died 1860, before the Act); constitutional backing 1861

→ James Wilson: income tax 1860; withdrawn under WEMC pressure, re-introduced 1868

→ 1874: 6th Ordinary Member = Public Works (railways, canals, infrastructure)

VEC after 1861 = GG + 5 ordinary + CIC

→ 5 portfolios: Home, Revenue, Finance, Law, Military (administrative Military Member, not the C-I-C)

→ C-I-C = extraordinary member, appointed by SoS; not ordinary, not ex-officio: Crown wanted checks on armed forces, not one man in both hats

👥 Military Member vs C-I-C

→ Member = paperwork: logistics, defence budget, administrative orders (ran the office)

→ C-I-C = supreme field command (ran the battlefield)

→ Board: Ordinary Military Member = Defence Minister; C-I-C = CDS

→ Formula: VEC = GG + C-I-C + (C1 to C6); 1861 cabinet of 5, 6th = 1874: C6

🗳️ THE LEGISLATURE (ILC): NOMINATED, RIGGED, LOYAL

📖 Story link · beat 5: Because the ring was nominated, the British could afford half non-officials; but 7 beats 6, so officials always win.

Key takeaway: for ICA 1861/1892/1909 split the government into two boxes: Executive Council (VEC) and Legislative Council (ILC) = VEC + additional members (officials + non-officials). 💡

ILC = VEC + 6 to 12 additional

→ Nominated by the Viceroy; half must be non-officers (3 to 6); earlier all were officers

→ = (GG + 4 + 1 Finance member added 1861) + 6 to 12

→ "A grain of representation": a non-officer lawmaker could be an Indian

→ Arithmetic (6 additional): officials = 10 (7 of VEC + 3 officers), non-officials = 3 (politician, civil-society person, businessman)

→ VEC alone (GG + 5 + CIC = 7) matches or beats max 6 of 12 non-officials: math rigged

📌 Non-official is not Indian (board: "non-officials, not unofficial", not "Indians"). Those who joined were Anglo-Indian and Indian. Never write "half the members were Indians".

🧑‍🤝‍🧑 1862: first 3 Indians

→ Raja of Banaras

→ Maharaja of Patiala

→ Dinkar Rao of Gwalior (knighted 1877, Sir Dinkar Rao)

→ All elites, some from Princely States; goal = reward those loyal in 1857

→ Divide and Rule = co-opt elites, exploit masses (same logic as PS 1793 and Brown Sahib policy 1835)

→ Until ICA 1892 only 45 Indians [31 yrs] nominated: Zamindars + moneylenders of British Indian Association (BrIA, 1851), British businessmen, some rulers of PS

→ India = British India + 565 Princely States; nationalistic WEMC missing (Ch 23)

📜 Legislature tree

→ Officers: never fight elections, always nominated

Non-officers

→ nominated (weaker)

🗳️ elected

→ indirect (weaker)

→ direct (stronger)

1861
ICA 1861: 1st time non-officers, all nominated (no elections)

1892
Next step (Ch 28)

1909
Morley-Minto: first proper indirect election (Ch 31)

1919
GOI Act: first direct elections + first elected MAJORITY (Ch 34)

1935
Ladder continues

1950
Constitution of India

⚡ POWERS OF THE ILC: BOTTOM OF THE LADDER

📖 Story link · beat 7: Because the ILC was only a consultative add-on, it sat at the bottom of the ladder of powers. And the provinces?

Ladder of any legislature (rising): discussion, questions (+ discuss answers + supplementaries), resolutions, passing bills, Budget (discuss and vote on items and whole), creating the Executive, dismissing the Executive, amending and drafting the Constitution. Resolution = L telling E what L desires (Think Your New Yr Resolution). 💡

Power	Under ICA 1861	Rung
5.1 Discussion	Only with Viceroy's prior approval	1
👑 5.2 Questions to Executive	NOT allowed	2
🔧 5.3 Resolutions	NOT allowed	3
📜 5.4 Introduce bills	Only with Viceroy's prior approval	4
💰 5.5 Budget discussion or vote	NOT allowed	5
5.6 Veto	Viceroy's absolute veto over all bills	his power
📜 5.7 Ordinance	Law by executive order, valid 6 months, bypassing Legislature	his power

Teacher stresses: "ILC is not equal to a modern P (Parliament)": small, entirely nominated, no control over the Executive; a consultative add-on that looked like participation while delivering none. ⭐

AT THE PROVINCE LEVEL: DECENTRALISATION BEGINS

📖 Story link · beat 8: Because the 1833 centralisation had gone too far, 1861 gave some law-making back. Yet the Viceroy keeps the keys.

👥 PLC = Governor (or Lt Governor) + Executive Council members + additional members

→ Same formula as ILC = VEC + additional

→ Charter 1833 took Bombay and Madras legislative powers to the centre ("GG(Be) to GG(I)"): centralisation peak

→ ICA 1861 restored Bombay and Madras legislative powers; proposed new PLCs for Bengal, Punjab, NWP

→ Handout: Bengal's council had moved up to become GG(India)'s Council 1833, Viceroy's Council 1858, ILC + VEC 1861, so Bengal needed a fresh PLC

New PLC	Year	Note (teacher: years not imp)
6.1 Bengal	1862	-
6.2 NWP	1886	Half of Awadh annexed in 1801 Subsidiary Alliance; Mahalwari first 1822; province 1836, no legislature, Lt Governor. Delay: 1857 memories raw
6.3 Punjab	1897	Annexed 1849; frontier province, strong executive preferred

1773 Centralisation begins — **1833** Peak — **1861** Decentralisation begins — **1935** Provincial Autonomy: decentralisation peaks

Year	Centre	Provinces
1833	100%	0%
1861	90%	10%
💡 Unitary (definition)	75% or more	25% or less
🗺️ Federal (definition)	about 50%	about 50%

Do not read 1833 as Unitary and 1861 as Federal: those are definitions (75% or more vs about 50%); dated figures 100/0 and 90/10 are nowhere near 50/50. Handout summary: not federal. Use: ICA 1861 = decentralisation, not federal.

🗺️ NO TRUE FEDERALISM: VICEROY'S FIVE KEYS

📖 Story link · beat 9: Because the Viceroy kept five keys (BRASS), decentralisation was not federalism: giving with one hand, taking with the other.

BRASS — Budget · Rules · Approval · Sanction · States: the five powers the Viceroy kept over the provinces ("giving with one hand, taking with the other")

Viceroy's power	What he held	Ended by	COI parallel
🗳️ 7.1 Sanction: PLC nominations	Governor nominated PLC non-officials but none valid until Viceroy sanctioned	ICA 1892	–
7.2 Rules	Framed rules for ILC, PLCs, VEC, GECs	GOI 1935 (Provincial Autonomy)	–
📜 7.3 Approval: bills	Approval needed before certain bills could be introduced	Relaxed GOI 1919, more GOI 1935 (subjects divided)	Art 304: President's recommendation for certain State bills
💰 7.4 Budget	One budget for British India, no provincial budget	GOI 1919 separated provincial budget first time	Art 202: each State its own budget
🗺️ 7.5 States	Create new provinces, appoint Lt-Governors	GOI 1935: power shifts Viceroy to Crown (British PM)	Arts 3, 4, 155 COI 1950

Teacher stresses: federalism = negative here: no nomination valid until Viceroy sanctions; approval before bills; no provincial budget (ended GOI 1919); Arts 3, 4; Viceroy to Crown under GOI 1935. Prelims 2002: answer (A) ICA 1861; (B) GOI 1858, (C) ICA 1892, (D) ICA 1909 wrong. ⭐

ICA 1861 AT A GLANCE

📖 Story link · beat 10: Because the whole story points one way: nominated, no elections, no responsible government. So the Moderates ask for an ideal Constitution.

#	Feature	At a glance
8.1	Philosophy	Despotism controlled from home (Charles Wood)
8.2	Executive (VEC)	GG + 5 ordinary + CIC (extraordinary); 6th ordinary 1874
8.3	Legislature (ILC)	VEC + 6 to 12 additional (half non-official)
8.4	Portfolio System	Legal recognition (introduced Canning56–62, 1859)
8.5	First Indians 1862	Banaras, Patiala, Dinkar Rao of Gwalior
8.6	Provincial bodies	PLCs and GECs; Bombay + Madras powers restored
8.7	New PLCs	Bengal 1862, NWP 1886, Punjab 1897
8.8	Legislature powers	Minimal: no questions, resolutions, Budget discussion, vote
8.9	Viceroy powers	Absolute veto, ordinance (6 months), prior approval for bills
8.10	Election method	All nominated: no elections
8.11	Federalism	Not federal: decentralisation from 1833 peak; Centre made the budget
8.12	Nature of govt	Despotism: no responsible government anywhere

Teacher's test: Fully Responsible Govt = every minister has to be MP/MLA first. VEC appointed, ILC nominated and could not question or dismiss them: ICA 1861 fails (rungs 6 and 7 of the ladder). ⭐

1851 BrIA founded

1857 Revolt: economy in debt

1858 GOI Act: SoS Top Boss

1859 Portfolio System; Wilson first Finance Member

1860 Income tax; Wilson dies

1861 ICA 1861 + Indian High Courts Act

1862
3 Indians; Bengal PLC

1868
Income tax back

1874
6th member: Public Works

1877
Sir Dinkar Rao

1886
NWP PLC

1892
ICA 1892: sanction ended; only 45 Indians 1861–92

1897
Punjab PLC

1909
First proper indirect election

1919
VEC–ILC abolished (CoS + CLA); provincial budget separated

1935
Provincial Autonomy

1947
End of despotism controlled from home

Recall drill: cover and answer

Who said 'despotism controlled from home'?	Charles Wood, SoS for India	ILC = ?	VEC + 6 to 12 additional members, half non-officials, all nominated
VEC after 1861?	GG + 5 ordinary (Home, Revenue, Finance, Law, Military) + CIC; 6th Public Works 1874	Portfolio System: introduced / legalised?	Canning56–62 in 1859 / ICA 1861 (Prelims 2002)
First 3 Indians 1862?	Raja of Banaras, Maharaja of Patiala, Dinkar Rao of Gwalior	ILC could not?	Ask questions, pass resolutions, discuss or vote Budget; Viceroy veto + 6-month ordinance
New PLCs?	Bengal 1862, NWP 1886, Punjab 1897	Viceroy's five keys?	BRASS: Budget, Rules, Approval, Sanction, States
Elections first / direct first?	1909 proper indirect / 1919 direct + elected majority		

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

PM = Prime Minister — Head of the Union government

CDS = Chief of Defence Staff — Single-point military adviser to the government; heads the Department of Military Affairs

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

CLA = Central Legislative Assembly

ILC = THE LEGISLATURE

VEC = Executive Council

MODERATES: IDEOLOGY, DEMANDS, NEGATIVES

PYQ Prelims 2000 (Assertion-Reason on narrow social base; answer c) · Mains (year not given in bank): why Moderates failed to carry conviction by end of 19th century, 10 marks, 150 words

The Moderates, taught by Utilitarian and Liberal ideas, begged for Limited Self-Government by petition and prayer. As a small, elite, part-time body distrusting the masses, they had no pressure, none of their demands was met, yet they built political habits.

THE STORY FIRST (same story as the textbook)

The Moderates, shaped by Utilitarian and Liberal faith in laws and constitutions, asked the British for Limited Self-Government by petition and prayer. Because they were a narrow, elite, part-time body that distrusted the masses, their demands carried no pressure and none was met; yet they were building the culture of politics.

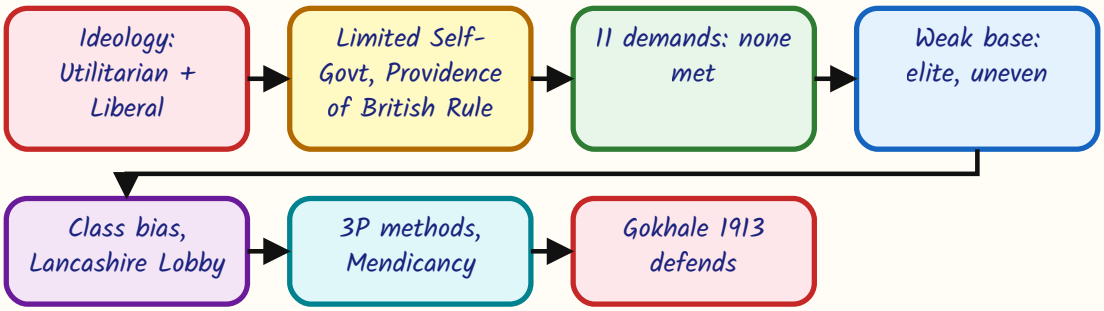

1. **Limit the State, by law.** The opponent was a foreign State, so the Moderates' Step 1 was to limit it with a good Constitution, drawing on Utilitarianism (laws) and Liberalism (rights, rule of law).

→ So they chose methods that stay inside the State's own rules.

2. **Only the State's own doors.** Constitutional methods mean only the State's own channels: elections, Legislature, Judiciary, RTI, petitions. Gandhi's Non-Cooperation and Civil Disobedience are outside, extra-constitutional mass struggle.
   → But did they want the British gone?
3. **Critics, not rebels.** They called British rule exploitative but trusted British Providence. Goal: Limited Self-Government within British rule, as masses were not ready. Banerjea: end 'Un-British Rule'; Bonnerjee: INC loyal to the British.
   → What, then, did they actually ask for?
4. **Eleven asks, no answers.** Four political asks (abolish India Council, 50% indirect election in councils, real powers, Indianise services) and seven economic (cut military spending, lower land revenue, no Salt Tax...). None met.
   → Who was asking, and for whom?
5. **Who was in the room.** First session 1885: 72 delegates, mostly Bombay and Madras, all upper-caste Western-educated professionals. Hindus 90%, Muslims about 6.5% against 20% in the census. Tyabji was the exception.
   → Even that thin unity was guarded by a rule.
6. **The 1886 rule.** Calcutta 1886, under Dadabhai Naoroji: the INC avoids social questions until 1907 to keep unity. In 1893 it stayed silent on cow-killing riots and Muslim participation fell.
   → The rule saved unity but left the leaders' own class interests untouched.
7. **Landlords' politics.** In 1892–1905 about 20% were landlords, 40% lawyers, 15% traders, all part-time. So no anti-Zamindar stand, they opposed the Punjab Land Alienation Bill 1900, and backed Indian capital over labour.
   → The same lens shaped their view of the factory laws.
8. **The Lancashire game.** Lancashire makers lobbied for factory rules to raise Indian costs; Moderates said infant industries needed room. Factories Act 1881 (Ripon 80–84), 1891 (Lansdowne 88–94), Mines Act 1901 (Curzon 99–05). Verdict: complex.
   → Whatever their reasons, their method was always the same.
9. **Prayer, petition, protest in print.** They sent prayers and petitions, passed resolutions, used the press, and avoided mass action. The teacher's 3P: Prayer, Petitions, Protests in the press. Critics called it the Strategy of Mendicancy.
   → Why did that bring no result?
10. **A sliver with no lever.** They did not represent the masses and distrusted them, so would not mobilise them. A movement neither representing nor threatening could be ignored. Four power factors: claim, masses, demands, methods.
    → Yet it was not the end of the story.
11. **A beginning, not the end.** Gokhale (1913): without these methods the British would not have let the INC function. Goal moved: Limited Self-Government 1885–1906, Self-Government 1906, Dominion Status 1916, 1928, Purna Swaraj 1929.

Cast: W.C. Bonnerjee = The Loyalist · Surendranath Banerjea (SNB) = The Critic · Dadabhai Naoroji = The Chair of 1886 · Badruddin Tyabji = The Exception · Gopal Krishna Gokhale = The Defender · Ripon 80–84 = The 1881 Viceroy · Lansdowne 88–94 = The 1891 Viceroy · Curzon 99–05 = The Mines Viceroy · Lancashire textile makers = The Hidden Hand · Mahatma Gandhi (MG) = The Man Outside the Rules

At a glance: the route of the chapter

🗺️ IDEOLOGY: LIMIT THE STATE

📖 Story link · beat 1: Because the opponent was a foreign State, the Moderates wanted to limit its power with laws and a constitution.

🗺️ 1.1 Why limit the State (class board)

→ West: State = indigenous monarchy, so democracy grew gradually (Monarch down, Parliament up); Britain without Constitution, France with one: both ended with limited State

→ India (and USA): opponent = imperialism of a foreign power

→ Step 1: limit colonial State = Good Constitution = constitutional development

1.2 Tradition	Holds	Gave Moderates
Utilitarianism	Greatest good of the greatest number; laws and good governance (Good Laws, Rule of Law + efficiency; Law = Agent of Good Change)	Faith in laws as tool of reform
Liberalism	Individual rights, rule of law, constitutional governance (anti-colonialism; opposed Authoritarianism: "Give Best To India" in Polity, Eco, Society)	Faith in constitutional government and rights
Together		Gradual constitutional reform is right

Isms from Ch 15: Orientalism, Authoritarianism, Racism, Liberalism, Utilitarianism, evangelicalism (Christianise India); only Liberalism + Utilitarianism are the Moderates'. Utilitarianism is linked to Constitutionalism. 💡

👥 1.3 Constitutionalism

→ Legitimate State gives Responsible Government, protects rights, works under Rule of Law

→ = limiting State power via a Constitution; values: Preamble + FRs + Basic Structure + DPSP; also Secularism, National Unity

→ Teacher: nation vs Nation State; "for me: this shows distrust"

1.4 Responsible Government = accountability of E to L/Parliament; test: a Minister has to be MP or MLA first; Parliament = mother of Executive, accountable incl. elimination (no-confidence motion). Board question: what to make of INC demanding immediate Responsible Government? (no answer given). 💡

👥 Constitutional methods

→ Use only grievance-redress mechanisms provided by State (L, E, J)

→ FIR, Court case, RTI, CPGRAMS, NOTA, fight elections, Citizen Charter, petitions; topic Good Governance

Methods map

→ 1 Constitutional (non-violent, legal)

👥 2 Extra-constitutional

→ not unconstitutional, not illegal

→ unconstitutional, illegal (violent or non-violent)

→ Protests: violent ones not by MG, peaceful ones were

👥 MG methods = non-violent extra-constitutional mass struggle (Satyagraha)

→ Non-Cooperation: not illegal, not unconstitutional (boycott of British goods, elections)

→ Civil Disobedience: illegal, unconstitutional

Civil-servant lens: genuine protests = shame/failure of civil servant (incompetency?); non-genuine ones causing law-and-order problems = strict action. Heroes flip: pre-1947 = Revolutionaries, Extremists, MG (against colonial State); post-1947 = Moderates (Nation State).

1.5 Did Moderates oppose British rule?

→ Knew it was exploitative, not naive, but Providence of British Rule: if pressurised, British could be made to modernise India

→ Goal = Limited Self-Government (greater Indian share within British rule); masses without Western education not ready

→ Long-term vision: Self-Government like Canada or Australia with full British citizenship

→ Remove "Un-British Rule" (Surendranath Banerjea) = gap between Britain's liberal values and conduct in India; Naoroji: Poverty and Un-British Rule in India (1901)

→ W.C. Bonnerjee, first INC President: INC "loyal to the British and well-wishers of the British"

Swaraj (4 meanings)	Symbolic sov.	External	Domestic
(3) Limited SG (Moderates)	British	British	Partnership, so:so (about 50:50)
(2a) SG within empire	British	British	Indians 75% or more
(2b) Dominion Status	British	British	Indians 100%
(1) Purna Swaraj	Indian	Indian	Indian
(4) Philosophical	Bhagat Singh = end of class oppression; MG = self-rule of each individual, no L, E, J, stateless = enlightened anarchism		

1.6 Sovereignty = 3 parts: (A) symbolic (powerless); (B) external sovereign functions D, C, FA (Defence, Communications, Foreign Affairs, Ch 1); (C) domestic (Home, Finance etc). "ChatGPT sovereignty = B + C". Swaraj = Swa (People) + Raj (Government). 15 Aug 1947 = "Special Dominion Status": symbolic sovereign still British; 26 Jan 1950: symbolic sovereign also Indian.

1.7 Secular, pro-industry, pro-capitalism: secular, promoted national unity; capitalism and industrialisation on British lines. Why: before 1929 every IR example came via capitalists (private sector); Japan from 1868 = "State aided Capitalism".

THE 11 DEMANDS: NONE MET

📖 Story link · beat 4: Because they pressed the State by constitutional means, they made eleven concrete asks. None was met.

Handout: "Not a single one was met": two decades of petitions and prayers = practically zero. Slide splits POL (political) and economic. Limited SG in practice: symbolic + external British, domestic = partnership; L wanted indirect elections, elected majority, powerful L.

No.	Demand	Detail
2.1	Abolish India Council	15-member advisory body in London around SoS (stands where BoC 1784 stood, from 1858); easier to lobby one SoS than 15
2.2	Expand ILC + PLCs	At least 50% indirectly elected (starting point ICA 1861: ILC = VEC + 6 to 12, half non-official; Ch 25)
2.3	Greater powers to ILC + PLCs	Real legislative authority, not just advisory

2.4	Indianisation of Civil + Military Services	Simultaneous exam in India and Britain; age limit 23; more responsive, cheaper, less racist. "1877–80: Press campaign". Officer rank in military rejected (British could not take orders from Indians)
2.5	Decrease + share Military Expenditure	Army used for imperial adventures e.g. Boxer Rebellion (1899–1901) in China; partially met, no significant change
2.6	Volunteer Army	Open to all, not Martial Races doctrine (board: of Peel Commission); rejected: fear of disaffection if Marathas and Bengalis joined
2.7	Trial by Jury	Judged by peers, not colonial officers (raised earlier by RRR + Derozians; Ch 19 gives it to Roy and Young Bengal)
2.8	Repeal Arms Act 1878	It disarmed Indians; Right to Bear Arms for self-defence, not violence
2.9	Decrease Land Revenue, end Salt Tax	Same tax MG attacked in Salt March 1930; board: [GST] analogy
2.10	Extend PS 1793 outside Bengal	LR could not be arbitrarily raised; partly principled, partly self-interest (see class bias)
2.11	End exploitation of Indentured Labourers, Assam Tea Plantations	Contract workers bound under harsh terms

Teacher: "GUESSED" economic demands (LTD SG context) (from earlier chapters): IR of India, support to private sector (capitalists), tariffs raising Indian finished-goods exports and lowering British, lower taxes (LR + Income Tax 1860, 1868), lower spend on standing army, end of govt monopoly on salt and opium, extend PS 1793, Western education for masses, better public works.

Military aside: after 1st Round Table Conference 1931 Indian officer appointments began, then Indian Military Academy, Dehradun 1932; real numbers only in World War 2 (INM demands). Today India has a volunteer army.

Source conflict: handout says "no demands met" yet 2.5 "partially met, no significant change". Learn: none met in any real sense; military expenditure only nominally touched.

⚠ WEAKNESSES OF MODERATES AND THE INC PYQ 2000

📖 Story link · beat 5: Because none was met, ask why: who sat in the room, who was left out, whose interests shaped the INC (beats 5 to 8, 10).

⚡ 3.0 Teacher's frame: Moderates = politicians; four power factors

→ (1) Weak claim to represent: UC WEMC from M, B, C = less pressure

→ (2) No trust in masses: not Western-educated, would not understand modern polity; violence risk

→ (3) Weak demands: mother vs shopkeeper (Rs 500 and Rs 2000, settlement Rs 1000): small opening demand, small settlement

→ (4) Weak methods: 3P, gradual, part-time politicians, "3 DAY annual DRAMA"

⚠ 3.1 Uneven representation (most serious weakness)

→ Western-educated professionals: lawyers, doctors, merchants, bankers, journalists, teachers, social reformers, landowners

→ Mostly from 3 Presidencies; Bombay about half, then Madras; Madras educated but less politically organised

→ Bengal (Indian Association 1876) sent about 5 to first session, informed last moment; 2nd Indian National Conference at Calcutta clashed, SNB hard to attend

→ Until 1905 high-caste Hindus, about 40% Brahmins; weak claim hurt every INC programme

1885 session (Bombay)	Delegates
Bombay Presidency	38

Madras	21
Punjab + NWP + Oudh (NWP 1836 + Oudh under one head 1877)	10
Bengal-Bihar-Orissa-Assam	only 3
Total	72

Missing: low Muslim %, women (non-WEMC), peasants, workers, LC (lower castes); first two decades elites 1885-1905.

Source conflicts: Bengal at first session: handout about 5, slide table 3 (wider region): say "very few". Period of composition figures: handout 1892-1905, slides 1892-1909, board 1885-1905: write "1892 to early 1900s" if unsure.

3.2 Low Muslim participation

→ Badruddin Tyabji of Bombay: first Muslim INC President, Madras 1887 (exception)

→ 1892-1905: Hindus 90%, Muslims about 6.5% (census 20%: one-fifth of people, one-fifteenth of INC); Brahmins about 40%

→ Drop after 1890s, no concerted outreach; arrogance: no strong Muslim party until 1906

→ Cow-killing riots 1893: INC silent

👑 3.3 The 1886 rule (Calcutta, President Naoroji)

→ Avoid social questions (caste, religion, reform) until 1907: deliberate, pragmatic but damaging

→ Political resolutions only (governance, services, economic); social reform kept off: risked splitting fragile Hindu-Muslim-Parsi coalition

→ Social issues = H-M, UC-LC, Women, CLASS (working vs capitalist; peasants vs landed)

Why

→ (1) avoid perception INC is pro-xyz group

→ (2) prevent disunity

→ (3) pick only issues vs a foreigner = Indians vs Foreigner builds unity

Prelims 2000: Assertion (narrow social base) = T; Reason (narrow interests) = False, so (c). Demands went beyond elite interests (lower LR, end Salt Tax, repeal Arms Act 1878, jury). Indian vs Indian issues not picked, Indian vs British picked.

🏛️ 3.4 Commitment and social background

→ Part-time politicians with lucrative legal practice; INC = 3-day annual conference (handout: trade fair, not a company)

→ 1892-1905: 20% landlords, 40% lawyers, 15% traders, mostly landed families

Effects

→ No anti-Zamindar stand: wanted PS 1793 outside Bengal, fig leaf for Zamindars (State could not raise LR)

→ Opposed Punjab Land Alienation Bill 1900 (stop indebted peasants losing land to moneylenders)

→ No champion of workers vs Indian capitalists: only Indian Capitalism removes poverty; backed Assam Tea workers only as owners were European; opposed other labour reforms

3.5 Lancashire Lobby

→ Lancashire textile makers lobbied for Indian factory rules to raise Indian costs, cut competitiveness in global markets and Indian market

→ Moderates: infant industries need room; premature regulation would crush industry, keep India supplier of raw materials

→ Tariff example: Rs 100 British good + 50% duty = Rs 150 vs Indian Rs 130, Indian wins; tariffs protect whoever sets them

Act	Viceroy	Provisions	Mark
📜 Factories Act 1881	Ripon 80–84	Factories with 100+ workers; children under 7 banned; ages 7–12 max 9 hours; fence hazardous machinery; board +4 monthly holidays	famous, imp
📜 Factories Act 1891	Lansdowne 88–94	50+ workers; min age 7 to 9; child upper age 12 to 14; women max 11 hours with 1.5-hour rest	not imp
📜 Indian Mines Act 1901	Curzon 99–05	First major mining regulation; min age for child labour; better conditions for women and children underground	not imp

Handout: whether Moderates were right to oppose these Acts is complex: Lancashire motive real (British not philanthropists), but Indian workers incl. children laboured longer in harsh conditions.

3.6 Two structural problems	Detail
1. Did not represent masses	About 90% Hindu, lawyer and landlord classes: a sliver
2. Distrusted masses	Refused to mobilise, fearing violence
Consequence	Neither represented nor threatened to unleash the people: no real pressure; British could ignore a few hundred professionals

🎯 GOALS AND METHODS PYQ Mains

📖 Story link · beat 9: Because the Moderates were gradual, their method was always 3P; it ends on goal, method and the verdict (beat 11).

1885–1906 Limited Self-Government (Moderates' rung)

1906 SG within the Empire = Home Rule / SG on lines of Australia and Canada / Swaraj

1916 Equal status with other self-governing dominions (words 'Dominion Status' not used)

1928 Dominion Status named

1929 Purna Swaraj

4.1 Methods = Gradualism, no mass action

→ Prayers and petitions, resolutions at annual sessions, press, rich culture of debates; no street agitation (firm believers of Rule of Law)

→ 3 stages of adoption: Brown Sahib faces discrimination; petitions and requests; protesting letters (articles) and long debates

4.1 Strategy of Mendicancy → Label of critics, later Extremists (begging); little pressure

3P — Prayer · Petitions · Protests in the press (Moderate methods)

4.2 Defence (Gokhale, 1913): without these methods British would not have allowed INC at all; culture of confrontation not yet developed; petition and prayer = building the institutions and culture of politics for a country with no national organisation: INC of 1885 = beginning, not end. ✅

Mains frame (why they failed): Intro: Utilitarian–Liberal, Limited SG, 11 demands, none met. Body: the four power factors. Close: a movement that neither represented the people nor threatened to unleash them carried no pressure; fair verdict Gokhale 1913. ✅

1784 Board of Control

1793 PS

1858 India Council

1860–68 Income Tax

1861 ICA 1861

1868 Japan IR begins as State-aided Capitalism

1876 Indian Association

1877 NWP + Oudh one head; 1877–80 press campaign

1878 Arms Act

1881 Factories Act

1885 INC Bombay, 72 delegates

1886 Calcutta, Naoroji, social questions shelved

1887 Madras, Tyabji

1893 Cow-killing riots

1899–1901 Boxer Rebellion

1900 Punjab Land Alienation Bill

1901 Mines Act; Naoroji book

1906 SG in empire; Muslim party

1907 Ban on social questions ends

1913 Gokhale defends

1930 Salt March

1931 1st RTC

1932 IMA Dehradun

Recall drill: cover and answer

Moderates' two Western traditions?	Utilitarianism (Good Laws) and Liberalism (rights, anti-colonialism)	Providence of British Rule?	If pressurised, British could be made to modernise India
Who coined 'Un-British Rule'?	Surendranath Banerjea; Naoroji's book 1901	1885 delegates?	72: Bombay 38, Madras 21, Punjab-NWP-Oudh 10, Bengal-Bihar-Orissa-Assam 3
First Muslim INC President?	Badruddin Tyabji, Madras 1887	1886 rule?	Naoroji, Calcutta: no social questions until 1907
INC composition 1892–1905?	Hindus 90%, Muslims 6.5%; 20% landlords, 40% lawyers, 15% traders	Factories Act 1881?	Ripon 80–84; 100+ workers; under 7 banned; 7–12 max 9 hours
Prelims 2000 answer?	(c) A true, R false	Gokhale 1913?	Defended Moderates: built culture of politics

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

RTI = Right to Information — Citizens can seek records from public authorities under the RTI Act, 2005

DPSP = Directive Principles of State Policy — Part IV (Arts 36–51): goals the State should pursue; not enforceable in court

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

FIR = First Information Report — Police record of a cognizable offence that starts an investigation

CPGRAMS = Centralised Public Grievance Redress and Monitoring System — Online portal for public grievances

GST = Goods and Services Tax — Common indirect tax on goods and services; policy by the GST Council (Art 279A)

SNB = Surendranath Banerjea

MG = Mahatma Gandhi

MODERATES: POSITIVES AND DRAIN THEORY

PYQ Prelims 1996, 1997 (two), 1999, 2008 (two), 2011, 2013, 2015, 2018, 2020 · Mains (year not given in bank): to what extent did Moderates prepare a base for wider freedom movement

✎ *India had no single political community in 1885, so the Moderates built unity and a parliamentary habit, backed Indian capitalists, and proved with the Drain Theory that*

Britain used political control to move India's wealth away. The economic critique became the demand for Swaraj.

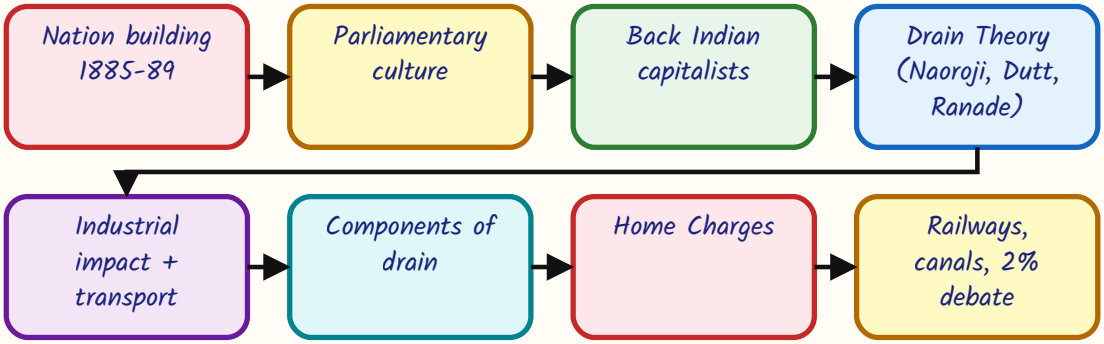

📖 THE STORY FIRST (same story as the textbook)

Because India in 1885 had no single political community, the Moderates built unity and a parliamentary habit, backed Indian capitalists, and then proved with the Drain Theory that Britain used its political control to move India's wealth away. The drain ran through plunder, tariffs, exchange rates, Council Bills and Home Charges, so the economic critique became a demand for Swaraj.

