PERSONAL STUDY EDITION

General Studies Paper III

UPSC CSE Mains 2027 · Agriculture, Disaster Management, Internal Security

All GS3 subjects in one book: crisp notes, keywords, data and current affairs, with a margin for your own notes

COMPILED FOR PERSONAL STUDY

General Studies Paper III

UPSC CSE Mains 2027 · Agriculture, Disaster Management, Internal Security

Personal Study Edition. Not for sale or distribution.

Source: Sarrthi IAS MMP+ 2027 handouts, class slides and PYQ sets. Copyright of the source belongs to the institute.

Mnemonics are memory aids, not from the handouts. Boxes in the right margin carry current affairs drawn from the same material.

How to use this book

Block	What it gives you
Exam lens	Priority (High, Medium, Low), the PYQs quoted for the chapter, and the Prelims and Mains hooks.
In simple words	The chapter in a few plain lines, with the key terms explained.
Memory visuals	A mnemonic, mind map, decision fork or flow chain that fixes the chapter in your head.
Chapter notes	The complete content in source order: bullets, tables, figures.
Recall and drill	Cover-and-answer questions, exam traps and a short quiz to close each chapter.
My notes column	The ruled panel on the right of every page is yours: current affairs, data, value additions.

HIGH two or more PYQs map to the chapter MEDIUM one PYQ or a partial fit
LOW none quoted

MY NOTES

Contents

PART I AGRICULTURE AND FOOD · CROPS, IRRIGATION, MARKETING, LIVESTOCK, SUBSIDIES, PDS

01 Cropping Patterns, Irrigation and Water-Use Efficiency 7
02 Pulses, Edible Oils, NFSNM and Krishonnati 10
03 Inputs and Support: Seeds, Soil, Pesticides, Credit, Machines, Extension 12
04 Storage, Transport and Marketing of Agro-Produce 15
05 Economics of Animal Rearing, Fisheries and Fodder 16
06 MSP, Crop Insurance, Procurement and Food Management 17
07 Genome-Edited Rice, Swaminathan and Seed Sovereignty 20
08 Role of Women in Agriculture 22
09 Cotton: Productivity Crisis and Policy Dilemma 23
10 Biofuels and Ethanol Blending (E20 and beyond) 24

PART II DISASTER MANAGEMENT · FRAMEWORKS, INSTITUTIONS, SPACE TECHNOLOGY

11 Disaster Management: Concepts, Institutions and DM Act 2005 27
12 Global Frameworks and DRR Financing 30
13 Space Technology and Cell Broadcast Alerts in DM 32

PART III INTERNAL SECURITY · EXTREMISM, BORDER MANAGEMENT, TERRORISM, CYBER, DEFENCE

14 Elements of National Security 35
15 National Security Doctrine 37
16 National Security Council and Indian Coast Guard 41
17 Defence Reforms: Modernisation, Agnipath, Navy, Exports 44
18 Integrated Theatre Command and CDS 47
19 Mission Sudarshan Chakra 50
20 Grey Zone and Hybrid Warfare 52
21 Left Wing Extremism (LWE) 58
22 Urban Naxals and MSPC Act 2024 73
23 North East Insurgency 75
24 Manipur Conflict 79
25 Jammu and Kashmir 82
26 AFSPA 86
27 Central Armed Police Forces (CAPF) 89
28 Border Management: Challenges, Bangladesh, Myanmar, Nepal 92

MY NOTES

29 Smart Border and Border Area Development (BADP, VVP, BIM) 96
30 Smart Border Technology: CIBMS, BOLD-QIT, Anti-Drone Grid 99
31 Drones and UAVs in Security; Anti-Drone Systems 102
32 India-Pakistan Border 104
33 India-China Border (LAC) 106
34 Illegal Migration 109
35 Maritime and Coastal Security 111
36 Piracy and Maritime Anti-Piracy Act 2022 113
37 Terrorism: Concept, Types, India and Counter-Measures 115
38 Terrorism and Technology: Dark Web, Crypto, Drones 118
39 Global Counter-Terror Architecture and India's Diplomacy 121
40 Interpol, BharatPol, MLATs and International Policing 123
41 UAPA and NIA 125
42 Organised Crime and its Links with Terrorism 128
43 Drug Trafficking and Narco-Terrorism 131
44 Gun Running (Illicit Arms Trafficking) 134
45 Human Trafficking and Child Trafficking 136
46 Money Laundering and Black Money 139
47 Foreign Contribution Regulation Act (FCRA) 145
48 Trade-Based Money Laundering (TBML) 149
49 Terror Financing and Black Money 152
50 Cyber Security: Framework, Policy and Institutions 154
51 Cyber Crime and Data Breaches 157
52 Cyber Warfare and Cyber Doctrine 159
53 DPDP Act 2023 and Digital Sovereignty 162
54 Social Media, Radicalisation and Fake News 164
55 Role of External State and Non-State Actors 166

BACK MATTER

Priority and PYQ index 167

MY NOTES

PART I

Agriculture and Food

Agriculture and Food · Crops, irrigation, marketing, livestock, subsidies, PDS

CHAPTER 1 · AGRI HANDOUT + ECONOMIC SURVEY SLIDES

01 Cropping Patterns, Irrigation and Water-Use Efficiency

HIGH PRIORITY

Mains PYQs quoted: **2016, 2017, 2020 (rice-wheat), 2020/24 (irrigation), 2021 (micro-irrigation), 2023, 2025**

Prelims PYQs: **none quoted in the material**

> **IN SIMPLE WORDS**
>
> - **Wheat-paddy monoculture** hurts soil and water.
> - Fix with **diversification, millets/pulses, micro-irrigation**.

Key term	In plain words
Monoculture	One crop repeated on the same land.
SRR	Seed Replacement Rate.

> **NOTE**
>
> **Monoculture** = only one crop on a piece of land. **Punjab case:** wheat and paddy cover **84.6%** of cropped area, crowding out pulses, maize, bajra, oilseeds, cotton.

ISSUES WITH THE SYSTEM

- **Pests and disease** rise with repeated crops (less genetic diversity)
- Wheat and paddy do **not fix nitrogen** → soil nutrient depletion, more chemical fertiliser and pesticide
- **Aquifer depletion:** CGWB 2024 Punjab — 153 blocks: **115 over-exploited, 4 critical, 12 semi-critical, 22 safe**
- Biodiversity loss
- Climate stress
- Paddy gives **fewer man-days**

WHY CROPPING PATTERNS CHANGE

- Five factor groups: **resource · technology · household · price · institutional/infrastructure**
- **Small farms:**
  - Food/fodder self-sufficiency, size, investment limits
  - **Large farms:** relative prices
  - Better irrigated areas more market-driven
- Economic factors dominate with irrigation, infrastructure, rural markets, **short-duration and drought-tolerant varieties**

MY NOTES

CURRENT AFFAIRS

EL NINO AND LA NINA (PYQ 2014)

- **El Nino:**
  - 15 of 27 years hurt pulses
  - Area -2 to -9%, output -6 to -30%
  - 2023-24 pulse imports **+84% to 4.739 MT**
- **La Nina:**
  - 13 of 25 years gained
  - 8 still lost (excess/ill-timed rain)
- **MP and Gujarat** lead pulses (black soil rotations; short-duration varieties; high SRR) — NITI Aayog 2025

IRRIGATION

WHY IRRIGATION

- Water certainty, nutrient uptake, resilience, **diversification, multiple cropping**

STEPS

- **PMKSY:** coordinated farm-level investment, assured irrigation, on-farm efficiency, precision irrigation, aquifer recharge, private investment
- **Per Drop More Crop: 55%** aid to small/marginal, **45%** others
- Gross irrigated share **41.7% (2001-02) → 55.8% (2022-23)**

CHALLENGES AND WAY FORWARD

- Disparity:
  - &lt
  - **15%** millets, ~**26%** pulses, ~**67%** rice
- Priority:
  - Lagging states and crops
  - **Rejuvenate water bodies and surface storage** (best returns)
  - Reuse treated wastewater peri-urban

> VALUE ADDITION
> **PYQ hook (WUE 2016):** water-use efficiency = crop per drop; micro-irrigation (drip, sprinkler) raises it by cutting evaporation and conveyance losses; link to PMKSY-PDMC and 2021 water crisis answer.

DIVERSIFICATION SUCCESS

> VALUE ADDITION
> **Crop Diversification Programme (RKVY)** promotes alternate crops and legumes to restore fertility.

> **Economic Survey data:** agri and allied ≈ **20%** of national income, **46.1%** of workforce. FY16-25 growth: **fishing 8.8% > livestock 7.1% > crops 3.5%**. **Horticulture 362.08 MT > foodgrain 329.68 MT**. Foodgrain **3,577.3 LMT** (AY 2024-25, +254.3 LMT). India: largest dry-onion producer (~25%), 2nd in vegetables, fruits, potatoes. **Yields below world** in cereals, maize, soybean, pulses (groundnut exception).

> CURRENT AFFAIRS
> **Beed (Maharashtra) experiment:** Krishikul / Global Vikas Trust — farmers moved from soybean/cotton to fruit (papaya, custard apple, sweet lime, guava, pomegranate, mulberry, banana). **TISS 2024:** per-acre income ~₹38,700 → ~₹3.93 lakh (10X).

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Punjab wheat+paddy share?	84.6%
Per Drop More Crop aid?	55% small/marginal, 45% others
Irrigated share 2022-23?	55.8%
N:P:K recommended?	~4:2:1

MY NOTES

CHAPTER 2 · AGRI HANDOUT (ECONOMIC SURVEY)

02 Pulses, Edible Oils, NFSNM and Krishonnati

HIGH PRIORITY

Mains PYQs quoted: **2018 (millets), 2024 (millets), 2026 (policies)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Missions target **pulses and oilseeds** to cut imports.
- **NFSNM** = food + nutrition.

Key term	In plain words
Hidden hunger	Micronutrient deficiency despite adequate calories.

NOTE

Krishonnati Yojana = umbrella of 8 schemes: **MIDH · NFSNM · SAME · ISAM · Digital Agriculture Mission · NMEO-OS · NMEO-OP · MOVCD-NER**.

NFSNM (RENAMED FY25 FROM NFSM)

- Shift from **calorie to food + nutrition security**
- Crop diversification
- Pulses and millets (**Shree Anna**) tackle **hidden hunger**
- Climate-resilient dryland crops

EDIBLE OILS

- Import dependence **63.2% (2015-16) → 56.25% (2023-24)**
- Import 15.66 MT
- **NMEO-OP:**
  - 6.5 lakh ha by 2025-26 (NE focus)
  - **Viability Price** for FFB
  - Planting aid ₹12,000 → ₹29,000/ha
- **NMEO-OS:**
  - 600+ value-chain clusters
  - +40 lakh ha on rice/potato fallows
  - **SATHI** 5-year seed plan
  - 65 seed hubs
  - 432 ICAR varieties
  - Krishi Mapper
  - **Krishi Sakhis**

MY NOTES

- Import duty on crude oil raised 5.5% → 16.5%
- PM-AASHA procurement
- **Target 70 MT by 2030-31**

Mission for Atmanirbharta in Pulses	Interventions
Productivity	HYV, pest-resistant, climate-resilient varieties; multi-location trials
Seed system	5-year plans; ICAR breeder seed; SATHI traceability; free seed kits
Area expansion	Rice fallows; intercropping
Procurement	Assured MSP purchase of **tur, urad, masoor** via NAFED/NCCF (PSS/PM-AASHA)
Value chain	Storage, grading, processing
Convergence	Soil health, mechanisation, plant protection

VALUE ADDITION

Target: self-sufficiency in pulses by **Dec 2027**; ≥**20%** of mission funds for women farmers.

HORTICULTURE

- MIDH · **Clean Plant Programme** · Horticulture Cluster Development Programme

MY NOTES

CURRENT AFFAIRS

PM Dhan-Dhaanya Krishi Yojana: 100 low-productivity districts; ₹24,000 cr by convergence of **36 schemes**; modelled on Aspirational Districts; **117 indicators** tracked monthly; Agri universities as technical partners.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Edible oil import dependence 2023-24?	56.25%
PMDDKY outlay?	₹24,000 cr
Pulses self-sufficiency target?	Dec 2027

CHAPTER 3 · AGRI HANDOUT (ECONOMIC SURVEY)

03 Inputs and Support: Seeds, Soil, Pesticides, Credit, Machines, Extension

MEDIUM PRIORITY

Mains PYQs quoted: **2014 (agri finance), 2015, 2023 (e-tech)**

Prelims PYQs: **none quoted in the material**

> **IN SIMPLE WORDS**
>
> - Good yields need **seeds, soil balance, credit, machines, advice**.

Key term	In plain words
AgriStack	Digital public infrastructure for farmers.
FPO	Farmer Producer Organisation.

SEEDS

- **6.85 lakh Seed Villages** (SMSP)
- **National Mission on High-Yielding Seeds** (Budget 2025-26, 100+ varieties)
- **MGR 100 (CO 52)** rice success
- Challenge:
  - Research needs
  - Monoculture risk
  - Farmers use old/saved seeds

> **VALUE ADDITION**
>
> **Draft Seeds Bill 2025** replaces Seeds Act 1966: quality, curbs spurious seeds, liberalises imports, decriminalises minor offences; farmers may **grow, save, exchange, sell** farm seeds (restriction only on branded sale); minimum germination, genetic/physical purity, seed health; registration of processing units; Registrar and National Register; Central Accreditation; testing labs; inspectors under **BNSS**. Align with **PPV&FR Act 2001, CBD, ITPGRFA**.

SOIL HEALTH

- Falling organic carbon
- N:P:K ratio far from **4:2:1** because **urea is cheap**
- Tools: Soil Health Card (**25.55 crore**), NSMP, NOSUIS, nutrient-based pricing, neem-coated urea, Aadhaar-linked PoS, iFMS — all **supply-side**

MY NOTES

- **Economic Survey proposal:**
  - Raise urea price modestly, give per-acre income support (zone/crop indexed) via **PM-KISAN**
  - Pilot first (tenancy issue)

> **VALUE ADDITION**
> **Draft Pesticides Management Bill 2025** replaces Insecticides Act 1968: broad pesticide definition (incl. growth regulators, defoliants), mandatory lab accreditation, digital registration, higher penalties on spurious pesticides, **Central Pesticides Board**, promotion of biological pesticides.

CREDIT

- Non-institutional credit **90% (1950) → 23.4% (2021-22)**
- Lead Bank Scheme, PSL
- **KCC + MISS:**
  - 7% loan, **3%** prompt-repayment incentive
  - **Kisan Rin Portal**
- Disparity: Central region 35.4% of PM-KISAN but 14.7% of MISS

MECHANISATION

- **SMAM**
- **25,689 Custom Hiring Centres** (2014-15 to 2025-26)
- Barriers:
  - Fragmented holdings, labour shortage
  - Fix via FPOs, PACS, SHGs

EXTENSION

- **SMAE**, **ATMA**, **DAESI** (48-week dealer course; 1.07 lakh dealers), Kisan Call Centres (22 languages), KVKs as district knowledge centres
- Digital advisories
- FPOs

INFRASTRUCTURE AND MARKETING

- **AMI** (74,000+ projects) · **AIF** ₹1 lakh cr · **e-NAM** 1,522 mandis, 1.79 cr farmers · 10,000 FPOs · AHIDF, PMMSY, FIDF · **Digital Agriculture Mission / AgriStack**
- Gaps: cold chains, post-harvest logistics, narrow export basket

---

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Seeds Act replaced?	1966

MY NOTES

KCC loan rate?	7% with 3% incentive
CHCs created?	25,689

MY NOTES

CHAPTER 4 · AGRI HANDOUT: INFRASTRUCTURE AND MARKETING

04 Storage, Transport and Marketing of Agro-Produce

MEDIUM PRIORITY

Mains PYQs quoted: **2014 (APMC), 2015, 2018, 2020, 2022, 2025**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Reform = **e-markets + FPOs + storage + cold chain**.

Key term	In plain words
e-NWR	Electronic negotiable warehouse receipt.

NEED

- Crowd in private investment · price discovery · competitive buyers · value addition · cut post-harvest losses (crops, livestock, fish)

STEPS

- **AMI** credit-linked subsidy (74,000+ projects) · **AIF** ₹1 lakh cr · **e-NAM** · 10,000 FPOs · **AHIDF, PMMSY, FIDF** · ISRO **Vessel Communication and Support System** · **AgriStack**

CHALLENGES

- Processing must grow faster to widen export basket
- **Cold chain and logistics gaps**, esp. inland and remote regions

VALUE ADDITION

Post-harvest distress sale eased by **Credit Guarantee Scheme for Electronic Negotiable Warehouse Receipt (e-NWR) pledge finance**.

VALUE ADDITION

PYQ lens: APMC reform, e-commerce in supply chain, small processing units, supermarkets and intermediaries, upstream/downstream bottlenecks, contract farming and land leasing (2015), land reforms (2016-24).

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

AIF size?	₹1 lakh cr
e-NAM mandis?	1,522

MY NOTES

CHAPTER 5 · AGRI HANDOUT: LIVESTOCK AND FISHERIES

05 Economics of Animal Rearing, Fisheries and Fodder

MEDIUM PRIORITY Mains PYQs quoted: **2013 (pink revolution), 2015**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **Allied sectors lead growth**
- **fodder** is the bottleneck

Key term	In plain words
Pink revolution	Meat/prawn production growth (PYQ 2013).

STEPS

- **FMD control:**
  - ~125 crore vaccinations since 2020
  - Digital animal ID
- **AI:**
  - 76.23 m (2017-18) → 88.32 m (2024-25)
  - 126 districts at 50% coverage
- **PM-MKSSY** fisheries
- **Nucleus Breeding Centres** (shrimp)
- **28 lakh** on National Fisheries Digital Platform
- PMMSY, FIDF, AHIDF

WAY FORWARD

- Feed-fodder security
- Better aquaculture genetics
- Formalise fisheries
- Aquatic health, biosecurity, quality standards

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Fodder share of cost?	>70% of milk cost
AI inseminations 2024-25?	88.32 m

MY NOTES

CURRENT AFFAIRS
Fodder gap: feed and fodder >**70%** of milk production cost; fodder only **4.61%** of gross cropped area; gaps: green fodder 11-32%, dry 23%, concentrates 28-40%.

CHAPTER 6 · AGRI HANDOUT: REFORMING FARM SUPPORT

06 MSP, Crop Insurance, Procurement and Food Management

HIGH PRIORITY

Mains PYQs quoted: **2013, 2015, 2017, 2018, 2019, 2021, 2022, 2023, 2024, 2026**

Prelims PYQs: **none quoted in the material**

> **IN SIMPLE WORDS**
>
> - MSP works where **procurement** works.
> - Reform: **diversify, income support, parametric insurance, market development**.

Key term	In plain words
Parametric insurance	Payout triggered by a weather index rather than farm-level loss.
PSS	Price Support Scheme.

BEFORE PRODUCTION: PRICE

PROBLEMS

- Cost data lag 2-3 years (input shocks, e.g. Hormuz 2026)
- Wheat gets stronger support than other rabi crops
- **MSP works only where procurement works** (wheat, paddy)
- Weak for pulses, oilseeds, millets

MEASURES

- Update cost data (index fuel, fertiliser, labour) · align MSP with diversification · income support (PM-KISAN, per-hectare) · link price to procurement, offtake, processing

DURING PRODUCTION: PMFBY

PROBLEMS

- Farm-level loss missed (Palghar farmer ₹2.30) · trust deficit · **voluntary enrolment → adverse selection** · fiscal stress (Bihar, Jharkhand, WB opted out) · tenants excluded

MY NOTES

CURRENT AFFAIRS

MSP: 22 mandated crops; since Budget 2018-19 at least **50% over weighted average cost** (A2+FL). Wheat MSP ₹2,585/qtl ≈ **109%** above A2+FL. **PM-KISAN:** ₹4.09 lakh cr over 21 instalments; **PM-Kisan Maandhan** 24.92 lakh enrolled (Dec 2025).

CURRENT AFFAIRS

PMFBY: 4.19 crore farmers insured (2024-25, +32% over 2022-23); 86 crore applications; **₹1.90 lakh cr** claims since 2016-17. Tools: **DigiClaim, NCIP, YES-TECH, WINDS**. From Kharif 2025 States must open **escrow** for premium share; from Kharif 2024 delayed claims attract **12% penalty**.

MEASURES

- Farmer-sensitive tech + local verification · timely settlement · link insurer pay to claim performance · **parametric insurance** · keep insurance as real risk cover

AFTER PRODUCTION: PROCUREMENT

PROBLEMS

- High buffer stock and carrying cost
- Public money locked
- Imports of edible oil (56%) and pulses persist
- **Rice-wheat bias**

MEASURES

- Crop-shift incentives (per-acre/quintal) starting in eastern and central India · link with national priorities (maize, oilseeds for ethanol/feed) · Centre-State partnership · **price-deficiency payments**, bonuses, assured offtake · phased, flexible buffer norms

FOOD MANAGEMENT (PDS)

Problem	Measure
Basic security	**NFSA 2013**: ~67% of population
Crisis	**PMGKAY** free grain (Centre funded)
Migrants	**ONORC**: all 36 States/UTs, ~80 crore
Ghost beneficiaries	Aadhaar seeding: 99.8% cards, 98.9% beneficiaries
Leakage	**ePoS** at 99.6% of 5.43 lakh FPSs; >98% digital
Targeting	Inter-database checks (CBDT, GSTN, PM-KISAN) flagged 8.51 crore; **2.12 crore removed**
Choice	**DBT** pilots: ₹267.6 cr (FY24)
Logistics	**Anna Chakra**; **VLTS** GPS tracking
Nutrition	Fortified food
Distress sale	e-NWR pledge finance

VALUE ADDITION

PYQ lens: subsidies and WTO distortions (2013, 2023, 2026), DBT (2015), buffer stocks (2024), NFSA (2013, 2021), PDS reforms (2019, 2022). For WTO subsidy parts add static material (not in the handout).

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

MSP formula?	≥50% over cost
ONORC reach?	All 36 States/UTs
PMFBY late claim penalty?	12% (from Kharif 2024)

MY NOTES

CHAPTER 7 · AGRI HANDOUT

07 Genome-Edited Rice, Swaminathan and Seed Sovereignty

MEDIUM PRIORITY Mains PYQs quoted: **Technology missions 2026**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Genome-edited ≠ GM (**no foreign DNA**).

Key term	In plain words
SDN	Site-Directed Nuclease type of genome editing.

Significance	Concerns
Yield without more area	Biosafety: Coalition for a GM-Free India says edits not always precise; SDN-1/2 deregulation challenged
Climate resilience, water, methane	IPR ownership and seed sovereignty
Biotech leadership	Labelling; loss of rice genetic diversity

WAY FORWARD

- Transparent trials and post-release monitoring · crop-specific guidelines · affordable public seed · conserve indigenous varieties (e.g. **Pokkali** saline-tolerant paddy) · local training

M.S. SWAMINATHAN

CONTRIBUTIONS

- Green Revolution:
  - Mid-1960s import of **18,000 t** Mexican dwarf wheat seed
  - With **Borlaug**: Kalyan Sona, Sonalika
  - Wheat **12 MT (1965) → 55+ MT (1970s)**
- **Farmer-first science**
- Institutions (CRRI, IARI, IRRI), **MSSRF** Chennai
- **National Commission on Farmers**: MSP = cost + 50%

LEGACY

- Food → **nutrition security** · **Evergreen Revolution** (no cost to soil, water, biodiversity) · farmer income debate · mangroves and coastal protection · pro-poor, pro-women, pro-nature

MY NOTES

CURRENT AFFAIRS

Genome-edited rice (ICAR): DRR Dhan 100 Kamala (from Samba Mahsuri; CKX2 gene → more grains/panicle; ~20 days earlier; +19% yield; less water and methane) and **Pusa DST Rice 1** (from MTU 1010; drought, salinity, alkalinity tolerance; +9.66-30.4% in saline/alkaline soils). Made with **CRISPR-Cas SDN-1/SDN-2**; no foreign DNA, so **not GM** (SDN-3 not used).

VALUE ADDITION

Book: *The Man Who Fed India* by Priyambada Jayakumar.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

SDN-3 used?	No — so not GM
Kamala yield gain?	19%

08 Role of Women in Agriculture

CHAPTER 8 · AGRI HANDOUT

MEDIUM PRIORITY

Mains PYQs quoted: **2026 International Year of the Woman Farmer**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **Women farm, but do not own land**
- Fix with titles, tools and collectives

Key term	In plain words
Krishi Sakhi	Trained women para-extension worker.

PROGRAMMES

- **MKSP** · **DAY-NRLM** · **Krishi Sakhis** · **Namo Drone Didi** · **SMAM** · **AIF** · **ISAM/AMI** (higher subsidy) · **PM-KISAN** (~25% women) · women-led FPOs · **ICAR-CIWA** · pulses mission (≥20%) · **NBHM**

ROLES

- Production · allied sectors · nutrition (kitchen gardens; Odisha Shree Anna) · seed conservation (Ao and Angami women millet festivals) · climate resilience (WCRF model) · rural enterprise (Kudumbashree, SEWA)

CHALLENGES

- No land titles/recognition · unpaid and low pay · weak decision power · tools not designed for women · market barriers · climate burden

WAY FORWARD

- Recognise women as farmers (records, IDs) · **joint titles** · drudgery-reducing tech and CHCs · women-led FPOs · **BHASHINI** voice advisory · climate-smart training · more Krishi/Pashu Sakhis

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Women own holdings?	13-14%
Women share of agri workforce 2023-24?	64.4%

MY NOTES

CURRENT AFFAIRS

UNGA declared **2026 International Year of the Woman Farmer**. ~80% of rural women in agri/allied; women's share **57% (2017-18) → 64.4% (2023-24)**; but own only **13-14%** of holdings (NFHS 8.3%); ~half are unpaid family workers; earn 20-30% less.

CHAPTER 9 · AGRI HANDOUT

09 Cotton: Productivity Crisis and Policy Dilemma

LOW PRIORITY Mains PYQs quoted: **Cropping patterns, trade**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Cotton problem = **productivity, technology, policy**.

Key term	In plain words
CCI	Cotton Corporation of India.

ISSUES

- Old Bt technology, pink bollworm · policy uncertainty (price controls, royalty caps; Bollgard II RRF and Bollgard III not released) · farmer distress · industry pressure

Stakeholder	Impact of duty removal
Textiles	Cheaper, available cotton
Farmers	Lower prices; may quit cotton
Economy	Risk of import dependence

WAY FORWARD

- Flexible duty · CCI procurement on price fall · revive seed innovation with stable approvals · Cotton Productivity Mission · balance value chain · rainfed varieties

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Cotton yield?	441-448 kg/ha
Import duty removed?	11%

MY NOTES

CURRENT AFFAIRS

2nd-largest producer (after China); **~60 lakh** farmers; value chain employs **4.5 crore**. Production **13.6 m bales (2002-03) → 39.8 m (2013-14)** with Bt cotton, then stagnated; yield **~441-448 kg/ha** (20+ countries higher). Arrivals ~292 lakh bales vs need ~337 lakh. **11% import duty temporarily removed.**

CHAPTER 10 · AGRI HANDOUT

10 Biofuels and Ethanol Blending (E20 and beyond)

MEDIUM PRIORITY Mains PYQs quoted: **Energy security, farm income**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Biofuels: **energy security + farm income**, but watch **food vs fuel**.

Key term	In plain words
Drop-in fuel	Biofuel usable in existing engines without modification.

GENERATIONS

- **1G:**
  - **Food crops (sugar, wheat)**
  - **Fuel vs food → 2G: waste, residues, non-food biomass → 3G: engineered crops, algae → 4G: biomass + carbon capture → carbon negative**

BENEFITS

- **Economic:** import substitution, rural value chains, farmer income, residue use
- **Social:**
  - Jobs
  - Less stubble burning
- **Environment:**
  - E20 cuts CO ~50% (2-wheelers), ~30% (4-wheelers)
  - HC ~20%
  - Circular economy
- **Strategic:** energy security, oil-shock resilience, Global Biofuels Alliance, bridge to EV and hydrogen

CHALLENGES

- **Food vs fuel:**
  - Maize ethanol price grew 11.7% CAGR (FY22-25)
  - Maize area +6.68%, pulses fell, oilseeds +1.7% — energy vs food Atmanirbharta trade-off
- Water:
  - Sugarcane + paddy ≈ 70% of irrigation

MY NOTES

CURRENT AFFAIRS

E20 achieved five years early (target 2030, advanced to ESY 2025-26 by 2022 amendment). **E85** launched at 48 outlets on World Environment Day 2026 (500 by Dec 2026; ~5,000 by Dec 2027); E100 rules drafted. **BIS IS 19850:2026** for E22/E25/E27/E30. SAF targets: **1% (2027), 2% (2028), 5% (2030)** for international flights.