1. **A land with no single people.** At the first INC session, Bombay 1885, the goal was national unity. India had regions, languages, castes and religions but no single political community, so building one came before demanding rights.
   → So how do you build a nation inside a Congress?
2. **One versus only.** 1886: Naoroji's rule, only political questions, so the fight is Indians against British. 1888: a veto if the Hindu or Muslim majority disagrees. 1889: the Minority Clause for reserved seats.
   → Rules alone do not make leaders, so the structure had to help.
3. **The host never presides.** Each session was in a different region and the President never came from the host region. A Marathi leader presiding in Calcutta builds all-India leadership and inter-regional bonds.
   → Those sessions also taught India a new habit.
4. **A parliament before a parliament.** The President acted like a Speaker; members spoke, debated and voted on resolutions, new for India. Lok Sabha procedures have roots in INC sessions: the modern political era began with the INC.
   → But a nation also needs an economy, and the Moderates had a view on that.
5. **Why back the capitalists?.** The Moderates were pro-industrialisation, not anti-poor. Every industrial country rose on its capitalists; communist industrialisation came only in 1917. Indian capitalists struggled against British imports.
   → Yet their sharpest weapon was an idea about wealth leaving India.
6. **The Drain Theory.** After ICA 1892 disappointed them, the Moderates built the Drain Theory: Britain used political control for its own gain, so the White Man's Burden was false. Naoroji 1901, R.C. Dutt 1902, 1904, Ranade.
   → The teacher first separates rupees from wealth, then asks how the machine worked.
7. **How British factories rebuilt India.** Before British industrialisation India exported finished goods. Afterwards it supplied raw materials (cotton, indigo, jute, opium) and bought British goods. Handicrafts died and artisans crowded into agriculture.
   → Then steam made the pump faster.
8. **Steam, rail and the Suez shortcut.** Steam engine (1769) brought machines, ships, railways; Suez Canal (1859–69) cut 4,500 miles. Railways built under Dalhousie 48–56 for the army carried raw materials out and finished goods in.
   → Now, how exactly did the money leave?
9. **Plunder first, policy later.** Before 1813 the drain was Dastak misuse, Plassey plunder 1757–65, land revenue from 1765. After 1813 it was policy: no protective tariff till World War I, managed exchange rate, Council Bills.
   → And then the bills were sent in the name of Britain's services.
10. **The cafe bill and the double drain.** Home Charges: the bill India paid Britain for services it claimed to give (eight heads, pensions, EIC dividends, debt interest, stores...). India sold more than it bought yet lost the forex: double drain.
    → The British had answers, and the notes have replies.
11. **Railways, canals and only 2 per cent.** The teacher marks this debate 'mmp'. Britain cited railways (5% guaranteed), canals (25% irrigated) and a drain of only 2%. Naoroji: 2% was surplus capital that would compound. So: demand for Swaraj.

Cast: Dadabhai Naoroji = Mr Un-British · R.C. Dutt = The Data Man · M.G. Ranade = The Economist · G. Subramania Iyer = The Journalist · Gopal Krishna Gokhale = The One Who Said No · Sir Syed Ahmed Khan = The Odd One Out · Lenin and Lala Lajpat Rai = The Echoes · Dalhousie 48–56 = The Rail Man · The Secretary of State = The London Banker · Setalvad, Rau, Alladi = The Three Lawyers · B.G. Tilak = The Extremist · Utsa Patnaik = The $45 Trillion

At a glance: the route of the chapter

THE CHAPTER ON ONE BOARD

📖 Story link · beat 1: Story so far: because India had no single political community, unity came before rights. The chapter has two halves: positives, then Drain.

Two halves: (I) Moderates: GOAL = LTD SG, not Purna Swaraj; Methods = Gradualism, 3Ps, Constitutional methods. (II) Drain = wealth moving from India to Britain ("Home"). Warning: wealth is not always equal to rupees. 💡

Answer frame: positives of the Moderates (1) Non-Drain: national building + culture of parliamentary politics (INC session like Lok Sabha / Rajya Sabha; link ICA 1892, Ch 28) (2) Drain Theory: WEMC Moderates defeated narrative of WMB (White Man's Burden) through press, speeches, books. ✅

🎯 1 NATION BUILDING PYQ 2013

📖 Story link · beat 2: Because India had no single political community, unity came first: the 1886 rule, 1888 veto and 1889 clause each served it.

🧑‍🤝‍🧑 First goal 1885 Bombay: "building national unity"

→ India = regions, languages, castes, religions; no single political community; focus only on issues common to all Indians

→ 1886 Naoroji's informal rule: only political questions, not social or class; Congress = platform against colonial rule

→ 1888 communal veto: no resolution if majority of Hindu or Muslim members disagreed

→ 1889 Minority Clause: demanded seats for religious minorities in ILC + PLCs, in proportion to population; INC, not Muslim League, first demanded minority representation

Divide avoided	Pair
📚 Religion	Hindu vs Muslim
Caste	Upper Caste vs Lower Caste
Gender	Men vs Women
Class	Working Class vs Capitalist Class
Land	Ryots vs Landlords

Communal veto trap: normally Communal VETO -> ML 1906 -> Pakistan (margin: British gave ML 1906 veto on constitutional progress -> Partition = appeasement). INC's differed: every member accepted Secularism and National Unity, so trust. Constituent Assembly ruled out religion-based reservation: Pakistan. 💡

🏛️ Rotating sessions, non-host President

→ Marathi leader presiding in Calcutta, speaking on Bengal's peasants, builds all-India leadership and inter-regional bonds

→ Nation building through structural design

Prelims 2013 (answer a, only 1): Naoroji exposed economic exploitation (1); statement 3 (eradicate all social evils first) is false: his 1886 rule kept social questions out.

🏛️ 2 PARLIAMENTARY CULTURE · 3.1 CAPITALISTS

📖 Story link · beat 4: Because unity needed a shared habit, INC sessions copied parliament; because they wanted a modern economy, they backed capitalists.

INC sessions modelled on parliament: President = Speaker; members spoke, debated, voted on resolutions (new for India); Lok Sabha procedures have roots here. "In a true sense, India's modern political era began with the INC." Linked to ICA 1892. 💡

Why back Indian capitalists	Argument
🧑‍🤝‍🧑 Industrialise like West	19th-century industrialisation ran on capitalism: Britain, US, Germany, Japan
🧑‍🤝‍🧑 No communist model yet	Soviet Russia born 1917, results only after 1929; none in 1880s–90s
Capitalists struggling	Not monopolists; pressed by British imports and British businesses with govt backing (needed support in 1890); pro-industrialisation, not anti-poor

🎯 3.2 DRAIN THEORY PYQ 1996 PYQ 2008 PYQ 2015

📖 Story link · beat 6: Because ICA 1892 disappointed them, the Moderates built their sharpest idea: the Drain Theory.

💡 Core idea

→ Most important Moderate contribution: systematic, evidence-based argument that British rule exploited, not developed; WMB false

→ Prominent after bitter disappointment with ICA 1892

→ Britain used political control over the Indian State to extract economic benefits

→ Ahead of its time: Lenin and Lala Lajpat Rai later: colonialism = British capitalism needing markets and raw materials; handout: world's first economic critique, "before Hobson, Lenin"

Architect	Contribution
R.C. Dutt	Ex-ICS officer turned economic historian: Economic History of British India (Vol I, 1902), India in the Victorian Age (Vol II, 1904)
Dadabhai Naoroji	Poverty and Un-British Rule in India (1901): most systematic presentation
MG Ranade	Father of Indian economics
G. Subramania Iyer	The Hindu 1878 (Madras), Swadesamitran 1882; moved first INC resolution (handout figure)
Gokhale	1866–1915; Gandhi's political master; Servants of India Society 1905 Poona; refused Knighthood + SoS Council seat

PYQs: 1996 did not believe in Drain Theory = (d) Sir Syed Ahmed Khan (Tilak = 'extremist' camp, not rejecter); handout: Sir Syed loyal to British, opposed INC self-rule. 2008 'Un-british' = (c) Naoroji (wrong: Anandmohan Bose, Badruddin Tyabji, Pherozeshah Mehta). 2015 economic critics = (d) 1, 2 and 3 (Naoroji, Subramaniam Iyer, Dutt). 2013 = (a) only 1. Handout flow chart: 'British Committee 1889' and 'India journal' unexplained. ⭐

Rupees are not wealth: keyboard Rs 100; RBI prints Rs 20 more, Rs 120 = inflation, same value. Exporting minerals brings rupees and forex but wealth goes out (Middle East uses forex to diversify). Drain and Swaraj: Britain misused control of our sovereign functions because we lacked SG = power to do L, E, J. 💡

Drain Theory in one line: "The misuse of political power over the State of the Colony for the economic benefit of the Colonial Power." Economic critique inseparable from demand for Swaraj: without self-rule the drain could never be stopped. State = T + ppl (territory and people). ✅

If a question is on Drain of wealth

Pre-IR in Britain: 1757–1813
→ Plassey Plunder 1757–65
→ Land Revenue from 1765

Post-IR: 1813–1947
→ Later mechanisms; for the Moderates' Drain Theory write post-1813

→ Why: IR in Britain 1750–1850; EIC was a trader; 1813 EIC monopoly on British business with India ended, industrialised Britain got access

Pre-1800s or pre-1813? Handout and slide say "Pre-19th Century (pre-1800s)" and "19th Century (1813 onwards)"; board splits at 1813. Use 1757–1813.

3.3 IMPACT OF BRITISH INDUSTRIALISATION

PYQ 1999 PYQ 2018 PYQ 2020

📖 Story link · beat 7: Because Britain industrialised, India was reshaped as raw-material source and market. Then steam made the pump faster.

India reshaped

→ Before: net exporter of finished goods (textiles, handicrafts); after: (1) raw-material source + (2) export market; net exporter of raw materials, finished goods flood back (African country exporting crude oil, importing refined)

→ Commercialisation of agriculture: cotton, indigo, jute, opium (Prelims 2018), sugar, tea; cash crops pushed out food = food insecurity (famines)

Handicrafts destroyed

→ Machine goods cheaper (mass production: factory 100 crore one-time, Nth Bisleri bottle Rs 1) and better

→ Artisan (skill, hands, decentralised, rural) vs worker (labour, machines, centralised, urban)

→ No Indian factories: artisans forced into agriculture = disguised unemployment, agriculture overburdened

→ Britain made the transition; India denied it

Prelims keys: 1999 (a) absence of heavy industries (not scarcity of foreign capital or natural resources: drain shipped surplus out; not the rich preferring land). 2018 (c) commercialisation of agriculture. 2020 (a) handicrafts ruined (not large machines; railways first 1853; no heavy duties on British imports: first protective tariffs WWI; side note PRO-Lancashire = British textile industry). 1800–1850 splits: till 1813 and 1813–1857. ⭐

Transport revolution = part of IR, worsened drain

→ Steam engine 1769 leads to machines, ships and boats, railways

→ Suez Canal 1859–69 (done 1869): cut 4,500 miles; LOOT escalated; paved roads ("Pakka roads"), modern ports

→ Rail-road-port = one-way pump: raw material (1.1) by rail and road to port (1.2), sea to Britain (1.3), British port (1.4), rail to Lancashire factory (1.5); finished goods (1.6) cross sea (1.7), Indian port, rail and road to urban market = rich buyers (1.8)

→ Dalhousie 48–56: railways 1853 (board: 1850s) mainly for army movement

Miles vs km: handout and slide 4,500 miles; board writes 4500 miles (9000 Km), but 4,500 miles is nearer 7,200 km. Hold 4,500 miles.

🎯 3.4 COMPONENTS OF THE DRAIN (teacher wrote PRELIMS)

📖 Story link · beat 9: Because the drain had to run through some channel, the mechanisms are listed before and after 1813.

Pre-1813 source	Detail
Misuse of Dastaks	Duty-free passes for EIC goods misused by Company servants for private trade: loss of tax revenue
Plassey plunder + LR	Plunder 1757–65; LR of Bengal, Orissa, Bihar from 1765 (Treaty of Allahabad)
Result	Gold flowed in earlier; after Plassey and LR rights gold flowed out

From 1813: four mechanisms + EIC forex

→ (1) colony = raw materials + export market

🛡️ **(2) No protective tariffs until WWI 1914–19**

→ Eg British good Rs 100 vs Indian Rs 110: independent India 20% duty = Rs 120, Indian wins; colony 0% = British wins (economic frontier = IRS Customs)

(3) Exchange rate manipulation

→ Rupee-pound rate managed for British business; $1 = Rs 50 vs Rs 100: weaker currency gives exporter Rs 50 extra (China 1978 onwards); British kept rupee STRONG; exchange rate = monetary tool, corporate tax = fiscal tool

→ (4) Council Bills (post-1833)

→ EIC's own forex (eg opium to China) taken to London

💰 Council Bills (CBs): tax-financed trade

→ Importer pays forex to SoS / India Council in London (stays in London), gets CB (promissory note, like cheque; margin 1858 = India Council)

→ Brings CB to India; GOI gives rupees from Indian taxpayers

→ India got NO forex for exports; Indian taxpayer financed the trade

🎯 3.4.3 HOME CHARGES (imp for Prelims) PYQ 2011

📖 Story link · beat 10: Now how the money left: Home Charges, the cafe bill, and the double drain.

Home = Britain. Think like a British nationalist: cafe gives goods and services, you pay; India pays forex to Britain for goods and services Britain claimed to give. Governance + security of territory = services. Drain = HC + not-HC. 💡

Home Charge	British justification
💰 Salaries, pensions, training of British officials and soldiers	Gave careers to India
Dividends to EIC shareholders	EIC governed (Company State); dividends from trade + LR 1765–1833, LR alone 1833–58
💰 Interest on EIC loans	Loans for GOI expenses
👫 Interest on foreign debt	Debt for administration and development
🏛️ Expenses of SoS + India Council (earlier Board of Control)	–
Stores bought for India by SoS (stationery, steel)	Goods
💰 Payments to British War Office: weapons, Royal Military in crises like 1857	Service = stability
👫 Interest on FDI to British businesses	Development service

📌 **FLOW DIPS** – Mnemonic for the Home Charge heads (eight, as in the table): Foreign-debt interest · Loans interest · Office of SoS · War Office · Dividends · Interest on FDI · Pay and pensions · Stores (letter mapping read from the list, verify)

Army abroad (Afghanistan, Africa, China) = drain but not an HC: India gave the service. Charged to Indian military budget. Typed rule: not HC merely because paid from Indian revenues; must be a payment or liability in Britain. Wars in defence of India under HC; 1857 suppression charged to HC.

Seven or eight? L30 slides 1–2 number seven (EIC loans + foreign debt interest as item 3); table and FLOW DIPS list eight. Hold heads, not count.
Prelims 2011: key (d) 1, 2 and 3 (Indian office in London, salaries and pensions, wars outside India); teacher ticks (b) 1 and 2 ("even if Ans Key in market says (d)"); typed slide: strict academic = (b), answer to mark = (d).

Net effect: double drain. (i) Net exporter of raw material (cotton, jute, indigo, tea, opium): paper trade surplus, but forex drained by CBs, HC, guaranteed FDI interest; Ex(Rs) > Im(Rs) = trade surplus, wealth deficit. (ii) Asymmetric: British finished goods flooded tariff-favoured but worth less than raw material shipped.

3.5 DID BRITISH RULE MODERNISE INDIA? (teacher: mmp)

📖 Story link · beat 11: Because the British claimed benefits, the Moderates answered each; the teacher marks the whole debate mmp.

Railways: British argument	Counter
🌐 Linked India internally and to world via rail-to-port	Purpose: Dalhousie 48–56, 1853, faster army movement
	Direction: markets and raw materials to ports and British manufacturers, not Indian manufacturers
	Technology: very limited, only bridge-building, tunnelling
	Real goal: investment for British railway companies
	Guarantee: 5% annual interest, in pound sterling in London

👫 The 5% Guaranteed-Interest Trap (mmp): FDI became FD

→ 5% from day one, even while under construction
→ If railway earned under 5%, GOI paid shortfall
→ Right to sell back to GOI at price = total FDI (board: FDI + 5% p.a.)
→ FDI 100 pounds: at least 5 pounds a year; wrapping up before 99 years also gets 100 back
→ Land on 99-year lease free; wasteful construction, profits private, losses public; money could have gone to irrigation

Buy-back price: handout and slide = exact total FDI, with 5% paid yearly; board = FDI + 5% p.a. Hold: full FDI back plus 5% a year. Railway date: handout 1853, board 1850s: agree.

By-product was real: railways covered 78% of India by 1947 (mml); feeder roads from Indian factory hubs; more people-to-people contact, national unity, inter-regional bonds.

Canals: British argument	Counter
⚡ Role model for Asia; irrigation and food security	Quantity: by 1947 only 25% of cultivated area under public irrigation
	Geography: only non-PS 1793 areas (Punjab, western UP, coastal Madras) where LR could rise; Bengal, Bihar, Orissa little
	Access: water not free, only rich farmers
	Result: famines 1860s and 1870s, Bengal Famine 1943

Famine Commissions: Strachey 1880, Lyall 1897, MacDonnell 1900: rarely implemented seriously; structural problem untouched (extractive LR, export-oriented agriculture, poor irrigation).

British rejoinder: drain only 2%	Counter
2% of India's export value in early 1900s; paid for FDI in railways, roads, irrigation	Quantity: GDP growth not substantial

	Quality: growth regionally uneven; irrigation, health, education investment low
	Naoroji: 2% was surplus capital that would have **compounded** (2% of income over 50 years); it is what it could have become

Calibration: Utsa Patnaik 2022 estimate of drain = **$45 trillion** at 2022 prices; modernisation was an unintended by-product.

Recall drill: cover and answer

First INC goal 1885?	Building national unity	1886 / 1888 / 1889?	Naoroji political-only rule / communal veto / Minority Clause
Who did not believe in Drain Theory (1996)?	Sir Syed Ahmed Khan	Dutt's two volumes?	Economic History of British India 1902; India in the Victorian Age 1904
Drain of wealth: pre vs post?	1757–1813 (Plassey Plunder 1757–65, LR 1765) vs 1813–1947; Moderates' theory = post-1813	Four 19th-century mechanisms?	Colony role, no protective tariffs till WWI, exchange rate, Council Bills
Home Charges mnemonic?	FLOW DIPS (eight heads); army abroad = drain, not HC	Prelims 2011 key?	(d) 1, 2 and 3; teacher would tick (b)
Railway guarantee?	5% a year from day one, FDI became FD, 99 years	Canals 1947?	Only 25% of cultivated area irrigated; Strachey 1880, Lyall 1897, MacDonnell 1900
Suez Canal?	1859–69, cut 4,500 miles		

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

FDI = Foreign Direct Investment — Investment by a foreign entity with ownership or control in an Indian business

HC = High Court — State-level constitutional court (Art 214)

ML = Money Laundering — Passing illegal money through legitimate channels to hide its origin

GDP = Gross Domestic Product — Total value of goods and services produced within a country in a year

RBI = Reserve Bank of India — Central bank; regulates banks and conducts monetary policy

INDIAN COUNCILS ACT 1892 (LORD CROSS ACT)

PYQ No PYQ anchored only to this Act (Prelims 2002 in Ch 25 uses ICA 1892 as distractor; Ch 26 Mains PYQ on Moderates uses it as evidence)

✎ *The Moderates asked politely (3P) and got a shortlist, not an election: bigger councils, talk without a vote, same executive, official majority. The hollow Act showed petitions buy no power, so they raised the demand to Swaraj and a new generation took to the street.*

📖 THE STORY FIRST (same story as the textbook)

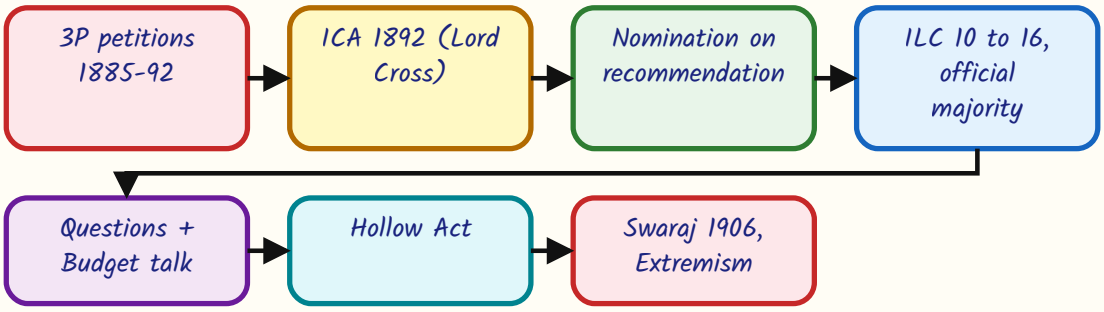

The Moderates asked politely (3P) and got a shortlist, not an election: bigger councils, talk without a vote, an unchanged executive and an official majority, plus one small federal step. The hollow Act proved that petitions could not buy real power, so the Moderates raised their demand to Swaraj and the Drain Theory, and a new generation turned to the street.

1. **Seven years of polite asking.** From 1885 to 1892 the Moderates used 3P (Prayer, Protest in Press, Petitions). The reply was ICA 1892, the Lord Cross Act, with Lansdowne 88–94 as Viceroy: a result and proof of failure.
   → But what did the Act actually give?
2. **A shortlist called an election.** Indirectly nominated members in the ILC and PLCs were a first. But 'election' was left out: for 10 seats, 50 names were asked and the Viceroy or Governor chose 10.
   → So who sent the names, and to whom?
3. **Names climb the stairs.** Tier 1: District Boards, Municipalities, Universities, Trade Associations, Zamindars sent names to the Governor for PLCs. Tier 2: PLC members and Bengal Chamber sent names to the Viceroy for the ILC.
   → Now, how big was the room?

4. **A bigger room, the same majority.** ILC additional members rose to 10 to 16 (6 to 12 in 1861), at least half non-officials. But VEC plus official members always outnumbered them: they may speak but cannot win.
   → And what about the inner cabinet?
5. **The inner cabinet stays put.** The VEC did not change: GG + C-in-C + six Ordinary Members (Finance 1861, Public Works 1874). The ILC is the VEC plus additional members, one box inside the other.
   → So what could the new members actually do?
6. **Ask and browse, never vote.** For the first time members could ask questions (6 days' notice) and discuss the Budget (no vote, no amendment). No resolutions; the Viceroy kept the veto and the 6-month ordinance power.
   → Did the provinces gain anything?
7. **One small step for the provinces.** The Governor no longer needed the Viceroy's approval to nominate non-officers to the PLC: the first relaxation since 1861. Rule-making, bill approval, single budget and creating provinces stayed.
   → Meanwhile a separate reform was happening in the services.
8. **A reform from the same years, but not the Act.** On the Aitchison Commission (1886-88), in Lansdowne 88-94's time, CCS became ICS, UCS became PCS, Statutory Civil Services ended. Administrative orders, not ICA 1892: an exam trap.
   → So how did the Moderates do overall?
9. **The scorecard: one yes, six no.** Indianisation, non-official majority, elected majority, proper indirect election, powerful legislatures and constitutionalism were refused. Only expansion of the ILC and PLCs scored a yes, a dissatisfied one.
   → Disappointed, the Moderates changed the ask.
10. **Raising the ceiling.** Disappointed, the Moderates asked for Dominion-style self-government (Australia 1901, Canada 1867). Swaraj became the INC goal at Calcutta 1906. With the Drain Theory, these were twin pillars.
    → But the method itself was in doubt.
11. **The soil for Extremism.** If prayers and petitions gave only this hollow Act, the method was bankrupt. Belief in British benevolence cracked; street protest took root, with the Bengal Partition of 1905 as catalyst.

Cast: Lord Cross = The Name on the Act · Lansdowne 88-94 = The Man on the Spot · Lytton 76-80, Ripon 80-84, Dufferin 84-88 = Little Rabbits · The Moderates = The Polite Petitioners · Gokhale and Pherozeshah Mehta = The Insiders · The Governor = The Provincial Picker · The Viceroy = The Final Picker · The Aitchison Commission = The Services Reformer · The Extremists = The Pavement Politicians

At a glance: the route of the chapter

💡 1 SIGNIFICANCE AND KEY NAMES (handout Sec. 2)

📖 Story link · beat 1: Because the Moderates had spent seven years on 3P, 1892 is their moment of truth: a result and a proof of failure.

🏛️ ICA 1892 = 2nd of 3 Councils Acts (1861, 1892, 1909)

→ Simultaneously a result of Moderates' struggle and proof of its failure
→ Method = 3P; got just enough to show British listened, too little to concede power; PROOF = did NOT bring Ltd SG
→ SoS Lord Cross; Viceroy Lansdowne 88–94 (1888 to 1894)
→ Before him: Lytton 76–80, Ripon 80–84, Dufferin 84–88 (three four-year terms, then six years)
→ Act about what councils looked like (size, membership, powers) + one small federal step

3P – Prayer · Protest in Press · Petitions (Moderates' method)

Who named the Act? PM: North Act 1773, Pitts India Act 1784. SoS: Cross 1892, Morley Minto Reforms 1909, Montagu Chelmsford Reforms 1919; Viceroy beside them: Minto 05–10 (1909), Chelmsford 16–21 (1919). Board: Freedom splits into CS, MS and [50:50 Br Indians].

🗳️ 2 THE 'INDIRECT ELECTION' THAT WAS NOT AN ELECTION (handout Sec. 3)

📖 Story link · beat 2: Because the British wanted to look generous without sharing power, they invented nomination on recommendation. Names climb tiers.

🧑‍🤝‍🧑 Most significant feature

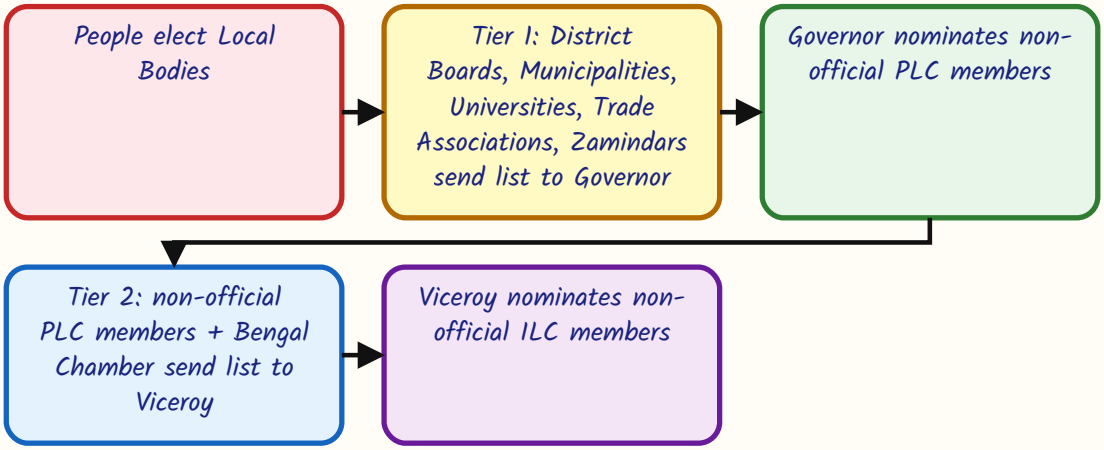

→ Indirectly nominated members in ILC and PLCs: first time something like representative membership (1861 = first GRAIN of popular character)
→ "Election" deliberately omitted; legal mechanism = nomination on the basis of recommendation: selection, not election
→ Notable Indians: Gokhale and Pherozeshah Mehta

In a 100% proper indirect election people elect local body members, they elect provincial legislators, who elect the next level. Proper election = choice of voters is FINAL (missing in 1892). Eg 10 seats: bodies send list of 50 names, Viceroy or Governor picks 10 = nominated. Proper indirect today: People elect MLAs, MLAs elect Rajya Sabha. 1892 chain: People, Local Bodies [direct], PLCs [indirect], ILC [indirect].

Local Bodies: 4 kinds (2.1: two levels, 3.1 and 3.2 in handout)

→ Urban (Municipalities)
→ Rural (Panchayats; District Boards)
→ Business Bodies (Trade Associations, Bengal Chamber of Commerce)
→ Others

🗳️ Two tiers of nomination on recommendation (voters' choice not final at both)

Exam trap: "ILC members under ICA 1892 were directly recommended by Municipalities" is WRONG. Municipalities fed the PLCs; the PLCs (non-official members, 'Politicians') + Bengal Chamber fed the ILC.

👥 3 SIZE OF COUNCILS (Sec. 4) · 4 VEC (Sec. 5)

📖 **Story link · beat 4:** Because names now reached the councils, ask the seats and the majority: promoters hold the vote. The inner cabinet stays fixed.

👥 Size

→ Both ILC and PLCs expanded; ILC 10 to 16 additional members, at least half non-officials (1861: 6 to 12, non-officials 3 to 6)

→ **Official majority guaranteed**: VEC + official additional members outnumber non-officials (promoter group always holds the board vote: independents speak, cannot win); 1861 to 1909

→ First non-officers' majority and first elected majority: GOI Act 1919 (Ch 34)

VEC unchanged (since 1874)

→ **VEC = GG + C-in-C + 6 Ordinary Members** (Box A, inner cabinet); ILC = Box A + additional members (half non-official) (Box B)

→ All nominated by the Crown; C-in-C 'sent by CoD', extra-ordinary

→ **6th Ordinary Member = Public Works 1874; 6 portfolios:** Home, Revenue/Agriculture, Law, Military (Defence Minister), **Finance (1861)**, **Public Works (1874)**

Period	VEC formula	Added
Pre 1861	GG + CIC + C1 to C4	Four Ordinary Members
1861	GG + CIC + C1 to C5	Finance = C5
1874	GG + CIC + C1 to C6	Public Works = C6
1892	No change	Still C1 to C6

👥 5 WHAT MEMBERS COULD DO (handout Sec. 6)

📖 **Story link · beat 6:** Because the room had new members, ask what they could do with the floor: ask and browse, never vote.

Lecture 30 slides: 37 significance, 38 proper election, 39 direct vs indirect chain, 40 local bodies, 41 indirect election, 42–43 two tiers, 44 two boxes, 46 VEC, 47 powers, 49 split of power, 53 impact. Handout pp. 275–279.

Power	ICA 1892
5.1 Questions	First time: 6 days' notice; no discussion; no supplementary questions (could ask, not follow up)
🔧 5.2 Resolutions	Opposition could not bring any, nor demand vote on a government resolution (resolution = formally declared intent of policy)
📜 5.3 Bills	Govt could legislate without ILC/PLCs; official majority outvotes; recommendatory not mandatory; Viceroy veto
📜 Ordinance	No change: 6-month, as ICA 1861
💰 5.4 Budget	Discussed for first time; no vote, no amendment

TWR = Taxation without Representation: slogan of the American Revolution (1776); Indians watch and speak on the Budget with zero power to change it. Board: gained (starred) = Questions + Budget; not gained = Resolutions + Bills. 💡

Six traps: (1) supplementary questions NO (2) discussion of answers NO (3) vote/ amendment on Budget NO (4) non-official resolutions NO (5) ordinance unchanged 1861 (6) no elected majority; official majority stayed.

📝 6 FEDERALISM: ONE SMALL STEP (handout Sec. 7)

📖 Story link · beat 7: Because the Centre kept every key, the one small change stands out: the Governor's nominations.

🗳️ Governor no longer needed Viceroy's sanction to nominate non-officers to PLC

→ Until ICA 1861 era sanction required; first relaxation of Viceroy's grip since 1861 (ties to S of BRASS, Ch 25)

→ Unchanged: rule-making; prior approval for certain bills; single unified budget; power to create provinces + appoint Lt-Governors

→ Board: a feature is federal if it shifts power Centre to Provinces; people belong to Democracy, federalism = law about Centre and Province

Structure (this chapter's board)	Centre	Provinces
Unitary	80% or more	20% or less
🗺️ Federal	about 50	about 50
🗺️ Confederal	20% or less	80% or more

Source conflict: Ch 25 board gives Unitary = Centre 75% or more, Provinces 25% or less; Ch 28 board gives 80% / 20% (confederal 20 / 80). Federal about 50:50 in both. Quote the thresholds as the question gives them.

📜 8 AITCHISON CHANGES: NOT PART OF THE ACT (handout Sec. 9; Sec. 8 = summary table)

📖 Story link · beat 8: Because 1892 also saw civil service renaming, the exam sets a trap: none of it was in the Councils Act.

👑 Administrative orders (Lansdowne 88-94 era; Aitchison Commission 1886-88)

→ Covenanted Civil Services (CCS) renamed ICS

→ Uncovenanted (UCS) renamed Provincial Civil Services (PCS)

→ Statutory Civil Services (created 1878) abolished

→ Federal logic: ICS at Centre, PCS in Province

Handout vs slide: (1) Statutory CS: handout 1878, slide 1879 (Ch 18: Act 1878, rules 1879). (2) Slide adds Subordinate CS: [UCS + Statutory CS posts] became (PCS + Subordinate CS); handout only UCS to PCS. (3) ICS spelt 'Imperial Civil Services' in handout and slide; Ch 18 says Aitchison proposed 'Imperial Civil Service' but 1892 kept 'Indian Civil Service'. Exam trap: if listed as ICA 1892 provision, it is NOT.

9 SCORECARD: 1 YES, 6 NO (handout Sec. 10)

📖 Story link · beat 9: Because the Moderates had asked for much, the scorecard counts what they got: one yes, six no.

Moderate demand	Won?
Indianisation of Civil Services + Military	No
Non-official majority	No
🗳️ Elected majority	No
🗳️ Proper indirect election	No (nomination on recommendation)
Expansion of ILC and PLCs	Yes, but dissatisfactory
⚡ Powerful Legislatures	No
👥 Constitutionalism (Preamble + Basic Structure)	No

📌 Handout says "six demands", scorecard has seven rows: read six not met plus one partly met. Answer: one (expansion) partially met, rest refused.

👫 10 WHAT NEXT (Sec. 11) · 11 LEGACY: CATALYST FOR EXTREMISM (Sec. 12)

📖 Story link · beat 10: Because the Act disappointed them, the Moderates changed the ask; because the hollow Act proved the method bankrupt, Extremism grew.

Moderates raise the ceiling

→ Ask SG on lines of Australia and Canada (Dominion model within the Empire): Australia dominion 1901, Canada 1867, both white-settler colonies

→ Official INC goal at Calcutta 1906: Swaraj = SG within Empire = Home Rule = Dominion status

→ Plus Drain Theory (Ch 27): political Swaraj + economic critique = twin pillars of Moderate politics

✅ Legacy: Act proved what it was: hollow (expanded councils no power, Budget talk no vote, questions no follow-up, no elections, no non-official majority). Moderates played by every rule; belief in British benevolence cracked; 3P bankrupt.
Soil = ICA 1892; Catalyst = Bengal Partition 1905 (Ch 29); consequence = street protests and mass politics under Extremists.