  - Sugar price rise
- NOx not uniformly lower
- Carbonyls
- Mileage loss
- Older vehicles
- Engine tuning and ethanol-resistant parts
- Storage/blending logistics
- 2G scaling
- Chokepoints (Hormuz)

STEPS

- **National Policy on Biofuels 2018** (replaced 2009; 20% ethanol, 5% biodiesel)
- **Ethanol Blending Programme 2003**
- Feedstock diversification
- GST 5%
- **PM JI-VAN** (2G)
- **SATAT** (CBG)
- **National Bioenergy Programme**
- **RUCO**
- SAF push
- **Global Biofuels Alliance**

> **VALUE ADDITION**
> **Brazil:** Proalcool (1975) → E27 via R&D, subsidies, tax breaks and flex-fuel vehicles. **New fuels:** SAF (CORSIA needs ≥10% lifecycle cut), iso-butanol (higher energy, less water absorption; Tata 2% diesel trial), drop-in fuels, biohydrogen.

WAY FORWARD

- Shift to 2G · lifecycle assessment · keep E10 protection-grade · uniform quality and labelling · recalibrate targets/feedstock incentives · use biofuels as strategic buffer

---

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

E20 target year (original)?	2030
Biofuel policy year?	2018
SAF 2030 target?	5%

MY NOTES

PART II

Disaster Management

Disaster Management · Frameworks, institutions, space technology

CHAPTER 11 · DM STATIC (CLASS SLIDES, HANDWRITTEN) + DM PYQ SHEET

11 Disaster Management: Concepts, Institutions and DM Act 2005

HIGH PRIORITY Mains PYQs quoted: **2013, 2019, 2020, 2024, 2026 (community)**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- **Disaster = hazard + vulnerability − coping capacity.**
- India:
  - **reactive → proactive**
  - **DM Act 2005, NDMA, NDRF**

Key term	In plain words
Hazard	Potential source of harm.
Resilience	Ability to absorb, adapt and recover from a disaster.

NOTE

Disaster = serious disruption of a community causing widespread human, material, economic or environmental loss that **exceeds its own coping capacity**. **Hazard** = potential source of harm (not certain). **Vulnerability** = conditions that raise susceptibility to harm. **Exposure** = assets in hazard-prone areas.

NOTE

Disaster = Hazard × Vulnerability ÷ Capacity to cope · **Risk = Hazard × Exposure × Vulnerability** · Hazard groups: geophysical, hydrological, climatological, meteorological, biological.

TYPES OF VULNERABILITY (PYQ 2019)

- **Physical** (wooden houses)
- **Economic** (low ability to cope)
- **Social** (vulnerable sections)
- **Environmental** (loss of wetlands)
- **Attitudinal** (community attitudes)

DM AND ITS GOALS

- UN: systematic use of administrative decisions, organisation and skills to lessen hazard impact — **before, during, after**

- Goals: **reduce losses**, ensure **prompt assistance**, achieve **rapid and effective recovery**

DISASTER CYCLE

- **Mitigation / prevention → Preparedness: prediction and early warning → DISASTER IMPACT → Response: impact assessment, relief → Recovery: reconstruct**

> **VALUE ADDITION**
> **DM Act 2005 covers:** prevention; mitigation; capacity-building; preparedness; prompt response; severity assessment; evacuation, rescue, relief; rehabilitation and reconstruction.

INDIA'S EVOLUTION

SHIFT

- **Pre-independence:**
  - **Relief, reactive → Post-1947: relief commissioners → 1990s: DM cell in Agriculture Ministry**
  - **IDNDR → 2000s: High Powered Committee after Odisha cyclone, Bhuj, etc. → DM Act 2005: proactive, multi-hazard**

INSTITUTIONS

- **CCS → NCMC** (national crisis management; command, control, coordination; CBRN emergencies)
- **NDMA** — policies, plans, guidelines
- **Chaired by PM**
- **NEC** — assists NDMA (Home Secretary leads)
- **NDRF** — assists states
- **NIDM** — training, capacity building
- **State:** SDMA → **DDMA** → local bodies

NDRF RECORD

- Successes: **Nepal earthquake 2015**, **Chennai floods 2015**, **Cyclone Fani 2019** — "golden hours", advanced preparedness
- Challenge: **CBRN** emergencies

ISSUES WITH THE ACT

- **Financial devolution** to State authorities weak
- **Centralisation**
- **Definition of disaster not expanded** (no objective severity threshold)
- Response funds do **not** cover prevention, mitigation, risk reduction

MY NOTES

- "Visible goals" (relief) outrank "foundational goals" (prevention, training, awareness)

PLANS AND POLICY

- **NDM Policy 2009** (framework for all phases) · **NDMP 2019** (dynamic document, aligned to Sendai, aims at risk understanding, DRR investment, governance, **Build Back Better**)

PRIS AND COMMUNITY (2026 PYQ)

VALUE ADDITION

Community participation answer: first responders; local knowledge; cyclone shelters and early warning dissemination; challenges — low awareness, resource gap, top-down plans, gender and equity gaps; measures — training, village plans in GPDP, SHGs, volunteers (Aapda Mitra), local-language alerts.

VALUE ADDITION

PYQ map: 2013 vulnerability/risk assessment · 2014 drought, El Niño/La Niña · 2015 earthquake · 2016 urban floods, cloudburst · 2017 tsunami · 2018, 2024 Sendai/DRR · 2019, 2021 landslides · 2020 proactive measures · 2022 cloudburst, coastal erosion · 2023 dam failure · 2024 urban floods · 2025 seawater intrusion · 2026 infrastructure vs DRR; community participation.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Risk formula?	Hazard × Exposure × Vulnerability
NDMA chair?	Prime Minister
NDM Plan year?	2019
PRI project outlay?	₹507.37 cr

MY NOTES

CURRENT AFFAIRS

National Project for Strengthening Community-Based DRR in PRIs (MoPR + NDMA): **₹507.37 cr**; 20 States, **81** hazard-prone districts, **20 GPs per district** in clusters; **20 Model GPs** (₹5 cr per State = ₹100 cr) for flash floods, landslides, coastal erosion, cyclones, drought, earthquakes. Village DM plans integrated into **GPDPs**; builds on DMP-MoPR 2022.

CHAPTER 12 · DM STATIC; DRR FINANCING NOTE

12 Global Frameworks and DRR Financing

HIGH PRIORITY Mains PYQs quoted: **2018, 2024 (Sendai, resilience)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **Yokohama → Hyogo → Sendai** moved from relief to **risk reduction**.
- India funds through **SDRMF/NDRMF 80:20**.

Key term	In plain words
PDNA	Post-Disaster Needs Assessment.
IMCT	Inter-Ministerial Central Team.

EVOLUTION

- **1972 UN disaster relief office → 1990 IDNDR → 1994 Yokohama Strategy → 2005 Hyogo Framework (Kobe) → 2015 Sendai Framework (2015-30)**

HYOGO → SENDAI

- **Hyogo successes:** reduced mortality, cost-effectiveness of DRR, a global platform, first plan from all sectors
- **Challenges:**
  - Disasters still take a heavy toll
  - Economic losses
  - Need for a more comprehensive framework → **Sendai**
- **Sendai shift:** from managing disasters to **managing risk** (general knowledge: 4 priorities, 7 targets — verify)

NOTE

Three post-2015 frameworks are coherent: **Sendai · Paris Agreement · SDGs**. India's **10-Point Agenda**: mainstream DRR in development; risk coverage for all; **women's leadership**; global risk mapping; **technology**; university network; **social media and mobiles**; local capacity; learn after every disaster; coherent international response.

OTHER MECHANISMS

- **CDRI** (India-led, now ~40 countries) · **Suva Expert Dialogue** on Loss and Damage · **Loss and Damage Fund** · **Global Platform for DRR** reviews Sendai · **EW4All** (WMO + UNDRR, universal early

MY NOTES

warning by end-2027) · **ARISE India** (CII, FICCI) · Nature-based solutions (Mula-Mutha Pune)

FINANCING IN INDIA

CHALLENGES

- **Outdated relief norms** (₹4 lakh for life; ₹1.2 lakh full house loss)
- **Rigid spending** (relief only)
- **No objective classification** of severe disaster
- **Procedural delays**: State memorandum → IMCT → HLC

WAY FORWARD

- Update norms · **Disaster Risk / Vulnerability Index** triggers · drone surveys, digital assessment, **PFMS** tracking · PPPs, targeted funds, tax incentives

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Sendai period?	2015-2030
Response vs mitigation split?	80:20
CDRI launched by?	India

MY NOTES

CURRENT AFFAIRS

15th FC: created **SDRMF and NDRMF**; split **80% response funds** (SDRF/NDRF) and **20% mitigation funds**. Within 80%: **40% response and relief · 30% recovery and reconstruction** (₹20,539 cr NDRF; ₹48,046 cr SDRF; needs PDNA) · **10% pre-paredness**. SDRF contribution **75:25**, **90:10** for NE and Himalayan States.

CURRENT AFFAIRS

UNDRR GAR 2025 "Resilience Pays": DRR is investment; disaster costs > **$2.3 trn/yr** including cascading; direct costs rose from ~$70-80 bn/yr (1970-2000) to ~$180-200 bn/yr (2001-20).

CHAPTER 13 · DM STATIC

13 Space Technology and Cell Broadcast Alerts in DM

MEDIUM PRIORITY Mains PYQs quoted: **2020 (government initiatives)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **Space** gives data, **CBS** gives last-mile alerts.

Key term	In plain words
CAP	Common Alerting Protocol recommended by ITU.

Component	Use and example
Risk mapping	Hazard zonation; **NRSC Landslide Atlas 2023**; Flood Hazard Atlas (Assam, Bihar)
Early warning	**INSAT-3D / 3DR** for IMD forecasting
Monitoring	**Cyclone Dana 2024** tracking; forest fire alerts (FSI, MODIS/VIIRS)
Response planning	**Bhuvan** portal
Communication	Satellite links; **National Cyclone Risk Mitigation Project** dissemination
Navigation / SAR	Track relief teams and fishing boats
Damage assessment	**RISAT** for Wayanad landslide extent; insurance and compensation
International	**NISAR** maps land and ice every 12 days

VALUE ADDITION

Conclusion line: space technology moves DM from relief-centric to **risk-informed, anticipatory governance**; integrate with community action.

CELL BROADCAST SYSTEM

NOTE

CBS — DoT + NDMA; indigenous, built by **C-DOT**. Sends alerts to **all mobile devices in a defined area at once**, without straining networks (unlike SMS). Upgrades **SACHET** (CAP standard, SMS, also C-DOT).

MY NOTES

WHY USEFUL

- Near real-time · works on almost all handsets · **no personal data** · no app or subscription · **multilingual** · distinct tone even on silent · message stays until acknowledged

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

CBS built by?	C-DOT
Alert standard in SACHET?	Common Alerting Protocol

PART III

Internal Security

Internal Security · Extremism, border management, terrorism, cyber, defence

14 Elements of National Security

CHAPTER 14 · HANDOUT P.1-2

MEDIUM PRIORITY Mains PYQs quoted: **Foundation for GS3 answers**

Prelims PYQs: **none quoted in the material**

> **IN SIMPLE WORDS**
>
> - National security covers **13 elements**, not only the army.
> - Economic, energy, cyber, health, food, water and disaster security are part of it.

Key term	In plain words
Strategic autonomy	Freedom to take defence and foreign-policy decisions without dependence on another power.
Economic coercion	Using trade, sanctions or supply cut-offs to pressure a country.

THE BIG PICTURE (MY GROUPING TO REMEMBER 13 ELEMENTS)

- **NATIONAL SECURITY**: Military · Economic & Energy · Human (health, food, disaster) · Digital (cyber, information) · Political & ethnic · Resource & environment

Element	What it means	Detail to quote
Military	Protect from external military threats; manage physical threats	Invasion, terrorism, cyber attacks · border and coastal security
Economic	National wealth, economic freedom of state and citizens	Supply-chain resilience · critical infrastructure · financial stability · **critical minerals** · resilience vs **economic coercion**
Energy	Uninterrupted supply of energy	Security of international and energy assets
Environmental	Climate change; pollution	Internal displacement, warming war, migration · pollution is transnational
Ethnic	Avoid sectional conflict	Maintain **national integration**, promote harmony
Cyber	Protect digital infrastructure	Develop cyber **offence and defence** capacity
Health	Disease surveillance, early warning	Rapid response and emergency preparedness

MY NOTES

Element	What it means	Detail to quote
Information	Citizen's right to privacy; data as public good	**DPDP Act 2023** and **DPDP Rules 2025**; protect information that affects national security
Resource	Water conflicts	Internal: **Cauvery** · External: **Indus** water dispute
Political	Sovereignty, stability of government	Honour **human rights** of citizens by the state
Geostrategic	Military co-operation; strategic autonomy	Defence purchase · training
Food	Address nutritional poverty	Measures to avoid starvation
Disaster	Mitigation and quick response	

VALUE ADDITION

Answer hook: "Security is multi-dimensional — a failure in food, water or data can become a failure of the state." Use this opener for any internal-security question.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Name 5 non-military elements	Economic, energy, environmental, cyber, health, information, resource, food...
Internal vs external water dispute?	Cauvery vs Indus
Data laws under information security?	DPDP Act 2023 + Rules 2025

15 National Security Doctrine

CHAPTER 15 · HANDOUT P.3-8

HIGH PRIORITY Mains PYQs quoted: **Debate on NSS; theaterisation link**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- India has a security strategy in practice but no public **National Security Strategy**.
- The case for one: new domains, proxy wars, blurred internal-external threats, and theaterisation.

Key term	In plain words
Grey-zone warfare	Hostile actions short of open war, e.g. cyber, proxies, disinformation.
Theaterisation	Merging army, navy, air force into joint regional commands.

NOTE

National Security Doctrine = a set of **basic principles**, based on the **core interests** of the State, shaping how different elements of national power protect and further the Republic's interests; a concise summary of strategic vision and objectives. It identifies missions and principles for the **armed forces, diplomatic and intelligence communities**.

QUOTE

"The new frontiers of war — fourth-generation warfare — is ***civil society****."*
*— **Ajit Doval***

QUOTE

"Half-done reforms create new vulnerabilities without solving old ones. You cannot cross a chasm in two leaps." — ***Shivshankar Menon*** *(Bipin Rawat's reforms incomplete)*

NEED FOR A DOCTRINE

NEW DOMAINS OF WARFARE

- **Complex threats** — traditional + non-traditional (cyber, narco-terror, eco-terror)
- **Technology** expands the battlefield and nullifies traditional advantage
- **Grey-zone warfare** — ambiguous space between peace and war

MY NOTES

CURRENT AFFAIRS

In the news: India still debates a public, comprehensive **National Security Strategy**; meanwhile elements are codified through **domain-specific doctrines** (counter-terrorism, cyberspace, multi-domain operations).

- **Digital age** reshapes battlespace
- **Proxy wars** rise

RECOMMENDED BY COMMITTEES

- **Kargil Review Committee** — integrate security
- GoM + 4 task forces, recommendations not implemented
- **Naresh Chandra Task Force 2011** — doctrine-level national security strategy

BEFORE THEATERISATION

- **Gen. M.M. Naravane**: theaterisation without an NSS is **putting the cart before the horse**

CLARITY AND INTEGRATION

- Efforts on military, paramilitary, intelligence are **scattered** — a document gives foresight
- Internal and external threats **blur**: **2.5-front war** (China + Pakistan + internal) — Gen. Bipin Rawat
- **Galwan 2020**: a failure in **managing** intelligence, not only in gathering it

PRACTISED RESPONSE

- Doctrine = **algorithm** for policymakers, not ad hoc
- E.g. **IC-814 hijack** confusion
- Enhances **Comprehensive National Power**

CHANGING WORLD

- **US-China/Russia** rivalry and proxy wars
- **Afghanistan** again epicentre of terror after US exit
- China keeps links with jihadi elements
- **Pak-China axis**
- **Hamas-Israel** war energises jihadi groups

GLOBAL EXAMPLES

Country	Document
USA, UK, Russia	Regularly updated **National Security Strategy**
China	**Comprehensive National Security** strategy tied to governance
Pakistan	**National Security Policy 2022-2026**

MY NOTES

WHAT WILL IT CONTAIN?

CONTENTS

- **National interests and values** → translated into goals
- **Strategic culture and diplomacy**:
  - Amicable solutions first, right to use force
  - Expand diplomatic cadre
- **Communicate objectives and redlines** (deterrence). E.g. if Pakistan had known Kashmir attack = riposte to Lahore, **1965** avoided
- **Periodic updates**

WHY NOT YET? — CHALLENGES

WHAT HAS NOT BEEN DONE

- **Only political direction:** Raksha Mantri's **Operational Directive 2009** (Gen. N.C. Vij) — dated
- **Political hesitation** — Menon: 3 attempts, accountability fear
- No whole-of-government effort
- **Deliberate non-disclosure** — strategic ambiguity

CHALLENGES IN FRAMING

- **Poor civil-military relations**:
  - No joint leadership
  - Chiefs have operational autonomy but little policy say
- **Strategic restraint** — Cohen &amp
- Das Gupta: India rejected colonisers' instruments
- **Divergent goals** (Walter Ladwig):
  - Army short wars with tech
  - Navy blue water + nuclear subs
  - Air Force reach Gulf to Malacca → need **joint war-fighting doctrine**

> **NOTE**
> **Counter-view:** CDS Gen. Anil Chauhan — no written NSS ≠ no strategy; **Art. 370 revocation, Uri and Balakot** show it exists. **Doval Doctrine** (2014) = **"double squeeze"** strategy.

> **NOTE**
> **Conclusion:** Competition + tech domains + grey-zone tempo make threats lethal; a **vigilant, adaptive** national security craft is essential.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Who proposed an NSS before theaterisation?	Gen. M.M. Naravane
Which 2009 document is the only political direction?	Raksha Mantri's Operational Directive
Doval Doctrine?	Double squeeze
3 committees that urged a doctrine?	Kargil Review, GoM task forces, Naresh Chandra 2011

MY NOTES

CHAPTER 16 · CLASS SLIDES (OCR, VERIFY)

16 National Security Council and Indian Coast Guard

MEDIUM PRIORITY Mains PYQs quoted: **Higher defence organisation, NSA role**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **NSC** = PM-led advisory body
- **NSA** runs the secretariat
- Three tiers: **SPG, NSAB, JIC**.

Key term	In plain words
NSCS	Secretariat that supports the NSC.
JIC	Committee that assesses intelligence inputs.

NOTE

Source note: this chapter comes from handwritten class slides read by OCR; confirm details against the Cabinet Secretariat site before quoting.

NOTE

NSC was constituted on the recommendation of the **K C Pant Task Force**. **Prime Minister** is chairman; it is the apex **inter-ministerial mechanism** for integrated thinking and coordinated application of resources on national security.

THREE TIERS

- **Strategic Policy Group (SPG)**:
  - Headed by **Cabinet Secretary**
  - Defence, Foreign, Home Secretaries, Service Chiefs and others
- **National Security Advisory Board (NSAB)**: long-term analysis and perspective
- **Joint Intelligence Committee (JIC)**: assesses inputs from various intelligence agencies

MEMBERS (AS PER SLIDE)

- Prime Minister (chair)
- Home, Defence, Finance, External Affairs Ministers
- NSA (Secretary to the Council)
- Permanent invitees

MY NOTES

NSCS AND NSA

NSC SECRETARIAT (NSCS)

- Provides **analysis and coordination**
- Follows up decisions
- Headed by **NSA**
- Interface with **R&amp**
- **AW, IB, NTRO**
- **No decision-making authority**

FUNCTIONS OF NSA

- **Principal adviser** to the PM on national security
- **Leads national response** to a security crisis
- **Inter-ministerial coordination**
- Supervises nuclear command and control architecture (slide)
- Supported by **Deputy NSAs**, Military Adviser, **National Maritime Security Coordinator**

INDIAN COAST GUARD

ICG

- **Coast Guard Act, 1978**
- Coastal **surveillance and patrol**
- Anti-poaching
- Anti-smuggling
- **Search and rescue** (Maritime Rescue Coordination Centres)
- **Operation Sajag** (coastal security drill with stakeholders)
- Pollution response
- Fleet modernisation
- **Coastal Surveillance Network** and interagency coordination (see Maritime Security chapter)

> **VALUE ADDITION**
> **Key weakness to write:** NSC advises only; no statutory basis; coordination depends on the PM and NSA. General knowledge, verify before using.

MY NOTES

> **CURRENT AFFAIRS**
> **Recent context (slide):** Government appointed an **Additional NSA** to the NSCS. Verify the name and date before using.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

NSC set up on whose recommendation?	K C Pant Task Force
Chair?	Prime Minister

Three tiers?	SPG, NSAB, JIC
Coast Guard Act year?	1978

MY NOTES

CHAPTER 17 · HANDOUT (MISC) P.13-30

17 Defence Reforms: Modernisation, Agnipath, Navy, Exports

MEDIUM PRIORITY Mains PYQs quoted: **Linked to Doctrine, Agnipath debates**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Reforms push **jointness, indigenisation and younger, skilled forces**.
- **Agnipath** and **defence exports** are the headline changes.

Key term	In plain words
Monopsony	Market with a single buyer (here the armed forces).
IDDM	Indigenously Designed, Developed and Manufactured: top procurement category.

NOTE

Defence modernisation = upgrading military capability through new weapons (imported or indigenous), **new doctrines, organisational structures, manpower management and training regimes**. Areas: combat capabilities; procedures, structures and systems (arms acquisition: speed, transparency; higher defence structure; ITC; Agnipath).

AGNIPATH SCHEME (2022)

QUOTE

"Agnipath is also a potential game-changer because it will help collapse the walls of granite between... the civil and military domains." — ***Lt Gen Raj Shukla***

Feature	Detail
Model	**4-year** recruitment (incl. 6 months training), below officer rank; **17.5-21 years**
After 4 years	**25%** absorbed for 15 more years; **75%** leave with **Seva Nidhi** (30% of salary) ≈ **₹11.71 lakh**; no pension or gratuity
Certification	AICTE, NSDC, NCVET; CAPF/Assam Rifles pathways
Ex-Agniveer 2026	**50% reservation** in CAPF/AR constables; 3 yr age relaxation (5 for first batch); exempt from PST, PET, written; dedicated MHA wing

MY NOTES

OBJECTIVES

- **Financial efficiency**: pay + pension take 50-55% of defence budget, modernisation only 3-4%
- **Youthful forces**: lower average age from 32
- **Tech-skilled**: AR/VR, simulation, AI training
- **Nation-building**: discipline, patriotism

POSITIVES

- Younger, future-ready force
- Saves pension
- Youth employment
- Skilled workforce
- Border-area workforce
- Inspired by 1960s-70s colour service
- Parallels USA, Israel, South Korea
- Shift from "womb to tomb" model

CONCERNS

- **No pilot** testing
- Dilution of military ethos
- Morale
- PTSD and reintegration
- Unclear re-enlistment
- No pension, no CSD canteen
- 60,000 PBOR retire yearly (vacancies)

WAY AHEAD

- Holistic skill empowerment (corporates, startups, NITI Aayog)
- Inter-ministerial effort (Skill, Education, Labour)
- Talent pipeline
- Combat effectiveness balance
- Absorb in civil/administrative roles
- Continuous evaluation

INDIAN NAVY MODERNISATION

NAVY

- **Atmanirbhar by 2047** (Adm. R. Hari Kumar)
- Greater jointness
- **New ensign** (INS Vikrant, Kochi) based on **Shivaji's octagonal seal**
- **INS Shivaji** (Lonavla)
- **INS Angre** (Kanhoji Angre, Mumbai)

MY NOTES

- Shivaji:
  - **"Jalameva yasya, balameva tasya"**
  - Marathas strong in **littoral** waters

DEFENCE EXPORTS & INDIGENISATION

EFFORTS

- **Positive Indigenisation Lists** (411 items services; 10 lists, 5,521 items DPSUs)
- **75%** of capital acquisition budget for Indian firms
- **IDDM** priority (DAP 2020)
- Simplified licensing
- **SRIJAN** portal
- **Defence Industrial Corridors** (UP, TN)
- **Mission DefSpace**
- Lines of credit, Exim, offset
- **MEA and embassies** promote

CHALLENGES

- **Distorted market**: monopsony (armed forces sole buyer), DPSU supply monopoly, orders in dozens-hundreds
- **Lack of cohesion** among stakeholders
- No single-point agency
- **Ad-hoc policy** (DPEPP 2020 needs sustained focus)
- **DPSU-private asymmetry**

RECOMMENDATIONS

- Widen **whole-of-government** approach
- **Defence Export Promotion Agency (DEPA)** under PMO
- Focus on **high-value platforms**: Tejas, BrahMos, Pinaka, Akash
- Use export revenue for DPSU R&amp
- D
- **Avoid autarkic** production

MY NOTES

CURRENT AFFAIRS

Data: defence production FY2025-26 **₹1.78 lakh cr** (+15.6%; PSU 76%, private 24%). **Exports ₹38,424 cr** (+62.66% from ₹23,622 cr). 2015-19 India 2nd largest importer; now top-25 exporter. Exports to US >50% (>$2.8 bn in 5 years). **iDEX:** 676 startups/MSMEs, 551 contracts; **ADITI** ₹750 cr. FDI: 74% automatic, 100% government route; ₹6,670.59 cr cumulative.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Agnipath age and tenure?	17.5-21; 4 years
Seva Nidhi comes from?	30% of salary
Defence exports FY26?	₹38,424 cr
Ex-Agniveer CAPF reservation?	50%

CHAPTER 18 · HANDOUT (MISC) P.31-38

18 Integrated Theatre Command and CDS

HIGH PRIORITY Mains PYQs quoted: **Higher defence reforms**

Prelims PYQs: **none quoted in the material**

> IN SIMPLE WORDS
>
> - **CDS and DMA (2020)** started jointness
> - **theatre commands** still pending
> - Critics: build **jointness and doctrine first**, pilot one theatre.

Key term	In plain words
Theatre command	Single commander controls army, navy, air assets for one geographic region.
Purple officer	Officer with experience across all three services.

ROAD TO JOINTNESS

- **1949 Joint Services Wing / NDA (1955) → Kargil 1999: poor coordination → 2000 GoM / 2001 report: CDS → 2011-12 Naresh Chandra: permanent chairman COSC → 2016 Shekatkar: 3 theatre commands → 2020 first CDS + DMA → 2023 Inter-Services Organisations Act**

EARLY TRI-SERVICE INSTITUTIONS

- Joint Services Wing (Dehradun 1949)
- **NDA** (inaugurated 1955)
- DSSC Wellington
- NDC Delhi — but operational jointness limited

COMMANDS TODAY

- **Unified:**
  - Andaman &amp
  - Nicobar Command (2001, theatre) · **Strategic Forces Command** (2003, functional)
- **17 single-service commands:** Army 7 · Air Force 7 · Navy 3
- **Air Defence Command** (2020 idea) — **not operationalised** (June 2023): IAF says air defence and offence are interdependent
- Specialised:
  - **Defence Cyber Agency** (could become Information Warfare Command), **AFSOD**, Defence Space Agency

MY NOTES

- Proposed Logistics, Training and Doctrinal commands

CHIEF OF DEFENCE STAFF

EVOLUTION

- Post-1947: **Chiefs of Staff Committee** (triumvirate, Chairman-COSC = title only)
- **Kargil 1999 → GoM 2000 → 2001 report**:
  - CDS (deferred)
  - **Naresh Chandra 2011-12**: CDS as **permanent chairman COSC** compromise
  - Both urged integrating HQs with MoD, cross-staffing

ABOUT CDS

- **Four-star**, pay equal to service chiefs
- **No command** over chiefs
- **Primus inter pares**
- Precedence **12th**
- **Permanent Chairman COSC** · **Principal Military Adviser** to Defence Minister · **Secretary, Department of Military Affairs (DMA)**
- Command over **DCyA, DSA, AFSOD** via Integrated Defence Staff
- Promotes jointness in procurement, training, staffing
- Equivalents: Pakistan CJCSC · UK CDS · US CJCS

ISSUES

- No operational command
- Limited political involvement in planning
- DMA reduced civilian oversight (promotions, postings)
- Defence Secretary role diluted

WAY FORWARD

- Define CDS operational role vs chiefs' administrative duties
- **Vice CDS**
- Empower command over theatres
- Professional independence
- Continuous evaluation

ISSUES WITH THEATRE COMMANDS

ISSUES

- **Lack of true jointness** (training, operations, planning)
- Successes by good fortune
- **Premature push**

MY NOTES

CURRENT AFFAIRS

Inter-Services Organisations (Command, Control and Discipline) Act 2023: enabling law; Centre can constitute inter-service organisations; **Commander-in-Chief / Officer-in-Command** has disciplinary powers over all personnel irrespective of service; existing Service Acts unchanged; Centre can issue directions.