Feature	ICA 1861	ICA 1892
👥 Additional members ILC	6 to 12 (3 to 6 non-official)	10 to 16 (at least half non-official)
💡 Principle	First GRAIN: non-officers nominated	Nomination on recommendation
VEC	Finance 5th (C5)	Unchanged from 1874 (C6 Public Works)
Questions	No	First: 6 days' notice, no discussion, no supplementaries
💰 Budget	No discussion	First: discussion, no vote, no amendment
🗳️ Governor's PLC nominations	Viceroy's sanction	No sanction
Official majority	Yes	Yes (to 1909)
📜 Ordinance	6-month	No change

1773 North Act (PM)

1776 American Revolution: TWR

1784 Pitts India Act (PM)

1861 ICA 1861; additional 6 to 12; Finance C5

1867 Canada dominion

1874 Public Works C6

1878 Statutory CS created

1885 INC begins; struggle 1885–92

1886 Aitchison Commission 1886–88

1888 Lansdowne 88–94 Viceroy; Aitchison reports

1892 ICA 1892 (Lord Cross)

1901 Australia dominion

1905 Bengal Partition

1906 Calcutta: Swaraj goal

1909 ICA 1909: proper indirect step

1919 GOI Act: first elected majority

Practice Mains (bank): major themes of ICA 1892 (250 words); its significance for the national movement (150 words). Ch 26 Mains PYQ: why Moderates failed to carry conviction by end of the 19th century (10 marks, 150 words): ICA 1892 = evidence.

Recall drill: cover and answer

Why ICA 1892 = result and proof of failure?	3P petitions won a hollow Act	Who: SoS and Viceroy?	Lord Cross; Lansdowne 88–94
Nomination principle?	Nomination on basis of recommendation; word 'election' avoided	Two tiers?	Local bodies to Governor to PLC; non-official PLC members + Bengal Chamber to Viceroy to ILC
ILC size 1892 vs 1861?	10 to 16 vs 6 to 12; at least half non-official	Firsts for members?	Questions (6 days' notice, no supplementaries) and Budget discussion (no vote)
Federal step?	Governor needs no Viceroy sanction for PLC nominations	Aitchison changes?	CCS to ICS, UCS to PCS, Statutory CS abolished: not in the Act
Scorecard?	1 yes (expansion), 6 no	Soil and catalyst of Extremism?	ICA 1892 and Bengal Partition 1905

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)
PM = Prime Minister — Head of the Union government
PCS = Provincial Civil Services
CCS = Covenanted Civil Services

THE EXTREMISTS AND THE SWADESHI MOVEMENT (1905–11)

PYQ Prelims 1998 (three), 1999, 2002, 2004, 2008, 2009, 2010 (two), 2014, 2015, 2016 (two), 2018, 2019, 2020, 2023 ·
Mains: none real (five practice questions only)

Moderates' petitions failed, so Extremists took religion and culture to the masses. Curzon 99-05's laws and the Partition of Bengal gave them a villain and the first mass protest. The toolkit missed the poor, Muslims and Lower Castes, the INC split at Surat, and Gandhi inherited the toolkit.

THE STORY FIRST (same story as the textbook)

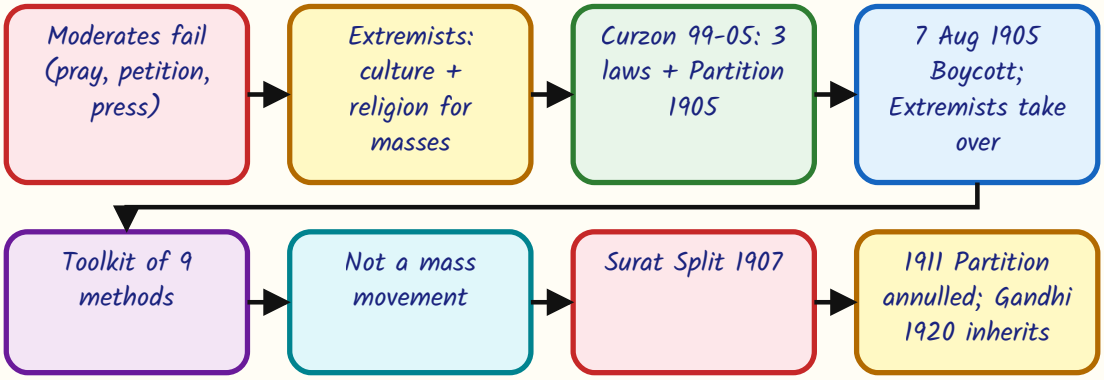

The Moderates failed, so the Extremists took religion and culture to the masses; Curzon 99–05's laws and the Partition of Bengal gave them a villain and the first mass protest; the Swadeshi toolkit could not reach the poor, the Muslims or the Lower Castes, the INC split at Surat, and the tested toolkit waited for Gandhi.

1. **The petitions that went nowhere.** Moderates have led the INC since 1885 with petition, prayer and press. By the early 1900s: no self-governance, no relief, no power. Extremists say gentle methods fail.
   → But a new generation has a different recipe.

2. **Culture becomes a weapon.** Lal-Bal-Pal and Sri Aurobindo lead. Tilak turned Ganapati 1893 and Shivaji 1896 festivals into political platforms: culture first, then political energy. Aurobindo and Pal want Purna Swaraj.
   → Then a Viceroy hands them a villain.
3. **Curzon 99-05's three orders.** Curzon 99-05 hits local self-government (1899 Act), education (1904 Universities Act) and the press (1904 Official Secrets Act). Stronger villain, stronger hero.
   → And then he cuts a province in two.
4. **The Partition of Bengal.** Announced July 1905, effective 16 October 1905. Stated reason: good governance. Indian view: Divide and Rule. Nawab Salimullah welcomes it; Muslim League follows in 1906.
   → Bengal answers first with the pen.
5. **The pen, then the boycott.** Press campaign by Surendranath Bannerjea and C.R. Das fails. The Partition still comes, so on 7 August 1905 the Moderates themselves pass the Boycott Resolution.
   → Now the Extremists take the movement over.
6. **The Extremists take over.** Extremists add Swaraj and Passive Resistance (NC + CD + CW) and take the movement beyond Bengal. At Barisal in April 1906 police stop the Bande Mataram badge procession: a big boost.
   → They need a toolkit to match.
7. **The toolkit.** Boycott and Swadeshi, national education, TISCO (1907), Swadeshi Steam Navigation Company (1906), picketing, Samitis, Jatras, religious symbols, workers' strikes. Constructive Work builds Atmashakti.
   → But a toolkit is not yet a mass movement.
8. **Why it fell short.** Swadeshi goods are costly so the poor stay out; force and social boycott hit Lower Castes and Muslims; institutions are thin; Hindu symbols put Muslims off; British imports are not hit.
   → And then the Congress itself breaks.
9. **Calcutta, then Surat.** Calcutta 1906: Naoroji presides, four resolutions. Morley's hint at reforms makes Moderates shift the 1907 session to Surat. Rai versus Rash Behari Ghosh ends in shoes hurled, Extremists expelled.
   → The Extremists are scattered.
10. **Leaders scattered, guns appear.** Tilak to Mandalay (1908-14), Aurobindo retires, Pal retires, Rai abroad (1914-20). Leaderless, so Revolutionaries (1908-11) take over. Pen failed, People came out; People failed, guns; guns failed, MG.
    → Yet the movement leaves something behind.
11. **What was left.** Nationalism stays lit, mass politics begins, the Drain is explained, and the toolkit passes to Gandhi in 1920. Partition annulled at the December 1911 Delhi Durbar; the Muslim League's birth leaves communal politics.

Cast: Curzon 99-05 = The Villain · Lala Lajpat Rai = The Punjab Wing · Bal Gangadhar Tilak = The Festival Man · Bipin Chandra Pal = The Bengal Voice · Sri Aurobindo = The Pen of Purna · Surendranath Bannerjea (SNB) = The Bridge · Dadabhai Naoroji = Bheeshma Pitamah · Rash Behari Ghosh = The Rival of Rai · V.O. Chidambaram Pillai = The Sailor · Nawab Salimullah of Dacca = The Dacca Nawab · Sakharam Ganesh Deuskar = The Writer of Desh · Ashwini Kumar Dutt = The Barisal Organiser · Hasrat Mohani = The Resolution Mover · Morley = The Reform Dangler

At a glance: the route of the chapter

Teacher's board: Curzon 99–05 = the villain, and the villain makes the hero: "Stronger villain, stronger hero (INM)". Reasons: Bengal Partition 1905 + his other authoritarian policies. Result: first time the masses protest = "imp shift in methods of INM". Board timeline: 1905–08 people's phase; 1907–11 Revolutionaries (ranges overlap by a year). Heads: Lal, Bal, Pal, Sri Aurobindo.

Source conflict: board says Revolutionaries 1907–11; handout says they rose 1908–11. Use 1908–11 for the rise (Ch 30).

PEN-PEOPLE-GUNS-MG — Teacher's chain: when Pen failed (Moderates' petitions), People came out (Extremists' mass politics); when People failed, Guns came out (Revolutionaries); when Guns failed, MG (Mahatma Gandhi) came out [1920+]. Swadeshi 1905–11 = the People phase.

🎯 1 · WHY THE EXTREMISTS ROSE PYQ 1998 PYQ 2008

📖 Story link · beat 1: Because the Moderates' petitions had failed, the Extremists look for a new recipe: culture, religion and a villain.

🧑‍🤝‍🧑 Extremist phase 1905–20

→ By 1905 the Moderate phase of the INM ended

→ Lala Lajpat Rai (Punjab), Bal Gangadhar Tilak (Maharashtra), Bipin Chandra Pal and Sri Aurobindo Ghosh (Bengal) = Lal–Bal–Pal and Aurobindo

→ Goal: Swaraj within the British Raj (most); Purna Swaraj (Sri Aurobindo and B.C Pal)

Teacher's board (INM vs INC): INM is the movie, INC the hero. INC dominated by Moderates 1885–1918, ~1920; INM dominated by Moderates 1857–1905; Extremists dominated the INM 1905–20; MG dominated the INM 1920–47 (written like "1990–47", unclear). Extremists led the movement, never the organisation: INC control passed to Gandhi at Nagpur 1920.

Swaraj (board) = power of L, E, J (legislative, executive, judicial). External part stays with the British; domestic part comes "significantly" to Indians, 75% to 100% = Dominion Status. Extremists did not believe in the Providence of British rule (that it was a blessing). Swaraj more practical than Purna Swaraj, so most asked for Swaraj within the Raj.

🧑‍🤝‍🧑 Sri Aurobindo: first Purna Swaraj demand

→ Studied at Cambridge; qualified for the CSE 1890 but deliberately skipped the horse-riding test

→ Joined Baroda Princely State civil service; Vice-Principal of Baroda College

→ First to publicly demand absolute independence, 1907, through writings in Bande Mataram (not an INC resolution)

→ First formal Purna Swaraj resolution in INC = Hasrat Mohani (with Swami Kumaranand), 1921 Ahmedabad: rejected, mainly on Gandhi's opposition (premature, irresponsible, masses not disciplined or prepared)

Teacher's board: "Every phase of the INM was born from the failure of the phase before it." Chain: pre-1857 revolts, 1857 Revolt, modern INM, failure of conservative earlier organisations, WEMC-led regional organisations, INC under Moderates, Moderates' failure, Extremists, Extremists' failure, Revolutionaries ... until Gandhi. Each failure raised the temperature of the next response. ⭐

Three drivers (board: 1, 2, 3)

→ 1 Moderates had failed: led INC since 1885; petition, prayer, press yielded nothing (no self-governance, no economic relief, no political power); proof gentle methods do not work

→ 2 Mass mobilisation via religion + culture (CULTURE tree: Religion, Indian Historical Heroes): Moderates' base = WEMC (Western Educated Middle Class); Extremists wanted the religious masses. Tilak: Ganapati Festival 1893, Shivaji Festival 1896

→ 3 Curzon 99-05: arrogance and authoritarianism alienated even moderate opinion; laws showed administration would not reform itself

Nationalism (board) has three faces: Cultural, Economic (Drain Theory), Political. Step 1 culture raises passion among the non-Western-educated masses (Religion, Historical Heroes); Step 2 convert into political energy. "Emotion = energizer of Action." Netaji Bose: "Sv" = spiritual father of INM in Bengal = cultural nationalist (probably Swami Vivekananda; check notebook). Cultural nationalism often first step to political (Tilak 1890s = European nationalists 1820s-30s). 💡

📜 2 · CURZON 99-05'S THREE LAWS PYQ 2015 PYQ 2019

📖 Story link · beat 3: Because Curzon 99-05 hit local government, education and the press, anger was ready before the Partition.

Law	What it did	Pillar hit
📜 Calcutta Municipal Corporation Amendment Act, 1899	Reduced elected members in municipalities; rolled back "Swaraj in 1882" (Ripon 80-84 local-body Resolution)	Local self-government
📜 Indian Universities Act, 1904	Universities under direct government control; Curzon 99-05: "factories of sedition"	Education
📜 Indian Official Secrets Amendment Act, 1904	Power to censor and confiscate any publication hurting British interests; communicating an "official secret" (anything on State affairs or notified) a crime. In force till Indian Official Secrets Act, 1923 (stricter)	The press

Board: pyramid Centre, Provinces, Local Bodies. Official secrets = State or Government secrets (vs private ORG secrets, IPR): info which if public can hurt stability. Educated Indians wrote petitions, edited newspapers, ran the INC: education policy = colonial control policy. 💡

Prelims 2004 (Viceroy order): Curzon 99-05, Hardinge 10-16, Chelmsford 16-21, Irwin 26-31 = (a) 1, 3, 2, 4. Trap (c) 1, 4, 2, 3 puts Irwin second. Prelims 2015: split into Moderates and Extremists came from the Swadeshi Movement (others later: Quit India 1942, Non-Cooperation 1920-22, Civil Disobedience 1930-34). Prelims 2019: crafts revival and National Council of Education = both true. Prelims 2023: 7 August = National Handloom Day = Swadeshi launched 1905: (a) both correct, II explains I. ✅

🎯 3 · PARTITION OF BENGAL: ANNOUNCED JULY 1905, EFFECTED 16 OCTOBER 1905 PYQ 2009 PYQ 2010

📖 Story link · beat 4: Because the anger was ready, one more act lit it: Curzon 99–05 cut Bengal in two.

Year	Bengal's administrative change
1765	Diwani of Bengal Suba (Bengal, Orissa, Bihar); 1775 Benaras annexed into Bengal Presidency
1801	Half of Awadh ceded (Treaty of Lucknow 1801, Subsidiary Alliance = SA) = "Ceded Provinces"; Scindia's territory (2nd Anglo-Maratha War 1803–05) added = "Ceded and Conquered Provinces"
1803	Orissa: Bhonsle of Nagpur defeated, 2nd Anglo-Maratha War (Diwani since 1765 had practically covered only Midnapore)
1826	Assam annexed: Treaty of Yandabo 1826, 1st Anglo-Burma War (1824–26)
1836	NWP 1836 created: Ceded and Conquered Provinces separated
1874	Assam carved out as a Chief Commissioner (CC) Province (UT equivalent, not a Lieutenant-Governor province)
1874–1905	Bengal Presidency = Bengal + Orissa + Bihar; Assam separate CC Province
1905	Bengal (= WB + Bihar + Orissa) + new EBA (East Bengal & Assam = EB + Assam)
1911	Annulled: Bengal = WB + EB; Assam and "Bihar & Orissa" separate
1936	Bihar & Orissa full separate provinces

Board: 1947: [EB + Sylhet from Assam] = EP (East Pakistan). Quote marks on Bengal, Assam, Bihar & Orissa = political names. 1905: EBA held Assam Tea Gardens, Assam-Bengal Railways, Chittagong Port; Calcutta Port stays in Bengal. 1911 restored the pre-1905 map. 💡

🗺️ Stated reason: good governance

→ Undivided Bengal = most populous province, too large (high population)

→ 3 benefits ("will get", "when EBA"): (1) proper Lieutenant-Governor province with own civil services cadre (2) Assam-Bengal Railways under unified EBA administration (3) Assam's tea gardens: cheaper maritime outlet via Chittagong port (ease of doing business)

Real reason: Divide and Rule (DnR)

→ 1 Bengalis a minority in West Bengal (diluted by Bihar and Orissa): Bengali INM leaders weak (e.g. would not win indirect elections to the Imperial Legislative Council, ILC)

→ 2 DnR: divide Bengalis, and Hindus vs Muslims: Hindus a minority in EBA; INM led by Bengali Bhadralok (UC Hindu educated professionals); base shrinks in both provinces

→ 3 Co-opt elite Muslims; counter Hindu cultural nationalism: EBA designed as a Muslim Majority Province (MMP)

→ Logical fix = language-based partition (cf. States Reorganisation Act 1956): Orissa, Bihar, Bengal, Assam as provinces; INM leaders wanted this

Hindu cultural nationalism rising (1880s–90s)

→ Bankim Chandra Chatterjee's Anandamath (1882): Bharat Mata, composed Bande Mataram

→ Swami Dayanand Saraswati (died 1883) and Swami Vivekananda built it ideologically

→ Ganapati Festival 1893, Shivaji Festival 1896

→ Nawab Salimullah of Dacca + elite Muslims welcomed the Partition; Muslim League (ML1906) a year later actively supported it, worked with the Ulamas (who control Muslim masses): deepened communal lines

Prelims 2009: 16 October 1905 = Partition took effect ((a) Boycott Resolution = Aug 1905; (c) Naoroji's Swaraj = Dec 1906; (d) Swadeshi began in Bengal, not Poona). ✅ Prelims 2010: immediate cause of Swadeshi = Partition by Curzon 99–05 (traps: Tilak's 18 months' imprisonment; arrest and deportation of Lajpat Rai and Ajit Singh with Punjab Colonisation Bill, two years later; Chapekar brothers 1897 Poona).

🎯 4 · EVENTS DURING SWADESHI PYQ 1998 PYQ 2016 PYQ 2020

📖 Story link · beat 5: Because the Partition was announced, Bengal answered in steps: first the pen, then the Boycott, then the Extremists take over.

Teacher's board: who initiated? Bengal Moderates (7 Aug 1905 = date of Swadeshi movt). Who led? the Extremists ("take over"). Opposition to Risley Papers by Mod + Ex (both). Barisal police repression = "Big Boost to movt". ⭐

1903
Risley Papers (H.H Risley, Home Secretary): Curzon 99–05's Minute on Territorial Re-distribution with Partition plan, in Gazette of India (Risley letter 3 Dec 1903, Gazette 12 Dec 1903)

1903–05
Moderate phase: SNB + C.R. Das press campaign (Bengalee, Sanjibani, Hitabadi); Constructive Swadeshi, e.g. Tagore's ShantiNiketan Ashram 1901; failed. Board: Dec 1903 – July 1905 = 1.5 yrs of 3 Ps; proof of Moderates' failure (ICA 1892 + Partition)

1904
Desher Katha by Sakharam Ganesh Devskar: economic exploitation; "Desh" = whole subcontinent, not just Bengal; Bangla, Drain Theory; warned against hypnotic conquest of the mind, inspired Swadeshi plays

7 Aug 1905
Boycott Resolution, Calcutta Town Hall: Moderates SNB, K.K Mitra, Anand Mohan Bose, P.C. Ray

April 1906
Barisal Conference: SNB + Aurobindo Ghosh distributed Bande Mataram badges; police repressed the procession before it began

Extremists take over: widen goal and method

→ To annulment of Partition add Swaraj
→ To Boycott + Swadeshi add Passive Resistance (PR): NC + civil disobedience (CD) + threat of violent agitation if repression
→ Took the movement out of Bengal
→ Bande Mataram = anthem of the movement; link with Bharat Mata and Hindu symbols later strained Muslim participation

Region	Extremist leader
Bengal	C.R. Das and B.C. Pal
Bombay	Tilak
Delhi	Syed Haidar Raza
Punjab	Lala Lajpat Rai and Ajit Singh
Madras	V.O. Chidambaram Pillai

PYQs: 1998 A–R Partition ended Moderates' role (A) / Surat separated Extremists (R): (d) A false, R true (Moderates passed the Boycott Resolution 7 Aug 1905; R true: Surat 1907, reunited only 1916). 2008 'New Lamps for Old' = Aurobindo Ghosh (others: R.C. Dutt drain; Syed Ahmad Khan; Viraraghavachari). 2016 Swadeshi and Boycott first used in the agitation against the Partition. 2018 biographer of Mazzini, Garibaldi, Shivaji, Shrikrishna; America; Central Assembly = Lala Lajpat Rai. 2020 Desher Katha (a) 1 and 2 only. 2002 NOT correct = (a) Liakat Hussain led Muslim peasants of Barisal; true: (b) national education scheme Satish Chandra Mukherjee 1889, (c) Bengal National College 1906, Aurobindo Principal, (d) Tagore's Atmasakti (regeneration of villages). ✅

Source conflict 1998: class slide marks "T" on both A and R; handout, bank key and answer slide give (d). Use (d); check notebook for what the teacher said about A. Teacher wrote a "T" over both statements.

🎯 5 · EXTREMIST METHODS: THE NINE PYQ 2002 PYQ 2019

📖 Story link · beat 7: Because the Extremists wanted the masses, they built a many-sided toolkit to match.

Passive Resistance = NC + CD + CW + violence if repression

→ Test: Active Resistance = Step 1 is violence (Revolutionaries); in PR Step 1 is never violence, only if government answers with repression (stones, burning, not an AK-47)

→ Non Cooperation = always legal, so non-violent: coin with two sides, Boycott and Swadeshi

→ Civil Disobedience = civilians break an unjust law or unjust orders: always illegal (violent or non-violent)

→ Constructive Work (CW) = SOCIAL domain (other methods POLITICAL)

Constructive Work: 4 strands + goals

→ NGO-like activity; welfare of poor (vernacular education, skill development, health awareness); use of religion and spirituality for confidence; alcohol de-addiction

→ Goal 1: individual Atmashakti (Atmanirbharta, self-reliance)

→ Goal 2: community Atmashakti via Hindu-Muslim unity, UC-LC unity, women's empowerment: "Unity is Power"; proofs: cooperatives (milk, Amul; banks) and SHGs

→ CW did: "SDS 1875", "SV (RkMission 1897)" = probably Dayanand Saraswati (Arya Samaj 1875), Vivekananda (Ramakrishna Mission 1897): "Service of Jiva = Worship of Shiva (Daridra Narayan)"

→ Today's CW leads to tomorrow's political movement; positive in INM, negative after 1947 by NGOs against national interest

📚 Boycott = no cooperation with 3 organs + titles, education, British goods

→ Legislature: candidates do not fight, MLAs/MPs resign, voters do not vote

→ Executive: no minister, CS or MS; holders resign

→ Title: renounce; Education: do not teach or study the Brown Sahib syllabus

→ Judiciary: no cases, lawyers strike, judges resign. Swadeshi = matching construction: National / Swadeshi education ("1882: Edu made a free enterprise"; board also "1870: Bengal Govt expenditure on Higher Edu"); civil cases = panchayats and arbitration courts

→ British goods: supply side (importers, port workers, merchants), demand side (shops, people, picketing volunteers, social boycott); Indian-run-by-British (FDI) hit by workers' strikes in "browned" enterprises; answer = Swadeshi enterprises

No.	Method	Detail
i	NC, Boycott, CD, violent agitation	NC with Swadeshi, CD (violating unjust laws); violent agitation if police repression
ii	Constructive Work	Alongside confrontation, for awareness and mass mobilisation
iii	National Education	After Indian Universities Act 1904: Bengal National College (Aurobindo principal), National Council of Education (NCERT equivalent; slide "NCERT + Sciences + Humanities"), Bengal Technical Institute
iv	Swadeshi enterprises	Soap, matches, chemicals, steel, banking, shipping (table below)
v	Picketing	Stop sale of British goods at shops and liquor outlets; drew in women
vi	Samitis (volunteer corps)	INC had no ground-level structure (3-day annual conference; PCCs set up 1886 dysfunctional). Swadesh Bandhab Samiti 1905, Ashwini Kumar Dutt, Barisal: CW among Muslim ryots, organised Barisal Conference 1906
vii	Jatras	Traditional theatre: awareness + emotions = mobilisation of masses who do not read newspapers

viii	High use of religion	Prabhat Pheris (processions after morning worship), Tilaks, religious pledges, Kali worship; Maharashtra: Ganpati 1893, Shivaji 1896
ix	Workers' strikes	C.R. Das, Liaqat Hussain, B.C Pal in foreign-owned enterprises (supply side)

Swadeshi enterprise	Founder and detail
TISCO (Tata Iron & Steel Company)	Conceived by Jamsetji Tata; established by Dorabji Tata, 1907
BCPL (Bengal Chemicals & Pharmaceuticals)	P.C. Ray
BSS (Bombay Swadeshi Stores)	Tilak and others
Swadeshi Steam Navigation Company (1906)	V.O. Chidambaram Pillai, Tuticorin; vs British monopoly of coastal shipping (British India Steam Navigation Company)
PNB (1894) and Lakshmi Insurance Company (1906)	PNB: Dyal Singh Majithia, Lala Harkishen Lal, significant involvement of Lala Lajpat Rai; L.L. Rai also promoted DAV (D.A.V., Dayanand Anglo-Vedic), Lahore Indian Association (1878), led Punjab Canal Colony Agitations (1907)

Trap: PNB (1894) is older than Swadeshi; only Lakshmi Insurance (1906) is dated inside the movement. Do not date PNB to 1905–11. Source conflict (Liaqat Hussain, Prelims 2002): handout and slide put him among Swadeshi workers' strikes (with C.R. Das, B.C Pal); answer slide and bank call Barisal peasant agitation "a later salt-breaking agitation of the Civil Disobedience era". Answer stays (a). Remember him by the handout: Swadeshi strikes, not Barisal peasants.

🎯 6 · WHY SWADESHI WAS NOT A MASS MOVEMENT PYQ 1998

📖 Story link · beat 8: Because a toolkit is not a movement, the mass base never formed.

Board: how to judge any movement: (1) goal achieved or not; (2) people's participation by region (rural, urban; N, S, E, W) and group (LC, UC; Hindu, Muslim; rich, poor; peasants, working class, capitalists; men, women); (3) Modern Politics criteria: clear ideology, clear goals, programme (methods), strong united leadership, organisation (ORG), voice (+ money). First real mass movement in INC history, not fully successful.

Reason	Detail
6.1 Costly goods	Too few enterprises, dearer goods: low participation by poor (Muslim ryots, Lower Castes (LC), blue-collar workers, peasants)
6.2 Force and social boycott	Student leaders and volunteers used force and social boycott against LC and Muslims who did not join
6.3 Few institutions	Arbitration courts, educational institutions, enterprises stayed thin
6.4 Low Muslim participation	(i) Jatras showed Muslims and British as collaborators; (ii) ML1906 (Nawab Salimullah of Dacca) backed Partition, partnered Ulamas; (iii) Hindu symbolism (Bande Mataram, Kali worship). Board: In Bengal ~50% Muslims
6.5 Capturing the INC	Factionalism: takeover of INC distracted from ground mobilisation

Result: overall mass mobilisation failed; British goods imports not significantly impacted (i.e. Br imports not impacted): boycott failed on its primary economic objective. Handout: UC leadership gives low LC participation: recurs from Social Reformers (Ch 19) to Moderates (Ch 26) to Extremists. Prelims 1998: Muslims not attracted because of (d) Extremists' policy of harping on the Hindu past (board: (a) Sir Syed F, (b) anti-Muslim attitude F, (c) indifference F, (d) T).

After Surat 1907: leaders scattered

→ Tilak deported to Mandalay, Burma (1908–14)

→ Aurobindo retired from active politics; B.C Pal retired temporarily

→ L.L Rai abroad 1914 to 1920: London, then US, Indian Home Rule League of America

→ Leaderless by 1908: Revolutionaries rose (1908–11), concluding passive resistance and mass politics had failed (Ch 30)

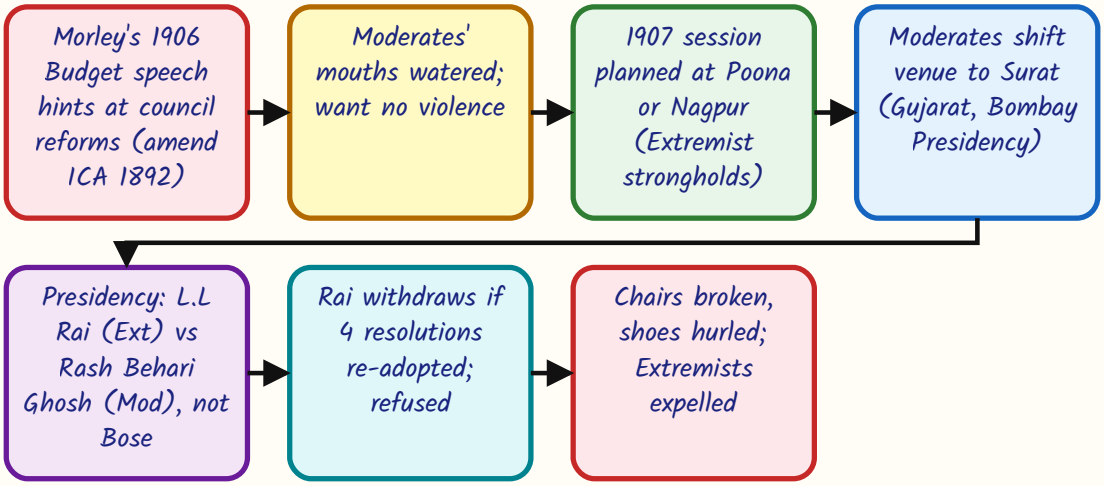

🎯 7 · THE SURAT SPLIT 1907 PYQ 2010 PYQ 2015 PYQ 2016

📖 Story link · beat 9: Because the Moderates feared losing the INC, the Congress itself broke at Surat.

Camp (board)	Position
Bombay + Madras Moderates	Constitutional; opposed violence, CD, Boycott, mass politics; did not want Swadeshi outside Bengal
Bengal Moderates	Pro non-violent Boycott; not CD or violence
Extremists	CD, NC, violence as Step 2
Calcutta 1906	= mid path; President Dadabhai Naoroji ("Bheeshma Pitamah"); goal undisputed (Swaraj)

Calcutta 1906: FOUR resolutions = goal Swaraj + methods Boycott, Swadeshi, National Education (no CD, no violence). Partition condemned separately (Prelims 2010: annulment of Partition was NOT one of the four). Tilak set up an Extremist/Nationalist party within the INC to convert it from within. Moderates' fear: armchair intellectuals losing the INC to mass politics. ⭐

How Surat 1907 happened

Teacher's board: "Surat Split 1907 = failure of the mid path = success of the British DnR"; 1906 session and 1907 split are both DnR (Moderates vs Extremists). Rai withdrew for fear of split, on condition the four resolutions be re-adopted, especially Boycott by masses. Moderates: self-government within the empire fine; opposed mass politics. Extremists expelled Dec 1907 to Lucknow, Dec 1916. Regional pattern: uneven Western education = uneven INM (Marathi) Bombay and Poona, Madras, Calcutta. Analogy: Extremists = Lok Sabha MPs (people's leaders); Moderates = Rajya Sabha MPs (intellectuals). ⭐

British DnR (board): under EIC: PoRF (Policy of Ring Fence), SA (Subsidiary Alliance), succession disputes (Ch 10, 11), Peel Commissions, Martial Races + Cantonments; from 1857: PS 1793 (Permanent Settlement), Macaulay's minute, Bengal Partition. Partition divided three ways: Bengalis, Hindus vs Muslims, Moderates vs Extremists. 💡

After Surat

→ 1908 Allahabad Convention (Mehta Congress): small meeting of senior INC leaders, declared "we are loyal to the Raj"; 1908 INC Annual Session at Madras, President Rash Behari Ghosh

→ INC divided until 1920, when Gandhi united Moderates and Extremists (split lasted 13 years); Extremists re-entered 1916 (Lucknow), but re-entry is not agreement on methods

→ First organisational crisis of INC; both wanted Swaraj, split over method

Source conflict, Prelims 1999 (pray and petition ended under): handout and bank key = (b) Tilak (Extremist party within INC); teacher's board = (d) Gandhi, with "1906 TEMPORARY" (end of petitions in 1906 only temporary: Surat 1907, Allahabad 1908) and "INC: 1885–1918, ~1920". Follow the board (d); keep (b) in mind; check notebook.

Prelims 2016: main reason for Surat = (b) Extremists' lack of faith in the Moderates' capacity to negotiate; board writes "METHODS": method, not goal. Traps: (a) Minto's communalism (1909, after Surat), (c) founding of ML, (d) no Aurobindo presidency bid. ✅

8 · IMPACT AND THE DELHI DURBAR 1911 PYQ 2014

📖 Story link · beat 11: Because the movement failed in its aim but not in what it taught, the toolkit passes to Gandhi.