- Separate land/maritime/air-defence proposal makes one service dominant
- Service-specific war plans
- **Air power** contested (IAF proprietary view)
- **Rotational leadership** debate
- Need **National Security Doctrine** before theatrisation

WAY FORWARD

- **Jointness first**
- **Pilot one theatre** (northern: Kargil, Ladakh)
- Develop **"purple" personnel** with multi-service experience
- **Joint war-fighting doctrine**
- Learn from global examples

> **VALUE ADDITION**
> **Shekatkar Committee (Dec 2016)** under Manohar Parrikar's MoD recommended three integrated theatre commands.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

First CDS year?	2020
Which committee proposed 3 theatre commands?	Shekatkar 2016
Air Defence Command status?	Not operationalised (June 2023)
CDS ranks?	12th in precedence; four-star; primus inter pares

19 Mission Sudarshan Chakra

CHAPTER 19 · HANDOUT (MERGED)

MEDIUM PRIORITY

Mains PYQs quoted: **Air defence, Operation Sindoor, indigenisation**

Prelims PYQs: **none quoted in the material**

> **IN SIMPLE WORDS**
>
> - **Sudarshan Chakra** = indigenous layered air-defence shield by **2035**.
> - Defends and can **retaliate**.

Key term	In plain words
IACCS	Integrated Air Command and Control System of the IAF.
BMD	Ballistic Missile Defence.

> **NOTE**
>
> **Announced** in the PM's **Independence Day 2025** address: **10-year mission, shield by 2035**. Name from Krishna's Sudarshan Chakra: **protection and precise retaliation**.

CORE OBJECTIVE

- Indigenous **multi-level air and missile defence**
- **Neutralise attacks and counter-punch**
- Protect **military, strategic and civilian** assets and public places
- Work across **air, land and sea**

KEY FEATURES

FEATURES

- **Indigenous** R&amp
- D and manufacture (Aug 2025 DRDO integrated air-defence test hit **3 targets together**, called first step by Raksha Mantri)
- **Multi-layered**: different ranges and altitudes
- **Defence and offence**
- **Networked architecture** (sensors, radars, command centres, weapons)
- **Foundation:** IACCS, Akashteer, BMD, S-400, Akash, BrahMos
- **Cyber and space layer**, EW, AI decision support
- Adds **maritime and land** layers to air defence

MY NOTES

WHY IT MATTERS

REASONS

- **Changing warfare**: drones, missiles, hypersonics, cyber, EW
- **Operation Sindoor** showed strength and need for wider shield
- **Two-front** challenge (China, Pakistan)
- **Civilian security**: cities, hospitals, railways
- **Strategic autonomy**
- **Deterrence**

CHALLENGES

- Meeting the **2035** deadline
- Integrating Army, Navy, Air Force, space, cyber, civil networks
- **Production at scale**, not just tests
- Cyber and data-manipulation risk
- Enough indigenous sensors, interceptors, radars, **directed-energy** systems
- Balance automation and **human decision**

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Announced when and by whom?	PM, Independence Day 2025
Target year?	2035
Existing systems it builds on?	IACCS, Akashteer, BMD, S-400, Akash, BrahMos

MY NOTES

CURRENT AFFAIRS
Link: Defence Reforms (jointness), Atmanirbhar Bharat, Grey Zone (drones and missiles), Smart Border (counter-drone).

20 Grey Zone and Hybrid Warfare

CHAPTER 20 · HANDOUT (MISC) P.1-12

HIGH PRIORITY

Mains PYQs quoted: **Theme in NSD, theatre command, China-Pakistan answers**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- **Grey zone** = hostility below the threshold of war
- **hybrid** = conventional + irregular
- India needs a **whole-of-nation** response to China and Pakistan.

Key term	In plain words
Salami slicing	Taking small steps that individually do not trigger war but add up to big territorial change.
Lawfare	Using legal claims as a weapon (China's Three Warfares).

NOTE

Grey Zone (US DoD) = strategic space between **peace and total war**; actors use all authority to reach politico-military goals beyond peaceful limits while staying **below all-out overt confrontation**. Tools: **nefarious economic practices, influence operations, cyberattacks, mercenaries, assassinations, disinformation, debt traps, sanctions**.

WHY IT HAPPENS

- **Technology** + high cost and risk of conventional conflict in nuclear era → covert aggression with **obfuscated attribution**
- **Strategic advantage** over conventionally stronger adversary
- **Perpetual conflict** wears down adversary
- Boundaries of acceptable action expand → risk of inadvertent escalation

SIX GENERATIONS OF WARFARE

GENERATIONS

- **1G Direct, personal weapons → 2G Massed firepower, trenches (WWI) → 3G Speed and manoeuvre, tanks → 4G Blurred war/ politics, asymmetric, terror, cyber → 5G Non-kinetic: misinformation, AI, perception → 6G Cognitive: minds, ideology, proxies**

MEMORY AID · DFMANC

"**D**on't **F**ight **M**en — **A**ttack **N**arratives, **C**ontrol minds": Direct · Firepower · Manoeuvre · Asymmetric · Non-kinetic · Cognitive (in order)

GREY ZONE VS CONVENTIONAL VS HYBRID

Aspect	Grey zone	Conventional / Hybrid
Provocation	Baits other side to escalate; then claims **self-defence**	Conventional: declared hostilities
Territory	**Normalises** claims by repeated presence (**salami slicing**)	Clear military victory and occupation
Escalation	Escalates in **many dimensions**	Usually one dimension
Operations	**Covert**, non-military pressure	Overt combat
Level	Tactical, operational, **strategic**; protracted	Hybrid: tactical + operational; with conventional ops
Aim	Global/regional **revisionist**	Concept is operational/tactical
Symmetry	Symmetric and asymmetric	Mainly asymmetric

GREY ZONE DURING CONVENTIONAL WAR

- **DIME** (diplomacy, information, military, economy) over protracted period
- May spiral into full war — e.g. **2001 standoff, Operation Parakram** after Parliament attack
- Extension of **non-contact warfare** (cyber, space, information, diplomatic, economic)
- India: **"two and a half front"** — half front fought in grey zone

CHARACTERISTICS OF GREY ZONE

SEVEN FEATURES

- **Level of aggression**: just short of triggers
- **Protracted**: gradual (Chinese **salami slicing**; Pakistan's terror in the valley)
- **Non-attributability**: deniability via cyber, disinformation, non-state actors
- **Historical and legal claims**:
  - China in South China Sea, Indo-China border
  - Pakistan in Kashmir
- **Policy of denial**: stop short of vital concerns (China's fishing boats)
- **Remain below threshold**: Pakistan's TNW threat, China in **Galwan**

MY NOTES

- **All-out non-military efforts** and **target fault lines** (polarisation, ethnic and communal divides)

DO AUTOCRACIES FARE BETTER?

- **Centralised** whole-of-state marshalling
- **Democracies vulnerable**: fragmented, slow
- **Doctrine integration** (Russia, China)
- **Not bound** by rules-based order

COUNTERING GREY ZONE

> **VALUE ADDITION**
> "No proxy war or insurgency has been defeated by military force alone" — **French in Algeria**: tactical wins, strategic loss. India has fought a hybrid war in J&K for decades.

GOVERNMENT & SOCIETY

- **Whole-of-government** approach (common language, interagency options)
- **Remove vulnerabilities** (root causes, grievance redress)
- **Free and open press** (calls out secrecy-based activities)
- **Partnerships** with like-minded states

MILITARY & TECHNOLOGY

- **Bridge technology gap**: AI, drones, big data, space, EW, autonomous, swarm, cyber, bio, quantum
- **Conventional deterrence**
- **Doctrine and training**
- **Combined arms** → joint theatre command to brigade level
- **Information operations** (cyber, strategic communication)
- **Hybrid capabilities** (Special Forces, agile units, long-range artillery, drones)
- **Military reforms**

> **NOTE**
> **First-mover advantage:** grey-zone gains go to who moves first — Chinese artificial islands would have been easier to contest at the start.

MY NOTES

HYBRID WARFARE

> **NOTE**
> **Hybrid warfare** = conflict combining **conventional forces and irregulars** (guerrillas, insurgents, terrorists), state and non-state, for a common political purpose. Features: **asymmetry · military + non-military mix · weaponised information · psychological and cyber · coercion and intimidation · subversion and espionage · integrated campaigns for surprise · psychological dominance**.

Example	Technique
China "Unrestricted warfare" (late 1990s)	Hacking, viruses, banking subversion, market/currency manipulation, urban terror, media disinformation; **Three Warfares** (psychological, media, legal / lawfare)
Hezbollah 2006 (Israel)	Guerrilla + conventional + strategic communication
Russia, Crimea 2014	Conventional + political protests, economic coercion, cyber, disinformation

INDIA'S CASE: CHINA

CHINA'S HYBRID WAR

- **Territorial aggression** at LAC (coercive gradualism)
- **Economic colonisation**: BRI, debt traps in IOR
- **Cyber and information** (Three Warfares)
- Economic-diplomatic pressure
- Collusion with Pakistan
- **Maritime**: Malacca vulnerability vs India's ability to block sea lanes
- **Resource security** drives expansion

INDIA'S WAY FORWARD

- **Economic resilience**:
  - Reduce import dependence (electronics, pharma, rare earths)
  - Atmanirbhar
  - ASEAN, EU, US
  - **Blue Dot Network, B3W**
- **Military modernisation**:
  - Joint cyber/EW
  - Air and naval strength
  - Deep-strike specialised units
- **Border infrastructure**: all-weather roads, tunnels, airfields
- **Strategic partnerships** with US, Japan, Israel (AI, quantum, cyber)
- **Maritime security** vs string of pearls
- **Connectivity**: India-Myanmar-Thailand Highway, BBIN

MY NOTES

- **Diplomacy**:
  - CBMs, BRICS, SCO
  - **Soft power**: ISA

INDIA'S CASE: PAKISTAN

PAKISTAN'S HYBRID WAR

- **Proxy**: LeT, JeM, Hizbul
- **Narco-terror and counterfeit currency**
- **Separatism**:
  - Khalistan
  - Indian Mujahideen
- **Cyber and economic sabotage**
- **Intifada-style protests**
- **Strategic depth**
- Indus water security

INDIA'S WAY FORWARD

- **Joint military planning**: covert ops, drone strikes, limited wars
- **Politico-military diplomacy**:
  - Isolate
  - Aid conditional on terror crackdown
  - CBMs suspended
- **Economic** measures
- **National Strategic Communications Advisory Committee**
- **Escalation control**: proportionate response under nuclear back-drop

> NOTE
> **Conclusion:** unrestricted grey-zone wars are the commonest form of conflict (India-Pakistan); India needs a **proactive, institutionalised whole-of-nation strategy** with synergy of political, military, economic and information infrastructure.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Define grey zone (one line)	Space between peace and total war; hostile acts below war threshold
6 generations in order?	Direct, Firepower, Manoeuvre, Asymmetric, Non-kinetic, Cognitive
DIME?	Diplomacy, Information, Military, Economy

Example of salami slicing?	China at LAC / South China Sea
India's "2.5 front"?	China + Pakistan + half front in grey zone

MY NOTES

21 Left Wing Extremism (LWE)

CHAPTER 21 · HANDOUT P.9-27 · CLASS SLIDES 11-18

HIGH PRIORITY Mains PYQs quoted: **2013, 2015, 2018, 2020, 2022, 2025**

Prelims PYQs: **none quoted in the material**

EXAM LENS

Prelims hooks

- **1967** Naxalbari; **1969** CPI (ML), Charu Majumdar; **2004** CPI-Maoist; **2005** Salwa Judum
- **2010 Dantewada:** 76 killed (75 CRPF)
- **FRA:** 4 rights, 4 ha, 75 years, 13 Dec 2005
- **TAC:** 20 members, 3/4 ST; PESA 'indicative'
- **Data:** 1,936 → 234 incidents; 126 → 0 districts; 15,189 km roads

Mains hooks

- Drivers and strategy (asked 2013, 2015, 2018, 2020, 2022, 2025)
- Fifth Schedule, FRA, women, Salwa Judum
- 2026: Naxal Mukt Bharat, two-tier policy, urban Naxalism

A legitimacy gap fed Naxalism; force plus roads, rights and local governance closed it. Relapse prevention is next.

MAINS RADAR · WHAT THE EXAM ASKED AND WHERE TO USE IT

PYQ	Directive and demand	Where in this chapter
2013 · 10	Analyse: impact of non-implementation of the Fifth Schedule (Art. 244)	Fifth Schedule section; Samatha
2015 · 12.5	Discuss: corrective strategies for tribals and farmers facing multiple displacements (Malkangiri, Naxalbari foci)	Drivers: displacement; FRA; SETU model; surrender
2018 · 10	Briefly explain: GoI approach as LWE shows a downward trend	Data; Government approach
2020 · 15	Determinants in Eastern India + strategy for GoI, civil administration, security forces	Drivers; ARC II table
2022 · 15	Naxalism as social, economic, developmental issue: emerging issues + multilayered strategy	2026 framework; ARC II; NAXALISM
2025 · 10	What is LWE, how people are affected, measures to eliminate by 2026	Definition; drivers; schemes; Naxal Mukt Bharat

Pattern: 5 of 6 questions ask for a strategy or measures; causes appear in 2013 and 2020 and are always paired with solutions. Every answer needs a multi-pronged way forward (security + development + rights + governance), and 2025 now asks for status.

MY NOTES

PYQ KEYWORDS TO WATCH FOR WHILE READING (THEY CARRY A RED TAG IN THE NOTES)

Keyword	Asked	Use it in
Fifth Schedule, Art. 244, PESA, TAC	2013	Fifth Schedule section
Displacement, large industries, multiple displacements	2015	Drivers; FRA
Malkangiri, Naxalbari foci, mainstream	2015	SETU model; phases; surrender policy
Government approach, downward trend	2018	Data; Government approach
Determinants, Eastern India	2020	Drivers (PLEDGES)
Civil administration, security forces	2020	ARC II table
Social, economic, developmental issue	2022	Drivers; legitimacy deficit
Emerging issues, multilayered strategy	2022	2026 framework; ARC II; NAXALISM
Eliminate by 2026, affected people	2025	Naxal Mukt Bharat; displacement; women

Answer frame: Define → drivers (social, economic, governance, security) → state response (security, development, rights) → 2026 status → relapse-prevention way forward; open with a quote, close with a ready line.

IN SIMPLE WORDS

- **LWE** began at **Naxalbari** (1967) and thrived where land, forest and governance promises failed.
- The state answered with **force + development + rights**. **Police and public order** stay with States.
- Violence is down 88-90% since 2010
- Handout says **zero affected districts** by Mar-Apr 2026

Key term	In plain words
Political legitimacy deficit	Governance deficit → Naxals gain legitimacy → vicious cycle. Use as the core cause in any 'why' answer.
Circular governance trap	Forest security measures cut local connect, weakening governance, which keeps security risk alive.
Indicative legislation (PESA)	Lays guidelines; works only after State amendments.
Clear, hold, develop	Force wins an area, then development wins the tribal population.
Legacy & Thrust district	No longer affected; support continues to stop relapse.

MY NOTES

Key term	In plain words
Adivasi paradox	Tribals trapped between Maoist threats and police raids.
Structural disintegration	Teacher: from tactical containment to breaking leadership, cadre and support.

WHAT IS LWE?

- **Radical political ideology**:
  - Abolish capitalism, build a socialist or communist order, dismantle existing power structures
  - Uses **bombings, assassinations, armed insurrection**
- **Teacher's keywords:** ✎ write this in every intro fed by **disaffection, disinformation, displacement** → aims at a **protracted people's war**, radical political-economic-social change, overthrow of government.

Quote	By
"Naxalism is not merely a law and order issue... directly related to underdevelopment... tribal areas are the main battleground."	Dr. Manmohan Singh
"The Constitution intends that the land always should remain with the Tribals."	Samatha judgement
"Naxalism didn't spread because of poverty; poverty spread because of Naxalism."	Home Minister (slide 18)
"Movement is on its last legs."	K. Vijay, MHA Security Advisor

DATA: PEAK TO PRESENT PYQ 2018 · downward trend

- **Districts: 126** (2014) → **0** (Mar-Apr 2026). **38 Legacy & Thrust** districts (13 in Chhattisgarh) kept under support to prevent relapse.
- **Violent incidents:**
  - **1,936** (2010) → **234** (2025), −88%
  - **870** in 2014
- **Deaths (civilians + SF):**
  - **1,005** (2010) → **100** (2025), −90%
  - **310** in 2014
- **Police stations reporting violence:** **465** (2010) → **119** (2025).

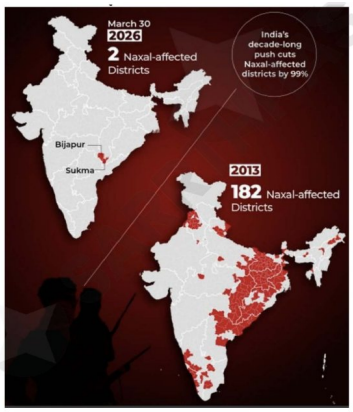

Figure. Affected districts: 182 (2013) to 2 (30 Mar 2026: Bijapur, Sukma). Handout p.10

- **2025: 364** neutralised, **1,022** arrested, **2,337** surrendered. **3,927** surrendered 2024-Mar 2026.
- **Shift:** from expanding "Red Corridor" to **consolidating LWE-free areas and relapse prevention**.

MY NOTES

CURRENT AFFAIRS

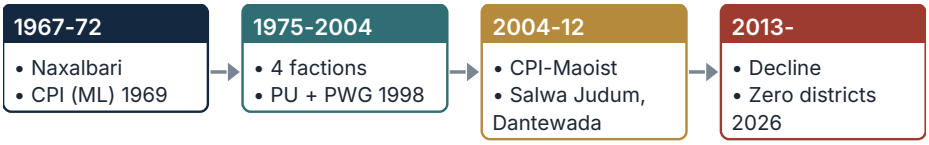

Naxal Mukt Bharat: target 31 Mar 2026 (Centre-State strategy of 24 Aug 2024); declared fulfilled on the date. Handout: no district LWE-affected; 2026 so far: 33 incidents, 11 deaths (to 29 Jul).

HANDOUT ALERT

Handout map and slide 11 show 2 affected districts (Bijapur, Sukma) on 30 Mar 2026; handout text says zero. Legacy & Thrust: 38 (handout) vs 37 + 1 District of Concern, West Singhbhum (slide 17). Women in cadre: 35-40% (handout) vs 60% (board). Phase years: handout 1967-72 / 1975-2004 / 2004-12 / 2013-; board 69-73 / 75-04 / 04-13 / 14-. Book uses the handout; check which version your notebook carries.

EVOLUTION: FOUR PHASES

FOUR PHASES

Phase	Key points
1st 1967-72	**Naxalbari** (WB) 1967, also Bihar, Srikakulam (AP) → **CPI (ML) 1969, Charu Majumdar**. Crushed by 1972 (United Front govt + Indira Gandhi's govt).
2nd 1975-2004	Factionalised in **Emergency**. Four groups: **MCC, PWG, PU, CPI-ML (Liberation)** (Liberation contested elections). **1998:** PU + PWG → CPI-ML (People's War). Bihar caste war: Dalits (MCC) vs Ranvir Sena, Sunlight Sena.
3rd 2004-12	**2004:** PU + MCC + PWG → **CPI-Maoist**, unified command. **Salwa Judum** 2005-09; **Operation Green Hunt** 2009-12. **2010 Dantewada:** 76 killed (75 CRPF), Green Hunt stalled.
4th 2013-	Violence below 1990s average. Reasons: **Integrated Action Plan**, roads, police stations, NREGA; Maoist **tactical retreat**.

DRIVERS OF NAXALISM (EXPERT GROUP, PLANNING COMMISSION AND ARC II)

PYQ 2020 · determinants PYQ 2022 · social-economic-developmental

MEMORY AID · DRIVERS (7 GROUPS)

P L E D G E S

Unkept state PLEDGES (land, forests, governance) gave Maoists their opening.

- **P** Police and state repression
- **L** Land and agrarian
- **E** Economic and social
- **D** Displacement
- **G** Governance
- **E** Empowerment (psychological)
- **S** Social exclusion, alienation

MY NOTES

Group	Key points
Social-economic	Land rights, no jobs, discrimination; **cash-credit shortage → moneylenders**; Dalit-tribal exploitation, forced labour, untouchability. Livelihood: **PDS corruption**, lost traditional occupations and common-property rights, **Minimum Wages Act** not applied (Naxals enforce wages).
Land and agrarian	**Land reforms failed** (ceilings evaded, special tenures exempt). Encroached government/community land (even water bodies); no title for landless; tribal-to-non-tribal transfer in Fifth Schedule areas; **LARR 2013** not implemented. Bihar: Naxals helped **Musahars** take land.
Displacement PYQ 2015	**FCA 1980** kept forest dwellers near eviction. **40% of displaced** are tribal evictees; irrigation and power projects without rehabilitation; acquisition for 'public purpose' without compensation.
Governance	**73rd Amendment** unfulfilled; absent staff, poor health and schools; police misuse; **circular governance trap** (forest security → less local connect → more insecurity). No rural dispute resolution → Naxal **People's Courts**.
Police and state repression	Arbitrary police action, forest-staff harassment, brutal suppression; **TADA/POTA** on tribals leave land fallow, Naxals encroach.
Social exclusion and cultural alienation	Denial of dignity; atrocities, civil-rights and bonded-labour laws poorly enforced (**Karimnagar 1980** forced-labour violence); alienation from land and culture.
Psychological empowerment	Youth gain power and identity by challenging traditional power holders.

TEACHER STRESSED (SLIDE 12)

Governance deficit → Naxals gain legitimacy → vicious cycle.
Keywords: Xaxa (40% tribal victims), land to the tiller, CFR lacking, SC/ST Act not enforced, judicial alienation.

COUNTER-LWE SCHEMES PYQ 2018 · GoI approach PYQ 2025 · measures

Category	Schemes
Physical infrastructure	Special Infrastructure Scheme (fortified police stations, to 2026); LWE Mobile Tower Project and USOF; **NETRA** micro-UAVs (CRPF); GIS mapping; rail in Bastar; **15,189 km** roads (Road Requirement Plan / Road Connectivity Project; teacher: RRP-II).
Institutional	**SRE Scheme**; **Unified Command** (Chhattisgarh, Jharkhand, Odisha, West Bengal); **SCA** for 30 most-affected districts; **Civic Action Programme**; Multi Agency Centre (State MACs: Jagdalpur, Gaya); India Reserve Battalions.
Social	NYKS tribal youth exchange; **Roshni**; Livelihood Colleges; **179 Eklavya schools**; PM Janjatiya Unnat Gram Yojana; **PM PVTG Mission**; GOAL; ABP Sampoornata Abhiyan.

MY NOTES

Category	Schemes
Financial	Financial inclusion: **6,000+ post offices** with banking (slide 13).
Other	**Aspirational Districts** (35 LWE districts, MHA monitors); Rubber cultivation (AP); **Godavarman case** (no dereservation without SC); **National Policy and Action Plan 2015**.

- **Forces and operations (slide 14):**
  - **COBRA, Black Panther, Bastariya Battalion, C-60 (Gadchiroli), Greyhounds (AP)**
  - STRACO (WB)
  - Op Octopus (Bihar-Jharkhand), Op Double Bull and Op Anaconda (Jharkhand), Op Black Forest (Chhattisgarh-Telangana). Balaghat: State police + CRPF + Hawk Force. **NSG** first deployed in Gadchiroli
- **Case studies:**
  - **Niyad Nellanar Yojana** (Chhattisgarh, 'your good village': amenities to Bastar villages)
  - **Mission Gramodaya** (Odisha, 453 villages)
  - **Elwad Panchayat Abhiyan** (incentives for 'Maoism-free' panchayats; rupee figure unclear on slide)

> **SAMADHAN (SLIDE 13)**
> Eight pillars: **S**mart leadership, **A**ggressive strategy, **M**otivation and training, **A**ctionable intelligence, **D**ashboard KPIs, **H**arness technology, **A**ction plan per theatre, **N**o access to financing.

SURRENDER POLICY PYQ 2015 · mainstream

- Part of multi-pronged strategy
- Paired with firm police action. Aim: gainful employment so cadres do not return
- **Benefits:**
  - **₹5 lakh** (higher cadres), **₹2.5 lakh** (others), weapon incentives, **₹10,000/month for 3 years** training. Data: 2,337 (2025)
  - 3,927 (2024-Mar 2026)

GOVERNMENT APPROACH AND ARC II STRATEGY PYQ 2018 · approach

PYQ 2020 · GoI, administration, forces PYQ 2022 · multilayered strategy

- **Seventh Schedule:**
  - **Police and Public order = State subjects**
  - Centre supplements. **National Policy and Action Plan**: security + development + rights and entitlements
- **Security front:** CAPF battalions, training, State police modernisation, intelligence, fortified police stations. **Development front:** roads, telecom, skill, financial inclusion.

MY NOTES

CURRENT AFFAIRS
Post-Naxalism governance (slide 17): Shaheed Veer Gunda Dhur Seva Dera (70 ex-CAPF camps → Jan Seva Kendras); Education Cities (₹100 cr each); 3 medical colleges (₹50 cr); Bastar Olympics, Bastar Pandum; PM-JANMAN, DAJGUA; 46 ITIs, 49 skill centres.

- **Three-pronged:** (1) necessary force, (2) address grievances via infrastructure, (3) political demands with fixed timelines. **Low-key (North-East)** over Sri Lanka's 'hammer and tongs' vs LTTE. **Clear, hold and develop.**

ARC II capacity building	Key points
Security forces	Temporary development role where agencies cannot work (WB: police kept schools running); **SOPs** within constitutional bounds; special task forces like **Greyhounds**.
Administration	Strengthen field formations; **Oversight Committee for FRA 2006** (tribals, conservationists, committed individuals).
Personnel	Train at **LBS National Academy**; reimburse States for incentives to serve in difficult areas; revive **inspections**.
Local bodies	Implement **PESA 1996** to close governance deficit.
Civil society	Bridge between extremists and government; educate on futility of violence; ventilate grievances legally.
Cut finances	**BRO** or government agencies build roads directly; anti-extortion and economic offences wing.

WAY FORWARD (ARC II AND MHA)

HANDOUT'S OWN MNEMONIC · WAY FORWARD (ARC II)

N A X A L I S M

Eight fixes.

N Negotiations for conflict resolution
A Administrative monitoring (revive inspections, secure officers on tour)
X eXtend legal frameworks (FRA oversight committees)
A Augment security forces (SOPs)
L Learning and sensitisation of police
I Implementation monitoring (PESA, MoPR)
S Strengthen local police (local recruits)
M Maximise infrastructure security (BRO)

- Keyword:
  - **NAXALISM**. Add **teacher's keywords:** ✎ tactical → structural from tactical containment to structural disintegration (leadership, cadre, support)
  - **3C** = road, mobile, financial connectivity
  - Dual approach = peace through inclusion plus **no-holds-barred** against violence
- **Conclusion (Expert Group):** the State owed these rights even if Naxalites did not exist.

MY NOTES

CASE STUDY: SALWA JUDUM (2005, CHHATTISGARH)

- 'Peace March / Purification Hunt' (Gondi)
- State-backed vigilantes, successor to **Jan Jagran Abhiyan (1991)**
- Mining ties (Tata, Essar). **SPOs / Koya Commandos** by 2008
- Many ex-Maoists
- **Impact:**
  - **600+ villages** burned, ~**300,000** displaced, **98 SPOs** and up to **800** killed
  - **Darbha Ghat** massacre
- **Nandini Sundar v. State of Chhattisgarh:**
  - (1) **excessive delegation** in Chhattisgarh Police Act 2007
  - (2) SPOs in **combat roles** with **25 h law + 12 h Constitution** training
  - (3) honorarium only → **Article 14**
  - Endangered lives → **Article 21**

> **HANDOUT ALERT**
> Naxalbari and Pavagada case study is images only in the handout, to be explained in class; no class notes provided. Check your notebook.