Impact	Detail
8.1 Nationalism never came down	Consciousness in Bengal and Maharashtra did not subside
8.2 Foundation of mass politics	First attempt to involve the Working Class (WC), masses (not only WEMC): WC movement and Revolutionary activities grew
8.3 Economic awareness	Drain of Wealth understood; Boycott became future tool. To convince the poor to buy costlier Swadeshi, leaders had to explain Drain
8.4 Symbols	Bande Mataram = anthem of INM; Tagore's Amar Sonar Bangla (written against Partition) = later national anthem of Bangladesh
8.5 Methods for future	PR (NC + CD), CW, Jatras, Prabhat Pheris: later used by Gandhi, a tested toolkit (board: for mass mobilization)
📬 8.6 Petitions to mass action	INM moved to mass action under Extremists, but INC stayed under Moderate control until 1920 Nagpur Session (not "Extremist control of INC in 1905")
8.7 Capital to Delhi 1911	Announced at Delhi Durbar, December 1911, coronation of King George V and Queen Mary; cut Bengal's dominance. Board: new King/Queen = Imperial Durbar; goal of Partition = weaken INM in Bengal; politics in the capital gets extra TRACTION: Curzon 99–05 got his strategic outcome
8.8 Birth of ML1906	Formal, organised beginning of communal politics, shadow to 1947

Prelims 2014: Partition lasted until (b) 1911, George V at the Royal Durbar in Delhi. Traps: (a) WWI = 1914–19; (c) CDM = 1930–34; (d) confuses 1905 with 1947. Handout: political symbols, marches, songs also helped earlier peasant revolts (Ch 22). ✅

Feature	Moderates	Extremists
Goal	Self-government within the empire	Swaraj within the Raj (most); Purna Swaraj (Aurobindo, Pal)
Method	Petition, prayer, press	Boycott, Swadeshi, PR (NC + CD + CW), violent agitation only if repression
Base	WEMC, newspapers, annual sessions	Religious masses via culture, Samitis, Jatras
Mass politics	Opposed (Bombay, Madras)	The method
Leaders	Naoroji, SNB, Rash Behari Ghosh	Lal-Bal-Pal, Sri Aurobindo

1882 Anandamath	**1885** INC founded	**1890** Aurobindo CSE	**1893** Ganapati
1896 Shivaji Festival	**1899** Curzon 99–05; Municipal Act	**1901** ShantiNiketan	**1903** Risley Papers
1904 Universities, Official Secrets, Desher Katha	**1905** July Partition announced; 7 Aug; 16 Oct; EBA	**1906** Barisal; Calcutta; ML; SSNC; Bengal National College	**1907** Surat; TISCO; Canal Colony
1908 Mandalay; Allahabad; Madras	**1911** Durbar	**1914** Rai abroad to 1920	**1916** Lucknow
1920 Nagpur	**1921** Mohani	**1936** Bihar and Orissa	

Recall drill: cover and answer

Which Prelims 2004 order of Viceroys?	Curzon 99–05, Hardinge 10–16, Chelmsford 16–21, Irwin 26–31	Three laws of Curzon 99–05 and the pillar each hit?	Municipal 1899 (local self-govt), Universities 1904 (education), Official Secrets 1904 (press)
Partition of Bengal: announced / effected / annulled?	July 1905 / 16 October 1905 / 1911 Delhi Durbar	Who passed the 7 Aug 1905 Boycott Resolution and where?	Moderates SNB, K.K Mitra, Anand Mohan Bose, P.C. Ray at Calcutta Town Hall
Four resolutions of Calcutta 1906 (Naoroji)?	Swaraj, Boycott, Swadeshi, National Education; annulment of Partition was separate	Nine Extremist methods start and end with?	i NC/Boycott/CD/violent agitation … ix workers' strikes (C.R. Das, Liaqat Hussain, B.C Pal)
Why not a mass movement? (5)	Costly goods, force/social boycott, few institutions, low Muslim participation, capturing INC	Surat 1907: contest, venue, cause?	L.L Rai vs Rash Behari Ghosh; shifted from Poona/ Nagpur to Surat; METHODS not goal
First public demand vs first formal INC resolution for Purna Swaraj?	Aurobindo 1907 (Bande Mataram) vs Hasrat Mohani 1921 Ahmedabad, rejected	Pen, People, Guns, ?	MG (Mahatma Gandhi) 1920+

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

ML = Money Laundering — Passing illegal money through legitimate channels to hide its origin

UT = Union Territory — Area administered directly by the Union government

NGO = Non-Governmental Organisation — Private voluntary body working for social causes

FDI = Foreign Direct Investment — Investment by a foreign entity with ownership or control in an Indian business

SNB = Surendranath Bannerjea

CC = Chief Commissioner

MMP = Muslim Majority Province

PR = Passive Resistance

CW = Constructive Work

LC = Lower Castes

WC = the Working Class

REVOLUTIONARY ACTIVITIES AND REPRESSION OF EXTREMISTS

PYQ Prelims 1995, 1996, 1999 (two), 2000 (two) · Mains: none asked; teacher: Mains potential FYQ (no PYQ). Practice: major themes (250 words); significance for INM (150 words); Jugantar vs Dhaka Anushilan

✎ After the Extremists fell by 1908, a small committed group chose arms: repeat 1857 later, heroic action now. Secret societies and centres abroad fed attacks (1907-12); the

British answered with the CID and Cellular Jail. It gave pride, helped 1911, and Rash Behari Bose's line runs to the INA.

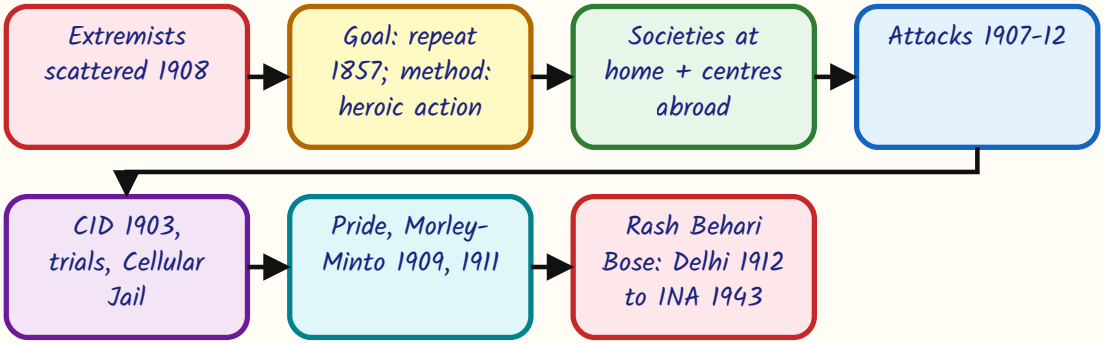

📖 THE STORY FIRST (same story as the textbook)

After the Extremists fell by 1908, a small committed group chose armed struggle: repeat 1857 in the long run, heroic action now. Their secret societies and centres abroad fed a string of attacks (1907–12), the British answered with the CID and the Cellular Jail, and the phase ended repressed but not futile: it gave pride, helped bring 1911, and its Rash Behari Bose line runs to the INA.

1. **Pen, People, Guns.** By 1908 the movement is leaderless: Tilak in Mandalay, Aurobindo and Pal retired, Rai abroad. Pen failed, People came out; People failed, Guns came out; Guns failed, MG came out (1920+).
   → So the Revolutionaries gave two answers at once.
2. **Two answers: a long game and a quick strike.** Long game: repeat 1857 through civil rebellion and army disaffection. Quick strike: assassinate hated officials to remove fear and arouse nationalism. A trial becomes a stage.
   → Heroic action needed structure, so they built societies.
3. **Bengal builds the Anushilan.** 1902: Pramathanath Mitra founds the Anushilan Samiti, Calcutta. By 1906 an impatient inner circle forms round Barindra Kumar Ghosh's Jugantar. The British reply with the CID in 1903.
   → But Bengal was only one stream, and the two streams soon diverged.
4. **Jolt now, drill for later.** Jugantar: loose, propaganda of the deed. Dacca Anushilan (Pulin Behari Das, 1906): rigid, long-term, Repeat 1857. Savarkars turn Mitra Mela (1899) into Abhinav Bharat (1904).
   → Now the Revolutionaries looked beyond India's borders.
5. **Why go abroad? VOICE.** VOICE: free speech, weapons despite the Arms Act 1878, killing officers in England, diplomatic pressure, NRIs. Savarkar in London, Hardayal in the USA, Shyamji's India House 1905, Cama's flag at Stuttgart, August 1907.
   → With arms and money needed, the actions began.
6. **1908: Barrah, Muzzafarpur and the bomb that missed.** Dacca Anushilan loots the Zamindar of Barrah. At Muzzafarpur Chaki and Khudiram Bose miss Kingsford; two English women die. Chaki kills himself; Khudiram, 18, is executed: an instant martyr.
   → The bomb alarmed the British into a wider crackdown.
7. **Alipore and the Andamans.** The Alipore Case brings mass arrests. C.R. Das defends Aurobindo and B.C. Pal refuses to testify, so he is not convicted and flees to Pondicherry. Barindra Kumar Ghosh goes to the Cellular Jail.
   → Even a newspaper could now be sedition.
8. **Tilak, Kesari and Jinnah.** In Kesari, Tilak condemns Muzzafarpur violence but defends Chaki and Bose: oppression breeds violence. Charged with sedition, six years at Mandalay, with Jinnah defending him.
   → Meanwhile Abhinav Bharat struck at home and abroad.
9. **1909: Dhingra, Nasik and Savarkar's sentence.** 1909: Dhingra kills Curzon-Wyllie in London, who was not Curzon 99–05. Kanhere kills Jackson at Nasik with Savarkar's pistol. 1910: Savarkar gets transportation for life.
   → Repressed, the phase still left its mark.
10. **Pride, reform and Delhi.** The Revolutionaries gave pride, and the Morley-Minto Reforms of 1909 tried to buy peace. In 1911 the Partition was annulled and Delhi became capital. Curzon 99–05 lost the map but won the plan.
    → One more bomb fell in the new capital, and its thrower's story did not end.
11. **Rash Behari Bose to the INA.** 1912: Rash Behari Bose bombs Hardinge 10–16 at Chandni Chowk; Hardinge survives. Ghadar 1913–15, Japan 1915, IIL 1942, first INA under Mohan Singh, then handed to Netaji in 1943.

Cast: P. Mitra (Pramathanath Mitra) = The Parent · Barindra Kumar Ghosh = The Younger Brother · Aurobindo Ghosh = The Escapee · Pulin Behari Das = The Disciplinarian · V.D. Savarkar (Veer Savarkar) = The Narrator · Shyamji Krishna Varma = The Voice in London · Madame Bhikaji Cama = The Flag-bearer · Khudiram Bose = The Instant Martyr · Prafulla Chaki = The Partner · Bal Gangadhar Tilak = The Editor in Jail · Madan Lal Dhingra = The London Strike · Rash Behari Bose = The Bridge to the INA

At a glance: the route of the chapter

PEN-PEOPLE-GUNS-MG — Teacher's chain: When Pen failed, People came out; when People failed, Guns came out; when Guns failed, MG came out [1920+]. Pen = Moderates; People = Extremists' mass politics; Guns = Revolutionaries; MG = Mahatma Gandhi. Each failed approach bred a more radical successor.

Priority (teacher): Mains = potential future question, no past question; Prelims = some questions. A list-and-link chapter: who founded what, when, with which method, and what the British did in reply. Practice: examine major themes, Rise to Result (250 words); significance for INM (150 words); compare Jugantar and Dhaka Anushilan.

0 · AFTER SURAT 1907

📖 Story link · beat 1: Because the Extremists were scattered and the movement leaderless, someone had to answer: what next?

Extremist leaders scattered

→ Tilak deported to Mandalay, Burma (1908–14)
→ Aurobindo retired from active politics; B.C. Pal retired temporarily
→ L.L. Rai abroad (1914–20), Indian Home Rule League of America
→ Leaderless by 1908: Revolutionaries rose (1908–11): even passive resistance had failed

1 · RISE OF REVOLUTIONARIES

📖 Story link · beat 2: Because mass politics had failed, a small group chose arms with two aims: a long game and a quick strike.

Model	Method	Tool
Mass politics (Extremists)	The people: NC, CD, violence only if repression (stones, burning)	Not an AK-47
Armed struggle (Revolutionaries)	A committed small group	AK-47

Two answers, pursued at once

→ Long-term goal (LTM): repeat 1857: civil rebellion + disaffection in the army, eroding the British military base (not immediate action; points to the Dhaka Anushilan's long-term preparation)
→ Immediate method: individual heroic action: assassinate hated British officials to strike fear in British hearts, remove fear of the British from Indians, arouse nationalism
→ Courtroom = platform: public trial = propaganda; death sentence = supreme sacrifice that inspires
→ Propaganda by deed not unique to India: Russian Narodniks, later Socialist Revolutionary Party (1870s–80s); Savarkar admired Mazzini

🎯 2 · ORGANISATIONAL NETWORK PYQ 1995 PYQ 1996 PYQ 2000

📖 Story link · beat 3: Because heroic action needed structure, they built societies: first the Anushilan and Jugantar in Bengal.

Two types of organisations

→ Secret societies inside India

→ Centres abroad: greater freedom, acquire weapons, produce propaganda; the two networks fed each other

5 reasons to go abroad ("VOICE", board)

→ (1) Diplomatic pressure by highlighting colonialism

→ (2) Greater freedom of speech, newspapers = "Voice" (modern-politics word for platform)

→ (3) Procure weapons and send to India (Arms Act 1878 made them hard to get)

→ (4) Assassinate British officers at "Home in England"

→ (5) NRIs: awareness and nationalism

→ International help from enemies of the British = "Weapons and Rupee"; abroad a PUBLIC ORG possible (e.g. IHRS)

Organisation	Year, place	Leaders and key point
Anushilan Samiti	1902, Calcutta	Pramathanath Mitra (P. Mitra), S C Basu; outer: physical training + character building; inner: armed resistance; parent body; Goal = Repeat 1857
🆕 Jugantar ("New Era")	1906, Bengal	Barindra Kumar Ghosh (Aurobindo's younger brother), Bhupendranath Datta, Abinash Bhattacharya; anti-British newspaper + party
Dacca Anushilan Samiti	1906, East Bengal	Pulin Behari Das, backed by P. Mitra and Bipin Chandra Pal; massive, distinct offshoot (board: Repeat 1857)
Mitra Mela, then Abhinav Bharat (Young India)	1899 Nasik; renamed 1904 Pune; London branch 1906	Savarkar brothers: Vinayak (Veer Savarkar) and Ganesh; Western-India stream
Indian Home Rule Society (IHRS)	1905, London	Shyamji Krishna Varma; India House; The Indian Sociologist
Indian Independence League (IIL)	1942, Tokyo and Bangkok	Rash Behari Bose

Anushilan Calcutta: Satish Chandra Basu (+ P. Mitra, main). Board: Good Relations between Revolutionaries and Extremists, not enemies (B.C. Pal backed Dacca). Backdrop 1905 Partition. Handout figure = list of boxes, not arrows of descent: Anushilan 1902 gives Jugantar 1906; Dacca Anushilan 1906 separate East Bengal offshoot; Abhinav Bharat = Western stream from Mitra Mela 1899; Ghadar (USA and Canada NRIs) = Ch 32, Ghadar Movement 1913–15.

Source conflict (Anushilan founder): handout founder = P. Mitra, but exam key pairs Anushilan = Aurobindo (Prelims 1996, 2000). In match-the-following use the exam's pairing. Source conflict (Chittagong): board = 1930–33 Chittagong Armoury Raid by IRA of Surya Sen; Prelims 2000 key = Kalpana Dutt. Not rival: use Kalpana Dutt in a match, Surya Sen's IRA from the board (raid is Ch 39: Revolutionaries Post 1922).

CID 1903: British intelligence response

→ Beyond the foundational Indian Police Act of 1861; formally established 1903 after the Fraser Police Commission of 1902

→ Professional network of spies and informers embedded in society to track, infiltrate and dismantle dissent and secret societies (hook word: infiltrate)

→ A structural response, not just sedition laws; central to repression throughout the INM

🎯 ABHINAV BHARAT AND SAVARKAR PYQ 1999

📖 Story link · beat 4: Because Bengal and the west each built their own society, the streams diverged: jolt now, drill for later.

Savarkar and Abhinav Bharat

→ Mitra Mela 1899 Nasik; renamed Abhinav Bharat (Young India) 1904 Pune; Why Young India? Mazzini's Young Italy: active in revolts of 1830 vs Austrian colonialism in northern Italy; unification succeeded 1870; method guerrilla warfare

→ 1906 Veer Savarkar in London to study law: London branch; compiled Mazzini Charitra (1906)

→ The Indian War of Independence 1857 (1909): planned war of national liberation, not a mere mutiny; banned before publication, circulated underground (board: "Narrative" imp: a movement needs a story)

Axis	Jugantar	Dhaka Anushilan Samiti
👥 Structure	Loose, decentralised confederation of local groups	Rigidly hierarchical, centralised, strictly disciplined
Method	Propaganda of the deed: immediate spectacular violence, individual heroic action, martyrdom	Long-term military preparation, deep infiltration, mass organisation for future coordinated rebellion
Focus	Show British not invincible: assassinate hated officials	Less isolated assassinations; slow mass action
🌐 Global debate	Dramatic individual action NOW	Slow mass organisation for LATER

Teacher: model table to learn. Jugantar = Decentralised, propaganda of the deed, immediate method; Dhaka Anushilan = Centralised, long-term military preparation, matches "Repeat 1857" (board: Repeat 1857 on Dhaka column). Neither fully succeeded, but together kept British intelligence stretched. After Barisal 1906 repression, Yugantar wrote: "30 crore Indians should raise their 60 crore hands to end oppression": force must be stopped by force. ⭐

Prelims pegs: 1995 Barrah Dacoity = (c) East Bengal (Dacca Anushilan, Pulin Behari Das; Bombay-Karnataka = Savarkar; Punjab = later Ghadar). 1996 Abhinav Bharat = Savarkar, Anushilan = Aurobindo, Ghadar = Lala Hardayal, Swaraj Party = C.R. Das. 1999 Abhinava Bharat organised by V.D. Savarkar (not Khudiram Bose, Prafulla Chaki, Bhagat Singh). 2000 Chittagong = Kalpana Dutt; Kuka Movement = Guru Ram Singh; Tripura (native state) involved in the freedom movement early in the 20th century because Bengal revolutionaries took shelter in Tripura (not kings anti-British, tribes, or kingship fights). DASH pegs = the society-and-leader pairs above. Source tags these UPSC-tested. ✅

🗺️ CENTRES ABROAD AND THE IHRS 1905 PYQ 1999

📖 Story link · beat 5: Now the Revolutionaries look beyond India's borders: why go abroad? VOICE.

Figure	Base
Veer Savarkar	London (Abhinav Bharat branch, from 1906)
Lala Hardayal	Eventually the United States, key organiser
Shyamji Krishna Varma	London (moved to Paris 1907)
Madame Cama	Paris: August 1907 unfurled the first version of the Indian national flag at the International Socialist Congress, Stuttgart, Germany
Ajit Singh	Abroad after the Swadeshi period

1906: All Bengal Conference of Revolutionary Groups (coordination) led to the weekly Yugantar / Jugantar (1906). 💡

💡 IHRS 1905, London: 8 features

→ Founded by Shyamji Krishna Varma with Bhikaji Cama (handout spells "Kama"), Dadabhai Naoroji (not a revolutionary) and S.R. Rana

→ 1 Goal: self-rule in India + propaganda in Britain (= building narrative for Home Rule)

→ 2 Method: all practicable means (prevents factionalism over methods)

→ 3 Only Indians as members

→ 4 Modern institution: written constitution modelled on British public institutions

→ 5 Strong support among Indian students (CSE, law, medicine, jobs)

→ 6 Close contact with revolutionaries in India

→ 7 India House: student hostel promoting nationalism

→ 8 The Indian Sociologist (not socialist: misleading name) = voice + narrative; foundation of militant nationalism in Britain

→ After Shyamji to Paris in 1907, lead at India House passed to Abhinav Bharat Mandal / Society (Savarkar's 1906 London branch)

Not the Indian Home Rule League of 1916 (Tilak; Ch 33, Home Rule League Movement and Lucknow Pact 1916). Naoroji (board): MP one term 1892–95, Liberal Party ticket; criteria to fight British Parliament elections for non-citizens of the empire: (1) land or property ownership, (2) duration of stay.

Journal (Prelims 1999)	Person
The Indian Sociologist	Shyamji Krishna Varma (handout)
The Talwar	Madam Bhikaji Cama (slide only)
Commonwealth	Annie Besant (slide only)
Bande Mataram	Aurobindo Ghosh (slide only)

3 · KEY ACTIONS 1907–12

📖 Story link · beat 6: Because the networks were ready, a chain of actions began, each triggering a British reply.

Board's seven cards: (1) 1907 attempt on Lt Governor of Bengal (2) 1908 Barrah (3) 1908 Muzzafarpur (4) 1908 Alipore (5) 1908 Tilak Trial (6) 1909 Abhinav Bharat: Dhingra + Nasik (7) 1912 Delhi Conspiracy. Cards 3, 4, 5 = one chain: Muzzafarpur bomb, Alipore crackdown, Tilak's article. Each event triggered a British response, then the next escalation.

1907 Attempt on the Lieutenant Governor of Bengal: failed

1908 Barrah Dacoity: Swadeshi dacoity, Dhaka, East Bengal; Dacca Anushilan under Pulin Behari Das; Zamindar of Barrah's residence looted for funds

1908 Muzzafarpur Conspiracy Case

1908 Alipore Conspiracy Case

1908 Tilak Trial

1909 Dhingra (London) and Nasik Conspiracy Case

1910 Savarkar transported for life

1912 Delhi Conspiracy

"For revolution I need ARMS": 3 routes (board)

→ (1) Dacoity at an armoury: 1930–33 Chittagong Armoury Raid, IRA of Surya Sen

→ (2) Dacoity on the Government or loyalists (zamindars, money-lenders) then buy arms in India or abroad: Barrah 1908, Kakori Robbery 1925 (needed money for weapons, printing, travel)

→ (3) Alliance with enemies of the British (Germany, Russia, France) as in WWI (1914–18): Zimmerman Plan, Ghadar Movement

Muzzafarpur 1908 (Bihar, not Muzaffar Nagar UP)

→ Target: Magistrate Kingsford; Prafulla Chaki + Khudiram Bose threw a bomb at his carriage; Kingsford not inside; two English women killed instead

→ Chaki shot himself in the mouth with his own revolver (teacher: or he ate cyanide) to avoid capture

→ Khudiram Bose arrested, tried, death sentence; 18 years old, executed 1908; instant martyr (songs, image on cloth as mourning wear): deterrence had "the opposite effect!!!!"

⚖️ Alipore 1908 (= Murari Pukur / Manick Tolla Case)

→ Named after the raided home: Murari Pukur Road, Manicktolla, Alipore; Muzzafarpur alarmed the British: broader crackdown on masterminds

→ Aurobindo Ghosh arrested, defended by C.R. Das; B.C. Pal refused to testify, so Aurobindo could not be convicted; after acquittal fled to Pondicherry (French), turned to spiritualism, left politics

→ Barindra Kumar Ghosh, Ullaskar Dutta and others sentenced to death, commuted to transportation for life, Cellular Jail (Kala Pani), Andamans; early Jugantar leadership decimated; B.C. Pal retired temporarily

→ Two brothers: Aurobindo = writing, philosophy, INC; Barindra = revolutionary conspiracy

Trap (Ghadar PYQ): Barindra Kumar Ghosh was in the Cellular Jail from 1908, so he cannot be in the Ghadar Movement (1913–15). Transportation for life was seen as worse than death: isolation, no public hanging, no martyrs.

Tilak Trial 1908

→ In Kesari (Marathi) article "Arrival of Bomb": condemned the violence of Chaki and Bose but defended them, since sustained oppression produces violence (condemn the act, explain the cause)

→ Charged with sedition; six years, deported to Mandalay, Burma

→ Defence by Jinnah (then a young constitutional lawyer; gap to 1940 Pakistan demand shows how communal politics changed)

Abhinav Bharat actions 1909

→ London: Madan Lal Dhingra killed Lt. Col. William Curzon-Wyllie (adviser who worked with the Secretary of State for India)

→ Nasik Conspiracy Case: District Magistrate Jackson killed by Anant Laxman Kanhere; Savarkar had sent pistols from London, one used by Kanhere

→ 1910: Savarkar sentenced to transportation for life, Cellular Jail, Andamans

Two traps: Curzon-Wyllie is not Curzon 99–05 the Viceroy who imposed the Partition. Savarkar sentenced 1910, not 1909 (Nasik killing is 1909).

4 · RESULT OF THE REVOLUTIONARY PHASE

📖 **Story link · beat 10:** Because the phase was repressed, we ask what it still achieved: pride, reform and 1911.

Results

→ 4.1 Pride and dignity: Indians active agents, not passive subjects

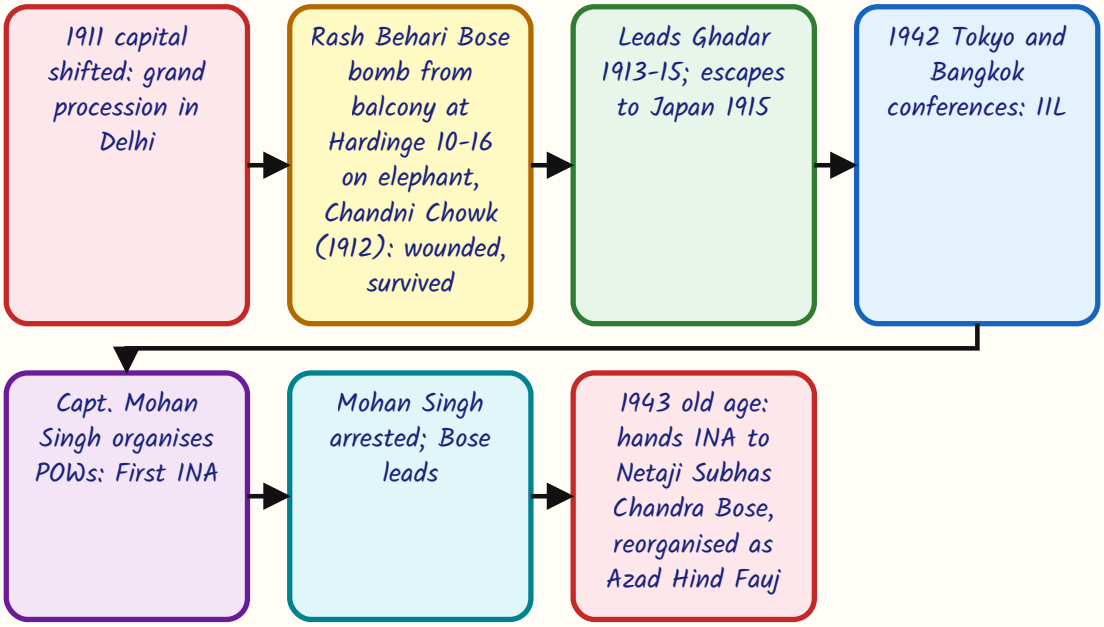

→ Morley-Minto Reforms 1909 partly from British anxiety about revolutionary spread: a reform offered to buy peace (Ch 31)

→ 4.2 1911: Partition annulled + Delhi capital, ending Bengal's dominance in the INM; announced at Delhi Durbar December 1911 (George V and Queen Mary as Emperor and Empress). Annulment = political concession; capital shift = strategic correction

→ 1912: "Bihar and Orissa" separated from Bengal Presidency; Assam a full province from EBA 1905 (Assam a CC Province in 1874)

Curzon 99–05's legacy contradictory: Partition reversed 1911 and capital moved from Calcutta, so Swadeshi succeeded (Bengal reunited); but the larger design (divide Hindus and Muslims, undercut Bengal's dominance, shift capital) was substantially achieved: Curzon successful on strategic questions. ✅

Rash Behari Bose: Delhi 1912 to the INA

Board: IIL = supreme political organisation for Indians in Southeast Asia. "He" in the last box is not Netaji: RB Bose took over the INA after Mohan Singh's arrest. Generation of 1905–12 resurfaced in later movements, more organised and internationally connected. ⭐

1830 Young Italy revolts	**1861** Indian Police Act	**1870** Italian unification	**1874** Assam CC Province
1878 Arms Act	**1892** Naoroji MP to 1895	**1899** Mitra Mela	**1902** Fraser Commission; Anushilan
1903 CID	**1904** Abhinav Bharat	**1905** IHRS, India House; Partition	**1906** Jugantar; Dacca Anushilan; Barisal April; All Bengal Conference; Mazzini Charitra
1907 Surat; Lt Governor attempt; Cama flag Aug; Shyamji to Paris	**1908** Barrah; Muzzafarpur; Alipore; Tilak; Khudiram 18	**1909** Dhingra; Kanhere; Morley-Minto; Savarkar's 1857 book	**1910** Savarkar sentenced
1911 Annulled; Delhi; Durbar Dec	**1912** Delhi bomb; Bihar and Orissa; Assam	**1913** Ghadar to 1915	**1915** Bose to Japan
1916 Tilak's Home Rule League	**1942** IIL	**1943** Netaji; Azad Hind Fauj	

Recall drill: cover and answer

Long-term goal vs immediate method of Revolutionaries?	Repeat 1857 (civil rebellion + army disaffection) vs individual heroic action	Founders: Anushilan 1902, Jugantar 1906, Dacca Anushilan 1906?	P. Mitra; Barindra Ghosh, Bhupendranath Datta, Abinash Bhattacharya; Pulin Behari Das
Mitra Mela 1899 to Abhinav Bharat 1904: who, where?	Savarkar brothers Vinayak and Ganesh; Nasik then Pune	Jugantar vs Dhaka Anushilan?	Loose, propaganda of the deed NOW vs centralised, long-term preparation LATER
Journals: Varma, Cama, Besant, Aurobindo?	Indian Sociologist, Talwar, Commonwealth, Bande Mataram	CID: year and commission?	1903 after Fraser Police Commission 1902
Muzzafarpur 1908: target, bombers, who died?	Kingsford; Chaki + Khudiram Bose; two English women killed	Alipore: who defended Aurobindo, why acquitted?	C.R. Das; B.C. Pal refused to testify; Aurobindo fled to Pondicherry
1909 Abhinav Bharat actions and Savarkar sentence?	Dhingra killed Curzon-Wyllie; Kanhere killed Jackson (Nasik); Savarkar 1910	Rash Behari Bose line 1912 to 1943?	Delhi bomb on Hardinge 10-16, Ghadar, Japan 1915, IIL 1942, INA, Netaji 1943

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

IHRS = Indian Home Rule Society

IIL = Indian Independence League

⚖ ORGANISED MUSLIM POLITICS AND THE MORLEY-MINTO REFORMS ⚖

PYQ Prelims 1999, 2001, 2002 (related 2026, Ch 34) · Mains: none on slides; practice: why ICA 1909 failed; how Divide & Rule worked from the Census to ICA 1909

✎ *The Census, religion-wise reports and low Western education made Muslims a separate, deprived group that Divide & Rule could favour. Sir Syed gave the qaum idea, Simla 1906 and the League asked for separate electorates, ICA 1909 granted them in a powerless council: the seed of Partition.*

📖 THE STORY FIRST (same story as the textbook)

The Census, the religion-wise reports and low Western education made Muslims a separate, deprived group that British Divide & Rule could favour; Sir Syed gave it the qaum idea, the Simla Deputation 1906 and the League asked for separate electorates, and the ICA 1909 granted them inside a council that had no real power, so the seed of Partition was sown.

1. **The count that made a community.** Census 1881: Muslims about 20%, a majority in Punjab, about 50% in Bengal, told as one community. Reports on education, jobs and poverty by religion show Muslims behind Hindus.
   → But why were Muslims behind in the new jobs?
2. **Behind in the new jobs.** Western education was costly and Bengal Muslims were poor ryots. Ulamas resisted it, some wished to keep Persian, landlords saw no use. So Hindus gained the new professions.
   → The rulers noticed, and had a plan.
3. **The rulers' plan: appease and divide.** Divide & Rule is the tool of loot. Hunter 1871: appease Muslims. Job reservation 1897. Partition 1905: Muslim-majority East Bengal and Assam. All three favoured the elite.
   → Meanwhile a Muslim leader gave the plan an idea.
4. **Sir Syed's qaums.** Sir Syed Ahmed Khan (1817-98): India is many qaums; Muslims need Western education. MAO College 1875, Educational Congress 1886 rivals the INC. He drew the Two Nation blueprint.

→ And Hindu revivalism widened the wedge.

5. **The Hindu wave and the Muslim withdrawal.** Arya Samaj turns aggressive after Dayanand dies in 1883; Cow Killing Riots 1893; the INC does not condemn them. Hindi-Urdu quarrel (Hindi wins 1900) and Swadeshi symbols deepen Muslim alienation.
→ Then the Partition of 1905 sent the elite to the Viceroy.

6. **Simla 1906.** The Aga Khan leads elite Muslims to Viceroy Minto 05–10: keep the Partition, reservation by population, separate electorates. Separate electorates are the hinge: Muslims elect Muslims.
→ An organisation followed within months.

7. **The League is born.** The Muslim League, Dacca, December 1906, holds the British to Simla promises. Green Book by Mohsin-ul-Mulk and Mohammed Ali Jauhar; London branch 1908 under Ameer Ali. A 13-year head start.
→ Meanwhile the Viceroy's side had a reform track.

8. **Two tracks: repression and reform.** Unrest made the British run repression and reform together. Move 1 split the INC at Surat 1907; Move 2 divided Hindus and Muslims by separate electorates.
→ What did the Act actually give?

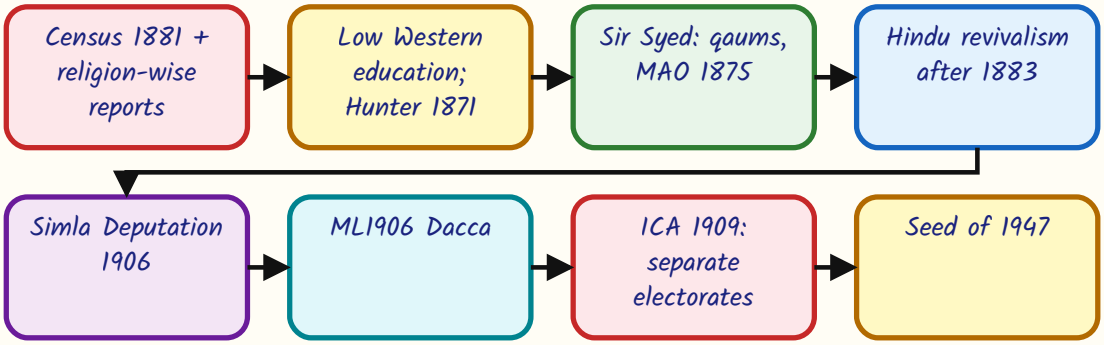

9. **A bigger council, not a stronger one.** ICA 1909: ILC 69 (9 + 60: 27 elected, 33 nominated), official majority 37 against 32. First 'election', Sinha in the VEC. Morley: only Limited Self-Government.
→ And for the Muslims?

10. **The separate electorate.** Muslims got separate electorates in the ILC, PLCs and local bodies: 8 of 27 elected seats, about 30% against 20% population. Separate means a candidate of a Group, for a Group, by a Group.
→ So how did the story end?