FIFTH SCHEDULE: NON-IMPLEMENTATION PYQ 2013 · Art. 244, Fifth Schedule

- **PESA is 'indicative'** (ARC II):
  - Works only if States amend Panchayati Raj Acts
  - Implementation **unsatisfactory**

Dimension	Provision
Administration of Scheduled Areas	President declares area after consulting Governor; Governor regulates **land transfer, land allotment, money-lending** for STs.
Tribes Advisory Council	Up to **20 members, three-fourths ST**; advises on welfare.
Special provisions	Governor can bar or modify any Act in Scheduled Areas; repeal or amend laws.
Reports to the President	Governor reports annually; Union ensures implementation.

MY NOTES

MEMORY AID · FIFTH SCHEDULE DIMENSIONS

S T A R

The guiding STAR of tribal governance.

- **S** Special provisions
- **T** Tribes Advisory Council
- **A** Administration of Scheduled Areas
- **R** Reports to the President

- **Failures:**
  - Some tribal-majority areas lack Fifth Schedule status
  - Laws extended in routine, community governance lost legitimacy
  - Governor's office lacks capacity
- **Land alienation:**
  - MP Land Regulation rules **1959** allow transfer to non-tribals
  - Chhattisgarh permits acquisition on small loan default
  - Rajasthan: district administration can overturn Gram Sabha
- **Reports to President:**
  - Casual and irregular (Mungekar)
  - AP and MP sent none from 1999-2000, Maharashtra and Orissa from 2000-01 (Bhuria, 2002-04). **TAC:** tokenistic
  - No TAC discussed land alienation 2005-2011
- **Mungekar:**
  - 'particularisation, not generalisation
  - Discretion, not rule by rote'. **Samatha:** Schedules exist to stop exploitation
  - Land stays with tribals. **Failure creates a governance vacuum the Maoists fill.**

TEACHER STRESSED (SLIDE 15)

Quote **Mungekar** and **Xaxa** reports (boxed in red). Governor: lack of capacity; TAC: tokenistic; laws: routine application; reports: casual.

WOMEN IN THE RED CORRIDOR

- **Appeal:** large share of cadres, all-women squads (**KAMS**) fighting forced marriage, abduction, bigamy, domestic violence, police brutality. NCRB 2019: **84,938** crimes in AP, Chhattisgarh, Jharkhand, MP, Odisha. SC/ST women bear gender-caste-class burden.
- **Problems:**
  - **35-40%** of members but **1 of 20** in central committee
  - No menstrual leave or hygiene
  - Anaemia
  - Forced vasectomy and abortions

MY NOTES

CURRENT AFFAIRS

PESA status (Mar 2026): Fifth Schedule areas in 10 States; 9 have framed PESA Rules, Odisha only draft; MoPR has 10 PESA indicators; Jharkhand PESA Rules 2025 listed.

- Sexual exploitation

- **Way forward:**
  - Gender-sensitive alternatives to cadre life
  - Rework hard-power responses
  - **Diminish motivations, don't demean them**

FOREST POLICY AND THE FOREST RIGHTS ACT

PYQ 2015 · displacement of tribals

MEMORY AID · FOUR FRA RIGHTS

T U R F

Who holds the TURF.

T	Title (max 4 ha)
U	Use (MFP, grazing)
R	Relief and development
F	Forest management

- **Teacher:** historical injustice (British 1865-1894, IFA 1927, FCA 1980) → course correction (BK Roy Burman, FRA).
- **FRA 2006 (FDST + OTFD):**
  - **4 rights**: title (max **4 ha**, land already cultivated), use (MFP, grazing, routes), relief and development, forest management. OTFD: **3 generations (75 yrs)** before **13 Dec 2005**. **Gram Sabha** initiates
  - **Gram Sabha → SDM Committee → District Committee**. Free informed consent for National Parks and Sanctuaries

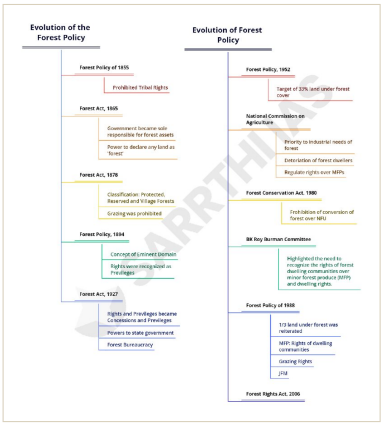

Figure. Forest policy: 1855, Acts of 1865, 1878, 1927 (rights as concessions) → 1952 policy, FCA 1980, Roy Burman Committee, 1988 policy (JFM), FRA 2006. Handout p.25

FRA issues	Detail
Policy gaps	Vague terms ('primarily resides', 'bonafide livelihood'); PVTG position; **FCR 2022** need no Gram Sabha consent at preliminary approval; **2,400 sq km** diverted under FCA.
Implementation	Forest Dept resists **CFR** (Sarguja: 27 CFR titles not recognised); only **40%** claims accepted (MoTA, teacher).
Rejections	Wrong OTFD reading, no GPS proof, disputed 'orange areas' (Chhattisgarh); Xaxa: not communicated, no appeal explained, documents demanded despite oral evidence.

MY NOTES

FRA issues	Detail
Violations	Eviction before verification (Thane); flawed Forest Rights Committees; women named in **<10%** documents (UN Women 2012).

- **Teacher's Gadchiroli triangle:** infrastructure development vs recognition of CFR vs rehabilitation of surrendered Naxals.

2026 FRAMEWORK, EMERGING ISSUES AND VALUE ADDITION

PYQ 2022 · emerging issues PYQ 2025 · eliminate by 2026

- **Two-tier policy: Legacy & Thrust** (insurgency ended, consolidate) and **District of Concern** (network dismantled, targeted work).
- **Emerging challenges:**
  - **Adivasi Paradox** (between Maoists and police raids)
  - **Urban Naxalism**
  - **Dissent vs terrorism** (UAPA vs Jal-Jangal-Zameen activists)
  - **Development trap** in mineral lands
  - Weak grassroots institutions
- **Way forward (slide):**
  - Conflict transformation (**PMRDF**, fast-track undertrials)
  - **Gram Sabha controls MFP** via Van Dhan Vikas Kendras
  - Odisha **SETU model** (Malkangiri) PYQ 2015 · Malkangiri
  - Local police replace CAPF (like **Greyhounds**)
- **Keywords:**
  - ✎ slide 18 soft-power approach
  - Maoism survives in security vacuums
  - **Political legitimacy deficit**
  - Radicalisation pathways
  - Insurgency as development failure
  - **Ideological anachronism** (1920s Marxism)
  - **Penetration-integration gap**

PYQ SKELETONS (MAINS, SIX ASKED)

Year · marks	Skeleton: intro → body → close
2013 · 10 Fifth Schedule non-implementation	Art. 244 + PESA 'indicative' → land alienation, tokenistic TAC, casual Governor reports, governance vacuum → **Samatha**.
2015 · 12.5 displacement, corrective strategy	Eviction = 40% of displaced → FRA/CFR, PESA, **clear-hold-develop**, roads-mobile-finance, surrender policy, SETU → State owes rights.
2018 · 10 GoI approach	Police and public order are State subjects → **National Policy 2015**, security + development + rights, schemes → three-pronged.

MY NOTES

CURRENT AFFAIRS

Urban Naxalism and law: PM: 'vanishing from jungles but taking roots in urban centres'. 4 LWE special courts in Chhattisgarh. Maharashtra Special Public Security Bill 2024: vague 'unlawful activity', no legal vetting, no due process on seizure. **Bastar:** most developed tribal division by Dec 2030 (Kanker, Kondagaon, Bastar, Sukma, Bijapur, Dantewada, Narayanpur).

Year · marks	Skeleton: intro → body → close
2020 · 15 determinants and strategy	Drivers (PLEDGES) → roles of GoI, administration, forces (SOPs, Greyhounds, FRA committee) → legitimacy.
2022 · 15 emerging issues, multilayered strategy	Not merely law and order → urban Naxalism, Adivasi paradox, dissent vs terror → ARC II six layers + NAXALISM.
2025 · 10 LWE, affected people, measures	Definition → displacement, forest rights, women, Salwa Judum → Naxal Mukt Bharat measures, surrender, SAMADHAN, 2026 status.

MY NOTES

ANSWER BANK · VALUE ADDITION FOR WRITING

Left Wing Extremism (LWE): write-in sheet

QUOTES *use in intro or conclusion*

We must, however, recognize that naxalism is not merely a law and order issue. In many areas, the phenomenon of naxalism is directly related to underdevelopment.
Dr. Manmohan Singh
Intro: 2022 social-economic-developmental, 2020 determinants

The Constitution intends that the land always should remain with the Tribals.
Samatha case (Supreme Court)
Conclusion: 2013 Fifth Schedule, 2015 displacement

Particularisation, not generalisation; discretion, not rule by rote.
Mungekar Committee
Body: Fifth Schedule, law adapted to each group

Such a responsibility would lie upon the Indian State even if the Naxalites were not there.
Expert Group, Planning Commission
Conclusion: any strategy answer

Naxalism didn't spread because of poverty; rather poverty spread because of Naxalism.
Home Minister
Counter-view, 2025 intro

Those who have taken the path of Naxalism must recognise the power of non-violence.
Prime Minister
Conclusion: surrender, dual approach

Naxalism vanishing from jungles but taking roots in urban centres.
Prime Minister
Emerging issues, 2022

Sashakt, Surakshit, Samriddh Bharat with a ruthless approach to Naxalism and relentless efforts for all pervasive development.
Home Minister
Dual approach, 2025 measures

Movement is on its last legs.
K. Vijay, MHA Security Advisor
Status, 2018 and 2025

KEYWORDS AND PHRASES *teacher's ink first*

Tactical containment → structural disintegration
3C: road, mobile, financial connectivity
Dual approach
No-holds-barred strategy
Vicious cycle
Political legitimacy deficit
Maoism survives in security vacuums
Insurgency as development failure
Ideological anachronism
Penetration-integration gap
Radicalisation pathways
Soft-power approach
Circular governance trap
Adivasi paradox
Development trap
Relapse prevention
Clear, hold and develop
WHAM (hearts and minds)
Jal, Jangal, Zameen
Indicative legislation
Governance vacuum
Diminish motivations, don't demean them

DATA TO QUOTE

Violent incidents	1,936 (2010) → 234 (2025), −88%; 870 in 2014
Deaths (civilians + SF)	1,005 (2010) → 100 (2025), −90%; 310 in 2014
Affected districts	126 (2014) → 0 (Mar-Apr 2026); 182 in 2013; 38 Legacy & Thrust (13 in Chhattisgarh)
Police stations with violence	465 (2010) → 119 (2025)

MY NOTES

2025 operations	364 neutralised, 1,022 arrested, 2,337 surrendered; 3,927 surrendered 2024-Mar 2026
Roads	15,189 km under RRP / Road Connectivity Project; 179 Eklavya schools; 6,000+ post offices with banking
Displacement	40% of those displaced are tribal evictees (Xaxa); 2,400 sq km forest diverted under FCA
Women	35-40% of members, 1 of 20 in central committee; NCRB 2019: 84,938 crimes in five States
Salwa Judum	600+ villages burned; ~300,000 displaced; 98 SPOs and up to 800 killed
Surrender grants	₹5 lakh, ₹2.5 lakh; ₹10,000/month for 3 years

EXAMPLES AND CASE STUDIES

Salwa Judum / Nandini Sundar · Niyad Nellanar Yojana (Chhattisgarh) · Mission Gramodaya (Odisha, 453 villages) · Elwad Panchayat Abhiyan · Odisha SETU model (Malkangiri) · Greyhounds (AP) · Balaghat coordination (State police + CRPF + Hawk Force) · Operation Black Forest · Bastar Olympics, Bastar Pandum · Shaheed Veer Gunda Dhur Seva Dera · Karimnagar 1980 · Bihar Musahars · Sarguja CFR titles · Thane evictions · NSG in Gadchiroli

COMMITTEES, REPORTS AND JUDGEMENTS

Expert Group, Planning Commission · Second ARC · Xaxa Committee · Mungekar Committee · Bhuria Commission (2002-04) · BK Roy Burman Committee · Samatha (SC) · Nandini Sundar v. Chhattisgarh (SC) · T.N. Godavarman (SC) · National Policy and Action Plan 2015 · NCST report to President

READY LINES *writing aids built from the notes*

- **Intro:** LWE shrank from 126 affected districts (2014) to none (Mar-Apr 2026), yet the land, forest and governance gaps that fed it persist.
- **Intro:** Dr. Manmohan Singh called naxalism 'not merely a law and order issue'; it is a legitimacy gap that grew where State promises were unkept.
- **Conclusion:** The State owes these rights even without Naxalites (Expert Group); relapse prevention needs Gram Sabha power, FRA, PESA and local policing.
- **Conclusion:** From tactical containment to structural disintegration: lock in security gains with legitimacy, rights and development.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

1969 CPI (ML) leader?	Charu Majumdar.
2004 merger?	PU + MCC + PWG → CPI-Maoist.
Dantewada 2010?	76 killed: 75 CRPF + 1 State police.
Salwa Judum ban ground?	Nandini Sundar: excessive delegation; SPOs in combat; Arts 14, 21.
FRA title rights cap?	4 hectares of land already cultivated.
TAC strength?	Up to 20; three-fourths ST.
Surrender grants?	₹5 lakh, ₹2.5 lakh, ₹10,000/month for 3 years.
Who holds Police and Public order?	States (Seventh Schedule).

Number trap · Source differences

Affected districts 0 vs 2; Legacy & Thrust 38 vs 37; women 35-40% vs 60%. *Quote the handout and name the source.*

Concept trap · PESA

PESA does not work without State amendments. *Say 'indicative legislation'.*

QUICK QUIZ

Q1. The 1969 CPI (ML) was formed under:

1. Kanu Sanyal
2. Charu Majumdar
3. Mahendra Karma
4. K. Vijay

Q2. Salwa Judum was held unconstitutional in:

1. Samatha case
2. Nandini Sundar v. Chhattisgarh
3. T.N. Godavarman
4. Xaxa Report

Q3. FRA title rights cover a maximum of:

1. 2 ha
2. 4 ha
3. 10 ha
4. no limit

Q4. TAC: three-fourths of up to 20 members are:

1. Governor's nominees
2. ST representatives
3. MPs
4. Gram Sabha heads

Q5. PESA is described by ARC II as:

1. self-executing
2. indicative legislation
3. a Schedule amendment
4. a Governor regulation

Answers: Q1 b, Q2 b, Q3 b, Q4 b, Q5 b

MY NOTES

CHAPTER 22 · HANDOUT (MISC) P.46-48

22 Urban Naxals and MSPC Act 2024

MEDIUM PRIORITY Mains PYQs quoted: **LWE emerging issues (2022)**

Prelims PYQs: **none quoted in the material**

> **IN SIMPLE WORDS**
>
> - MSPC targets **urban front organisations** with a **broader definition** than UAPA.
> - Critique: **vague terms, weaker review, dissent risk**.

Key term	In plain words
Front organisation	Group that appears legal but supports an unlawful organisation.

URBAN NAXALS (AS ALLEGED)

- **Ideological support** to urban middle class, students
- **Logistical support**: funds, shelter, communication
- **Recruitment** of urban youth and intellectuals

MSPC BILL 2024

- **Why:**
  - Naxalism spreading to cities via **front organisations**
  - Existing laws inadequate
  - Similar Acts in Chhattisgarh, Telangana, AP, Odisha (**48 front organisations banned**)
- **Powers:**
  - Declare organisation **unlawful**
  - 4 offences — membership, raising funds, managing/assisting, committing unlawful activity
- **Penalties:**
  - 2-7 years, fine ₹2-5 lakh
  - **Cognizable and non-bailable**
- **"Unlawful activity"**:
  - Threat to public order
  - Interfering with administration of law
  - Overawing public servants
  - Propagating violence
  - **Encouraging disobedience**
  - Using firearms/explosives
  - Disrupting transport

MY NOTES

Aspect	UAPA 1967	MSPC Bill 2024
Confirmation	Tribunal headed by **High Court judge**	**Advisory Board** of 3 (HC judge + retired District Judge + HC Government Pleader)
Threshold	Cession, secession, sovereignty — settled interpretations	**Lower threshold**, broad: any threat to public order

VALUE ADDITION

Value addition: vague "unlawful activity" and an executive-influenced board risk chilling **dissent**; answer with **proportionality** and Art. 19 safeguards.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Penalty range in MSPC?	2-7 years; ₹2-5 lakh
Review body difference?	UAPA Tribunal (HC judge) vs MSPC Advisory Board (3)

23 North East Insurgency

CHAPTER 23 · HANDOUT P.28-40

HIGH PRIORITY Mains PYQs quoted: **2017 (10) · 2025 (15)**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- Insurgency in the NE comes from **secession demands, identity, migration and neglect**.
- Since 2014 violence fell ~64% through **peace accords, packages, SRE and development schemes**.

Key term	In plain words
SoO	Suspension of Operations: insurgents stay in designated camps, security forces pause operations during talks.
Mautam	Bamboo-flowering famine in Mizoram (1959-66).

NOTE

North East Insurgency = the many armed conflicts and movements in the region, rooted in long-standing grievances over **political representation, economic development and cultural preservation**.

Fact	Detail
Borders	About **98%** of NE borders are international
Share	**8%** of India's area, **~4%** of population; **200+** ethnic groups
Trend	Incidents **824 (2014) → 294 (2024)**, −64%; SF deaths −85%, civilian −86%
2025 (to 30 Nov)	143 incidents · 5 civilian · 2 SF deaths
2023-24 rise	Due to **ethnic strife in Manipur**

TYPOLOGY OF CONFLICT

- **Asymmetrical**, ambiguous (friend vs enemy unclear), unconventional (political + psychological means), tends to **wars of attrition**
- Where State fails to give security → **private ethnic militia**
- Army seen as partisan

CAUSES OF INSURGENCY (PYQ 2017)

SECESSION & STATEHOOD

- **Naga** insurgency (peak 1956):
  - **NNC** sought secession
  - Radicals formed **Federal Government of Nagaland** + Naga Army
- **Manipur** merger seen as involuntary
- Nagaland statehood 1963 by violence
- Foreign support from East Pakistan and China

CULTURAL & DEVELOPMENT

- **Assamese made official language 1960** ignoring Mizo → **MNF** (Laldenga, 1966)
- **Refinery Movement** 1956-57 (Barauni, not Assam)
- Uneven industrialisation, limited private investment, poor market access

DEMOGRAPHY & MIGRATION

- **Tripura 1980s**: migrants from East Bengal/Bangladesh pushed Tripuris to hills
- **Assam Movement 1979-85** (AASU, AAGSP) → **Assam Accord 1985**

GOVERNANCE & NEGLECT

- Mizoram:
  - **Mautam famine** — Centre failed to help → militancy
  - Statehood 1987
- **Nido Tania 2014** death → feeling of neglect → **Bezbaruah Committee**

ETHNIC & EXTERNAL

- **Manipur: Kuki vs Meitei**
- **ULFA, NDFB** camps in Bhutan → Royal Bhutan Army **Operation All Clear**

INITIATIVES (PYQ 2025)

SECURITY

- **CAPFs** deployed · **SRE** reimbursement · state police modernisation · **India Reserve Battalions**
- **UAPA 1967**: 16 NE groups unlawful/terrorist
- **SoO/MoS**: tripartite SoO with **UPF + KNO (Manipur)**, 4 Sep 2025, valid to 3 Sep 2026

MY NOTES

- Op **All Clear** (Bhutan) · Op **Sunrise** (Myanmar) · border fencing and regulation

REHABILITATION

- **Surrender-cum-Rehabilitation Scheme**
- **Civic Action Programme**
- Helicopter Subsidy Scheme

Special packages	Amount
Bodo Accord 2020	₹1,500 cr
Karbi Anglong 2021	₹1,000 cr / 5 yrs
Adivasi groups 2022	₹1,000 cr / 5 yrs
DNLA/DPSC 2023	₹1,000 cr / 5 yrs (NC Hills + Dimasa areas)

INFRASTRUCTURE & DEVELOPMENT

- **NLCPR** (10% of GBS to NER) · **NESIDS** · **HADP** (Tamenglong) · **NERSDS** roads
- **PM-DevINE** ₹6,600 cr (48 projects sanctioned) · SIDF · Aspirational Districts
- **Vibrant Villages** I (northern border) and II (other land borders, ₹6,839 cr to 2028-29)

ARC II SOLUTIONS

Area	Key recommendations
Administration	Officers serve outside NE; more incentives; regional training via NEC; regional cadres for technical posts
Police	Upgrade **NEPA**; exchange NE police ↔ CAPFs
Local governance	**Sixth Schedule**: State Finance + Election Commissions for councils; review Meghalaya; amend Para 14; village bodies; codify customary law; Sixth Schedule hills of Manipur
Regional (NEC)	Amend **NEC Act 1971** (conflict resolution); link with MHA; **10-year perspective plan**; NEHU, NEIGRIHMS
Misc	**Act East through NE**: Kaladan Multi-Modal, India-Myanmar-Thailand Highway; rail, banks, land records

RECENT PEACE ACCORDS (PYQ 2025: MAP THEM)

Year	Accord	Key point
2019	**NLFT-SD** (Tripura)	₹100 cr package
2020	**Bru**	6,935 families (37,584 persons) rehabilitated in Tripura, ₹793.65 cr
2020	**Bodo**	₹1,500 cr; 1,615 NDFB cadres surrendered
2021	**Karbi**	1,926 cadres; Assam integrity

MY NOTES

Year	Accord	Key point
2022	**Tribal Peace** (8 groups)	1,182 surrendered (tea-garden workers)
2022	**Assam-Meghalaya** boundary	6 of 12 areas resolved
2023	**Assam-Arunachal** boundary	123 villages, final
2023	**DNLA**	181 cadres; ₹1,000 cr
2023	**UNLF** (Manipur)	First valley-based group to renounce violence
2023	**ULFA**	₹5,000 cr package
2024	**TIPRA**	Land, political rights; Joint Working Group
2024	**NLFT-ATTF**	4 Sep 2024; ₹250 cr
2026	**Eastern Nagaland**	5 Feb 2026; Frontier Nagaland Territorial Authority, 6 districts, 46 subjects

MEMORY AID · RESOLVED

(handout's own) **R**esolution via negotiations · **E**conomic development & empowerment · **S**ecuring international collaboration · **O**pening institutional structure (NE councils) · **L**aw and order (CAPFs, AFSPA) · **V**aluing administrative efficiency · **E**volving strategies for all stakeholders · **D**evelopment-oriented security forces (Civic Action)

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

% of NE borders that are international?	98%
Incidents 2014 → 2024?	824 → 294
Operation by Royal Bhutan Army?	All Clear
Bodo Accord year and package?	2020 · ₹1,500 cr
First valley-based group to renounce violence?	UNLF 2023
RESOLVED — what is "L"?	Law and order

MY NOTES

24 Manipur Conflict

CHAPTER 24 · HANDOUT P.41-47

HIGH PRIORITY Mains PYQs quoted: **Part of NE questions; ethnic conflict**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Manipur: **Meiteis (valley)** vs **Kuki-Zo (hills)** over ST status, land and territory.
- Peace needs **dialogue** + **disarmament** + **decentralisation**.

Key term	In plain words
Article 342	Procedure by which a community is listed as Scheduled Tribe.
ADC	Autonomous District Council: hill bodies with limited powers.

RECENT CONTEXT

WHERE THINGS STAND

- **Free movement:** Sept 2025, Kuki-Zo Council agreed to reopen **NH-02**
- **President's Rule** imposed **13 Feb 2025** (CM resigned)
- Government restored **4 Feb 2026 — Yumnam Khemchand Singh** CM with two Deputy CMs
- **Weapons:**
  - Looted from State armouries
  - Disarmament central to response
- **SoO renewed 4 Sep 2025** (KNO + UPF): territorial integrity reaffirmed, camps relocated and reduced, weapons nearer CAPF camps, stricter verification
- **21 Jul 2026:** 46 cadres of KCP (People's War Group) surrendered

Data source	Number
MHA, Apr 2025	**260 killed**; no fresh deaths in 4 months
IDMC 2024	~**67,000** displaced in 2023 (almost all in South Asia)
MHA relief	₹247.26 cr (2023-24), ₹349.48 cr (2024-25)
Parliamentary Committee 2026	Women and children long in relief camps; needs nutrition, shelter, psychosocial support

MY NOTES

VALUE ADDITION

Background: since the 1960s militant groups claim to represent ethnic communities; **Kukis and Nagas** seek separate homelands vs Meiteis defending **territorial integrity**. Long **Myanmar border** (ungoverned) and cross-border ethnic ties compound it.

CAUSES OF THE CONFLICT

TRIGGER

- **27 Mar 2023** Manipur HC directed State to act on Meitei **ST inclusion**
- **Tribal Solidarity March 3 May 2023** → violence
- **Feb 2024** HC deleted para 17(iii): ST inclusion must follow **Article 342** procedure

CONTESTATION OVER INDIGENEITY

- Competing narratives (Meitei, Naga, Kuki-Zo) on settlement, homeland
- **Migration anxiety**:
  - Chin migration after **2021 Myanmar coup**
  - Kuki-Zo reject "outsider" label
- Result: migration, land, citizenship become **existential ethnic-security** issues

TERRITORY & LAND

- Kuki-Zo demand **separate administration**
- SoO 2025 reiterates integrity
- **Land:**
  - Meiteis cannot buy land in Kuki/Naga areas
  - ST status would give access → Nagas, Kukis fear Meitei monopoly

Hill-valley divide	Status
Development	Valley-centric, benefits Meiteis
Representation	Hills ~40% population but **19 seats**; Meiteis 50% hold **40 seats**
Governance deficit	Insurgents run parallel governance; weak decentralisation
ADCs	**Art. 371C + District Council Act 1971**: six councils with limited powers
Autonomy	Demand **Sixth Schedule** for hills; recommended by NCRWC (Mar 2002)

MY NOTES

ILLEGAL IMMIGRATION, DRUGS, ECONOMY

- **Meitei view:** Chin migration threatens demographic balance
- **Kuki view:** accusations are majoritarian marginalisation
- **Economic:**
  - Dumping of Chinese goods
  - Poppy cultivation and drug trade (linked by some to Kukis)

MEMORY AID · MANIPUR

(handout's own way forward) **M**eaningful dialogue · **A**ddressing violence (disarm) · **N**ew political representation · **I**nterrogate land ownership · **P**olitical will · **U**niform governance (decentralise) · **R**einforce fraternity

NOTE

Conclusion: meaningful dialogue must precede confidence-building; State government's **political will** is key.

NEW ULFA PEACE ACCORD (29 DEC 2023)

ULFA ACCORD

- Signed in New Delhi:
  - **Pro-talks faction (Arabinda Rajkhowa)** + Centre + Assam
  - **852 cadres** surrendered
  - Disbanded **23 Jan 2024**
- **₹5,000 cr** package (₹3,000 cr Centre + ₹2,000 cr Assam)
- **97 of 126 seats** reserved for indigenous people at delimitation
- **AFSPA lifted from 85% of Assam**

UNRESOLVED

- **ULFA (Independent)** under **Paresh Baruah** outside
- UAPA Tribunal 2025 recognised two factions
- Myanmar bases enable infiltration, extortion

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Date of ST order and violence?	27 Mar 2023; 3 May 2023
President's Rule imposed?	13 Feb 2025
Hill vs valley seats?	19 vs 40
MANIPUR "I"?	Interrogate land ownership
ULFA package?	₹5,000 cr

MY NOTES

25 Jammu and Kashmir

CHAPTER 25 · HANDOUT P.48-62

HIGH PRIORITY Mains PYQs quoted: **2019 (10) · 2023 (10)**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- J&K militancy now mostly **externally driven**
- Local recruitment and stone-pelting are near zero
- Strategy: **security + development + hearts-and-minds + rehabilitation**.

Key term	In plain words
OGW	Over-ground worker: civilian who gives terrorists logistics, shelter, information.
Zia doctrine	Pakistan's asymmetric/proxy approach after 1971.

NOTE

Intro: J&K security evolved from cross-border terrorism + indigenous militancy + political alienation into an **increasingly externally driven** challenge. Declining: violence, local recruitment, street disturbances. Persisting: **infiltration, foreign terrorists, proxy outfits, narco-terror finance, soft-target attacks**.