11. **Failure and the long shadow.** ICA 1909 lasted only 10 years, the shortest. Moderates wanted real power, the goal was Swaraj, legislatures were powerless: a Benevolent Despotism. Minto 05–10, Father of Communal Electorate; communal politics hardened to 1947.

Cast: W.W. Hunter = The Appeaser's Author · Sir Syed Ahmed Khan = The Architect, not the Builder · Swami Dayanand Saraswati = After 1883, Aggressive · Madan Mohan Malviya = Hindi's Champion · Aga Khan = The Deputation Leader · Minto 05–10 = The Viceroy Who Obliged · John Morley = The Liberal Who Hinted · Mohsin-ul-Mulk and Mohammed Ali Jauhar = Two Ms, One Green Book · Ameer Ali = Abroad in London · S.P. Sinha = First at the Viceroy's Table · K.G. Gupta and Syed Hussain Bilgrami = The London Precursors · MA Jinnah = The Urdu Choice

At a glance: from separate qaum to separate electorate

Teacher's frame: goal of imperialism = economic (loot or drain the colony's masses); tool = DnR (Divide & Rule), especially against the leadership (one group favoured). Masses split into majority and minority: if the majority is co-opted, the minority is looted; if the minority is co-opted, the majority is looted (example Rwanda: Belgium, Hutus majority, Tutsis minority: a reading). Two halves: rise of organised Muslim politics, then ICA 1909 writing it into law.

DnR — Divide & Rule = the link joining both halves of the chapter (teacher's abbreviation). Read DnR = Divide and Rule, not Dadabhai Naoroji (transcription slip).

🏛️ 1 · BACKGROUND: CENSUS, EDUCATION, CONSCIOUSNESS

📖 Story link · beat 1: Because Divide & Rule needs groups to work on, the Census and religion-wise reports made Muslims one deprived group.

Census 1881

→ First full census of British India; first attempt 1872 not completed; then every 10 years: 1881, 1891, 1901

→ Muslims about 20% overall; majority in Punjab (~54%, handout says only majority); about 50% in Bengal. 20% = base against which 30% of ICA 1909 is called appeasement

→ DnR contribution: created a consciousness of a homogeneous religious group in a heterogeneous community (poor Bengal weaver, rich Punjab landlord): one community, one set of interests; Hindus and Muslims two communities with competing interests; Shia-Sunni and Worker-Peasant differences came later

📚 Religion-wise reports

→ Reports on education, employment, poverty religion-wise

→ Sense of relative deprivation: Muslims behind Hindus in government jobs, education, new middle-class professions; reinforced the feeling Hindus gained at Muslims' expense

Communalism: organisation of society on religion + ideology that each religious group has separate, possibly mutually exclusive interests; the two communities cannot co-exist happily; underpinned the demand for Separate Electorates and Pakistan. 💡

Why Muslim Western education uptake was low	Detail
👫 i) Cost	Expensive; most Bengal Muslims poor ryots
ii) Ulamas resisted	Clerical class: Western literature (stories, values, attitudes, beliefs) contradicts Islamic teaching, erodes their community control
iii) Preserve Persian	Language of Mughal high culture and administration, against English and Hindi
iv) Landlords' low incentive	Rich Muslim landlords had low utility for middle-class government jobs
v) Consequence	Hindus benefitted more from the new middle-class professions

Year	DnR measure towards Muslims
1871	W.W. Hunter's Indian Musalmans: neglect and economic decline since Mughals fed the Faraizi movement (1830s-70s Bengal); appease Muslims for political stability (justified favouring Muslims vs Hindu-dominated formations)
1897	Reservation in government jobs for Muslims: first named reservation
1905	Bengal Partition: EBA as Muslim Majority Province (MMP), appeasing elite Muslims, countering Hindu nationalism

Teacher stressed: "appease Muslims for political stability", "1897 – Job reservation", "elite Muslims" (appeasement went to the elite). Board question: "What did the common Muslim get from Pakistan?" Answer: a KATORA (bowl) with KHOON (blood). ⭐

🎯 2 · MUSLIM WEMC: FROM ASSOCIATION TO ORGANISATION PYQ 2001 PYQ 2002

📖 Story link · beat 4: Because the elite wanted a place, Sir Syed's qaums became the idea behind a separate Muslim politics.

Step	Detail
Mohammadan Association (1855)	Pro-British; opposed the 1857 revolts; benefits through loyalty, stayed out of the anti-colonial cause (early Muslim WEMC, like early Hindu WEMC, pro-British rule)
Sir Syed Ahmed Khan (1817–98)	India not one nation but a summation of qaums (community or nation, a distinct ethno-religious group); Hindu qaum and Muslim qaum separate with separate interests (early Two Nation Theory; board "2N1S", reading uncertain); Muslims, as the earlier ruling community, deserve special status, needing Western education
MAO College, 1875 (Mohammadan Anglo Oriental)	Later Aligarh Muslim University; Western education + Islamic values to build a Muslim middle class for government jobs (board: PRO-Br)
📚 Mohammadan Educational Congress, 1886	Rival to the INC: Sir Syed thought INC a Hindu organisation; discouraged Muslim participation in INC

Key takeaway: Sir Syed not a full separatist (still believed in unity of qaums), but his separate-qaum framing gave the intellectual architecture of the Two Nation Theory. ✅
Prelims 2002 (b): Sayyid Ahmad Khan opposed the INC when formed = true.

👫 3 · POST-1883: HINDU REVIVALISM, THREE WAVES

📖 Story link · beat 5: Because Muslim identity was forming, Hindu revivalism widened the gap in three waves.

Hindu cultural revivalism of the late 19th and early 20th centuries (Shuddhi, Cow Protection, Swadeshi's Hindu religious symbolism) alienated Muslims from the Congress-led movement in successive waves. 💡

Wave	Detail
🛡️ i Shuddhi + Cow Protection	Run by Arya Samaj (1875); aggressive after Dayanand Saraswati died 1883; Cow Killing Riots 1893; INC did not condemn (1886 rule: only political issues); sharp fall in Muslim participation in INC
ii Hindi-Urdu controversy (1880s to 1900)	NWP and Awadh (1877), led by moderate Madan Mohan Malviya: official language status for Hindi equal to Urdu; success 1900; byproduct: Hindi = Hindus, Urdu = Muslims
iii Swadeshi symbolism 1905–11	Bande Mataram, Kali worship, Prabhat Pheris, Ganpati and Shivaji festivals: low Muslim participation

Language board: Punjabi and Bangla the two big languages, yet "Jinnah chose URDU" (script Arabic) for an Islamic image, not a linguistic majority; Pakistan dominated by Punjabis and Bengalis. Remember NWP and (1877). 💡

🎯 4 · THE SIMLA DEPUTATION 1906 PYQ 2002

📖 Story link · beat 6: Because the Partition of 1905 favoured the elite, they went to the Viceroy to secure it.

Simla (Shimla) Deputation 1906

→ Elite Muslims led by the Aga Khan met Viceroy Minto 05–10 (1905–1910) in Shimla
→ i Keep the Partition: no annulment
→ ii Reservation by population: as a separate qaum and minority, in ILC, PLCs and government jobs (precedent: 1897 job reservation; proportional to % in population)
→ iii Separate Electorates in future council reforms: only Muslims have the right to vote (R2V) in a seat reserved for a Muslim candidate: tells every Muslim voter their representative must be Muslim (promotes Two Nation Theory)

Hinge of partition history: Separate Electorates. Accept that Muslims elect Muslims from Muslim-only constituencies and you accept the Two Nation Theory institutionally; ICA 1909 granted it = legislative seed of 1947. Board chain: Aug 1905 Swadeshi, Oct 1905 Partition, elite Muslims to Simla.

Source conflict (order): teacher's chain puts Aug 1905 Swadeshi before Oct 1905 Partition; handout says Partition set off Swadeshi. For cause and effect: Partition 1905 gave rise to Swadeshi 1905-11; for dates use August and October.

	Joint Electorates (our Constitution: SC seats)	Separate Electorates (ICA 1909)
Candidate	From the reserved community (SC)	A Muslim (MLA or MP = Muslim)
Who votes	All communities in the seat (mixed list)	Only the group's own voters (only Muslim)
Handout formula	Candidate of the People, for the People, by a Community	Candidate of a Group, for a Group, by a Group
Teacher's phrase	"For Indians, by Indians of SC community"	"of the m, for the m, by the m" = Pak within India

Four verdicts on RwSE (Reservation with Separate Electorates, ICA 1909)

→ (1) Anti-democracy (takes away R&V)
→ (2) DnR, hurts Indian-ness
→ (3) "Pak within India"
→ (4) Landmark on the Partition journey
→ Not raising Muslim MLA/MP chances in general (No), but raises those of ML1906 (Yes): helped the communal party. Country = sum of constituencies

Board example: reservation for women, parties INP (Indian National Party) and MJP (Mahila Janshakti Party). Separate: males have no vote in the women's seat; most females vote MJP; MJP female wins. Joint: males vote INP, some females too, most females MJP; pie mostly INP, so the INP's female wins (a reading). Lesson: separate = only the group's own voters decide, so the group's own party wins; joint = a party must win beyond its group. Hence ML1906 wanted separate electorates.

5 · ALL INDIA MUSLIM LEAGUE (ML1906) PYQ 2001 PYQ 2002

Story link · beat 7: Because Simla needed someone to hold the British to its promises, the League was born at Dacca.

ML1906

→ Elite Muslims, Dacca, December 1906, right after Simla
→ Goals: (1) British must not go back on Simla promises (2) promote Muslim interests (3) promote Muslim loyalty to British
→ Green Book (constitution): Mohsin-ul-Mulk and Mohammed Ali Jauhar, both of the Aligarh movement (board: main)
→ Provincial Muslim Leagues 1907-09: functional provincial structures to ground level, over a decade before INC PCCs became mass instruments = organisational head start
→ London branch 1908 under presidency of Ameer Ali: influenced ICA 1909 (separate electorates)

PCCs (board): "1886 PCCs setup BUT they don't go to masses"; 1920 [MG?] era: they became mass politics. Sum: "LOST 13 YEARS" and -ve of INC under Moderates (13 years from provincial Leagues 1907 to PCCs' mass role 1920). Handout: PCCs mapped to British provinces, ran in English; at 1920 Nagpur Gandhi redrew PCC borders on linguistic lines, local work in mother tongue.

Source conflict (PCC year): typed slide and handout say 1908 INC Constitution; teacher replaced with 1886. Follow 1886. Trap: 'PCCs established first time at Nagpur 1920' = False; 'PCCs reorganised on linguistic lines at Nagpur 1920' = True.

Prelims 2001 (UPSC tested): London branch 1908 = (B) Ameer Ali (Aga Khan led Simla 1906; Liaquat Ali Khan 1940s; Jinnah in 1908 a Congress constitutional lawyer). Prelims 2002 NOT correct: (C) ML1906 vehemently opposed the partition of Bengal and separate electorates: False, ML1906 was formed to preserve the Partition and secure Separate Electorates. True: (A) Hakim Ajmal Khan started the nationalist and militant Ahrar movement; (B) Sayyid Ahmad Khan opposed INC; (D) Maulana Barakatullah and Maulana Obeidullah Sindhi formed a Provisional Government of India in Kabul. Long thread: communal politics never reversed, deepened till 1947; handout: why ML1906 is a negative impact of Swadeshi (Hindu symbolism + DnR response). ✅

🔧 7 · MORLEY-MINTO REFORMS: ICA 1909 PYQ 1999

📖 Story link · beat 8: Because the British ran repression and reform together, the reform came packaged with Divide & Rule.

Act	Teacher's hallmarks
ICA 1861	ILC with VEC; PLCs with GEC; grain of popular representation; first: non-officers (nominated); Portfolio System; 6 to 12 additional members, half at least non-officers
ICA 1892	First: questions; first: Budget (BD) discussed; selection not election (nominated non-officers from recommended lists); first: some popular representation; 10 to 16 additional members
ICA 1909	First: proper indirect elections; Reservation with Separate electorates; PLC non-official majority but mostly nominated; first: one Indian in the VEC; Limited Self-Government (LTD SG); first: supplementary questions; resolutions can be passed; Budget vote on individual items

Source conflict (1861 range): one board writes 6 to 12, a later board 6 to 10. Use 6 to 12 (Ch 25); 6 to 10 is a slip. 1892 range 10 to 16 matches both.

Context and DnR strategy

→ John Morley = Secretary of State (London, a Liberal, less authoritarian); Lord Minto 05–10 (1905–1910) = Viceroy and Governor-General

→ 1905 Partition set off Swadeshi 1905–11; 1905–1908 Extremists; from 1908 Revolutionaries; British response: repression and reform simultaneously; ICA 1909 = reform track, packaged with strategy

→ Move 1 split the INC: 1906 Morley's Budget speech in British Parliament hinted at council reforms (amending ICA 1892); Moderates feared Extremist agitation would kill reform: fault line to Surat 1907, then repression of Extremists

→ Move 2 divided Hindus and Muslims: separate electorates, demanded at the Shimla Deputation 1906: the British were happy to oblige

💡 Nature of government

→ Morley: "There is no intent of Responsible Govt in India via ICA1909"

→ Fully Responsible Government = every minister must first be an elected member (MP/MLA): Executive is child of Parliament; ICA 1909 gave nothing of the sort

→ It introduced Representative Government = Limited Self-Government (LTD SG): elect representatives to talk and advise, some partnership in domestic affairs, not self-rule

→ That had been the INC goal until 1906; from 1906 Calcutta goal = Swaraj: reform arrived too late = second failure of the Moderate approach

Goal ladder (board)	Period
LTD SG	1885–1906
SG within the empire, Home Rule, Swaraj (1906 stressed)	1906–16/28
Dominion Status	1916/28

Purna Swaraj	1929

🏛️ Viceroy's Executive Council + ILC

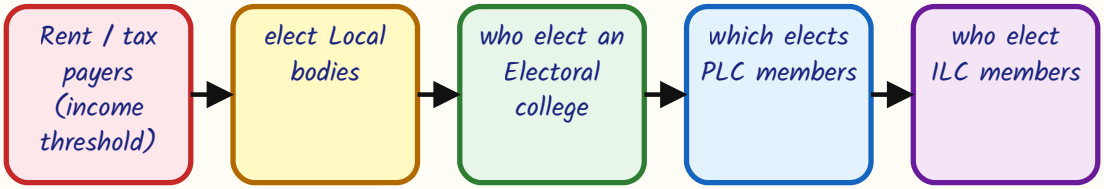

→ VEC: GG + CIC + 6 ordinary members, same as ICA 1892 ("same since 1874")

→ ILC 69 members (9 + 60): a) 8 ex-officio from the VEC; b) 1 additional (the 9th) rotating ex-officio Governor/Lt-Governor of the session's province (not imp); c) 60 additional = 27 elected + 33 nominated (28 officials + 5 non-officials) (board: imp, learn the numbers; 5 nominated non-officials PRO-Br)

→ Officers = 9 + 28 = 37; Non-officers = 27 + 5 = 32: official majority kept at the Centre

→ Additional members: 1861 6 to 12; 1892 10 to 16; 1909 60: size grew sharply, power did not

🗳️ Indirect election chain (board slide 61)

Elections: word "election" used officially for the first time; proper indirect elections for unreserved seats; Muslim reserved seats = the 1st direct elections (but only Muslim seats). ICA 1892 = "selection", a fake indirect election. 💡

👑 PLCs and Indians in the executive

→ First non-official majority, only in PLCs (not ILC); most non-officials nominated, not elected

→ Bengal exception: elected majority, first province; 4 elected seats reserved for European Businesses

→ S.P. Sinha (Satyendra Prasanna Sinha), Law Member: first Indian in the VEC (board: "One Indian")

→ Precursor (August 1907, not imp): K.G. Gupta and Syed Hussain Bilgrami to the Secretary of State's India Council, London

🗳️ Muslim separate electorate: communal appeasement

→ First time: ILC, PLCs and local bodies

→ ILC: 8 of 27 elected seats = about 30% vs population 20%; INC's own 1889 Minority Clause asked proportional 20%; extra 10% = appeasement

→ Only Muslims vote in Muslim reserved seats; Muslims also vote in general seats = double advantage

→ Income threshold LOWER for Muslims (R2Vote linked to income)

→ Compare today: SC reservation with joint electorates; ICA 1909 far more separatist. Today our Constituencies, tomorrow Our Pakistan

Power	ICA 1892	ICA 1909
💰 Budget (BD)	Discussion, no voting	Vote on individual items, not whole Budget (rejecting whole = No Confidence Motion, not allowed)
Questions	No supplementary questions	Supplementary, but only by the member who asked the original question
🔧 Resolutions	Opposition could not move; no voting on government resolutions	Initiate and pass, but recommendatory only

Executive: government could reject or disqualify any candidate considered politically dangerous (nationalists): 1892 = power of selection, 1909 = power of rejection. Executive remained non-responsible to the Legislature; Viceroy's powers as before; not even remotely a ceremonial President. 💡

📜 7.5 · IMPACT: SHORTEST-LIVED, LONG SHADOW PYQ 1999

📖 Story link · beat 11: Because the council had no real power and separate electorates stayed, the Act failed but its shadow remained.

Reform	Lifespan
ICA 1861	30 years (longest)
ICA 1892	17 years
ICA 1909	10 years: shortest (1909 to 1919)
📜 GOI Act 1919	16 years
📜 GOI Act 1935	15 years, then Constitution of India 1950

⚠️ Why ICA 1909 failed (teacher's four)

→ (1) Moderates wanted real power: still toothless
→ (2) Goal already Swaraj since 1906
→ (3) Muslims got separate electorates: long-term disaster
→ (4) Powerless legislatures

Source conflict (reasons): handout keeps all four including "Extremists never cared for councils" and "a long-term disaster"; teacher struck both and added "BUT powerless legislatures". Use the teacher's four; long-term disaster covered below.

Long shadow and Benevolent Despotism

→ Most consequential: what it planted. Separate electorates (ILC, PLCs, local bodies) = direct foundation of Partition 1947: tell a community to vote separately and you tell them they are separate
→ Minto 05–10 = "Father of Communal Electorate"
→ Benevolent Despotism: Benevolent = more democratic than ICA 1892 ("Better Than 1892"); Despotism = real power with the British Executive (= DICTATORSHIP, no responsible govt); echo of ICA 1861 "Despotism Controlled from Home"

Summary card	At a glance
Names	Morley (SoS, Liberal), Minto 05–10 (Viceroy)
ILC	69 (8 + 1 rotating + 27 elected + 33 nominated); 60 ADDNL
Majority	Official in ILC (37 vs 32); first non-official majority in PLCs
🗳️ Elections	Indirect (unreserved); direct (Muslim seats only)
🗳️ Separate electorates	8/27 seats; only Muslims vote there; also vote in general seats; lower income threshold
👑 Indians in executive	S.P. Sinha (VEC); Gupta and Bilgrami (London, Aug 1907)
💡 Nature, life, legacy	LTD SG = Benevolent Despotism; 10 years; Foundation of Partition; Minto = Father of Communal Electorate

🎯 8 · RELATED PYQ (CH 34): PRELIMS 2026

📖 Story link · beat 11: Because the 1919 Act kept the same communal design, this later PYQ fits the same long shadow.

Assertion: genesis of community-based political alliances lay in the nature of the Montague-Chelmsford Reforms, 1919. (1) retained and extended separate electorates (2) meant to counter growing nationalism (3) deprived classes rallied around the favours: (d) 1, 2 and 3. Options: (a) 1 only (b) 2 and 3 only (c) 1 and 2 only. Slide: 1919 made separate electorates watertight, extended to Sikhs, Anglo-Indians, Christians; fitted DnR vs nationalism that united Hindus and Muslims (Lucknow 1916); Depressed Classes got nominated seats. (b) drops statement 1, the core; (c) drops 3. ✅

1855 Mohammadan Association	**1871** Hunter	**1872** First census attempt	**1874** 6 ordinary VEC members
1875 MAO College; Arya Samaj	**1877** NWP and Awadh Hindi-Urdu	**1881** Census	**1883** Dayanand dies
1886 Educational Congress; PCCs	**1889** Minority Clause	**1893** Cow Killing Riots	**1897** Muslim job reservation
1900 Hindi success	**1905** Partition (Oct); Swadeshi (Aug)	**1906** Morley speech; Calcutta Swaraj; Simla; ML Dec	**1907** Surat; Provincial Leagues 1907–09; Gupta, Bilgrami Aug

1935 GOI Act 1935	**1947** Partition	**1950** Constitution	

Recall drill: cover and answer

Muslim share: overall, Punjab, Bengal?	About 20% overall; majority in Punjab; about 50% in Bengal	Hunter 1871, job reservation, Partition: years?	1871 Indian Musalmans; 1897 reservation in government jobs; 1905 EBA as MMP
Sir Syed's qaum, MAO, Educational Congress?	Separate Hindu and Muslim qaums; MAO College 1875; Educational Congress 1886 (rival to INC)	Simla Deputation 1906: leader, Viceroy, 3 demands?	Aga Khan; Minto 05–10; keep Partition, reservation by population, separate electorates
ML1906: place, Green Book authors, London branch?	Dacca Dec 1906; Mohsin-ul-Mulk + Mohammed Ali Jauhar; 1908 Ameer Ali	ILC 1909 composition?	69 = 9 ex-officio (8 + 1 rotating) + 60 (27 elected + 33 nominated: 28 officials + 5 non-officials); officials 37 vs 32
Separate electorate numbers?	8 of 27 seats = about 30% vs 20% population; INC 1889 Minority Clause asked 20%	Firsts in ICA 1909?	Proper indirect elections; one Indian in VEC (S.P. Sinha, Law Member); supplementary questions; Bengal elected majority
Lifespans of council reforms?	ICA 1861 30; 1892 17; ICA 1909 10 (shortest); GOI 1919 16; GOI 1935 15	Why ICA 1909 failed (4)?	Moderates wanted real power; goal already Swaraj; separate electorates; powerless legislatures

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

SC = Supreme Court (or Scheduled Castes, by context) — India's apex court under Art 124; the second meaning is the Art 341 list

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

ML = Money Laundering — Passing illegal money through legitimate channels to hide its origin

MMP = Muslim Majority Province

GOI ACT 1919

PYQ Prelims 1995, 2003, 2004, 2012, 2015, 2016, 2017, 2022, 2026 · Mains none solved; practice: Dyarchy (15 marks), INM dissatisfaction (10 marks)

✎ *War and the INM pushed Britain to promise gradual responsible government (1917). The 1919 Act gave elected houses and Dyarchy, but the Centre stayed irresponsible, the Governor kept key subjects and separate rolls split voters, so the INM called it a half-step.*

📖 THE STORY FIRST (same story as the textbook)

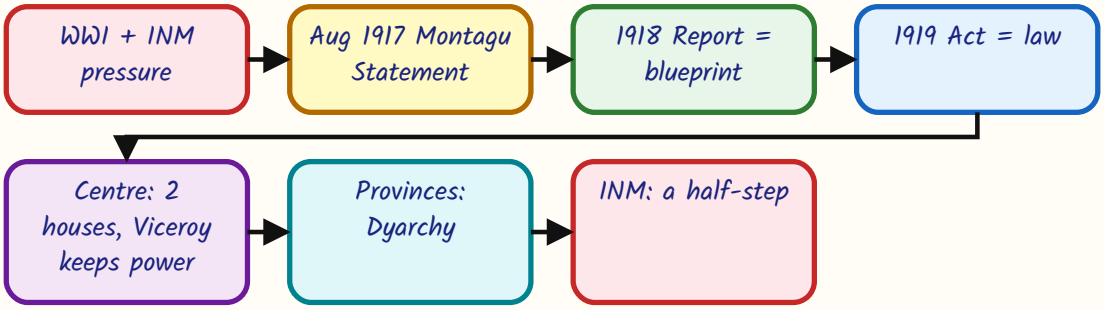

Pressure from WWI and the INM forced Britain to promise gradual responsible government (1917); the Act (1919) gave elected houses and Dyarchy but kept real power: the Centre stayed irresponsible, the Governor held the key subjects, and separate rolls divided voters, so the INM called it a half-step.

1. **The war's slogan comes home (1914–18).** WWI is fought for democracy and self-determination; Indians fight and die. Swadeshi, Ghadar, Home Rule and the Lucknow Pact add pressure. Swaraj now has moral weight.
   → So Britain has to answer: what about democracy in India?
2. **Montagu's promise (20 August 1917).** Montagu tells the Commons on 20 August 1917: gradual steps towards responsible government within the Empire, timeline in British hands. Swaraj is no longer seditious.
   → But a promise needs a plan.
3. **The tour and the Report (1917–18).** Montagu tours the provinces and writes a joint report with Chelmsford 16–21 (1918). The Report is the blueprint, the Act is the law; together the Montford Reforms.
   → Parliament now turns the blueprint into law.
4. **The Centre gets two houses (1919).** The Centre gets two houses for the first time: CLA (~145, 3 years) and CoS (~60, 5 years), elected majorities, direct elections. Gaya 'End or Mend' 1922 leads INC to 1923 polls.
   → But who may vote, and who rules?
5. **Who may vote.** Vote stays tied to income and property; no adult franchise. Women: PLCs may drop the sex bar, same property bar, under 1% qualify. Husband's-property rule comes in 1935.
   → And the voters are divided as well.
6. **Separate rolls made watertight.** Separate electorates for Muslims from 1909 become watertight, then extend to Sikhs, Anglo-Indians and Christians. Depressed Classes get nominated seats. Britain uses this for Divide and Rule.
   → Yet the Centre still answers to no one.
7. **Powers on paper, strings in hand.** Subjects are split Centre and Provinces with no lists, so the Centre can take any back. Viceroy keeps veto, 6-month ordinance and 75% non-votable budget. VEC: by convention 3 Indians of 8.
   → Taxation without representation continues.
8. **Services and Princes.** ICS exam also held in India (first 1922); Section 96C creates the Public Service Commission (1926, Ross Barker); 33% Indians promised gradually. Narendra Mandal 1921: advisory body for Princes.
   → Now the provinces: the most debated feature.
9. **Dyarchy: dual rule in the provinces.** Provincial subjects split: Reserved (Police, Justice, Finance, Land Revenue, Irrigation, Control over Officials) under the Governor; Transferred (health, education, local government, agriculture) under ministers answerable to the PLC.
   → But ministers hold the soft half of the bargain.
10. **Why Dyarchy failed.** Ministers have no money (Finance is Reserved) and no control over officials; the Governor can overrule them and take over Transferred subjects. Failing, they lose public trust, delaying responsible government.
    → So the INM judges the Act.

11 **The verdict of the INM.** Six grounds: subjects not federal, Dyarchy mocks federalism, no adult franchise, no responsible Centre, seats by importance not population, no effective self-government. Better than 1909, far from Swaraj.

Cast: Edwin Montagu = The Promiser · Chelmsford 16–21 = The Co-author · Morley = The Doubter · Annie Besant = The Home Ruler · Surendranath Banerjea and Tej Bahadur Sapru = The Liberals · Ross Barker = The Commissioner · Sarojini Naidu = The Thank-You · The Governor = The Gatekeeper · Mountbatten = The Final Speaker

At a glance: Report to Dyarchy

Teacher's board: GOI Act 1919 = DYARCHY in PROVINCES (imp). Firsts: direct elections, elected majority (Centre and Province), bicameral Centre, right to vote (R2V) to women via Provinces. Separate electorates also to Sikhs, Christians, Anglo-Indians. First reservation to Dalits (nominated seats).

1 · WHY BRITAIN MOVED: MONTAGU STATEMENT 1917 PYQ 1995

📖 Story link · beat 1: Because WWI's democracy slogan and INM pressure made Swaraj respectable, Britain had to promise: the Montagu Statement of 1917.

Why Britain moved

→ WWI (1914–19): Allies Britain, France, USA fought for democracy and self-determination; Indians fought and died in large numbers

→ Pressure in India: Ghadar movement (1913–15), Home Rule Leagues (1916–18), Lucknow Pact 1916 (INC + Muslim League)

→ Swaraj no longer fringe; it had moral weight

Teacher's board: chain = WWI slogan of democracy → "what about democracy in India?" → Swaraj has moral weight. Pressure inside India = Swadeshi movement (1905–08) + Revolutionaries 1907–15 + HRL movement 1916–18. Constitutional reform had three drivers: the INM (pressure on Britain), WH (read as world history), personality (not imp).

1.1 Montagu Statement / August Declaration

→ By Edwin Montagu, Secretary of State, in the House of Commons, 20 August 1917

→ Policy: "gradual development of self-governing institutions" toward "progressive realisation of responsible government in India within the British Empire"

→ Key words gradual (step by step) + progressive (each step towards the goal); Swaraj = SG (self-government); timeline stayed in British hands

→ GOI 1919 = 1st step

→ Lucknow Pact 1916 had asked "SG at an early date" (read as SG and Dominion status: SG = domestic affairs significantly Indian; Dominion = 100%)

Teacher stresses: after the Statement the demand for Swaraj is no more seditious: it just repeats government policy (World History link: WWI fought absolute monarchies for democracy; denying freedom in colonies was a moral contradiction). HRL movement 1916–18 at its peak (arrest of Annie Besant). ⭐

1905–08 Swadeshi movement

1907–15 Revolutionaries (board: 1907–11 in Swadeshi)

1912 Delhi Conspiracy Case (year as read)

1913–15 Ghadar

1916–18 Home Rule Leagues

1916 Lucknow Pact: INC + ML, demand SG at an early date

20 Aug 1917 Montagu Statement

1918 Montagu–Chelmsford Report (Chelmsford 16–21)

1919 GOI Act

🎯 2 · MONTAGU–CHELMSFORD REPORT 1918 PYQ 2003 PYQ 2004

📖 Story link · beat 3: Because a promise needs a plan, Montagu toured India and wrote the Report. Report is the blueprint, Act is the law.

Report 1918

→ 1917–18 Montagu personally visited India (unusual), toured provinces

→ Joint report with Viceroy Chelmsford 16–21 = foundational document; led directly to GOI 1919 = Montagu–Chelmsford / Montford Reforms

Term	Meaning
MC Report (1918)	Joint document after Montagu's visit: recommendation, not law = blueprint
🔧 Montford Reforms	Popular name of whole package (Report + Act); used loosely for the Act
📜 GOI Act 1919	Actual legislation by British Parliament = the law

Examiner-tested triplet: Report (1918) = blueprint, Act (1919) = law. Prelims 2003 (Indian Liberal Federation, formed by Moderates who left INC over the Report), 2004 (Report → Act 1919), 2015 (Act defined Centre–Province jurisdiction). Era chain on the PYQ board: Chelmsford 16–21 = Lucknow Pact 1916, HRL 1916–18, WWI (1914–19) behind the Act; Rowlatt Satyagraha, Jallianwala 1919, Khilafat 1920–24, NCM 1920–22 around it. RA 1773 to GOI 1935 = all constitutions of British India (board wording partly unclear). ⭐

Montford Reforms 1919 = (a) MC Report 1918 → GOI Act 1919 and (b) MC Report 1918 → Narendra Mandal. Legacy: Mountbatten in 1947 urged the Princes to sign the Instrument of Accession in the Narendra Mandal. 💡

📜 3 · PROVISIONS OF THE ACT PYQ 2012 PYQ 2015

📖 Story link · beat 4: Because Parliament turned the blueprint into law, the Centre got two houses and voters got new rolls; the Viceroy kept the strings.

🗺️ 3.1 Bicameral Centre

→ Bicameral at the Centre for British India, first time: CLA (Central Legislative Assembly, lower, ~145, life 3 yrs) + CoS (Council of States, upper, ~60, life 5 yrs)

→ Elected majority in CLA, CoS and all PLCs (Provincial Legislative Councils, life 3 yrs, at least 70% directly elected) for the 1st time (ICA 1909: non-official majority only in PLCs)

→ Direct elections first time in CLA, CoS, PLCs; CoS too, with higher income criteria (unusual for an upper house)

→ No UAF; R2V linked to income; 1st: R2V to women; number of seats: not imp

→ Practice: CLA elections 1920 → 1923 → ...

Teacher's board: GOI 1919 applied only to British India, NOT to the 565 Princely States; GOI 1935 intended the whole of India. From RA 1773 to GOI 1919 constitutions were for British India only. Adjournment motions link to the "End or Mend" Councils resolution of the Pro-Changers at Gaya 1922 (mend = amend GOI 1919). INC fights the 1923 elections; 1920 boycotted because of NCM 1920-22. One British India = one election, Centre and Provinces together; post 1947 until 1971 simultaneous elections.

3.2 Narendra Mandal (Chamber of Princes)

→ Advisory body for Princely States; key recommendation of the MC Report 1918; no legislative power

→ Constituted by Royal Proclamation 1921, not by the Act (Act gave the framework, Proclamation brought it to life)

→ Reward to Princes for WWI support: British promised to consult them on policy affecting Princely States (565)

3.3 Right to vote

→ Income/property criteria as in ICA 1909

→ Women: not directly granted; PLCs could pass resolutions removing the sex disqualification; same property qualifications as men, so <1% of women qualified

→ No Universal Adult Franchise: Lucknow Pact 1916 demanded franchise as broad as possible, not conceded

→ GOI 1935: husband's property + lower threshold for women (example: men Rs 400 from property, women Rs 200; husband's property Rs 300 → man has no R2V, wife has)

Handout alert: women's franchise 1919 vs 1935. Beside it the board writes "Thank you Sarojini Naidu".