RECENT TRENDS

Indicator	2018	Latest
Terrorist-initiated incidents	228	**12** (2025)
Civilian fatalities	55	28 (2025)
SF fatalities	91	16 (2025)
Stone-pelting		near-zero since 2022
Organised strikes	52	zero 2023-Apr 2026
Tourists		2.3 crore in 2024 (record)

DRIVERS OF MILITANCY

POLITICAL

- Unfulfilled **autonomy / self-determination** aspirations
- Instability
- **1987 election rigging**
- Human-rights abuse allegations

CURRENT AFFAIRS

Pahalgam attack, 22 Apr 2025: 26 killed (25 Indians + 1 Nepali). **Operation Sindoor** 6-7 May 2025: 9 terror camps in Pakistan and PoJK targeted. **2024 Assembly election:** turnout **63.88%** (LS ~58.6%); **Omar Abdullah CM** 16 Oct 2024. **Pir Panjal / Poonch-Rajouri** activated as proxy theatre in 2023-24.

SOCIO-ECONOMIC

- Marginalisation, poverty, weak education/skills, corruption, little industrialisation → radicalisation of youth

HISTORICAL

- Partition legacy
- **Plebiscite Front** (1950s)
- 1990s insurgency
- **1971 war** → Pakistan's **Zia doctrine** (asymmetric warfare, "bleed India with 1000 cuts")
- **Kargil 1999** reinforced

EXTERNAL

- **Mujahideen** after Soviet invasion of Afghanistan
- **ISI** role (FBI 2011 court admission)
- Proxy warfare
- Geostrategic importance
- **Virtual groups:**
  - The Resistance Front (LeT front), **PAFF** (JeM proxy)
  - Asymmetric warfare

IDENTITY

- Muslim-majority State in Hindu-majority nation
- **99 acres forest land** transfer for pilgrim shelters heightened alienation

GOVERNMENT STRATEGY (PYQ 2019 · 2023)

THREE GOALS

- Safeguard borders and contain militancy · sustain democratic process, restore civil primacy · sustain peace process with opportunities for those who shun violence

SECURITY

- **SRE Scheme** · **SPOs** · **Village Defence Guards** · subsidised helicopter · **5 IR + 2 Border + 2 Women battalions** for J&amp
- K Police

REHABILITATION

- Ex-militant rehabilitation · **RDP** (displaced persons) · **Safe Passage and Surrender Policy**

MY NOTES

HEARTS & MINDS (PYQ 2023)

- **Awaam Ki Awaz** · **Operation Sadbhavana** · **School Outreach** · Civic Action · Bharat Darshan tours · Nasha Mukt Bharat · Youth Volunteer Programme

DEVELOPMENT

- **PMDP 2015**: ~63 projects ~₹80,000 cr (53 completed, >₹51,000 cr invested) · **NCSS** ₹28,400 cr · **Back to Village** · **Industrial Policy 2021-30** · AB-PMJAY-SEHAT · Mission Indradhanush · Himayat · Udaan · SKEWPY

> **MEMORY AID · KASHMIR**
> (handout's own) **K** Kashmiri Pandits & IDPs rehabilitate · **A** cases against terrorists · **S** Sufism and Kashmiriyat · **H** humane counter-terror · **M** manage public perception (media) · **I** issues and grievances · **R** rehabilitation of surrendered militants · **R** reconstruction

ARTICLE 370 REMOVAL

Step	Detail
Art. 370 / 35A	Special status; 35A (1954 order): permanent-resident rules, property; women marrying outside lost rights (HC 2002 protected)
5 Aug 2019	Presidential Order under 370(1), superseded 1954 order; Statutory Resolution in RS
J&K Reorganisation Act 2019	Two UTs: **J&K (with Assembly)** and **Ladakh (without)**
6 Aug 2019	Lok Sabha passed; **C.O. 273** — all clauses of 370 inoperative except clause 1

AFTER 370 (VALUE ADDITION)

- **SC verdict** upheld: "Ek Bharat Shreshtha Bharat"
- All central laws apply
- **3-tier Panchayati Raj**, BDC elections
- Saubhagya, Ujjwala saturation
- ODF Plus
- Pre-2019 per capita income less than half of Himachal
- Govt spending >50% of GSDP
- New land laws aid investment
- Tourism boom (2 crore+), cinema returned, hartal/stone-pelting gone
- "Azadi" sentiment receding
- **AFSPA/PSA** remain until full normalisation

MY NOTES

VALUE ADDITION

Slide keywords: Insaniyat, Jamhooriyat, Kashmiriyat (Atal ji); "from disillusionment, disappointment, despondency to **development, democracy, dignity**".

PYQ	Skeleton
2019 · 10 · OGWs	Define OGW (over-ground workers: logistics, shelter, intel, funds) → Jamaat-e-Islami ban → measures: UAPA, PSA, financial action, counter-radicalisation, community policing
2023 · 10 · Hearts and minds	Back to Village, Sadbhavana, Awaam Ki Awaz, youth schemes, PMDP, rehabilitation → trust through development + civil primacy

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Pahalgam attack date/toll?	22 Apr 2025; 26 killed
Terror incidents 2018 → 2025?	228 → 12
J&K reorganisation → UTs?	J&K (Assembly) and Ladakh (no Assembly)
KASHMIR "S"?	Sufism and Kashmiriyat
PMDP outlay?	~₹80,000 cr

MY NOTES

26 AFSPA

CHAPTER 26 · HANDOUT (AFSPA SECTION)

HIGH PRIORITY Mains PYQs quoted: **2015 (12.5)**

Prelims PYQs: **none quoted in the material**

> **IN SIMPLE WORDS**
>
> - **AFSPA** gives forces special powers in notified disturbed areas, with immunity.
> - SC (1998): valid, but **review every six months**.

Key term	In plain words
Disturbed area	Area notified where armed forces are needed to aid civil power.
Immunity	Section 6: no prosecution without Centre's prior sanction.

> **NOTE**
>
> **AFSPA 1958**: Act of Parliament giving armed forces special powers to maintain public order in "**disturbed areas**".

HISTORY

- **1942 Ordinance** to suppress Quit India
- **1947** Bill by Baldev Singh (called "black bill")
- **1958** Act first for **Naga Hills** (Assam)
- **1972 amendment**: Centre also may declare disturbed area

Section	Provision
3	Governor or Centre declares **disturbed area**
4(a)	Use force, even lethal, against law-breakers
4(b)	Destroy arms dumps, fortified positions
4(c)	**Arrest without warrant**
4(d)	**Search without warrant**
5	Hand arrested persons to **nearest police station** with least delay
6	**Immunity**: prosecution needs Centre's sanction

DISTURBED AREA

- Declared by notification under **S.3** for disputes between religious, racial, language, regional groups, castes or communities
- No automatic 3-month duration

MY NOTES

- **Naga People's Movement**: must be **reviewed within six months**

Case	Principle
Inderjit Barua (Delhi HC 1983)	Governor's power not arbitrary; needs guidelines
Naga People's Movement (SC 1998)	**Upheld** constitutionality; S.4, 5 not arbitrary; periodic review within 6 months
Luithukia v. Rishang Keishing (1988)	Forces act **with district administration**, not independently
Horendi Gogoi (1991)	Hand over arrested persons to police without delay

ANALYSIS

CENTRE-STATE

- Governor **or** Centre declares → friction
- Nagaland says not disturbed, Centre overrides
- **J&amp**
- **K 2009-15**: tried to withdraw from Srinagar, Budgam etc
- Army opposed

OPERATIONAL

- Operational autonomy bypasses state police
- No mandated periodic review → prolonged application
- **Immunity** → accountability and human-rights concerns (Manipur, J&K)

UTILITY

- **Army manages SoO camps** (prevents extortion, clashes)
- **Operation Sadbhavana** (J&K civic programme)
- Maintains public order
- Empowers forces
- **Upheld by SC**

> **VALUE ADDITION**
> **Answer line (2015 PYQ):** oppose S.4 and S.6 (immunity) → SC in **Naga People's Movement** upheld but asked **review every 6 months**; balance security with rights.

MY NOTES

> **CURRENT AFFAIRS**
> **AFSPA footprint 2026: Assam** Tinsukia, Charaideo, Sivasagar (from 1 Apr 2026, 6 months) · **Arunachal** Tirap, Changlang, Longding + parts of Namsai · **Nagaland** 9 districts + 5 districts partly · **Manipur** whole State except 13 police-station areas.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Which sections do activists oppose?	S.4 (lethal force, arrest/search) and S.6 (immunity)

SC case 1998?	Naga People's Movement of Human Rights
Review period?	Six months
1972 amendment?	Centre can also declare disturbed area

MY NOTES

CHAPTER 27 · HANDOUT (MISC) P.47-60

27 Central Armed Police Forces (CAPF)

HIGH PRIORITY Mains PYQs quoted: **Security forces and agencies (mandate)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Seven CAPFs under MHA: **AR, BSF, CRPF, CISF, ITBP, NSG, SSB**.
- Issues: **funds, stress, diversion to law and order, no judicial oversight**.

Key term	In plain words
RAF	Rapid Action Force: CRPF wing for communal disturbances.
COBRA	CRPF commando unit for anti-Maoist operations.

NOTE

CAPFs = uniformed forces under the **Ministry of Home Affairs** for internal security, law and order, counter-insurgency, disaster relief and protecting vital installations. Strength ~**9,64,000** (≈80% of Army).

MEMORY AID · CABINS

Force list: **C**RPF · **A**ssam Rifles · **B**SF · **I**TBP · **N**SG · **S**SB (+ **C**ISF) — "**CABINS**" for the cabins of internal security

Force	Key facts
Assam Rifles	1835 Cachar Levy → AR 1917; **Indo-Myanmar border** (1,643 km) + NE counter-insurgency; Army officers lead
CRPF	Crown Representative Force 1939 → CRPF 1949; **largest** (~3.13 lakh, 246 bn); **RAF**, **COBRA**
ITBP	1962; ~89,000, 60 bn; **3,488 km** Karakoram Pass to Jachep La; 9,000-18,700 ft; Water Wing
BSF	1965; 2.5 lakh, 186 bn; Indo-Pak and Indo-Bangladesh (**6,386 km**) + parts of LoC; world's largest border guard
CISF	~1.45 lakh; industrial units, Delhi Metro, VIP security, Fire Wing
NSG	**1984**; ~7,000; counter-hijack, bomb disposal, hostage rescue; hubs Mumbai, Kolkata, Chennai, Hyderabad; modelled on GSG 9 and SAS
SSB	Special Service Bureau until 2001; border force post-Kargil; **Indo-Nepal 1,751 km** and **Indo-Bhutan 699 km**

MY NOTES

ISSUES WITH CAPF

RESOURCES & WELFARE

- **~98%** of allocation is revenue expenditure (salaries etc.)
- **~9,000** leave yearly (housing, stress, leave)
- ~98% of training companies diverted
- **700 suicides (2000-18)**
- 2021: 48 suicides, 13 fratricides
- Heart ailments

DUTIES & MANDATE

- **Diversion** from border/CI to law and order (Kargil Review Committee)
- States prefer CAPFs (cheaper)
- **Role confusion**: BSF used for law and order unarmed
- **Strain on COBRA, RAF**
- Remote terrain (ITBP cold)

LEGAL & COORDINATION

- CAPF Acts:
  - No external **judicial oversight**
  - Need **security force courts**
- Lack of integration with military and state police

ROLE OF CAPF & WAY FORWARD

ROLE

- **AR** Myanmar border
- **BSF**: Punjab 2,086 kg heroin = **58%** of India's 3,567 kg (NCB), anti-narcotics with ANTF
- **NSG** quick response
- **CRPF** camps in Sukma, Bijapur
- **241 Bastariya Battalion**
- **ITBP** mountain rescue
- **CISF** infrastructure
- **UN missions**
- IPS leadership (Punjab, Greyhounds)

MODERNISATION & WELFARE

- **Modernisation Plan IV** (1 Feb 2022-31 Mar 2026): **₹1,523 cr** — firearms, UAVs, mine-protected vehicles, comms
- PM scholarship, medical-college reservation
- Leave policy

MY NOTES

- **Chaupal** meetings
- Yoga
- **Phalnikar 2016 study**

WAY FORWARD

- Tech for **riverine belt** in Punjab (UAV, thermal imagers)
- Shorter modernisation cycles
- Local-context equipment
- **AR withdrawal from Myanmar border** and CAPF redeployment
- Community engagement (Bastariya model)

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Largest CAPF?	CRPF
Border length guarded by BSF?	6,386 km
NSG founded?	1984
Modernisation Plan IV outlay?	₹1,523 cr

MY NOTES

CURRENT AFFAIRS

CISF took over Parliament security (May 2024) after the **Dec 2023 breach**, replacing Delhi Police outer access control; Parliament Security Service (since **1929**, after Bhagat Singh-Dutt bomb) remains; **Art. 98** — each House has own secretariat; **P.D.T. Achary** objects; 13 Dec 2001 martyrs **Matbar Singh Negi, Jagdish Prasad Yadav**.

CHAPTER 28 · BORDER HANDOUT P.1-24

28 Border Management: Challenges, Bangladesh, Myanmar, Nepal

HIGH PRIORITY Mains PYQs quoted: **2013, 2016, 2019, 2020 (x2), 2024**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Every border has a **different crime and a different force** — know the table.
- **FMR scrapping** and **fencing** need ethnic sensitivity.

Key term	In plain words
FMR	Free Movement Regime: visa-free 16 km movement across India-Myanmar border.
BOLD-QIT	Border Electronically Dominated QRT Interception Technique: sensor/radar grid on riverine gaps.

NOTE

Border management = securing borders against hostile interests while **facilitating legitimate trade**; integrates administrative, diplomatic, security, intelligence, legal, regulatory and economic agencies, and builds border infrastructure. Land neighbours: **Pakistan, China, Nepal, Bhutan, Bangladesh, Myanmar, Afghanistan**.

VALUE ADDITION

National Border Policy needed — treat border as **national security**, not law and order. BSF jurisdiction raised **15 km → 50 km**. "What enters through the border permeates the hinterland like a virus through the bloodstream."

BROAD CHALLENGES

BORDER CHALLENGES

- **Terrain:**
  - Rajasthan desert · Gujarat swamp (Rann) · Ladakh cold desert · J&amp
  - K snow mountains
- **Porosity:**
  - Ethnic communities straddle the border
  - Infiltration
  - Inadequate fencing

MY NOTES

CURRENT AFFAIRS

Data (Dec 2025): Bangladesh border **4,096.7 km**, fenced **3,239.92 km = 79.08%**. Pakistan IB **2,289.66 km** under fencing programme, fenced **2,135.136 km = 93.25%**. **2024 infiltration attempts:** Bangladesh 977 · Pakistan 41 · Myanmar 37 · Nepal-Bhutan 23. (Note: handout also quotes sanctioned length 4,223.04 km and 3,232.218 km fenced as of Feb 2025 — different dates.)

- **Under-resourced forces:** weak training/equipment, bureaucratisation, manpower shortage, dual-force dilemma (army + police)
- **Poor infrastructure:** BOPs without electricity
- **Weak intelligence** sharing
- **Many agencies**, different reporting lines

Border	Guarding force
Bangladesh	**BSF**
China	**ITBP** (LAC: **Army**)
Myanmar	**Assam Rifles**
Nepal and Bhutan	**SSB**
Pakistan (IB)	**BSF**
Pakistan (LoC)	**Army**

INDIA-BANGLADESH BORDER

PROFILE

- **4,096.7 km**, 5 States (WB, Assam, Meghalaya, Tripura, Mizoram)
- Plains, rivers, hills, jungle
- Dense population and cultivation up to the line
- **Challenges:**
  - FICN, arms, narcotics
  - Human trafficking
  - Radicalism
  - **Cattle smuggling (>20 lakh/yr)**
  - Engineered demographic change
  - WB 2,216.7 km, 1,647.696 fenced, 569.004 unfenced

MEASURES

- **Non-lethal weapons** (rubber bullets) for zero border killings
- **162 enclaves exchanged** (2015) — residents chose citizenship
- **1,096 BOPs**
- Fencing + floodlights
- **BOLD-QIT** (sensors, radars, automation)
- July 2026 MHA reviewed radio fence-breach detection and infrared alarms for rivers/gaps (smart border)
- **LCTS** 281 km

INDIA-MYANMAR BORDER

PROFILE AND FENCING

- **1,643 km**:
  - Arunachal, Nagaland, Manipur, Mizoram

MY NOTES

- **1,472 km demarcated**
- ~186 pillars
- Parva Salient (Mizoram) difficult

- Fencing:
  - **BRO** at Moreh
  - Dec 2025: 9.214 km done
  - **July 2026: programme for ~1,610 km, ~₹31,000 cr**
  - Smart fence 100 km
  - Critics: fencing even if only 70% effective = success
- Manpower: **Assam Rifles** do border + counter-insurgency — should it only guard?

> NOTE
> **Free Movement Regime (FMR)** — 2018 (Act East): **16 km** visa-free, border pass 1 yr for 2-week stays; British demarcation of **1826** split Naga/Mizo/Chin people. **Government decided to fence entire border and scrap FMR.**

Why scrap FMR	Challenges in scrapping
Insurgents cross easily	Nagaland/Mizoram **ethnic and topographic ties**
Golden Triangle drugs (opium)	**Nagalim** aspirations; colonial borders
Refugees: Manipur conflict, Tatmadaw vs rebels; Mizo acceptance	Trade, healthcare, education access; Aadhaar issues
Assam, Arunachal, Manipur support scrapping	A 10-km Manipur fence took a decade; NER alienation; Act East harmed

> VALUE ADDITION
> **Value addition:** balance security with **ethnic realities** — fence + regulated border passes + development, not blanket closure.

INDIA-NEPAL BORDER

PROFILE AND ISSUES

- **1,751 km**:
  - Uttarakhand, UP, Bihar, WB, Sikkim
  - Open border
  - **539 BOPs**
  - **1,299 km** roads sanctioned
  - **JWG** on border management
- LeT, IM, NE insurgents use it:
  - Cadres, **FICN**, terror financing via Nepali banks, arms, narcotics

MY NOTES

- Maoist links
- Land grabbing

MAP DISPUTE

- **2020** Nepal map claims **Kalapani, Lipulekh, Limpiyadhura** (after India's road)
- Constitutional amendment June 2020
- India: unilateral, integral part of India
- Dialogue via diplomatic platform
- **China angle:**
  - 2015 **134-day blockade** → Oli signs **trade and transit agreement with China**
  - Leftist parties near CCP
  - Chinese disinformation (Prachanda's visit 2023)

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

SSB guards which borders?	Nepal and Bhutan
FMR range?	16 km
Enclaves exchanged?	162 (2015)
Nepal map dispute areas?	Kalapani, Lipulekh, Limpiyadhura

CHAPTER 29 · BORDER HANDOUT P.33-40

29 Smart Border and Border Area Development (BADP, VVP, BIM)

HIGH PRIORITY Mains PYQs quoted: **2024 (BADP + BIM), 2020 (local support)**

Prelims PYQs: **none quoted in the material**

> **IN SIMPLE WORDS**
>
> - **Technology + development + trust** = border management.
> - **BADP, VVP, BIM** answer the 2024 PYQ directly.

Key term	In plain words
CIBMS	Sensors, networks and command-control integrated over manpower for border domination.
BISAG-N	Bhaskaracharya Institute for Space Applications and Geoinformatics: GIS monitoring.

MULTI-PRONGED APPROACH

- **Surveillance:** BOP, **ICP**, thermal imagers, night vision, CCTV/PTZ, infrared sensors, UAVs, radars
- **Intelligence:**
  - Upgrade
  - Joint border management
- **Security:**
  - Fencing
  - **Floating BOPs** in rivers
  - **CIBMS** (integrates manpower, sensors, networks, command-control)

DEVELOPMENT OF BORDER AREAS

- **BADP** · **BIM** scheme · **NERIDS** (NE infrastructure) · **Project Vartak** (Arunachal roads) · **Arunank** (4 roads, 255 km)
- **Community-led:**
  - **Vibrant Villages**
  - Climate of trust
  - Local employment
  - **Civic action — Operation Sadbhavana**, Army Goodwill Schools

BADP

Region	Centre : State
8 NE States + HP + Uttarakhand	**90:10**

MY NOTES

CURRENT AFFAIRS
BADP — Core Centrally Sponsored Scheme of **Dept of Border Management, MHA**; **460 border blocks, 117 districts, 16 States + 2 UTs**; applies to habitations **0-10**

Region	Centre : State
Bihar, Gujarat, Punjab, Rajasthan, UP, WB	**60:40**
UT of J&K	90:10
UT of Ladakh (no legislature)	**100% Centre**

VIBRANT VILLAGES PROGRAMME

WHY

- Counter China's **dual-use "xiaokang" villages**:
  - 624 built in TAR 2018-22
  - **Land Borders Law (1 Jan 2022)**
  - Xinjiang-Tibet railway near Aksai Chin
- Indian border villages: illiteracy, poor facilities, **out-migration** (2018 Parliamentary Committee)

FEATURES

- **VVP-I**:
  - 662 northern-border villages (10 km)
  - Roads, housing, renewable energy
- **VVP-II (Apr 2025):** Central Sector, 100% central funds, **₹6,839 cr to 2028-29**, **1,954 villages** on other land borders
- Hub-and-spoke growth centres
- **One Village-One Product**
- Tourism, cooperatives
- **BISAG-N** GIS monitoring
- Integrated with **PM Gati Shakti**

COMMUNITY IN BORDER MANAGEMENT

WHY COMMUNITY MATTERS

- Mutual trust · surveillance gaps filled (fishermen guide Navy/ICG) · **CIPs** · rights protected · community policing · early detection · local terrain knowledge

CHALLENGES

- Weak state capacity
- Poor infrastructure
- Low pay/training
- **Alienation**
- Anti-smuggling seen as interference
- **Fencing blocks farmland**
- Criminals provoke confrontations
- **Ad hoc cooperation**

km (aerial) from IB; works: roads, bridges, drinking water, health, agriculture, social infrastructure.

CURRENT AFFAIRS

BRO budget 2026-27: capital ₹7,394 cr (vs ₹7,146.5 cr 2025-26). **Infrastructure:** 118 projects dedicated (90 in Sept across 11 States/UTs); Shinku La tunnel (4.1 km, Dec 2025 target); **Sela twin-tube tunnel** to Tawang; DSDBO road; Nyoma airfield upgrade; Shyok bridge.

WAY FORWARD

- Trust frameworks
- Treat **understanding the community** as a management function
- **Code of conduct**
- **Replace "border guarding" with "border management"**
- Learn local languages
- Civic action (sports, grants)

> **VALUE ADDITION**
> **2020 PYQ line:** to deny local support to militants — development + dignity + grievance redress + local intelligence networks (not just force).

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

BADP funding for NE?	90:10
VVP-II villages and outlay?	1,954; ₹6,839 cr
Border blocks in BADP?	460 blocks, 117 districts
CIBMS stands for?	Comprehensive Integrated Border Management System

MY NOTES

CHAPTER 30 · HANDOUT (MERGED) + BORDER

30 Smart Border Technology: CIBMS, BOLD-QIT, Anti-Drone Grid

HIGH PRIORITY

Mains PYQs quoted: **Border management, technology, community role**

Prelims PYQs: **none quoted in the material**

> **IN SIMPLE WORDS**
>
> - **Smart border** = sensors + drones + AI + one command grid.
> - Add **community and oversight** to make it work.

Key term	In plain words
CIBMS	Sensor-based integrated border surveillance framework.
Virtual fencing	Electronic sensors that alert without a physical fence.

> **NOTE**
>
> **Smart Border Management** = advanced surveillance, sensors, data networks, **AI, drones, anti-drone systems and integrated command platforms** to secure borders in real time. Slogan on slides: **One Border, One Guarding Force**.

WHY IT MATTERS

REASONS

- **Terrain**: mountains, deserts, swamps, rivers make fencing and patrol hard
- **Real-time** infiltration alerts
- **Anti-smuggling**: narcotics, arms, cattle, gold, fake currency, trafficking
- **Counter-drone** need
- **Riverine** stretches cannot be fenced (Brahmaputra)
- **Force multiplier** for BSF and others
- **Single command platform** across agencies
- **Hybrid-war** readiness

MY NOTES

STEPS TAKEN

Initiative	Detail
CIBMS (Comprehensive Integrated Border Management System)	Sensors, cameras, radars, command centres. Pilots ~**71 km**: 10 km Pakistan border, 61 km Bangladesh border
Smart fencing	Virtual sensor layer; pilot in **Jammu sector** (Pakistan border)
BOLD-QIT	Border Electronically Dominated QRT Interception Technique; cameras, sensors, optical fibre, microwave; unfenced **Brahmaputra** (Dhubri)
Smart Border Project 2026	Proposed: radars, cameras, drones; pilots at BSF and SSB locations
LPMS VINIMAY	Digital land-port management for cargo, passengers, vehicles
Integrated Check Posts	Customs, immigration, security under one roof (Bangladesh, Nepal borders)
AI surveillance	Pattern recognition, fewer false alarms, face recognition, predictive alerts

ANTI-DRONE MEASURES

RESPONSE

- **Counter-drone systems**: detect, track, identify, jam, neutralise (Pakistan border)
- **SAKSHAM**: Army CUAS grid
- **Drones for patrol** in deserts, rivers, marshes, mountains
- **Layered response**:
  - BSF, Army, intelligence, police
  - After recovery do payload analysis, route mapping, forensics

CHALLENGES AND WAY FORWARD

CHALLENGES

- Terrain
- High cost
- Power and connectivity gaps
- **False alarms** (animals, fog)
- **Cyber risk**: hacking, jamming, spoofing
- Agency silos
- Harsh weather
- **Community** livelihood worries
- **Privacy and rights**

MY NOTES

WAY FORWARD

- **Terrain-specific** models
- **AI data fusion** of drones, sensors, satellites, patrols, humint
- **Drone Wall** on the EU model (radar, RF sensors, EO cameras, jammers, response teams)
- Cyber-secure systems
- **Unified command centre**
- **Village Defence Guards** and informants
- Indigenous technology
- Smart crossing points
- **Border Security Technology Oversight Authority** to audit surveillance

> **VALUE ADDITION**
> **Balanced answer:** technology + manpower + community + rights safeguards. Development side (BADP, Vibrant Villages, community) is in the Smart Border and Border Area Development chapter.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

CIBMS pilot length?	~71 km (10 km Pak + 61 km Bangladesh)
BOLD-QIT used where?	Unfenced Brahmaputra border, Dhubri
VINIMAY?	Land Port Management System
Drone Wall model from?	European Union

CHAPTER 31 · HANDOUT (MERGED)

31 Drones and UAVs in Security; Anti-Drone Systems

HIGH PRIORITY

Mains PYQs quoted: **Drone threats, border, terror, counter-drone**

Prelims PYQs: **none quoted in the material**

> IN SIMPLE WORDS
>
> - Drones help **surveillance and strikes**
> - They also carry **drugs and bombs**
> - Defence = **detect, identify, jam, destroy**.

Key term	In plain words
Loitering munition	Drone that waits over an area then dives onto target.
Soft kill	Disable by jamming or spoofing without destroying.

ROLE OF DRONES IN SECURITY

- **Surveillance and reconnaissance** (Heron, Switch drones of Army and BSF)
- **Disaster response** (Kerala floods 2019, Joshimath subsidence)
- **Crowd management** (Kumbh Mela)
- **Maritime security** (Navy Sea Guardian)
- **Psychological warfare**
- **Precision targeting**
- **Cost-efficient**

THREATS

- **Cross-border terrorism** and narcotics/arms drops
- **Attack on critical infrastructure**: **IAF station, Jammu (2021)**
- **Espionage**
- **Drone swarms**
- **Drug trafficking**

TYPES IN USE

Type	Notes and examples
ISR drones	TAPAS-BH-201, Rustom (DRDO), Heron Mk-II (Israel)
Commercial / modified	Off-the-shelf drones modified for illegal cross-border use

MY NOTES

Type	Notes and examples
Swarm	Many drones coordinate to overwhelm defences; DRDO and private firms developing
Loitering munitions	Loiter, then strike: HAROP, Mini Harpy, SkyStriker and others
Armed / combat	Ghatak (DRDO, under development), Heron TP (Israel)
Target drones	ABHYAS, Lakshya
Civil / governance	SVAMITVA drones, Kisan drones, Namo Drone Didi

COUNTER-DRONE SYSTEMS

COUNTER-DRONE CHAIN

- **Detect: RF sensors, radar, acoustic, electro-optical → Identify and track: AI and ML algorithms → Soft kill: RF/GPS jamming, spoofing → Hard kill: laser (directed energy), kinetic interceptor, small-calibre gun turrets**

System	Detail
Drone Rules, 2021	Legal framework
Anti-Rogue Drone Technology Committee	Under MHA
D4 System	Drone Detect, Deter, Destroy
Indrajaal	Integrated drone interdiction
DRDO Anti-Drone System	Includes laser systems
SAKSHAM	Army CUAS grid: modular C2 on Army Data Network; detects, tracks, identifies and neutralises hostile drones up to **3,000 m**

VALUE ADDITION

Way forward: comprehensive **National Counter Rogue Drone guidelines**, vulnerability assessments of installations, strengthen operational frameworks, layered coordination, indigenous technology.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Soft versus hard kill?	Soft = jam/spoof; Hard = laser or kinetic destroy
Drone attack of 2021?	IAF station, Jammu
SAKSHAM range?	Up to 3,000 m

MY NOTES

32 India-Pakistan Border

CHAPTER 32 · BORDER HANDOUT P.5-7

HIGH PRIORITY Mains PYQs quoted: **2020, 2024**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Indo-Pak border mixes **terror, drones and narcotics**.
- Trade is **suspended** since 2019.

Key term	In plain words
Sir Creek	Marshy tidal estuary in Rann of Kachchh: maritime boundary dispute with Pakistan.

NOTE

3,323 km border: Gujarat, Rajasthan, Punjab, J&K, Ladakh. Terrain: desert, marsh, snow mountains, plains. Frequent infiltration, arms and contraband smuggling.

CHALLENGES

- **Terrorism and infiltration** · ceasefire violations · arms smuggling · border disputes (**Sir Creek**) · **drones** · **Indus water** sharing · diverse terrain · time and cost overruns · drugs, FICN, arms

MEASURES

- **736 BOPs**
- Floodlights approved over **2,078 km**
- **Fencing 93.25%** of 2,289.66 km (Dec 2025)
- **CIBMS**
- BSF vulnerability mapping
- **Pilot**: two 5-km stretches in Jammu
- **Low-cost tech** project 484 km (Pak + Bangladesh)

TRADE (A PYQ HOOK)

Point	Detail
MFN	India gave Pakistan MFN in 1996; **Pakistan negative list 1,209**, only **138** allowed via Wagah-Attari
Volume	**$2.29 bn** (0.35% of India's trade); India surplus
Suspension	Pakistan suspended trade **Aug 2019** after Art. 370 abrogation; India had imposed **200% tariff** and revoked MFN

MY NOTES

Point	Detail
2021	ECC allowed cotton, yarn; Imran Khan reversed
Context	Pakistan's crises: 2022 floods, inflation, IMF; trade via Iran/Dubai; **Attari ICP** would open Central Asia

VALUE ADDITION

Answer line: border is a hybrid battle-line — fence + tech + intelligence + diplomacy; use **BSF + ANTF + drone countermeasures** against narco-drones in Punjab.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Fencing % at Pak IB?	93.25%
Trade suspended when?	Aug 2019
BOPs at Indo-Pak?	736

33 India-China Border (LAC)

CHAPTER 33 · BORDER HANDOUT P.14-31

HIGH PRIORITY Mains PYQs quoted: **2024, 2021 (external actors)**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- **Disengagement done, de-escalation pending**.
- India: **military dialogue + reduced dependence + infrastructure**.

Key term	In plain words
Disengagement	Pulling back troops from face-off; not same as de-escalation or boundary settlement.
Xiaokang village	China's dual-use border defence village.

QUOTE

*"Stable but sensitive" — **Gen Manoj Pande**. EAM Jaishankar: unless the border is resolved "**you cannot expect the rest of relations to go on normally**".*

TIMELINE

- **1947-56 hope, India recognises PRC, accepts Tibet annexation → 1962 war → 1988 Rajiv Gandhi visit → 2017 Doklam → Jun 2020 Galwan → 9 Dec 2022 Yangtse (Tawang) → 21 Oct 2024 Depsang-Demchok patrolling deal**

CURRENT DYNAMICS

- **No-guns within 2 km of LAC** agreement holds
- Talks:
  - Blockades removed at three places → **no-patrol zones**
  - **Depsang Bulge and Charding Nala (Demchok)** were pending
- India lost access to **30 of 65** patrolling points (handout; other line says China blocks 26 — conflict, verify)
- Disengaged at **Galwan, Pangong Tso, Gogra, PP15**
- **21 Oct 2024** deal on Depsang and Demchok — disengagement is not a boundary settlement

WHY IT MATTERS

- "**No war, no peace**" limbo
- Trade deficit ~$100 bn finances PLA

- China blocks India at UNSC, props Pakistan
- India's hedging: economic engagement + military confrontation + diplomatic assertion — unsustainable

BUILDUP

China	India
TAR roads, rail, oil and logistic depots; defence budget **$225 bn (2023)**; Xinjiang-Tibet railway via Aksai Chin	Poorer infrastructure; topographic advantage for air ops; since 2020 more mechanised/armoured units, ISR; **CDS + DMA**; theatre command; **indigenisation**
Land Borders Law 2022; 624 xiaokang villages	**VVP**; 118 BRO projects, 601 km roads/yr; **Sela, Shinku La**; **Project Arunank** 255 km

ENCIRCLEMENT

CHINA'S MOVES

- **Myanmar:** mediates ceasefire yet arms ethnic groups (dual approach)
- **Nepal:**
  - Transit transport agreement
  - Disinformation vs India
- Pakistan (CPEC), Sri Lanka, Bangladesh, IOR presence

WAY FORWARD

INDIA'S APPROACH

- **Three-fold:** continual military dialogue · reduce economic interdependence · hold political engagement
- Revive **Special Representatives** (not met for four years)
- Hotlines
- **Convert LAC to a demarcated LoC** (jointly monitored)
- **Strategic autonomy**:
  - Quad but no freedom-of-navigation ops in W. Pacific
  - Avoid US-China rivalry
  - Non-alignment
  - **Balanced public discourse**
- C. Raja Mohan: limit economic exposure and suspend political dialogue as leverage. Chinese aphorism: "**he who tied the knot must untie it**"

> **VALUE ADDITION**
> **Value addition:** "A state of relations depends on the state of the border." Competing with China should not distract from development; **no permanent adversaries or allies** — prioritise peaceful progress without neglecting defence.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Disengagement points?	Galwan, Pangong, Gogra, PP15
Date of 2024 deal?	21 Oct 2024
No-guns zone?	2 km of LAC
Land Borders Law?	1 Jan 2022

MY NOTES

34 Illegal Migration

CHAPTER 34 · BORDER HANDOUT P.36-46

HIGH PRIORITY Mains PYQs quoted: **2014 (illegal transborder migration), 2013**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Migration is both a **humanitarian and a security** issue.
- **Rohingya case** is the legal flashpoint.

Key term	In plain words
Non-refoulement	Not sending a refugee to a country where they face persecution.
NRC	National Register of Citizens.

HISTORY

- **1950 Nehru-Liaquat → Partition migration → 1971 war influx → 1985 Assam Accord (cut-off 24 Mar 1971) → NRC Assam 3.1 cr eligible, 19.06 lakh excluded → 2015 exemption to persecuted minorities (before 31 Dec 2014) → CAA 2019 → Immigration and Foreigners Act 2025**

CHALLENGES IN CURBING

- **Terrain**: 174.5 km non-feasible to fence
- **Land acquisition** (WB)
- **Vote-bank politics**
- NRC/CAA resistance and litigation
- Manpower and equipment
- Coordination (BSF, AR, DRDO, CPWD)

STEPS TAKEN

- Fence with floodlights (4,223.04 km sanctioned)
- **LCTS** 281 km
- **CIBMS**
- Vulnerability mapping
- Patrols, nakas, anti-tunnelling
- Advisories to BSF and AR
- **Immigration and Foreigners Act 2025** repeals four colonial laws (Passport (Entry into India) 1920, Registration of Foreigners 1939, Foreigners Act 1946, Immigration (Carriers' Liability) 2000)

MY NOTES

CURRENT AFFAIRS

Data: Census 2011 — 5.5 m with last residence abroad (0.44%); 2.3 m (42%) Bangladesh, 0.7 m (12.7%) Pakistan. UNHCR: >2.4 lakh refugees/asylum seekers; **86,100 from Myanmar** incl. Rohingya; ORF 2025 estimate 12-20 m illegal Bangladeshis (estimate, treat with caution).

- **S.6A Citizenship Act**: entrants to Assam 1 Jan 1966–25 Mar 1971 could register

MYANMAR-SIDE CAUSES

- **1 Feb 2021 coup**, Chin refugees to Mizoram and Manipur
- Ethnic ties (Chin-Mizo)
- **Rohingya** persecution since 2017
- Porous terrain
- Economic distress

> **MEMORY AID · MIGRANT**
> **M**onitoring · **I**nternational cooperation · **G**overnance/legislation · **R**ehabilitation and reintegration · **A**wareness · **N**ational security · **T**echnology (the faculty's MIGRANT)

ROHINGYA CASE (PRIYALI SUR V UNION OF INDIA)

Petitioners	Union of India (affidavit)
Deportation violates **Art. 14, 21, 51(c)**; **non-refoulement** (customary law)	Mostly illegal entrants; **Foreigners Act 1946** applies; **Art. 19 only for citizens**
Detention is arbitrary	National security threat; porous borders; limited resources
Seek release from detention centres	Refugee status is for **legislature/executive**, not judicial overreach

> **VALUE ADDITION**
> **Value addition:** balance **humanitarian obligations (Art. 21, non-refoulement)** with security; push for a national refugee framework and graded screening.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Assam NRC excluded?	19.06 lakh
Cut-off date in Assam Accord?	24 March 1971
Which Act repealed 4 laws?	Immigration and Foreigners Act 2025
Myanmar coup date?	1 Feb 2021

MY NOTES

35 Maritime and Coastal Security

CHAPTER 35 · BORDER HANDOUT P.46-52

HIGH PRIORITY Mains PYQs quoted: **2014, 2022**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Problem is **many agencies, no single command**.
- Fix: **tech, tracking, trained marine police, community**.

Key term	In plain words
IMSS 2015	Ensuring Secure Seas: Indian Maritime Security Strategy.
NC3I	National Command Control Communication and Intelligence network.

CONCERNS (IDSA)

- **Fragmented approach**
- No unity of command
- Land borders fenceable but sea sliding jurisdiction
- **Policing vs border guarding**: policing (State List) conflated with maritime security (Union)
- **ICG's primary duty** is maritime zones, not border guarding
- **Unclear statutory definitions**
- Navy covers 12-200 nm
- **Sub-20 m boats**:
  - Costly to track
  - Risk of 26/11-type attack

WHY COASTAL SECURITY MATTERS

- Creeks, estuaries, mudflats
- **Sir Creek, Palk Strait** unsettled
- Terrorism (**26/11**, MV Nalini 2019, 2011 naval vessel attack)
- Weak minor ports
- Illegal fishing
- Drugs/arms
- Sea trade, **submarine cables**
- Piracy
- Neighbours (Maldives, Sri Lanka, Pakistan)
- Bombay High, Kalpakkam, SEZs

MY NOTES

CURRENT AFFAIRS

Data: Coastline **11,098.81 km** (mainland 7,870.51; islands 3,228.30). Maritime boundary with 7 countries. **12 major + 205 minor ports** handle ~**95% trade volume / 70% value**. **EEZ ~23 lakh km²** (200 nm). ICG 2025: 103 SAR missions, 76 lives, 18,613 boardings, 1,594 CIPs. IB audit: **187 of 200+ minor ports** lack adequate security.

- Fishermen straying

INITIATIVES

Type	What
Infra-structure	**JOCs, Coastal Surveillance Network, VTMS radars**; minor-port guidelines (ISPS); SPM SOP; transponders on small boats / ISRO trackers; coastal mapping by BISAG-N; **Coastal Security Scheme**
Policy	**IMSS 2015** "Ensuring Secure Seas"; SAGAR; HADR
Exer-cises	**Sagar Kavach, CORPATs, Sea Vigil**
Com-munity	CIPs; **fishermen biometric ID cards**
Institu-tions	**National Committee for Strengthening Maritime and Coastal Security**; **NC3I**; IMAC; **IFC-IOR**; Marine Police; 10 coastal police stations; **National Academy of Coastal Policing** (Dwarka); **Joint Coastal Patrolling (15 Aug 2020)**

MEMORY AID · MARITIME

Faculty's "**MARITIME**" way forward: **M**odernisation · **A**dvanced tech · **R**egulation · **I**ntegration of agencies · **T**raining · **I**nfrastructure · **M**ulti-agency exercises · **E**ngagement of community

MY NOTES

CURRENT AFFAIRS

Current affairs: India began cooperation with **Combined Maritime Forces (CMF)**, Bahrain (counter-narcotics, anti-piracy); Navy opened **MARCOS** to women (Agniveers from 2023).

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

India coastline?	11,098.81 km
IMSS year?	2015
Joint Coastal Patrolling start?	15 Aug 2020
Minor ports lacking security?	187 of 200+

CHAPTER 36 · BORDER HANDOUT P.52-57

36 Piracy and Maritime Anti-Piracy Act 2022

MEDIUM PRIORITY Mains PYQs quoted: **2014 (HRA 65E to 78E)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Piracy is back
- India has **law + Navy + partnerships**

Key term	In plain words
HRA	High Risk Area for piracy declared by IMO/industry.

RECENT INCIDENTS

- Drone attack on Gabon-flagged tanker (25 Indian crew)
- **MV Chem Pluto** (21 Indian crew)
- **MV Ruen** seized by Somali pirates → Navy rescued 17
- **Operation Sankalp**: 18 incidents in 100 days
- INS Sumitra, INS Visakhapatnam

IMPLICATIONS

- **Economic:** freight, insurance, supply chain, crude/LNG via Bab-el-Mandeb
- **Security:** drones and pirates, Houthi attacks, Chinese presence

Initiative	Role
UNCLOS	Legal framework
CMF (CTF-151)	Multinational anti-piracy
EU NAVFOR Atalanta (2008)	Somalia
IORA, Djibouti Code	Regional cooperation
MSCHOA	Public-private coordination
BMP	Industry best practices

MEMORY AID · PIRACY

Prevention · **I**nternational cooperation · **R**egulation/law enforcement · **A**wareness and training · **C**apacity building · **Y**outh and economic development (faculty)

MY NOTES

CURRENT AFFAIRS

Data: piracy up ~**20%** (Navy); war-risk premium **0.05% → 1%** of ship value ($2 m on a $200 m ship); Cape route adds ~10 days; Suez ~12-15% of world trade, traffic **-42%** (Dec 2023-Jan 2024). IMO **HRA moved 65°E to 78°E** (2010 per handout; the 2014 question says 2012); industry **rescinded HRA from 1 Jan 2023**, situation deteriorated again.

MARITIME ANTI-PIRACY ACT 2022

NOTE

Implements **UNCLOS**; gives **Navy and Coast Guard** power to intercept, board, seize and arrest on the high seas; designated Indian courts try pirates **irrespective of nationality**; punishes organising/facilitating; **death or life imprisonment** if piracy causes death.

VALUE ADDITION

Alondra Rainbow (1999): ICG caught pirates, but Mumbai High Court acquitted them for **lack of jurisdiction and domestic law** — the gap the 2022 Act filled.

INDIA'S EVOLUTION

- Blue-water navy since mid-1990s
- Maritime doctrine **2004/2007**
- **IMSS 2015**
- Gulf of Aden deployment **2008**
- 26/11 reset coastal security
- **Net security provider**
- Shift to Indo-Pacific

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Anti-Piracy Act year?	2022
Which case exposed legal gap?	Alondra Rainbow 1999
HRA moved to?	78° East

MY NOTES

CHAPTER 37 · TERRORISM HANDOUT P.1-8, 30-34

37 Terrorism: Concept, Types, India and Counter-Measures

HIGH PRIORITY Mains PYQs quoted: **2013, 2018, 2021, 2023, 2024, 2025**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- No universal definition
- **India has faced all types**
- Fight with **intelligence + law + technology + diplomacy**.

Key term	In plain words
Lone wolf	Individual acting alone, self-radicalised.
State-sponsored terror	Non-state actors backed by a state.

NOTE

Why undefined? Agreeing when violence is legitimate (by whom, against whom, for what ends) is contested; many definitions are made by governments and **omit state acts**. **UN strategy:** criminal acts to provoke terror for political purposes are **unjustifiable whatever the justification**. **GCTF:** intentional use or threat of violence for political, religious or ideological aims.

Common elements of an attack	Meaning
Propaganda / branding	Justify ideology; build brand
Claim of responsibility	Fear + attention
Modus operandi, targets	Symbolic, crowded places
Motivation	Revenge, jihad, self-righteousness
Planning	Recon, logistics, coordination

INDIA'S TIMELINE

TIMELINE

- **1984 Indira Gandhi assassinated**
- **Punjab militancy → 1990s J&K insurgency**
- **"bleed India with a thousand cuts" → 2001 Parliament attack → 2006 Mumbai trains → 2008 Mumbai 26/11 (LeT) → 2010s IM, ISIS**
- **Lone wolf**

MY NOTES

CURRENT AFFAIRS

Data: Global Terrorism Index 2026 — deaths **-28% to 5,582** (2025), incidents **-22% to 2,944**, lowest since 2007; **Pakistan most affected**; **India 13th** (score 6.428). MHA 2020-21: 222 incidents in 2020 vs 317 in 2019; J&K, NE, LWE areas worst; Chhattisgarh 2nd. (2019: India 3rd by number of attacks.)

- **Right-wing blasts (Malegaon, Ajmer, Samjhauta) → Today: cross-border + homegrown + online radicalisation + cyber**

MY NOTES

TYPES OF TERRORISM

Type	Features and examples
Ideology: right / left	Christchurch 2019; Red Brigades, FARC
Religious	Taliban, Al-Qaeda, ISIS
Ethno-nationalist	NE insurgency, IRA
Narco-terrorism	Taliban + opium; Zetas
Bio / nuclear / cyber	Aum Shinrikyo 1995; anthrax 2001; dirty bomb; Solar-Winds 2020
Environmental	Earth Liberation Front
Lone wolf	Brenton Tarrant
State terrorism	State force on own citizens
State-sponsored	Funding, arms, training, safe havens to non-state actors

INDIA'S COUNTER-TERROR ARCHITECTURE

Category	Institutions
Intelli-gence	IB, RAW, **MAC**, **CyMAC (22 Jan 2025)**, NTRO, NIA's **NTDFAC**, **FCORD** (fake notes)
Operations	NCTC coordinates but no central command; **NSG**
Investiga-tion	NIA, FSLs, FIUs, state ATS
Prosecu-tion	NIA special courts, UAPA, SPPs
Laws	**NIA (Amendment) Act 2019**, **UAPA (Amendment) Act 2019**

MEMORY AID · TERRORISM

Faculty's way forward: **T**echnology regulation · **E**liminate funding · **R**einforce treaties · **R**eaffirm multilateralism · **O**rganise civil society · **R**ebuild trust · **I**ntelligence · **S**trengthen laws · **M**obilise awareness

VALUE ADDITION

2021 PYQ link: UAPA/NIA amendments — see UAPA and NIA chapter.
2024 PYQ: narco-terrorism — see Drug Trafficking chapter.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

GTI 2026 India rank?	13th

MAC cyber wing?	CyMAC, 22 Jan 2025
2019 amendments?	UAPA and NIA Acts

MY NOTES

CHAPTER 38 · TERRORISM HANDOUT P.9-24

38 Terrorism and Technology: Dark Web, Crypto, Drones

HIGH PRIORITY Mains PYQs quoted: **2013 (ISIS digital), 2023 (funding)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Terror groups **use the same tools we do**.
- Fix: **AI, regulation, crypto tracking, global cooperation**.

Key term	In plain words
Stealth address	New address per crypto transaction to hide the receiver.
FTF	Foreign Terrorist Fighter.

PROBLEM

- Planning blind spots
- **Tech outpaces regulation**
- Obsolete counter-strategies
- **"technology fatigue"** (Berlin Memorandum 2019)
- **Dual use** (AI recruit and radicalise)

Stage	Use of technology (examples)
Propa-ganda	Telegram; deepfake (2021 Khalistan video); games (Hezbollah Special Force, Huroof); live-streams (Christchurch, Halle)
Recruit-ment	Global pool; Aug 2021 pro-IS Telegram group recruiting in India
Training	**Inspire** (Al-Qaeda), manuals; IS 2015 app security ranking
Planning	Encrypted comms, UAV, GPS, 3-D printing; **2021 drone attack on IAF Jammu**
Fundrais-ing	Bitcoin, Monero, **zakat misuse** (IS-K Voice of Khorasan; PFI via crypto and Gulf money)
Execution	Houthi drones; swarming attack on Russian bases

DARK WEB

USES

- Internal comms · propaganda · recruitment/training · fundraising · **weapons procurement** (EuroGuns, AlphaBay) · drugs · AI/deep-fakes

MY NOTES

CURRENT AFFAIRS

Crypto: stealth addresses and ring signatures (Monero), zk-SNARKs (Zcash). Hamas raised >$130 m in crypto (Aug 2021-Jun 2023) [handout also: $41 m 2020-23; PIJ $93 m]. Bengaluru Café blast: crypto funded the IS module in Karnataka. INCB 2023: South Asia holds 39% of global opiate consumers.

COUNTER

- **Technology:**
  - DARPA Memex
  - UK NCA decoy sites
- **Enforcement:**
  - NTRO and NSA monitor Tor
  - Regulator for platforms
- **Cooperation:**
  - Tallinn Manual update, **Five Eyes**
  - Digital literacy
  - **Tech Against Terrorism**

COUNTER-TERROR WITH TECHNOLOGY

- **Counter-narratives** (US CSCC 2012)
- **UN Travel Programme** (2019) vs FTFs
- AI border (EU **ETIAS**)
- Predictive models (RED-Alert, Moonshot)
- Digital evidence
- NATO DEXTER
- National cyber agencies (NIS)

FINANCIAL INSTITUTIONS

- **Blockchain** tracking
- **Audit NGO accounts**
- Crypto exchange regulation
- **KYC / KYT**

Measure	Who
Christchurch Call 2019	France + New Zealand + firms
GIFCT 2017	Facebook, Microsoft, Twitter, YouTube
GCTF	Forum (29/30 countries)
Tech Against Terrorism	UN CTED
Aqaba Process	Jordan
Delhi Declaration (UNSC CTC)	Guiding principles on drones, social media, crowdfunding

VALUE ADDITION

Value addition: balance security with **privacy and speech**; a global treaty on tech misuse; capacity in South Asian languages.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Al-Qaeda magazine?	Inspire
UN programme vs FTFs?	Terrorist Travel Programme (2019)
GIFCT founded?	2017

MY NOTES

CHAPTER 39 · TERRORISM HANDOUT P.25-34

39 Global Counter-Terror Architecture and India's Diplomacy

MEDIUM PRIORITY Mains PYQs quoted: **2018, 2023 (NMFT)**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- India wants a **comprehensive convention (CCIT)**
- Talks stuck on **definition**

Key term	In plain words
CCIT	Comprehensive Convention on International Terrorism, stalled over definition.

Body / resolution	What it does
UNSC 1267 (1999)	Sanctions on Taliban, Al-Qaeda
UNSC 1373 (2001)	Post 9/11: criminalise financing; **CTC**
1540 (2004)	No WMD to non-state actors
1624 (2005)	Incitement, internet
2178 (2014)	Foreign terrorist fighters
2462 (2019)	Countering financing
UN CT Strategy 2006; UNOCT 2017	Coordination
FATF 1989	Standards on ML/TF
GCTF 2011; GICNT 2006	Forum; nuclear terrorism (88 states)

REGIONAL FRAMEWORKS

- **SAARC** conventions (1987, 2008) · **ASEAN ARF** (1994) · **AU** convention · **EU** strategy (2005), ECTC 2016 · **SCO RATS** (2004)

INDIA'S DIPLOMACY

EVOLUTION

- **De-legitimisation** of terrorism
- **Root-cause approach** (1970s-80s):
  - **1976** NAM draft passed 86-8-24
  - **A/RES/40/61 (1985)**
- **Comprehensive vs sectoral**:
  - Third World wanted comprehensive

- US/EU sectoral

NOTE

CCIT — India has pushed since **1996**. Four tenets: **universal definition · ban groups and shut camps · special laws for prosecution · extradition of cross-border terrorism**. Stalled over definition (OIC: liberation movements; US: acts of state forces) and scope (state terrorism).

OTHER STEPS

- **FATF:** India re-elected co-chair of Asia-Pacific Joint Group (2022)
- 2021 UNGA co-sponsorship of GCTS resolution
- 2022 India-Russia Joint Action Plan
- Push to reform **UN CTC**
- Capacity building (Afghanistan, Iraq, Syria)

QUOTE

"Nathi Santi Paran Sukham" and "Ekam Sad Viprah Bahudha Vadanti" — PM Modi on universal peace.

TERRORISM AS AN "INDUSTRY"

- Hierarchy + franchise (AQAP, AQIM) · alliances (Boko Haram-ISIS) · recruitment · diversified funds (Hezbollah: Iran, drugs; Taliban: opium) · tech (drones, 2014 Sony hack) · branding (**Dabiq**) · impact (9/11, 26/11) · counter: USA PATRIOT Act, Global Coalition vs ISIS (80+)

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

CCIT pushed since?	1996
UNSC 1373 about?	Financing; post 9/11
SCO RATS year?	2004

MY NOTES

CHAPTER 40 · CLASS SLIDES (OCR, LOW CONFIDENCE)

40 Interpol, BharatPol, MLATs and International Policing

LOW PRIORITY Mains PYQs quoted: **Fugitives, extradition, cooperation**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- **Interpol** colour notices + **BharatPol** + **MLATs** = global policing tools.

Key term	In plain words
Extradition	Handing over an accused or convict to another country under treaty.
MLAT	Treaty for legal assistance in criminal matters.

NOTE

Source note: built from OCR of handwritten slides; items marked (verify) must be checked before use.

NOTE

Interpol: founded **1923**, HQ **Lyon, France**; 195 member countries; each has a **National Central Bureau** as point of access (India: CBI).

WHY INTERNATIONAL POLICING

- **Transnational nature** of crime (drugs, wildlife and timber, organised networks)
- Extradition is slow
- Bureaucratic and **sovereignty** concerns
- Disparities in laws, jurisdictions and technology

Interpol notice	Purpose
Red	Fugitive charged with or convicted of serious crime (locate and arrest)
Blue	Additional information on identity or location
Green	Warning about habitual offenders
Orange	Warn of imminent threat (hidden weapons, bomb threat)
Black	Information about unidentified bodies
Purple	Modus operandi, objects or cybercrime tools

Interpol notice	Purpose
Silver	Trace assets linked to crime (pilot project; India part of it, verify)

BHARATPOL AND MLATS

BHARATPOL

- Launched by **CBI**
- Digital platform to connect Indian law-enforcement agencies with Interpol
- Replaces letters and emails with a **faster integrated** system
- **5 modules** (verify): connect, broadcast, references, notices, resources

MLATS

- **Mutual Legal Assistance Treaties**: formal treaties between 2+ countries for legal assistance in criminal matters
- India has MLATs with **40+ countries**
- Issue:
  - Slow, via **judicial, diplomatic** channels
  - BharatPol is faster and flexible

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Interpol HQ and year?	Lyon, 1923
Red notice?	Fugitive to be located and arrested
BharatPol launched by?	CBI
BNSS S.356?	Trial in absentia of proclaimed offenders

MY NOTES

CURRENT AFFAIRS
Recent (verify): BNSS S.356 allows **trial in absentia** of proclaimed offenders. India chosen to chair UN **Commission on Narcotic Drugs** session; Interpol and UNODC asked to target profits of organised crime.

41 UAPA and NIA

CHAPTER 41 · HANDOUT (MISC) P.39-46

HIGH PRIORITY Mains PYQs quoted: **Anti-terror law debates**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **UAPA** now allows designating **individuals**
- **NIA** can probe across States and abroad
- Concerns: **due process, federalism, low UAPA conviction rate**.

Key term	In plain words
Fourth Schedule (UAPA)	List of individuals designated as terrorists.
Superintendence	Control over an agency; the NIA Act does not define it.

UAPA AMENDMENT 2019

Provision	What it does
S.35 designation	Centre can designate **organisations**; **2019** extends to **individuals** (Fourth Schedule)
Property seizure	Needs DGP approval; if NIA investigates, **DG NIA** approval
Investigation	DSP/ACP or above; **NIA Inspectors** and above can investigate
Schedule of treaties	Adds **International Convention for Suppression of Acts of Nuclear Terrorism (2005)** to nine treaties

CRITICISM

- **Arbitrary labelling**:
  - No FIR, chargesheet or conviction needed
  - Fails "just, fair, reasonable"
- **Fundamental rights**:
  - Art. 19 speech, assembly, association
  - Dissent criminalised
- **No safeguards**:
  - No judicial review/appeal for designation
  - Burden shifts
  - **Watali (2019)** limits bail scrutiny
  - **Thwaha Fasal (2021)** slightly easier bail

MY NOTES

CURRENT AFFAIRS

July 2026: MHA designated **23 more individuals** as terrorists under **S.35 UAPA** (Fourth Schedule): 17 Pakistani, 6 Indian, all operating from Pakistan or PoJK; earlier 57 → total **80**. **NIA (29 Jul 2026):** 690 cases, 169 judgments, 156 convictions = **92.31%**.