3.4 Separate electorates: expanded, watertight

→ Muslims continued from ICA 1909 with a critical change: no longer vote in unreserved seats; unreserved seats only on unreserved rolls = watertight

→ Roots in Lucknow Pact 1916: ML gave up right to vote in general constituencies; INC accepted separate electorates and a fixed quota of seats for Muslims

→ British seized the logic: Divide and Rule

→ Extended to Sikhs, Anglo-Indians, Christians: vote only in own reserved seats, not in unreserved

→ Depressed Classes: reservation of nominated (not elected) seats in all legislatures; share inherently small (GOI 1935: Dalit seats in elected seats, 18% at the Centre)

Axis	ICA 1909	GOI 1919
Communities	Muslims	Muslims + Sikhs + Anglo-Indians + Christians
Muslim voter	Muslim (reserved) AND general seats	Only Muslim seats
Other voters	General seats	Only own seats (Sikh, A-I, Christian) or general
Rolls	Muslims on both Muslim and general rolls	Watertight

Teacher's value-addition: LP 1916 was for Hindus and Muslims only, not Sikhs. If separate electorates laid a foundation for Pakistan, Britain also laid the foundation of the Khalistan issue. Sikh, A-I and Christians do not vote in UR/Gen seats. Prelims 2026 (answer d, 1, 2 and 3): watertight + extended; Divide and Rule against nationalism just united (Lucknow 1916); Depressed Classes nominated seats so every community had a favour.

3.5 Division of subjects

→ Centre and Provinces first time; not federal: no formal lists (no 7th Schedule of COI 1950: Central, Concurrent, State lists); Centre could take any subject or legislate at will

→ Provincial Budget separate from Central, first time (till 1919 Centre prepared all BDs)

→ Land Revenue to Provinces; Customs and Income Tax with the Centre

→ Seats by perceived importance, not population: Punjab military, Bombay commercial ("not in line with democracy")

Board: subjects = sovereign functions: External (always Centre) + Domestic (divided). Family-property analogy: 1919 = on paper all property is the parents', in practice shared; 1935 and 1950 = divided legally. Property = Subjects; Parents = Centre; Sons = Provinces; Papers = Lists / COI.

🏛️ 3.6 Viceroy's Executive Council (VEC)

→ Statutory limit on ordinary members removed (ICA 1861: 5; 1874 amendment: 6)

→ Convention (not law): Viceroy + C-in-C + 6 ordinary = 8, 3 of 6 Indians; board: GG + CIC + 6 ordinary, 1 Indian under ICA 1909; 3 Indians on a British Committee basis

→ Lucknow Pact 1916 demanded half the VEC Indian; 3 of 8 = unmet

Source conflict (VEC cap): handout dates the 6-member cap to 1874 (5 under ICA 1861); board writes it under ICA 1909 (GG + CIC + 6, one Indian). Both give 8 in all; Ch 31 says VEC "same since 1874". Use handout dating and board numbers.

⚡ 3.7 Viceroy's powers: no responsible Centre

→ VEC not accountable to the legislature; responsibility = Minister is an elected MP, accountable by No Confidence Motion; none for the Centre

→ Morley (ICA 1909): no intent of Responsible Govt in India; August Declaration promised "progressive realisation"; GOI 1919 only the 1st step

No.	Viceroy's power	Meaning
i	Veto over all bills	
ii	Approve rejected bills	Pass bills rejected by CLA/CoS (E brings bill; elected L can defeat it)
iii	Ordinance	Law by executive order, valid 6 months
iv	Restore cuts in grants	Override budget votes (E wants Rs 100, L says Rs 80; Rs 20 = the cut)
v	75% of budget non-votable	Discuss but not vote; rest = votable items

VERBS — Veto · ordinanE / executive law · Restore cuts · Bills (approve rejected) · non-votable Share 75% (teacher's word: "Viceroy keeps VERBS"; letter mapping mine, verify)

Teacher stresses: Taxation Without Representation: taxes approved by elected MPs; the grievance continued after 1919: Indians taxed but no real control over spending. The 75% non-votable is of the BD (budget).

🎯 3.8 ICS exam and PSC

→ ICS exam held simultaneously in India and England; first in India 1922

→ Section 96C: Public Service Commission, set up 1926, Ross Barker first Chairman (ancestor of UPSC)

→ Gradual rise to 33% Indians in senior posts

→ ICS split into All India Services (AIS) and Central Civil Services (as Act divided subjects)

→ Board: 1892 implemented Aitchison Commission: CCS and UCS became ICS, PCS and Subordinate CS (one abbreviation unclear; see Ch 18). IT and Customs = Centre revenue → their collectors under Centre: IRS = Central CS

🎯 4 · DYARCHY: THE MOST DEBATED FEATURE PYQ 2017 PYQ 2022

📖 Story link · beat 9: Because the Centre could not be made responsible yet, the experiment moved to the provinces: Reserved to the Governor, Transferred to ministers.

Dyarchy = dual rule

→ Dy = Two; Archy = Top Authority: board "2 TOP AUTHORITIES"

→ Provincial subjects split into Reserved and Transferred, run by different authorities; Governor (E; board shorthand GEC) has ministers of Re and ministers of Tn; no CM under 1919 (1935 brings CM)

→ Earlier dual governments: ToA 1765 (Bengal: Diwani = Transferred with EIC; Nizamat = Reserved with Nawab); PIA 1784 (Commercial = Reserved with Court of Directors; CMR = Transferred with Board of Control). Reserved = OLD authority; Transferred = NEW (Ch 10, 17)

→ Board illustration: 100 subjects = 60 Centre + 40 Provinces = federalism; the 40 split into Reserved + Transferred

4.1 Reserved · 4.2 Transferred

→ (table below)

→ 4.3 Why Dyarchy failed

→ 4.4 Dyarchy today

Feature	Reserved	Transferred
Subjects	Politically important: Law & Order (Police), Administration of Justice, Finance, Land Revenue, Irrigation, Control over Officials	Less sensitive: health, education, local government, agriculture
📜 Law-making	PLC formal power; Governor absolute veto + certification	PLC
👑 Executive	Governor + unelected Executive Councillors (board: ministers of Re), not answerable to PLC	Elected Ministers responsible to PLC (Governor appoints from elected members)
Mnemonic	FOCAL	HALE

FOCAL / HALE — FOCAL = Reserved (Finance, law & Order, Control over officials, Administration of justice, Land revenue) · HALE = Transferred (Health, Agriculture, Local govt, Education) (words from source; letter mapping mine, verify)

Prelims 2022 (answer c, 1, 3, 4): Justice, Land Revenue, Police = Reserved; Local Self-Government = Transferred (odd one out). Board mnemonic "Power = rupee sign + small drawing + POL + SoWUL": rupee sign beside Land Revenue, POL = Police; drawing and last word unclear. ⭐

Source conflict (Irrigation): handout detailed list and Mains skeleton include Irrigation as Reserved; slide summary card lists Reserved as Police, Justice, Finance, Land Revenue, Control over Officials without Irrigation. Learn the six; PYQ 2022 tests only Justice, Land Revenue, Police.

Why Irrigation Reserved: major canal systems (Punjab Canal Colonies) were State-funded public works (railways: private British capital under State guarantee); linked to Land Revenue, water rates, rural administration; small landlord electorate not trusted; kept provincial revenue with officials; in Punjab canal-colony lands granted to military veterans and loyal rural elites. Land Revenue Reserved while Agriculture Transferred: reserved the revenues, transferred the tension. 💡

⚠️ Why Dyarchy failed

→ Ministers got less important subjects, no control over finance or officials: could not govern even Transferred subjects

→ Failure to deliver = unpopular, as British designed: hurt legitimacy, show Indians cannot govern, delay responsible government

→ On failure of constitutional machinery Governor could take over executive + legislative powers on Transferred too; ministers overruled on any matter

→ Examples (board): no party gets a majority; MG's boycott of the Legislature

Dyarchy today (board): all provincial subjects Transferred (L = SLA, E = ministers responsible to SLA; no Reserved, every minister must first be an MLA). A form of Dyarchy exists in **UT with Legislature**; difference: LG acts on aid and advice of the Central Government, fully responsible, unlike 1919. ✅

Prelims 2017 (answer d): Dyarchy = division of subjects delegated to provinces into two categories; one executive splits into E1 (no responsible govt = Reserved) + E2 (responsible = Transferred). Bicameral = division of legislature; double government Centre–State = federal (vertical); London–Delhi = SoS–Viceroy axis. **GOI 1935: Dyarchy at the Centre; fully responsible government in Provinces.** ⭐

🎯 5 · WHY INM LEADERS WERE DISSATISFIED PYQ 2015

📖 **Story link · beat 11:** Because the half-step fell short of the Lucknow Pact and Swaraj, the INM listed its grievances (DREAMS).

No.	Ground	Detail
5.1	Unsatisfactory **division of subjects**	Not true federalism: Centre retained overriding power (Reserved/ Transferred itself unsatisfactory)
5.2	**Dyarchy mocked federalism**	Governor, agent of the Centre, controlled Reserved
5.3	**No Universal Adult Franchise**	Income-linked; short of Lucknow Pact 1916 "as broad as possible"
5.4	**No fully responsible government**	Partial in provinces (Transferred), none at Centre
5.5	**Seats by importance**, not population	In CLA and CoS (to Provinces)
5.6	**No effective self-government**	Better than limited SG of ICA 1909, far from Swaraj (INC goal since **1906 Calcutta Session**)

DREAMS — Teacher: **"Learn them as DREAMS"** = the six grounds above (source gives the word, not the letter key)

Board scale of SG: No SG → Limited SG (1909) → 1919 (franchise unsatisfactory; no responsible govt at Centre; partially responsible in Provinces) → SG. **Dyarchy = partially responsible government.** 💡

6 · SUMMARY CARD

📖 **Story link · beat 11:** Last look: the whole Act on one card, for a quick check before the PYQs.

Head	Summary
Names	Montagu (SoS), Chelmsford 16–21 (Viceroy)
📜 Legislature	CLA ~145 + CoS ~60; elected majority and direct elections 1st in CLA, CoS, PLCs; PLC 3-year life; nominated seats for Depressed Classes
🗳️ Separate electorates	Sikhs, Anglo-Indians, Christians; watertight
VEC	GG + CIC + limit removed (convention 6, 3 Indians)
Viceroy	Veto, ordinance 6 months, approve rejected bills, restore cuts, 75% non-votable
👫 Women	PLCs could remove gender disqualification
ICS	Simultaneous exam (1922); PSC Section 96C, 1926, Ross Barker
Narendra Mandal	Royal Proclamation 1921

Source note: handout page ends with the index of the next chapter (Gandhiji in South Africa, Sections 1 to 8), which belongs to Ch 35, not this one. "Royal Proclamation 1921" is stressed on the board.

🎯 7 · NINE PRELIMS PYQs SOLVED

📖 Story link · beat 11: Now test it: nine Prelims PYQs ask for sequence, features, Dyarchy and Reserved subjects.

Year	Answer and trap
7.1 · 1995 sequence	(b) 4, 1, 3, 2: Partition 16 Oct 1905 · Lucknow Pact 29 Dec 1916 · Rowlatt Act 19 Mar 1919 (board: Feb 1919) · Dyarchy 23 Dec 1919
7.2 · 2003	(d) Indian Liberal Federation (All India National Liberal Federation, 1918, Surendranath Banerjea + Tej Bahadur Sapru). Swarajya Party 1923 = C.R. Das + Motilal Nehru. Moderates welcomed the Report; Extremists under Tilak condemned it
7.3 · 2004	(b) GOI Act 1919. ICA 1909 = Morley–Minto; GOI 1935 from Simon Commission–Round Table–Communal Award; Independence Act 1947 = Mountbatten Plan
7.4 · 2012	(c) 1 and 3. 2 false (separate electorates = ICA 1909). Firsts: elected majority, direct, bicameral, R2V women, subjects divided, budget separate, Dyarchy
7.5 · 2015	(b) jurisdiction of Central and Provincial Governments (SUB 100 → Centre and Province)
7.6 · 2016	(d) constitutional reforms; features: Dyarchy, bicameral Centre, PSC. Education only Transferred; Police Reserved
7.7 · 2017	(d) division of subjects into two categories (F, F, F, T)
7.8 · 2022	(c) 1, 3 and 4
NEW 7.9 · 2026	(d) 1, 2 and 3

Conflict (Rowlatt date): March on the slide, February on the board for the Rowlatt Act (see Ch 37: passed Feb 1919).

TIMELINE

📖 Story link · beat 11: Same story in dates: war pressure, Statement, Report, Act, Dyarchy, then the INM's verdict.

1905
16 Oct Partition of Bengal; Swadeshi 1905–08

1906
INC Calcutta: Swaraj goal

1909
ICA: limited SG; Muslim separate electorates

1912
Delhi Conspiracy Case

1913–15
Ghadar

1914
WWI begins (1914–19)

1916
HRL 1916–18; Dec Lucknow Pact; Chelmsford 16–21

20 Aug 1917
Montagu Statement

1918
MC Report; Liberal Federation

1919
Rowlatt Act; 23 Dec GOI Act, Dyarchy

1920
CLA elections; NCM 1920–22 (boycott)

1921
Narendra Mandal

1922
First ICS exam in India; Gaya End or Mend

1923
INC fights elections; Swarajya Party

1926
PSC, Ross Barker

1935
GOI Act 1935: husband's property, 18% Dalit seats, all-India federation intended

1947
Mountbatten addresses Princes in Narendra Mandal

1950
COI 7th Schedule

Recall drill: cover and answer

Who made the August Declaration, when?	Edwin Montagu, 20 August 1917; gradual + progressive	Report vs Act?	1918 Report = blueprint; 1919 Act = law; together Montford Reforms
CLA and CoS: size and life?	CLA ~145, 3 yrs; CoS ~60, 5 yrs; PLC 3 yrs	Viceroy's five powers?	Veto, approve rejected bills, ordinance 6 months, restore cuts, 75% non-votable (VERBS)
Reserved vs Transferred?	FOCAL (Police, Justice, Finance, Land Revenue, Irrigation, Control over Officials) vs HALE (health, education, local govt, agriculture)	Women's vote 1919?	PLCs could remove the sex disqualification; same property bar as men; <1% qualified; husband's property = 1935
Separate electorates changed how?	Watertight; extended to Sikhs, Anglo-Indians, Christians; Depressed Classes nominated seats	Narendra Mandal?	Advisory; Royal Proclamation 1921; from the MC Report
ICS reforms?	Simultaneous exam, first India 1922; Section 96C PSC 1926, Ross Barker; 33% Indians		

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

PSC = Public Service Commission — Constitutional recruitment body (UPSC for the Union, SPSC for States)

NCM = National Commission for Minorities — Statutory body under the NCM Act, 1992

ML = Money Laundering — Passing illegal money through legitimate channels to hide its origin

CM = Chief Minister — Head of a State government

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

AIS = All India Services — IAS, IPS and Indian Forest Service, created under Art 312 and shared by Union and States

IT = Information Technology — Computing and digital technology (for example, the IT Act, 2000)

UT = Union Territory — Area administered directly by the Union government

LG = Lieutenant Governor — Administrator of certain Union Territories

VEC = Viceroy's Executive Council

GANDHIJI IN SOUTH AFRICA

PYQ Prelims 2014 (indentured labour; answer b, 1 and 3) · Mains none official; two practice questions

First an injustice, then a method, then a mass movement, then victory. An ejection and two Natal laws led to petitions, then Satyagraha with a code and two farms, the 1913 mass turn, and the 1914 win on three demands.

Current affairs · verify dates

Five new entries in India's UNESCO Tentative List
Five proposals added, total 78: four in Madhya Pradesh and one serial transnational proposal with South Africa.

THE STORY FIRST (same story as the textbook)

Injustice, then a method, then a mass movement, then victory: an ejection and two Natal laws (injustice) lead to petitions (Phase 1), then to Satyagraha (the method) built on a code and two training farms, then to the 1913 turn (mass), and finally to the three-demand settlement of 1914 (victory).

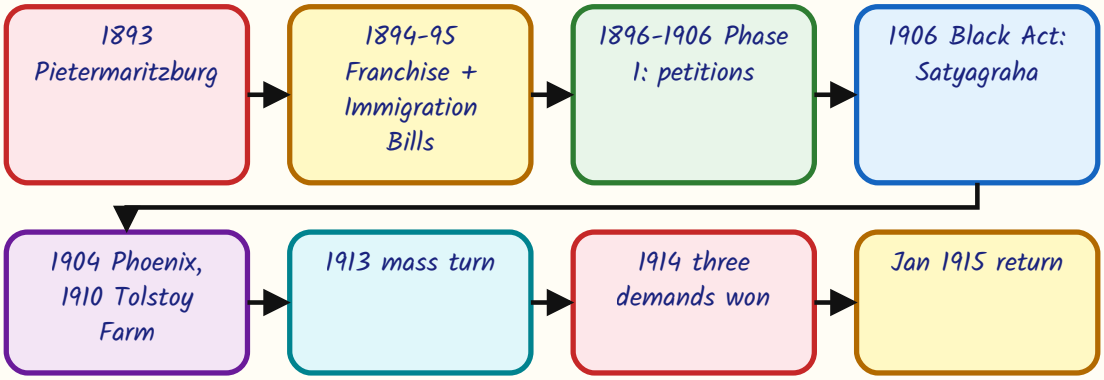

1. **A barrister, a ticket and a platform (1893).** Young barrister Gandhi comes for a Memon Muslim merchant's case. He is ejected from a first-class compartment at Pietermaritzburg despite a valid ticket, and resolves to fight.
   → So he resolves to fight, not to endure.
2. **The community asks him to stay.** The Indian community is leaderless and has no educated advocate. He alone can fight within the system, so a short visit becomes twenty-two years (1893 to 1915).
   → Soon two Natal laws give him his first fight.
3. **Two Natal laws (1894–95).** Franchise Amendment Bill 1894 strips Indians of the vote. Immigration Law Amendment Bill 1895 forces an indentured labourer to leave, re-indenture or pay a £3 a year poll tax.

→ Gandhiji answers within the law.

4. **Petitions, prayers and the press (1896–1906).** He founds the Natal Indian Congress and Indian Opinion, and uses petitions, prayers and public meetings, a Moderate like the INC Moderates. The government is unmoved.
   → But the government is unmoved by petitions.
5. **Satyagraha is born (1906).** By 1906 he decides constitutional methods are not enough: the answer must be direct but non-violent. A Satyagrahi is truthful, non-violent, fearless, ready to suffer. Phoenix Settlement 1904 came from Ruskin.
   → Now a law arrives that tests the method.
6. **The Black Act and the broken promise (1906–14).** Asiatic Law Amendment Act 1906: every Indian in Transvaal must carry a Registration Certificate. The promise to withdraw it is broken; he leads the RC bonfire and Jail Bharo.
   → The government now closes the borders.
7. **Caged within provinces (1907–08).** Transvaal Immigration Restriction Act 1907 bars entry from Cape, Natal and Orange Free State. Indians cross illegally, refuse bail and hawk without licence; Gandhiji is jailed in 1908.
   → A long struggle needs a base.
8. **Tolstoy Farm and Gokhale (1910–12).** Tolstoy Farm (1910) becomes the base for Satyagrahis and their families. In 1912 Gokhale visits, the repeal promise is broken, and he advises two demands: abolish Poll Tax and RC.
   → Then a court ruling lights the fuse.
9. **1913: the movement goes mass.** The Poll Tax Campaign brings labourers in. A court recognises only Christian marriages, so other wives are not wives. Kasturba is arrested, 2,000 workers march, all workers strike.
   → Pressure now comes from India as well.
10. **Gokhale tours India; Hardinge 10–16 speaks.** Gokhale builds opinion across India, and Viceroy Hardinge 10–16 publicly condemns South Africa. Pressure from inside the Empire brings the government to the table.
    → So the talks end in a settlement.
11. **Victory and return (1914–15).** The government concedes all three demands: Poll Tax abolished, RC dropped, Indian marriages validated. Gandhiji returns January 1915 having learned mass civil disobedience works; Champaran, Kheda, Dandi follow.

Cast: Mohandas Karamchand Gandhi = The Barrister Who Stayed · Memon Muslim merchant = The Client · Indentured labourers = The Bonded · John Ruskin = The Book Behind Phoenix · Leo Tolstoy = The Farm's Namesake · Gopal Krishna Gokhale = The Mentor · Kasturba Gandhi = The First Lady of the Strike · Viceroy Hardinge 10–16 = The Voice from the Empire · South African government = The Promise-Breaker

At a glance: injustice, method, mass, victory

1 · WHO WAS IN SOUTH AFRICA

📖 Story link · beat 1: Story so far: Indians are the smallest group in South Africa, and into it walks a young barrister in 1893.

CNOT — SAf 1911 = CNOT: Cape Colony · Natal (max Indians) · Orange Free State · Transvaal (teacher's board; Union of South Africa)

Group	Share
Indigenous Bantus	roughly 70%
European settlers	18%
Mixed race	9%
Asians	3%

1.1 Two (three) kinds of Indians

→ Memon Muslims: traders and merchants, came voluntarily (free passage)

→ Indentured labourers: bond contracts (tied labour), numbers rose after 1890 (late 19th century, accelerated when white settlers recruited cheap labour) for sugar plantations and mines; a step above slavery in name only; signed fixed-term contract without understanding it

→ Handout chart adds ex-indentured (completed contract, settled)

→ Grievances: indentured = bond-tied; Memon traders = Black Act 1906 (RC, fingerprinting) + Transvaal Immigration Restriction Act 1907; ex-indentured = £3 poll tax (1895 Immigration Law) + Franchise Bill 1894; also 1913 judgement invalidating non-Christian marriages

Examiner-tested anchor (Prelims 2019): Mahatma Gandhi was instrumental in the abolition of the system of Indentured Labour. PYQ 2019

2 · HOW HE ENDED UP STAYING

📖 Story link · beat 2: Because an ejected barrister decided to fight, and a leaderless community asked him to stay, a short visit became twenty-two years.

Mohandas Karamchand Gandhi

→ Arrived 1893, young barrister, hired for a commercial case of a Memon Muslim merchant

→ Pietermaritzburg station: ejected from a first-class compartment solely for being Indian, valid ticket = political catalyst: resolved to fight racial discrimination rather than quietly endure it

→ Leaderless Indian community persuaded him to stay: only person who could fight within the system

→ 22 years (1893–1915)

📜 3 · THE TWO TRIGGER LAWS (1894, 1895)

📖 Story link · beat 3: Because Natal wanted Indians out of politics and out of the colony, two laws gave him his first fight.

📜 3.1 Franchise Amendment Bill 1894 (Natal)

→ Sought to disenfranchise Indians (strip Right to Vote); some had qualified by a wealth criterion; Bill closed it on racial grounds

→ "Taxation without Representation" (TWR): taxed but no say; compare American colonists 1776

📜 3.2 Immigration Law Amendment Bill 1895 (Natal)

→ On completing contract the indentured labourer must: (1) leave South Africa, (2) re-indenture for two more years ("again sign oppressive contracts"), (3) pay poll tax £3 per year

→ Not about revenue: make Indian settlement unsustainable

👥 4 · PHASE 1: CONSTITUTIONAL (1896–1906)

📖 Story link · beat 4: Because he first trusted the law, he behaved like an INC Moderate: petitions, prayers and the press.

👥 Constitutional phase

→ Within the law: petitions, prayers, public meetings (handout: petitions, prayers, press)

→ Natal Indian Congress (NIC) (1894), modelled on the INC; Indian Opinion (Np, newspaper) to publicise grievances

→ Moderate, respectful: appeal to conscience of rulers; echoes INC Moderates: Moderate in spirit

Exam trap: NIC (1894) and INC (1885) are separate bodies in different countries; Gandhiji founded the NIC only.

👥 5 · PHASE 2: EXTRA-CONSTITUTIONAL (1906–1915)

📖 Story link · beat 5: Because petitions failed, a new method was needed: Satyagraha, with a code and training farms (Phoenix, Tolstoy).

Exam trap: Satyagraha was first developed and used in South Africa, not India; Champaran 1917 = first use on Indian soil. By 1906 petitions failed, so a direct but non-violent method was needed.

5.1 Satyagrahi's code (5 clauses)

→ i Truthful in word, action, intention (courage + credibility of demand)

→ ii Non-violent absolutely, even under provocation (longer movement, greater participation)

→ iii Fearless: ready for arrest, jail, physical suffering (willing to bear violence)

→ iv Ready to accept suffering, not inflict it

→ v Loving toward wrongdoer, hate has no place (faith he will realise his mistakes)

→ Not "protest when convenient": complete transformation of the individual

iDeal indian Bf/Husband – Teacher's mnemonic for exam: "iDeal indian Bf/Husband" (for the five-clause code). Teacher: "Goal of Satyagrahi = IRRITATE THE VILLAIN".

5.2 Phoenix 1904 · 5.3 RC Satyagraha 1906–14 · 5.4 Immigration laws 1907 · 5.5 Tolstoy Farm 1910 · 5.6 Gokhale 1912 (strip below)

1904
Phoenix Settlement near Durban: inspired by Ruskin's Unto This Last; self-reliance, simple living; Indian Opinion printed here; 1st communal experiment

1906
Asiatic Law Amendment Act = Black Act (Transvaal): every Indian must carry Registration Certificate (RC); failure = fine, jail, deportation; 'instrument of racial surveillance'

1906–14
RC Satyagraha: govt offered to withdraw if Indians registered voluntarily; Gandhiji first to register; govt broke its promise → bonfire of RCs, Jail Bharo; run by Passive Resistance Association

1907
Transvaal Immigration Restriction Act: no free movement into Transvaal from Cape, Natal, Orange Free State ('physically caged'); Indians crossed illegally, courted arrest, refused bail; hawked without licence

1908
Gandhiji jailed; prisons overflowed; strategy = make enforcement costly

1910
Tolstoy Farm near Johannesburg: base for Satyagrahis' families; named after Leo Tolstoy; self-reliance (farming, crafts); seed of the ashram

1912
Gokhale (mentor, INC Moderate) visits: govt promises repeal, then breaks it; advice: two demands, Poll Tax + RC (hit every household)

Teacher stresses: "John Ruskin's Unto This Last" and "Tolstoy Farm (1910)"; "Registration Certificate (RC)". Progression: Phoenix 1904 → Tolstoy Farm 1910 → Sabarmati/Sevagram (link Ch 36). Fearless and self-sufficient = govt has fewer levers.

Source conflict (Black Act year): handout flow chart boxes the Black Act at 1907; handout text and slides date the Asiatic Law Amendment Act 1906 and the Immigration Restriction Act 1907. Use 1906. Board margin: "COMPULSORY VIDAI" (second word uncertain).

💰 6 · POLL TAX CAMPAIGN, 1913

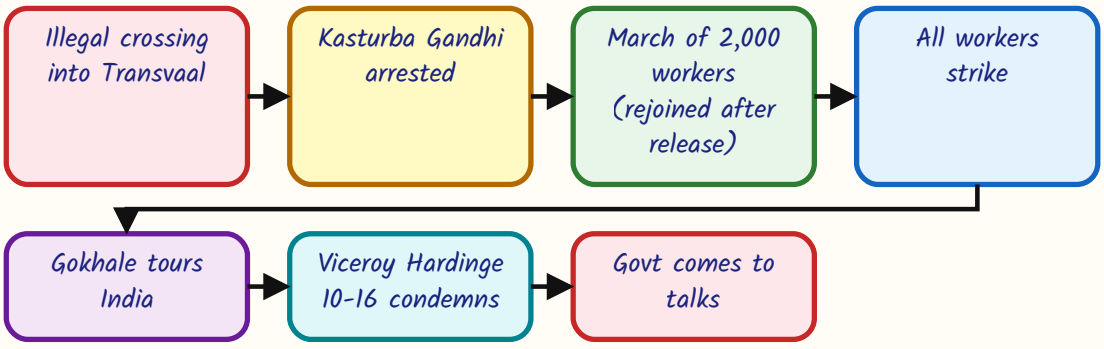

📖 Story link · beat 9: Because Gokhale narrowed the demands to those every household felt, 1913 made the struggle mass: labourers and wives joined.

6 · 6.1 1913: mass character

→ Till then led by educated Indians (lawyers, merchants); poll tax hit indentured labourer, so working class joined

→ 1913 Supreme Court judgement: only Christian marriages valid; Indian wives not wives, children potentially illegitimate: struggle now about family, dignity, religious identity

1913 final struggle: the sequence

7 · OUTCOME 1914 AND 1915

📖 Story link · beat 11: Because pressure now came from workers, wives, India and the Viceroy, the government gave in on all three demands.

Demand	Result 1914
💰 i) Poll Tax	abolished (the £3 annual penalty)
ii) Registration Certificates	Black Act requirement dropped
iii) Indian marriages	Hindu, Muslim and other rites validated

Return: Gandhiji back in India January 1915 "not as a defeated petitioner but as a leader who had won". Lessons: mass civil disobedience works; ordinary people, not just elites, can be soldiers of a non-violent movement; the State's weapon, the law, is neutralised when people accept punishment without fear. Natal and Transvaal = laboratory for Champaran, Kheda, Dandi. ✅

Handout flow chart adds: 1906 Empire Theatre, Johannesburg: first Satyagraha; 1913 Newcastle miners' strike + march of 2,000; 1914 Smuts–Gandhi Agreement / Indian Relief Act; 1915 return, Apollo Bunder. ⭐

Feature	Phase 1: Constitutional (1896–1906)	Phase 2: Extra-Constitutional (1906–1915)
Method	Petitions, prayers, public meetings, press	Satyagraha: bonfire of RCs, Jail Bharo, illegal crossings, hawking, strike, march
Bodies	Natal Indian Congress; Indian Opinion	Passive Resistance Association; Phoenix; Tolstoy Farm
Spirit	Moderate, like INC Moderates	Active, disciplined, non-violent
Base	Educated Indians: lawyers, merchants	Mass from 1913: indentured labourers join

Prelims 2019 traps: (1) true; (2) false: Gandhi did support recruitment at the April 1918 Delhi War Conference (Lord Chelmsford); (3) true: INC declared illegal after the Salt Law broken (1930). Only statement 1 comes from this chapter. 📌

1893 Pietermaritzburg

1894 Franchise Bill; NIC

1895 Immigration Bill, £3 tax

1896 Constitutional phase to 1906

1904 Phoenix

1906 Black Act; Satyagraha to 1914

1907 Transvaal Immigration Restriction Act

1908 Gandhiji jailed

1910 Tolstoy Farm

1912 Gokhale visits

1913 Marriage judgement; march of 2,000; strike

1914 Three demands won

1915 January return

In the news · September 2026 (verify dates) UNESCO Tentative List: five new entries, total 78: four in Madhya Pradesh and one serial transnational proposal with South Africa.

Recall drill: cover and answer

Why did Gandhi stay in SA?	1893 case for a Memon merchant; ejected at Pietermaritzburg; leaderless community asked him; 22 years	SA provinces 1911?	CNOT: Cape, Natal (max Indians), Orange Free State, Transvaal
Population shares?	Bantus 70%, Europeans 18%, Mixed 9%, Asians 3%	1895 Immigration Bill choices?	Leave, re-indenture 2 yrs, or pay GBP 3 poll tax a year
NIC vs INC?	NIC 1894 (Gandhi, Natal); INC 1885; Indian Opinion = his paper	Five-clause code mnemonic?	iDeal indian Bf/Husband; goal = irritate the villain
Phoenix vs Tolstoy Farm?	1904 Durban (Ruskin) vs 1910 Johannesburg (Tolstoy)	Black Act?	Asiatic Law Amendment Act 1906, Transvaal: RC compulsory; bonfire + Jail Bharo
1914 settlement?	Poll tax abolished, RC dropped, Indian marriages validated; return Jan 1915		

🔤 **Quick brief: abbreviations, schemes, bodies** (expansions from notes where given; briefs are general knowledge, verify)
NIC = Natal Indian Congress RC = Registration Certificate

GANDHI'S IDEOLOGY

PYQ Prelims 1996, 2011, 2020, 2021 · Mains 2023 cue (Gandhi vs Tagore), 2016 cue (Gandhi vs Bose)

Personalities in news
Anniversaries, September 2026.

✎ *Ideology comes first. Gandhi's cultural nationalism and moral critique of the West give a stateless, village-based ideal, and Satyagraha (rising tempo, control, S-CW-S, an undefined Swaraj) is the method that carries ordinary people towards it.*

📖 THE STORY FIRST (same story as the textbook)

Ideology comes first: Gandhi's cultural nationalism and moral critique of the West give him a stateless, village-based ideal, and Satyagraha (rising tempo, control, S-CW-S, an undefined Swaraj) is the method that carries ordinary people towards it.

1. **Why start with ideology.** Politics rests on ideology. Gandhi is Father of the Nation because he brought all religions, castes, genders and regions into a movement for a Nation State: maximum contribution, not the only one.
   → So where do we read his mind? In one book.
2. **Hind Swaraj and a cultural nationalist.** Hind Swaraj (1909): ten-day sea voyage, Reader and Editor dialogue. Like Dayanand and Vivekananda he is a cultural nationalist, but goes further: dresses like the masses, uses Ram Rajya, Sita, Draupadi.
   → Was he then against everything modern?
3. **Not anti-modern, but moral.** He criticises Western modernity built on industrial capitalism, profit and the coercive State, not reason or science. Indians enslave themselves to an alien system; he calls acts immoral (adharma), not just illegal.
   → If the State is coercive, what should replace it?
4. **A stateless ideal.** Like Marx, his end-goal is a stateless society, through Enlightened Anarchism: morality over law, Village Republics, Gram Sabha (Article 243). Parliamentary democracy only a transition. Ambedkar answers: a strong State.
   → And the economy under such a polity?
5. **The village economy.** A village-based, self-sufficient economy like ancient India, rejecting the Industrial Revolution. Almost everyone else is pro-IR. Land by voluntary gift: Vinoba Bhave's Bhoodan (Telangana, 1951).
   → But what of capitalists?
6. **Trustee and arbitrator.** Capitalists stay, under Trusteeship: the owner holds the enterprise for workers and community. Disputes go to Arbitration: both truths, then a middle path. It united Moderates and Extremists in 1920.
   → The method for politics is Satyagraha.

7. **Satyagraha and its two principles.** Satyagraha, truth-force: Non-Cooperation, Civil Disobedience, Constructive Work, Non-Violence, Morality. He never gains from the evil doer's weakness (backed Britain in both wars) and hates breach of promise (Montague 1917, Rowlatt Act 1919).
→ How did he run a movement?

8. **Tempo, control, truce.** He starts light and escalates, but keeps the mass movement controlled: withdraws NCM after Chauri Chaura (22 policemen, February 1922). Constructive Work fills the truce, so S-T-S is really S-CW-S.
→ Why did it work?