- **Federal encroachment**
- **Low conviction** — 2.2% of UAPA cases 2016-19
- Erodes judicial role

WAY FORWARD

- Use as **last resort**
- Narrow definitions of "unlawful activity/terrorist act" (protect protest, per **Art. 19(1)(a)**, **Maqbool Fida Hussain v. Rajkumar Pandey 2008**)
- **Independent review** mechanism
- Amend **S.43D(5)** (presumption of innocence)
- Clear bail-denial grounds

NIA ACT 2008

ABOUT NIA

- **Central counter-terror agency**, HQ New Delhi
- Formed after **26/11**
- Bill by P. Chidambaram Dec 2008
- Came into existence **31 Dec 2008**, functioning 2009
- Investigates offences against sovereignty/security: friendly relations with states, atomic facilities, **arms-drug-FICN smuggling**, infiltration, treaty offences — across States on MHA order
- **2019 Amendment**:
  - Adds **human trafficking, counterfeit currency, prohibited arms, cyber-terrorism, Explosive Substances Act**
  - Investigate offences **outside India**
  - Special Court in **New Delhi**

ANALYSIS

- **Constitutional validity**:
  - Police/public order = State subjects
  - Soli Sorabjee Committee and Law Ministry: Arts. **249 / 252** or amendment
  - **Entry 93, List I** gives some basis
- **Functioning**:
  - Investigation but not prevention (no intelligence role)
  - **Superintendence** undefined (politicisation)
  - Executive decides scheduled offence
  - **S.6(3)** gives Centre 15 days to decide

MY NOTES

WAY FORWARD

- **International cooperation** (information sharing, extradition, joint ops) · **coordination with State agencies** (joint task forces, shared databases) · **judicial oversight**

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

S.35 UAPA?	Designation of terrorist organisations; individuals after 2019
Total individuals designated by July 2026?	80
NIA conviction rate (Jul 2026)?	92.31%
Conviction of UAPA cases 2016-19?	2.2%

MY NOTES

CHAPTER 42 · TERRORISM HANDOUT P.35-48

42 Organised Crime and its Links with Terrorism

HIGH PRIORITY Mains PYQs quoted: **2022 (types, linkages)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **Crime and terror converge** on money, arms, routes and corruption.
- India: **BNS 111-112**, MCOCA, MAC/JOCs.

Key term	In plain words
IFF	Illicit financial flows.
Syndicate	Organised crime group in BNS terms.

NOTE

UNODC: continuing criminal enterprise that works rationally to profit from illicit activities in public demand, protected by **corruption and intimidation**. **UNTOC:** structured group of **3 or more** persons, over time, acting to commit serious crime for material benefit. India ratified UNTOC in **2011**.

INTERNATIONAL

- **1988 UN Narcotics Convention → 1994 Naples Conference → 2000 UNTOC adopted → 2011 India ratifies UNTOC**

COMMERCIAL SMUGGLING

- Soviet-style controls and high barriers → **1980s underworld** (film finance until industry status 1998)
- **Mumbai** hub
- Methods: contraband, relabelling, under-reporting, falsified certification
- Goods: gold, gems, cigarettes, electronics, phones

GUN RUNNING

- FICCI:
  - Each 1-point rise in arms-trafficking score ≈ **0.69-point** rise in GTI
  - Kashmir: none before mid-1980s, by 1989 seizures of **98 AK rifles**
  - Cross-border tribes as guides

MY NOTES

CURRENT AFFAIRS

Recent: NIA **Operation Dhvast** (129 locations, terror-gangster-drug network, with Punjab and Haryana police); MCOCA invoked against Lawrence Bishnoi in Salman Khan firing case; FICCI **Hidden Streams** report across 122 nations.

- Area Commanders distribute

MY NOTES

LINKAGES

Link	Example
Funding	Taliban heroin
Logistics	Al-Qaeda N. African routes; 26/11 logistics
Arms	Hezbollah traffickers
Human trafficking	ISIS and Yazidi women
Drugs	FARC cocaine
Money laundering	Hawala in South Asia
Extortion / kidnap	Boko Haram schoolgirls
Corruption	Mexican cartels bribe officials
Territory	ISIS in Syria and Iraq
Convergence	Mafia tactics

India region	Organised crime	Terror type
NER	Extortion, trafficking, gun running	Insurgency, ethno-nationalist
J&K	Funding, counterfeit, ML, opium	State-sponsored
LWE	Extortion, bank robbery	Ideological

Aspect	Terrorism	Organised crime
Motive	Political, ideological	Money, control
Style	Overt, spread fear	Covert, bribery
Structure	Tight hierarchy	Loose affiliates
Legitimacy	Does not seek	Needs social support
Civilians	Mass killing	Limited
Longevity	Long-term	Sporadic bursts
State	Opposes	Manipulates

COUNTERING

INITIATIVES

- **OCCUs**
- MCOCA, KCOCA, NDPS, Customs Act, ITPA, NSA
- FIUs
- **MAC / JOCs**
- Kimberley Process, FATF, UNODC, SCO-RATS, MLATs
- **UNTOC, UNCAC**

- ICSFT
- **CBN portal**

VALUE ADDITION

BNS S.111 organised crime: continuing unlawful activity by a syndicate using violence/coercion for material benefit; punishment **death or life** where death results, fine ≥ **₹10 lakh**. **S.112 petty organised crime:** gang theft, snatching, betting, paper leak etc.; **1-7 years** and fine.

MEMORY AID · 6C

Continuous IFF evaluation (SDG 16.4) · **C**entral nodal agency (like I4C) · **C**onsumer awareness · **C**ombat TBML (WCO AEO, blockchain) · **C**ooperation internationally (G20 New Delhi 2023) — the faculty's "6C approach" (five items listed in source)

VALUE ADDITION

Sahel case: terror deaths up >2000% (2007-22); firearms in 70% of 84 attacks; >9,300 deaths in 2022 — illicit arms feed terrorism.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

BNS S.111 fine?	≥ ₹10 lakh
UNTOC members of group?	3 or more
India UNTOC ratification?	2011

CHAPTER 43 · HANDOUT (MERGED) + TERRORISM HANDOUT

43 Drug Trafficking and Narco-Terrorism

HIGH PRIORITY Mains PYQs quoted: **2024 (narco-terrorism)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Drugs enter via **Punjab, Gujarat, North-East, ports and drones**.
- Answer = **NDPS + NCORD + border tech + demand reduction**.

Key term	In plain words
Narco-terrorism	Terror or violence financed or run through the drug trade.
Yaba	Methamphetamine tablets from Myanmar.
NCORD	Narco-Coordination Centre mechanism.

NOTE

Narco-terrorism = intersection of drug trafficking and terrorism, where violent acts by traffickers aim to **influence officials by intimidation and violence**. Drugs harm individuals, break families, weaken communities.

RECENT CONTEXT (VERIFY DATES)

Operation	Detail
Crystal Fortress (Nov 2025)	NCB + Delhi Police Special Cell; transnational **methamphetamine** cartel using Delhi as hub
Ragepill	NCB busts network; India's **first seizure of Captagon** (psychotropic used in Middle East)
White Strike	NCB dismantles **cocaine** syndicate in Mumbai-Thane
Global-Hunt	NCB + Interpol to trace international networks run by Indian fugitives

THE LANDSCAPE

LOCATION

- **Golden Crescent**: Afghanistan, Pakistan, Iran
- **Golden Triangle**: Myanmar, Laos, Thailand
- Government proposes calling them **Death Crescent** and **Death Triangle**

MY NOTES

- Drugs: cocaine, pseudoephedrine, heroin, alprazolam, methamphetamine, mephedrone, cannabis, hashish

ENTRY POINTS

- **Punjab and Gujarat**:
  - Golden Crescent
  - Punjab sees **drone drops**
- **North-East** (Myanmar border): heroin and **Yaba** (methamphetamine) tablets
- Networks in **South America, Africa, Middle East** target India as transit and destination
- **Sea ports**: Kolkata, Chennai, Mumbai, Tamil Nadu (Terrorism handout)

DRONE-ENABLED TRAFFICKING

- Drops of **narcotics, arms, ammunition, explosives** across India-Pakistan border without infiltration
- **GPS-guided** flights, fixed drop points, local receivers, **encrypted** communication
- Links foreign handlers, smugglers, **terror modules** and narco-finance

MEASURES

Level	Measures
Global	**UNODC** (est. 1997); World Drug Report 2025; Global Maritime Crime Programme (Southern Route); **26 June** = International Day against Drug Abuse (declared 1987)
Law	**NDPS Act 1985** (amended 1988, 2001, 2014, 2021): prohibition, punishment, **asset forfeiture**
Coordination	**NCORD**: Apex, Executive, State, District levels; **ANTF** in all States/UTs; **JCC** at Centre and States; NCB with Navy, Coast Guard, BSF
Technology	**Darknet and Crypto Task Force** (under MAC); anti-drone systems and SOPs; **NIDAAN** database of arrested offenders; FSL upgrades
Agencies	NCB **zonal units** at Srinagar, Siliguri, Agartala, Itanagar; new units approved (Ferozepur, Port Blair, Dimapur, Aizawl, Srigangnagar, Mangalore); **BGFs and RPF** empowered under NDPS
Demand side	**MANAS** helpline **1933**; **Nasha Mukt Bharat Abhiyaan**; **NAPDDR**; **Mission SPANDAN** (awareness)

VALUE ADDITION

Approach: whole-of-government = **ruthless on supply chain, strategic demand reduction, humane treatment of victims**.

MY NOTES

CURRENT AFFAIRS

Data (CAPF handout): Punjab seized **2,086 kg heroin = 58%** of 3,567 kg nationwide. INCB 2023: South Asia has 39% of opiate consumers.

CURRENT AFFAIRS

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Golden Crescent?	Afghanistan, Pakistan, Iran
Golden Triangle?	Myanmar, Laos, Thailand
MANAS helpline?	1933
NDPS amended in?	1988, 2001, 2014, 2021
NIDAAN stands for?	National Integrated Database on Arrested Narco-Offenders

World Drug Day 2025 theme: "Break the Cycle. #StopOrganizedCrime". Move from seizures to **network dismantling**: border security, financial tracking, rehab, international cooperation, community resilience.

CHAPTER 44 · HANDOUT (MERGED)

44 Gun Running (Illicit Arms Trafficking)

MEDIUM PRIORITY Mains PYQs quoted: **Arms smuggling, crime-terror nexus**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- Illegal arms power **crime, LWE and terror**.
- Fix: **anti-drone, tracing, local livelihoods, UN tracing norms**.

Key term	In plain words
SALW	Small Arms and Light Weapons.
ITI	International Tracing Instrument for marking and tracing arms.

NOTE

Gun running = illicit trafficking, manufacture and distribution of **Small Arms and Light Weapons (SALW)**. Small Arms Survey: millions of illicit firearms in India. **NCRB: over 90% of gun-related homicides involve illegal, unregistered weapons.**

SECURITY LINKAGES

- **Narco-terror nexus**: same routes and hawala as drugs (Golden Crescent and Triangle)
- **LWE**: looted security-force weapons plus grey-market arms (West Bengal, Bihar, Telangana)
- **Organised crime**: gangs upgraded from zip guns to smuggled automatic weapons

HURDLES

- **Drones**: low radar signature, night drops
- **Porous borders**: Indus riverine (Punjab), shifting chars of Brahmaputra, Myanmar hills
- **Darknet and crypto** payments
- **Grey market**: blank-firing or deactivated weapons converted to lethal

WAY FORWARD

- **Anti-drone** (kinetic and jamming) on western frontier
- **Ballistic fingerprint** database of seized arms

- Local ecosystem:
  - Livelihood rehabilitation in clusters like **Munger**
  - Tighter scrap/chemical sourcing rules
  - Grassroots intelligence
- Align with **UN Programme of Action (UNPoA)** and **International Tracing Instrument (ITI)**

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Share of gun homicides with illegal arms?	Over 90% (NCRB)
Famous illicit manufacturing cluster?	Munger
Two UN instruments?	UNPoA and ITI

CHAPTER 45 · HANDOUT (MERGED) + TERRORISM HANDOUT

45 Human Trafficking and Child Trafficking

MEDIUM PRIORITY Mains PYQs quoted: **Linked to organised crime**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **BNS 143** defines trafficking
- Most victims face **forced labour**
- Gaps: **weak AHTUs, 10.5% trial conviction, slow rehab**.

Key term	In plain words
AHTU	Anti-Human Trafficking Unit of police.
Palermo Protocol	UN protocol against trafficking in persons, esp. women and children.

NOTE

BNS S.143: recruiting, transporting, harbouring, transferring or receiving a person for **exploitation** through threats, force, coercion, abduction, fraud or deception. **S.144**: exploitation of a trafficked person (Terrorism handout). Forms: forced labour, domestic servitude, forced marriage, beggary, pornography, illegal organ removal.

CHILD TRAFFICKING

NOTE

Data: 98,375 children missing in 2024 (+7.8%). **53,000+** rescued Apr 2024-Mar 2025. Conviction rate 2018-22 only **4.8%**.

DEFINITION AND CAUSES

- **Palermo Protocol (2000)**: recruitment, transport, transfer, harbouring or receipt of a child for exploitation
- Push factors: poverty, unemployment, migration, disasters, family breakdown
- **Social media** recruitment (fake jobs, modelling)
- **ART and IVF** frameworks misused to legitimise kidnapped or bought children

LEGAL AND JUDICIAL

- **Arts 23, 24**: no trafficking, forced labour, hazardous child work
- **Art 39(e),(f)**: protect children from exploitation

MY NOTES

CURRENT AFFAIRS

NCRB 2023: 2,183 cases (-3%); **6,288 victims**, **~43% below 18**. More females overall; among minors boys outnumber girls. Over 2015-23 **forced labour** is the largest category, then sexual exploitation. **Punjab and Haryana** report most cases (EAM, Rajya Sabha, Dec 2025). Earlier handout: ~90% of trafficking is domestic.

- **BNS 98, 99**: selling and buying minors
- **Vishal Jeet**: child prostitution and trafficking need preventive, humane approach
- **M C Mehta**:
  - Hazardous child labour
  - **Bachpan Bachao Andolan**: directions on exploitation

CHALLENGES

CHALLENGES

- **Hollow AHTUs** (Sanjog Watch):
  - Staff do general policing
  - No autonomy or budget
- **Conviction only 10.5%** of trials
- **95%+** cases pending
- **Rehab tied to conviction**: compensation delayed
- **New methods**: social media, fake jobs, migration packages, word of mouth

GOVERNMENT MEASURES

Area	Measure
Police	Funds for **Anti-Human Trafficking Units**; MHA conferences and judicial colloquiums; **NIA** can investigate inter-state/international cases
Data-bases	Crime Multi Agency Centre; **ITSSO**; **NDSO** (18 lakh+ offenders); **NDHTO** (1.20 lakh+ offenders)
Victim support	Women Help Desks; **Shakti Sadan** (Mission Shakti); Child Care Institutions under **Mission Vatsalya**
Interna-tional	**UNCTOC** and its trafficking Protocol ratified; **SAARC Convention** on trafficking of women and children (Regional Task Force); MoUs with **Bangladesh, UAE, Cambodia, Myanmar**

VALUE ADDITION

Conclusion: move from rescue to **victim-centred** system: stronger AHTUs, faster trials, rehab, border coordination, safe migration; a uniform **SOP (as directed by the Supreme Court)** so every missing-person complaint triggers immediate action.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

BNS section for trafficking?	143
Missing children 2024?	98,375
Child conviction rate 2018-22?	4.8%

MY NOTES

NDHTO holds?	1.20 lakh+ offender records
Palermo Protocol year?	2000

MY NOTES

CHAPTER 46 · ML HANDOUT + CLASS SLIDES

46 Money Laundering and Black Money

HIGH PRIORITY Mains PYQs quoted: **2013 (10) · 2018 (15) · 2021 (10) · 2023 (15)**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- ML = hiding the source of crime money
- **stages PLI**
- **PMLA 2002** is the law, **ED and FIU-IND** act
- **FATF** sets global standards
- India is in **regular follow-up**

Key term	In plain words
Predicate offence	The original crime that produced the money.
Smurfing	Splitting cash into small deposits.
Chain-hopping	Moving crypto across blockchains to hide the trail.
ECIR	ED's internal case report; not an FIR.

NOTE

Money laundering (PMLA 2002, S.3): concealing or disguising the true nature, source, location, disposition, movement, rights or ownership of **proceeds of crime**, and includes acquiring, possessing or using such proceeds, directly or indirectly and knowingly. **UNODC:** 2-5% of global GDP ($800 bn-2 tn) is laundered every year.

MEMORY AID · CITE

Why it is done: **C**oncealment of illegal activity · **I**ntegration into legitimate economy · **T**error and organised-crime financing · **E**vasion of tax (own mnemonic)

STAGES

MEMORY AID · PLI

Placement → **L**ayering → **I**ntegration (own mnemonic)

Stage	Meaning
Placement	Cash first enters banks; riskiest stage; **smurfing** = splitting cash into small deposits
Layering	Many transfers to lose the trail (shell firms, offshore accounts)

Stage	Meaning
Integration	Money re-enters as legitimate wealth (real estate, business)

> NOTE
> **Keywords:** smurfing · shell company · offshore account · **predicate offence** (the original crime) · proceeds of crime. "Money laundering is the oxygen of organised crime and terrorism."

TECHNIQUES

OLDEST → OLDER → LATEST

- **Oldest:** hawala, physical smuggling and cash couriers
- **Older:**
  - Shell companies
  - Over/under-invoicing (**TBML**)
- **Latest:** cyber-crime and identity theft, hedge funds, **cryptocurrency, NFTs**, insurance (buy, surrender, "clean" refund), white hawala

HAWALA

- Money transfer **without movement of money**
- No RBI oversight
- Instant
- Runs on trust and code words
- No paper trail
- **White hawala:** legal purpose (family remittance) but outside banking channel
- **Black hawala:** funds crime, terror, tax evasion
- FATF Special Recommendation on **Alternative Remittance** targets it

OVER AND UNDER-INVOICING

- **Over-invoicing:**
  - Importer pays more than goods are worth
  - Extra money leaves India legally
- **Under-invoicing:**
  - Goods declared cheaper
  - Difference settled in black money abroad
  - Duty evaded

MY NOTES

CRYPTOCURRENCIES IN ML

WHY LAUNDERERS LIKE CRYPTO

- **Decentralised ledger**: no central authority
- **No intermediaries**: less detection
- **Beyond** traditional regulation
- **Pseudonymous**: harder to trace

MECHANISMS

- **Crypto-mixers:** mix identifiable tokens with others to hide origin
- **Chain-hopping:** move between blockchains (Bitcoin → Monero → other chain → cash out at weak-KYC exchange)

PREVENTION

- Regulate crypto services
- Exchange KYC and STRs
- Blockchain analytics use the public ledger
- Global:
  - **UNGPML** standards
  - Pressure on tax havens

IMPACT

> **MEMORY AID · SEEPS**
> Dirty money seeps everywhere: **S**ocial · **E**conomic · **E**nvironmental · **P**olitical · **S**ecurity (own mnemonic; headings in faculty order Social, Economic, Political, Security, Environmental)

IMPACTS

- **Social:** illegal businesses strengthened, loss of social capital, power moves to criminals
- **Economic (micro):**
  - Institutions' reputation, higher business cost, organised crime up, policy distortion
  - **(macro):** tax evasion, EoDB, volatile exchange rates, market confidence, insurance premiums
- **Political:** state loses taxes, spends more on crime
- **Security:** terror funding, more crime
- **Environmental:** illegal wildlife trade, zoonotic disease risk (FATF 2020 report; trade $7-23 bn a year; India source of rhino horn, pangolin, tusks)

MY NOTES

CURRENT AFFAIRS
India: VDA tax **30% on gains + 1% TDS**; **PMLA 2023** brought VDA service providers in as reporting entities; FATF **travel rule**. **FATF June 2026:** seventh targeted update on virtual assets/VASPs and a report on DeFi risks (verify dates).

CHALLENGES AND WAY FORWARD

MEMORY AID · STAMP + CBT

Smuggling · **T**ech evolution · **A**wareness lacking · **M**ultiple agencies · **P**redicate-offence law; then **C**onviction low · **B**anks skip KYC · **T**ax havens (own mnemonic)

MEMORY AID · MONEY LAUNDER

(faculty) **M**onitoring transactions · **O**rganisational acceptance policy · **N**otifying suspicious transactions · **E**nforcement of KYC · **Y**ielding to compliance · **L**egalising and regulating crypto · **A**dvanced e-AML tools · **U**nified agency coordination · **N**PA management · **D**ue diligence · **E**nhanced information sharing · **R**egulation of international wires

INITIATIVES

Level	Measures
India: law	PMLA 2002; FEMA 1999; Benami Transactions Act 1988 (amended 2016)
India: regulators	FATF compliance; RBI, SEBI, IRDAI
India: agencies	**ED** investigates and prosecutes; **FIU-IND** receives STRs; CBDT
India: tech	Project Insight; **Central KYC Registry**
Global	Vienna Convention 1988; Basel Statement 1988; **FATF 1989**; Council of Europe 1990; **UN GPML 1997** (UNTOC, UNCAC); APG (41 members, India member); Wolfsberg Principles (11); IMoLIN; Egmont Group

MEMORY AID · VBFCU

"**V**ery **B**ig **F**ish **C**atch **U**nwary": Vienna and Basel (1988) → FATF (1989) → CoE (1990) → UN-GPML (1997) (own mnemonic)

PMLA 2002

FEATURES

- **Attachment and confiscation** of proceeds of crime
- **Schedule Part A and B** list predicate crimes
- Criminal conspiracy
- **Standalone offence**
- Covers **PEPs, VDAs, NPOs**
- International jurisdiction for ED

MY NOTES

CURRENT AFFAIRS

Data: ED had 5,892 cases since 2015 but only 15 convictions (RS 2025; ≈4.6%). ED claims 93.33% on cases tried (56 of 60): "high success on a tiny base". The **2019 amendment** made ML an independent offence (fixes predicate-offence challenge).

ISSUES

- Low conviction
- ED outside CrPC
- Statements to ED admissible
- **S.45 twin bail**
- **Reverse burden** on accused
- Dilution of laws

> **MEMORY AID · PEN-D**
> **2023 amendment: P**EPs covered · b**E**neficial owner threshold **25% → 10%** · **N**GOs/NPOs brought in (NGO Darpan) · **D**ue diligence extended (records 5 years), VDAs covered (own mnemonic)

VIJAY MADANLAL CHOUDHARY (2022)

- Amendments valid as **Money Bill**
- S.3 read broadly: directly or indirectly, actually involved, connected with proceeds, untainted property
- **Continuous crime** (covers earlier offences)
- **ECIR is not FIR**
- ED need not share copy
- **Twin bail:**
  - Prosecutor heard
  - Court must believe accused not guilty and unlikely to reoffend

> **MEMORY AID · P·M·L·A**
> (faculty) PMLA way forward: **P**rocedural reforms · **M**aintaining operational efficiency · **L**ist of scheduled offences (review) · **A**dding clarification on terms

FATF

> **NOTE**
> **FATF**: set up by **G7 in 1989**; issues **40 Recommendations**; **Mutual Evaluation** (effectiveness + technical compliance); poor performers on **grey list** (increased monitoring) or **black list** (call for action).

Rec. no.	Subject
1	Risk assessment, risk-based approach
3-4	ML offence; confiscation
10-12	Customer due diligence; record keeping; specific customers
14-15	PEPs; correspondent banking
24	Beneficial ownership of legal persons

MY NOTES

> **CURRENT AFFAIRS**
> **Current affairs (verify): ED v. Bhupesh Arora** (SC, 29 Sep 2026): quashing predicate FIR by compromise does not wipe out proceeds of crime; ED told to finish probe in 5 months. **Sanjay Sureka v. ED** (2026 INSC 1124, Oct 2026): S.19 arrest material to Adjudicating Authority "immediately" = expeditiously; 5-day delay held fine.

Rec. no.	Subject
29, 39	FIUs; extradition

MEMORY AID · UNFAIR + CCW

Terror-finance special recs (9): **U**N instruments · **N**PO · **F**reeze assets · **A**lternative remittance · **I**nternational co-op · **R**eport STRs; then **C**rim-inalise · **C**ash couriers · **W**ire transfers (own mnemonic). Handout says 8 (2001); 9th (cash couriers) added 2004.

MEMORY AID · SLIPS

Concerns in India's MER: **S**upervision gaps (DNFBPs, dealers in precious metals) · **L**egal/operational (28 convictions in 5 years; backlog) · **I**llegal activities (cyber fraud, corruption, drugs) · **P**EPs (no clear provisions) · **S**ecurity threats (ISIL, Al-Qaeda in J&K, LWE) (own mnemonic)

CRITICISM OF FATF PROCESS

- No formal rules
- Weak listing regime (wilful/non-wilful)
- Absentees (Pakistan)
- Low Global South representation
- Emerging tech not covered

ANSWER FRAME (15 MARKS)

VALUE ADDITION

Intro: definition + UNODC 2-5% GDP → Body: stages → techniques (old to latest) → impact (SEEPS) → legal framework (PMLA, FEMA, FIU, ED) → challenges → Way forward: MONEY LAUNDER + FATF + "Beyond-Border Cooperation" → Conclusion: balance enforcement with technology and international cooperation. **Keep three layers: legal, institutional, technological.**

MY NOTES

CURRENT AFFAIRS

FATF on India: on-site Nov 2023 → adopted June 2024 (Singapore) → report released 19 Sep 2024; "**regular follow-up**" (only 4 other G20: UK, Italy, France...); JAM trinity praised; previous review 2010, next 2031. Asked for stronger prosecution and NPO protection. **June 2026 plenary:** grey list + Bosnia & Herzegovina, Iraq; - Algeria, Namibia; black list unchanged (N Korea, Iran, Myanmar); UK presidency from 1 Jul 2026; India's Vivek Aggarwal incoming Vice-President (verify).

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

PMLA S.3 defines?	Money laundering
Riskiest stage?	Placement
Beneficial owner threshold after 2023?	10% (from 25%)
FATF set up by, when?	G7, 1989
India FATF category?	Regular follow-up
Twin bail test limbs?	Court believes not guilty and unlikely to reoffend
ED conviction data?	15 of 5,892 (RS 2025) vs 93.33% of cases tried

CHAPTER 47 · HANDOUT (MERGED) FCRA

47 Foreign Contribution Regulation Act (FCRA)

HIGH PRIORITY

Mains PYQs quoted: **NGO funding, foreign influence, internal security**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **FCRA 2010**: MHA regulates foreign money to NGOs and associations.
- **Bill 2026**:
  - Handles assets after registration ends
  - Lighter jail term
  - JPC reviewing
- Courts: regulation valid but must be **proportionate**.

Key term	In plain words
Vesting	Transfer of foreign-funded assets to a government authority.
Cessation	Registration ending by non-renewal or rejected renewal (new in Bill).
Key functionary	Person who manages the organisation (director, trustee, office-bearer).

NOTE

FCRA 2010 regulates acceptance and use of **foreign contribution and foreign hospitality** by individuals, associations and companies. Administered by the **Ministry of Home Affairs**. Aim: stop foreign funds being used for activities **detrimental to national interest** (political mobilisation, religious activity, civil-society funding, money laundering, terror financing).

MEANING AND ELIGIBILITY

FOREIGN CONTRIBUTION = DONATION BY A FOREIGN SOURCE OF

- **Article** (except personal gifts within limit)
- **Currency** (Indian or foreign)
- **Security** (incl. foreign security)
- **Interest or income** earned on it is also foreign contribution
- **NRI** money from personal savings through normal banking is **not** foreign contribution (NRIs are Indian citizens)

MY NOTES

WHO CAN RECEIVE?