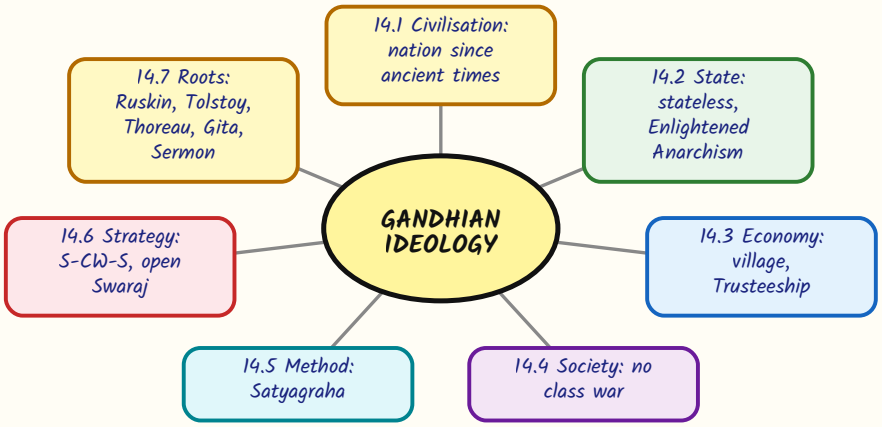

9. **Why it worked, and an undefined Swaraj.** Satyagraha united Moderates and Extremists (Surat 1907), let common people join, and made repression a propaganda disaster. Swaraj stays undefined so each group finds its meaning; Jinnah and Tagore are uneasy.
→ Where did the ideas come from?

10. **Five influences.** Ruskin (1862) gave Sarvodaya and Phoenix (1904); Tolstoy (1894) non-resistance and Tolstoy Farm (1910); Thoreau (1849) civil disobedience; the Gita Nishkama Karma; Sermon on the Mount love of the enemy.
→ And the record of his life?

11. **Fasts, writings, jails.** Nine fasts, Ahmedabad 1918 to Delhi 1948, incl. Epic Fast 1932 (Poona Pact, 71 to 147) and 1933 temple-entry. Papers: Indian Opinion 1903 to Harijan 1933. Ten arrests, 1906 to Quit India 1942; 1922 trial the only major one.

Cast: Gandhi = The Moral Politician · Dayanand, Vivekananda, Bankim = The Pride Builders · Tilak = The Pragmatist · Tagore = The Worrier · Bose = The Blood Voice · Ambedkar = The Law Man · Jinnah = The Critic of Ambiguity · Marx = The Other Road · Mao = The Other 'No' · Vinoba Bhave = The Walking Giver · Ruskin = The Magic Spell · Tolstoy = The Non-Resistor · Thoreau = The Disobedient Citizen · Judge Broomfield = The Fair Judge

At a glance: seven heads

0 · WHY IDEOLOGY: THE ROOT

📖 Story link · beat 1: Because movements grow from beliefs, this chapter comes first: ideology is the root of modern politics.

Teacher's board: modern politics has goals, plans, programme, leadership, voice, money; the root of all = ideology, so ideology comes before movements. Nation = sum of people: one, equal, supreme. Father of the Nation = MG because he brought the masses (religions, castes, genders, regions, ethnicities) into a movement for a Nation State; maximum contribution, not the only. India is a Nation State: given in the Preamble. ⭐

🎯 1-2 · HIND SWARAJ 1909; CULTURAL NATIONALIST PYQ 1996

📖 Story link · beat 2: Because ideology is the root, we read his mind in one book: Hind Swaraj shows a nationalist of culture.

Hind Swaraj (1909): most authentic source; written on a ten-day sea voyage; dialogue of Reader and Editor. Nationalism has three branches: culture, politics, economics. 💡

2.1 Cultural nationalism

→ Identity rooted in civilisation, culture, shared heritage, not race, language or territory alone; different from political nationalism (self-governance demand)

→ Culture = art, music, paintings, religion, folk lore, literature, historical heroes, festivals, spiritual questions; values resolve ethical dilemmas; "India is a civilization"

→ Before him: British racism stimulated it: Dayanand + Arya Samaj (1875), Vivekananda + Ramakrishna Mission (1897), Bankim Chandra Chattopadhyay (Bharat Mata, ideologue not politician)

2.2 How Gandhi went further

→ Dressed and spoke like masses; Ram Rajya = society with no gender, caste or religion-based oppression (shared vocabulary)

→ Sita and Draupadi icons drew women in

→ Religion mobilised: religion a stronger social bond than class; like Extremists, unlike Moderates (petitions to Western-educated middle class)

→ Took it into a concrete economic and political programme: unique

→ Board: MG Gujarati, yet Nagpur 1920 INC said use Hindi as far as possible (board tag: utilitarianism)

→ Society organised by isms (chashmas): communalism (H, M, S, C, Bu, Atheist; racism under it), linguistic nationalism (L1-L7), casteism, genderism (feminism, patriarchal, LGBTQ), class-ism, regionalism; ours = nationalism; in India religion row binds most

2.3 Gandhi, Tilak, Tagore

→ Tilak: Ganesh Chaturthi 1893, Shivaji Festival 1896 (coronation day); board: CULTURE not RELIGION; relatively combative nationalism; Extremists = secular use of religion

→ Gandhi: universal inclusion; hymn line "Ishwar Allah tero naam"

→ Tagore: feared mass religious nationalism sliding into intolerance (board tag UTILITARIANIST)

→ Gandhi: cannot raise consciousness before you first mobilise

3 · WAS GANDHI ANTI-MODERN?

📖 Story link · beat 3: Because a cultural nationalist might seem to reject everything new, the chapter clears the doubt: he was moral, not anti-modern.

3.1 Moral critique · 3.2 Dayanand

→ Not anti-modern: criticised industrial capitalism, profit motive as sole purpose, coercive State (strong centralised State); not reason, science, progress

→ Western civilisation "Godless" = morality-less; railways, doctors, lawyers = instruments of profit and looting (railways link port to raw materials and markets: RM, FG)

→ Self-criticism: Indians enslaved by capitalism

→ Language of morality links to pre-1857 and 1857 resistance: all agreed British rule is IMMORAL; constitutional critic: "against Fundamental Rights" (X); MG: "immoral (ADHARMA)"

→ Dayanand: Swarajya = freedom from foreign influence; India a nation since ancient times, oneness by civilisation without railways or bureaucracy; British disrupted it (separate electorates; rich-poor divide)

🗺️ 4 · STATELESS SOCIETY, ENLIGHTENED ANARCHISM PYQ 2020

📖 Story link · beat 4: Because the West's State is coercive, he wanted none at all: a stateless society.

🗺️ Stateless society

→ Same end-goal as Marx, different path: Marx = State withers after revolution (Dictatorship of the Proletariat); Gandhi = when individuals reach perfect moral self-regulation

→ Swaraj = Enlightened Anarchism: every individual his own master; morality not State law; favourite FR = individual liberty; with perfect self-regulation even multi-party democracy (MPD) unnecessary

→ Not Extremists' home rule, Moderates' indirect democracy, or Marx's class rule; MG = rule of each individual (more democratic, more decentralised)

→ Extremists, Moderates, Bose, Nehru, Patel: Swaraj = indirect (representative) democracy = India today

Prelims 2020: the only common agreement of Gandhism and Marxism = final goal of a stateless society (answer a); not class struggle, abolition of private property or economic determinism. ⭐

Village Republics

→ Direct democracy + mutual cooperation; Gram Sabha: each villager effectively an MP/MLA/minister; Article 243 = most concrete institutional legacy

→ Critique: MPD = will of parties, not people; voting once in 5 years = power of attorney to the MP (example: MP of traders, Bill taxes traders to help the poor: how do you vote?)

→ Handout: links to anti-defection law, whips overriding conscience, weak Parliament; board: rule of parties not MPs

→ Madhya marg (board): blockchain, internet referendums on certain matters combine direct democracy with MPD

Gandhi among leaders

→ Tilak, Nehru: strong central State; Patel built one; Bose: temporary authoritarian rule; Gandhi alone feared State power itself

→ Ambedkar: strong State with constitutional law = only protection of oppressed; village republic = local caste dominance with a romantic name

→ Transitional: parliamentary democracy with a State as weak as possible until higher morality; then State withers: concession to reality

Board on one page: Culture = looked/spoke like masses, criticised Western civilisation + capitalism, civilisation-based nation, positive religion. Polity = Enlightened Anarchism, Village Republics, criticised MPD. Economy = opposed Industrial Revolution (IR) + urbanisation, profit only motive, opposed forced migration. 💡

5 · ECONOMY: VILLAGE SELF-SUFFICIENCY

📖 Story link · beat 5: Because the State was to wither, the economy had to be of villages.

Village economy

→ Self-sufficient village economy modelled on ancient India; IR uproots rural masses (forced migration) into factories: dependent, exploited (factory = magnet; village → town → city)

→ Almost alone against IR: Marx, Moderates, Extremists, Nehru, Ambedkar pro-IR

→ Mao: anti-IR, Great Leap Forward (1958), to protect communist power from bourgeoisie; same conclusion, different reasoning

→ Land: against forceful redistribution; voluntary donation → Bhoodan, Vinoba Bhave, Telangana, 1951

6 · TRUSTEESHIP AND ARBITRATION

📖 Story link · beat 6: Because he kept capitalists but changed their purpose, he offered Trusteeship and Arbitration.

Trusteeship

→ No abolition or expropriation of capitalists: holds enterprise as trustee for workers and community; ownership stays, purpose changes

→ Company: decision maker capitalist, motive profit. Trust: trustee, motive welfare of beneficiary (workers)

→ Example Rs 200 profit: Company reinvests (2 more factories + shareholders), no wage rise; Trust: Rs 100 to workers (wages, pension, bonus) + Rs 100 for 1 more factory + shareholders

Inequality answer	Who
Capitalists parasites, expropriated by force	Marx
🗺️ State controls major industries	Ambedkar (board list also Bhagat Singh, Bose, Nehru; first name partly unclear)
🔧 Capitalists reform themselves morally	Gandhi

📝 6.1–6.2 Arbitration (3 steps)

→ (1) inquiry (2) reveal the truth of both sides (workers: household expenses; capitalist: balance sheet, books) (3) madhyamarg (middle path) with a neutral arbitrator: win-win; against strikes and lockouts

→ Political form, 1920: united Moderates and Extremists (split since Surat 1907): Moderates = only petition (pen) + NV; Extremists = pen + NC + CD + CW + violence if repressed; Satyagraha = pen and NV + NC, CD, CW: each gave up something

7 · UNIVERSAL DISARMAMENT

📖 Story link · beat 6: Because moral politics rejects selective force, he stood for disarmament, not abstract pacifism.

Arms Act 1878 under Viceroy Lytton 76–80 disarmed Indian civilians, exempting Anglo-Indians and Eurasians. Disarmament just only when universal. Board: first disarm the British police and British Indian Army, then the masses; idea used today in geopolitics of nukes. 💡

8 · THE METHOD OF SATYAGRAHA

📖 Story link · beat 7: Because ideals need a method, the method for politics is Satyagraha.

NC + CD + CW + NV + Morality — Satyagraha = Non-Cooperation + Civil Disobedience + Constructive Work + Non-Violence + Spirituality/Morality (truth-force / soul-force: extra-constitutional non-violent mass struggle; a third path between Moderates' petitions and Revolutionaries' violence) 📌

Prelims trap: Satyamev Jayate was popularised by Madan Mohan Malviya. Moral logic: British militarily superior, Satyagrahis morally superior (God on the side of morality = confidence). Strategic logic: violence by a Satyagrahi justifies repression ("they attacked first"); NV = higher participation (INM nearer its name), stronger and longer movement. ⭐

Clause	Quality	Why
8.1	Truthful	Legitimacy of demands, personal courage
8.2	Fearless	Non-violence is not cowardice; more courage than a weapon
8.3	Non-violent	Wider participation, less repression, bigger and longer movements

8.4	Accepts suffering; hate alien; loves evil doer	Strategy not sentiment: dignity forces evil doer to confront his immorality; retaliation = escape
8.5	Morally superior	God on the side of truth: confidence

Bose: "Give me blood, and I shall give you freedom"; Gandhi: a nation born of violence stays violent. Vivekananda: "Strength is life, weakness is death"; both agreed on fearlessness: Vivekananda built inner strength, Gandhi channelled it into organised mass action.

9 · TWO PRINCIPLES OF CHARACTER

📖 Story link · beat 7: Because method needs character, the Satyagrahi has two principles: no gain from the enemy's weakness, no breach of promise.

⚠ 9.1 Do not benefit from the weakness of the evil doer

→ Stood on side of justice: supported Britain in WWI and WWII (Britain victim of Central Powers / Axis aggression); would not support the way Karna was killed (as Bose would)

→ Tilak: WWI as leverage (HRL movement 1916–18); Bose: allied with Axis powers; Gandhi refused both

→ So MG did not join the INM in WWI (1914–19) or the HRL movement 1916–18; C-A-K list (Champaran, Ahmedabad, Kheda) belongs to Ch 37

9.2 Hated breach of promise

→ From commitment to truth: Rowlatt Act (1919) after Montague's 1917 promise: moral response to a moral wrong; Rowlatt Satyagraha 1919

→ Why Rowlatt Act: after WWI Spanish flu deaths, inflation, fear of communism (goal = end of capitalism; 1920 CPI at Tashkent of M N Roy, Uzbekistan, USSR); State needs physical and economic security

Date on the board: Rowlatt Act (1919) linked to CPI at Tashkent in 1920, a year later; read as the communist threat the British feared. Check your notebook.

10 · RISING TEMPO, CONTROL, S-CW-S

📖 Story link · beat 8: Because principles need a plan for running movements: rising tempo, control, and S-CW-S.

10.1 Rising tempo · 10.2 Controlled movement

→ Rising tempo: petitions, meetings, hartals, then escalate; board order pen, NC, CD; NCM (1920–22) plan = one year of NC, then CD

→ Controlled mass movement: strict adherence to programme; Chauri Chaura Feb 1922: mob burned police station, 22 policemen killed; withdrew entire NCM at peak = keeping the promise of non-violence

→ MG = ORG man + idea man + charisma man + political man (Steve Jobs = idea + charisma, not ORG; Tim Cook = ORG, not idea; film RRR = idea, DBT = ORG)

10.3 S-CW-S (not S-T-S)

→ Masses tire economically; exhaustion → desperation → violence; Truce never idle: Constructive Work = atmashakti, training in Satyagraha, INC network, local leaders, awareness

→ Examples: anti-liquor, women's empowerment, Hindu-Muslim unity, upper-lower caste unity

→ Lineage of CW: Ramakrishna Mission 1897 → Arya Samaj DAV schools → Tagore's Shantiniketan 1901 → Tilak's Constructive Swadeshi → Tolstoy Farm 1910 → Sabarmati Ashram 1917

11 · WHY SATYAGRAHA WAS EFFECTIVE

📖 Story link · beat 9: Because the plan had to work, Satyagraha united Moderates and Extremists and brought in common people.

No.	Reason	Meaning
11.1	United Moderates and Extremists	Moderates liked non-violence, Extremists mass struggle; healed Surat 1907 split after a decade
11.2	Common man and woman could participate	Needs courage not weapons; peasants, women, workers joined: democratic revolution within the freedom struggle
11.3	Could prevent repression	Crackdown on non-violent = propaganda disaster (Parliament, British public, international)

Board: Lucknow Session 1916: re-entry of Extremists but no unity on methods; MG brought rural masses. Participation peaks in urban areas; high rural participation needs charismatic leader and/or emotive issue and/or well organised movement (MG: charismatic, loved, brilliant organiser). 💡

12 · WHY SWARAJ WAS NEVER DEFINED

📖 Story link · beat 9: Because India is plural, he deliberately left Swaraj undefined so every group could find its meaning.

Deliberate openness

→ Plurality (caste, religion, language, class): deliberate political architecture; Swaraj = end of high rents (peasant), wages (worker), dignity (woman), self-governance (intellectual)

→ Maximised support; attire, Hindi, Ram Rajya, Sita and Draupadi made masses feel it theirs

→ Jinnah: Swaraj = Hindu cultural concept in national dress; Gandhi: openness = inclusive

→ Tagore: undefined mass emotion may turn narrow and intolerant

→ Gandhi: mobilise first, refine after; "cannot teach philosophy to an empty stomach"

🎯 13 · INTELLECTUAL INFLUENCES PYQ 2011

📖 Story link · beat 10: Where did the ideas come from? Because ideas have sources, five influences shaped him.

13.1–13.5 Five sources

→ Ruskin, Unto This Last (1862): "transformed my life"; good of the individual lies in the good of all (Sarvodaya); dignity of manual labour; read on a train in SA → Phoenix Settlement 1904 near Durban; book "The Magic Spell"; board adds manual work (charkha), simple living

→ Tolstoy, Kingdom of God is Within You (1894): State, military, Church rest on organised violence; non-resistance; corresponded; Tolstoy Farm 1910 near Johannesburg = prototype of ashrams; (NV + stateless society)

→ Thoreau, Civil Disobedience (1849): moral duty to disobey unjust law; one of two pillars of Satyagraha with NC

→ Gita: Nishkama Karma, action as duty without attachment; "spiritual dictionary", read daily

→ Sermon on the Mount: turn the other cheek, love the enemy, overcome evil with good; with Gita = twin pillars of Ahimsa; eclecticism = universal, not Hindu method

Prelims 2011 (answer b): Ruskin's message = the good of the individual is contained in the good of all. Board: four branches: NV + stateless society (Satyagraha) = Tolstoy + Sermon; Sarvodaya = Ruskin; CD = Thoreau; Nishkam karma = Gita. ⭐

Board slip: the board writes "Ruskin Bond" under Sarvodaya; the author of Unto This Last is John Ruskin (handout). Use Ruskin.

14 · SUMMARY: SEVEN HEADS

📖 Story link · beat 10: Because seven heads sum up the story, one line each gives the core of Gandhian ideology.

Head	Core idea
14.1 Civilisation	Nation since ancient times; civilisation not race/language is source of unity; West Godless, profit-driven
🗺 14.2 State	Stateless via Enlightened Anarchism; interim parliamentary democracy with weak State + Village Republics
14.3 Economy	Reject IR and Western capitalism; village self-sufficiency; Trusteeship; voluntary land redistribution
14.4 Society	Reject class and class war; Varnashram as non-hierarchical, non-hereditary, guild-based cooperation; anti-untouchability a personal moral priority
14.5 Method	Satyagraha (NC + CD + CW + NV + Morality); rising tempo; controlled movement; never exploit weakness; hate breach of promise
14.6 Strategy	S-CW-S; ambiguous Swaraj; inclusive approach
14.7 Roots	Ruskin, Tolstoy, Thoreau, Gita, Sermon on the Mount

Mains cues: Gandhi vs Tagore = Nai Talim (vocational) vs Shantiniketan (creative); Tagore warned against hyper-nationalism (Mains 2023). Gandhi vs Bose = means vs ends; village republics vs heavy industrialisation (Mains 2016). PYQ 2023 PYQ 2016

Source note: Society (14.4) has no section earlier in the handout: Varnashram and anti-untouchability appear only in this summary; no class note covers it.

Question	Gandhi	The others
End goal	Stateless by morality	Marx: stateless after Dictatorship of the Proletariat
Democracy	Direct, Village Republics	Moderates, Extremists, Bose, Nehru, Patel: representative
🗺 State	Feared State power itself	Tilak, Nehru strong centre; Patel built; Bose temporary authoritarian
Oppressed	Village republic, moral reform	Ambedkar: strong State + constitutional law
IR	Against (village morality)	Marx, Moderates, Extremists, Nehru, Ambedkar pro; Mao against for power
Capitalists	Trustees	Marx expropriate; Ambedkar State control
Method	Satyagraha, never exploit weakness	Bose: give me blood; Tilak: WWI leverage
Swaraj	Undefined, inclusive	Jinnah: Hindu concept; Tagore: intolerance

15 · MAJOR FASTS (teacher: Self STUDY)

📖 Story link · beat 11: Because his life was part of his ideology, his fasts show it: some aimed at the British, some at Indians.

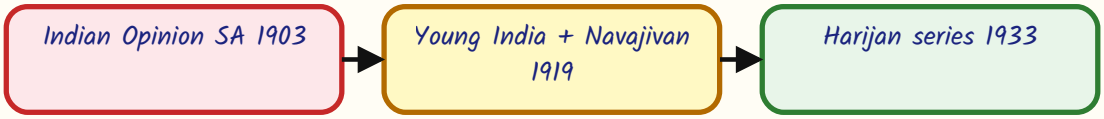

Fast	Year, place	Trigger	Outcome
1. Ahmedabad Mill Workers	1918, Ahmedabad	Strike weakening; demand 35% wage hike	Workers held; owners agreed to arbitration; first fast on Indian soil
2. NCM withdrawal	1922, Delhi	Chauri Chaura (22 policemen); fasted five days as penance	Sacrificed momentum for non-violence; controversial
3. Hindu-Muslim unity (21 days)	1924, Delhi (house of Muhammad Ali)	Communal riots, after Kohat riots	Fragile truce; moral authority
👫 4. Epic Fast	1932, Yerwada Jail, Pune	Ramsay MacDonald's Communal Award: separate electorates to Depressed Classes	Poona Pact (Sept 1932): Ambedkar accepted joint electorates, reserved seats 71 to 147
5. Self-purification (21 days)	1933, Yerwada	Anti-untouchability; open temples and wells	Released fearing death; speeded temple entry
6. Rajkot	1939, Rajkot	Thakore Sahib broke promise of reforms	Linlithgow intervened; reforms never fully implemented
7. Quit India detention (21 days)	1943, Aga Khan Palace, Pune	Blamed for Quit India violence; denied	Release refused; nearly died; Kasturba and Mahadev Desai died
8. Calcutta peace	1947 Sept, Calcutta (Hydari Mansion, Beliaghata)	Rioting after Partition, Great Calcutta Killings 1946	Calcutta Miracle; Mountbatten: one-man boundary force
9. Delhi peace	1948 Jan, Birla House	Violence on Muslims by refugees	Seven-point pledge; mosques vacated; assassinated 30 January 1948 (twelve days later)

Exam trap: 1932 Epic Fast (against separate electorates for Dalits, Poona Pact) vs 1933 fast (temple entry, self-purification): trigger, place and objective differ; UPSC tested.

🎯 16 · PUBLICATIONS PYQ 1996 PYQ 2021

📖 Story link · beat 11: Because he carried his ideas in print, his publications follow the phases of his strategy.

Publication phases map to strategy

Publication	Type, year, language	Focus
Indian Opinion	Newspaper 1903; English, Gujarati, Hindi, Tamil	Durban; racial discrimination, passive resistance; ran till 1961
Hind Swaraj	Book 1909; Gujarati (English 1910)	Authentic source; Reader-Editor; critique of West, machinery, parliamentary democracy
Young India	Weekly 1919; English	Succeeded Bombay Chronicle; NCM, Khilafat, Swaraj, Swadeshi, untouchability; till 1932
Navajivan	Weekly 1919; Gujarati	Counterpart of Young India; till 1932
Harijan	Weekly 1933; English	After Young India ceased; anti-untouchability; Harijan = Children of God; till 1948
Harijan Bandhu	Weekly 1933; Gujarati	Gujarati edition
Harijan Sevak	Weekly 1933; Hindi	Hindi edition
Story of My Experiments with Truth	Autobiography 1927–1929 (serialised); Gujarati (English 1940)	Childhood, SA, Brahmacharya vow, Satyagraha

Satyagraha in South Africa	Book 1928; Gujarati (English 1950)	SA resistance 1893–1914
Constructive Programme	Booklet 1941 (revised 1945); English	18-point: communal unity, untouchability, prohibition, Khadi, village industries, new education (Nai Talim), adult education, women's uplift, health and hygiene, provincial languages, national language (Hindustani), economic equality, farmers, labour, Adivasis, lepers, students
Key to Health	Book 1942; Gujarati	Diet, hygiene, nature cure
Collected Works	1958–1994 (posthumous); English	100 volumes, 1884 to 1948; Govt of India

Prelims 1996 (answer c, A–4 B–1 C–2 D–3): Banerjee = A Nation in Making; Gandhi = Hind Swaraj; Bose = The Indian Struggle; Lajpat Rai = Autobiographical Writings. Prelims 2021 (answer c): Songs from Prison = Gandhi (1934, with Mahadev Desai); Tilak = Gita Rahasya (1915); Nehru = An Autobiography, The Discovery of India; not Sarojini Naidu.

17 · ARRESTS AND IMPRISONMENTS

📖 Story link · beat 11: Because jail was part of the method, his ten arrests and the 1922 trial close the record.

Arrest	Year, place	Trigger	Trial and sentence	Significance
👫 1. First, SA	1906, Johannesburg	Defied Transvaal Asiatic Registration Act (Black Act): RC, fingerprinting	Pleaded guilty; 2 months simple; released early after compromise with General Smuts	First jail as political tool
2. Second, SA	1908, Johannesburg	Burned RCs at mass meeting; refused pass	2 months hard labour, Volksrust jail	Defiance to public destruction
3. Third, SA	1913, Volksrust, Natal border	Great March of miners from Newcastle; £3 tax; marriages	Arrested and released three times; 9 months hard labour	Indian Relief Act 1914: tax abolished, marriages recognised, immigration eased
👫 4. First in India, Champaran	1917, Motihari, Bihar	Indigo grievances, tinkathia; ordered to leave; refused	Case withdrawn; Champaran Agrarian Committee with Gandhi member	First CD on Indian soil
5. Rowlatt Satyagraha	1919, Palwal (train Bombay to Delhi)	Nationwide hartal against Rowlatt Act	Detained under Punjab govt orders; no trial; sent back to Bombay	Led to Jallianwala Bagh (13 April 1919)
6. Great Trial	1922, Ahmedabad (Sabarmati)	Three articles in Young India: Tampering with Loyalty, The Puzzle and Its Solution, Shaking the Mane	Judge C.N. Broomfield; pleaded guilty; 6 years, Yerwada; released early Feb 1924 (appendicitis)	Most celebrated trial; judge: "a man of high ideals and noble life"
7. Salt Satyagraha	1930, Karadi near Dandi (5 May; Dandi March 6 April)	Announced raid on Dharasana; arrested at midnight under Regulation XXV of 1827	No trial; Yerwada; released Jan 1931 before Gandhi–Irwin Pact	Dharasana raid (Sarojini Naidu, Abbas Tyabji); Webb Miller report
📜 8. After Gandhi–Irwin Pact broke	1932, Bombay (from 2nd RTC)	Willingdon crackdown; arrested within a week	No trial; emergency ordinances; Yerwada; Epic Fast + 1933 fast; released 1933	Poona Pact reshaped Dalit politics
9. Individual Satyagraha	1940–41, Wardha/ Sevagram	Against India in WWII without consent; Vinoba Bhave first	No trial; DIR; released after weeks	Tempo kept low
10. Quit India	1942, Bombay (9 Aug; Gowalia Tank; AICC 8 Aug)	"Do or Die"; whole leadership arrested	No trial (DIR; fear of 1922 repeat); Aga Khan Palace Aug 1942 to May 1944 (~21 months); Kasturba died 22 Feb 1944; Mahadev Desai died 15 Aug 1942	Last and longest; underground resistance; Britain left within five years

Three traps: (i) the 1922 trial is the only major formal trial in India; (ii) 1930 (Salt, Reg XXV 1827, no trial) is not 1932 (post-RTC ordinances): both Yerwada; (iii) 1942 detention = Aga Khan Palace, not Yerwada.

Recall drill: cover and answer

Hind Swaraj: when, how written?	1909, ten-day sea voyage, Reader and Editor	Cultural nationalists before Gandhi?	Dayanand (Arya Samaj 1875), Vivekananda (Ramakrishna Mission 1897), Bankim
Common ground of Gandhism and Marxism?	Final goal of a stateless society (Prelims 2020)	Trusteeship in a line?	Capitalist as trustee: ownership stays, purpose changes; vs Marx expropriation, Ambedkar State control
Satyagraha formula?	NC + CD + CW + NV + Morality; rising tempo; S-CW-S	Ruskin's message (2011)?	Good of the individual is contained in the good of all; Phoenix 1904
Epic Fast vs 1933 fast?	1932 vs Communal Award, Poona Pact 71 to 147; 1933 temple entry, self-purification	Who wrote what (1996)?	Banerjee Nation in Making; Gandhi Hind Swaraj; Bose Indian Struggle; Lajpat Rai Autobiographical Writings
Only major trial?	1922 Great Trial, Judge Broomfield, 6 years; 1942 = Aga Khan Palace		

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

NCM = National Commission for Minorities — Statutory body under the NCM Act, 1992

MP = Member of Parliament — Elected or nominated member of Lok Sabha or Rajya Sabha

LGBTQ = Lesbian, Gay, Bisexual, Transgender, Queer — Umbrella for sexual and gender minorities

DBT = Direct Benefit Transfer — Subsidies and benefits paid straight to bank accounts

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

IR = Industrial Revolution

CHAMPARAN TO PASSIVE PHASE

PYQ Prelims 1996 (two), 1998 (two), 1999, 2000, 2001 (two), 2003, 2004 (three), 2005, 2007 (two), 2008 (two), 2009 (two), 2010, 2011, 2012, 2015, 2018, 2025 (three) · Mains practice: three Pilot Projects (15 marks); withdrawal of NCM 1922 (10 marks)

MG built his method in three pilots, learnt from Rowlatt that mass movements need control, and used Khilafat anger to make the INC a mass body (NCM 1920-22). After Chauri Chaura the INC argued over councils; Constructive Work kept it alive till Simon.

THE STORY FIRST (same story as the textbook)

MG built a method in three small pilots, learnt from the Rowlatt failure that a mass movement needs control, and used the Khilafat anger to make the INC a mass organisation (NCM 1920–22). When Chauri Chaura broke that movement, the INC split over council entry but stayed whole, and Constructive Work kept it alive until the Simon Commission.

1. **The cake is cut (1915–18).** MG arrives January 1915, tours India on Gokhale's advice, stays out of the INM in WWI. Then three local fights: Champaran (Tinkathia abolished), Ahmedabad (50, 35, 27.5), Kheda (Patel joins).
   → But a pilot is not a nation: the next call is for all Indians.
2. **The Rowlatt promise broken (1919).** February 1919: the ILC passes the Rowlatt Act against every Indian member, carrying Defence of India Act 1915 into peacetime. MG, who hates breach of promise, calls a nationwide non-violent strike.
   → But a strike without a driver runs wild.
3. **The driverless truck (April 1919).** Leaders arrested, Punjab violence, O'Dwyer and Dyer's martial law. 13 April Jallianwala Bagh: 10 minutes of firing, 379 dead (official), 1,500 (INC). MG withdraws: control the INC, train people in non-violence.
   → Anger over Punjab was about to meet anger over Turkey.
4. **Khilafat joins the cause (1919–20).** Treaty of Sèvres (1920) strips the Khalifa; the Ali Brothers set up the Khilafat Committee (March 1919). Allahabad, June 1920: boycott launched. MG sees a Hindu–Muslim unity chance; Tilak, Pal, Besant, Jinnah, ML stay out.

→ So the INC meets, first in Calcutta, then in Nagpur.

5. **Calcutta and Nagpur (September and December 1920).** Calcutta (Lajpat Rai): INC launches NCM, Swaraj promised in one year. Nagpur (C. Vijayaraghavachariar): MG takes over, Satyagraha replaces the pen; CWC of 15, linguistic PCCs, 4-anna fee make INC a mass body.
→ Now the movement has to run.

6. **The movement runs (1920–22).** Tilak Swaraj Fund raises Rs 1 crore; the Reading talks fail. Peasants, workers, tribals join; imports halve. Prince of Wales visit in November 1921 turns strikes violent; MG confines CDM to Bardoli.
→ But the next violence he could not contain.

7. **Chauri Chaura breaks it (February 1922).** Police fire, 3 killed; the crowd burns 22 policemen. MG withdraws the NCM and passes the Bardoli Resolution: Constructive Work before any movement. Rowlatt repealed March 1922; Khilafat ends 1924.
→ With no mass movement to run, the INC asks what to do next.

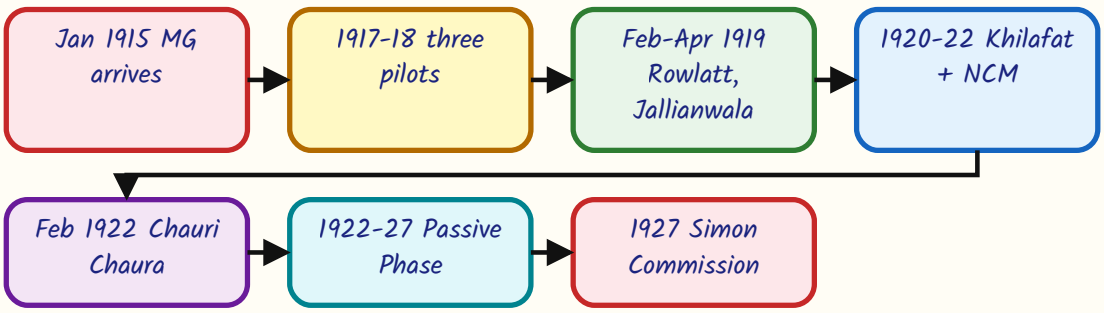

8. **Mend it or boycott it (1922–24).** Swarajists (Das, Motilal Nehru) want to end or mend the councils; No-Changers (Patel, Rajendra Prasad, Rajaji) want boycott. Gaya fails; Swarajists contest 1923; Gandhi-Das Pact, Belgaum 1924, makes them the parliamentary wing.
→ But the party in the councils soon came apart.

9. **The Swarajists in the councils (1923–26).** Swarajists demand a new constitution, civil liberty and help for industry, and use adjournment motions. No street support, Das dies 1925, ML lost, Responsivists split off; heavy loss 1926, INC leaves councils.
→ Meanwhile the quiet work went on.

10. **The quiet machine (1922–27).** Constructive Work keeps cadres busy, unites communities, deepens rural hold, builds confidence, sets up national schools and panchayat courts. Passive Phase is anything but passive; Simon Commission 1927 rekindles the INM.

Cast: Rajkumar Shukla = The Inviter · Anasuya Sarabhai = The Bridge · Vallabhbhai Patel = The Lieutenant · Justice S.A.T. Rowlatt = The Chairman · Chelmsford 16–21 = The Viceroy · O'Dwyer and Dyer = The Two D's · Ali Brothers = The Khilafat Voice · Lajpat Rai = The Lion of Punjab · C. Vijayaraghavachariar = The Lion of the South · Reading 21–26 = The Talker · Madan Mohan Malaviya = Mahamana · C.R. Das = The Friend of the Nation · Motilal Nehru = The Obstructor

At a glance: the route

Teacher's board: MG arrived Jan 1915, toured India on Gokhale's advice. Pilots = "Not all India, not for all Indians": Champaran (Bihar, 1917, peasants, 1st CD), Ahmedabad (Gujarat, working class, 1st fast, hunger strike), Kheda (Gujarat, 1918, peasants, 1st NC). Rowlatt 1919 = "for all Indians": first all-India mass strike; Jallianwala Bagh Apr 1919. Moderate Era → Extremism Era → Gandhian politics (1920+) = politics of the masses. ⭐

🎯 1 · THE THREE PILOTS (1917–18) PYQ 2005 PYQ 2008

📖 Story link · beat 1: Story so far: MG is back from South Africa and tests his method in three local fights.

Before the pilots

→ Satyagraha Ashram at Kochrab (1915), relocated to Sabarmati (1917); two years of travel and listening

→ One in Bihar (1917), two in Gujarat (1918)

→ Board: MG ideology = do not use enemy's weakness: no INM in WWI (1914–19), HRL ran meanwhile

→ Opponents: C = indigo planters (not the British State), A = Indian mill owners, K = British State / GoI; at Kheda law was on MG's side

CAK — C–A–K = Champaran · Ahmedabad · Kheda (teacher's board shorthand; an extra E after CAK read as "Era": check notebook)

Feature	Champaran 1917	Ahmedabad 1918	Kheda 1918
Place, group	Bihar, peasants	Gujarat, working class	Gujarat, peasants
👫 Against	Indigo planters	Indian mill owners	British State / GoI
Hallmark	First CD	First fast; arbitration	First NC (no revenue)
Outcome	Tinkathia abolished; Act 1918	27.5% (Arbitration Board); TLA 1920	No confiscation of those who could not pay; Patel

Source conflict (Ahmedabad year): board writes 1917 over Ahmedabad; handout and typed slides say 1918. Use 1918.

🎯 2 · CHAMPARAN 1917: FIRST CIVIL DISOBEDIENCE PYQ 2000 PYQ 2007 PYQ 2010 PYQ 2018

📖 Story link · beat 1: Because MG needed a first test, Rajkumar Shukla brought him to Bihar: Champaran, first civil disobedience.

🏛 Background

→ Rajkumar Shukla, peasant leader, met MG at Lucknow Session 1916

→ Tinkathia System: indigo on 3/20th of land (three kathas in twenty) under contracts with British planters

→ Indigo Revolt (1859–60) Bengal → plantation shifted to Bihar by 1863; German synthetic dyes after 1895; unavailable in WWI, so planters pushed Tinkathia harder; (revise post-1857 peasant revolts, Ch 22)

2.1 Events and result

→ Ordered to leave the district: refused = Civil Disobedience (courting arrest)

→ Govt made MG head of an Inquiry Committee: documented exploitation

→ Champaran Agricultural Act, 1918 abolished Tinkathia; oppression continued (contracts legal; rents etc.)

→ Arbitration: (1) inquiry (2) reveal TRUTH of both sides (3) Madhyamarg

Prelims cluster: Champaran + Rajendra Prasad (2005; with J.B. Kripalani, professor at Muzaffarpur College 1912–17, teacher by profession, 2008); first Satyagraha site (2007); 2018: peasant unrest joined India's national movement; 2000: first successful Satyagraha after SA; 2010 (answer b, only 2): Rajkumar Shukla persuaded him, not Rajendra Prasad. ⭐

Name check: the bank's practice answer says Rajendra Prasad "joined here"; PYQs use him with Kripalani as MG's colleagues; the man who persuaded MG was Rajkumar Shukla.

🎯 3 · AHMEDABAD 1918: FIRST HUNGER STRIKE PYQ 2009 PYQ 2005

📖 Story link · beat 1: Because the second test was a labour dispute, MG met two people he knew: Ahmedabad, hunger strike and arbitration.

3 · 3.1 Ahmedabad mill strike

→ Invited by Anasuya Sarabhai; her brother Ambalal Sarabhai headed the Mill Owners' Association; MG knew both sides

→ Chain: plague → costs up, earnings down; WWI inflation (and Spanish Flu); owners ended the Plague Bonus; workers demanded 50%; owners: no talks till strike ends

→ MG demanded 35%, fast unto death (moral pressure, kept workers firm); Arbitration Board settled on 27.5% = midpath

→ Justice on side of WC (wages had fallen); MG did not exploit evil-doer's weakness

Impact: Textile Labour Association (TLA) 1920 (founder = Mahatma Gandhi, Prelims 2009, answer a). 1920: AITUC by Lala Lajpat Rai (first all-India WC body); CPI at Tashkent 1920 under M.N. Roy, reconstituted in India 1925. Two hallmarks: first hunger strike + arbitration; midpath returns at Bardoli 1928.

Wage figures: handout/slide: Board settled 27.5%; 35% = MG's demand. Margin "Bipin Chandra 35%" (as per Bandhopadhyay) and bank's Mains answer "35% wage increase" differ. Use 50 / 35 / 27.5.

🎯 4 · KHEDA 1918: FIRST NON-COOPERATION PYQ 2011 PYQ 2005

📖 Story link · beat 1: Because the third test was against the State itself, MG chose the law's side: Kheda, first non-cooperation.

4.1 Kheda (Gujarat)

→ Ryotwari: legal remission of LR if crop below one-quarter of normal; 1918 harvest failed, plague; govt refused (needed money for WWI)

→ MG asked peasants to withhold LR; govt agreed not to confiscate property of those who could not pay

→ Sardar Vallabhbhai Patel became his follower; first experience of organised mass action; Sardar title given 1928 by Bardoli ryots and women

Why NC not CD: NC = no law broken; at Kheda law was on ryots' side; "withhold" = temporary delay ("ready to pay LR, but our right first"); no goal of Swaraj, no challenge to British right to tax. A no-tax campaign for Swaraj = CD. Prelims 2011 (answer a, only 1): no suspension of LR despite drought; Kheda was Ryotwari, not permanent settlement.

Viceroy's War Conference (Delhi, 1918): MG actively supported recruiting for WWI (justice on Britain's side; victim of Central Powers); expected self-government in return, hence Rowlatt = broken promise.

🎯 5 · ROWLATT SATYAGRAHA, APRIL 1919 PYQ 1996 PYQ 1998 PYQ 1999 PYQ 2004 PYQ 2007 PYQ 2008 PYQ 2009 PYQ 2012 PYQ 2015

📖 Story link · beat 2: Because the British kept wartime powers, MG called his first all-India strike; without a driver it ran wild at Jallianwala.

📜 5.1 Rowlatt Act

→ Called by MG alone, not by INC; goal repeal of the Act, not Swaraj

→ Feb 1919, ILC (not CLA: that came Dec 1919 under GOI 1919) passed Anarchical and Revolutionary Crimes Act, based on Sedition Committee chaired by Justice S.A.T. Rowlatt; two bills as one Act

→ Extended Defence of India Act 1915 (WWI only: detention without trial, press suppression, trials without juries) into peacetime

→ Passed despite unanimous opposition of every Indian member; Jinnah, Malaviya, Mazharul Haq resigned from ILC 1919 (NC by legislators)

→ Viceroy Chelmsford 16–21 (board codes: Irwin 26–31, Reading 21–26, Wavell 43–47)

Why Britain anxious (board): WWI (Spanish Flu, soldiers' deaths = physical security; inflation = economic security); communism (October Revolution 1917, USSR 1921, CPI 1920 Tashkent: end of capitalism, then colonial empires). WWI end = end of DoI Act. Context: HRL 1916–18 ("aware"), Lucknow Pact 1916 ("united"). ICA 1909: ILC = VEC + 60 additional, no elected majority, 27 elected. Swarajya Sabha renamed AIHRL 1920.

Source conflicts: Act passed Feb 1919 (handout, slide) vs March in Prelims 2008 key; learn Feb, satyagraha April. 2003 PYQ: assertion on 1916 resignation of M. Ali and Azad is false; the resignees were 1919 (Jinnah, Malaviya, Mazharul Haq) (answer d).

5.2 Why MG reacted

→ Breach of promise: Montague Statement 1917 (gradual SG), MC Report 1918, Montford reforms being framed, yet permanent coercive powers

→ Nationwide non-violent strike, first such call; call: "Leave whatever you are doing. Hit the streets. Stay NV."

5.3 Events

→ MG arrested, leaders arrested: leaderless; violence especially Punjab (Dr Satya Pal, Dr Saifuddin Kitchlew already arrested)

→ Pattern: leaderless masses turn violent (driverless truck at 200 km/hr); MG = controlled mass movement

→ Martial law: LG O'Dwyer empowered, General (Colonel Reginald) Dyer applied (TRAP); O'Dwyer assassinated by Udham Singh, London, 1940

→ 13 April 1919, Jallianwala Bagh, Amritsar: Baisakhi + protest; firing without warning, 10 minutes, narrow blocked exits; official 379 dead; INC 1,500

→ Hunter Committee (set up Oct 1919, report 1920): Dyer only 'overly zealous': the 'second wound'; Mahants of Golden Temple honoured Dyer (pro-British as in Ghadar 1913–15)

→ MG withdrew the movement

5.4 Results and lessons

→ First mass strike + first all-India movement: start of mass politics; high urban WC participation, low rural

→ Two lessons: MG needs control over INC; Indians need training in Satyagraha via Constructive Work (atmashakti: individual = khadi, education, anti-liquor, health; community = Hindu-Muslim, upper-lower caste, women; political: INC network, membership, Swaraj awareness)

Teacher disagrees: '1st mass strike, 1st all-India movement' (books copy each other): credit to Swadeshi 1905–11; still Rowlatt = Gandhi's first all-India venture (Prelims 1999). Rural participation needs charismatic leader and/or emotive issue and/or well organised movement.

Rowlatt PYQ cluster: Tagore returned his knighthood (2004); Viceroy = Chelmsford 16–21 (2008); Sedition Committee + imprisonment without trial (2015, 2012, 2009); Montague called Jallianwala 'preventive murder' (1998); Hunter Commission here is not the 1882 Hunter Education Commission (2001); 2004 order: Minto–Morley 1909, Montagu–Chelmsford 1919, Chauri Chaura 1922, Dandi 1930 (answer b, 2, 4, 1, 3); 1996 option dates: Pitt's 1784, Arms Act 1878, Ilbert Bill 1883–84; 1998 option dates: Montague 1917, INA 1942–45, Apr 1919. ✅

🎯 6 · KHILAFAT (1920–24) AND REASONS FOR NCM PYQ 2001 PYQ 2004

📖 Story link · beat 4: Because Punjab and Turkey angered different groups, MG joined them: Khilafat and the reasons for the NCM.

6.1 Reasons for NCM

→ WWI inflation, food insecurity, unemployment; Spanish Flu (about 12 million Indians dead); Rowlatt + Jallianwala; GOI 1919 no responsible Centre, partly responsible dyarchy; Hunter report 1920 did not hold Dyer accountable

→ Khilafat trigger: harsh Treaty of Sevres (1920): Khalifa stripped of territory and control of holy places; Arabs under non-Muslim rule (Syria, Lebanon to France; Palestine, Transjordan, Iraq to Britain)

→ Ulamas rose: Deoband and Firangi Mahal (Lucknow), both UP; in ML (1906) radicals: Ali Brothers (Muhammad Ali Jauhar, Shaukat Ali), Abul Kalam Azad, Hakim Ajmal Khan, Hasrat Mohani

→ Jinnah (Lucknow Pact 1916) did not support Khilafat, opposed NCM methods, resigned from INC 1920

Mar 1919
Khilafat Committee by Ali Brothers (not an ML initiative); demands: revise Sevres, restore Khalifa's dignity, territory, holy places; no Arabs under non-Muslim rule

Jun 1920
Allahabad Conference: Khilafat launched: boycott of titles, civil services, army + no-tax; asked MG to lead: 'once in a hundred years' unity chance; convinced INC incl. C.R. Das (who preferred council elections under GOI 1919)

Methods tree: Khilafat = NC (boycott of titles, services, army) + CD (no-tax); NCM = NC. 💡

Who opposed NCM	Why
Tilak (died Aug 1920)	Religious goal would breed communalism (1922–24 proved him right)
B.C. Pal (resigned Aug 1920)	Personality-centric INC; absolute non-violence; MG's Swaraj as 'enlightened anarchy with a Stateless society'
Annie Besant and Jinnah	Extra-constitutional methods; resigned from INC; masses not non-violent under repression
ML 1906	Officially did not support (pro-British); many joined All India Khilafat Committee

🏛️ 7 · SPECIAL CALCUTTA SESSION, SEPT 1920 PYQ 2025

📖 Story link · beat 5: Because the cause was joined, the INC met at Calcutta (September 1920) to launch it formally.

Calcutta

→ INC launched NCM with three goals: Swaraj, redress of Punjab wrongs, redress of Khilafat wrongs

→ MG style = rising tempo + clear timeline; programme of 1 year of NC

→ Lajpat Rai president (unanimous); MG moved NC resolution (ratified at Nagpur)

→ Board: NC = BC (boycott) + SW (Swadeshi); boycott aims at State and British goods; Legislature (councils) yes, Executive NA (we are not ministers), judges and lawyers yes, education institutions yes, titles yes

7.1 Programme for the first year of NC (three streams)

Stream	Programme (first year of NC)
i) Boycott	Titles and honours; councils, courts, educational institutions; British goods
ii) Swadeshi	Panchayats (alternative dispute resolution); national education; Khadi (deeper, more rural than Swadeshi 1905–11)
iii) Constructive Work	Picketing liquor shops; anti-untouchability (break from 1886 INC rule against social issues); Hindu–Muslim unity

Prelims 2025 (programme: answer c, three): boycott of law-courts, strict non-violence, panchayats are in; retention of titles = trap (surrendered). Objective + stages: board "2 stage: NC, CD" (both statements true, answer c). Board margin: GOI 1919 first elections (1920) still pending in Sept 1920; CW feeds atmashakti.

8 · NAGPUR SESSION, DEC 1920 PYQ 1996

📖 Story link · beat 5: Because a mass movement needs a mass organisation, MG rebuilt the INC at Nagpur (December 1920).

Nagpur

→ President C. Vijayaraghavachariar (Lion of South India; not C. Rajagopalachari; not M Vijayaraghavachariar, co-founder of The Hindu 1878 and Madras Mahajana Sabha 1884)

→ MG took over the INC: goal Swaraj by peaceful means; method changed (not goal): pen to Satyagraha; board: programme of CDM after 1 year of NCM

8.1 Organisational reforms (critical for UPSC)

Organisational reform	Detail
👥 CWC of 15 members	Top executive, continues if leaders arrested (AICC ~350; session 1000s)
PCCs on linguistic lines	Link: Tilak and INC's 1917 demand; Madras: 4 PCCs (Kannada, Telugu, Tamil, Malayalam)
👥 Membership fee 4 annas	1/16th of a rupee: masses join, funds
Hindi	Used as far as possible
👥 Princely States' members	Join INC, not launch movements in its name (565 PS); truly all-India

CHAPS – CWC · Hindi · 4 Annas fee · PCCs · Princely-state members (S) = the five Nagpur reforms (own mnemonic)

Board: Calcutta (Sep, Special) = launch of NCM, 1 year of NC; Nagpur (Dec) = CDM programme after 1 year, MG takeover, INC from class (elite WEMC) to mass. CW = mass-contact tool (Hindi, PCCs for mobilisation; CW for training). CDM phase 2 = no-tax campaign (CD) + resignation from govt services (NC, far more powerful). Calcutta launched; Nagpur institutionalised control; Vijayaraghavachariar is the trap name.

9 · EVENTS OF THE NCM (1920–22) PYQ 1998 PYQ 2004 PYQ 2025

📖 Story link · beat 6: Because the movement had to run, money, talks and tests followed: Tilak Fund, Reading talks, Bardoli.

💰 9.1 Funds and talks 1921

→ Tilak Swaraj Fund: Rs 1 crore, oversubscribed ("ORG needs rupees")

→ Gandhi–Reading talks 1921 (Reading 21–26; year of NC nearly over, fear of CDM): failed: Reading wanted MG to publicly criticise Ali Brothers; MG refused to serve Divide and Rule, defeated DnR; example of attempted arbitration; MG style S–T–S (Step–Tension–Step)

9.2 Prince of Wales Nov 1921; Chauri Chaura

→ Prince of Wales = Crown; nationwide worker strikes, but violence against Parsis, Christians, landlords; board: PROOF masses getting tired; MG: no all-India CDM, only Bardoli (limited no-tax)

→ Chauri Chaura, 5 Feb 1922, Gorakhpur, UP: police fired on procession, killed 3; crowd burned 22 policemen alive

→ MG: (i) withdrew the NCM (INC would continue NC by boycotting 1923 council elections: only the 'M' withdrawn) (ii) suspended Bardoli CDM

→ Bardoli Resolution 1922: training in non-violent Satyagraha via Constructive Work must precede any movement (CW = khadi, schools, anti-untouchability)

→ Trials: 170 sentenced to death, Madan Mohan Malaviya fought; 19 hanged

Prelims 1998 (answer a, 5 Feb 1922): MG stopped NCM because of violence at Chauri Chaura. Prelims 2025 (answer b): defence of accused = Madan Mohan Malaviya and Krishna Kant. Handout: "22 satyagrahis paid for 22 policemen".

Source conflict (22 vs 19): '22 satyagrahis' does not match '19 hanged'; fits only if 3 killed in the firing + 19 hanged = 22: a reading, not stated in the handout.

Mar 1919 Khilafat Committee

Jun 1920 Allahabad: Khilafat launched

Sep 1920 Calcutta: NCM launched (Lajpat Rai)

Dec 1920 Nagpur: MG takes INC

1921 Gandhi-Reading talks fail

Nov 1921 Prince of Wales

Feb 1922 Chauri Chaura; NCM withdrawn; Bardoli CDM suspended

Mar 1922 Rowlatt Act repealed

1924 Khilafat ends: Turkey abolishes Khalifate

🎯 10 · RESULTS OF THE NCM PYQ 1996 PYQ 2025

📖 Story link · beat 7: Because the NCM ended in violence at Chauri Chaura, its record is mixed.

Judge a movement (board): Modern Nation = people: unity + participation. Modern Politics = goals, plan, programme, leadership (united), organised, money, voice. Prelims 1996 (answer c, 1 and 3): 1 T (Congress mass, 1920 Nagpur); 2 F (Khilafat: STM yes, LTM no); 3 T (fear removed); 4 F.

No.	Negatives
i	Low WEMC participation in institution boycott (feared job loss; MG initially a rural leader)
ii	Low capitalist participation (importers' interest in British trade)
iii	Khadi expensive (same limit as Swadeshi 1905-11); too few national institutions
iv	Anti-untouchability = MG's personal priority, not shared by upper-caste leadership
v	Violence: Malabar 1921, Prince of Wales Nov 1921, Chauri Chaura 1922
vi	Communal violence: Ulamas' role; Moplah Revolt 1921 (Malabar): INC mobilised ryots with Ulamas, leaders arrested, turned communal against Hindu Janmies; riots 1922-24; Tilak predicted; unity temporary
vii	Revolutionaries disappointed by 1922 withdrawal (Alluri Sitarama Raju: NCM then Rampa Rebellion, Andhra forests)
viii	Khilafat ended 1924: Turkey abolished Khalifate, secular republic under Mustafa Kemal Ataturk

10.1 Negatives (table above) · 10.2 Positives

Positives

→ Rowlatt Act repealed March 1922

→ INC popular in NWFP (Chief Commissioner's Province from Punjab 1901, full province 1932)

→ WC: J.M. Sen Gupta led strikes in Assam tea plantations, Bengal steamer services; WC journey: initiation Swadeshi 1905–11 → education HRL 1916–18 → action Rowlatt 1919 → full mobilisation NCM 1920–22

→ Revolutionaries joined incl. young Bhagat Singh

→ Peasants: Awadh Kisan Sabha (Oct 1920), Eka Movement (1921) by Madari Pasi (extremist method), Akali Movement (1920–25) merged into NCM

→ Tribals: violated forest laws as CD (Alluri Sitarama Raju, Rampa)

→ Lower castes: untouchability a mainstream issue first time (All India Anti-Untouchability League 1932 later)

→ Great Hindu–Muslim unity 1920–22, except Malabar

→ New regions: Rajasthan, Gujarat, Sindh, NWFP, UP, South India (HRL: political education; NCM: direct action)

Positives (contd.)

→ Economic boycott: British imports halved (failed in Swadeshi 1905–11; CDM 1930–34 halved too)

→ Council boycott: only 5% voted in 1920 CLA elections, first direct elections under GOI 1919

→ C.R. Das left lucrative practice; anti-liquor campaign brought women

→ Regional leaders: Subhas Chandra Bose, Jawaharlal Nehru, Vallabhbhai Patel (Bose: Cambridge, exam 1920 first attempt after six months, 4th rank; resigned 1921, joined NCM)

→ Akali backed NCM from 1921: Gurudwaras from British-loyal Mahants; Hindu–Muslim–Sikh unity (like Tilak's Ganpati 1893, Shivaji 1896)

→ Peasant participation needs: organised, charismatic, emotive issue; INM goal = power over State; group movements give and take

Awadh Kisan Sabha (Oct 1920): Baba Ramchandra, Fiji-returned indentured labourer, organised peasants from about 1918–19 against talukdars (illegal evictions, nazrana, begar); Nehru joined June 1920 (Pratapgarh); prepared AIKS 1936 (Ch 38). Stokes: Samuel Evans (Satyananda) Stokes, American Satyagrahi, Himachal, Red Delicious apple to Shimla hills, only American arrested under sedition law for NCM (1921). C.F. Andrews (Deenabandhu): MG's associate since SA; came 1904, St. Stephen's College, Delhi; bridge between MG and Tagore at Shantiniketan; AITUC President 1925 and 1927; mediator INC–British; helped end indentured labour (abolition 1921).

🎯 11 · THE PASSIVE PHASE (1922–27) PYQ 2004

📖 Story link · beat 8: Because the mass movement stopped, the INC argued about councils: Swarajists against No-Changers.

Split

→ NCM withdrawn 1922; MG in jail 1922–24; CLA elections due 1923; all agreed: no CDM yet

→ Swarajists (Pro-Changers): C.R. Das, Motilal Nehru, with Lajpat Rai, Malaviya; Gaya 1922 "Ending or Mending the Councils"

→ No-Changers: Vallabhbhai Patel, Rajendra Prasad, C. Rajagopalachari (MG's supporters): continue boycott + CW, wait for CDM

⚖️ Cases

→ Swarajists: (i) propaganda, fill void of NCM (ii) struggle and obstruction via adjournment motion of GOI 1919, not Moderate reforms (iii) otherwise non-INC forces enter 1923 (iv) good turnout without INC = loss of face (v) British would call 1919 reforms a success

→ No-Changers: council entry = (i) neglect of CW (ii) loss of revolutionary zeal (iii) political corruption

11.1 No Surat repeat (1907)

→ Gaya 1922 End or Mend failed; Swarajists resigned INC posts (not membership), formed Congress Khilafat Swaraj Party (Swaraj Party); 'Khilafat' to win Muslim votes; contested 1923

→ Four reasons: (i) all accepted MG's leadership (unity over argument) (ii) MG's trust and respect (iii) MG prevented British DnR: publicly supported Bengal Swarajists when repressed (iv) council entry done by 1924 when he left jail

→ 1924 Belgaum (only INC session presided by MG): Gandhi-Das Pact: Swarajists = parliamentary wing of INC

12 · SWARAJISTS IN THE CLA

📖 Story link · beat 9: Because the Swarajists entered, the councils became arenas; but the party faded by 1926.

12.1 Swarajists in CLA, negatives, Responsivists

→ Motilal Nehru demanded a new constitution in first session (GOI 1919 review after ten years, 1929); demanded civil liberty and concessions for Indian industry; adjournment motion; filled NCM void

→ Negatives: no street support (relied on newspapers); C.R. Das died 1925; lost ML (did not support Muslim tenants in Bengal); 1924 communal riots split party: Responsivists

→ Responsivists: cooperate with govt, protect Hindu interests; Lajpat Rai, Malaviya accused Motilal of being too pro-Muslim; N.C. Kelkar and Jayakar joined Executive Council in Central Provinces ("seat-hungry")

→ 1926: communal unity gone; Bengal Pact collapsed with Das; lost heavily 1926; reiterated mass CDM; INC withdrew from councils 1926 (all finally 1930 after Lahore Resolution 1929 Purna Swaraj)

13 · CW IN THE PASSIVE PHASE

📖 Story link · beat 10: Because the INC could not run a movement, it built a machine: Constructive Work, the quiet years.

Five gifts

→ (i) party cadre kept active, trained

→ (ii) unity within communities: upper-caste urban workers learned rural, lower-caste conditions: rural-urban bridge

→ (iii) INC's hold in rural areas (recruitment tool)

→ (iv) masses' confidence in INC

→ (v) parallel institutions: national schools (Swadeshi education), local panchayats as arbitration courts

Passive Phase 'anything but passive': no mass movement but built organisation, cadres, rural roots, mass trust. Simon Commission 1927 rekindled the INM and ended it (Ch 40). Chronology: 1922 Gaya (End or Mend fails, resign posts) → 1923 Swaraj Party contests → 1924 Belgaum, riots split party → 1925 Das dies → 1926 INC quits councils, Swaraj Party loses → 1930 all withdraw. ✅

14-17 · HANDOUT-ONLY PROFILES

📖 Story link · beat 10: No class notes: handout profiles of people from this story (Lajpat Rai, Malaviya, Das, Rajaji).

Lala Lajpat Rai (1865–1928)	What to remember
Lal–Bal–Pal	Extremist trio (Lajpat Rai, Tilak, B.C. Pal): rejected prayers and petitions; Surat Split 1907
👫 Arya Samajist	Shaped by Dayanand; D.A.V. schools and colleges
Swadeshi 1905–08	Northern front (Punjab, UP); 1907 Punjab Colonisation Bill, water rates (Pagri Sambhal Jatta, with Ajit Singh)
👫 1907 arrest	May 1907, deported to Mandalay without trial under Regulation III of 1818; England 1908, back 1909
Abroad 1914–20	Exile (Japan, US); Indian Home Rule League of America (1917, New York), Indian Information Bureau, monthly Young India; books England's Debt to India, The Political Future of India; US Senate Foreign Relations Committee 1919
1920	Returned Feb 1920; president of Special Calcutta Session; founded AITUC (1920)
📬 Writing, banking	Unhappy India (1928) answered Katherine Mayo's Mother India; Punjab National Bank (1894) (Dyal Singh Majithia, Lala Harkishen Lal); Lakshmi Insurance Company
👫 Simon protest, death	Lahore Oct 1928; lathi-charge, Superintendent Scott: "Every blow on my body is a nail in the coffin of the British Empire"; died 17 Nov 1928; Bhagat Singh, Rajguru, Sukhdev killed J.P. Saunders (mistaken for Scott); Assembly Bomb Case 1929

Madan Mohan Malaviya (1861–1946)	What to remember
👑 INC president	Four times: 1909, 1918, 1932, 1933
Ideology	Hindu nationalist: Hindi + Devanagari; opposed separate electorates and casteism; early Hindu Mahasabha but stayed in INC; Mahamana; Bharat Ratna 2015 (posthumous)
Satyameva Jayate	Mundaka Upanishad (Atharva Veda); popularised by him, 1918 Delhi address; national motto 26 Jan 1950, Devanagari at base of Lion Capital of Ashoka
Methods	Builder of structures: The Leader (English), Abhyudaya (Hindi); did not support NCM yet defended 170+ Chauri Chaura accused (19 hanged)
Hindi–Urdu	1880s–1900, NWP and Awadh (province 1877); 1900 equal official status; Hindi tied to Hindus, Urdu to Muslims
No appeasement	Opposed separate electorates (Morley–Minto 1909) and Nehru Report 1928 (wanted reciprocal reservation; Hindus about 30–35% Punjab, 45% Bengal)
BHU 1916	Banaras Hindu University: modern education + Hindu identity
UP Kisan Sabha (1918)	Constitutional; 450 branches by 1919; split 1920 when Baba Ramchandra and Nehru founded Awadh Kisan Sabha (Oct 1920) (no-rent, nai-dhobi bandhs, 300+ branches; joined NCM; violent 1921, INC distanced)
Social	Abolition of untouchability; temple entry

C.R. Das (1870–1925)	What to remember
Deshbandhu	'Friend of the Nation': gave up huge practice, joined NCM 1920
⚖️ Alipore Bomb Case 1908	Defended Aurobindo Ghosh, acquittal
Ideology	Hindu–Muslim unity; pro-labour, pro-peasant, progressive-left of INC
Swaraj Party 1923	With Motilal: contest and obstruct; won 42 of 104 elected seats; Motilal's Nationalist Party with Jinnah's Independents: outvoted govt, rejected budget, forced Viceroy's certification
Mayor 1924	Calcutta Corporation
📜 Bengal Pact 1923	Proportional representation in local bodies; 60% reservation for Muslims in new govt jobs; Hindu groups opposed; collapsed with his death
'Responsive cooperation'	Wreck unjust bills from inside
Death	June 1925 at 55; Bose his disciple

C. Rajagopalachari (1878–1972)	What to remember
Offices	Last Governor-General (1948–50), only Indian; Premier of Madras (1937–39); Home Minister Interim Govt (1946–47); Governor of West Bengal
Ideology	Gandhian conservative; free-market liberal against state-led heavy industry
Salem–Vedaranyam Salt March (1930)	South's parallel to Dandi
Compulsory Hindi (1937–39)	Anti-Hindi agitation: Periyar's Self-Respect Movement, DMK
Rajaji Formula (1944)	Muslim-majority provinces vote on separation after independence; rejected by Congress, insufficient for League
After 1947	Swatantra Party (1959); attacked Licence Raj
Honours	Sahitya Akademi 1958; inaugural Bharat Ratna 1954 with C.V. Raman and S. Radhakrishnan; 'Conscience Keeper of India'; a No-Changer

Source notes: handout ends with the index of next chapter (peasant movements: Kisan Sabha, Eka, Mapilla, Borsad, Bardoli, Akali), which belongs to Ch 38. Personalities PYQ cluster: Hasrat Mohani and complete independence at Ahmedabad 1921 (2001, 2004; answer b; Gandhi kept the goal open); Malaviya BHU founder (1998).

1915
Jan: MG arrives; Kochrab (Sabarmati 1917)

1916
Shukla meets MG at Lucknow; Lucknow Pact; HRL

1917
Champaran; Montague Statement

1918
Ahmedabad (27.5%), Kheda; War Conference; Champaran Act; MC Report; UP Kisan Sabha

1919
Feb Rowlatt; Mar Khilafat Committee; Apr Rowlatt Satyagraha; 13 Apr Jallianwala; Oct Hunter; Dec CLA

1920
Jun Allahabad; Aug Tilak dies, Pal resigns; Sep Calcutta; Oct Awadh Kisan Sabha; Dec Nagpur; TLA, AITUC, CPI

1921
Reading talks fail; Moplah; Eka; Akali; Nov Prince of Wales

1922
Feb Chauri Chaura; Bardoli Resolution; Mar Rowlatt repealed; Gaya

1923
Swaraj Party; Bengal Pact

1924
Belgaum, Gandhi–Das Pact; riots; Khilafat ends

1925
Das dies

1926
Swaraj Party loses; INC quits councils

1927
Simon Commission: Passive Phase ends

1928
Oct Lajpat Rai beaten; 17 Nov dies

1930
All withdraw from councils after Lahore Resolution 1929

In the news · September 2026 (verify dates) UNESCO Tentative List: five new entries, total 78: four in Madhya Pradesh, one serial transnational with South Africa. Personalities in news: anniversaries, September 2026.

Recall drill: cover and answer

Three pilots: place, group, hallmark?	Champaran 1917 Bihar peasants first CD; Ahmedabad 1918 WC first fast + arbitration; Kheda 1918 peasants first NC	Who brought MG to Champaran? Tinkathia?	Rajkumar Shukla; indigo on 3/20th of land; Champaran Agricultural Act 1918
Ahmedabad figures?	Workers 50%, MG 35%, Arbitration Board 27.5%; TLA 1920	Rowlatt Act: facts?	Feb 1919, ILC, Sedition Committee (Rowlatt), extended DoI Act 1915; Chelmsford 16–21; first all-India venture
Jallianwala Bagh?	13 April 1919; 379 official, 1,500 INC; Hunter Committee Oct 1919; Dyer vs O'Dwyer	NCM sequence?	Khilafat Cttee Mar 1919; Allahabad Jun 1920; Calcutta Sep 1920; Nagpur Dec 1920; Chauri Chaura 5 Feb 1922
Nagpur reforms?	CWC 15, linguistic PCCs, 4-anna fee, Hindi, Princely-state members (CHAPS)	Swarajists vs No-Changers?	Das, Motilal vs Patel, Prasad, Rajaji; Gaya 1922; Swaraj Party 1923; Gandhi-Das Pact Belgaum 1924
Why was the Passive Phase not passive?	CW: cadres, rural roots, trust, national schools, panchayats; Simon Commission 1927 ended it		

Quick brief: abbreviations, schemes, bodies (expansions from notes where given; briefs are general knowledge, verify)

NCM = National Commission for Minorities — Statutory body under the NCM Act, 1992

ML = Money Laundering — Passing illegal money through legitimate channels to hide its origin

LG = Lieutenant Governor — Administrator of certain Union Territories

UPSC = Union Public Service Commission — Constitutional body (Art 315) that recruits for the Union services

TLA = Textile Labour Association