- Person with a **definite cultural, economic, educational, religious or social programme**
- Includes individual, HUF, association, **Section 8 company** (only if registered non-profit with **3-year track record** or explicit prior permission of MHA)
- Must hold **FCRA registration** or **prior permission** of the Centre

COURTS ON FCRA

Case	Held
Noel Harper v UoI (2022)	SC upheld the main **2020 amendment** provisions. Receiving foreign contribution is **not an absolute right**; can be regulated for sovereignty, integrity and public order
UoI v Sharma Centre for Heritage Education (2025)	Madras HC: denial of renewal **disproportionate** where no misuse; SC declined to interfere

> **VALUE ADDITION**
> **Balance:** strict regulation is constitutionally valid, but action must be **evidence-based, fair and proportionate**. Use this line in any NGO-regulation answer.

THE FCRA AMENDMENT BILL, 2026

WHY PROPOSED

- **Asset-management vacuum**: vesting existed but no custody or disposal mechanism
- **Expired registrations**: unclear what happens to assets
- **Suspension**: no clarity on assets during suspension
- **Multiple investigations** by different agencies
- **Disproportionate penalty**: 5-year jail for general breach seen as excessive
- **Prior permission**: no time limits for receiving and using funds

Existing Act	Bill 2026
Certificate renewed every **5 years**; cancel or surrender only	New concept of **cessation**: not renewed in time, no application, or renewal rejected
Assets vest in prescribed authority on cancel/surrender	Vesting extended to cessation; a **Designated Authority** covers assets made **fully or partly** from foreign money; **provisional** until renewal or restoration, else **permanent**

MY NOTES

Existing Act	Bill 2026
No post-vesting framework	Permanent assets: public use, transfer to government bodies, or disposal; **sale proceeds and unused funds go to Consolidated Fund**
Nothing on places of worship	Vested place of worship managed appropriately, **religious character preserved**
Prior-permission funds: no time limit	Must be received and used within the **prescribed period**
Loose terms for office bearers	**Key functionary** defined widely (Rule 2(1)(ca)): directors, partners, trustees, Karta, office-bearers, governing body
No duty if body becomes defunct	Last key functionaries must **inform the Centre**; failure → permanent vesting
General breach up to **5 years**	Max **1 year**; **prior Central approval** before investigating an offence
Ban covers associations and companies making news/current affairs	Widened to **any person** engaged in such activity

FCRA AMENDMENT RULES, 2026

RULES

- **Activity and State-specific** registration (purposes and States/UTs named)
- **More reporting**: project-wise and activity-wise use, website and social media, **ultimate foreign donor**
- **Renewal**: reasonable activity = at least **₹10 lakh** used in previous **2 years**
- Religious purposes more specifically defined
- **Next instalment**: activity-wise disclosure and **75%** use of previous instalment, subject to field inquiry

SIGNIFICANCE, CONCERNS, WAY FORWARD

SIGNIFICANCE

- Clear **management of foreign-funded assets** (hospitals, schools, buildings)
- Traceability protects **sovereignty and national security**
- Accountability of **assets**, not only money flow
- Stops misuse by **defunct** entities
- Single **Designated Authority**
- Digital governance (FCRA 2.0)

MY NOTES

CURRENT AFFAIRS

Current affairs (verify dates): Bill referred to a **31-member Joint Parliamentary Committee** after opposition and public pushback. **FCRA 2.0 portal** launched **30 June 2026** (revamp, cloud migration, process re-engineering).

CONCERNS

- **Non-renewal may lose assets** even if NGO simply stops foreign funding
- **Mixed-funded assets**: whole asset vests first (a hospital wing built with domestic plus foreign money is hard to split)
- **Due-process gap**: no prior hearing or statutory appeal if Centre refuses renewal
- **Small NGOs** burdened by ₹10 lakh test

WAY FORWARD

- **Proportionality**: vest only the foreign-funded share
- Orderly **exit route** for NGOs that stop foreign funds
- **Natural justice**: reasoned order, hearing, appeal
- **Risk-based** regulation: serious diversion versus minor procedural lapse

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Who administers FCRA?	Ministry of Home Affairs
Section 8 company condition?	3-year track record or prior permission
Noel Harper (2022)?	SC upheld 2020 amendments; no absolute right to foreign funds
2026 Bill: jail for general breach?	Cut from 5 years to 1 year
Renewal minimum use (2026 Rules)?	₹10 lakh in preceding 2 years

CHAPTER 48 · HANDOUT (MERGED) TBML

48 Trade-Based Money Laundering (TBML)

HIGH PRIORITY Mains PYQs quoted: **Money laundering, hawala, capital flight**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **TBML** hides dirty money in trade documents.
- Fix = **share data** across customs, banks and FIU.

Key term	In plain words
Phantom shipment	Paper trade with no goods moved.
Hawala	Informal value transfer outside banks.
Egmont Group	Network of FIUs that shares financial intelligence.

NOTE

FATF: misuse of **trade transactions** to disguise criminal proceeds and move value through the formal trade system, by misrepresenting **price, quantity, quality, shipment or documents**.

METHODS OF TBML

Method	How it works
Over / under-invoicing	Inflate or deflate invoice value to shift value between importer and exporter
Multiple invoicing	Same shipment invoiced many times to justify repeated bank payments
Phantom shipment	Fake documents for goods that never move
Misclassification	Goods wrongly described to alter price, duty or scrutiny
False description	Quality, weight or quantity misstated
Shell companies	Front firms route funds and hide beneficial owners

WHY IT IS A SERIOUS THREAT (NOT JUST A CUSTOMS OFFENCE)

- **TBML**: Organised crime · Drug trafficking · Terror financing · Capital flight · Customs duty evasion · Distorted trade data

NOTE

India angle: large trade volumes, high-value goods (**gold, gems, jewellery, electronics, machinery**), and informal channels like **hawala**.

MY NOTES

INDIA'S FRAMEWORK

LAWS AND BODIES

- **Laws:** PMLA 2002, FEMA 1999, Customs Act 1962, RBI directions
- **Agencies:** ED, DRI, Customs, FIU-IND, RBI, DGFT, CBIC
- **Authorised Dealer banks** process trade payments
- Must spot suspicious patterns, not just check papers

> **VALUE ADDITION**
> **Core problem:** banks see the **money trail**, customs sees the **goods trail**, enforcement sees the **criminal trail**. If they do not talk, TBML stays hidden.

CHALLENGES

- Valuation difficulty
- Shell-company networks
- **Beneficial ownership** opacity
- Jurisdictional barriers
- Fake documents
- Balance with **ease of doing business**

WAY FORWARD: "FOLLOW THE GOODS, FOLLOW THE MONEY"

- Integrate **Customs, banking, GST, DGFT, FIU and company-ownership** data for risk-based detection
- Use **AI, price benchmarking, network analytics, anomaly detection**

FATF BEST PRACTICES

Practice	Meaning
Risk-based national assessment	Include TBML in National Risk Assessment (sectors, commodities, routes)
Data integration	Cross-match STRs, customs, shipping, invoices, ownership data
Public-private partnership	Trade data is scattered across banks, shippers, traders, government
Red flags	**FATF-Egmont** indicators: business structure, trade activity, documents and commodities, account activity
Customs-FIU cooperation	Goods intelligence plus money intelligence; e.g. **FIU-IND and SEBI MoU** for database sharing

MY NOTES

NOTE

Conclusion: legitimate commerce is being used for illicit finance; protecting financial integrity, revenue and internal security needs law, technology, customs intelligence, bank vigilance and international cooperation together.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Six TBML methods?	Over/under-invoicing, multiple invoicing, phantom shipment, misclassification, false description, shell companies
Core detection gap?	Money, goods and criminal trails sit in different agencies
Approach?	Follow the goods, follow the money

CHAPTER 49 · ML HANDOUT

49 Terror Financing and Black Money

HIGH PRIORITY Mains PYQs quoted: **Terror funding, black money**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Terror gets money from **new tech, crime, laundering and sponsors (NOMS)**.
- Answer = **network approach + FATF + tech + KYC**.

Key term	In plain words
IS-K	Islamic State Khorasan Province.
TIEA	Tax Information Exchange Agreement.

NOTE

Terror financing (UN Convention): any person who provides or collects funds, directly or indirectly, unlawfully and wilfully, intending or knowing they will be used for a terror offence. Money is used to **recruit and support members, maintain logistics hubs, conduct operations**.

MEMORY AID · NOMS

Methods: **N**ew technology (crypto: IS-K asked Monero donations via Voice of Khorasan; digital assets, gaming, prepaid cards, dark web) · **O**rganised crime (kidnapping, narcotics, illicit oil, charcoal, diamonds, gold, organ and human trafficking) · **M**oney laundering (banks, SWIFT, hawala) · **S**ponsors (state sponsorship, crowdfunding, misuse of Zakat and NPOs, e.g. Global Relief Foundation) (own mnemonic; also "No Money for Terror")

"NO MONEY FOR TERROR" CONFERENCE, NEW DELHI 2022

TAKEAWAYS

- **~450 delegates**
- Reviewed global counter-terror-finance regime
- No "good" and "bad" terrorism: **zero tolerance**
- Fight terrorism as a **network**, not just a terrorist
- **Impose costs on state sponsors**
- Isolate sympathisers
- Crime-terror links: global collaboration (UNSC, FATF, FIUs, Egmont)

MY NOTES

- Technology:
  - Involve the private sector
  - Do not demonise tech
- **Delhi Declaration** (UNSC CTC) on countering new tech for terror

BLACK MONEY

QUICK MAP

- **Sources:** tax evasion, IPO/insider trading, shell companies, gold, corruption, tax havens, cash economy, hawala, illegal gambling
- **Effects:** lower FDI, parallel economy, policy distortion, inequality, security risk, inflated real estate, vicious cycle
- **Government steps:** Black Money Act 2015, Benami Act 2016, TIEAs, GST, IDS and PMGKY 2016, RERA, PAN, UPI, demonetisation

> **MEMORY AID · BLACK**
> Way forward: **B**etter regulatory framework · **L**everage technology · **A**wareness · **C**ooperation among agencies · **K**YC enforcement (faculty)

MY NOTES

CURRENT AFFAIRS
Data (from handout): ₹9.41-14.71 lakh crore (2015) · GFI: $38.7 bn/yr outflow (2002-11) · Swiss deposits CHF 3.83 bn (2021) · ~90% of black money lies inside India.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

NOMS expand?	New tech, Organised crime, Money laundering, Sponsors
Conference year and place?	2022, New Delhi
BLACK expand?	Better framework, Leverage tech, Awareness, Cooperation, KYC

CHAPTER 50 · CYBER HANDOUT P.1-20

50 Cyber Security: Framework, Policy and Institutions

HIGH PRIORITY Mains PYQs quoted: **2013, 2015 (x2), 2017, 2019, 2022**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- India has **laws and bodies**, but a **fragmented framework** and a skills gap.
- 2020 strategy: **Secure, Strengthen, Synergise**.

Key term	In plain words
Zero trust	No user or device trusted by default: authenticate and authorise every access.
CII	Critical Information Infrastructure.

NOTE

Cybersecurity (UN GGE 2015) = tools, policies, safeguards, risk management, training and technologies that protect the cyber environment and users' assets. **CIA + N: C**onfidentiality (eavesdropping) · **I**ntegrity (man-in-the-middle) · **A**vailability (DDoS) · **N**on-repudiation (digital signature).

ELEMENTS

- Confidentiality (encryption, access control) · Integrity (hashing, signatures) · Availability (redundancy, DR) · Risk management · Network (firewall, IDS, VPN) · Endpoint (EDR) · Data (DLP) · IAM (RBAC, SSO) · Cryptography (PKI) · Incident response · Governance

WHY VULNERABLE

- Budget limits · **imported equipment** · complex networks · evolving threats (AI, social engineering, state-sponsored)

ISSUES IN THE FRAMEWORK

FOUR CATEGORIES

- **Federal:**
  - Police/public order = State List
  - Cybersecurity not in Seventh Schedule
  - Multi-statute
  - No integrated national security strategy

MY NOTES

CURRENT AFFAIRS

Data: internet subscribers **1,092.79 m** (Mar 2026; 1,028.61 m Dec 2025; wireless 1,046.26 m). Resecurity: data of **800 m+ Indians** on dark web (Aadhaar-passport at $80,000 claim). **77 ransomware attacks in H1 2026** (2nd in APAC, 9th globally). 71% Indian firms saw AI-driven phishing/deepfakes. Cisco 2025: only **7%** of Indian organisations "Mature". PwC: need **~1 million** more professionals. 60% of power-sector equipment is Chinese.

- **Administrative:**
  - No procedural code for e-evidence
  - IT Act offences need **Inspector+**
  - Vacancies
  - No cyber labs
- **Technical:** workforce, **borderless and faceless**, low cost-high return, weak telecom security
- **Social:**
  - &gt
  - 80% use public Wi-Fi, 47% use VPN
  - Weak PPP
  - SME costs

INITIATIVES

EVOLUTION

- **2000 IT Act → 2004 NTRO (post-Kargil) → 2008 IT Act amended (cyber-terror) → 2013 NCSP → 2020 National Cyber Security Strategy → 2025 DPDP Rules, audit guidelines**

Type	Items
Legal	IT Act 2000; NCSP 2013; NDCP 2018; NCSS 2020; **Comprehensive Cyber Security Audit Policy Guidelines 2025**; DPDP Rules 2025; National Cyber Security Coordinator
Institutions	**CERT-In**, **NTRO**, **NCIIPC**, **I4C**, **NCCC**, TDSAT, Cyber Swachhta Kendra (**M-Kavach, USB Pratirodh, AppSamvid, Browser JSGuard**)
States	Kerala, Cyberabad, Maharashtra, Karnataka, TN; **Cyberdome** (2019 PYQ)
Other	Cyber Surakshit Bharat, Cyber Warrior Police, Digital India

> **VALUE ADDITION**
> **NCRF (NCIIPC):** non-binding; ≥ **10%** of IT budget on cyber; board oversight; ISMS; **CBDR**; regulator powers. **DIP** (DoT) real-time intelligence sharing; **Chakshu** on Sanchar Saathi to report fraud calls/SMS.

NCSP 2013 VS NCSS 2020

- **NCSP 2013:** secure ecosystem, assurance framework, 24x7 mechanisms, NCIIPC, indigenous tech, **5 lakh** professionals in 5 years, fiscal benefits. **Issues:** poor implementation, weak critical-infrastructure focus, funding, coordination, civil liberties, only defensive
- **NCSS 2020 (DSCI, Lt Gen Rajesh Pant):**
  - 21 areas

MY NOTES

- **Secure** (digitisation, supply chain, CII, payments, states, SMEs) · **Strengthen** (0.25-1% of budget; 15-20% of IT spend; R&D, drills) · **Synergise** (cyber insurance, **cyber envoys**, courts)

INTERNATIONAL AND WAY FORWARD

INTERNATIONAL

- **UN Convention against Cybercrime** adopted **24 Dec 2024** (first binding treaty)
- **Budapest Convention** (India, Russia, China critical)
- AU Convention (2014, in force 2023)
- Digital Geneva Convention (Brad Smith)
- **Tallinn Manual** (non-binding)
- Legal issues: silence of states, disagreements (IHL, self-defence, due diligence, countermeasures), **attribution**, accountability

WAY FORWARD

- **Resilience:** response plans, roadmap, detection (IDS, SIEM), user education
- **Institutions:** ISOs/CSOs, real-life drills, relay CERT-In advisories, **cyber minister** (Australia)
- **Innovation:**
  - Cyber insurance, **zero-trust**
  - Mindset: "not if but when"

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

CIA+N?	Confidentiality, Integrity, Availability, Non-repudiation
NCIIPC protects?	Critical information infrastructure
UN Cybercrime Convention date?	24 Dec 2024
NCSS 2020 author?	DSCI under Lt Gen Rajesh Pant

MY NOTES

51 Cyber Crime and Data Breaches

CHAPTER 51 · CYBER HANDOUT P.21-30

HIGH PRIORITY Mains PYQs quoted: **2020, 2018 (data security)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Cybercrime hits **systems, data, people, networks**.
- Reforms: **CPA, negative registry, BNSS e-evidence, I4C**.

Key term	In plain words
Digital arrest	Scam where fraudsters impersonate officials and "arrest" victims online.
Ransomware	Malware locking data until ransom is paid.

NOTE

FBI: any illegal activity using a computer or networked device to access, transmit or store data or to damage it.

Class	Types (example)
Software and system	Hacking (SolarWinds 2020); malware (WannaCry 2017, 150 countries); SQL injection; XSS; drive-by
Data compromise	Identity theft; breaches (Capital One 2019)
Social engineering	Phishing (COVID lures); Twitter hack 2020
Harassment	Cyberbullying, stalking, revenge porn/deepfakes
Hardware and network	DoS/DDoS (Mumbai grid 2020 per handout); MitM; bluebugging; IP spoofing; sniffing

SOUTHEAST ASIA SCAM HUBS

- Cambodia, Myanmar, Laos
- Fake jobs and trading tips
- ~**500** Indians repatriated from **KK Park (Myawaddy)** late 2025
- I4C: trading, **digital arrest**, investment, dating scams
- Mandarin apps suggest Chinese link
- **Inter-ministerial committee**

MY NOTES

CURRENT AFFAIRS

IBM 2026: average breach cost **$4.99 m** (+12%); ransomware breach ~$5.13 m.
Indian breaches: Aadhaar claims (2018, Oct 2023: 815 m), SBI 2019, Air India 2021 (4.5 m), RBI 2022, Zomato 2022 (17 m),

BREACH TYPES

- Stolen credentials · social engineering (phishing most common) · ransomware · system vulnerabilities · SQL injection · human error/ IT failure (~quarter) · physical compromise (skimmers)

STANDING COMMITTEE ON FINANCE (JAYANT SINHA) 2023

RECOMMENDATIONS

- Regulate third-party providers and big tech · secure payment systems · comprehensive legal framework · **Cyber Protection Authority** · help small banks/NBFCs · app stores share metadata · **Central Negative Registry** of fraud accounts · **banks compensate** fraud victims · stricter IT Act penalties and bail

WAY FORWARD (HANDOUT)

- **Institutions:**
  - MeitY + MHA
  - Full **I4C**
- **Law: BNSS, BNS, BSA** — e-FIR, electronic records as primary evidence
- **Technology:**
  - Digital trials
  - **DRDO National Malware Repository**
  - AI for defence/offence
  - **25 hubs** under National Mission on Cyber Physical Systems
- **People:**
  - Education and campaigns
  - **Cyber diplomacy** (Bletchley Declaration)

HDFC 2023 (3 m), Flipkart 2023 (20 m), AIIMS (ransomware) Nov 2023, Angel One early 2025 (~8 m users), **Tata Electronics June 2026** (630 GB claimed).

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Scam hub town 2025?	KK Park, Myawaddy
Cost of breach 2026?	$4.99 m
Finance committee chair?	Jayant Sinha

CHAPTER 52 · CYBER HANDOUT P.31-40

52 Cyber Warfare and Cyber Doctrine

HIGH PRIORITY Mains PYQs quoted: **2013 (cyber warfare)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Cyber = **new domain of conflict**
- India has **DCA + joint doctrines**
- Gap: **offensive doctrine and integration**.

Key term	In plain words
Cybered conflict	Conflict short of war using cyber as a domain.
APT	Advanced Persistent Threat: long-term state-grade intrusion.

NOTE

Cyber warfare (UNODC) = cyber acts that compromise critical infrastructure at the level of an armed attack; digital attacks on adversary networks to gain advantage. **Low kinetic** (weak parties: scanning, intrusion, malware) vs **high kinetic** (advanced powers: APTs, sabotage, DDoS).

Incident	Fact
Estonia 2007	Bronze Soldier → banks, media offline
Stuxnet 2010	Iran SCADA via USB
Ukraine 2014	DDoS before Crimea
Sony 2014	North Korea linked
US OPM 2015	22 m records; China
US election 2016	Russian information warfare
India 2020	Mumbai grid outage (China-linked, per handout); Pakistan RATs 2021
Russia-Ukraine 2022	Wipers, DDoS; APT28/29
Stryker 2026	Wiper across 80,000 systems, 79 countries
IP cameras 2026	14,000 cameras Ukraine/Russia

MY NOTES

CYBER ARMS RACE

- USA Cyber Command · S. Korea Cyber Warfare Command · UK, France Cyberforce · China unified units under CMC · India **Defence Cyber Agency**

EVOLUTION

- Estonia, Georgia, Stuxnet show state sponsorship
- &gt
- 60 states by 2015
- US, China, Israel, Russia lead offence
- None alone was an act of war → **"cybered conflict"**
- Cyber = new domain

THREATS TO INDIA

CHINA

- Espionage, Titan Rain, Ghostnet
- Unified CMC units
- Hacker recruitment
- **Pakistan:**
  - Low-level defacements
  - Pakistan Cyber Army breached CBI 2010
- **Global:**
  - Stuxnet hit 8% of Indian computers
  - 2012 attack on 10,000 officials
  - Attacks +100% (2017-21)

WAY FORWARD

- Traffic analysis · private/5G networks for C2 · train civilian hackers (MCTE, Signals) · **integrate NTRO, DCA, DIA, DSRA** for offensive ops · leverage IT industry

DOCTRINE AND DCA

> **VALUE ADDITION**
>
> **Defence Cyber Agency:** announced 2018 (Combined Commanders Conference) with space and special ops agencies; two-star head reporting to CDS via IDS; ~**1,000** personnel from three services; joint cyber operations.

MY NOTES

CURRENT AFFAIRS

Doctrines: IAF Basic Doctrine (cyber as cost-effective); **2017 Joint Doctrine**; 2018 Land Warfare Doctrine; Navy 2014 vision. **CDS Gen Anil Chauhan released declassified Joint Doctrines for Cyberspace Operations on 7 Aug 2025.** India still has **no declared doctrine for international cyber operations** (Arvind Gupta, 2016).

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

DCA head rank?	Two-star

Joint cyber doctrine release?	7 Aug 2025
Stuxnet target?	Iran nuclear SCADA

MY NOTES

CHAPTER 53 · CYBER HANDOUT P.41-45

53 DPDP Act 2023 and Digital Sovereignty

HIGH PRIORITY

Mains PYQs quoted: **2024 (DPDP context + features), 2018 (Srikrishna)**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- **Consent-based**, children protected, **but state exemptions are wide** and the **Board is weak**.

Key term	In plain words
Data fiduciary	Entity deciding purpose and means of processing.
Data principal	Person to whom the data relates.

NOTE

Context: passed **Aug 2023** after 5+ years of debate; first cross-sectoral personal data law. Applies to residents and businesses handling Indian residents' data; also abroad when offering goods/services to people in India.

Feature	Detail
Consent	**Free, specific, informed, unconditional, unambiguous**; legitimate uses (state service, security, legal duty, medical emergency, disasters)
Rights	Summary; correction, completion, updating, erasure; grievance redress; **nominate** a person
Fiduciary duties	Safeguards; accuracy; **breach notice to DPB**; erase on withdrawal; DPO; grievance system
Children	**Parental consent under 18**; no tracking or targeted ads
SDFs	Significant Data Fiduciaries: India DPO, impact assessments, audits
Localisation	Government may restrict transfers to notified countries; sector rules remain
Penalty	Up to **₹250 cr**; appeals to **TDSAT**; **S.37** blocking power
Regulator	**Data Protection Board** (no rule-making) instead of an independent authority

MY NOTES

CRITICAL ANALYSIS

CONCERNS

- **State exemptions:**
  - **S.7(b)** consented-benefit data reuse
  - **S.17(1)(c)** law enforcement
  - **S.17(2)(a)** blanket for security, public order
- **Discretion:**
  - **S.17(5)** exempt businesses (5 years)
  - **S.9(4)** children's-data exemption without criteria
- **DPB weak:**
  - Only one legal expert
  - Chairperson delegates
  - Can't frame regulations

> **VALUE ADDITION**
> **Verdict (handout):** modest and pragmatic but too discretionary; privacy depends on the government's commitment. Compare with the **Srikrishna Committee 2018** draft (independent authority) — general knowledge, verify.

MY NOTES

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Max penalty?	₹250 cr
Appeal body?	TDSAT
Age for parental consent?	Under 18

CHAPTER 54 · CYBER HANDOUT P.46-56

54 Social Media, Radicalisation and Fake News

HIGH PRIORITY Mains PYQs quoted: **2013, 2016, 2024**

Prelims PYQs: **none quoted in the material**

IN SIMPLE WORDS

- Social media **recruits, polarises and mobilises**.
- Answer: **IT Rules + NETRA + definitions + literacy**.

Key term	In plain words
Socmint	Social media intelligence: AI to find hotspots.
Echo chamber	Group where only like-minded views circulate.

THREATS TO INTERNAL SECURITY

- **Misinformation** (COVID) · **recruitment** (ISIS) · **communal hatred** (Delhi riots 2020) · cyberbullying · organised crime · espionage · **protest mobilisation** (Hong Kong, anti-CAA) · data breaches (Facebook 500 m, 2021) · insider threats (Twitter 2020)

RADICALISATION LADDER

- **Content creation (Dabiq, Rumiyah, Inspire) → Dissemination (YouTube, algorithms) → Targeting vulnerable (Twitter) → Grooming (WhatsApp, Telegram) → Echo chambers (Gab, Reddit) → Activation (lone-wolf calls) → Offline transition (Charlottesville) → Propagation and recruitment**

GLOBAL

- EU cooperation mechanism
- AI filtering and **Trusted Flagger** (YouTube)
- Sri Lanka 2019 blocks
- **Europol IRU 86%** removal
- German **NetzDG** (up to €50 m)
- EU Internet Forum
- **Tech Against Terrorism**
- Socmint
- UK **Prevent**
- See Something Say Something

MY NOTES

CURRENT AFFAIRS

India's measures: IT (Intermediary Guidelines and Digital Media Ethics Code) Rules 2021 (grievance, compliance, nodal officers; 24-hour takedown of certain content) · **CCPWC portal** · PIB **Fake News/ Fact Check** · **internet shutdowns** (121 in 2019, highest in world) · **NETRA** (DRDO 2014, keyword detection used by IB and RAW) · social media labs.

FAKE NEWS

NOTE

Misinformation = inadvertent; **disinformation** = deliberate. Types: misleading, imposter, fabricated, false connection, false context, manipulated, satire (Claire Wardle). Blackbird.AI: 99.4% of 927,908 tweets in 47 languages were inorganic (#NoMeat_NoCoronavirus). **Models:** surplus information (validation by numbers) vs deficit information (lack of correct info).

LAW

- MeitY defines disinformation broadly but IT Act/penal code do not formally
- **S.505(1)(b) IPC** and **S.54 DM Act 2005** (used in COVID) are inadequate

MEMORY AID · FAKE NEWS

Faculty: **F**ormal definitions · **A**wareness (#SayNoToFakeNews) · **K**nowledge (Alt News, Boom) · **E**nhanced legal framework · **N**ew tech (AI) · **E**ngagement with tech firms · **W**atchdogs (Press Council) · **S**wift response (MyGov, PIB Fact Check)

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

NETRA by?	DRDO (2014)
Shutdowns in 2019?	121
IT Rules year?	2021

MY NOTES

CHAPTER 55 · CYBER HANDOUT P.57-58; BORDER HANDOUT 12

55 Role of External State and Non-State Actors

HIGH PRIORITY Mains PYQs quoted: **2021 (15 marks)**

Prelims PYQs: **none quoted in the material**

MY NOTES

IN SIMPLE WORDS

- **State + non-state actors** combine
- Answer with **multi-layer measures**

Key term	In plain words
Proxy	Non-state group armed and directed by a state.

External state actors	Non-state actors
Military aggression: Galwan 2020	**Drugs:** Golden Triangle/Crescent syndicates
Border disputes: Sir Creek, Kashmir, Arunachal	**Piracy:** IOR
Cross-border terror: 26/11, Pulwama 2019	**Terror:** ISIS in Kerala
Cyber: 2020 grid; espionage (2 Chinese embassy staff expelled 2020)	**Human trafficking:** 8 m Indians in modern slavery (GSI 2021)
Propaganda by Pakistan	**MNCs:** economic espionage, lobbying
Insurgency: ISI support to ULFA etc.	**NGOs:** foreign funding (Zakat Foundation 2019), extremism
	LWE, ethnic violence, hackers

VALUE ADDITION

Answer line: the state/non-state boundary is blurred (proxies, front NGOs, mercenary hackers). Measures: border management, intelligence, UAPA/FCRA/FEMA, cyber defence, diplomacy (FATF, UN listing), community resilience.

END OF CHAPTER · RECALL AND DRILL

RECALL SHEET: COVER THE RIGHT COLUMN AND ANSWER

Two Chinese embassy staff expelled?	2020, espionage

Priority and PYQ index

Quick revision order. High: two or more PYQs map; Medium: one or partial; Low: none quoted in the handout.

Ch	Chapter	Priority	Mains PYQs quoted
